The Columbia River Treaty
Columbia River Basin
1948 Flood
Storage: Run-of-the-River

Vantage residents—likely to escape with their lives—were put up in barracks and converted trailers on Snoqualmie Island and other sites all over town.

From Oregon Historical Society/Oregonian
Columbia River Treaty: Flood Control and Hydropower

- 3 Dams in Canada
- 60 years of flood control: $65 million
- Canadian Entitlement
  - 30 year contracts: $254 million
  - Northwest-California Intertie
- Entities
  - U.S.:
    - The Bonneville Power Administration (BPA) Administrator
    - U.S. Army Corps of Engineers (Corps) Division Engineer, Northwestern Division
  - Canada:
    - British Columbia Hydro and Power Authority (BC Hydro)
Why is the CRT Under Review?

- Assured flood control expires September 16, 2024
- The earliest date of unilateral termination was September 16, 2024 with a minimum of 10 years notice required

Columbia Basin Tribes in the U.S.

Columbia Basin Trust
a legacy for the people

Northwest Power and Conservation Council
striking a balance between energy and the environment in the Columbia River Basin
• The Columbia Basin tribes’ interests must be represented in the implementation and reconsideration of the Columbia River Treaty.
  – Sovereign voice in river management
  – Equitable benefits to each Tribe in priority to other sovereign parties
  – Integrate traditional ecological knowledge in river management
• The Columbia River must be managed for multiple purposes, including -
  – Tribal cultural and natural resources
  – Recognize tribal flood control benefits
  – Protecting tribal [treaty and settlement] rights . . . consistent with ecosystem-based management.
U.S. Regional Review

- Flood Control
  - Storage use?
  - 450,000 cfs risk
- Ecosystem Function
  - 3d Purpose
  - Augment spring and summer flows
- Hydropower:
  - Reduce CE
- Implementation
  - Revisit composition of the U.S. Entity

- Process
  - Sovereign Review Team
    - December, 2013: Recommendation to Department of State
British Columbia Recommendation

- Flood Control
  - Storage use?
  - 600,000 cfs risk
- Ecosystem Function
  - balance
  - Salmon return: domestic concern
- Hydropower
  - Increase CE
- Implementation
  - Increase transparency and public input

Process

December 2013: Recommendation to the Cabinet
U.S. Position?

Regional Congressional Delegation

- Request the commencement of treaty negotiations
  - 2014
  - 2015

Department of State

- Silence
Reconnecting the Columbia

- **In October 2014, the Northwest Power and Conservation Council amended its Columbia River Basin Fish and Wildlife Program to investigate reintroducing anadromous fish back into the main stem Columbia River reaches and tributaries in the U.S.**

  - Available at: https://www.nwcouncil.org/fw/program/2014-12/program/partthree_visionFoundation_goals_objectives_strategies/iv_strategies/c_other_strategies/3_anadromous_fish_mitigation_blocked_areas/
Reconnecting the Columbia

- The U.S. Columbia Basin Tribes, which includes the Upper Columbia United Tribes (UCUT), and Canadian First Nations of the Columbia River Basin have produced a paper that provides a much-needed proposal for restoring fish passage and reintroducing anadromous fish as an essential element in modernizing the Columbia River Treaty.

UCCRG Research

• U.S. and Canada international law in domestic law
• Models for adaptive mechanisms in international treaties
  – Bankes and Cosens
  – Funding: Water Program at the Munk School of Global Affairs
• Models for Indigenous participation in negotiation and implementation of international treaties
  – McKinney, Paisley, and Stenovec
  – In collaboration with the Tribes and First Nations of the Columbia River Basin
