- D. Postponement of Items on Appeal to the City Council. Any person who has made an appeal from a decision of the Planning Commission in accordance with this Section may, as a matter of course, postpone Council consideration of such appeal to the next following regular Council meeting. Request for additional postponement shall be only for good cause shown to the City Council and found by the City Council. If new or additional evidence is set forth as such grounds for a request for a postponement, the appeal shall forthwith be referred to the Planning Commission for further hearing and recommendations.
- E. City Council's Powers Upon Appeal. The City Council shall have the power to refer any matter so appealed back to the Planning Commission for further consideration, affirm the action of the Planning Commission, reverse the action of the Planning Commission or modify said action.
- F. Actions of the Planning Commission Not Appealed. Without further notice or hearing, the City Council may refer back to the Planning Commission, affirm, reverse or modify any action of the Planning Commission which appears on the City Council Agenda as an item from which appeal has not been taken.
- G. Planning Department File. In all matters before the City Council relating to the actions of the Planning Commission, the entire file of the Planning Department pertaining to such matters shall be made a part of the record of the City Council. Such file shall include but not be limited to: the Planning Commission minutes, maps, drawings, departmental reports and application.
- H. Appeal From the Hearing Officer. All appeals from decisions of the Hearing Officer shall be pursuant to the requirements of Section 14-18-114 of the Code of the City of Colorado Springs 1980, as amended. (Ord. 80-131; Ord. 84-149; Ord. 86-66)

CHAPTER 14 ZONING

ARTICLE 18 HEARING OFFICER

SECTION:

- 14-18-101: Purpose
- 14-18-102: Creation
- 14-18-103: Qualifications
- 14-18-104: Deputy Hearing Officer
- 14-18-105: Jurisdiction
- 14-18-106: Referral
- 14-18-107: Notice Requirements
- 14-18-108: Public Hearing
- 14-18-109: Planning Department Report and Recommendation
- 14-18-110: Parties in Interest
- 14-18-111: Hearing Officer's Decision
- 14-18-112: Conduct of the Hearing Officer
- 14-18-113: Evidence
- 14-18-114: Appeals from Hearing Officer Decisions
- 14-18-115: Interpretations
- 14-18-116: Enforcement
- 14-18-117: Refusal to Comply With Decision
- 14-18-118: Rules and Regulations
- 14-18-119: Appeals to the Hearing Officer

14-18-101: **PURPOSE:** It is the purpose of this Article to provide efficient and timely public review of development proposals; to ensure fairness and due process in public hearings; to administratively separate the enforcement of Chapter 14 from the process of adopting legislative land use plans; and to provide for an informal and more efficient method of enforcing the requirements of Chapter 14. (Ord. 84-117)

14-18-102: **CREATION:** There is hereby created in the Community Development Department a Hearing Officer. The Hearing Officer shall hold public hearings pursuant to the provisions set forth in this Article 18, and make decisions as provided herein. The Hearing Officer shall be appointed by the Director of Community Development, with the consent of the City Council. (Ord. 84-117)

14-18-103: **QUALIFICATIONS:** The Hearing Officer should have such training or experience as will qualify her to conduct administrative or quasi-judicial hearings on land use regulatory matters. (Ord. 84-117)

14-18-104: **DEPUTY HEARING OFFICER:** There is hereby created the position of Deputy Hearing Officer who shall, in the event of the absence or inability of the Hearing Officer to act, have all the duties and powers of the Hearing Officer. The Deputy Hearing Officer shall be appointed pursuant to Section 14-18-102, and should meet the qualifications set forth in Section 14-18-103. (Ord. 84-117; Ord. 85-11)

14-18-105: **JURISDICTION:** The Hearing Officer shall have jurisdiction over the following matters:

- A. Applications for all variances to the requirements of Chapter 14 except when such variance is sought in conjunction with a request for rezoning or conditional use.
- B. Appeals from all notices and orders alleging violations of the provisions of Chapters 14 and 15.
- C. Appeals from administrative decisions relating to the provisions of Section 14-4-102, Temporary Uses, of the Code of the City of Colorado Springs 1980, as amended.
- D. Appeals from administrative decisions relating to the provision of Article 13 (Nonconforming Use), of Chapter 14, Zoning, of the Code of the City of Colorado Springs 1980, as amended.
- E. Appeals from administrative decisions relating to Hillside Plot Plans under Section 14-3-2908A,3 of the Code of the City of Colorado Springs 1980, as amended.
- F. Street name changes, including variances of regulations pertaining thereto.
- G. Any matter appealed to the Hearing Officer pursuant to the requirements of Section 14-17-113 of the Code of the City of Colorado Springs 1980, as amended.
- H. Appeals from Administrative decisions relating to any provisions of Chapter 14 of the Code of the City of Colorado Springs 1980, as amended, when relief from such provisions, upon application, may be heard and decided upon by the Hearing Officer pursuant to this Section (Ord. 84-117; Ord. 85-11; Ord. 86-39; Ord. 86-66; Ord. 86-214)

14-18-106: **REFERRAL:** In the sole discretion of the Hearing Officer, any matter which would otherwise be subject to the jurisdiction set forth in Section 14-18-105 above may be referred to the Planning Commission; provided, however, that any referrals must be made prior to a decision by the Hearing Officer on the matter which is the subject of the referral. (Ord. 84-117; Ord. 85-11)

14-18-107: NOTICE REQUIREMENTS:

- A. Every matter under the jurisdiction of the Hearing Officer shall be published in a newspaper of general circulation in the City of Colorado Springs.

Any application for a street name change or a variance to the requirements of Chapter 14 except for use variances pursuant to Section 14-7-101, et. seq. shall be published at least ten (10) days prior to the date of the hearing.

Any appeal shall be published at least three (3) days prior to the date of the hearing.

Information in such publication shall include:

1. The date, time and place of hearing;
2. Description of the subject property, reasonably calculated to convey its actual location, including, but not limited to, numeric address and street name, when officially assigned, and notation on a map of the area in which the subject property is located;
3. The nature and extent of the requested variance or street name;
4. Notice that interested parties may appeal and be heard;
5. Notice that the hearing shall be conducted pursuant to the rules of procedure adopted by the Hearing Officer; and
6. The address and telephone number of the Director of Planning or his designate from whom additional information may be obtained.

- B. Notice of a public hearing before the Hearing Officer regarding any application for a street name change or a variance to the requirements of Chapter 14 except for use variances pursuant to Section 14-7-101, et. seq., shall be posted in a conspicuous place in the immediate vicinity

- B) of the property which is the subject of the hearing at least ten (10) days prior to the date of the hearing.

Information in such posting shall include:

1. The date, time and place of hearing;
2. Description of the subject property, reasonably calculated to convey its actual location, including, but not limited to, numeric address and street name, when officially assigned;
3. The nature and extent of the requested variance or street name;
4. Notice that interested parties may appear and be heard;
5. The address and telephone number of the Director of Planning or his designate from whom additional information may be obtained.

- C. All files in the custody of the Planning Department for the Hearing Officer shall be open for public inspection during regular office hours. Such files shall not be removed from the Planning Department or inspected at other times by any person; except that such files may be removed or inspected at other times by any person pursuant to Court Order or by permission of the Hearing Officer. (Ord. 85-272)

14-18-108: **PUBLIC HEARING:** Before rendering any decision on any matter subject to jurisdiction of the Hearing Officer, the Hearing Officer shall hold at least one public hearing thereon and may reopen any matter for additional evidence. Notice of the time and place of the public hearing shall be given as set forth in Section 14-18-107. The public hearing may be continued from time to time as necessary to gather additional information, and no additional notice need be given if the hearing be adjourned to a date certain by the Hearing Officer. A verbatim record of the public hearing shall be required, and the Hearing Officer shall preserve her findings of fact and conclusion of law in the record for each item or matter before her. (Ord. 84-117; Ord. 85-11; Ord. 85-272; Ord. 86-214)

14-18-109: **PLANNING DEPARTMENT REPORT AND RECOMMENDATION:** The Planning Department shall coordinate the review of and assemble comments on all matters which are subject to the Hearing Officer's jurisdiction; and may prepare

or cause to be prepared a report summarizing the factors involved, and may make or cause to be made a recommendation thereon at the public hearing at which matter will be heard. (Ord. 84-117; Ord. 85-272)

14-18-110: PARTIES IN INTEREST: The following persons, only if making an appearance of record, are hereby defined as parties and, shall be entitled by themselves or through a representative, to participate in a public hearing before the Hearing Officer:

- A. The applicant or the appellant;
- B. Either an owner or lessee of property which is directly affected by the matter which is before the Hearing Officer;
- C. Any person, organization, group or governmental entity who demonstrates to the Hearing Officer that he has a significant interest in the subject matter of the hearing;
- D. Any member of the City Administration. For purposes of this Section, an "appearance of record" shall mean either:
 - 1. An oral statement sufficiently identifying the person making the same or by his representative, made at the hearing; or
 - 2. A written statement giving the name and address of the person making the appearance, signed by him or his representative, and filed with the Hearing Officer either prior to the commencement of the hearing or when permitted by the Hearing Officer. (Ord. 84-117; Ord. 85-272)

14-18-111: HEARING OFFICER'S DECISION:

Subject to the requirements of Section 14-18-105 above, unless the matter is referred to the Planning Commission, the Hearing Officer shall make a decision on each item which is before her. The decision of the Hearing Officer shall be made after considering all of the relevant evidence before her and applying that evidence to the requirements of the Code of the City of Colorado Springs 1980, as amended. When the Hearing Officer renders a decision, she shall make findings of fact and conclusions of law which support her decision, and the findings and conclusions shall set forth and demonstrate the manner in which the decision meets the requirements of the Code of the City of Colorado Springs 1980, as amended. The

verbatim record of the hearing shall be preserved for at least sixty (60) days after final agency action by the Hearing Officer or, if appealed pursuant to this Article 18, at least sixty (60) days after final agency action by the appellate body. Whenever particular criteria is set forth in the Code of the City of Colorado Springs 1980, as amended, with respect to the matter which is before the Hearing Officer, then the Hearing Officer shall apply the findings of fact to that criteria prior to making any decision.

The Hearing Officer may require such conditions for any matter as she deems reasonable and necessary in order to further the purposes of the Code of the City of Colorado Springs 1980, as amended. Violations of such conditions, when made a part of the terms under which any matter is decided, shall be deemed a violation of the Hearing Officer's decision.

The decision of the Hearing Officer shall be final agency action unless an appeal is filed pursuant to Section 14-18-114, or a rehearing is requested before the Hearing Officer within the applicable appeal period. (Ord. 84-117; Ord. 85-11; Ord. 85-272; Ord. 86-214)

14-18-112: CONDUCT OF THE HEARING OFFICER:

- A. The Hearing Officer shall not communicate, directly or indirectly, with any party or his representative in connection with any issue involved except upon notice and opportunity for all parties to participate; and
- B. The Hearing Officer shall not use nor rely upon any communication, reports staff memoranda, or other materials prepared in connection with the particular case unless made a part of the record in the case; and
- C. The Hearing Officer shall not inspect the site with any party or his representative unless all parties are given an opportunity to be present. (Ord. 84-117)

14-18-113: EVIDENCE: With respect to determining findings of fact and conclusions of law, the Hearing Officer may receive oral testimony and demonstrative or written evidence, as long as the evidence has any tendency to make the existence of any fact that is of consequence to the determination of the matter before her more probable or less probable than it would be without the evidence. Hearsay shall be admissible except that the Hearing Officer may take into account that such evidence is

hearsay with respect to the weight given to it. In any event, the Hearing Officer may not admit any evidence which a reasonable and prudent person would not rely upon in the conduct of their everyday affairs. (Ord. 84-117)

14-18-114: APPEALS FROM HEARING OFFICER DECISIONS:

- A. The applicant or any other party in interest may appeal a decision of the Hearing Officer, provided such party files with the City Clerk/Treasurer a written notice of appeal within ten (10) days after the date of the decision by the Hearing Officer. The notice of appeal shall state the grounds of appeal.
- B. In the event a perfected appeal is filed with respect to any matter under the jurisdiction of the Hearing Officer, the matter appealed shall be forwarded to the City Council, along with all of the evidence admitted by the Hearing Officer, and the transcript of the proceedings before the Hearing Officer with respect to that particular matter. The appeal shall be heard at the next regular City Council meeting occurring at least ten (10) days after the certification of the record by the Director of Planning to the City Council.
- C. On appeal to the City Council, the notice requirements set forth in Section 14-18-107 and the public hearing requirements set forth in Section 14-18-108 shall be followed. Upon appeal to the City Council of the Hearing Officer's decision, the Council shall review the record, including the transcript of proceedings and evidence before the Hearing Officer, and shall determine whether or not there is substantial evidence in the record to support the decision of the Hearing Officer. If there is substantial evidence in the record to support the decision of the Hearing Officer, then Council shall affirm such decision of the Hearing Officer. If there is not substantial evidence in the record to support the decision of the Hearing Officer, then the Council may reverse the decision of the Hearing Officer, or remand the matter back to the Hearing Officer for further proceedings. No new evidence shall be submitted to the Council unless a majority of the Council determines that such evidence could not have been reasonably presented at the time the matter was heard

- C) before the Hearing Officer. If the Council decides to hear such new evidence, it may hear the new evidence or remand the matter back to the Hearing Officer for further proceedings. Notwithstanding any requirements in subsection B to the contrary, the City Council shall have the discretion to modify, reject, or add to the conditions of record established by the Hearing Officer with respect to any matter before it on appeal. A verbatim record of the proceedings before the City Council shall be made by electronic recording device or other appropriate method.
- D. On such appeals, the decision of the City Council shall be final agency action, and shall be subject to review by the courts pursuant to applicable rules and statutes, unless the matter is remanded to the Hearing Officer.
- E. A perfected appeal shall operate as a stay of the Hearing Officer's decision, unless the Hearing Officer certifies in writing that a stay would cause or result in an imminent hazard to the public health, safety and welfare. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by a court on application, on notice to the Hearing Officer from whom the appeal is taken, and due cause shown.
- F. In the event that the decision of the Hearing Officer is not appealed to the City Council within ten (10) days from the date of the decision, then said decision shall constitute final agency action for all purposes under the applicable State statutes and rules and regulations. The failure to appeal the decision of the Hearing Officer within the ten (10) day period shall be deemed to be a waiver of the applicants or a party in interest's, as the case may be, right to appeal to the courts under rule 106 of the Colorado Rules of Civil Procedure for failure to exhaust administrative remedies.
- G. The cost of preparing the transcript of proceedings before the Hearing Officer on appeal to the City Council shall be borne by the appellant. (Ord. 84-117; Ord. 85-11; Ord. 85-272; Ord. 86-66; Ord. 86-214)

14-18-115: INTERPRETATIONS: In the event that the Hearing Officer, in making a

decision, makes an interpretation of the Zoning Code or the Comprehensive Plan which is different from the interpretation made by the Planning Department, the Director of Planning may appeal that interpretation to the Colorado Springs City Council; provided, however, that said appeal of the interpretation of the Hearing Officer shall not in any way affect the right of the applicant or any other party in interest to appeal the decision of the Hearing Officer to the City Council. In the event that the City Council reverses the interpretation of the Hearing Officer, either by resolution or by ordinance, then the Hearing Officer, in all future matters involving that same provision of Chapter 14 or the Comprehensive Plan, shall be bound by the City Council interpretation until changed by the City Council, either by ordinance or by resolution. (Ord. 84-117; Ord. 85-272)

14-18-116: ENFORCEMENT: Any decision by the Hearing Officer which is not appealed within the ten (10) day period, or any final decision of the City Council on appeal from the Hearing Officer shall be enforceable through abatement proceedings, or a civil action initiated in District Court. The remedies of the City shall be cumulative. (Ord. 84-117; Ord. 85-272; Ord. 86-214)

14-18-117: REFUSAL TO COMPLY WITH DECISION: The refusal of the applicant or any person subject to a notice and order asserting a violation of the Zoning Code to comply with a final decision of the Hearing Officer, or of a final decision of the City Council after appeal of the Hearing Officer decision, shall be unlawful. (Ord. 84-117)

14-18-118: RULES AND REGULATIONS: The Hearing Officer may adopt such rules and regulations of procedure which are necessary for the conduct of the hearings before her. Copies of such rules and regulations shall be made available to the public, upon request, by the Director of Planning; provided, however, copies of the Hearing Officer's rules and regulations should not be relied upon as there may be amendments made from time to time to the rules and regulations which are not reflected in the copies. The official copy of the rules and regulations shall be available for inspection at the Planning Department during regular business hours. No amendment to these rules and regulations shall become effective until incorporated in this official copy. The Hearing Officer shall decide all points of order or procedure and shall

maintain order and to that end may order the removal of disorderly or disruptive persons. (Ord. 84-117; Ord. 85-272)

14-18-119: APPEALS TO THE HEARING OFFICER: Whenever an appeal is made to the Hearing Officer pursuant to Section 14-17-113A1, the appeal shall be conducted in accordance with the requirements of this Article 18. A perfected appeal shall operate as a stay of the administrative decision unless the Hearing Officer certifies in writing that a stay would cause or result in an imminent hazard to the public health, safety, and welfare. Appeals from any decision of the Hearing Officer shall be pursuant to the requirements of Section 14-18-114. (Ord. 86-66)

CHAPTER 14 ZONING

ARTICLE 19 ADMINISTRATIVE RELIEF

SECTION:

14-19-101: Purpose and Intent

14-19-102: Application

14-19-103: Findings Necessary to Grant
Administrative Relief

14-19-104: Appeal

B. The intent of the zoning chapter and the specific regulation in question is preserved.

C. The granting of the administrative relief will not result in an adverse impact on surrounding properties. (Ord. 86-39)

14-19-101: **PURPOSE AND INTENT:** The purpose of this Article is to provide for flexibility in the application of regulations when a standard is inapplicable or inappropriate to a specific use or design proposal. This Article may only be applied to those sections of the zoning chapter where this Article is specifically referenced. (Ord. 86-39)

14-19-104: **APPEAL:** A decision of the Planning Department's representative may be appealed to the Hearing Officer within ten (10) days after the decision. The appeal shall be filed in accordance with the requirements of applications to the Hearing Officer and shall include a written statement of the grounds of the appeal. (Ord. 86-39)

14-19-102: **APPLICATION:** A written request for administrative relief shall be submitted in conjunction with a development proposal submitted pursuant to the zoning chapter, such as a development plan or a building permit site plan. The written request shall include a justification in terms of the findings necessary to grant administrative relief. The written request shall close with a section for the Planning Department's use to include a block for the decision of approval/denial, the Planning Department representative's signature, and decision date. The written request with decision shall be attached to the plan or retained in the appropriate file, as appropriate. (Ord. 86-39)

14-19-103: **FINDINGS NECESSARY TO GRANT ADMINISTRATIVE RELIEF:** The Planning Department's representative must make all of the following findings in order to grant administrative relief:

A. The strict application of the regulation in question is unreasonable given the development proposal or the measures proposed by the applicant or that the property has extraordinary or exceptional physical conditions that do not generally exist in nearby properties in the same zoning district and such conditions will not allow a reasonable use of the property in its current zone in the absence of relief.

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 1 PLANNING COMMISSION

SECTION:

- 15-1-101: Commission Created; Membership
- 15-1-102: Meetings; Organization
- 15-1-103: Function
- 15-1-104: Advice, Consultation and Help

15-1-101: COMMISSION CREATED; MEMBERSHIP: There is hereby created a Planning Commission for the City, to be composed of nine (9) regular members and three (3) liaison members to be appointed by the City Council. Two (2) of said regular members may reside outside of, but within three (3) miles of the corporate limits of the City. In order to ensure a more coordinated planning program the aforesaid three (3) liaison members shall be selected from each of the following governmental bodies:

The Colorado Springs City Council,
The El Paso County Planning Commission,
The Colorado Springs Board of Adjustment.

The aforesaid three (3) liaison members shall not have the right to vote on any matter before the Planning Commission.

Appointments to the Commission shall be made in such manner as to achieve staggered three (3) year terms. Vacancies shall be filled by appointment for the unexpired term only. Members of the Commission shall serve without compensation for their service. (Ord. 2767; 1968 Code § 1-143.1)

15-1-102: MEETINGS; ORGANIZATION: The members of the Planning Commission shall meet at least once a month at such time and place as they may fix by resolution. They shall select one of their number as chairman and one as vice chairman, each of whom shall serve one year and until their successors have been selected. Special meetings may be called at any time by the chairman or in his absence by the vice chairman or by any other member so designated by the chairman. A majority of the Commission shall constitute a

quorum for the transaction of business. The Commission shall cause a proper record to be kept of its proceedings. (Ord. 2767; 1968 Code § 1-146)

15-1-103: FUNCTION: It shall be the function of the Planning Commission to encourage, coordinate and unify planning of the urban metropolitan area centering on the City. For these purposes, it may engage in cooperative and joint planning programs with the planning agencies, officials and representatives of other governmental units and with private agencies and organizations. (Ord. 2767; 1968 Code § 1-148)

15-1-104: ADVICE, CONSULTATION AND HELP: The Commission may call upon any officer or employee of the City for any services, advice or consultation that it may desire and may with approval of the City Council employ such clerical or specialized help as may be necessary to effectuate its purposes; provided, however, that appropriation for the expenses thereof has first been made by the City Council. (Ord. 2767; 1968 Code § 1-149)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 2 ANNEXATIONS

PART 1 GENERAL PROVISIONS

SECTION:

15-2-101: Purpose

15-2-102: Comply with State Laws

15-2-103: Conditions for Annexation

15-2-101: **PURPOSE:**

- A. Section 34.1 of the Charter of the City requires that extension policies for the services provided by the Department of Utilities be established by the City Council.
- B. The extension and provision of municipal services, particularly water or wastewater, or both, to consumers outside the corporate limits of the City and the proper relationship between the availability of water and wastewater facilities and the development of land has been the subject of study of numerous citizen committees, the subject of numerous and confusing resolutions, and a source of confusion for councilmen, utility planners, City planners and citizens.
- C. City Council believes that definite statements need to be made in order to establish a policy pertaining to the provision and extension of water or wastewater, or both, to consumers outside the City limits who own or occupy land not presently eligible for annexation.

POLICY STATEMENTS

1. The citizens of the City are the owners of water provided to themselves and to consumers outside the City limits. The revenues generated by sale of water and processing of wastewater are necessary to pay for the acquisition and development of the water and the construction, operation and maintenance of the water and wastewater facilities.

- C) 2. The City must consider the future water and wastewater needs of areas outside the corporate limits if the Pikes Peak urban area is to continue to grow to accommodate anticipated population. However, in considering the future water and wastewater needs of areas outside the City, consideration must be given to the capacity to serve within the corporate limits of the City.

3. The extension or provision of water or wastewater, or both, is a method of fostering compatible land use and development inside and outside the City limits, and should be handled in a manner which will ensure sound land-use relationships and promote orderly development.

4. Persons inside the City limits who receive water or wastewater services must comply with City ordinances including but not limited to construction, fire protection, subdivision, zoning and health codes, and such persons must pay ad valorem taxes upon their real property. It seems only reasonable, then that persons outside the City limits who desire water or wastewater services should be required to do no less than those who receive such services inside the City, as well as pay additional fees for such services.

5. There is a need to sell water and process wastewater for revenues to meet the costs of owning and operating the City's water and wastewater system, and the need to ensure that land use and development outside of the corporate limits of the City is compatible with land use within the City and will not have an adverse impact on the City and its facilities, public and private.

6. There is no obligation imposed by general law upon the City to permit any of the City's water to be used outside its boundaries. Neither is there an obligation under general law

C,6) to reserve water for undeveloped land presently within the City's boundaries.

7. It is not in the best interests of the City to extend utility services outside of its boundaries to areas not eligible for annexation unless it can be assured that an agreement for annexation can be enforced. (Ord. 81-50)

Article 3 of this Chapter. City Council may specify such other requirements as it deems necessary. In the event the City Council chooses not to annex, utilities shall not be extended unless Council is assured that an agreement for annexation can be enforced, and that the remaining provisions of this Article for annexation subsequent to extension of utilities have been met. (Ord. 81-50; Ord. 83-281)

15-2-102: COMPLY WITH STATE LAWS:

Annexation, consolidation or disconnection of territory to or from the City shall be in accordance with section 30 (Right to Vote or Petition on Annexation) of article II of the Colorado Constitution and the Municipal Annexation Act of 1965 (C.R.S. 1973 § 31-12-101, as amended) as it exists now or may hereafter be amended. (Ord. 81-50)

15-2-103: CONDITIONS FOR ANNEXATION: To assist the City Council in its decision, each proposal for annexation shall be studied to determine whether:

- A. The area proposed to be annexed is a logical extension of the City's boundary;
- B. The development of the area proposed to be annexed will be beneficial to the City;¹
- C. There is a projected available water surplus at the time of request;
- D. The existing and projected water facilities and/or wastewater facilities of the City are expected to be sufficient for the present and projected needs for the foreseeable future to serve all present users whether within or outside the corporate limits of the City;
- E. The annexation can be effectuated at the time the utilities are extended or at some time in the future.

After the foregoing have been studied in such depth as the City Council shall require, the City Council in its discretion may annex or not annex the proposed area. In the event the City Council chooses to annex, it may require a contemporary annexation agreement specifying the installation and the timing of installation of certain public and utility improvements, both on-site and off-site, that are required or not required under

1. Financial considerations, although important, are not the only criteria and shall not be the sole measure of benefit to the City.

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 2 ANNEXATIONS

PART 2 AVAILABILITY OF CITY SERVICES

SECTION:

- 15-2-201: Rights of City
- 15-2-202: Annexation Agreements for City Services
- 15-2-203: Procedure for Handling Requests
- 15-2-204: Water Service Previously Granted Outside City

15-2-201: RIGHT OF CITY:

- A. This Part shall not be construed to create any rights or cause of action in any person or land, whether or not the same is eligible for annexation, to demand or receive water or wastewater or other municipal service. The City has never previously and does not now assert exclusive control over the right to serve areas outside the corporate limits of the City with water and wastewater. Areas and activities outside the corporate limits of the City are free to obtain water and wastewater services from any other sources.
- B. The right of the City Council to restrict and regulate the use of City water within or outside the City limits shall not be abridged by anything contained in this Part. The City Council hereby declares the policy of the City to be that water belonging to the City is in no way allocated to a particular parcel of land until such land is developed and water applied to actual use upon such land. Nothing in this Part shall be construed to confer upon undeveloped land within the City limits, as such City limits exist at the time of adoption of this Part or as such City limits may be hereinafter altered by annexation or disconnection, any right to the preservation of existing water rights or quantities of water for the sole and exclusive use of such land.
- C. In the interest of the citizens of the City, City Council will not extend water or wastewater service into any area which is not presently included within the Utilities Department electric service area. An exception to this policy may be

- C) made if the area requesting service can be annexed to the City at the time of utility extension and included in the electric service area upon such annexation, or, if the territory cannot be annexed at the time of such extension, that it can be assured that an agreement for later annexation can be enforced and the area can be included in the electric service area at the time such agreement for annexation is enforced. (Ord. 81-50)

15-2-202: ANNEXATION AGREEMENTS FOR CITY SERVICES:

- A. As a condition precedent to the supplying of City water or wastewater services, or both, to land outside the limits of the City, under Sections 15-2-203 or 15-2-303, the City shall require an agreement executed by the owners in fee of the real property so supplied, which agreement shall provide, among other conditions as the City Council may impose, that the owners shall petition for and consent to the annexation of the area to be supplied with such City services to the City at such future date as the area supplied or any portion thereof, becomes both eligible for annexation pursuant to section 30 of article II of the Colorado Constitution and the Municipal Annexation Act of 1965, as it now exists or may hereafter be amended or as it may be modified by section 30 of article II of the Colorado Constitution, and is found by the City Council to be proper for annexation to the City under the provisions of Section 15-2-102.
- B. It is recognized that a court determination may be required in order to satisfy the provisions of Section 15-2-303E.
- C. Such agreement shall be reported to the City Council at the next regular Council meeting following its execution. Such agreement shall then be recorded and shall run with the land and be binding on the heirs, assigns and successors in interest of the signers. (Ord. 81-50)

15-2-203: PROCEDURE FOR HANDLING REQUESTS:

- A. An application for water or wastewater service for premises outside the corporate limits of the City may be granted by the City Council upon finding that all conditions set forth in subsection D of Section 15-2-303 have been met by the applicant. In its discretion, the City Council may require that studies addressing the considerations expressed in subsections A, B, C and E of Section 15-2-303 be prepared as a condition precedent to the granting of water or wastewater services or both.
- B. In no event is City Council legally obligated to serve water or wastewater outside City limits.
- C. In the event that the City Council authorizes the extension of water or wastewater or both services outside the City boundaries, such decision shall be considered a matter of legislative discretion and not subject to judicial review. Neither shall such decision constitute a precedent controlling other pending or future applications for extraterritorial service. (Ord. 81-50)

15-2-204: WATER SERVICE PREVIOUSLY GRANTED OUTSIDE CITY: Any request for a change of use of previously granted municipal services shall be considered and administered as a new application for such municipal service and shall be subject to all of the provisions and requirements as set forth in Section 15-2-303 of this Article. (Ord. 81-50)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 2 ANNEXATIONS

PART 3 LAND ELIGIBLE FOR ANNEXATION

SECTION:

- 15-2-301: Service Subsequent to Annexation
 15-2-302: Service Pending Annexation
 15-2-303: Service Without Annexation

15-2-301: SERVICE SUBSEQUENT TO ANNEXATION: Except as otherwise provided in this Article, land which at the time of request for service is eligible for annexation to the City under section 30 of article II of the Colorado Constitution and the Municipal Annexation Act of 1965 as it now exists or may hereafter be amended and which meets the provisions of Section 15-2-103, as determined by City Council, shall be annexed to the City before receiving City water or wastewater service or both except as provided in section 15-2-302 below. (Ord. 81-50)

15-2-302: SERVICE PENDING ANNEXATION:

- A. For good cause shown, the City Council may approve the delivery of water or wastewater service, or both, pending completion of annexation. As used in this subsection, good cause is any reason which in the opinion of City Council:
1. Would cause unnecessary delay to the annexor in commencing work on his proposed development; or
 2. Would impose an unnecessary economic hardship upon the annexor, without any compensating advantage or benefit to the City or its citizens. In any event, the City Council hereby declares that its discretion in determining the existence or nonexistence of good cause is a legislative act and is not subject to judicial review.
- B. A petition for annexation, subject to such conditions as City Council in its discretion may impose, must be first filed before a permit or

- B) permits for such water or wastewater service shall be issued or any work commenced, to extend such water or wastewater service beyond the City limits existing at that time. Once filed such petition cannot be withdrawn except with express permission of the City Council and shall be pursued by the annexor and affected City departments to a speedy conclusion. Authorization for water or wastewater extension beyond the City limits may be withdrawn by the City Council without notice to the annexor at any time prior to any substantial change of position (expenditure of time or money) by the annexor in reliance on such authorization.
- C. All required fees shall be payable in advance of the issuance of permit(s) for the requested service(s) and no fee or portion thereof shall be refunded.
- D. In no event shall this Section be used if annexation subsequent to the extension of utilities cannot be assured under the provisions of section 30 of article II of the Colorado Constitution. (Ord. 81-50)

15-2-303: SERVICE WITHOUT ANNEXATION:

In its legislative discretion the City Council may authorize the delivery of water or wastewater services or both to land otherwise eligible for annexation under the criteria of the Municipal Annexation Act of 1965 but which the Council decides not to annex for failure to meet the provisions of Section 15-2-102. Further, in exercising its discretion the City Council shall consider, among such other values and matters as may be presented to it, the following:

- A. Estimated immediate and long-range costs to the City under development plans proposed by the annexor, which cost estimates shall include but need not be limited to:
1. The cost of extending existing City services;¹

¹ Examples of services are fire suppression, police protection, street maintenance, etc.

