Water, Oil, and Gas 101
April 10, 2013, Denver, CO

This full-day program, cosponsored by the Rocky Mountain Land Use Institute (Sturm College of Law, University of Denver), the Colorado Bar Association CLE, and White & Jankowski, LLP, was the first of a 3-part series focusing on water, oil and gas issues of critical interest in Colorado. The first program provided an overview of the pertinent law and issues generated when the water, oil and gas industries interact; and addressed water quality concerns and the purchasing of water from municipalities for hydraulic fracturing and drilling. Program #2 is scheduled for June 11; Program #3 for August 16. CLE credits available. For more information please contact [Leslie Brodhead](#).

PROGRAM 1: TABLE OF CONTENTS

Section 1: How the Water and Oil and Gas Industries Interact

- Issues in the West When the Water and Oil and Gas Industries Interact, *Presented by Gwen Lachelt, County Commissioner*
- Oil and Gas Law and Water Law Overview: Coalbed Methane- Produced Water and More, *Presented by Sarah Klahn, Esq.*

Section 2: Purchasing Water from Municipalities for Hydraulic Fracturing and Drilling

Presented by: Jon Monson, Director, Water and Sewer Department; Walraven Ketellapper, Managing Principal; Cliff Wilson, Managing Principal

Section 3: Treatment, Recycling and Disposal of Water

Presented by Gary Beers, Managing Principal

Section 4: Water Contamination

- Lessons Learned from Pavillion, WY: Sources of Possible Water Contamination Due to Oil and Gas Development
Presented by Bruce Baizel, Esq., Director, Energy Program
- ReInjection of Produced Water and Beyond, *Presented by Alan Curtis, Esq.*

Section 5: Meaningful Water Quality Sampling vis- a- vis Oil and Gas Drilling

Presented by Christopher Sanchez, P.G. and James Milne, Environmental Manager