- A) 2. The nature and the cost of City-financed capital improvements¹ made necessary² by the proposed annexation when developed;³

3. The time schedule as proposed by the annexor over which such costs would be extended.

- B. Revenues expected to be generated by proposed development within the area proposed to be annexed.⁴

- C. Other benefits to the City for which there is no readily acceptable method of computation except subjective judgment.⁵

- D. In addition, the City Council shall consider whether:

1. There is a projected available water surplus at the time of request.

2. The existing and projected water facilities and/or wastewater facilities of the City are expected to be sufficient for the present and projected needs for the foreseeable future to serve all present users whether within or outside the corporate limits of the City.

3. An annexation agreement in the form required by the City has been executed by the owner of the land to be served. Such annexation agreement shall be attached to the application.

4. The proposed use of the land to be served is compatible with the use of adjacent land areas and to the extent acceptable to and approved by the City Council is in conformance with the plan of the PPACG Urban Area Policy Committee. Such proposed land use shall be submitted to the governmental entity having land use planning jurisdiction thereover for comment at least thirty (30) days before final Council action on the request for services.

- D) 5. Water and wastewater development and other applicable utility fees will be paid, and the owner of the land to be served has agreed to abide by all conditions and terms of the Utility Department's Extension Policies.⁶

6. The development of the land to which the water and wastewater services are to be provided is in conformance with those provisions of this Code, as amended, as are applicable to land development within the corporate limits of the City or adequate assurances are made that development of the land will be in compliance with City codes. Assurances of such conformance may be in the form of cash deposit, corporate surety bond, letter of credit or other assurance which the City Attorney shall approve as to form and the Director of Public Works shall approve as to amount. Compliance with City codes pertaining to land development may require but shall not be limited to:

a. Provision for required school/park sites or fees in lieu thereof to the applicable jurisdictions.⁷

b. Dedication, design and construction of required streets, sidewalks, curbs, gutters and utilities, including telephone, to City standards or to the standards of the entity having responsibility for maintenance thereof, whichever standard is more strict.⁸

c. Dedication of easements including but not limited to utility, including telephone and drainage easements as required by the Subdivision Code.⁹

d. Provision for necessary drainage facilities or the payment of drainage fees and arterial roadway bridge fees.¹⁰

7. Unless it can be assured that an agreement for annexation can be enforced, it would not

1. Examples of such capital improvements are bridges, arterial street, major drainage improvements, parks and park improvements and the maintenance and operation of such improvements.

2. The state of development of land being considered for annexation will have considerable bearing on the question of necessity. For example, if partially or fully developed areas are under consideration there may be no need for additional improvements in the absence of significant hazard to the public health, safety and welfare.

3. While not a directly City-related expense, consideration should also be given to costs incurred by other governmental entities, e.g., school districts, County sheriff's office, etc., resulting from proposed development within the area under consideration. While it is arguable that such costs will occur regardless of annexation, such development is not likely to occur without a ready availability of water and wastewater services.

4. Examples of such revenues are ad valorem taxes from the land, and improvements situated and to be situated therein, sales and use taxes from commercial development therein, increased revenue sharing or other grant funds resulting from increased population, increased income taxes and the like.

5. Examples of such intangible benefits are increased employment opportunity, improved wastewater management, improved drainage control, improved public transportation, diversification of economic base (i.e., industry of a differing type as opposed to more industry of the same or allied type).

6. Water and wastewater extension policies are available at the office of the Director of Utilities.

7. See Article 3, Part 12 of this Chapter.

8. See Public Works Department "Standard Specification" available at the office of the City Engineer.

9. See Article 3 of this Chapter.

10. See Parts 9 and 10 of Article 3 of this Chapter.

- D,7) be, as a general rule, in the best interest of the City as a whole to extend utility services outside of City boundaries to areas not eligible for annexation at the time of such extension. Exceptions to this policy will be strictly limited to requests for extension, concerning which City Council specifically finds that the benefits accruing to the City by virtue of extension of utilities clearly outweigh any detriment to present and future City taxpayers resulting from the inability to enforce an agreement for annexation.
- E. Whether the annexation agreement referred to in subsection D3 can be legally enforced under section 30 of article II of the Colorado Constitution and the Municipal Annexation Act of 1965 as modified by section 30 of article II of the Constitution. (Ord. 81-50)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 1 GENERAL PROVISIONS

SECTION:

- 15-3-101: Title
- 15-3-102: Purpose
- 15-3-103: General Responsibilities
- 15-3-104: Territorial Limits of Regulations
- 15-3-105: Interpretation of Regulations
- 15-3-106: Compliance Required
- 15-3-107: Modifications for Planned Developments
- 15-3-108: Definitions
- 15-3-109: Ancient Plats and Subdivisions

15-3-101: **TITLE:** This Article shall be known and shall be cited as the "Subdivision Code" of the City. (Ord. 4011; 1968 Code § 13-11)

15-3-102: **PURPOSE:** It is the purpose and intent of this Article:

A. Health, Safety and General Welfare. To promote the health, safety, convenience and general welfare of the citizens of the City.

B. Standards.

1. To establish standards of subdivision design which will encourage the development of sound, economical, stable neighborhoods and create a healthy living environment for the City.

2. To provide for lots of adequate size, configuration and appropriate design for the purpose for which they are to be used.

3. To allow for design flexibility and imagination.

4. To assure adequate development of established deep lots.

B) 5. To provide for streets of adequate capacity and with appropriate improvements to handle the anticipated traffic flow.

C. Utilities and Services.

1. To provide an efficient, adequate and economical supply of utilities and services to land development, which will assure the governmental costs are minimized to the greatest extent possible.

2. To ensure at the time of subdivision that provisions of adequate storm drainage, sewage disposal and other utilities, services and improvements needed as a consequence of subdivision of land are provided.

3. To provide for the undergrounding of all public utilities lines up to thirty thousand (30,000) volts except as otherwise provided in Section 15-3-806 of this Article.

D. Circulation.

1. To minimize traffic hazards through means of proper street design, and to provide for safe and convenient vehicular and pedestrian traffic circulation in land development.

2. To provide for adequate vehicular access to abutting properties and the subdivider's remaining holdings.

3. To assure the street ROW's are in harmony with the City's Major Traffic Thoroughfare Plan and the City's Public Works Design Manual.

4. To provide for pedestrian circulation for the safety and convenience of the pedestrian desiring access to community facilities for travel throughout the community.

E. Public Facilities.

- E) 1. To provide for the coordination of subdivision development with the provision of public facilities such as parks, recreation areas, schools and other types of community facilities.
- 2. To ensure that public facilities are provided in accordance with the City's Comprehensive Plan Standards.
- 3. To provide for adequate law enforcement and fire protection facilities.
- F. Comprehensive Plan. To ensure the proper development of the community through the principles of land use, distribution of population, intensity of development, preservation of natural amenities, and other elements of the City's Comprehensive Plan. (Ord. 4011; 1968 Code § 13-12)

15-3-103: GENERAL RESPONSIBILITIES:

- A. Subdivider. The subdivider shall be responsible for the preparation, submission, design and the installation of improvements for all plats of subdivision, in accordance with the regulations set forth in this Article, the Public Works Design Manual, other applicable ordinances and resolutions as amended from time to time. The subdivider or his duly authorized agent shall also be responsible to be either in attendance at the hearings for which the plat is being considered or to submit a letter evidencing concurrence with the provisions of approval as recommended.
- B. Planning Director. The Planning Director shall be responsible for the design analysis and the expeditious processing of subdivision maps and reports, as provided herein.
- C. Director of Public Works. The Director of Public Works shall be responsible for reporting to the Planning Commission and the City Council as to whether the proposed improvements are consistent with the regulations contained herein, in the Public Works Design Manual and other applicable City ordinances and resolutions. He shall also be responsible for the supervision of the installation of such improvements, and shall recommend their final approval.
- D. Planning Committee. The Planning Committee is responsible for reviewing matters pertaining to plat of subdivision prior to the City Planning Commission's hearing at which time said Committee shall make a report and recommendation to the Planning Commission on the design of the subdivision plat as it relates to this Article, the Public Works Design Manual, and to the City's Comprehensive Plan.
- E. City Planning Commission. The Planning Commission of the City shall act as the advisory agency to the City Council. It is charged with making investigations, reports and recommendations on the design of the proposed subdivision and assuring its conformance to this Article, the Public Works Design Manual, the City's Comprehensive Plan, and other applicable City ordinances and resolutions. (Ord. 4011; 1968 Code § 13-13)
- F. Minor Land Subdivision Committee. The Minor Land Subdivision Committee shall advise the City Council on those matters for which they have been assigned responsibilities as set forth elsewhere in this Chapter. (Ord. 77-100)
- G. City Council. The City Council, being the legislative body, has final jurisdiction in the approval of matters pertaining to plats of subdivision, the establishment of standards of design, and acceptance of lands and improvements that may be proposed for subdivision improvements. (Ord. 4011; 1968 Code § 13-13)

15-3-104: TERRITORIAL LIMITS OF REGULATIONS:

- A. Area Inside City Limits. The territorial jurisdiction under this Article shall include all land located within the corporate limits of the City.
- B. Area Outside City Limits. All layouts of proposed subdivisions outside the City but within the territorial limits established under the statutes of the State of Colorado shall be submitted to the Planning Commission for its recommendations relating to subdivision design, traffic circulation and the City's Comprehensive Plan. (Ord. 4011; 1968 Code § 13-14)

15-3-105: INTERPRETATION OF REGULATIONS:

Where any provision of this Article imposes more stringent requirements, regulations, restrictions or limitations than are imposed or required by any other ordinance or the statutes of the State of Colorado, then the provisions of this Article shall govern. (Ord. 4011; 1968 Code § 13-26)

15-3-106: COMPLIANCE REQUIRED: No person shall subdivide any tract of land which is located within the City except in conformity with the provisions of this Article, and jurisdiction under this Article shall also extend to and cover any major street plan adopted under the provisions of this Article to the extent of the territorial limits established under the State statutes. (Ord. 4011; 1968 Code § 13-27)

15-3-107: MODIFICATIONS FOR PLANNED DEVELOPMENTS: The subdivision of land in zones where development plans are required shall be subject to such requirements for approval and recording as have been established in this Article. If the uniqueness of a given proposal requires a modification of the design standards as specified in Part 6 of this Article, the City Council, upon a recommendation from the Planning Commission may authorize such a modification, only if the Commission and the Council find that said standards are not required in the interest of the planned development and that the modification(s) of the standards are consistent with the interests of the City. (Ord. 4011; 1968 Code § 13-24)

15-3-108: DEFINITIONS:¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

ASSURANCE; ACCEPTABLE ASSURANCE: Letters of credit or construction bonds or combination thereof, all of which shall be approved as to form by the City Attorney, or cash.

BLOCK: An area of land within a subdivision, generally bounded by streets (other than alleys), highways, natural barriers or the exterior boundaries of the subdivision.

CITY'S COMPREHENSIVE PLAN: The Comprehensive Plan for Development - City of Colorado Springs, adopted by the City Council and all subsequent amendments thereto.

FINAL PLAT and PRELIMINARY AND FINAL PLAT: A map prepared in accordance with the provisions of this Article which is presented to the City for approval, and which if approved will be recorded by the City with the County Clerk, and a copy thereof will be filed with the City Clerk.

LOT: A unit of land shown as a lot on a recorded final plat, or a lot which is proposed to be established through the subdivision process defined herein:

DOUBLE FRONTAGE LOT: A single lot having the front and the rear thereof adjacent to two (2) streets and does not include a corner lot having its front and one side adjacent to two (2) streets.

FLAG LOT: A lot, the main use or building area of which does not abut a public street, but is connected thereto by a narrow strip of land which is a part of the lot.

MAJOR TRAFFIC THOROUGHFARE PLAN: An element of the City's Comprehensive Plan showing location and width of rights of way of principal trafficways.

OFFICIAL PLAN LINE: A map prepared and adopted by the City which indicates the projected rights of way lines for the City's major traffic thoroughfares and for other significant streets. Said map and all subsequent amendments thereto shall be effective when adopted by the City Council.

PLANNING COMMISSION: The Planning Commission of the City of Colorado Springs.

PLANNING DEPARTMENT: The Planning Department of the City of Colorado Springs.

PLATTING: The process of preparing a map of the land to be subdivided in accordance with the terms of this Chapter, and the subsequent approval and recordation of such plat pursuant to the provisions of this Chapter.

PRELIMINARY PLAT: A map or a drawing showing the design of a proposed subdivision, together with such information, supporting data, and other requirements as are necessary to comply with the provisions of this Article.

PRESERVATION AREA: That portion or area of lot(s) which is set aside in the form of a restriction for the purpose of retaining land or water features in their natural state, scenic or open condition. This restriction

1. For definitions of general application, see Section 1-1-203 of this Code.

may prohibit in whole or in part: (i) construction or placing of buildings, roads, signs, billboards or other advertising, utilities or other structures on or above the ground, (ii) dumping or placing of soil or other substance or material as landfill, or dumping or placing of trash, waste or unsightly or offensive materials, (iii) removal or destruction of trees, shrubs or other vegetation, (iv) excavation, dredging or removal of loam, gravel, soil, rock or other mineral substance in such manner to affect the surface, (v) activities detrimental to drainage, flood control, erosion control or soil conservation, or (vi) other acts or uses detrimental to such retention of land or water areas.

PUBLIC HEARING: Hearing held after public notice.

PUBLIC NOTICE:

- A. Publication of the notice in a newspaper of general circulation in the City, designated for that purpose by the City Council, not more than thirty (30) days nor less than ten (10) days prior to the date of the hearing or other matter about which the notice is given; and
- B. By posting upon a sign the notice to be given at least ten (10) days prior to the hearing or other matter about which notice is given. Said sign shall be placed at points along the perimeter of the property concerned so as to be visible from any adjacent ways or streets, and so located as to provide opportunity for actual notice to owners of surrounding properties and the public. Parking may be outside the perimeter if in the opinion of the Planning Director the posting offers more visibility for public notice.
- C. If the notice set forth in subsections A and B has been provided, no further notice is required if the Planning Commission or the City Council adjourns the hearing to a date certain within thirteen (13) days after the hearing.
- D. If the Planning Commission or City Council adjourns the hearing to a date occurring more than thirteen (13) days after the hearing, public notice meeting the requirements of subsection A and subsection B of this definition is required.

PUBLIC WORKS DESIGN MANUAL: A comprehensive set of standard details, design criteria and specifications prepared by the Public Works Department establishing the minimum requirements for the design and construction of public works facilities, including, but not limited to, streets and structures related or appurtenant thereto, and drainage structures.

REARRANGEMENT OF PROPERTY BOUNDARIES: A rearrangement of property boundaries that does not increase the number of lots within a block or other subdivision unit or area, and which does not affect any streets, alley, utility or drainage easements within the area and which meets all the minimum requirements of this Article and the City's Zoning Code.

REPLATTING: The platting of land that has been previously platted and recorded or the platting of land which has been previously platted plus the addition of unplatted land when no previously platted public streets, rights of way or other public land are within the property described by the replat. Replatting does not require the vacation of all or part of the recorded plat.

RESUBDIVISION: The process of vacating previously platted land and then subdividing such land after the vacation.

SUBDIVIDER: Any person, group, corporation or other entity acting as a unit or any agent thereof dividing or proposing to divide, develop, or plat land so as to constitute a subdivision as defined herein is a land developer. For purposes of this Article, the subdivider is considered to be the owner of the land or an agent of the owner with full power.

SUBDIVISION: The division of a parcel of land into two (2) or more lots or parcels for the purpose of transfer of ownership or building development, or the building development or platting of a single unplatted parcel of land, or if a new street is involved, excepting at the instance of the City, any division of a parcel of land; provided that a division of land which may be ordered or approved by a court or effected by testamentary or intestate provisions, or a division of land for agricultural purposes and not involving a new street, or the rearrangement of property boundaries shall not be deemed a subdivision.

SUBDIVISION, MINOR: A subdivision as defined above in which:

1. The proposed plat of subdivision contains four (4) or fewer lots;
2. All lots within the proposed plat of subdivision abut a dedicated and accepted City street;
3. The proposed plat of subdivision meets all the minimum requirements of this Article, the Zoning Code, the Public Works Design Manual, and other applicable City ordinances and resolutions;

4. There are no requests for the waiver of any requirements of this Article, the Zoning Code, the Public Works Design Manual, and other applicable City ordinances and resolutions.

VACATION PLATTING: The process of preparing a map of land previously subdivided in accordance with the terms of this Chapter to terminate the existence of recorded plat descriptions of public or private property as described on the previously recorded plat. Such vacation shall be required on all land proposed for reversion to raw acreage or the vacation of any dedicated City property or both. (Ord. 4011; Ord. 78-65; Ord. 84-256; Ord. 85-237; Ord. 86-67; 1968 Code § 13-15; 1980 Code)

15-3-109: ANCIENT PLATS AND SUBDIVISIONS:

Subdivisions or portions thereof, the plats of which have been recorded for more than twenty one (21) years, which have not been developed and improvements installed, and in which subdivisions the construction of streets, alleys or any part thereof by reason of terrain or other conditions would involve an unusual or unreasonable cost, the said subdivisions or any part thereof shall be subject to the provisions of this Article, upon certification thereof by the Director of Public Works of the City. Such certification and decision of the Director of Public Works may be appealed to the Planning Commission and the City Council as herein provided. (Ord. 4011; 1968 Code § 13-29)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 2 PLATTING PROCEDURES

SECTION:

15-3-201: General Requirements
 15-3-202: Preliminary Platting Procedures
 15-3-203: Final Platting Procedures
 15-3-204: Preliminary and Final Plat Procedures
 15-3-205: Modifications; Planning Director's Authority
 15-3-206: Recording Procedures
 15-3-207: Replatting
 15-3-208: Property Boundary (Lot Line) Adjustments
 15-3-209: Preservation Areas

15-3-201: GENERAL REQUIREMENTS: Subdivisions which do not meet the requirements as stipulated under Part 3 of this Article shall be governed by the following procedures. (Ord. 4667; 1968 Code § 13-16)

15-3-202: PRELIMINARY PLATTING PROCEDURES:

A. Preparation. The subdivider shall cause the preliminary plat of the land proposed for subdivision to be clearly and legibly prepared by a registered land surveyor, or a person professionally qualified by the State of Colorado or a qualified land planner. Said plat shall comply with the provisions of this Article and State law.

B. Submission.

1. Application Form. The subdivider shall submit with the preliminary plat a completed application for approval of subdivision plat and a plat submittal check list form provided by the Planning Department.

2. Submission Fee. The subdivider shall pay a submission fee at the time of submitting the preliminary plat.

3. Required Number of Plats. The subdivider shall submit with the application form and the submission fee the required number of plats.

B) 4. Submission Deadline. The subdivider shall submit the preliminary plat and all the required information on or before the deadline dates posted at the Planning Department's office.

C. Distribution. The Planning Department shall date and file the preliminary plat upon its receipt from the subdivider. Within seven (7) days after the deadline for submission, the Planning Department shall transmit copies of said plat to the appropriate agencies for checking and recommendations for compliance with their requirements. (Ord. 4011; 1968 Code § 13-16)

D. Action on Preliminary Plat.

1. Land Development Technical Committee Action. The Land Development Technical Committee shall compare the plat with the requirements of this Chapter and shall submit a report and recommendation to the City Planning Commission.

Notification. The subdivider may obtain a copy of the Land Development Technical Committee report and recommendation at the Planning Department's office prior to the scheduled City Planning Commission meeting.

2. Planning Commission Action. The Planning Commission shall review the preliminary plat and the Land Development Technical Committee's report and recommendation at the public hearing.

a. Recommendation of Approval. The Planning Commission recommends approval of the preliminary plat, and said plat shall be referred to the City Council for consideration at its next regularly scheduled meeting provided all provisions as specifically outlined by the Planning Commission have been complied with by the subdivider. Any person or persons may appeal the recommendation of the Planning Commission to the City Council under the procedures as outlined in this Section.

D,2) b. Recommendation of Disapproval. If the Planning Commission elects to disapprove the preliminary plat, said plat shall not be referred to the City Council for consideration, unless the subdivider has filed a written appeal of the Planning Commission action to the City Council within ten (10) days of the Planning Commission action. Whenever a preliminary plat has been denied by the Planning Commission and has not been appealed to the City Council within the ten (10) day time limitation, then the Planning Commission shall not reconsider said plat for a period of six (6) months from the Planning Commission's final action of disapproval; provided, however, that if the plat is modified so as to overcome the objection stated, then the Planning Commission may consider the modified plat within the six (6) month time limitation.

c. Notification. The subdivider shall be notified of the action taken by the Planning Commission by letter within seven (7) days of such action. (Ord. 76-140; 1968 Code § 13-16)

3. City Council Action.

a. Approval. If the Planning Commission recommends approval of the preliminary plat and no appeals have been received, then the City Council shall review the preliminary plat and the Planning Commission report and recommendation. City Council may approve said plat or approve said plat subject to special provisions. If the City Council approves the preliminary plat or approves said plat subject to provisions then the subdivider may proceed with the preparation of a final plat on the approved preliminary plat, or a part thereof.

b. Disapproval, Tabling or Referral. If the City Council finds in reviewing the preliminary plat that said plat is not in conformance with the Public Works Design Manual as amended, this Article or the City's Comprehensive Plan, the City Council may set a public hearing, disapprove, table for further study or refer said plat back to the Planning Commission for further study. Whenever a preliminary plat has been denied by the City Council, the Council shall not consider said plat for a period of six (6) months from the final action of disapproval; provided, however, that if the plat is modified

D,3) so as to overcome the stated objections, then the City Council may consider the modified plat within the six (6) month time limitation.

c. Appeal of Planning Commission Recommendation. If the City Council receives an appeal on a Planning Commission recommendation and/or an appeal on one of the provisions for approval within the ten (10) day time limitation, then the City Council may receive the appeal request and set their next scheduled meeting as a public hearing to review the decision of the Commission, or they may refer the matter back to the Planning Commission for further study, or, if the Council does not feel that the Commission erred, they may disapprove the request for the review.

d. Notification. The City Manager shall notify the subdivider by letter of the action taken by the City Council within seven (7) days of such action.

E. Time Limit to File Final Plat After Preliminary Plat is Approved.

1. Time Limit. The subdivider shall submit for approval by the City Council or the City Planning Department a final plat on all, or a portion of, the approved preliminary plat within twenty four (24) months from the date of Council approval of said preliminary plat. (Ord. 77-100)

2. Extension of Time Limit. Upon written application of the subdivider, the Planning Director may grant one extension of time to the preliminary plats approved period said extension may not exceed twelve (12) months, provided the character of the area has not changed and the preliminary plat is still in conformance with the City's Comprehensive Plan for the area. If the Planning Director disapproves the request for the extension of time to the preliminary plats approved period, the subdivider may file a written appeal of the Planning Director's action to the Planning Commission within ten (10) days of notification of the Planning Director's denial. The procedures outlined in Section 15-3-202 shall then be followed.

3. Failure to Request an Extension. Failure of the subdivider to submit a written request for

E,3) an extension of a preliminary plat prior to the twenty four (24) month time limit, shall cause said plat to become null and void. Thereupon the plat shall be removed from the City's Land Use and Comprehensive Plan and any other neighborhood studies adopted by the Planning Commission and/or City Council. (Ord. 4011; Ord. 82-218; 1968 Code § 13-16A)

15-3-203: FINAL PLATTING PROCEDURES:

- A. Preparation. The subdivider shall cause the final plat of the land proposed for subdivision to be clearly and legibly prepared by a registered land surveyor or a person professionally qualified by the State of Colorado. Said plat shall be in compliance with the provisions of this Article, the preparation requirements of the Department of Public Works and State law.
- B. Submission.
 - 1. Application Form. The subdivider shall submit with the final plat a completed application for approval of subdivision plat and a plat submittal check list form provided by the Planning Department.
 - 2. Submission Fee. No submission fee shall be required.
 - 3. Required Number of Plats. The subdivider shall submit the required number of plats with the application form.
 - 4. Submission Deadline. There shall be no submission deadline dates for a final plat of subdivision. See subsections C and D of this Section for processing the final plat.
- C. Distribution. The Planning Department shall date and file the final plat upon its receipt from the subdivider. Within seven (7) days after the submission of the final plat, the Planning Department shall transmit copies of said plat to the appropriate agencies for checking and recommendations for compliance with their requirements. (Ord. 4011; 1968 Code § 13-16B)
- D. Action on Final Plat.
 - 1. Planning Director's Action. The Planning Director shall check the final plat for conformance with the approved preliminary

D,1) plat. He may approve modifications to the approved preliminary plat when all of the following conditions exist: the rearrangement of lot lines does not substantially alter the general lot and street layout of the approved preliminary plat, and remains compatible with surrounding development; the requested modification is in conformance with the City's Zoning Code, Subdivision Code and other applicable ordinances and the City's Comprehensive Plan; and the requested modification does not conflict with established policies of the Public Works Department, Department of Utilities and Regional Building Department. (Ord. 4230; 1968 Code § 13-16B)

a. Certification (Approval). If the Planning Director finds that the final plat conforms with the approved preliminary plat and that the subdivider has fulfilled all of the requirements of this Article, then the Planning Director shall certify said plat.

b. Disapproval. If the Planning Director determines that the final plat is not in compliance with the approved preliminary plat and/or this Article, then the Planning Director shall notify the subdivider who may make all the necessary changes, additions or corrections. If the subdivider does not desire to make the necessary changes, additions or corrections, then the subdivider may appeal the decision of the Planning Director to the Planning Commission within ten (10) days of notification of the Planning Director's decision. The procedures as outlined in Section 15-3-204 (Preliminary and Final Platting Procedures) shall then be followed.

c. Notification. The subdivider shall be notified of the action taken by the Planning Director by letter within fourteen (14) days of the submittal of said final plat.

2. Director of Public Works Action. The Director of Public Works shall check the final plat to ensure compliance with this Article, the Public Works Design Manual and other applicable City ordinances.

a. Certification (Approval). If the Director of Public Works finds that the final plat and the required accompanying material is in compliance with the Public Works Design

D,2) Manual as amended, this Article and other applicable City ordinances, then the Director of Public Works shall certify said plat.

b. Disapproval. If the Director of Public Works determines that the affidavits, offers of dedications, survey data and any other requirements necessary to ensure compliance with this Article and with the then current requirements of the Public Works Design Manual, are inadequate, then the Director of Public Works shall notify the subdivider who may make all the necessary changes, additions or corrections. If the subdivider does not desire to make the necessary changes, additions or corrections, then the subdivider may appeal the decision of the Director of Public Works to the Planning Commission within ten (10) days of notification of the Director of Public Works' decision. The procedures as outlined in Section 15-3-204 shall then be followed.

c. Notification. The subdivider shall be notified of the action taken by the Director of Public Works by letter within fourteen (14) days of the submittal of said final plat.

3. City Planning Commission Action. The City Planning Commission shall review only those final plats which have been appealed from a decision made by the Planning Director and/or the Director of Public Works. The procedures as outlined in Section 15-3-204 shall then be followed. (Ord. 4011; 1968 Code § 13-16B)

4. City Council Action. The City Council shall review only those final plats which have been appealed from a decision made by the Planning Director and/or the Director of Public Works. The procedures as outlined in Section 15-3-204 shall then be followed. (Ord. 4230; 1968 Code § 13-16B)

15-3-204: PRELIMINARY AND FINAL PLAT PROCEDURES:

A. Preparation. The subdivider shall cause the preliminary and final plat of the land proposed for subdivision to be clearly and legibly prepared by a registered land surveyor or a person professionally qualified by the State of Colorado. Said plat shall comply with the provisions of this Article and State law.

B. Submission.

1. Application Form. The subdivider shall submit with the preliminary and final plat a completed application for approval of subdivision plat and a plat submittal check list form provided by the Planning Department.

2. Submission. The subdivider shall pay a submission fee at the time of submitting the preliminary and final plat.

3. Required Number of Plats. The subdivider shall submit with the application form and the submission fee, the required number of plats.

4. Submission Deadline. The subdivider shall submit the preliminary and final plat and all the required information on or before the deadline dates posted at the Planning Department's office. (Ord. 4011; 1968 Code § 13-16C)

C. Distribution. The Planning Department shall date and file the preliminary and final plat upon its receipt from the subdivider. Within seven (7) days after the deadline for submitting said plat, the Planning Department shall transmit copies of said plat to the appropriate agencies for checking and recommendations for compliance with their requirements. (Ord. 4011; 1968 Code § 13-16C)

D. Action on Preliminary and Final Plat.

1. Planning Commission Action. The Planning Commission shall review the preliminary and final plat at a public hearing. (Ord. 4667; 1968 Code § 13-16C)

a. Recommendation of Approval. If the Planning Commission recommends approval of the preliminary and final plat, said plat shall be referred to the City Council for consideration at its next regularly scheduled meeting, provided all provisions as specifically outlined by the Planning Commission have been complied with by the subdivider. Any person or persons may appeal the recommendation of the Planning Commission to the City Council under the procedures as outlined in this Section. The subdivider shall fulfill all the provisions of approval as stipulated by the Planning Commission within ninety (90) days from the

D,1) date of the Commission's approval. The filing of an appeal shall stay the running of this time limitation. Failure of the subdivider to comply with all the provisions of approval within the time limitation shall void the approval, and the plat shall be resubmitted if approval is desired. The procedure as outlined in this Section shall then be followed.

b. Recommendation of Disapproval. If the Planning Commission elects to disapprove the preliminary and final plat, said plat shall not be referred to the City Council for consideration, unless the subdivider has filed a written appeal of the Planning Commission action. Whenever a preliminary and final plat has been denied by the Planning Commission and has not been appealed to the City Council within the ten (10) day time limitation, then the Planning Commission shall not reconsider said plat for a period of six (6) months from the Planning Commission's final action of disapproval; provided, however, that if the plat is modified so as to overcome the stated objections, then the Planning Commission may consider the modified plat within the six (6) month time limitation period.

c. Notification. The subdivider shall be notified of the action taken by the Planning Commission by letter within seven (7) days of such action.

2. City Council Action.

a. Approval. If the Planning Commission recommends approval of the preliminary and final plat and no appeals have been received, then the City Council shall review the preliminary and final plat and the Planning Commission report and recommendation at a public hearing and may approve it with or without special provisions. The subdivider shall fulfill all special provisions stipulated by City Council within ninety (90) days from the date of the Council's approval of said plat. Failure of the subdivider to fulfill the special provisions within the time limitation shall cause the plat to be once again placed on the Planning Commission agenda for consideration. If the City Council approves the preliminary and final plat, and all provisions have been fulfilled by the subdivider, then the City shall record said plat at the County Recorder's office after the

D,2) necessary affidavits have been signed on the preliminary and final plat linen.

b. Disapproval, Tabling or Referral. If the City Council finds in reviewing the preliminary and final plat that said plat is not in conformance with the Public Works Design Manual as amended, this Article or the City's Comprehensive Plan, the City Council may disapprove, table for further study, or refer said plat back to the Planning Commission for further study. Whenever a preliminary and final plat has been denied by the City Council, the Council shall not consider said plat for a period of six (6) months from the final action of disapproval; provided, however, that if the plat is modified so as to overcome the stated objections, then the City Council may consider the modified plat within the six (6) month time limitation.

c. Appeal of Planning Commission Recommendation. If the City Council receives an appeal from a Planning Commission recommendation and/or an appeal on one of the provisions for approval within the ten (10) day time limitation, then the City Council may receive the appeal request and set their next scheduled meeting as a public hearing to review the decision of the Commission or they may refer the matter back to the Planning Commission for further study, or, if the Council does not feel that the Commission erred, they may disapprove the request for the review.

d. Notification. The City Manager shall notify the subdivider by letter of the action taken by the City Council within seven (7) days of such action. (Ord. 4011; 1968 Code § 13-16)

15-3-205: MODIFICATIONS; PLANNING DIRECTOR'S AUTHORITY:

The Planning Director may approve modifications to an approved preliminary and final plat or an approved final plat when all of the following conditions exist:

- A. The rearrangement of lot lines does not substantially alter the general lot and street layout of the approved preliminary plat and remains compatible with surrounding development;
- B. The requested modification is in conformance with the City's Zoning Code, Subdivision Code and the City's Comprehensive Plan; and

- C. The requested modification does not conflict with established policies of the Public Works Department, Department of Utilities and Regional Building Department. (Ord. 4230; 1968 Code § 13-16D)

15-3-206: RECORDING PROCEDURES: A preliminary and final plat approved by City Council or a final plat certified by the Planning Director and the Director of Public Works shall be recorded by the City with the El Paso County Clerk and Recorder within ninety (90) days after approval provided all provisions of approval have been complied with. If the subdivider has fulfilled all of the provisions of approval and all required signatures have been signed on the subdivision plat linen, then the City shall record said plat linen within three (3) working days. (Ord. 77-100; 1968 Code § 13-16E)

15-3-207: REPLATTING: A replat may be filed whenever it is desired to make changes to an existing plat and no existing public street, right of way or other public property is affected. The replat shall refer to the plat describing the land which has been previously platted and recorded, but not vacated, and which is to be replatted in accordance with this subsection. Approval of the replat by City Council vacates the previous platting of the area replatted.

Request for approval of a replat shall be submitted to the Minor Land Subdivision Committee. The replat shall conform to the submittal requirements for preliminary/final plat submittals, Section 15-3-504, and shall further include:

- A. The title block of the replat shall identify the subdivision of record or that portion of the subdivision of record which is being replatted. The replat may be identified by its own separate title if desired. Example: ABC subdivision, a replat of Lots 4, 5 and 6 of Block 3 of XYZ subdivision.
- B. The replat shall contain the following notice: (Recordation) *"The approval of this replat vacates all prior plats for the area described by this replat"*.
- C. Preliminary copies of the replat shall show the original recorded lot lines as dashed lines; however, if preliminary copies are not required

- C) by the Planning Director and Director of Public Works under the same conditions as set forth in Section 15-3-504 at least one copy of the final replat shall show the original recorded lot lines as dashed lines. (Ord. 78-65; 1968 Code § 13-16F)

15-3-208: PROPERTY BOUNDARY (LOT LINE) ADJUSTMENTS:

- A. Changes may be made to platted lots without the necessity of replatting or vacation and platting, when the following conditions exist:

1. When an engineering error was made on the original plat; or,
2. When no additional lot is being created; and;

a. The proposed lotting pattern meets all requirements of this Code including adequate setbacks and area requirements for any existing development; and,

b. The proposal has been properly submitted to the Planning Department and reviewed by all City departments, with no departments having objections to the adjustments; and,

c. The lot, or lots, involved have not received prior property boundary adjustments or approval of combining of lots for zoning purposes (Section 15-3-209); that is, the fifteen percent (15%) limitation below cannot be circumvented by submitting a series of requests. This limitation shall not strictly apply to lots located within an area of common or central ownership (townhouses, etc.). In areas where the adjustment is between a lot and a surrounding lot, the surrounding lot may receive as many adjustments as are necessary so as to allow each contained lot to be adjusted one time; and,

d. No more than fifteen percent (15%) of the area of any one platted lot is involved in the adjustment. Basic lot configurations cannot be changed.¹

- B. Submission. The following shall be submitted:
 1. A completed application form, available at the Planning Department.

1. Ed. Note: Under these provisions two (2) north-south lots cannot be changed to two (2) east-west lots under this procedure. This allows one side property line to be moved ten feet (10') or an area of eleven hundred (1,100) square feet to be effected on a typical residential lot (70' x 110'). It does not allow a lot to be totally shifted ten feet (10') in one direction or another. This kind of shift would have to involve a minimum of three (3) lots and will not be considered a boundary adjustment that can be administratively approved.

B) 2. Recording fee.

3. Proof of ownership of the lots involved and written concurrence of the owners to the proposed changes.

4. The required number of certified property surveys.

C. Distribution. The Planning Department shall date and file the application and shall then transmit copies of the survey to the appropriate agencies for checking and recommendations for compliance with their requirements.

D. Action on Property Boundary Adjustments. After receiving all departmental comments the Planning Director shall either approve or disapprove the request. Requests which have been approved will then be recorded at the El Paso County Clerk and Recorder's office. (Ord. 82-218; 1980 Code)

A1d)

3. All preservation area boundaries, old and revised;

4. Adjacent right of way;

5. All existing structures which will remain;

6. Approval statement.

2. Distribution: The Planning Department shall date and file the application and shall then transmit copies of the survey to the appropriate agencies for review and recommendations and for compliance with their requirements.

3. Action: Requests which have been approved shall be recorded by the City at the El Paso County Clerk and Recorder's Office. (Ord. 86-67)

15-3-209: **PRESERVATION AREAS:** All designated "preservation areas" shall be platted and recorded in accordance to Parts 2 or 3, Platting Procedures, of this Chapter. A certified property survey prepared in accordance to this Section shall be submitted to recorded amendments to "preservation areas" involving previously platted property.

A. Procedure for Amending Platted Preservation Areas:

1. Submittal Requirements: The applicant shall submit to the Planning Division a completed application form accompanied by:

a. Application fee;

b. Recording fee;

c. Proof of ownership of the property; and

d. The required number of copies of a certified survey of the lot(s) involved to include:

1. The subdivision name, lot(s) and block numbers, and the book and page of the recorded plat;

2. All existing lot lines and easements;

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 3 PLATTING PROCEDURES; MINOR SUBDIVISIONS

SECTION:

- 15-3-301: Minor Land Subdivision Committee
- 15-3-302: Minor Subdivisions Defined
- 15-3-303: Preliminary and Final Platting Procedures
- 15-3-304: Modifications; Planning Director's Authority
- 15-3-305: Recording Procedures

- C) standards and shall require the timely payment of all outstanding subdivision fees required by this Article and other applicable City ordinances.

All minor subdivision plats and vacation plats recommended for approval by this Committee shall be forwarded to the City Council with its written recommendation. (Ord. 78-65; 1968 Code § 13-17A)

15-3-301: MINOR LAND SUBDIVISION COMMITTEE:

- A. Establishment. There is hereby created a Minor Land Subdivision Committee for the City, to be composed of the Planning Director, the Director of Public Works, the Director of Utilities and two (2) members of the Planning Commission selected by the chairman on a rotating basis. Each of the foregoing department heads may designate a subordinate to represent him at Committee meetings. (Ord. 4667; Ord. 77-100)
- B. Meetings. The members of this Committee shall meet on the first and third Mondays of each month, or if a Monday is a City holiday, the working day following the holiday, at such time and place as indicated on the schedule to be published and available to the public at the Planning Department office. (Ord. 77-110; Ord. 78-203)
- C. Powers and Duties. This Committee shall review minor subdivision plats as defined in Section 15-3-302 below, and all replats, vacation plats and street and alley vacations.

As a condition of approval of a minor subdivision the Committee shall require the dedication and improvement of additional right of way to bring an existing dedicated street adjacent to or within the subdivision up to City

15-3-302: MINOR SUBDIVISIONS DEFINED: A subdivision plat which may be considered by the Minor Land Subdivision Committee is a preliminary/final plat, which meets all of the requirements of this Code and which:

- A. Contains four (4) or fewer lots; or
- B. Is a replat (no limit on number of lots); or
- C. Agrees with a "planned" zone development plan which has been approved by the City; or
- D. Agrees with a master plan approved by the City Council which is sufficiently detailed so as to locate general land use categories and major streets; and
- E. Meets all of the following criteria:
 - 1. All lots within the proposed plat of the subdivision abut a dedicated and accepted City major or minor street or have access to such a street by means of recorded right of way at least twenty five feet (25') wide;
 - 2. The proposed plat of subdivision meets all the minimum requirements of this Chapter, the Zoning Code, the Public Works Design Manual, and other applicable City ordinances and resolutions;
 - 3. There are no requests for waiver of any requirements of this Chapter, as set forth in

E,3) Part 13 hereof, the Zoning Code, the Public Works Design Manual or other applicable City ordinances and resolutions.¹

F. Any submittal that does not meet the criteria set forth above shall be referred to the Planning Commission. If there is doubt on any matter the request shall be referred to the Planning Commission. (Ord. 78-65; Ord. 82-29; Ord. 82-218; 1968 Code § 13-17B)

15-3-303: PRELIMINARY AND FINAL PLATTING PROCEDURES:

A. Preparation. The subdivider shall process a minor subdivision as a preliminary and final plat. Said plat shall be clearly and legibly prepared by a registered land surveyor or a person professionally qualified by the State of Colorado. Said plat shall comply with the provisions of this Article and State law.

B. Submission.

1. Application Form. The subdivider shall submit with the preliminary and final plat a completed application for approval of subdivision plat and a plat submittal check list form provided by the Planning Department.

2. Submission Fee. The subdivider shall pay a submission fee at the time of submitting the preliminary and final plat.

3. Required Number of Plats. The subdivider shall submit the required number of plats with the application form and the submission fee.

4. Submission Deadline. The subdivider shall submit the preliminary and final plat and all the required information on or before the deadline dates posted at the Planning Department's office.

C. Distribution. The Planning Department shall date and file the minor subdivision preliminary and final plat upon its receipt from the subdivider. Within seven (7) days after the deadline for submission, the Planning Department shall transmit copies of said plat to the appropriate agencies for checking and recommendation for compliance with their requirements.

D. Action on Preliminary and Final Plat.

1. Minor Land Subdivision Committee Action. In reviewing minor subdivisions at a public hearing, the Committee shall take into account the provisions of this Article and shall approve the plat, approve the plat subject to any provisions deemed necessary by the Committee, table the plat for further study, refer the plat to the Planning Commission for its consideration, or disapprove the plat. Any person or persons may appeal the recommendation of the Subdivision Committee to the Planning Commission under the procedures as outlined in this Section. (Ord. 4011; 1968 Code § 13-17C)

a. Recommendation of Approval. If the Minor Land Subdivision Committee approves the preliminary/final plat or vacation plat said plat shall be forwarded to the City Council provided all provisions of approval have been complied with by the subdivider. The subdivider shall fulfill all of the provisions of approval as stipulated by the Minor Land Subdivision Committee within ninety (90) days of the date of the Committee's approval. The filing of an appeal shall stay the running of this time limitation. Failure of the subdivider to comply with all provisions of approval within the time limitation shall void the approval, and the plat shall be resubmitted if approval is desired. The procedure as outlined in this Section shall be followed. Appeals to the Minor Land Subdivision Committee approval shall be made to the City Council in writing specifying the reasons for the appeal within ten (10) days of the Minor Land Subdivision Committee meeting. (Ord. 78-65; 1968 Code § 13-17C)

b. Recommendation of Disapproval. If the Minor Land Subdivision Committee disapproves the preliminary and final plat, said plat shall not be referred to the Planning Commission or the City Council for consideration, unless an appeal of the Committee's decision is made. Disapproved minor subdivision preliminary and final plats shall be considered by the City Planning Commission only when the subdivider has filed a written appeal of the Minor Land Subdivision Committee's action to the Planning Commission within ten (10) days from date of

1. Following examples are to be used as general guides in determining whether or not the Minor Land Subdivision Committee may consider the request. If there is doubt, the matter shall be referred to the Planning Commission.

a. A slight adjustment in location or shape of land uses due to final engineering data is acceptable. However, changes in location or configuration of land uses will be referred to the Planning Commission.

b. Changes in the internal minor street pattern are usually acceptable. However, changes to streets that extend beyond the limits of the plat, or a change in the classification of the street, will mean the plat shall be referred to the Planning Commission.

c. If a master plan gives the impression of a park or school site in a particular location, a plat changing that location shall be referred to the Planning Commission.

d. Changes in the design concept of the master plan - either in graphic or written form - must go to the Planning Commission. (Ord. 78-65)

D,1) mailing the Minor Land Subdivision Committee's action. Whenever a preliminary and final plat has been denied by the Minor Land Subdivision Committee, the Committee shall not reconsider said plat for a period of six (6) months from the final action of disapproval, provided, however, that if in the opinion of the Planning Director, the plat has been modified so as to overcome the stated objections, then the Committee may reconsider said plat within the six (6) month time limitation.

c. Notification. The subdivider shall be notified of the action taken by the Minor Land Subdivision Committee by letter within seven (7) days of such action. Ord. 4011; (1968 Code § 13-17)

2. Planning Commission Action. The Planning Commission shall review only those minor subdivision preliminary and final plats which do not meet the requirements of Section 15-3-302 of this Part 3, those minor subdivision preliminary and final plats which the Committee has referred to the Planning Commission for review, and those minor subdivision preliminary and final plats which have been appealed from a decision made by the Minor Land Subdivision Committee. The platting procedures as outlined in Section 15-3-204 shall then be followed. (Ord. 77-100; 1968 Code § 13-17C)

3. City Council Action.

a. Approval. If the Minor Land Subdivision Committee recommends approval of the preliminary/final plat or vacation plat, and no appeal has been received, then the City Council shall consider said plat, provided all provisions of approval have been complied with.

If the City Council imposes additional provisions in granting its approval, then the subdivider shall fulfill such provisions within ninety (90) days of the date of the Council's approval. On failure of the subdivider to fulfill the additional provisions within the time

D,3) limitations, the plats shall be placed once again on the Minor Land Subdivision Committee agenda unless greater time has originally been given by Council.

If the City Council approves the preliminary/final plat or vacation plat and all provisions have been fulfilled by the subdivider, then the City shall record said plat at the County Recorder's office after the necessary affidavits have been signed on the preliminary/final plat linen or vacation plat linen. (Ord. 78-65; 1968 Code § 13-17C)

b. Disapproval, Tabling or Referral. If the City Council finds in reviewing the preliminary and final plat that said plat is not in conformance with the Public Works Design Manual as amended, this Article or the City's Comprehensive Plan, the City Council may disapprove, table for further study or refer said plat back to the Planning Commission or Subdivision Committee for further study. Whenever a preliminary and final plat has been denied by the City Council, the Council shall not consider said plat for a period of six (6) months from the final action of disapproval; provided, however, that if in the opinion of the Planning Director the plat is modified so as to overcome the stated objections, then the City Council may consider said plat within the six (6) month time limitation.

c. Notification. The City Manager shall notify the subdivider by letter of the action taken by the City Council within seven (7) days of such action. (Ord. 4011; 1968 Code § 13-17)

15-3-304: MODIFICATIONS; PLANNING DIRECTOR'S AUTHORITY:

The Planning Director may approve modifications to the approved preliminary and final plat when all of the following exist:

A. The rearrangement of lot lines does not increase the number of lots within the subdivision;

- B. The rearrangement of lot lines does not move an approved lot line by more than ten feet (10');
- C. The requested modification is in conformance with the City's Zoning Code, Subdivision Code and the Comprehensive Plan; and
- D. None of the appropriate agencies object to the requested modification. (Ord. 4011; 1968 Code § 13-17)

15-3-305: **RECORDING PROCEDURES:** The procedures as outlined in Section 15-3-206 shall be followed for recording minor subdivisions. (Ord. 4011; 1968 Code § 13-17E)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 4 PLATTING PROCEDURES; VACATION PLATS

SECTION:

15-3-401: Vacation Platting Procedures

15-3-401: VACATION PLATTING PROCEDURES:

- A. When Required. The subdivider shall file a vacation plat on all land proposed for resubdivision, reversion to acreage or vacation of a dedicated City street or alley unless determined by the Planning Director that such action is not required. If a vacation plat is not required, then the subdivider shall indicate at the time of submitting the vacation request to the Planning Department, for consideration by the Minor Land Subdivision Committee and the City Council, whether or not the existing easements are to be retained, and if so, whether they are drainage or utility easements.

Should a vacation plat not be required, the subdivider shall submit his request as set forth in subsection C set forth below, with the exception that in place of a vacation plat, drawings as specified by the Planning Director, adequate for City review of the request, shall be submitted instead. (Ord. 77-100; 1968 Code § 13-18)
- B. Preparation. The subdivider shall cause a vacation plat to be prepared as a preliminary and final plat. Said plat shall be clearly and legibly prepared by a registered land surveyor or a person professionally qualified by the State of Colorado. Said plat shall comply with the provisions of this Article and State law. (Ord. 4011; 1968 Code § 13-18)
- C. Submission. The subdivider shall make application to the Minor Land Subdivision Committee as follows: (Ord. 77-100; 1968 Code § 13-18)
 1. Application Form. The subdivider shall submit with the vacation plat a completed
 - C,1) vacation plat application form and vacation plat check list provided by the Planning Department.
 2. Submission Fee. The subdivider shall pay a submission fee at the time of submitting the vacation request.
 3. Required Number of Plats. The subdivider shall submit the required number of plats with the application form and the submission fee.
 4. Submittal Deadline. The subdivider shall submit the vacation plat and all the required information on or before the deadline dates posted at the Planning Department's office.
- D. Distribution. The Planning Department shall date and file the vacation plat upon its receipt from the subdivider. Within seven (7) days after the submittal deadline for filing said plat, the Planning Department shall transmit copies of said plat to appropriate agencies for checking and recommendations for compliance with their requirements. (Ord. 4011; 1968 Code § 13-18)
- E. Action on Vacation Plat. The procedures for minor subdivision plats as outlined in Section 15-3-303D of this Article shall be followed for the processing and recording of all vacation plats. (Ord. 4667; 1968 Code § 13-18)
- F. An action by the City Council in vacating a dedicated City street or alley shall become final on adoption of the vacation ordinance and may not be reconsidered or rescinded. (Ord. 83-44)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 5 PLATTING REQUIREMENTS

SECTION:

15-3-501: Applicability

15-3-502: Preliminary Plat; Major and
Minor Subdivisions

15-3-503: Final Plat; Major and Minor Subdivisions

15-3-504: Preliminary and Final Plats; Major and
Minor Subdivisions

15-3-505: Vacation Plats

15-3-501: **APPLICABILITY:** The platting requirements established herein shall govern the requirements for all major subdivisions (5 or more lots), all minor subdivisions (4 or fewer lots), and all vacation plats when applicable. (Ord. 4011; 1968 Code § 13-19)

15-3-502: **PRELIMINARY PLAT; MAJOR AND MINOR SUBDIVISIONS:**

- A. Scale. The preliminary plat shall be drawn to a scale which is adequate to demonstrate the information required below. A bar scale reflecting the scale used shall be placed upon the final plat. (Ord. 77-27; 1968 Code § 13-19A)
- B. Information Required on Preliminary Plat.
 1. Name of subdivision.
 2. An accurate and clear legal description of the subdivision with the acreage of the subdivision. (Ord. 77-100; 1968 Code § 13-19A)
 3. Name and address of the legal property owner and/or subdivider.
 4. Name and address of the designer, surveyor and/or engineer.
 5. Date of preparation, scale and north point.
 6. A vicinity location map necessary to locate the tract.
 7. Existing zoning and/or proposed zoning boundary lines, including zoning of contiguous properties.
- B) 8. Approximate location of land intended to be conveyed or reserved for public use or reserved in the deeds for the use of all property owners in the proposed subdivision.
9. Approximate layout, dimensions and number of lots including the location of existing curb, gutter and sidewalk.
10. The location with approximate gradients where a grading problems may exist, and names of the public or private streets or other public or private ways, easements, railroad and utility row, section and incorporation lines within the tract. Any private street shall include the designation "(private)" immediately following street name; any other private right of way that is not named shall include the designation "(private)" in a manner that clearly conveys such a status.
11. The approximate radii of all street curves.
12. Approximate location of all area subject to inundation or storm water overflow and the location, widths and direction of flow of all water courses.
13. Existing location of bridges, culverts and other provisions for collection and discharge of surface drainage.
14. Accurate existing contours shall be shown at intervals of two feet (2') or less; contours at intervals of five feet (5') will be acceptable for very rough topography. Said contours shall be extended onto adjacent property a sufficient distance to establish proper topographical relationships.
15. Outline to scale of buildings and structures which are not to be moved in the development of the subdivision.
16. Means of providing vehicular access to adjoining properties.
17. Adequate space for approval or disapproval stamp of the Commission.

- B) 18. All other information required by State law. (Ord. 4011; 1968 Code § 13-19A)

19. Approximate area in square feet of each lot sought to be platted. (Ord. 75-68; 1968 Code § 13-19A)

- C. Material Required to Accompany Preliminary Plat.

1. Where the preliminary layout covers only a part of the subdivider's entire holding, a sketch of the prospective street system of the unsubmitted part shall be furnished insofar as it affects the plat submitted for consideration of the overall street system.

2. Proof of ownership of land sought to be platted or power of attorney from the owner of the land sought to be platted. Such proof of ownership may consist of a title insurance policy, tax assessor's statement or sworn statement of the owner, or deed. (Ord. 81-49; Ord. 82-218; Ord. 83-229; Ord. 86-106)

15-3-503: FINAL PLAT; MAJOR AND MINOR SUBDIVISIONS:

- A. Sheet Size. The sheet size shall be twenty four inches by twenty six inches (24" x 26") including one-half inch (½") border. (Ord. 4011; 1968 Code § 13-19)
- B. Scale. The final plat shall be drawn to a scale of one inch equals one hundred feet (1" = 100') unless determined by the Public Works Director that the scale may be varied because of exceptional circumstances that merit either a larger or smaller scale. A bar scale reflecting such scale shall be placed upon the final plat. (Ord. 77-27; Ord. 80-424; 1968 Code § 13-19B; 1980 Code)

- C. Information Required on Final Plat.

1. Name of subdivision.
2. An accurate and clear legal description of the subdivision with the acreage of the subdivision.
3. Date of preparation, scale and north point.
4. Vicinity Map. A vicinity location map necessary to locate the tract.

- C) 5. Public Land and/or Land Reserved in Deeds. Location of land intended to be conveyed or reserved for public use or reserved in the deeds for the use of all property owners in the proposed subdivision.

6. Monuments. All monuments shall be placed and set in accordance with the requirements of the State of Colorado.

7. Surveyor's Certificates. Certification by a registered land surveyor to the effect that the layout represents a survey made by him and that the monuments thereon actually exist as located and that all dimensional and other details are correct. (Ord. 4011; 1968 Code § 13-19B)

8. Dedications if Any. Dedication to the City of land set aside for parks, playgrounds or other public uses and dedication of public streets and alleys to the City. Signature of the mortgagee, if any, consenting to the dedication is required. (Ord. 83-46)

9. Notary Statement. Acknowledgment of the execution of the plat before a notary public.

10. Certificates for execution by each of the following or their duly appointed representative(s).

a. Director of Public Works

b. Planning Director (Ord. 4011; 1968 Code § 13-19B)

c. City Clerk and Mayor. When a final plat is submitted after prior approval of a preliminary plat, the signatures of the Clerk and Mayor are not required and the Planning Director's signature alone is sufficient.

The Planning Director and Director of Public Works' certificates may be combined as one statement with two (2) signature blocks and date indications. (Ord. 77-100; 1968 Code § 13-19B)

11. Statement of ownership and acknowledgment.

12. Certification Restricting Access. A certificate waiving access rights across the right-of-way lines of major highways, parkways, streets or freeways, where required as a provision of approval.

- C) 13. Not a Part of Subdivision. All areas shown on the map which do not constitute a part of the subdivision shall be labeled "Not a part of this subdivision". All lines delineating such areas shall be dashed.

14. Relationship to Known Monument. Relative bearings and distances to the nearest established street lines or official monuments, which shall be accurately tied to the lines of the subdivision by distances and bearings.

15. Layout. The exact layout including:

a. Boundary Lines. The boundary lines with accurate distance and bearings, the exact location and width of all existing or recorded streets intersecting the boundary of the tract. All dimensions to be determined by accurate field survey which must balance and close within limit of one in five thousand (5,000).

b. Dimension, Relative Bearing, Curve Data. The length of all arcs, internal angles, points of curvature, length and bearing of the tangents, all in accordance with the Public Works Design Manual.

c. Easements. All easements as required by the Department of Utilities, Department of Public Works, and other public and quasi-public agencies.¹

d. Lots and Blocks. All lines of lots, blocks and other parcels of land shall have accurate dimensions in feet and hundredths with bearings or angles to street and alley lines. Lots must close to one in five thousand (5,000).

e. Identification System. All lots and blocks in the subdivision shall be numbered, beginning with the numeral "1" and continuing consecutively throughout the tract, with no omissions or duplications. (Ord. 4011; 1968 Code § 13-19B)

f. Streets. The plat shall show the right-of-way lines, widths, locations and street names of all existing and proposed public or private streets.

1. Within the proposed subdivision, and

2. Immediately abutting the proposed subdivision, and

- C15f) 3. Within three hundred feet (300') of the proposed subdivision, including intersecting streets.

Any private street shall include the designation "(private)" immediately following street name; any other private right of way that is not named shall include the designation "(private)" in a manner that clearly conveys such a status. (Ord. 4011; Ord. 86-106; 1968 Code § 13-19B)

g. Inundation Mark. The plat shall clearly show the high water line of any area subject to inundation, said high water line being a one hundred (100) year storm frequency.

h. All other information required by State law. (Ord. 4011; 1968 Code, § 13-19B)

16. The area in square feet of the lot sought to be platted. (Ord. 75-68; 1968 Code § 13-19B)

17. Adjacent Subdivision. Names of adjacent platted areas shall be shown. If unplatted, so indicate. (Ord. 77-100; 1968 Code § 13-19B)

18. A statement that the area included in the plat is subject to this Code, as such applies to the development of the land. See also Section 15-3-1101 for other language that must be included. (Ord. 78-202; 1968 Code § 13-19B)

D. Material Required to Accompany Final Plat.

1. Recordation fees.

2. Certified check or cash in an amount equal to drainage basin fees, arterial roadway bridge fees and park/school fees.

3. Closure Sheets. One copy of the computed closure sheets for the entire subdivision area. Such sheets will not be required, if not more than five (5) lots in the subdivision are irregular (not rectangular) in shape.

4. Proof of ownership of the land sought to be platted or power of attorney from the owner of the land sought to be platted. Such proof of ownership may consist of a title insurance policy, tax assessor's statement or sworn statement of the owner or deed.

5. Certification of the El Paso County Treasurer's Office that all ad valorem taxes applicable to the

1. See also Section 15-3-1101 and Section 15-3-704 for additional requirements on final plats.

- D5) land comprising the proposed subdivision for years prior to the year in which the final plat is submitted, have been paid. (Ord. 76-178; Ord. 82-218; Ord. 85-202; 1968 Code § 13-19B)
- E. Material Required Prior to Consideration by City Council. Three (3) copies of the drainage plan for the entire subdivision area, said plan to include all required drainage facilities and estimates of drainage costs. (Ord. 4027; 1968 Code § 13-19B)

15-3-504: PRELIMINARY AND FINAL PLATS; MAJOR AND MINOR SUBDIVISIONS:

The requirements as outlined in Sections 15-3-502 and 15-3-503 shall be followed when submitting a preliminary/final plat of a subdivision. A final plat may be considered as both a preliminary/final plat when the Planning Director and the Director of Public Works have stated in writing to the subdivider prior to submittal of the application, that the preliminary plat information is not necessary. (Ord. 77-100; 1968 Code § 13-19C)

15-3-505: VACATION PLATS:

- A. Sheet Size. The sheet size shall be twenty four inches by twenty six inches (24" x 26") including one-half inch (½") border.
- B. Scale. The vacation plat shall be drawn to a scale of one inch equals one hundred feet (1" = 100').
- C. Information Required on Final Plats.
1. Name of subdivision must begin with the following words: "A vacation plat of _____".
 2. An accurate and clear legal description of the subdivision with the acreage of the subdivision.
 3. Date of preparation, scale and north point.
 4. Vicinity map. A vicinity location map necessary to locate the tract.
 5. Surveyor's Certificates. Certification by a registered land surveyor to the effect that the plat to be vacated is a recorded plat.
 6. Notary Statement. Acknowledgment of the execution of the plat before a notary public.

- C) 7. Certificate for execution by each of the following or their duly appointed representative(s):

- a. Director of Public Works.
- b. City Clerk and Mayor.
- c. County Recorder.
- d. Director of Utilities.

8. Statement of ownership and acknowledgment.

9. Layout. The exact layout including:

a. Boundary Lines. The boundary lines with accurate distance and bearings, the exact location and width of all existing or recorded streets intersecting the boundary of the tract.

b. Dimension, Relative Bearing, Curve Data. The length of all arcs, internal angles and points of curvature.

c. Easements. All existing drainage and utility easements as recorded, subject to reservation of easements for existing drainage and utility installations.

d. Lots, Blocks and Identification System. All lines of lots, blocks, identification system and other parcels of land as recorded.

e. Streets. The plat shall show the right-of-way lines, widths, locations and street names of all streets as recorded within, and immediately adjacent to the property being vacated.

f. Inundation Mark. As recorded.

10. Miscellaneous. All other data required by State law. (Ord. 4011; 1968 Code § 13-19A)

11. The area in square feet of that which is sought to be vacated. (Ord. 75-68; 1968 Code § 13-19A)

- D. Certification of the El Paso County Treasurer's Office that all ad valorem taxes applicable to the land comprising the proposed subdivision for years prior to the year in which the vacation plat is submitted, have been paid. (Ord. 85-202)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 6 DESIGN STANDARDS

SECTION:

15-3-601: Application
 15-3-602: Conformity With Comprehensive Plan
 15-3-603: Remnants of Land
 15-3-604: Block Standards
 15-3-605: Lot Standards
 15-3-606: Residential Lot Design Adjacent to Major Street
 15-3-607: Easements
 15-3-608: Railroad Rights of Way

15-3-601: **APPLICATION:** The design standards established in this Part 6 shall be applied by the Planning Commission and/or Subdivision Committee in evaluating a proposed plat of subdivision. (Ord. 4011; 1968 Code § 13-20A)

15-3-602: **CONFORMITY WITH COMPREHENSIVE PLAN:** The Planning Director and the Planning Commission and/or Subdivision Committee shall study the plat of subdivision in connection with the standards established within the City's Comprehensive Plan. (Ord. 4011; 1968 Code § 13-20B)

15-3-603: **REMNANTS OF LAND:** Substandard remnants of land shall be prohibited unless designated as tracts and adequate assurance is provided to incorporate the tracts into usable lots in future developments. (Ord. 4011; 1968 Code § 13-20C)

15-3-604: **BLOCK STANDARDS:** Block design shall conform to sound subdivision design principles and the length, width and the shape shall be determined with due regard to:

A. Zoning district requirements as to lot size.

B. Topographic conditions.

C. Need for safe, convenient access and traffic circulation. (Ord. 4011; 1968 Code § 13-20H)

15-3-605: LOT STANDARDS:

A. General. The size, shape and orientation of lots shall be appropriate to the proposed subdivision location and to the type of development contemplated and shall conform to requirements of this Code.

B. City Limits Line. No lot shall be divided by a City limit line. (Ord. 4011; 1968 Code § 13-20I)

C. Access. Each lot in a new or replatted subdivision shall be provided with satisfactory access to a dedicated public street. (Ord. 77-100; 1968 Code § 13-20J)

D. Double Frontage. Double frontage lots, other than corner lots, will not be permitted unless approved by the Planning Commission and by the City Council. (Ord. 4011; 1968 Code § 13-20)

E. Flag Lots. May be allowed where warranted by physical conditions of land form, existing lot pattern or unusual size or shape of parcel(s). The narrow strip of land connecting the main portion of a flag lot to the street shall be not less than twenty feet (20') wide at any point so long as five foot (5') side lot utility easements are provided adjacent to the flag lot lines. If public utility easements are not provided the stem portion of the flag lot shall be not less than twenty five feet (25') in width. The narrow strip of land shall also provide for practical vehicular and utility access. It shall not be used to help satisfy the minimum lot area requirement of the zoning district. (Ord. 78-65; 1968 Code § 13-20I)

- F. Large Lots. If a tract is subdivided into larger parcels than ordinary building lots, such parcels shall be arranged to allow the opening of future streets and logical further subdivision. (Ord. 4011; 1968 Code § 13-20I)

15-3-606: RESIDENTIAL LOT DESIGN ADJACENT TO MAJOR STREET: If a frontage road is not provided for a single-family or duplex lots fronting onto a major street, the subdivider shall cause the design of the subdivision to conform to one of the alternative design treatments stated below:

- A. Lots abutting the major street shall have vehicular access from the existing or proposed alley adjacent to the rear lot line, or
- B. Lots abutting the major street shall have vehicular access from the minor street adjacent to the through lot. (Ord. 4011; Ord. 86-106; 1968 Code § 13-20; 1980 Code)

15-3-607: EASEMENTS:

- A. Maintenance of Easements. The property owner shall be responsible for the maintenance of all easements described below, excluding drainage easements on the City's Master Drainage Plan.
- B. Utility Easements. Utility easements shall be not less than five feet (5') in width on both sides of all side lot lines and seven feet (7') in width on both sides of all rear lot lines unless the Director of Utilities or his designated representative has stated in writing prior to submission of the plat that such are not required. All required utility easements shall be placed on the final plat prior to consideration of said plat by the City Council. (Ord. 77-100; 1968 Code § 13-20K)
- C. Drainage Easements. All required drainage easements shall be placed on the final plat and so marked prior to consideration of said plat by the City Council. Further, all drainage easements that are not on the City's approved drainage plan shall be marked "private drainage easements" on the plat, or a statement shall be placed on the final plat that the City is not responsible for the maintenance of said easements, prior to consideration of said plat by the City Council.

- D. Dual Easement. Where an easement is proposed for both utilities and drainage facilities, the following minimum standard shall apply: Dual easements shall be not less than seven feet (7') in width on both sides of all lot lines. Said easement shall be designated on the final plat as a dual easement prior to consideration of said plat by the City Council. (Ord. 4011; 1968 Code § 13-20K)

15-3-608: RAILROAD RIGHTS OF WAY: Where a subdivision adjoins a railroad right of way, provisions of space for grade separations, buffer strips and other protective treatment shall be made to the extent and type required by the Planning Commission and the City Council. (Ord. 4011; 1968 Code § 13-20L)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 7 STREETS IN SUBDIVISIONS

SECTION:

- 15-3-701: Purpose
- 15-3-702: Policy
- 15-3-703: Definitions
- 15-3-704: Regulations for Streets Shown on Plats Submitted for Approval
- 15-3-705: Right of Way Dedication and Street Improvements
- 15-3-706: Partial Reimbursements

15-3-701: **PURPOSE:** It is the purpose of this Part 7 to set forth policies and procedures of the City pertaining to streets in the land development (subdivision) process. (Ord. 76-78; 1968 Code § 13-21.1A)

15-3-702: POLICY:

- A. It is general policy of the City that streets shall be planned, located, constructed, named and numerically addressed to promote the public health, welfare and safety of the public. Streets in the City shall provide for ease of traffic circulation and the lessening of traffic congestion. Streets shall be designated and constructed for vehicular safety.¹
- B. It is the policy of the City that major streets, as defined below, shall provide for the rapid and relatively unimpeded movement of vehicular traffic throughout the City, and that major streets shall be located so as to provide access to major land use centers in the City.
- C. It is the policy of the City that minor streets, as defined below, shall provide access to all property in the City. (Ord. 76-78; Ord. 86-106; 1968 Code § 13-21.1B)

15-3-703: **DEFINITIONS:**² The following terms as used in this Part 7, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such mean-

ing is excluded by express provision.

MAJOR STREET: An actual or proposed street with a right of way width greater than sixty feet (60') which provides for the rapid and relatively unimpeded movement of vehicular traffic between major land use centers in the City. Each major street in the City shall be classified as:

- A. A freeway, or
- B. An expressway, or
- C. A major arterial, or
- D. A minor arterial.

MINOR STREET: An actual or proposed street with a right-of-way width of sixty feet (60') or less which provides access to property in the City. Each minor street in the City shall be classified as:

- A. A collector street, or
- B. A residential street, or
- C. A minor residential street, or
- D. A hillside minor residential street, or
- E. An industrial street, or
- F. A frontage street, or
- G. An alley.³ (Ord. 76-78; 1968 Code § 13-21.1C)

15-3-704: REGULATIONS FOR STREETS SHOWN ON PLATS SUBMITTED FOR APPROVAL:

- A. Street System. Design and development of the street system in a plat submitted to City Council for approval shall conform with the requirements of this Article. Whenever a tract of land to be platted embraces or abuts a major street designated on the Major Traffic Thoroughfare Plan, such section of the major

1. See Section 15-3-102 of this Code.

2. For definitions of general application, see Section 1-1-203 of this Code.

3. See Subdivision Policy Manual for Design Standards.

- A) street shall be dedicated and constructed in the location and at the width indicated on the plan.

B. Street Design.

1. Basic Street Design. Except in cases where the City's Major Traffic Thoroughfare Plan or an official plan line specifies a greater or lesser width as a minimum, the minimum right of way, roadway, planter strip, sidewalk and pedestrian way widths shall be as indicated in the Subdivision Policy Manual.

2. Frequency of Street Intersections and Visibility. Street intersections shall be at right angles or as nearly so as topography and other limiting factors of good design will permit. "T" or "cross" intersections shall be used wherever possible and intersections designed on a curve shall not be allowed except when topography or other limiting factors warrant. Frequency of intersections shall be as outlined in the Subdivision Policy Manual. (Ord. 76-78; 1968 Code § 13-21.1D)

3. Cul-De-Sac Regulations. The design and overall length of a cul-de-sac shall be determined by topography, type of development, proposed density, and other physical factors which may warrant special consideration.

For any cul-de-sac over five hundred feet (500') long, as measured from the curb line at the furthest end of the cul-de-sac to the center line of the through street to which it connects, written approval must be obtained from the Fire Department and the Water Division of the Utilities Department prior to Planning Commission or Minor Land Subdivision Committee approval of the plat containing the proposed cul-de-sac. (Ord. 78-204; 1968 Code § 13-21.1D)

4. Half Streets. Half streets or portions of a street shall not be permitted.

5. Alleys. Where provided, alleys shall be fully improved to the specifications of the Public Works Design Manual, shall contain a right-of-way width of at least twenty feet (20') and shall be certified by the Director of Public Works as meeting such design specifications. The Planning Commission may prescribe the installation of alleys in commercial and industrial areas when such alley(s) are necessary for the good traffic circulation.

- B) 6. Grades. Grades shall be as prescribed in the Subdivision Policy Manual.

7. Curves. Minimum horizontal and vertical curves shall be as prescribed in the Subdivision Policy Manual.

8. Future Streets. The street system shall provide for the future projection of principal streets into unsubdivided lands adjoining, when such connections are necessary for the proper vehicular circulation of the area. Streets connecting to streets in an adjoining subdivision shall be of equal width in right of way and in street section.

9. Temporary Dead-End Streets. On streets which are stub-end streets designed to provide future connection with adjoining unsubdivided areas, there shall be provided a temporary turnaround at the stub-end or a temporary connection to another street if required by the Director of Public Works. If such a provision is required, the design for such stub-end or connecting street shall be approved by the Director of Public Works.

C. Private Streets.

1. Required. A private street or right-of-way shall be required to be provided by a property owner when any one of the following conditions is applicable:

a. The site, layout of the site, density of units or structures, or other circumstance adversely affects the ability of the Municipality or other governmental entity to adequately provide service or effectively maintain an adequate level of service to the site, or;

b. The intent and purpose of this Chapter, that is, to promote the general health, safety, convenience and welfare of the citizens, would be adversely affected, or;

c. Any applicable ordinance, regulation, rule or policy concerning the standards of design or construction for a public street is not met.

2. Design and Location. The location and design of a private street or right-of-way shall be subject to the review and approval of the Traffic Engineering Department and Fire Department.

- C) 3. Designation. The designation of a private street or right-of-way shall be subject to the requirements of Section 15-3-704D.

4. Street Name Signs. It is the responsibility of the property owner(s) or an authorized agency on his/her behalf to erect and forever maintain permanent signs that shall identify the name of each private street or right-of-way. Such a sign shall be of a brown background with white reflective lettering and shall, in every other respect, conform to the specifications of the Manual of Uniform Traffic Control Devices. Such a sign shall be erected no later than that point in time when the occupancy of one-half (½) of the units on the block face has occurred. Failure to erect said sign shall result in disapproval of final inspection, refusal to issue a certificate of occupancy, revocation of certificate of occupancy or other action authorized in Section 1-2-101, General Penalty of the Code of the City of Colorado Springs 1980, as amended. The property owner(s) or an authorized agency on his/her behalf, upon notification of noncompliance and subsequently failing to meet or cause to be met all applicable requirements shall be responsible for any and all expenses incurred on the part of the City of Colorado Springs or any authorized agent in the enforcement of and compliance with this Section.

D. Street Names.

1. Approval. All street names, both public and private, shall be subject to the approval of the Planning Department, Traffic Engineering, Emergency Response Administration (911), Fire Department and the Building Official. Numeric address assignment shall be subject to the approval of the Building Official as required in Section 16-1-503.

2. Street Name Regulations. All street names shall be established by the use of common English spelling. No directional entries shall be allowed as part of a street name, for example, but not by way of limitation, Northpointe Drive. Residential street names shall be limited to a maximum of ten (10) letters, not including the street name designation. Two (2) word street names shall be acceptable only when the first word has not been used more than six (6) times in any existing street name. Duplicate street names shall not be approved regardless of the

- D2) street designation, for example, but not by way of limitation, Chelton Road, Chelton Loop, Chelton Circle. Street names that closely approximate the spelling or phonetically sound similar to a platted street in El Paso County shall not be approved. For purposes of Section 15-3-704C, the official street name list to be used in the review of street names shall be that list, commonly known as the locate file, which is maintained by the emergency response administration (911).

3. Continuity of Names. Any street which is a continuation or a logical approximate extension of an existing dedicated street, a platted street, a deeded street, a proposed street as shown on an approved master plan or approved development plan or a street on the City of Colorado Springs major thoroughfare plan shall bear the same street name.

4. Small Cul-De-Sacs. Small cul-de-sacs which have less than five (5) interior lots shall bear the name of the intersecting street and the property shall be sequentially numerically addressed from the block series of the intersecting street.

5. Public Street Name Designation. Street name designations shall be used as follows.

a. Boulevard or Parkways. Shall be reserved for streets designated on the major thoroughfare plan which are planned to have a median divider of sufficient size to allow for landscaping.

b. Avenue or Road. Shall be reserved for streets of substantial continuity such as major or minor arterials of the major thoroughfare plan.

c. Street or Drive. Shall be reserved for streets of less continuity such as collector streets.

d. Court, Place, Circle, Way, Terrace, Lane, Loop, Trail or Path. Shall be reserved for streets with no continuity.

6. Private Street Name Designations. Any private street or right-of-way shall be designated as follows: Grove, Heights, Point or View.

7. Street Name Changes: All applications for street name changes, for both public and private

- D7) streets, or right-of-way, shall be submitted to the Planning Department in accordance with the requirements of the Department and are subject to the jurisdiction of the Hearing Officer.

In reviewing an application for a street name change, the Hearing Officer, Planning Commission upon referral or City Council upon appeal shall grant the street name change only upon determination that all of the following criteria are met:

a. No Adverse Impact. That the efficient, timely and convenient delivery of services and goods, public and private, to the people and their property will not be adversely affected.

b. Requirements of Section 15-3-704. That the requirements of this Section have been met.

c. Purpose of Chapter. That the street name change comes within the purpose of this Chapter, that is, to promote the health, safety, convenience and general welfare of the citizens.

An application for a street name change for a street that crosses jurisdictional boundaries shall require approval of all entities involved prior to the street name change becoming effective.

8. Temporary Posting of Public or Private Street Name Required. In order to ensure the timely and effective delivery of public services, including but not limited to emergency assistance, utilities provision and required inspections, it shall be the responsibility of the subdivider, his duly authorized agent or other subsequent property owner(s) to ensure the temporary posting of street names in subdivisions or areas of the City where new construction of building(s) is (are) occurring. Such temporary posting of a street name shall occur within a forty eight (48) hour time period following the issuance of the first building permit to allow construction in a block face. Such a street name sign shall be of any material that is weather resistant, shall be lettered to be legible and weather resistant, shall be placed in a location that is convenient and visible and at the appropriate intersection, and shall be maintained until a permanent sign is installed.

9. Temporary Access. Temporary access to any property shall not be construed as a guarantee of continued usage of any numeric address and/or street name which may have been assigned at time of approval of temporary access.

- E. Intallation of Curbs and Sidewalks. The following standards shall apply to the installation of curbs and sidewalks:

1. Curbs.

a. Type of Curb. Vertical type curbs shall be required on all City streets unless topographic or design considerations warrant special consideration for a waiver, which may be granted by the Director of Public Works. Should the Director of Public Works deny a request for waiver, his decision may be appealed to the Planning Commission and City Council in the same manner as a request for a waiver for the installation of public improvements as set forth in Section 15-3-1304 of this Article.

b. Curb Radius. Curb radius shall be as prescribed in the Subdivision Policy Manual.

2. Sidewalk Requirements.

a. Residential Zones. Sidewalks shall be required on both sides of every street for all developments with a net density of two (2) dwelling units per acre or greater; for developments of less than two (2) dwelling units per acre, sidewalks are required on one side of every street. The Director of Public Works may modify the requirements based on criteria established by the Director.

Sidewalks shall be required on both sides of every street within three (3) blocks of any school site.

Sidewalks shall be required adjacent to developed parks.

Time delays shall be at the discretion of the Department of Public Works at the time of building permit application only.

Acceptable assurances for sidewalk construction shall be filed as follows:

1. Subdivisions of ten (10) lots or less shall be required to post adequate assurance for one hundred percent (100%) of the sidewalks required.

2. Subdivisions of more than ten (10) lots shall post an assurance covering twenty percent (20%) of the required sidewalks based upon the total lineal footage.

- E2) b. Commercial Zones. In commercial or office zones, sidewalks shall be required on both sides of every street.

Time delays will be considered by the Director of Public Works only if he determines that sidewalks would not be beneficial to the public at the time the request for development is reviewed.

Acceptable assurances will not be required, but certificate of occupancy will be withheld until sidewalks are completed unless a time delay is approved in advance of building permit.

c. Industrial Zones. There shall be no sidewalks required in industrial zones, except next to arterial streets and sidewalks are required on both sides of arterials. The developer may have the option to place a bikeway on one side of an arterial street. Acceptable assurances shall be filed with the City prior to issuance of a building permit.

A sidewalk waiver may be granted by the Director of Public Works and the Director of Planning. Should the Director of Public Works or the Director of Planning deny a request for waiver, his decision may be appealed to the City Planning Commission and City Council as provided in Section 15-3-1304 of this Code. (Ord. 80-160; Ord. 86-106)

15-3-705: RIGHT OF WAY DEDICATION AND STREET IMPROVEMENTS:

- A. Minor Streets. The subdivider seeking preliminary/ final plat or final plat approval shall agree as a condition of preliminary/final or final plat approval to construct and dedicate all minor streets as shown on the preliminary/final or final plat¹.
 - B. Major Streets. The subdivider seeking preliminary/final or final plat approval shall agree as a condition of preliminary/final or final plat approval to construct and dedicate all major streets shown on the preliminary/final or final plat.² Such construction and dedication of major streets may be the subject of partial reimbursement by the City as set forth below.
 - C. Sharing of Improvement Costs. When a subdivider improves the entire width of a dedicated major street and the part or all of the subdivision is on one side of the improved major street, the subdivider is entitled to a fair share reimbursement of the cost of the improvement less any City reimbursement from any person who subdivides or develops land on the opposite side of the street within fifteen (15) years after acceptance of the street by the City. The original subdivider must file a cost recovery statement at the time of filing the final plat with the Director of Public Works in order to become eligible for future cost recovery. The cost recovery statement will be recorded with the El Paso County Clerk and Recorder by the Director of Public Works. The cost of recording shall be the responsibility of the subdivider. An application for a plat or building permit on the other side of the improved major street by an adjacent subdivider shall not be approved until a fair share reimbursement of the cost of the street improvements put in by the original subdivider shall have been made to the original subdivider. A signed notarized copy by the original and subsequent subdivider of the release of the cost recovery statement shall be submitted to the Director of Public Works. The release shall state that payment required by the provisions of this subsection have been made in full and that all parties agree to the release of the cost recovery statement. The release shall be recorded with the El Paso County Clerk and Recorder by the Director of Public Works. The cost of recording shall be the responsibility of the original subdivider.
- C) When the streets of a proposed land development do not connect with existing improved streets which are adequate to carry the traffic generated by the subdivision, then the City shall require the subdivider to pay the cost of all necessary improvements including right-of-way costs of connecting streets. The subdivider is entitled to fair share reimbursement of the cost of the off-site street improvements less any City reimbursement from the owner or owners whose property abuts the improved street and whose property is developed within fifteen (15) years after acceptance of the street by the City. The original subdivider must file a cost recovery statement at the time of filing his final plat with the Director of Public Works to be eligible for future recovery. The statement will be recorded with the El Paso County Clerk and Recorder by the Director of Public Works. The cost of recording shall be the responsibility of the original subdivider. During the fifteen (15) year period, an application for a plat or building permit from owners whose property abuts the improved street shall not be approved until a fair share reimbursement of the costs of the street improvement has been made to the original subdivider. All liability for improvement costs shall be limited for fifteen (15) years after acceptance of the street by the City. A signed notarized copy by the original subdivider and subsequent subdivider of the release of the cost recovery statement shall be submitted to the Director of Public Works and shall state that payment has been made in full and that all parties agree to the release of the cost recovery statement. The release shall be recorded with the El Paso County Clerk and Recorder by the Director of Public Works. The cost of recording shall be charged to the original subdivider.
- When required improvements have been completed the subdivider shall certify the cost of such improvements to the Director of Public Works by paid receipts. During such fifteen (15) year period, approval of plats or building permits for land abutting the street shall be conditioned upon payment of the fair share of the improvement costs as determined by the Director of Public Works. The determination of fair share shall be made by the Director of Public Works on a front foot basis. All liability for improvement costs shall be limited to a period of fifteen (15) years after acceptance of the improved street by the City. The Director of Public Works shall determine the fair share

1. See Section 15-3-1102 of this Chapter for letter of credit, cash or performance bond requirements.

2. Ibid.

- C) reimbursement on a front foot basis and shall on January 1 of the year following acceptance of the street by the City, and each year thereafter on January 1 add ten percent (10%) to such fair share. (Ord. 76-78; Ord. 85-226; 1968 Code § 13-21.1E)

15-3-706: PARTIAL REIMBURSEMENTS:

A. Costs Subject to Reimbursement.

1. As to a right of way for a major street dedicated after July 22, 1976, the fair market value of that portion of the right of way in excess of sixty feet (60') in width, shall be a cost subject to reimbursement, and

2. The actual costs of construction of the major street less the actual costs of:

(a) Grading the entire width of the major street,

(b) The installation of thirty six feet (36') in width of pavement mat and base course,

(c) The installation of drainage structures,¹

(d) The installation of sidewalks, and

(e) The installation of curb and gutter on each side of the full pavement mat.

(f) Any treatment given to the area between median curbs.

B. Determination of Reimbursement.

1. Specific Reimbursement. Each year prior to approving the City budget the City Council, with the advice and recommendation of the Planning Commission and City administration shall designate by resolution those sections of major streets for which the City shall partially reimburse the subdivider when completed. The Director of Public Works shall submit to City Council estimates of the costs of reimbursement for those sections of major streets designated for partial reimbursement which may be revised by the City Council. In the annual appropriation ordinance the Council shall appropriate moneys for reimbursement equal to the estimates of the Director of Public Works or as revised by the City Council, and such moneys shall be kept in the

- B1) "Public Works - Major Street Reimbursement Fund". Reimbursement shall be made for those sections of major streets which are specifically designated by City Council and only in the amount specifically appropriated by the City Council.

2. General Reimbursement. Each year as a part of the City budget the City Council may appropriate additional moneys to the "Public Works - Major Street Reimbursement Fund" for the purpose of reimbursing land developers, subdividers or owners who dedicate land for major streets after July 22, 1976 or who construct major streets, or both, but who are not eligible for specific reimbursement as set forth in paragraph 1 above. General reimbursement, if made, shall be for only those items set forth in Section 15-3-706A, and general reimbursement, if made, shall only be after the criteria of Section 15-3-706D have been met. General reimbursement, if made, shall be on the basis of first certified under Section 15-3-706D, first paid. These general reimbursement provisions do not constitute any guarantee of reimbursement nor shall they be construed as creating a debt on the part of the City. General reimbursement shall only be made if there are nondesignated funds available in the "Public Works - Major Street Reimbursement Fund".

- C. Time for Holding Funds for Partial Reimbursement. In the resolution designating the uncompleted sections of major streets for reimbursement, the City Council shall establish a date certain by which the designated portion of the major street shall have been constructed in accordance with plans approved by the Director of Public Works and accepted for maintenance by the City by the Director of Public Works. The appropriation to the "Public Works - Major Street Reimbursement Fund" shall continue in effect without lapse until such date certain. Upon the passing of the date certain as established by the City Council and the subdivider has failed to meet the conditions set forth in Section 15-3-706D below, such moneys shall automatically lapse into the "Public Works - Major Street Reimbursement Fund".

D. Conditions of Reimbursement.

1. The City shall reimburse only those persons or entities that owned the major street right of way when dedicated. The City shall reimburse

¹ Major street bridges shall be treated separate and apart from this Part 7. Part 10 covers the construction reimbursements for major street bridges.

D1) only those persons or entities that paid for the actual costs of construction or both, or those persons or entities who have valid assignments for such reimbursements.

2. The City shall make reimbursement when the major street has been constructed in accordance with plans approved by the Director of Public Works and accepted for maintenance by the City by the Director of Public Works.

E. Fair Market Value. The fair market value of the right of way dedicated to the City shall be determined as of the time of preliminary/final or final plat approval in accordance with the following:

1. The City and the owner may agree as to the fair market value, or

2. The City and the owner may apply to a court of competent jurisdiction for determination of just compensation as provided in C.R.S. 1973 Article 1, Title 38, as amended.¹ (Ord. 76-78; 1968 Code § 13-21.1F)

1. See City of Colorado Springs, "Handbook for the Acquisition of Property by the City of Colorado Springs" Resolution 103-74, as amended.

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 8 REQUIRED IMPROVEMENTS

SECTION:

- 15-3-801: Installation and Completion of Improvements
- 15-3-802: Improvements of Portions of Tract
- 15-3-803: Actual Construction of Improvements
- 15-3-804: Acceptance of Improvements
- 15-3-805: Installation of Septic Tanks
- 15-3-806: Undergrounding of Utilities
- 15-3-807: Improvement Plans

15-3-801: INSTALLATION AND COMPLETION OF IMPROVEMENTS:

The improvements required below shall be constructed and installed by the subdivider or provisions made therefor, prior to the final approval of the subdivision and the final plat thereof. In lieu of the completion of such improvements, the subdivider may provide acceptable assurance to secure to the City the actual construction of the improvements within such period as shall be determined by the Director of Public Works or the Director of Utilities. Said assurance shall be in an amount adequate to cover the cost of the improvements as determined by the Director of Public Works or the Director of Utilities. The assurance, and all conditions thereof, must meet the satisfaction of the City Council. The following improvements shall be provided by the subdivider:

- A. Permanent Survey Monuments, Range Points and Lot Pins. As required by State law. (Ord. 4011; 1968 Code § 13-22)
- B. Time Delay for Installation of Public Improvements. Subdividers who desire to delay the installation of public improvements required by this Part 8 shall submit to the Director of Public Works on such forms as provided by said Director their requests for a time delay of the installation of public improvements. The Director shall review and either approve or disapprove the request. If the request is

B) approved the Director shall require the subdivider to execute an agreement for the delay of installation of public improvements, and such agreement shall be recorded. Should the Director of Public Works deny the subdivider's request for a time delay in the installation of public improvements, the subdivider may appeal the decision of the Director of Public Works to the Planning Commission and City Council in the same manner as a request for a waiver for the installation of public improvements as set forth in Section 15-3-1304. The Planning Commission and City Council shall treat such appeal as a request for action on a request for time delay for the installation of public improvements not as a request for a waiver for the installations of public improvements. (Ord. 77-149; 1968 Code § 13-22A)

C. Water, Wastewater Lines and Fire Hydrants. The subdivider shall pay for the installation and construction of all the required water lines, sewer lines and fire hydrants in compliance with this Code and the regulations of the Utilities Department relating to the installation and extension of water and wastewater lines. The sections of this Code regulating the installation and extension of water and wastewater lines are as follows:

- 1. Wastewater, Water Lines, When May be Laid. Sections 12-4-512 and 12-5-505 of this Code.
- 2. Wastewater Permits and Connection Charges. Chapter 12, Article 5, Part 6 of this Code.
- 3. Taps, Service Lines and Use of Water. Chapter 12, Article 4, Parts, 4, 5 and 6 of this Code.
- 4. Storm Drainage Improvements. As required under Part 9 of this Article. (Ord. 4011; 1968 Code § 13-22A)

- D. **Right of Way Stabilization.** Stabilization of land within the right of way of any street or road, is required to the extent deemed necessary by the City Engineer and consistent with any requirements of the zoning regulations. Prior to the final acceptance of any improvements within the right of way, the City Engineer shall be satisfied that no existing or potential erosion problems exist within the right of way or on land adjacent to such right of way which could affect the stability of the right of way. The subdivider shall guarantee such right of way stabilization for a period of one year from the date of final acceptance. The Director of Public Works shall require acceptable assurance for ten percent (10%) of the cost of the work as part of such guarantee. Continued maintenance of the area shall be the responsibility of the owners of the property adjacent to the right of way. (Ord. 4822; 1968 Code § 13-22A)

15-3-802: IMPROVEMENTS OF PORTIONS OF TRACT: Approval of the plat of the entire area of the subdivision may be given, and improvements may be installed in only a portion of the subdivision; provided that a street or streets are dedicated or provided to allow access to said portion, and the improvements are installed on said street or streets. Any utilities constructed in a portion of a subdivision shall be designated and built in such a manner that they can be extended or expanded to serve the entire subdivision. (Ord. 4011; 1968 Code § 13-22B)

15-3-803: ACTUAL CONSTRUCTION OF IMPROVEMENTS: No construction of subdivision improvements shall be started until the improvement plan for the entire area covered by the final plat has been approved by the Director of Public Works. After the improvement plans have been filed, and the approval of the Director of Public Works and the Director of Utilities has been obtained, the subdivider shall construct the required improvements subject to obtaining the required permits from the Department of Public Works and the Department of Utilities for wastewater and water systems. (Ord. 4011; 1968 Code § 13-22D)

15-3-804: ACCEPTANCE OF IMPROVEMENTS: All required subdivision improvements, as

specified in this Article and other applicable City ordinances and regulations, shall be fully constructed and approved by the Director of Public Works and Director of Utilities, and a written notice of approval shall be transmitted to the subdivider. The approval of the improvements by the City shall be contingent upon the subdivider guaranteeing and being responsible for any defects of said improvements for a one year period after acceptance by the City, which acceptance shall be in writing. (Ord. 4011; 1968 Code § 13-22E)

15-3-805: INSTALLATION OF SEPTIC TANKS: In areas where public wastewater systems are not accessible, individual wastewater disposal systems may be installed only after the approval of the City Manager in accordance with Section 12-5-701 of this Code. (Ord. 4439; 1968 Code § 13-22F)

15-3-806: UNDERGROUNDING OF UTILITIES: Telephone lines, electric lines up to thirty thousand (30,000) volts and other like utility services shall be placed underground unless waived by the City Council after consideration by the Planning Commission. Transformer, switching boxes, terminal boxes, meter cabinets, pedestals, ducts and other facilities necessarily appurtenant to such underground utilities may be placed above ground. The provisions of this Section shall not apply to existing facilities or to any preliminary, preliminary and final or final plat which has been approved by the Planning Commission prior to the adoption of this Article.¹ (Ord. 4011; 1968 Code § 13-22G)

15-3-807: IMPROVEMENT PLANS:

- A. **Public Works Department.** The subdivider shall submit to the Director of Public Works for his approval the following documents prior to construction:

1. **Final Plans and Profiles of All Streets and Alleys.** Profiles shall be drawn to a scale of fifty feet (50') horizontal and five feet (5') vertical of streets and alleys which meet the approval of the Director of Public Works. Sheets shall be twenty four inches by thirty six inches (24" x 36"), one street per sheet, and said street should include on the right-hand side a typical street cross section specification in accordance with standards approved by the Director of Public Works.

1. The Subdivision Code was adopted by Ord. 4011, which became effective March 24, 1970.

- A) 2. For All Areas Where Final Graded Slope Will be Ten Percent (10%) or Greater. Plans on a scale of one inch (1") to forty feet (40') with a contour interval of two feet (2') shall be submitted indicating clearly all cut and fill areas. Existing contours and finished grade contours shall each be shown. Such plans shall be submitted for any land designated a hillside area on the Zoning Maps of the City. (Ord. 4822; 1968 Code § 13-22H)
- B. Utilities Department. The subdivider shall submit to the Director of Utilities for his approval the following documents prior to construction:
1. Water Distribution System. Four (4) copies of the water distribution system for the entire subdivision area, said plan to include all information required by the Director of Utilities. Said system shall be of efficient design and of a capacity to furnish an adequate water supply for each lot in the subdivision and for adequate fire protection to the area, as determined by the Department of Utilities and the City Fire Department.
 2. Wastewater System. Three (3) copies of the wastewater plan for the entire subdivision area, said plan to include all information required by the Director of Utilities. Said wastewater system shall furnish connections to each lot. (Ord. 4011; 1968 Code § 13-22)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 9 SUBDIVISION DRAINAGE FACILITIES

SECTION:

- 15-3-901: Purpose
- 15-3-902: Studies of Drainage Basins
- 15-3-903: Boundaries Delineated
- 15-3-904: Exclusions and Exemptions
- 15-3-905: Annexed Lands
- 15-3-906: Subdivider to Prepare Drainage Reports and Detailed Drainage Plans
- 15-3-907: Credit for Facilities
- 15-3-908: City Responsible for Accepted Facilities
- 15-3-909: Cooperation With Subdividers
- 15-3-910: Recreation Department Plan for Multiple Use of Facilities
- 15-3-911: Subdivision Storm Drainage Board
- 15-3-912: Allocation of Interest Earned
- 15-3-913: Applicability of Provisions

15-3-901: PURPOSE:

- A. The Council hereby finds, determines and declares the urgent necessity of providing storm drains and other facilities for the drainage and control of flood and surface waters within areas and territories to be subdivided and developed and the Council further finds and declares that said facilities are required for the proper and orderly development of said areas and territories in order that storm and surface waters may be properly drained and controlled and that the health, property, safety and welfare of the City and its citizens may be safeguarded and protected. (Ord. 2841; 1968 Code § 13-30)
- B. The Council further finds, determines and declares that it is necessary under all the attendant circumstances that the owner and developer of the subdivision shall provide the drainage facilities within his subdivision necessary for the drainage and control of surface water within his subdivision and also to provide the facilities required to convey such drainage waters to such outflow or discharge point as shall be indicated in the master drainage

- B) plan for the drainage basin and area within which the subdivision is located. (Ord. 2841; 1968 Code § 13-31)

15-3-902: STUDIES OF DRAINAGE BASINS:

The City Manager shall cause to be made engineering studies of drainage basins surrounding the City and which either extend into the City or which affect or may affect present or future City territory and drainage therein. Said studies are to be authorized as finances become available. These studies and investigations shall show the conduits, channels, natural drainage courses, sometimes called "green belts", retention reservoirs, easements, culverts and all other facilities which are required to provide for the drainage and control of surface waters within said basins and to carry such waters to designated points of outflow or discharge. The studies shall include an estimate of the cost of providing the said drainage facilities, the computation of such costs to include the expense of the studies. The estimated cost per acre of providing said facilities shall be determined within each drainage basin by dividing the number of acres within said drainage basin into the total cost as herein provided. Large open public park areas shall not be included in total area. City participation in this case shall be determined by the City Council as recommended by the Storm Drainage Board. This per acre cost shall be known as the unit drainage fee. Prior to January 1 of each year the unit drainage fee shall be reviewed by the Drainage Board who shall make a recommendation to the City Council as to any adjustment to the fee. Upon such recommendation the City Council shall establish by resolution the unit drainage fee in each drainage basin to be effective January 1 of each year. The said unit drainage fee will be reestablished in accordance with changes in construction and other costs or revisions suggested by additional studies or other information obtained. (Ord. 2841; Ord. 84-262; 1968 Code § 13-32)

15-3-903: BOUNDARIES DELINEATED:

As soon as possible after the adoption of this Part 9, the boundaries of the drainage basins mentioned in this Part 9 will be delineated upon a map or maps.

There will also be shown upon said map or maps the areas in said basins which have been platted, subdivided or developed into business or residential areas and those areas therein which are presently unimproved. Such additional information or data as may be determined to be desirable by the Director of Public Works may be shown upon said map or maps. When approved by the Council, these maps shall serve as official designations of the respective drainage basins concerned in this Part 9, but the maps shall be subject to revision from time to time to conform with existing conditions. (Ord. 2841; 1968 Code § 13-33)

15-3-904: EXCLUSIONS AND EXEMPTIONS:

- A. There are excluded and exempted from the provisions of this Part 9 those territories which have been presently subdivided and the final plats of which have been approved by the Council or the Board of County Commissioners of the County of El Paso on or before April 28, 1964; provided, however, that those areas and territories which have been annexed to the City upon the conditions and understanding that said lands would be subject to the provisions of a drainage control ordinance and the payment of drainage fees, whether or not the plats therefor have been approved, shall be subject to the provisions of this Part 9; provided, further however, that where there are developed and undeveloped areas within the same basin resulting in some of the areas being excluded from the requirements of this Part 9, and the drainage program of the undeveloped territory involves and is inter-related with the developed areas, the City shall pay the costs of that part and capacity of the drainage facilities required to transport storm water runoff from the developed areas, through the undeveloped area to the point of discharge, or create an improvement district or districts for such purpose, where legally permissible. (Ord. 79-60; 1968 Code § 13-34)
- B. Pursuant to the recommendation of the Subdivision Storm Drainage Board, adopted at its meeting of October 15, 1963, there are exempted and excluded from the provisions of this part that area and territory which is tributary to Shooks Run. (Ord. 2932; 1968 Code § 13-34)
- C. Pursuant to the recommendation of the Subdivision Storm Drainage Board adopted at

- C) its meeting of September 15, 1977, there are exempted and excluded from the provisions of this Part 9 construction of the main Fountain Creek Channel from the confluence of Fountain Creek with Monument Creek northwest to the City limits. Land developments taking place adjacent to Fountain Creek shall remain responsible for dedicating rights of way necessary for the channelization of Fountain Creek, and the developers shall continue to pay to the City as a condition of subdivision plat approval the applicable drainage fees. (Ord. 77-162; 1968 Code § 13-34)

15-3-905: ANNEXED LANDS: The owner or owners of lands which have been annexed to the City upon the condition and understanding that said lands would be subject to the provisions of a drainage control ordinance and the payment of drainage fees, whether or not the plats for said lands have been approved, and the owners of lands presently or hereafter annexing the same to the City shall prior to final publication of the annexing ordinance agree in writing with the City that the lands are subject to and they will comply with the provisions of this Part 9, including the payment of fees hereunder. The said owner or owners shall further agree in writing that the required fees shall be paid prior to the final approval of the plat or other plan for or release of land for development and that the drainage facilities will be installed within and in connection with the subdivision of the land as required in this Part 9. (Ord. 2841; 1968 Code § 13-35)

15-3-906: SUBDIVIDER TO PREPARE DRAINAGE REPORTS AND DETAILED DRAINAGE PLANS: Prior to final approval of the plat of a subdivision, or part thereof for which final approval is requested, the subdivider shall, at his expense, prepare a drainage report which shall show the channels, conduits, reservoirs, culverts, bridges, easements and all other drainage facilities for the control and drainage of surface water within said subdivision, or the part thereof to be approved, and the carriage of such water to a safe discharge or outflow point, all in conformity with the master plan of the drainage basin as approved by the City, together with the estimated cost of constructing these facilities. After final approval of the plat of a subdivision and prior to the issuance of any building permits within said subdivision, the subdivider shall, at his expense, prepare detailed

plans and specifications for the construction and installation of channels, conduits, reservoirs, culverts, bridges, and easements and all other drainage facilities for the control and drainage of surface water within said subdivision, or the part thereof to be approved, and the carriage of such water to a safe discharge or outflow point, all in conformity with the master plan of the drainage basin as approved by the City. All such drainage reports and detailed plans and specifications shall be submitted to the Department of Public Works. All such drainage reports detailed plans and specifications shall bear the seal of a registered professional engineer of the State of Colorado and a statement signed by the engineer that such drainage reports and detailed plans and specifications have been prepared according to the criteria established by the City for drainage reports and detailed plans and specifications and that such drainage reports and detailed plans and specifications are in conformity with the master plan of the drainage basin; that such drainage reports and detailed plans and specifications meet the purposes for which the particular drainage facility is designed; and that the engineer accepts responsibility for any liability caused by the negligent acts, errors or omissions of the engineer in preparing the detailed plans and specifications. Upon submission of the drainage report, the plat or portion thereof involved may be given final approval by the Council subject to an acceptable assurance to the City that the facilities will be constructed and installed as indicated; provided, however, that such assurance may, if desired, be furnished after final approval of a plat upon condition that said plat be not finally executed or recorded until such assurance is furnished.

If undue hardship would result to the subdivider by reason of the carriage of the water to the ultimate discharge or outflow point as shown on the master plan, the Subdivision Storm Drainage Board may designate another discharge or outflow point at which said water will be received by an open channel, or other minimum or substitute facility to carry the water. (Ord. 82-50)

15-3-907: CREDIT FOR FACILITIES:

A. Subdivider May be Credited. Upon the completion and acceptance of the drainage facilities for a subdivision as required by this Part 9, the unit drainage fees payable by the subdivider upon the land in the subdivision or that portion thereof upon which final approval has been given and to which said facilities are applicable, will be computed and if the amount of said fees is less than the cost of providing the aforesaid facilities, the subdivider or, by written agreement approved by the City, any other party

A) shall be entitled to a credit from the appropriate sub-fund of the basin involved of the Subdivision Storm Drainage Fund in an amount that the cost of providing said facilities exceeds the fees payable by said subdivider; provided, however, that if the final approval is applicable to only a portion of the subdivision or tract or tracts of land owned by the subdivider and located within the drainage basin, at the option of said subdivider, the credit for the cost of the facilities installation in excess of the applicable fees for the portion so approved may be applied upon and credited to the drainage fees upon the balance of the said subdivision or tract or tracts of land when owned by the subdivider, provided that said subdivider furnishes the Subdivision Storm Drainage Board satisfactory evidence that the subdivider owns the subdivision or tract or tracts of land or has entered into a written contract to purchase the same, as of the date that application for said credit is made. The subdivider may at his option determine to build drainage facilities as required by the master drainage plan prior to subdividing or otherwise developing land. In that event the fees applicable to the land proposed to be subdivided or otherwise developed may, with the approval of the City, be fixed at the time the subdivider contracts for the construction of the drainage facilities in accordance with subparagraph B of this Section. (Ord. 2996; Ord. 83-139; 1968 Code § 13-37)

B. Determination of Credit for Drainage Facilities. The credit to which a subdivider shall be entitled from the appropriate sub-fund of the basin involved in the Subdivision Storm Drainage Fund, as set forth in subsection A above, shall be determined on the basis of the actual cost incurred in constructing the drainage facilities, plus ten percent (10%) for engineering expense. The subdivider shall be responsible for contracting for the construction of the drainage facilities after receiving at least three (3) sealed bids for construction of the drainage facilities. If the subdivider is unable to get at least three (3) sealed bids the City Engineer shall be responsible for determining that the bid or bids received are the lowest responsible bids. The decision of the City Engineer may be appealed to the Drainage Board. Bidders must be on the City's approved contractor list. The subdivider shall award the bid to the lowest responsible bidder within thirty (30) days after receiving the bids. Should the bids exceed the estimate of the cost of constructing the drainage facilities as set forth in the approved drainage plan they shall be rejected unless the subdivider's engineer and the Director of Public Works or his designated

- B) representative determine that any bid exceeding the engineer's estimate is the lowest responsible bidder unless the subdivider declares his desire to accept a higher bid. If such is the case any credit shall be based on the lowest responsible bid. Any disputes pertaining to this Section shall be referred to the Drainage Board for determination, and decisions of such Board may be appealed to the City Council as set forth in Section 15-3-911B of this Part 9. (Ord. 79-73; Ord. 83-139; 1968 Code § 13-37.1)

15-3-908: CITY RESPONSIBLE FOR ACCEPTED FACILITIES: All drainage facilities and appurtenances constructed or provided under this Part 9 shall upon written acceptance by the City become the property of the City and the City thereafter shall be responsible for the operation and maintenance of the same. (Ord. 2841; 1968 Code § 13-38)

15-3-909: COOPERATION WITH SUBDIVIDERS: The City shall cooperate with and assist subdividers subject to the provisions of this Part 9 by exercising its power of eminent domain to obtain rights of way for drainage facilities, the adoption of ordinances and resolutions for the control of drainage channels and waters therein, and similar matters. The City's cost of condemning any drainage easements required pursuant to an approved drainage plan will be paid by the subdivider as the costs are incurred by the City and shall include all costs of condemnation including appraisal fees and court costs. The City may require letters of credit or other financial assurances in amounts it determines reasonable to assure payment prior to commencing condemnation. The subdivider is entitled to a fair share reimbursement of the cost of such drainage easements from owners abutting the drainage easement whose property is subdivided or developed within a period of fifteen (15) years after the drainage easement is obtained. Application for a plat or building permit by the abutting owner shall not be approved until a fair share reimbursement of the cost of the drainage easement shall have been made to the original subdivider. The Director of Public Works shall determine the fair share reimbursement, which shall be a pro rata share on a front foot basis unless otherwise determined by the Director. All liability for repayment of the drainage easement cost shall be limited to a period of fifteen (15) years after the drainage easement is obtained by the City. All monies so collected shall be refunded to the original subdivider who paid for the condemnation

of the drainage easement involved. On January 1 of the year following the City's obtaining the drainage easement and on each year thereafter on January 1, the prior year's fair share reimbursement shall be increased by ten percent (10%). Payments by subdividers for drainage easements pursuant to this subsection shall not be a credit against applicable drainage fees nor shall repayment of any costs of acquiring drainage easements pursuant to this subsection be an obligation of the Subdivision Storm Drainage Fund of the basin involved. (Ord. 86-51)

15-3-910: RECREATION DEPARTMENT PLAN FOR MULTIPLE USE OF FACILITIES: Wherever possible, the Parks and Recreation Department shall plan multiple use of retention reservoirs sites and green strips and if possible combine these areas with parks for use and maintenance. In the event that such green strips are so used for park and recreational purposes the subdivider making available and granting these strips for the aforesaid uses shall be allowed credit for fees payable under the subdivision ordinance for parks and public ways to the extent of the appraised value of the land within the boundaries of such green strips. (Ord. 2841; 1968 Code § 13-41)

15-3-911: SUBDIVISION STORM DRAINAGE BOARD:

- A. Creation. There is hereby created the Subdivision Storm Drainage Board which shall consist of five (5) members. Appointments to the Board shall be made in such manner as to achieve staggered three (3) year terms. The Board members shall be appointed by the City Council. The Director of Public Works shall be the Secretary of the Board without vote. One member of the Board shall be a banker; one member shall be a land developer experienced in the subdivision and improvement of land; one member shall be a registered practicing engineer qualified in the subdivision and development of lands; one member shall be a registered practicing engineer qualified in drainage matters incident to the subdivision and development of lands and one member shall be a person actively engaged in the construction and sale of housing. In addition to the duties herein specifically granted the Board, it shall work with and advise the Director of Public Works and other City officials in carrying out the provisions of this Part 9, shall

- A) administer the Subdivision Storm Drainage Fund pursuant to this Part 9, generally assist in accomplishing the objectives of this Part 9 and recommend to the Council changes in this Part 9. (Ord. 2841; Ord. 3605; 1968 Code § 13-42)
- B. Responsibilities. The Board shall be responsible for recommendations to the City Council for:
1. Investment of surplus funds that may temporarily accumulate in the Storm Drainage Fund; and
 2. For all repayments to be made from said Fund. The Board may adopt rules and by-laws to provide for its officers and the time and conduct of its meetings. Decisions of the Board may be appealed to the City Council within six (6) days of the decision and may be modified or reversed upon a vote of the majority of the members of the Council. (Ord. 2841; Ord. 83-46; 1968 Code § 13-43)

15-3-912: ALLOCATION OF INTEREST EARNED:

Interest earned by the investment of surplus funds that may temporarily accumulate in the Storm Drainage Fund shall be allocated to a drainage contingency fund which may be used to make up deficits in existing sub-funds for purposes of reimbursement or for such other drainage purposes as determined by the Drainage Board with the prior approval of City Council. (Ord. 78-26; 1968 Code § 13-43.1)

15-3-913: APPLICABILITY OF PROVISIONS:

- A. Land, not otherwise excluded or exempted under Section 15-3-904 of this Part 9. 1. Upon which drainage fees have not been assessed, or
2. Upon which drainage facilities have not been built in accordance with accepted detailed drainage plans and specifications, or
3. Upon which detailed drainage plans and specifications have not been submitted,
- shall not be finally replatted or resubdivided until the terms of this part are complied with.
- B. Land.

- B) 1. Upon which drainage fees have been paid, or
2. Upon which drainage facilities have been built in accordance with accepted detailed plans and specifications,
- may be replatted or resubdivided without additional assessment of drainage fees or construction of additional drainage facilities if the drainage study submitted with the replat or resubdivision indicates no new drainage facilities are required as a result of said replat or resubdivision. (Ord. 76-13; Ord. 78-65; 1968 Code § 13-43.2)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 10 ARTERIAL ROADWAY BRIDGES

SECTION:

15-3-1001: Purpose

15-3-1002: Definitions

15-3-1003: Studies of Needs; Establishment of
Per Acre Cost

15-3-1004: Review by Subdivision Storm Drainage
Board and City Council

15-3-1005: Fees and Charges

15-3-1006: Changes

15-3-1001: **PURPOSE:** It is the purpose of this Part 10 to set forth a system under which the cost of constructing or expanding freeway, expressway and major or minor arterial roadway bridges, (hereinafter "arterial roadway bridges") in the City, can equitably be funded. (Ord. 74-9; 1968 Code § 13-44)

15-3-1002: **DEFINITIONS:**¹ The following terms, as used in this Part 10, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

ARTERIAL ROADWAY: Those roadways designated as freeway, expressway, major arterial or minor arterial on the City Major Traffic Thoroughfare Plan.

ARTERIAL ROADWAY BRIDGE: A structure which is constructed to carry an arterial roadway over any natural or manmade drainage way. (Ord. 74-9; 1968 Code § 13-45)

15-3-1003: STUDIES OF NEEDS; ESTABLISHMENT OF PER ACRE COST:

A. The Director of the Department of Public Works shall make periodic engineering studies of those roadways designated on the City

A) Major Traffic Thoroughfare Plan as freeways, expressways or major or minor arterial roadways in relation to the drainage basins in the City, and he shall determine and specify on the drainage basin maps of the City, proposed or expanded arterial roadway bridges.

B. The Director of Public Works shall, after the completion of the arterial roadway bridge needs study, make an estimate of the cost for the expansion or construction of each arterial roadway bridge designated in each drainage basin.

C. The Director of Public Works shall then estimate that portion of the total estimated cost of each arterial roadway bridge that is attributed to the width of such bridge in excess of sixty eight feet (68'). Such estimate shall be made by determining the percentage of the arterial roadway bridge over sixty eight feet (68') and then by multiplying the total estimated cost by such percent. The product shall be the responsibility of the City and the Director's estimate shall be final. The Director shall deduct from the total estimated cost, his estimate of that portion of the total estimated cost allocable to that portion of such bridge in excess of sixty eight feet (68') in width. He shall then total all remaining costs for all the arterial roadway bridges in the given drainage basin, and divide such total by the total acreage of the drainage basin and determine a per acre cost for new or expanded arterial roadway bridges in the drainage basin to be paid into the Arterial Roadway Bridge Fund established for each drainage basin. (Ord. 74-9; 1968 Code § 13-46)

15-3-1004: REVIEW BY SUBDIVISION STORM DRAINAGE BOARD AND CITY COUNCIL:

The Director of Public Works shall report such arterial roadway bridge per acre cost to the Subdivision Storm Drainage Board.² The Subdivision Storm Drainage Board shall review the

1. For definitions of general application, see Section 1-1-203 of this Code.

2. See Section 15-3-911 of this Article.

estimates of the Director of the Department of Public Works and then report and recommend to the City Council a per acre arterial roadway bridge cost for each drainage basin. City Council shall establish by resolution a per acre arterial roadway bridge cost for each drainage basin. Once established, such per acre cost shall be paid by each landowner as his land within the drainage basin is platted. Payment of the per acre cost shall be in cash to the applicable arterial roadway bridge fund. The funds collected shall be used only for the construction or expansion of new or expanded arterial roadway bridges as designated on the drainage basin maps by the Director of Public Works. (Ord. 74-9; 1968 Code § 13-47)

15-3-1005: FEES AND CHARGES:

- A. Re-Establishment of Fees. The arterial roadway bridge per acre cost may be re-established by the City Council as necessary. Such re-establishment of the per acre cost shall be based on changes in construction and other costs of revisions suggested by additional studies or other information obtained. (Ord. 74-9; 1968 Code § 13-48)
- B. City's Contribution. The City will contribute to each arterial roadway bridge fund established in each drainage basin that cost per acre that is attributed to land within the drainage basin for which the City Council has approved a preliminary/final plat or a final plat on the effective date of this Part 10. Such City contribution will be made only after the City Council has budgeted and approved such expenditure. (Ord. 74-9; 1968 Code § 13-49)
- C. Reimbursement to General Fund. Should the City appropriate front end money to facilitate the construction of new or expanded arterial roadway bridges in excess of its mandatory contribution, such excess amount shall be paid back to the City's General Fund as land within the applicable drainage basin is platted, and until the City's excess payment is accounted for. As more land is platted payment in the drainage basin shall then be to the applicable arterial roadway bridge fund. (Ord. 74-9; 1968 Code § 13-52)
- D. Adjustment to Drainage Basin Fund. As the per acre cost for the arterial roadway bridges is determined, the Subdivision Storm Drainage

- D) Board and City Council shall adjust the unit drainage cost for the drainage basin. (Ord. 74-9; 1968 Code § 13-51)

15-3-1006: **CHANGES:** Should an arterial roadway be stricken from the Major Traffic Thoroughfare Plan and corresponding arterial roadway bridge not be necessary, credit or a refund as determined by the Storm Drainage Board, may be granted to those persons, including the City, who have contributed for such bridge. (Ord. 74-9; 1968 Code § 13-50)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 11 ASSURANCES AND GUARANTEES FOR PUBLIC IMPROVEMENTS

SECTION:

- 15-3-1101: Statement Required
- 15-3-1102: Specific Requirements Prior to Building Permit Issuance
- 15-3-1103: Obligations of Land Owners
- 15-3-1104: Return of Fees and Release of Assurance
- 15-3-1105: Renewal and Update of Acceptable Assurance

15-3-1101: STATEMENT REQUIRED: The final plat approved by the City Council shall contain the following statement:

"No building permits shall be issued for building sites within this plat until all required fees have been paid and all required public improvements and utilities have been installed as specified by the City of Colorado Springs or, alternatively, until acceptable assurances, including but not limited to letters of credit, cash, construction bonds or combinations thereof, guaranteeing the payment of the fees and the completion of all required public improvements and utilities have been placed on file with the City of Colorado Springs. All streets, alleys and easements shown on this plat for access purposes are excepted from this provision." (Ord. 76-178; 1968 Code §§ 13-22.1A, B)

15-3-1102: SPECIFIC REQUIREMENTS PRIOR TO BUILDING PERMIT ISSUANCE:

A. Streets and Drainage Improvements.

1. Whenever the tract of land to be platted embraces or abuts a major street (street with ROW width greater than 60')¹ or major drainage improvement, (drainage facilities with a capacity in excess of 500 cfs), or whenever a major street or major drainage improvement is

A,1) necessary to serve the land to be platted, such major street or major drainage improvement, or both, shall be completed prior to the issuance of building permit or acceptable assurance guaranteeing the completion of said major streets or drainage improvements shall be filed with the City.

2. All other drainage improvements necessary to convey storm water runoffs from or through the land to be platted to protect the building sites for which the building permit is requested, or to protect downstream property owners, shall be installed, completed and accepted by the City at the time of issuance of the building permit. The City Engineer may authorize the issuance of building permits before drainage improvements are installed, completed and accepted by the City provided that the permit applicant agrees to simultaneously construct the drainage improvements with the buildings for which the permits are issued. No such buildings constructed shall be occupied until the City has accepted the drainage improvements.

B. Utilities. All utilities, within the land to be platted necessary to serve the site for which a building permit is requested, shall be installed, completed and approved or acceptable assurance guaranteeing the completion of the installation of such utilities shall be filed with the City prior to the issuance of the building permit. The payment of all fees, the completion of all construction or the filing of acceptable assurance necessary to arrange the installation of utilities external to the subdivision in order to enable utilities to be served to the platted land shall be the responsibility of the subdivider.

C. Streets. Minor streets serving as access to a requested building permit site, shall be installed, completed and approved, or acceptable assurance guaranteeing the completion of said improved access shall be

¹ See Part 7 of this Article.

- C) placed on file with the City prior to the issuance of a building permit. (Ord. 76-178; 1968 Code § 13-22.1D)

15-3-1103: OBLIGATIONS OF LAND OWNERS:

The obligation for public improvements and utilities as set forth in this Code shall be the obligation of the land owner. This obligation for public improvements shall run with the land and shall be the obligation of future land owners, successors in interest, assignees or any such other persons who take title to the property or any lot or part thereof. (Ord. 76-178; 1968 Code § 13-22.1E)

15-3-1104: RETURN OF FEES AND RELEASE OF ASSURANCE:

- A. In the event of impossibility of proceeding with a development for which a final plat has been approved, under an order of any court or other public authority having jurisdiction, including the City, or as a result of an act of government, such as but not limited to a declaration of national emergency making materials unavailable through no act or fault of the subdivider or natural catastrophe such as flood or earthquake or similar act or occurrence over which the subdivider has no control, the subdivider may apply to the Director of Public Works for return of fees paid for drainage or school and park, or both, and release of acceptable assurance on file with the City; provided, however, that no fee or payment theretofore paid shall be refunded or acceptable assurance released unless the recorded plat for which the fees were paid or acceptable assurance was filed is vacated.
- B. Upon receipt of such application, the Director of Public Works shall investigate the circumstances set forth in the letter of application to verify the same. If he finds no sales of land in a subdivision with reference to the final recorded plat, he may relieve the subdivider from the requirement of filing acceptable assurance and may release the assurance previously filed with the City and refund the fees paid upon vacation of the plat. If he finds that lands have been sold or developed, he shall require the installation of all required improvements from the nearest improved street or from the nearest utility main

- B) or line of adequate capacity to such point as shall be necessary to serve the land so sold or developed, he may release the assurance as to unsold and undeveloped land beyond that point, provided, however, that the existing drainage facilities are adequate to protect existing development.
- C. No building permit shall be issued for the construction of any improvement on the land for which acceptable assurance would otherwise be required while such release is in effect. (Ord. 76-178; 1968 Code § 13-22.1F)

15-3-1105: RENEWAL AND UPDATE OF ACCEPTABLE ASSURANCE:

- A. If assurances filed with the City expire, no building permits for building site shall be issued. It shall be the responsibility of the subdivider to keep current all assurances filed with the City. The City shall have the right at any time to increase or decrease the amount of assurance in accordance with the current estimates of public improvements or utilities, it being the intent of this provision that the subdivider shall pay the entire cost of all improvements, and the subdivider shall in no way limit his liability therefor by filing assurances based upon estimates. (Ord. 76-178; Ord. 81-245; 1968 Code § 13-22.1G)
- B. Except as herein provided, assurances for public improvements shall be released upon final inspection and acceptance by the City. If upon inspection of the public improvements deficiencies are found, then only that portion of the public improvements that are found to be acceptable shall be released from assurance. An acceptance amount of assurance as determined by the City shall be maintained to cover the cost of repair or correction. Upon completion of the repair or correction to the satisfaction of the City, the balance of the assurance shall be released. In order to obtain a release or reduction of assurance filed with the City, the request must be made in writing to the City Engineer for an inspection of the improvements covered by the assurance. (Ord. 81-245)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 12 PARK AND SCHOOL SITE DEDICATIONS

SECTION:

- 15-3-1201: Policy and Purpose
- 15-3-1202: Park Standards
- 15-3-1203: Dedications of Land for Parks
- 15-3-1204: School Standards
- 15-3-1205: Student Population Density
- 15-3-1206: School Land Dedication Requirements
- 15-3-1207: Dedication of Land Required for
Public Uses
- 15-3-1208: Applicability of Provisions
- 15-3-1209: Review of Requirements
- 15-3-1210: Replatting or Resubdividing

15-3-1201: POLICY AND PURPOSE: It is hereby declared to be the policy of the City that whenever land is proposed for residential use, the owner of the land should provide land for school needs generated by the proposed residential use, and the owner of the land should provide land or fees primarily for park needs generated by the proposed residential use and secondarily fees, if any, for physical improvements thereto. It is the purpose of this Part 12 to require the dedication of land or the payment of fees in lieu thereof or both to fulfill such needs. In the case of the dedication or conveyance and acceptance of land, the appropriate school district or the City will be required to pay their share of costs incurred in the development of the school or park site including, but not limited to, adjacent roads, drainage, sidewalks and utility extensions. The payment of these costs will be deferred until funds are appropriated and may be deferred pursuant to a recovery agreement between the land owner and the City or school district so that the costs need not be paid by the City or the school district until improvements to the land are completed and the land is put to public use. If payment of costs are deferred pursuant to a recovery agreement, ten percent (10%) of the costs shall be added to the costs for each year up to fifteen (15) years. (Ord. 78-88; Ord. 85-110; 1968 Code §§ 13-21A)

15-3-1202: PARK STANDARDS: In the interest of the health, safety and general welfare of the people of the City, the park area standards as adopted by Resolution 60-77 by the City Council on

March 22, 1977 are adopted to provide a guide to facilitate adequate provision for parks as the City develops. (Ord. 78-88; 1968 Code § 13-21B)

15-3-1203: DEDICATION OF LAND FOR PARKS:

It is hereby found and determined:

- A. That a part of the public need for parks generated by the influx of new residents should be provided for by mandatory dedication of land or fees in lieu thereof as a condition of preliminary/final or final plat approval.
- B. That it is reasonable to require the dedication of land or payment of fees-in-lieu thereof to provide the following facilities: vest pocket or mini park, neighborhood park and playground, playfield or community park - resulting in a total requirement of seven and five-tenths (7.5) acres per one thousand (1,000) persons.
- C. That the 1970 Federal census shows that, in the City, there are an average of 3.1 persons per owner-occupied dwelling and 2.2 persons per renter occupied dwelling.
- D. That the density of owner-occupied developments is usually eight (8) dwelling units per acre or less while the density of renter-occupied developments is usually greater than eight (8) dwelling units per acre.
- E. That, for purposes of determining the park land dedication requirement, where the gross residential land density is greater than eight (8) dwelling units per acre, the population averages 2.2 persons per dwelling unit and where the gross residential land density is less than or equal to eight (8) dwelling units per acre, the population averages 3.1 persons per dwelling unit.
- F. That the resulting requirements of land to be dedicated for parks and open space is 0.0165 acres (719 square feet) per dwelling unit for residential land densities in excess of eight (8) dwelling units per acre, and 0.02325 acres (1,013 square feet) per dwelling unit for residential land densities of eight (8) dwelling units per acre or less.

- G. That the City's requirements for regional parks, open spaces and special facilities should be provided from sources other than those set forth in this Part. (Ord. 78-88; 1968 Code § 13-21C)

15-3-1204: SCHOOL STANDARDS: It is hereby found and determined that minimum acreage requirements for schools, assuming ideal site topography, are as follows:

Elementary School- 790 Students-10 acres 0.0127 Site Acres/Student
 Junior High School-1000 Students-20 acres 0.02 Site Acres/Student
 Senior High School-2000 Students-45 acres 0.0225 Site Acres/Student
 (Ord. 78-88; 1968 Code § 13-21D)

15-3-1205: STUDENT POPULATION DENSITY: It is hereby found and determined:

- A. That the survey area for the school population study of June, 1973, is typical of the developing areas in the City, to wit:

STUDENTS PER DWELLING UNIT

		<u>Students/du</u>
Elementary		
5,499 S.F. and duplex at 4,032 students =	0.7332	
2,651 multi-family at 469 students =	.1769	
Junior High School		
5,499 S.F. and duplex at 1,691 students =	0.3075	
2,651 M.F. at 135 students =	0.0509	
Senior High School		
5,499 S.F. and duplex at 1,139 students =	0.2071	
2,651 M.F. at 193 students =	0.0728	
Required Acres Per Dwelling Unit		
Low Density		
Elementary	$0.7332 \times 0.0127 =$.0093
Jr. High School	$0.3075 \times .02 =$.0061
Sr. High School	$0.2071 \times .0225 =$.0046
		.0200 acres/du
High Density		
Elementary	$0.1769 \times 0.0127 =$.0022
Jr. High School	$.0509 \times 0.02 =$.0010
Sr. High School	$0.07 \times 0.0225 =$.0016
		.0048 acres/du

- B. That the survey data is a reasonable and valid basis for determining a school land dedication requirement. (Ord. 78-88; 1968 Code § 13-21E)

15-3-1206: SCHOOL LAND DEDICATION

REQUIREMENTS: Based upon the foregoing school standards and school population density data, it is hereby found and determined that for residential land having a density greater than eight (8) dwelling units per acre, there is a requirement for 0.0048 acres (209 square feet) per dwelling unit and for residential land having a density of eight (8) dwelling units per acre or less there is a requirement of 0.019 acres (871 square feet) per dwelling unit. (Ord. 79-232; 1968 Code § 13-21F)

15-3-1207: DEDICATION OF LAND REQUIRED

FOR PUBLIC USES: As a condition of preliminary/final or final plat approval, every subdivider shall dedicate land areas for schools and parks or shall agree to pay a sum of money sufficient to provide for such needs at time of building permit issuance. (Ord. 78-88; 1968 Code § 13-21G)

A. Parks.

1. Amount of Land to be Dedicated. The amount of land required to be dedicated by the subdivider for parks shall be 0.0165 acres (719 square feet) per dwelling unit for residential land densities in excess of eight (8) dwelling units per acre, and 0.02325 acres (1,013 square feet) per dwelling unit for residential land densities of eight (8) dwelling units per acre or less. Any land to be dedicated as a requirement of this Part 12 shall be reasonably adaptable for use as a vest pocket park, neighborhood park and playground, playfield or community park. Factors used in evaluating the adequacy of proposed park areas shall include size and shape, topography, geology, flora and fauna, access, and location.

2. Credit for Private Open Space. Where private land for park or open space purposes is provided and such land is to be privately owned and maintained by or for the future residents of the development, such areas may be credited in whole or in part against the requirement of dedication for park purposes up to a maximum of one hundred percent (100%) of the dedication requirement, provided the City Council finds it is in the public interest to do so and that the following standards are met: (Ord. 79-232; 1968 Code § 13-21G)

a. That building and parking setbacks required to be maintained under the zoning and building regulations, shall not be included in the computation of such private land;

b. That the private operation and maintenance of the land is adequately provided

A,2) for by written agreement with the City;

c. That the use of the private land is restricted for park or open space purposes, or both, by recorded covenants which run with the land in favor of the future residents of property within the development, and which cannot be defeated or eliminated without the consent of the City Council;

d. That the proposed private land is reasonably adaptable for use for park and open space purposes, taking into consideration such factors as size, shape, topography, geology, access and location;

e. That the improvements proposed for the private land are approved by the City Council; (Ord. 78-88; 1968 Code § 13-21G)

f. That the amount of credit allowed shall depend upon the extent to which the private land serves the overall park and recreation needs of the future residents of the development. (Ord. 79-232; 1968 Code § 13-21G)

3. Multi-Use Trails. For purposes of park land dedication requirements or fees to be paid in lieu thereof under this Part 12 in those land developments where proposed trails are located, land for trails may be substituted in lieu of land for parks in whole or in part. No fees in lieu of trail land dedication will be accepted unless there is an acceptable alternate route shown on the Multi-Use Trail Master Plan. (Ord. 81-110)

B. School Sites.

1. Amount of Land to be Dedicated. The amount of land required to be dedicated for school sites shall be 0.0048 acres (209 square feet) per dwelling unit where the residential land density is greater than eight (8) dwelling units per acre, and 0.02 acres (971 square feet) per dwelling unit where the residential land density is eight (8) dwelling units per acre or less. This is a minimum requirement for land to be dedicated. The site shall meet the following criteria:

a. Adequate access.

b. Proper general configuration.

c. Suitable physical characteristics, such as drainage, vegetation and soil type.

C. Fees in Lieu of Land.

1. Choice of Land or Fee:

a. Procedure. The procedure for determining whether the subdivider is to dedicate land, pay a fee, or both, shall be as follows:

(1) Subdivider. At the time of filing a preliminary or preliminary/final plat for approval, the subdivider of the property shall, as part of such filing, indicate whether he desires to dedicate land for park and school site purposes, or whether he desires to pay a fee in lieu thereof. If he desires to dedicate land for this purpose, he shall designate the area thereof on the plat as submitted. The subdivider and City and appropriate school district may at any time by separate agreement establish other methods for dedication if in accord with the standards set forth herein and approved by their respective elected officials.

(2) Review. The Park and Recreation Department and appropriate school district shall submit their recommendations to the Planning Department within ten (10) days of notification that a plat has been filed.

(3) Action of City. At the time of plat map approval, the City Council shall determine as a part of such approval, whether to require a dedication of land, payment of a fee in lieu thereof or a combination of both. (Ord. 78-88; 1968 Code § 13-21G)

(4) Prerequisites for Approval of Preliminary/Final or Final Plat. Dedication when required shall be accomplished by transfer of deed or dedication by plat. This must be done prior to approval of preliminary/final or final plat. Where the subdivider cannot convey clear title at the time of final plat approval, the City Council may, in its discretion, accept a contract to convey the land at a later time certain accompanied by an acceptable assurance guaranteeing payment of a sum equal to the value of the land. Where the site is under the control of a third party, a similar three (3) party arrangement may be made. Covenants for private park or open space shall be submitted to the City prior to approval of

- C,1) the final plat and shall be recorded contemporaneously with the final plat. (Ord. 79-232; 1968 Code § 13-21G)

Where fees are required such fees shall be paid on a dwelling unit basis at the time of building permit issuance, and such fees shall be in the amount set as of the date of building permit issuance. School fees shall be made payable to the appropriate school district, and park fees shall be made payable to the City.

2. Amount of Fee in Lieu of Land Dedication. The fee in lieu of land dedication shall be established each year as of January 1 by the City Council upon recommendation from the School/Park Fee Advisory Committee to be composed of seven (7) members appointed by the City Council for three (3) year terms. The Director of Parks and Recreation shall be secretary of the Committee without vote. City Council shall appoint six (6) members as follows: one member of the Committee shall be a certified land appraiser doing business in the City; one member shall be a land developer experienced in subdivision and improvement of land; one member shall be a person actively engaged in the construction and sale of housing; one member shall be a member of the Park and Recreation Advisory Board; and one member shall be a person actively engaged in the design and development of recreational parks, and one member shall be a citizen at large. The school districts within or partly within the City shall appoint one member who shall be a representative of school board/administrator. The Committee shall advise the City Council for the school and park fees in lieu of dedication for residential development eight (8) units per acre or less and for residential development of more than eight (8) units per acre or less and for residential development of more than eight (8) units per acre. Such fees shall approximate on a per dwelling unit basis the cost to acquire land sufficient to meet school needs and to acquire and develop land sufficient to meet the park needs. (Ord. 78-88; Ord. 82-49)

D. Additional Information Required on All Plats:

1. At the time of filing a preliminary or preliminary/final plat for approval, the subdivider shall, as a part of such filing, designate the general area or areas he proposes to set aside for school sites and for park and

- D,1) open space use, and shall indicate the number of acres proposed for such uses, and the number and type of proposed dwelling units for each lot in the filing.

2. The final plat shall record the manner of compliance with the provisions of this Part 12 for both school and park and open space purposes. As appropriate, the plat shall record acreage dedicated. Dedication or conveyance and acceptance of the land shall state that land is to be used for both school and park purposes.

3. If, after the recording of a final plat, a subdivider wishes to increase the number of dwelling units on any lot to a number greater than that designated on the plat, and where density may be increased without a replat, the owner must file a petition for increase of density with the Minor Land Subdivision Committee showing the location and number of dwelling units proposed. Such petition shall be submitted to the School Board, Park Board and City Public Works and Utilities Departments for an impact review. Recommendations based on such review shall be forwarded to the Minor Land Subdivision Committee within forty (40) days. Upon the dedication of additional land or payment of a fee determined in accordance with Section 15-3-1203 above, or both, such petition may be approved by the City Council, after review by the Minor Land Subdivision Committee, if the Council determines that such increase in density does not violate any requirements of the zoning and subdivision regulations and that existing or planned City facilities are adequate to accommodate the increase in density. If the subdivider develops a tract at a lower density or where it is changed to a use or zone where no dedication is necessary, no return of land shall be made. (Ord. 78-88; Ord. 85-110; 1968 Code § 13-21G)

E. Disposal of Surplus School Land:

1. In the event any school district which has received school site land as a result of the provisions of this Part 12 determines that the school site will not be used for school purposes, the following disposal procedure shall be followed:

a. That portion of the school site adjacent to the park site that was to have been used as a joint site for recreational activities by both the City and School District or that portion of the

- E1) school site that can be used for recreational activities or any portion thereof that can be used for recreational activities, as determined by the Director of Parks and Recreation shall be offered to the City for park or open space purposes, and if the City accepts such offer the City shall reimburse the school district in an amount equal to the amount of land times the current school fee in effect at the time of the school site disposal¹ plus any actual costs incurred by the school district in the development of the portion of the school site acquired including but not limited to adjacent roads, drainage, or sidewalks. Ten percent (10%) of the actual costs shall be added to the actual costs for each year up to fifteen (15) years.

b. If the Director of Park and Recreation determines that the City does not desire the recreational portion of the school site or only desires a portion of the recreational portion of the school site, then the school district shall offer all of the remaining surplus school site to the person who dedicated such real property for school purposes, and if the person who dedicated the property desires to acquire the land from the school district, that person shall trade, if possible, for other land the school district desires or that person shall pay the current school fee in effect at the time of the school site abandonment plus any actual costs incurred by the school district in the development of the site including but not limited to adjacent roads, drainage, or sidewalks. Ten percent (10%) of the actual costs shall be added to the actual costs for each year up to fifteen (15) years.

c. If there is any school site land left over after the City and original dedicating person have made their decisions regarding acquisition of such site, the school district may offer the land for sale subject to applicable state statutes, rules and regulations.

d. Anyone other than the City acquiring surplus school site property shall be required to meet all the terms and conditions of Chapters 14 and 15 of the City Code pertaining to zoning and subdivision in seeking to develop such land. (Ord. 85-110)

15-3-1208: **APPLICABILITY OF PROVISIONS:**

This Part 12 shall apply to all plats which have not satisfied both of the following conditions prior to August 28, 1974.

- A. The preliminary or preliminary/final plat must have been approved by the City Council or the Board of County Commissioners of the County of El Paso; and
- B. The final or preliminary/final plat must have satisfied all prerequisites of plat approval imposed by this Chapter and all provisions and stipulations imposed by the City Council or all prerequisites of plat approval imposed by the

(See following page for Section 15-3-1208 continued)

1. See Section 15-3-1207C,2.

- B) Board of County Commissioners of the County of El Paso. (Ord. 79-59; 1968 Code § 13-21H)

15-3-1209: REVIEW OF REQUIREMENTS: All requirements of this Part 12 and the data upon which they are based shall be reviewed annually by the Park and Recreation Advisory Board and the Planning Commission and such bodies shall make a written report and recommendation to the City Council prior to November 15 of each year as to the need for revision. (Ord. 79-232; 1968 Code § 13-21I)

15-3-1210: REPLATTING OR RESUBDIVIDING:
The following considerations will be taken in account in any replat or resubdivision of land platted prior to September 6, 1973, for which land fees were paid or land was dedicated.

- A. If such replat or resubdivision is to correct engineering errors (legal descriptions) such replat will be exempt from this Part 12.
- B. If park and school fees have been paid or land dedicated, or both, the land replatted or resubdivided shall be exempt from the provisions of this Part 12 unless as a result of such replat or resubdivision residential density is increased. If residential density is increased the owner shall pay the fees or dedicate land, or both, in those amounts set forth in this Part 12 as applied only to additional numbers of residential units increasing the density. If residential density is decreased, the provisions of this Part 12 shall not apply. (Ord. 78-88; 1968 Code § 13-21J)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 13 WAIVERS

SECTION:

15-3-1301: Conditions for Granting Waiver
 15-3-1302: Waiver Procedure
 15-3-1303: Distribution
 15-3-1304: Action on Requested Waiver
 15-3-1305: Waiver of Other Provisions

15-3-1301: CONDITIONS FOR GRANTING WAIVER: The Planning Commission shall not recommend approval nor shall the City Council authorize a waiver from the regulations contained in this Article except in cases where the Commission and the City Council find:

- A. The waiver will not be detrimental to the public good or to the surrounding properties,
- B. There are exceptional topographic, soil or other surface conditions,
- C. There are unusual conditions which are not ordinarily found in the area,
- D. The strict application of the requirements of this Article will constitute a substantial hardship to the subdivider.

Any waiver granted shall be consistent with the intent and the purpose of this Article, the City's Comprehensive Plan and State law. (Ord. 4011; 1968 Code § 13-23A)

15-3-1302: WAIVER PROCEDURE:

- A. **Submission:** Whenever the subdivider desires to request a waiver from any of the requirements of this Article, the subdivider shall submit a letter to the Planning Department. Said letter shall set forth in detail the requested waiver(s) and shall also set forth in detail the reasons for requesting the waiver(s).

- B. **Submission Deadline.** The subdivider shall cause the waiver to be submitted on or before the deadline dates posted at the City Planning Department. (Ord. 4011; Ord. 81-102; 1968 Code § 13-23B)

15-3-1303: DISTRIBUTION: The Planning Department shall refer the requested waiver to the department under whose jurisdiction the applicable regulations fall, and such department shall transmit its written recommendation to the Planning Commission. (Ord. 4011; 1968 Code § 13-23D)

15-3-1304: ACTION ON REQUESTED WAIVER:

- A. **Planning Commission Action.** Following a review of the recommendations from the appropriate departments, the Planning Commission shall take action on the requested waiver.

1. **Recommendation of Approval.** If the Planning Commission determines that the waiver request satisfies the conditions set forth in Section 15-3-1301 and warrants approval, it may recommend that the City Council grant a waiver from the regular provisions of this Article. If the Planning Commission does recommend approval of the waiver request, said waiver shall be forwarded to the City Council as a report item at its next regularly scheduled Council meeting for which the deadline date has not passed. Any person or persons may appeal the recommendation of the Planning Commission to the City Council under the procedures as outlined in this Part 13.

2. **Recommendation of Disapproval.** If the City Planning Commission disapproves the waiver request, the request shall not be referred to the

A,2) City Council for consideration unless an appeal of the Commission's decision is made. Disapproved waiver requests shall be considered by the City Council only when the subdivider has filed a written appeal of the Planning Commission's action within ten (10) days of that action. Whenever a waiver request has been denied by the Planning Commission and has not been appealed to the City Council within the ten (10) day time limitation, then the Commission shall not reconsider said waiver for a period of six (6) months from the final action of disapproval, provided, however, that if in the opinion of the Planning Director, the waiver request has been modified so as to overcome the stated objection, then the Commission may reconsider said waiver within the six (6) month time limitation period.

3. Notification. The subdivider shall be notified of the action taken by the Commission by letter within seven (7) days of such action.

B. City Council Action.

1. Approval. If the Planning Commission recommends approval of the waiver request and no appeal has been received, then the City Council shall consider said waiver as a report item at its next regularly scheduled Council meeting for which the deadline date has not passed. Acceptance of the waiver as a report item by the City Council shall be deemed as approval of the waiver request by the City Council.

2. Disapproval, Tabling or Referral. If the City Council finds in reviewing the waiver request that the waiver request does not meet the conditions set forth in Section 15-3-1301, the City Council shall disapprove, table for further study, or refer said waiver request back to the Planning Commission for further study. Whenever a waiver request has been denied by the City Council, the Council shall not consider said waiver request for a period of six (6) months from the final action of disapproval; provided, however, that if in the opinion of the Planning Director that the waiver request has been modified so as to overcome the stated objections, then the City Council may reconsider said waiver within the six (6) month time limitation.

B) 3. Notification. The City Manager shall notify the subdivider by letter of the action taken by the City Council within seven (7) days of such action. (Ord. 4011; 1968 Code § 13-23D)

15-3-1305: WAIVER OF OTHER PROVISIONS:

A. Individual Action. Any person who desires to remove or modify any condition or other detail or item which is not required by this Chapter but which has been made a part of such final or preliminary/final plat by action of the City Council shall submit in writing the reasons for such removal or modification to the Planning Department with a submission fee of seventy five dollars (\$75.00).

B. Action by the Planning Department. The Planning Department shall in accord with its applicable deadlines refer the submission to the Planning Commission for a public hearing. The Planning Department shall circulate the request to all applicable City departments for comment.

C. Action by the Planning Commission. The Planning Commission at its public hearing shall take action on the submission by approving, disapproving or approving with modification. Any person desiring to appeal the action of the Planning Commission shall make such appeal in writing specifying the grounds therefor to the City Clerk within ten (10) days after the action taken by the Planning Commission. If no appeal is received and the Planning Commission has approved the submission, then it shall be forwarded to the City Council for consideration at the next regularly scheduled Council meeting for which the deadline date has not passed.

D. Action by the City Council. The City Council shall consider the submission as forwarded to it and shall take appropriate action. If forwarded on appeal, the Council shall hold a public hearing. After consideration, the Council shall approve, disapprove or modify the submission, or remand the matter back to the Planning Commission for further consideration. Any action by the City Council other than remand back to the Planning Commission shall not be reconsidered by the Council for a period of at least six (6) months. (Ord. 78-16; 1968 Code § 13-23.1)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 14 BUILDING PERMITS

SECTION:

- 15-3-1401: Compliance Required
- 15-3-1402: Issuance to Unplatted Lands
- 15-3-1403: Issuance to Previously Platted Lands
- 15-3-1404: Issuance Prior to Platting
- 15-3-1505: Action by Minor Land Subdivision Committee

15-3-1401: COMPLIANCE REQUIRED: No building permits shall be issued for the construction or reconstruction of structures upon any land or the addition to any building or structure situated on any land, unless such land has been subdivided and platted in accordance with the procedures set forth in this Chapter. Exceptions to this rule are set forth in this Part 14. (Ord. 78-65; 1968 Code § 13-25)

15-3-1402: ISSUANCE TO UNPLATTED LANDS:

It is the purpose of this Section to alleviate platting costs to land which was developed and within the City on January 1, 1985 or subsequently annexed to the City but unplatted because platting was not required at the time that the land was developed or the land is owned by the City of Colorado Springs and used for park and recreation purposes. Building permits shall be issued without requiring platting and without the approval of the Minor Land Subdivision Committee only in the following particular cases:

- A. When interior remodeling exclusively is to be undertaken in compliance with the provisions of this Code, and a plot plan showing all required data pertinent to the specific building permit request has been submitted to the Regional Building Department;
- B. When a structural addition, attached or otherwise, is to be constructed in compliance with the provisions of this Code and the following conditions exist:
 - 1. The addition constitutes no change in land use; and

- B) 2. The addition will not require street extension; and

3. That a detailed dimensionalized plot plan is submitted with the specific building request to the Regional Building Department showing the existing site improvements and the proposed improvements in relation to the site and to adjacent properties; and

4. The proposed structural addition will not intrude upon setback lines determined by the City Engineer to accommodate any proposed right of way indicated on the Major Traffic Thoroughfare Plan; and

5. Drainage fees are paid if the proposed structural addition results in a floor area which exceeds by fifty percent (50%) the area of the structure existing on July 18, 1975, or the date of annexation if annexation is after July 18, 1975.

- C. When City utility services are extended to existing structures in use within the City limits and all of the following criteria are met:

1. The existing structure has been using well water, gas or septic tank services in conformance with statutes, ordinances and regulations in existence at the time of those facilities installations;

2. No building permit will be required to install fixtures to use the City utility services provided;

3. Adequate utility services are available to provide the extension requested;

4. The landowner requests such extension; and

5. The applicable utility service fees are paid by the land owner.

- D. When improvements including but not limited to restrooms, picnic or other shelters, athletic fields or concession facilities are to be constructed on public park lands, and all the following conditions exist:

- D) 1. The structure constitutes no change in the land use as a park; and
2. The structure will not require a street extension; and
3. A detailed dimensionalized plot plan is submitted with the specific building request to the Regional Building Department showing the existing site improvements and the proposed improvements in relation to the site and to the adjacent properties; and
4. The proposed structure is of benefit to the public in general. (Ord. 78-65; Ord. 85-237; Ord. 86-123; 1968 Code § 13-25A)

15-3-1403: ISSUANCE TO PREVIOUSLY PLATTED LANDS:

This Section applies only to land which has been previously platted into lots and/or blocks, and it is the purpose of this Section to alleviate platting costs in older subdivisions. It is limited to owners who wish to use more than one whole platted lot for one development and to owners of certain small parcels of land who have purchased a portion or portions of previously platted lots and/or blocks which have been divided and sold by metes and bounds descriptions. It is not the purpose of this Section to promote the subdivision or resubdivision of lots without replatting.

- A. Replatting shall not be required prior to the issuance of a building permit if the following criteria are met:
1. The total acreage of the platted lot, or lots, of which this parcel is a part, does not exceed two (2) acres; and
 2. The land for which a waiver of replatting is requested under this Section does not include any land for which the owner obtained title pursuant to vacation of a public right of way.
 3. No dedication of right of way is required; and
 4. No major public improvements such as drainage structures are required; and
 5. Approved direct access to an acceptable, existing public street exists; and
 6. The applicant agrees to pay applicable fees which would normally be paid prior to recording of the replat; and

- A) 7. The applicant agrees to dedicate easements required for utilities and access; and
8. The parcel of real property is in conformance with all requirements of the zoning regulations and no variances to lot size or width are required; or the existing ownership configuration occurred prior to January 1, 1952; or the existing ownership configuration occurred prior to annexation to the City; and
9. No structures exist across external property lines of the ownership configuration; and
10. No property boundary adjustments, combination of lots for zoning purposes, or waiver of replatting has previously been granted for any of the property involved; and
11. The request has been submitted and reviewed in conformance with the procedures set forth below, and no department objects to the request.

B. Procedure.

1. Materials and Information Required. The applicant shall submit to the Planning Department a completed application form accompanied by:

- a. Recording fee; and
- b. Proof of ownership of the parcel involved; and
- c. Proof of the date of the creation of the legal description of the parcel under consideration;
- d. The date of annexation of the parcel;
- e. Copy of the recorded plat in order to verify rights of way;
- f. The required number of copies of a site plan, drawn to scale, which includes all of the following:
 1. All of each platted lot of which the parcel is a part; and
 2. The boundaries and dimensions of the ownership configuration; and
 3. Location, dimensions and setbacks of all existing structures; and

- B) 4. Location, names and rights of way of all adjacent streets and alleys; and
5. Show all access points on property adjacent to or across the street from the applicant's property.
6. A bar scale and north arrow; and
7. The legal description of the parcel; and
8. The book and page number of the recorded plat of which this parcel is a part; and
9. The owner's name, address and phone number; and

(See following page for Section 15-3-1403 continued)

- B,1,f) 10. Approval/denial statement. (See 2d below.)

2. Approval/Denial. After review conducted by the City departments, involved utilities and involved cable television system or broadband telecommunications networks, the Planning Department will notify the applicant and the Regional Building Department of approval or denial of the request.

a. Approval of the request may be subject to fulfillment of certain provisions related to other sections of this Chapter, such as arrangements for public improvements, easements, easement vacations, fees, etc. The applicant will have ninety (90) days from the date of completion of the review in order to satisfy these provisions. If the applicant fails to satisfy the requirements in this time period, the application will be considered withdrawn.

b. Denial of the request shall specify the reason for denial and may be appealed to the City Council, except that when denial is due to failure to qualify under subsection A above, the appeal must be submitted first to the Planning Commission accompanied by a properly-executed request for waiver of platting requirements.

c. The approval of the request for waiver of replatting by the Director of Planning shall constitute the consolidation of land involved into one lot for purposes of City zoning ordinance, one lot for purposes of the City subdivision code and shall constitute one lot for purposes of all other applicable provisions of the City Code,

- B,2) including applicable codes, rules and regulations adopted pursuant to the City Code.

d. Requests that are approved under this Section shall include the following language:

Under the provisions of Section 15-3-1403 of the Code of the City of Colorado Springs 1980, as amended, the following legal description is henceforth considered as one lot for purposes of the Zoning Ordinance (Chapter 14 of the City Code), one lot for the applicable provisions of the subdivision code, and one lot for any other applicable provisions of the City Code or including applicable codes, rules and regulations adopted pursuant to the City Code.

(City of Colorado Springs Planning Director)

_____, date.

(Ord. 82-218; Ord. 85-275)

15-3-1404: **ISSUANCE PRIOR TO PLATTING:**

- A. Issuance for Single-Family Construction: The Minor Land Subdivision Committee at its regularly scheduled meeting may authorize the issuance of a building permit prior to platting in accordance with the following:

1. Material and Information Required. An application form, properly completed, shall be submitted to the Planning Department on or before the due date for preparation of the agenda for the next scheduled Minor Land Subdivision Committee meeting. Said application shall be accompanied by the following:

Fifteen (15) copies of a detailed site plan, drawn to scale, showing all existing and proposed

- A,1) improvements (public and private); see Section 15-3-502.

2. Minor Land Subdivision Committee Action: The Minor Land Subdivision Committee shall review the Planning Department's report. If the Minor Land Subdivision Committee determines the request is in conformance with all appropriate City Codes, the Minor Land Subdivision Committee may authorize the issuance of a building permit prior to platting subject to the following:

a. The applicant shall provide to the Public Works Department an acceptance assurance to cover the cost of platting as determined by the Public Works Department.

b. The applicant shall provide to the Public Works Department acceptable assurance for any required public improvements and shall provide cash fees as required by this Chapter.

- B. Issuance for Development Other Than Single-Family Construction: The Director of Public Works and the Director of Planning may authorize the issuance of a building permit prior to platting subject to the following:

1. A complete form indicating the applicant's intent to plat plus acceptable assurances to cover the cost of platting, such cost to be determined by the Department of Public Works. A complete plat submittal shall be made within forty five (45) days of the issuance of the building permit.

2. The applicant shall provide two (2) copies of a detailed site plan, drawn to scale, showing all existing and proposed improvements (public and private).¹

3. Conformance to all applicable City codes.

4. Payment of all required fees. (Ord. 81-278)

15-3-1405: ACTION BY MINOR LAND SUBDIVISION COMMITTEE: The Minor Land Subdivision Committee, at its regularly scheduled meeting, may elect to hear a building permit request that has not been previously placed on the agenda if the following conditions are met:

- A. A request in writing has been submitted to the Planning Department by eleven o'clock (11:00) A.M. of the day of the meeting.
- B. That the written request explains why the building permit request was not submitted in the normal manner, and sets forth the hardship justification as to why the building permit should be authorized prior to completion of platting.
- C. The final plat request for the land to be used in the requested building permit has been previously approved by the Minor Land Subdivision Committee.
- D. No less than three (3) members of the Minor Land Subdivision Committee have voted in favor of hearing the item.
- E. The building plans are complete and have been submitted to the Regional Building Department.

Should the Minor Land Subdivision Committee elect to hear the request under this Section and approve the issuance of a building permit, the issuance of such building permit is subject to review by the City administration and all the requirements set forth in Section 15-3-1404 above. (Ord. 78-65; 1968 Code § 13-25D)

1. See Section 15-3-502 of this Chapter.

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 3 SUBDIVISION REGULATIONS

PART 15 GRADING PLANS

SECTION:

- 15-3-1501: Purpose
- 15-3-1502: Definitions
- 15-3-1503: Grading Plans
- 15-3-1504: Public Nuisance Declared
- 15-3-1505: Commencement of Correction Proceedings
- 15-3-1506: Notice and Order to Correct
- 15-3-1507: Service of Notice and Order
- 15-3-1508: Record Notice and Order, Certificates
- 15-3-1509: Standards for Correction
- 15-3-1510: Form of Appeal
- 15-3-1511: Effect of Failure to Appeal
- 15-3-1512: Staying Order Under Appeal
- 15-3-1513: Processing Appeal
- 15-3-1514: Scope of Hearing on Appeal
- 15-3-1515: Procedure for Hearing Appeals
- 15-3-1516: Conduct of Hearing
- 15-3-1517: Method and Form of Decision
- 15-3-1518: Enforcement of Order
- 15-3-1519: Failure to Obey
- 15-3-1520: Report Account of Expenses
- 15-3-1521: Protests and Objections
- 15-3-1522: Hearing on Report, Protest
- 15-3-1523: Personal Obligation or Special Assessment
- 15-3-1524: Contest Assessment
- 15-3-1525: Lien of Assessment
- 15-3-1526: Report to Assessor and Tax Collector
- 15-3-1527: Collection of Assessment
- 15-3-1528: Repayment of Correction Fund
- 15-3-1529: Responsibility and Liability

15-3-1501: **PURPOSE:** The purpose of this Part is to safeguard life, limb, property and the public welfare from grading on private property. It is not the purpose of this Part that the City regulate grading, unless specifically required elsewhere in this Code¹ by approving grading plans, but rather, to require persons who engage in grading or who have grading undertaken to accomplish the grading in a safe manner so that grading does not result in adverse effects to persons or property, or both. (Ord. 82-56)

15-3-1502: DEFINITIONS:

DANGEROUS GRADING: Any fill, excavation or grading that as a result of natural or unnatural conditions has or will result in damage to life, limb or property.

DIRECTOR OF PUBLIC WORKS: The Director or his designated representative.

EXCAVATION: The mechanical removal of earth material.

FILL: A deposit of earth material by mechanical means.

GRADING: Any excavating or filling or combination thereof. (Ord. 82-56)

15-3-1503: GRADING PLANS: No person shall undertake any grading on private property that will result in:

- A. Excavation or fill of seven hundred fifty (750) cubic yards, or
- B. The grading of a site with platted acreage of two (2) or more acres, or
- C. Grading on any property with a natural slope in excess of eight percent (8%), or
- D. Any combination of the above three, or
- E. Any grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code,

unless such person has obtained from a registered professional engineer or architect licensed by the State of Colorado a grading plan done in such a manner so as to protect other property from the adverse effects of the grading. Such grading plan shall bear the seal of a registered professional engineer, or the seal or signature of an architect licensed by the State of

1. See Section 14-3-2906 (Grading Plans in Hillside Overlay Zone) and Section 15-3-502C2 (Grading plans may be required to be submitted with preliminary plats in hillside areas where slopes exceed 10%).

Colorado and shall include a cost estimate for the grading to be undertaken. Specifically, and without limitation or inclusion, the grading plan should include the nature, distribution and strength of existing soils, conclusions and recommendations for grading procedures and design criteria for corrective measures when necessary, and should be of sufficient clarity to indicate the nature and extent of the work proposed and shall provide that such work will not become a hazard to life and limb, endanger property, or adversely affect the safety, use or stability of a public way, drainage channel or other property. Such grading plan shall be filed with the Director of Public Works and a receipt shall be given so long as the grading plan bears the seal of a registered professional engineer or seal or signature of an architect licensed by the State of Colorado. The receipt shall constitute a grading permit; provided that such receipt shall not constitute a grading permit for any area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code. (Ord. 82-56; Ord. 83-229)

15-3-1504: PUBLIC NUISANCE DECLARED: All grading which is determined, after inspection by the Director of Public Works, to be dangerous as defined in Section 15-3-1502 or any grading or other disturbance of land in areas zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code is hereby declared to be a public nuisance and shall be abated by correction in accordance with a grading plan obtained from a registered professional engineer licensed by the State of Colorado. (Ord. 82-56; Ord. 83-229)

15-3-1505: COMMENCEMENT OF CORRECTION PROCEEDINGS: Whenever the Director of Public Works has inspected or caused to be inspected any grading and has found and determined that such grading is dangerous grading, he shall cause corrective proceedings to be undertaken. (Ord. 82-56)

15-3-1506: NOTICE AND ORDER TO CORRECT: The Director of Public Works shall issue a notice and order directed to the record owner of the property on which the dangerous grading has or will occur and may issue a notice and order directed to the record owner of the property where grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code has occurred or will occur. The notice and order shall contain:

- A. The street address and a description sufficient for identification of the premises upon which the grading is located.
- B. A statement that the Director of Public Works has found the grading to be dangerous or has found grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code with a brief and concise description of the conditions found to render the grading dangerous under the provisions of Section 15-3-1502, or the conditions that constitute grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code.
- C. A statement of the action required to be taken as determined by the Director of Public Works.
- D. Statements advising that if any required corrective measures are not commenced within the time specified, the Director of Public Works may proceed to cause the corrective measures to be undertaken and charge the cost thereof against the property or its owner.
- E. Statements Advising:
 1. That any person having any record title or legal interest in the property may appeal from the notice and order or any action of the Director of Public Works to the City Council, provided the appeal is made in writing as provided herein, and filed with the Director of Public Works within ten (10) days from the date of service of such notice and order; and
 2. That failure to appeal will constitute a waiver of all right to a hearing and determination of the matter. (Ord. 82-56; Ord. 83-229)

15-3-1507: SERVICE OF NOTICE AND ORDER:

- A. To Whom Made: Notice and order, and any amended or supplemental notice and order, shall be served upon the record owner, and posted on the property; and one copy thereof shall be served on each of the following if known, to the Director of Public Works or disclosed from official public records:
 1. The holder of any mortgage or deed of trust or other lien or encumbrance of record; and

- A) 2. The owner or holder of any lease of record; and
3. The holder of any other estate or legal interest of record in or to the real property.

Failure of the Director of Public Works to serve any person required herein to be served shall not invalidate any proceedings hereunder as to any other person duly served or relieve any such person from any duty or obligation imposed on him by the provision of this section.

- B. Method of Service: Service of the notice and order shall be made upon all persons entitled thereto either personally or by mailing a copy of such notice and order by certified mail, postage prepaid, return receipt requested, to each such person at his address as it appears on the assessment roll of the County or is known to the Director of Public Works. If no address of any such person so appears or is not known to the Director of Public Works, then a copy of the notice and order shall be so mailed, addressed to such person, at the address of the real property involved in the proceedings. Failure of any such person to receive such notice shall not affect the validity of any proceedings taken under this Section. Service by certified mail in the manner herein provided shall be effective on the date of mailing.
- C. Proof of Service. Proof of service of the notice and order shall be certified to at the time of service by a written declaration under penalty of perjury executed by the person effecting service, declaring the time, date, manner in which service was made. The declaration, together with any receipt card returned in acknowledgement of receipt by certified mail shall be affixed to the copy of the notice and order retained by the Director of Public Works. (Ord. 82-56)

15-3-1508: RECORD NOTICE AND ORDER, CERTIFICATES: Upon initiation of the service of the notice and order, the Director of Public Works shall file in the office of the County Clerk and Recorder of El Paso County a certificate describing the property and certifying:

- A. That the property is in a dangerous grading condition, or the property has been graded or

- A) other disturbance of land has occurred in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code, which grading or other disturbance of the land is not in conformity with this Part 29, and

- B. That the owner is being so notified.

Whenever the Director of Public Works' order has been reversed on appeal, or the corrections ordered shall thereafter have been completed, the Director of Public Works shall file a new certificate with the County Clerk and Recorder certifying that the order has been rescinded or that all required corrections have been made so that there is no longer a dangerous grading condition or there is conformity with the requirements of the Hillside Overlay zone, Part 29 of Article 3 of Chapter 14 of the City Code. (Ord. 82-56; Ord. 83-229)

15-3-1509: STANDARDS FOR CORRECTION:

Any grading declared dangerous grading under this Article; or any grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code shall be corrected in accordance with a grading plan obtained from a registered professional engineer or from an architect licensed by the State of Colorado, the grading plan on file with the Director of Public Works, grading plan or a corrected grading plan obtained from a registered professional engineer or from an architect licensed by the State of Colorado and in addition, in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code, all requirements of that Part shall be met. (Ord. 82-56; Ord. 83-229)

15-3-1510: FORM OF APPEAL: Any person served may appeal from any notice and order of any action of the Director of Public Works by filing at the office of the Director of Public Works, within ten (10) days after the date of service of such order a written appeal containing:

- A. A caption reading: "Appeal of _____" giving the names of all appellants participating in the appeal.
- B. A brief statement setting forth the legal interest of each of the appellants in the land involved in the notice and order.
- C. A brief statement, in ordinary and concise language, of the specific order or action

- C) protested, together with any material facts claimed to support the contentions of the appellant.
- D. A brief statement, in ordinary and concise language, of the relief sought and the reasons why it is claimed the protested order should be reversed, modified, or otherwise set aside.
- E. The signatures of all parties named as appellants and their official mailing addresses.
- F. Verification of at least one appellant as to the truth of the matter stated in the appeal. (Ord. 82-56)

15-3-1511: EFFECT OF FAILURE TO APPEAL:

The failure of any person to file an appeal in accordance with the provisions of Section 15-3-1510 shall constitute a waiver of his right to a hearing and adjudication of the notice and order, or any portion thereof. (Ord. 82-56)

15-3-1512: STAYING ORDER UNDER APPEAL:

No stay during the pendency of an appeal shall be allowed unless the appellants establish to the satisfaction of the Director of Public Works that grading on the property will alleviate the dangerous grading condition or that continued grading on the property will not aggravate the dangerous grading condition being appealed; provided that in any area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code, no grading or other disturbance of land shall be allowed during the pendency of an appeal unless the appellants establish to the satisfaction of the Director of Public Works with the concurrence of the Director of Planning that grading the property will alleviate the dangerous grading condition or that grading on the property is in conformity with all the requirements of the Hillside Overlay zone, Part 29. of Article 3 of Chapter 14 of the City Code. (Ord. 82-56; Ord. 83-229)

15-3-1513: PROCESSING APPEAL: Upon receipt of any appeal filed pursuant to this Section, the Director of Public Works shall present it at the next regular meeting of the City Council. As soon as practical, after receiving the written appeal, City Council shall fix a date, time and place for the hearing of the appeal by the Council. Such date shall not be less than ten (10) days nor more than thirty

(30) days from the date the appeal was filed with the Director of Public Works. Written notice of the time and place of the hearing shall be given at least ten (10) days prior to the date of the hearing to each appellant by the City Clerk either by causing a copy of such notice to be delivered to the appellant personally or by mailing a copy thereof, postage prepaid, addressed to the appellant at his address shown on the appeal. (Ord. 82-56)

15-3-1514: SCOPE OF HEARING ON APPEAL:

Only those matters or issues specifically raised by the appellant shall be considered in the hearing of the appeal. (Ord. 82-56)

15-3-1515: PROCEDURE FOR HEARING APPEALS:

- A. Records and Reports. A record of the entire proceeding shall be made by tape recording, or by any other means of permanent recording determined to be appropriate by the City Council. A transcript of the proceedings shall be made available to all parties upon request and upon payment of the fee prescribed therefor. Such fees may be established by the City Council, but shall in no event be greater than the cost involved.
- B. Continuances. The City Council may grant continuances for good cause shown.
- C. Oaths; Certifications. In any proceedings under this Section, the City Council, or any member thereof, has the power to administer oaths and affirmations and to certify to official acts.
- D. Reasonable Dispatch. City Council shall proceed with reasonable dispatch to conclude the matter before it. (Ord. 82-56)

15-3-1516: CONDUCT OF HEARING:

- A. Rule. Hearings need not be conducted according to the technical rules relating to evidence and witnesses.
- B. Evidence.
 - 1. Oral Evidence: Oral evidence shall be taken only on oath or affirmation.

- B) 2. Hearsay Evidence. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions in courts of competent jurisdiction in this State.

3. Admissibility of Evidence. Any relevant evidence shall be admitted if it is the type of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of competent jurisdiction in this State.

4. Exclusion of Evidence. Irrelevant and unduly repetitious evidence shall be excluded.

- C. Rights of Parties. Each party shall have these rights among others:

1. To call and examine witnesses on any matter relevant to the issues of the hearing; and
2. To introduce documentary and physical evidence; and
3. To cross-examine opposing witnesses on any matter relevant to the issues of the hearing; and
4. To impeach any witness regardless of which party first called them to testify; and
5. To rebut the evidence against them; and
6. To represent himself or to be represented by anyone of his choice who is lawfully permitted to do so. (Ord. 82-56)

15-3-1517: METHOD AND FORM OF DECISION:

- A. Hearing Before City Council: Before a contested case is heard before the City Council, no member thereof who did not hear the evidence or has not read the entire record of the proceeding shall vote or take part in the decision.
- B. Form of Decision. The decision shall be in writing and shall contain findings of fact, a determination of the issues presented, and the

- B) requirements to be complied with. A copy of the decision shall be delivered to the appellant personally or sent to him at the address set forth in the appeal by certified mail, postage prepaid, return receipt requested.

- C. Effective Date of Decision. The effective date of the decision shall be as stated therein. (Ord. 82-56)

15-3-1518: ENFORCEMENT OF ORDER: After any order of the Director of Public Works or City Council made pursuant to this Article shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order is guilty of a misdemeanor. (Ord. 82-56)

15-3-1519: FAILURE TO OBEY:

- A. If, after any order of the Director of Public Works or City Council made pursuant to this Article has become final, the person to whom such order is directed shall fail, neglect or refuse to obey such order, the Director of Public Works may:

1. Cause such person to be prosecuted under Section 15-3-1518 above, or

2. Institute any appropriate action to abate such dangerous grading or grading or other disturbance of land in an area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code as a public nuisance.

- B. Whenever the required corrective action is not commenced within ten (10) days after any final notice and order issued under this Article becomes effective, the Director of Public Works shall cause the grading to be corrected to the extent necessary to correct the conditions which render the grading dangerous as set forth in the notice and order, or in any area zoned Hillside Overlay zone under Part 29 of Article 3 of Chapter 14 of the City Code to take such action as necessary to bring the grading or other disturbance of land in conformity with that Part. (Ord. 82-56; Ord. 83-229)

15-3-1520: REPORT ACCOUNT OF EXPENSES:
The Director of Public Works shall keep

an itemized account of the expenses incurred by the City in correction of any dangerous grading or any action taken by the City to meet the requirements of the Hillside Overlay zone, Part 29 of Article 3 of Chapter 14 of the City Code and upon completion of the correction said Director shall prepare and file with the City Clerk, a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the grading or other land disturbance is or was located, and the names and addresses of the person entitled to notice. Upon receipt of said report, the City Clerk shall fix the time, date and place for hearing said report, and any protests or objections thereto. The City Clerk shall cause notice of said hearing to be posted upon the property involved, publish once in a newspaper of general circulation in the City, and serve by certified mail, postage prepaid, addressed to the owner of the property as his name and address appears on the assessment role at the County Assessor, if such so appears, or as known to the Clerk. Such notice shall be given at least ten (10) days prior to the date set for the hearing, and shall specify the day, hour and place when Council will hear and pass upon the Director's report, together with any objections or protests which may be filed as hereinafter provided by any person interested in, or affected by the proposed charge. (Ord. 82-56; Ord. 83-229)

15-3-1521: PROTESTS AND OBJECTIONS: Any person interested in or affected by the proposed charge may file written protests or objections with the City Clerk at any time prior to the time set for hearing on the report of the Director. Each such protest or objection must contain a description of the property in which the signor thereof is interested and the grounds of such protest or objection. The City Clerk shall endorse on every such protest or objection the date it was received by him and shall present such protest or objections to the City Council at the time set for the hearing. No other protests or objections shall be considered. (Ord. 82-56)

15-3-1522: HEARING ON REPORT, PROTEST: Upon the day and hour fixed for the hearing, the City Council shall hear and pass upon the report of the Director together with any such objections or protests. The Council may make such revision, correction and modification in the report or the charges it may deem just; and when the Council is satisfied with the correctness of the charge, the report (as submitted or revised, corrected or modified)

together with the charge, shall be confirmed or rejected. The decision of the City Council and the report and the charge, and on all protests or objections shall be final and conclusive. (Ord. 82-56)

15-3-1523: PERSONAL OBLIGATION OR SPECIAL ASSESSMENT: City Council may thereupon order that such charge shall be made a personal obligation of the property owner or assess such charge against the property involved.

- A. Personal Obligation. If the City Council orders that the charge shall be a personal obligation of the property owner, it shall direct the City Attorney to collect the same on behalf of the City by use of all appropriate legal remedies.
- B. Special Assessment. If the City Council orders that the charge shall be assessed against the property, it shall confirm the assessment role, and thereafter said assessment shall constitute a special assessment against any lien upon the property, and shall be collected in the same manner as any other special assessment of the City. (Ord. 82-56)

15-3-1524: CONTEST ASSESSMENT: The validity of any assessment made under the provisions of this Article shall not be contested in any action or proceeding unless the same is commenced within thirty (30) days after the assessment is placed upon the assessment role as provided herein. Any appeal from a final judgment in such action or proceeding must be perfected within thirty (30) days after entry of such judgment. (Ord. 82-56)

15-3-1525: LIEN OF ASSESSMENT:

- A. Priority. Immediately upon its being placed on the assessment role, the assessment shall be deemed to be complete, the several amounts assessed shall be payable, and the assessments shall be liens against the lots or parcels of land assessed, respectively. The liens shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens except for State, County and Municipal with which it shall be upon a parity. The liens shall continue until the assessment and all interest due and payable thereon are paid.

- B. Interests. All such assessments remaining unpaid after thirty (30) days from the date of recording on the assessment role shall become delinquent and shall bear interest at the rate of one percent (1%) per month from and after said date. (Ord. 82-56)

15-3-1526: REPORT TO ASSESSOR AND TAX COLLECTOR: After confirmation of the report, certified copies of the assessment shall be given to the County Treasurer on or before October 15. (Ord. 82-56)

15-3-1527: COLLECTION OF ASSESSMENT: The amount of the assessment shall be collected at the same time and in the same manner as general taxes are collected; and shall be subject to the same penalties and procedure and sale in case of delinquency as provided for general Municipal taxes. All laws applicable to the levy, collection and enforcement of general Municipal taxes shall be applicable to such assessment. (Ord. 82-56)

15-3-1528: REPAYMENT OF CORRECTION FUND: All money recovered by payment of the charge or assessment or from the sale of property at foreclosure sale shall be paid to the City Treasurer who shall credit the same to the grading correction fund. (Ord. 82-56)

15-3-1529: RESPONSIBILITY AND LIABILITY: Any person who engages in grading is hereby declared to be totally responsible to those persons who he may endanger or, in fact, does endanger, as a result of not having or not following a grading plan or following an incorrect grading plan. (Ord. 82-56)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 4 LAND DEVELOPMENT

PART 1 COMPREHENSIVE PLAN PROCEDURE

SECTION:

15-4-101: Definitions
 15-4-102: Legislative Declaration
 15-4-103: Purposes
 15-4-104: Areas of Consideration
 15-4-105: Planning Basis
 15-4-106: Statements of Trends, Objectives, Policies and Standards
 15-4-107: Development of Plan
 15-4-108: Adoption of Plan
 15-4-109: Legal Status of Plan
 15-4-110: Comprehensive Plan Task Force
 15-4-111: Contents of the Plan
 15-4-112: Use of Comprehensive Plan
 15-4-113: The Comprehensive Plan

15-4-101: **DEFINITIONS:** The following terms, as used in this Article, shall have the following meanings:

COMPREHENSIVE PLAN: Statements in words, maps, illustrations or other media of communication setting forth assumptions, goals, definitions, policies and recommendations to guide public and private development of land within the jurisdiction of the City.¹

LAND DEVELOPMENT: Any existing or contemplated use of land. (Ord. 83-262)

15-4-102: **LEGISLATIVE DECLARATION:**

- A. In order to promote the public health, safety and general welfare, to improve the physical environment of the City as a setting for human activities; to evaluate the social and economic effects of land development; to effect the formularization, determination and implementation of community values, policies, standards and objectives; to consider the effect on community financial capabilities, public and private investments, and to consider the effect

- A) on the environment when making land development decisions, the City Council hereby finds, determines and declares that it is in the public interest that there be a Comprehensive Plan. (Ord. 83-262)

15-4-103: **PURPOSES:** The purposes of preparing the Comprehensive Plan are as follows:

- A. To initiate comprehensive studies of factors relevant to land development.
- B. To recognize and state major problems and opportunities concerning land development and the social and economic effects of land development.
- C. To set forth the desired sequence, patterns and characteristics of future land development and its probable environmental, economic and social consequences.
- D. To provide a statement of programs necessary or desirable in order to obtain the desired sequence, patterns and characteristics of land development.
- E. To determine the probable environmental, economic and social consequences of the desired land development and the proposed programs. (Ord. 83-262)

15-4-104: **AREAS OF CONSIDERATION:** The following areas shall be considered in formulating the Comprehensive Plan:

- A. Present procedures for guiding the public and private development of land shall be reviewed, and when desirable, changes to such procedures shall be considered.
- B. Existing natural conditions shall be used to the extent possible in determining the type, density and intensity of public and private development

1. See also Section 15-3-102E and F wherein the Comprehensive Plan is referred to in the City's Subdivision Regulations.

- B) of land within the planning jurisdiction of the City.
- C. Public improvements, existing and planned, shall be considered as a means to effect the public and private development of land within the planning jurisdiction of the City.
- D. Public utilities, existing and planned, shall be considered as a factor in guiding public and private development of land within the planning jurisdiction of the City.
- E. Maximum utilization of existing public investments shall be considered in guiding public and private development of land within the planning jurisdiction of the City.
- F. That the City may have to provide a broader range of public improvements than undertaken in the past.
- G. That all of the above areas of consideration must be correlated, integrated and coordinated in establishing a Comprehensive Plan. (Ord. 83-262)

15-4-105: PLANNING BASIS: The Comprehensive Plan shall be based on the following:

- A. Population and population distribution, which may include analysis by age, educational level, income, employment, race or other appropriate characteristics.
- B. Amount, type, intensity and general location of commerce and industry.
- C. Amount, type, quality and general location of housing.
- D. General location and extent of existing or currently planned major transportation, utility and community facilities.
- E. Amount, general location, and interrelationship of different categories of land use.
- F. Extent and general location of blighted or deteriorated areas and factors related thereto.
- G. Areas, sites or structures of historical, archaeological, architectural or scenic significance.

- H. Natural resources, including air, water, open spaces, forests, soils, wildlife and minerals.
- I. Present and prospective availability of financial resources needed to undertake development proposed in the plan.
- J. Any other matters found to be important to future land development.¹ (Ord. 83-262)

15-4-106: STATEMENTS OF TRENDS, OBJECTIVES, POLICIES AND STANDARDS:

- A. The Comprehensive Plan may contain statements identifying the present conditions and major problems relating to development, physical deterioration, and the location of land uses and the social and economic effects thereof, and may show the projected nature and rate of change in present conditions for the reasonably foreseeable future based on a projection of current trends, and may forecast the probable social and economic consequences which will result from such changes.
- B. The Comprehensive Plan may include statements of objectives, policies and standards regarding proposed or foreseeable changes in present conditions and problems and regarding any other matters of citizen concern. The Plan may analyze the probable social and economic consequences of its objectives, policies and standards and shall evaluate, to the extent feasible, alternative objectives, policies and standards with respect to probable social and economic consequences.
- C. The Comprehensive Plan may include statements regarding the coordination of the plans, objectives, policies and standards. (Ord. 83-262)

15-4-107: DEVELOPMENT OF PLAN:

- A. In order to initiate development of the Comprehensive Plan, or amendments thereto, it shall be the responsibility of the Planning Department to convene the Comprehensive Plan Task Force for discussion of community values, goals and objectives. The Comprehensive Plan Task Force was responsible for determining the goals, policies and recommendations which will

1. See "Community Profile" dated 1981, City Planning Department for statements of Planning Basis.

- A) form the basis of the Comprehensive Plan. The Planning Department prepared a draft Comprehensive Plan based upon the statements of goals, policies and recommendations of the Comprehensive Plan Task Force. The draft Comprehensive Plan was forwarded to City Council for further discussion, possible revision and adoption.
- B. The purpose of subsection A above was to create a dialogue among the members of the community in relation to the community values, goals and objectives. Such dialogue is a continuing process throughout the development of the Plan, and such process is necessary so that the plan and land development decisions made under the plan reflect community values, goals and objectives. (Ord. 83-262)

15-4-108: **ADOPTION OF PLAN:**

- A. The City Council shall adopt by ordinance the Comprehensive Plan. Because the Plan is a series of statements (goals and policies) to guide the public and private development of land, the Plan need not be adopted as a whole, but may be by adoption of individual statements that may be amended, modified, changed or repealed as other statements are adopted or as community values, objectives and goals are re-evaluated.
- B. Before adopting the Comprehensive Plan or parts thereof, at least one public hearing duly advertised shall be held by the City Council. (Ord. 83-262)

15-4-109: LEGAL STATUS OF PLAN: The contents of the Comprehensive Plan are to serve as a guide in the public and private development of land and as such are not binding upon the City when making specific land use decisions. However, nothing in this Section is intended to prohibit a court in its consideration of governmental action, from considering the reasonableness of the Plan or its appropriateness and completeness in relation to the governmental action under review. (Ord. 83-262)

15-4-110: COMPREHENSIVE PLAN TASK FORCE: In 1981, the City Council appointed a Comprehensive Plan Task Force to draft a Comprehensive Plan for the City. The Comprehensive Plan Task Force was comprised of representatives from a broad range of community

organizations as well as representatives from City and County government. The broad range of community interests represented on the Task Force facilitated full expression of alternate viewpoints related to the City's development. The statements of alternative viewpoints was a process by which the Comprehensive Plan Task Force reached a consensus on statements of goals, policies and recommendations included in the draft Comprehensive Plan prepared by the Planning Department and forwarded to the City Council. The City Council may convene as desired a Comprehensive Plan Task Force to review the existing Comprehensive Plan and recommend changes to the City Council. (Ord. 83-262)

15-4-111: **CONTENTS OF THE PLAN:**

- A. The Comprehensive Plan consists of the City's goals and policies; the appendices thereto constitute City-wide and specific area plans, Comprehensive Plan recommendations, and the current fiscal year work plan.
- B. All other City-wide and specific area plans previously prepared and adopted by the City are hereby incorporated into the Comprehensive Plan as specific recommendations of the Comprehensive Plan. (Ord. 83-262)

15-4-112: **USE OF COMPREHENSIVE PLAN:**

The City Council, all City Boards and Commissions, the various City Departments, Divisions and officials shall be responsible for knowing the contents of the Comprehensive Plan and shall consider the relevant policies set forth in the Comprehensive Plan prior to making decisions; provided, however, nothing set forth in the Comprehensive Plan shall prohibit the City Council, City Boards or Commissions, various City Departments, Divisions and officials, after considering the Plan, from deviating from the policies set forth in the Comprehensive Plan where circumstances so warrant in making decisions affecting specific persons or property. (Ord. 83-262)

15-4-113: **THE COMPREHENSIVE PLAN:**

PART 1

1.0 COMPREHENSIVE PLAN

Goal

- 1.1 After adoption of the Comprehensive Plan it should be utilized and periodically revised.

Policies

1.1.1 The relevant policies of the Comprehensive Plan shall be considered in the course of making decisions which affect the City's development, environment and general welfare.

1.1.2 The Comprehensive Plan shall be reviewed, evaluated and amended to maintain and improve its relevancy and effectiveness as the City's policy guide for the future.

PART 2

2.0 GROWTH AND ANNEXATION

Assumption. The population of Colorado Springs will reach 450,000 to 500,000 by the year 2000. Some of this growth will occur on the urban fringe in areas subject to annexation or County jurisdiction.

Goal

2.1 Plan and guide the development and annexation of the City's enclaves and fringe areas in order to achieve an efficient urban growth pattern consistent with City standards and policies.

Policies

2.1.1 All annexations must meet the following conditions:

- a. The area to be annexed is a logical extension of the City's boundary.
- b. All undeveloped areas to be annexed shall be included in a master plan submitted by the petitioner for the City's approval.
- c. The existing or proposed development of the area to be annexed will be beneficial to the City. Examples of the various tangible and intangible costs and benefits the City may consider to determine benefit include: the short and long term fiscal impact of extending City services, any necessary capital improvements, and anticipated revenues generated by the proposed development; employment opportunity; improved wastewater management; improved drainage control; improved public transportation; diversification of the economic base; the efficiencies of adding enclaves to the City; and

impact on environmental quality.

- d. There is a projected available water surplus at the time of the request and that the existing and projected water and/or wastewater facilities of the City are expected to be sufficient for the present and projected needs for the foreseeable future to serve all present users.

2.1.2 Property in the County which is totally surrounded by the City should be considered for annexation.

2.1.3 Partially or fully developed areas annexed into the City should pay a fair share of the costs of essential public improvements.

2.1.4 The timing of development and the initial level of City services in areas to be annexed shall be established by an annexation agreement between the City and property owners seeking either annexation or City services.

2.1.5 Development of the urban fringe should be addressed in an intergovernmental agreement with the County and other appropriate local governments in order to assure consistency among local governments' policies and standards.

PART 3

3.0 INFILL

Goal

3.1 Infill to achieve an efficient utilization of the City's resources.

Definitions

3.1.D1 INFILL is development, including provision for parks and open space, which utilizes the existing infrastructure of the City with little or no required additions or extensions to the infrastructure system.

3.1.D2 INFRASTRUCTURE is the facilities and services needed to sustain residential, commercial, industrial, educational and recreational activities. The infrastructure system includes utilities, streets, schools, parks, police and fire stations and services as well as privately owned systems and facilities.

Policies

3.1.1 Infill strategies and assistance should be utilized in areas designated for infill.

3.1.2 The potential for infill development should be a major consideration in the establishment of priorities for capital improvements.

PART 4

4.0 LAND USE

Goal

4.1 Encourage the creation of subcommunities in order to ensure greater efficiency, variety and identity within areas of the City.

Definition

4.1.D A subcommunity is a planned environment incorporating complementary multiple uses with a live/work/play orientation and which may include a focal point of activity. Subcommunities are also characterized by self-sufficiency, and reduced automobile travel between residential, commercial, recreation and employment areas.

Policy

4.1.1 Master Plans for all large new development areas of the City should contribute to the formation of subcommunities. In areas within the City which are partially or fully developed, development and capital improvements which contribute to the formation or completion of a subcommunity should be encouraged.

Goal

4.2 Plan commercial and industrial areas to serve neighborhood, regional and business needs.

Policies

4.2.1 Commercial uses designed to serve a neighborhood shall be conveniently located within the area to be served.

4.2.2 Zoning should permit a limited number of areas for lower cost commercial and industrial sites.

4.2.3 Commercial cluster developments that incorporate unified site and circulation planning shall be encouraged. Strip commercial development along arterial streets shall be discouraged.

4.2.4 Large industrial and employment centers should be located convenient to residential areas.

4.2.5 The City's land use planning, development review and land use decisions should place major emphasis on the consideration of physical elements. Land use supply and demand, the economic feasibility of development and individual financial circumstances should not be considered.

INTERPRETATION OF 4.2.5

For purposes of this policy, "physical elements" are intended to include land use, buildings, streets, traffic, public facilities, housing conditions, the natural environment, public health and safety and the interrelationships of all the above.

This policy is intended to apply equally to proponents, opponents and decision makers in the planning and development review process. For example, neither a need for a commercial facility in a neighborhood nor an excess supply of commercial zoning in the vicinity should be considered in a request for a commercial zone. Similarly, the economics of a particular property or its owner should not be considered in reviewing a land use action. This policy is intended to apply to master plans, zoning and variances. Also, the Comprehensive Plan policy on rezoning (5.1.3) should place major emphasis on those physical elements which may constitute community or neighborhood benefits and adverse impacts. The review of annexation requests and their associated fiscal impacts and redevelopment plans may, however, consider community-wide economic elements.

PART 5

5.0 LAND DEVELOPMENT REGULATIONS

Goal

5.1 Assure that the City's land development regulations provide for efficiency, compatibility, compliance, variety, flexibility and innovation.

Definitions

5.1.D1 A MASTER PLAN is a plan which contains a generalized map of proposed land uses, transportation systems, drainage systems, and open spaces for the development or redevelopment of a portion of the City. A master plan shows the general relationship of proposed uses and streets to each other and to surrounding properties. The maximum proposed density or intensity of development should be done at the master plan stage. Master plans are prepared by the private sector in preparation for development or by the City in developed areas as a framework for additional improvements or redevelopment. A master plan is adopted by City Council after public hearings by the Planning Commission and by City Council. Minor master plan amendments may be approved by the Planning

Director; major master plan amendments must be approved by City Council upon a recommendation by the Planning Commission.

5.1.D2 PERFORMANCE STANDARDS are a flexible method of regulating development. Performance standards are related to the levels of effects of development. The means of development are flexible and are determined by developers and public administrators. Performance standards set the upper limits on those measurable effects of development such as noise level and water and air pollution.

Policies

5.1.1 Master plans shall be required for all new development areas. In all new areas that have been master-planned, zoning on a building site must conform with an approved master plan before construction can begin.

5.1.2 In developed areas, master plans should be prepared, where appropriate, by the City with the assistance of residents and property owners. The actual use of land and the existing zoning should be considered in the preparation of master plans for fully developed areas.

5.1.3 Zoning changes may only be granted when it can be demonstrated that rezoning will result in a community or neighborhood benefit which will outweigh any potential adverse impacts upon surrounding properties. Conformance with the policies of the Comprehensive Plan and other adopted plans may be used as a basis for demonstrating community or neighborhood benefit.

5.1.4 Performance standards should be incorporated, where appropriate, into land development regulations and criteria.

5.1.5 Amendments to approved master plans may only be granted when it can be demonstrated that the amendment will result in a community or neighborhood benefit which will outweigh any potential adverse impacts.

5.1.6 No residential land uses shall be approved in areas of high noise levels resulting from flight activities associated with the operation of the Municipal Airport. These areas are designated on a noise contour map in the airport facilities master plan.

PART 6

6.0 HOUSING

Goal

6.1 Encourage a diversity of housing types, densities and locations in order to provide a sufficient supply and choice of housing at varied price and rent levels to meet the needs of the entire community, including low and moderate income families.

6.1.D1 Subsidized units are those which are offered for sale or rent clearly below market rate.

Policies

6.1.1 The land development regulations affecting housing shall accommodate the need for a sufficient supply and choice of housing at varied price and rent levels while maintaining public safety.

6.1.2 Lower income families and individuals shall have first priority for eligibility in all housing assistance programs.

6.1.3 The Housing Authority's rental units and other subsidized housing developments for families shall be dispersed in the following manner:

a. A maximum of approximately 20 family units per site for new construction.

b. A maximum of 2 family units per block face in existing neighborhoods.

6.1.4 Lower interest rehabilitation loans shall be targeted to lower income families in designated areas.

6.1.5 Multi-family housing developments financed by tax exempt bonds allowing below market interest rates for construction shall provide subsidized units not to exceed 30% of the total number of units in the development.

PART 7

7.0 NEIGHBORHOODS

Goal

7.1 Develop and preserve the unique character of the City's established and developing neighborhoods.

Definition

7.1.D NEIGHBORHOOD STRATEGY AREAS are those neighborhoods which have been designated by the City to receive local, State or Federal funds for the purpose of upgrading the physical and economic conditions in the area.

Policies

7.1.1 New neighborhoods should be uniquely identifiable through the use of focal points, open spaces, preservation of significant natural features and the compatible location and design of mixed uses.

7.1.2 Housing and neighborhood preservation and rehabilitation shall be given first consideration in the selection of City-sponsored programs in neighborhood strategy areas. The City may utilize clearance and redevelopment activities only when rehabilitation is not feasible or in situations of compelling public purpose.

7.1.3 Systematic code enforcement programs should supplement existing enforcement programs as an additional method of neighborhood preservation.

7.1.4 The City should support and participate in the Neighborhood Watch Program.

PART 8

8.0 TRANSPORTATION

Assumption. The private automobile will continue to be the primary means of transportation in the City. Other means of transportation will have increasing importance in the transportation system.

Goal

8.1 Establish a safe and efficient transportation system.

Policies

8.1.1 Access points along major arterials shall be limited and designed to facilitate the safe and efficient movement of traffic.

8.1.2 All new arterial streets shall be designed to accommodate buses.

8.1.3 New at-grade major arterial crossings of main rail lines should be prohibited.

8.1.4 The bicycle routes and lanes that are designated in the Bikeway Master Plan should be implemented.

8.1.5 The movement of traffic to and from downtown should be a prime consideration in the planning and design of arterial streets, traffic control devices, bicycle lanes and mass transit routes.

8.1.6 Public-private financing for the construction of additional parking spaces should be considered in those areas where there are overall shortages of off-street parking.

8.1.7 The City should rely as much as possible on user fee financing for its transportation system. Public transportation, however, is an essential public service and should be partially supported by general public funding as well as by user fees.

Goal

8.2 Separate neighborhood uses and circulation from traffic generated from outside residential areas.

Definition

8.2.D ARTERIAL STREETS carry a high volume of traffic in a rapid and unimpeded manner. The major function of arterial streets is to carry through-traffic between major land use elements and activity centers within the City; the secondary function is to service adjoining properties. The design elements that are associated with arterial streets include controlled intersections, limited access to adjoining property, provision for public transportation and restricted parking.

Policies

8.2.1 New arterial streets should not be constructed within established neighborhoods.

8.2.2 The impact of industrial traffic in residential areas should be minimized.

8.2.3 Residential lots shall not be permitted to access directly on to the arterial streets which may border new neighborhood areas.

8.2.4 New residential development shall be buffered, set back or screened from arterial streets bordering new neighborhood areas.

PART 9

9.0 ENVIRONMENT

Goal

9.1 Preserve and enhance drainageways as amenities to the City.

Policies

9.1.1 The review of master plans and drainage plans for new development areas should consider the effect of soil disturbance and grading on air quality and soil erosion.

9.1.2 The Master Drainage Basin Plan shall establish the method of drainage treatment for each drainage basin in accordance with City drainage policies and standards. All affected master development plans and subsequent zoning development plans and subdivision plats shall indicate conformance to the specified method of drainage treatment for each drainage basin. Any proposed change to the specified form of drainage treatment must be justified through a revised Master Drainage Basin Plan and an amendment to the master plan for development.

9.1.3 A comprehensive system of retention and/or detention of excess storm water should be utilized for flood control, to preserve streams and drainageways in their natural state and to minimize channelization.

9.1.4 Channelization or similar modifications to watercourses shall be considered for reasons of public safety or to avoid possible excessive costs of maintaining streams and drainageways in their natural state. Drainageways not left in a natural condition should be attractively designed to include one or more of the following features:

- a) Landscaping
- b) Trails
- c) Drop structures with low water crossings
- d) Recreational uses
- e) Modified natural condition

Assumption

Motor vehicles are recognized as the principal source of air pollution. Therefore, policies should be directed toward improved traffic efficiency, reduced distance traveled, reduced emissions, and alternate means of transportation.

9.1.5 The construction of drainage facilities should be financed by the developments which create the need for drainage facilities.

9.1.6 Mineral extraction shall be regulated in the City.

9.1.7 Development in suspected natural hazard areas should be carefully reviewed. Land suitability studies may be required prior to the approval of development in these areas in order to avoid potential hazards.

9.1.8 The discharge of untreated domestic and industrial wastes into streams shall be prohibited.

9.1.9 The City shall continue a noise abatement program.

9.1.10 The City shall be a leader to preserve clean air in the Pikes Peak metro region and shall continue to (a) review regional air quality levels, (b) to support periodic and comprehensive air quality planning efforts to obtain and maintain Federal and State air quality standards, and (c) to support State and Federal legislation designed to control emissions from motor vehicles.

Goal

9.2 Preserve, enhance and promote the significant features of the City's natural environment.

Definition

9.2.D SIGNIFICANT NATURAL FEATURES include those ridgelines, bluffs, rock outcroppings, view corridors, foothills, mountain backdrop, unique vegetation, floodplains, streams, surface water, natural drainageways and wildlife habitats which contribute to the attractiveness of the community.

Policies

9.2.1 In areas where both controlled development and preservation are possible, significant natural features shall remain in private ownership and shall be protected as part of a development plan review. Land suitability studies shall be required prior to the approval of development in these areas.

In areas where significant natural features can only be protected by prohibiting development, other methods for preservation may be utilized, such as outright purchase, open space credits, donations or preservation easements.

Goal

9.3 Preserve, enhance and promote the significant historic and architectural features of the City.

Policies

9.3.1 Designated historic or architecturally significant structures shall be eligible for any available City historic preservation programs.

9.3.2 Designated historic or architecturally significant structures shall be subject to a limited review period prior to any proposed demolition or substantial renovation in order for the City and the property owner to jointly explore alternatives to demolition or substantial renovation.

Goal

9.4 Maintain and improve air quality in the Colorado Springs region.

9.4.1 The City's air quality monitoring, analysis and control systems should be continuously and sufficiently funded.

9.4.2 The effect of traffic movement on air quality should be considered in the City's transportation planning and must be a consideration in the City's Traffic Engineering.

9.4.3 Capital projects which contribute to the improvement of regional air quality should receive a high priority for funding by the City.

9.4.4 The City shall continue to support State and Federal Legislation designed to control emissions from motor vehicles.

9.4.5 The City shall actively pursue programs for the paving of streets, alleys and parking areas.

Goal

9.5 Design public and private facilities to enhance the City's natural setting.

9.5.1 The City should set an example for excellent design in its construction of public buildings and facilities.

9.5.2 The private sector should be encouraged

to consider good urban design for new construction, maintenance, rehabilitation and preservation of buildings.

9.5.3 Signs, drainage facilities and landscaping elements should be designed to complement the City's natural environment.

PART 10

10.0 PARKS

Goal

10.1 Provide a balanced system of conveniently located parks and leisure activities for all citizens and visitors to the City.

Definitions

10.1.D1 NEIGHBORHOOD PARKS are generally within walking distance of the neighborhood being served. Neighborhood parks are a minimum of 5 acres and are oriented to all age groups and a variety of uses. They are often combined with an elementary school for the sharing of playground facilities.

10.1.D2 COMMUNITY PARKS are generally 25 to 100 acres and are intended to serve a large section of the City. Features included in a community park may include playgrounds, athletic fields, swimming pools, tennis courts, picnic areas, community recreation building and special features.

10.1.D3 REGIONAL PARKS serve the entire metropolitan area and should be at least 200 acres. Regional parks usually include a major feature that is unique to the region as well as other facilities found in other park types.

10.1.D4 ACTIVE park use refers to organized sports activities such as softball, football and soccer. Active use may also include swimming, tennis and jogging. PASSIVE recreational uses include a wide range of activities such as picnicking, hiking, the viewing of natural features, the visual and performing arts and sports activities spectating.

10.1.D5 PARK DEDICATION is the contribution of land, or fees in lieu of land, which is required of all residential developments for the purpose of providing parks in the City. The amount of land or fees provided are based upon the park needs generated by the proposed residential use.

Policies

10.1.1 Adequate maintenance of parks and recreational facilities shall continue to receive first consideration for Parks Department funding but should not exclude funding for the acquisition and development of parks and open space.

10.1.2 Park and open space acquisition and park development should be funded at a level necessary to keep pace with the City's growth. In the event that funding is not sufficient for both the needed acquisition and development, first consideration should be given to funding for acquisition.

10.1.3 In order to achieve a balanced park system, community and neighborhood parks should have equal priority. Any imbalance or greater deficiency in one park type should be corrected by temporarily placing a higher priority for funding the park type with the greatest deficiency.

10.1.4 If the acquisition of needed trail corridors cannot be achieved by other means, the first consideration for parkland dedication in new development areas shall be for trail corridors, where applicable, in accordance with the Multi-Use Trails Master Plan. The second consideration for dedication shall be for parkland. Third consideration for dedication shall be for park fees in cases where parkland dedication for trails, neighborhood or community parks is not appropriate.

10.1.5 The developed areas of the City which have the greatest deficiency in parks shall have a higher priority for park acquisition and development funds than the newer areas which are not fully developed.

10.1.6 The active and passive uses of parks should both receive equal consideration in the acquisition, development and design of parkland.

10.1.7 Credit towards parkland dedication requirements should be granted to private developments which permanently provide one or more of the following needed parks, open space or facilities:

- A. Neighborhood, community or regional parkland.
- B. Trail corridors.
- C. Park and facilities development.

D. Preservation of significant natural features.

10.1.8 All new park and open space shall be designated in an approved master plan. Any changes to park designations and locations must be reviewed as a part of a master plan amendment.

10.1.9 Recreational programs should be developed and offered primarily on a self-sustaining basis.

10.1.10 Park and recreational facilities should be jointly funded and utilized, where appropriate, by the City and local school districts or other public and private entities.

PART 11

11.0 ECONOMIC DEVELOPMENT

Goal

11.1 Diversify the City's economic base by attracting and retaining a wide range of businesses and industries which are compatible with the community's natural and human resources.

Policies

11.1.1 The City should continue to support efforts to attract and retain those businesses and industries which:

- a. Have minimal adverse environmental and resource impact, and
- b. Contribute to the diversification of the economic base, or
- c. Significantly contribute to the local tax base, or
- d. Utilize and train the existing employment base, or
- e. Are national or regional corporate headquarters.

11.1.2 All new and existing businesses and industries shall comply with any applicable environmental protection standards and code requirements; waivers or variances to such local codes and ordinances shall not be used as incentives or conditions to attract or retain businesses and industries in the City.

PART 12

12.0 DOWNTOWN

Goal

- 12.1 Maintain and promote Downtown Colorado Springs as a unique business, government and cultural center.

Policies

- 12.1.1 Public and private development strategies should be used, if necessary, to encourage and enable the development of area-wide amenities and residential, office, retail and cultural uses in the Downtown area.
- 12.1.2 Special zoning and development regulations should apply to the Downtown area in recognition of the unique problems and assets of Downtown.
- 12.1.3 High intensity uses will be encouraged in the Downtown area.
- 12.1.4 The design of structures, streets and exteriors walkways at the street level in the Downtown area should include features which invite pedestrian use.

PART 13

13.0 UTILITIES

Goal

- 13.1 Provide City utilities in an efficient and equitable manner consistent with the City's policies for growth and development.

Policies

- 13.1.1 The City shall continue to aggressively seek new and reliable water resources to accommodate the City's future growth and development.
- 13.1.2 Major water and wastewater line extensions should follow a logical and cost effective pattern.
- 13.1.3 Water service shall continue to be provided on a first-come, first-served basis to the extent of the City's available water supply.
- 13.1.4 The provision of water service to any customer is a perpetual guarantee of water service except under emergency conditions. Extension of water service shall be governed under the rule of first-come, first-served. The banking of water supply

for the purpose of extending water service to new customers or expanding water service to existing customers is not a viable solution.

- 13.1.5 The users in a development area shall, in general, pay for the water and wastewater facilities necessary to provide service to the development. In areas where extraordinary utilities operation and maintenance result from development, the users in those areas shall also pay for any additional costs.

- 13.1.6 The City shall provide electric and gas service consistent with law.

Goal

- 13.2 Support local energy and resource conservation through the City's development regulations, utility administration and departmental practices.

PART 14

14.0 GOVERNMENT SERVICES

Goal

- 14.1 Provide efficient municipal services in order to respond to the short and long range needs of the community.

Definition

- 14.1.D Municipal government services are those services which are provided for the protection of the public health, safety and welfare.

Policies

- 14.1.1 The level of municipal services necessary to protect the public health, safety and welfare may not be the same throughout the City.
- 14.1.2 Municipal services may be paid for through general taxes, user pay charges or a combination of both.
- 14.1.3 Services available and/or provided to a limited population of the City should be paid for by the recipients of those services.
- 14.1.4 The City shall utilize the resources of the private sector for certain government services when the private sector can provide more economic and effective services than City government.
- 14.1.5 The City should place a high priority on those programs and projects which

generate and attract private sector employment, improvements or investments that are consistent with policies of the Comprehensive Plan.

14.1.6 The routine maintenance of the City's infrastructure must be sufficiently funded on a continuous basis.

14.1.7 A multi-year budget forecast shall be utilized by the City.

Goal

14.2 Provide more efficient local government services through City-County coordination.

PART 15

15.0 CAPITAL IMPROVEMENTS

Goal

15.1 Meet the physical improvement needs of the City.

Definition

15.1.D CAPITAL IMPROVEMENTS are publicly owned physical improvements to the City. There are generally three (3) areas of capital improvements:

- a. Reconstruction, major maintenance or upgrading of existing facilities, including projects required for public safety.
- b. New projects in developed areas where the demand already exists but the project has previously been deferred.
- c. Expansion projects in partially developed or developing areas where demand is anticipated as a result of, or in preparation for, future growth.

Policies

15.1.1 The City's capital improvements program should be sufficiently and continuously funded to provide the physical improvements required for the maintenance and development of the City's infrastructure.

15.1.2 The City's capital improvements should be programmed and prioritized to be consistent with the Comprehensive Plan. The City's capital improvement funding priorities should be:

- a. The first priority for capital improvements shall be for urgent projects which cannot reasonably be postponed including, but not limited to, those maintenance, upgrading or new construction projects which are needed to protect public safety.
- b. The second priority for capital improvements should be for reconstruction, major maintenance or expansion of the City's existing infrastructure in order to provide for the basic service to the existing community. The City should avoid deferring necessary maintenance in favor of new capital projects except for reasons of public safety and other urgent projects.
- c. The third priority for capital improvements should be for those new projects where the demand for basic service already exists.
- d. The fourth priority for capital improvements should be projects which conform to other City policies, such as infill and downtown policies.
- e. The fifth priority for capital improvements are for those expansion projects in partially developed or developing areas where demand is anticipated as a result of, or in preparation for, future growth.

15.1.3 In each of the categories of capital improvement funding priorities listed above, capital improvements in the City's deteriorating areas should be considered important in the funding of capital improvement projects. (Ord. 83-262; Ord. 86-6)

*CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT***ARTICLE 5 CONVEYANCE OF LAND****SECTION:**

15-5-101: Payment of Taxes Required

15-5-102: Acceptance by City Council

15-5-101: PAYMENT OF TAXES REQUIRED:

Except as hereinafter set forth, no deed, dedication or conveyance of land or any interest in land to the City shall be effective unless all taxes owing on such land or interest thereon are paid by the grantor to the date of conveyance. The grantor may tender to the City a prorata share of the current taxes to the date of conveyance based upon the total taxes payable in the year of conveyance at the time of tendering the deed or conveyance. In its discretion, the City Council may expressly waive payment of taxes by the grantor in the event of:

- A. A negotiated purchase of the land in which payment of all current taxes by the City is a consideration of the purchase; or
- B. Where the deed or conveyance is a true gift to the City and not in payment of or in lieu of any required fee or obligation owing to the City. (Ord. 76-37; 1968 Code § 10-175)

15-5-102: ACCEPTANCE BY CITY COUNCIL:

No deed, dedication or conveyance of land or any interest in land to the City for any purpose shall be effective except upon acceptance thereof by the City Council expressed in a formal resolution adopted at a regular or special meeting; provided, however, that in the case of a utility easement for the sole benefit of the land burdened by the easement or for street lighting purposes, acceptance shall be presumed and need not be formally expressed. (Ord. 76-50; 1968 Code § 10-176)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 6 FLOOD PLAIN MANAGEMENT

PART 1 GENERAL PROVISIONS

SECTION:

- 15-6-101: Constitutional Authorization
- 15-6-102: Legislative Declaration
- 15-6-103: Statement of Purpose
- 15-6-104: Methods of Reducing Flood Losses

15-6-101: CONSTITUTIONAL AUTHORIZATION:

Article XX of the Colorado Constitution has delegated the responsibility to home rule cities to adopt regulations and ordinances designed to promote the public health, safety, and general welfare of its citizenry. (Ord. 86-203)

15-6-102: LEGISLATIVE DECLARATION:

- A. The flood hazard areas of the City of Colorado Springs are subject to periodic inundation which has resulted in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
- B. These flood losses are caused by the cumulative effect of obstruction in areas of flood hazards which increase flood heights and velocities, and cause damage to land uses in nonflood areas. Land uses that are inadequately flood-proofed, elevated or otherwise protected from flood damage also contribute to flood loss.
- C. It is in the interest of the public health, safety and welfare to designate a flood plain management program which provides for the protection of identified floodways as well as flood fringe areas, all of which have been established through the base flood elevation maps which have been submitted to the City of Colorado Springs by FEMA. (Ord. 86-203)

15-6-103: **STATEMENT OF PURPOSE:** It is the purpose of this Article to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions to specific areas by provisions designed:

- A. To protect human life and health;
- B. To minimize expenditure of public money for costly flood control projects;
- C. To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- D. To minimize prolonged business interruptions;
- E. To minimize damage to public facilities and utilities, and streets and bridges located in areas of flood hazard;
- F. To help maintain a stable tax base by providing for the use and development of areas of flood hazard so as to minimize future flood blight areas;
- G. To ensure that potential buyers are notified that property is in an area of flood hazard; and,
- H. To ensure that those who occupy the areas of flood hazards assume responsibility for their actions. (Ord. 86-203)

15-6-104: **METHODS OF REDUCING FLOOD LOSSES:** In order to accomplish its purposes, this Article includes methods and provisions for:

- A. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;

- B. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- C. Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- D. Controlling filling, grading, dredging, and other development which may increase flood damage;
- E. Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas; and
- F. Prohibiting any development within identified regulatory floodways if any increase in flood levels during the base flood discharge would result due to the development; and
- G. Allowing development in the flood fringe area only if:
 - 1. All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to one foot (1') or more above the base flood level; and
 - 2. All new construction and substantial improvements of nonresidential structures have the lowest floor (including basement) elevated or floodproofed one foot (1') or more above the base flood level, unless a variance is granted therefor pursuant to Section 15-6-404. (Ord. 86-203)

CHAPTER 15 ANNEXATION, SUBDIVISION AND LAND DEVELOPMENT

ARTICLE 6 FLOOD PLAIN MANAGEMENT

PART 2 DEFINITIONS

SECTION:

15-6-201: Definitions

15-6-201: DEFINITIONS: Unless specifically defined below, words or phrases used in this Article shall be interpreted so as to give them the meaning they have in common usage and to give this Article its most reasonable application.

APPEAL means a request for a review of the Flood Plain Administrator's interpretation of any provisions of this Article or a request for a variance, or for a review of the Drainage Board's interpretation of any of the provisions of this Article or a request for a variance.

AREA OF SPECIAL FLOOD HAZARD means the land in the flood plain within a community subject to a one percent (1%) or greater chance of flooding in any given year.

BASE FLOOD means the flood having a one percent (1%) chance of being equalled in any given year.

CRITICAL FEATURE means an integral and readily identifiable part of a flood protection system, without which the flood protection provided by the entire system would be comprised.

DEVELOPMENT means any man-made change to improved or unimproved real estate, including but not limited to building or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations located within the area of flood hazard.

FLOOD or FLOODING means a general and temporary condition of partial or complete inundation of normally dry land areas from the unusual and rapid accumulation or runoff of surface waters from any source.

FLOOD FRINGE AREA means all areas encompassed within the base flood plain, other than the floodway.

FLOOD INSURANCE RATE MAP (FIRM) means the official map on which the Federal Emergency Management Agency has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

FLOOD INSURANCE STUDY means the official report provided by the Federal Emergency Management Agency that includes flood profiles, the flood boundary-floodway map, and the water surface elevation of the base flood.

LEVEE means a man-made structure, usually an earthen embankment, designed and constructed to contain, control, or divert the flow of water to provide protection from flooding.

LEVEE SYSTEM means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices.

MANUFACTURED HOME means a structure that is transportable in one or more sections, built on a permanent chassis, and designed to be used with or without a permanent foundation when connected to the required utilities. For purposes of this regulation, manufactured home also includes recreational vehicles or travel trailers placed on a site for more than one hundred eighty (180) days.

MANUFACTURED HOME PARK OR SUBDIVISION means a parcel of land divided into two (2) or more manufactured home lots for rent or sale.

NEW CONSTRUCTION means structures for which the "start of construction" commences on or after the effective date of this Article.

REGULATORY FLOODWAY means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without any increase in the base flood elevation.

START OF CONSTRUCTION means the first placement of permanent construction of a structure on a

site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation. For a structure without a basement or poured footings, the "start of construction" includes the first permanent framing or assembly of a structure or any part thereof on its piling or foundation. For manufactured homes "start of construction" means the affixing of the manufactured home to its permanent site.

STRUCTURE means a walled and roofed building or manufactured home that is principally above the ground.

SUBSTANTIAL IMPROVEMENT means any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds fifty percent (50%) of the market value of the structure either:

- A. Before the improvement or repair is started, or
- B. If the structure has been damaged and is being restored, before the damage occurred. For the purpose of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure.

The term does not, however, include either:

- A. Any project for improvement of a structure to comply with existing State or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or
- B. Any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

VARIANCE, subject to the limitations of Sections 15-6-404 and 15-6-503, means a grant of relief from the requirements of this Article which permits construction in a manner that would otherwise be prohibited by this Article. (Ord. 86-203)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 6 FLOOD PLAIN MANAGEMENT

PART 3 APPLICABILITY AND REGULATIONS

SECTION:

15-6-301: Lands to Which This Article Applies

15-6-302: Basis for Establishing the Areas of Flood Hazard

15-6-303: Compliance

15-6-304: Abrogation and Greater Restrictions

15-6-305: Interpretation

15-6-306: Warning and Disclaimer of Liability

A. Considered as minimum requirements;

B. Liberally construed in favor of the governing body; and

C. Deemed neither to limit nor repeal any other powers granted under State statutes. (Ord. 86-203)

15-6-301: LANDS TO WHICH THIS ARTICLE APPLIES: This Article shall apply to all areas of flood hazards within the jurisdiction of the City of Colorado Springs which are identified in Section 15-6-302. (Ord. 86-203)

15-6-302: BASIS FOR ESTABLISHING THE AREAS OF FLOOD HAZARD: The areas of flood hazard identified in FEMA for the City of Colorado Springs dated December 18, 1986, as amended, are hereby adopted by reference and declared to be a part of this Article. (Ord. 86-203)

15-6-303: COMPLIANCE: No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of this Article and other applicable regulations.

15-6-304: ABROGATION AND GREATER RESTRICTIONS: This Article is not intended to repeal, abrogate, or impair any existing easement, covenants, or deed restrictions. However, where this Article and other ordinances, easement, covenant, or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail. (Ord. 86-203)

15-6-305: INTERPRETATION: In the interpretation and application of this Article, all provisions shall be:

15-6-306: WARNING AND DISCLAIMER OF LIABILITY: The degree of flood protection required by this Article is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This Article does not imply that land outside the areas of flood hazards or uses permitted within such areas will be free from flooding or flood damages. This Article shall not create liability on the part of the City of Colorado Springs, any officer or employee thereof, or the Federal Emergency Management Agency, for any flood damages that result from reliance on this Article or any administrative decision lawfully made thereunder. (Ord. 86-203)

CHAPTER 15 ANNEXATION, SUBDIVISIONS AND LAND DEVELOPMENT

ARTICLE 6 FLOOD PLAIN MANAGEMENT

PART 4 ADMINISTRATION

SECTION:

15-6-401: Establishment of Development Permit

15-6-402: Designation of the Flood Plain
Administrator

15-6-403: Duties and Responsibilities of the Flood
Plain Administrator

15-6-404: Appeal and Variance Procedure

15-6-401: **ESTABLISHMENT OF DEVELOPMENT**

PERMIT: Subject to the provisions of this Article 6, a development permit will be obtained before construction or development begins within any area of flood hazard established in Section 15-6-302. This permit shall expire at the end of twelve (12) months from the date of issuance, if start of construction has not taken place. An application for a development permit shall be furnished to the Flood Plain Administrator and shall include, but not be limited to:

A. Plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of the foregoing.

B. Specifically, the following information is also required.

1. Elevation in relation to mean sea level of the lowest floor (including basement) of all structures;

2. Elevation in relation to mean sea level to which any structure has been floodproofed;

3. Certification by a registered professional engineer or architect that the floodproofing methods for any nonresidential structure meet the floodproofing criteria in Section 15-6-502B; and

4. Description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

C. If the proposed development activity is located within an identified regulatory floodway, a certification by a Colorado registered professional engineer that the proposed development will result in no rise in the base flood elevation. (Ord. 86-203)

15-6-402: **DESIGNATION OF THE FLOOD PLAIN**

ADMINISTRATOR: There is hereby created a Flood Plain Administrator position to administer and implement this Article by granting or denying development permit applications in accordance with its provisions. (Ord. 86-203)

15-6-403: **DUTIES AND RESPONSIBILITIES OF THE FLOOD PLAIN ADMINISTRATOR:**

Duties of the Flood Plain Administrator shall include, but not be limited to:

A. Permit Review.

1. Review all development permits to determine that the permit requirements of this Article have been satisfied.

2. Review all development permits to determine that all necessary permits have been obtained from Federal, State, local governmental agencies from which prior approval is required.

3. Review all development permits to determine if the proposed development is located in the Floodway. If located in the Floodway, assure that the provisions of Sections 15-6-503 and 15-6-404 are not violated.

B. Use of Other Base Flood Data. When base flood elevation data has not been provided in accordance with Section 15-6-302, the Flood Plain Administrator shall obtain, review, and reasonably utilize any base flood elevation data available from a Federal, State, or other source, in order to administer Sections 15-6-502A and 15-6-502B.

C. Information to be Obtained and Maintained.

1. Obtain and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures.

2. For all new or substantially improved flood-proofed structures:

a. Verify and record the actual elevation (in relation to mean sea level), and

b. Maintain the floodproofing certifications required in Section 15-6-401B3.

3. Maintain for public inspection all records pertaining to the provisions of this Article.

D. Alteration of Watercourses.

1. Notify adjacent and downstream communities, the Colorado Water Conservation Board, and FEMA Regional Office prior to any alteration or relocation of a watercourse, and submit evidence of such notification to said entities.

2. Require that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished.

E. Interpretation of Base Flood Elevation Boundaries. Make interpretations, where needed, as to the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretations as provided in Section 15-6-404.

F. Rules and Regulations. The Flood Plain Administrator is empowered to make such rules and regulations and to establish such criteria and methodologies as are necessary and consistent with the requirements for sound flood plain management pursuant to the guidelines and regulations promulgated by FEMA. (Ord. 86-203)

A. Appeal Board.

1. The Drainage Board, as established by the City of Colorado Springs, shall hear and decide appeals and applications for variances from the requirements of this Article.

2. The Drainage Board shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Flood Plain Administrator in the enforcement or administration of this Article.

3. Those aggrieved by the decision of the Drainage Board may appeal such decisions to the City Council of the City of Colorado Springs, provided that a Notice of Appeal, stating the grounds therefor, is filed with the City Clerk within six (6) days from the date of the decision of the Drainage Board. The City Clerk, upon receiving a perfected appeal, shall certify the record to the Colorado Springs City Council, and the matter shall be set for public hearing not later than ten (10) days after the certification of the record to the City Council. The review of the City Council on appeal shall be limited to the determination as to whether there is substantial evidence in the record to support the decision of the Drainage Board. If there is substantial evidence in the record to support the decision of the Drainage Board, then the decision must be affirmed. The decision of the City Council, unless the matter is remanded back to the Drainage Board, shall be considered final agency action for all purposes under Colorado law.

4. In passing upon such applications and appeals, the Drainage Board shall consider all technical evaluations, all relevant factors, standards specified in other sections of this Article, and:

a. The danger that materials may be swept onto other lands to the injury of others;

b. The danger to life and property due to flooding or erosion damage;

c. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

d. The importance of the services provided by the proposed facility to the community;

e. The availability of alternative locations, for the proposed use which are not subject to flooding or erosion damage;

15-6-404: APPEAL AND VARIANCE PROCEDURE:

A4) f. The compatibility of the proposed use with the existing and anticipated development;

g. The relationship of the proposed use to the comprehensive plan and flood plain management program for that area;

h. The safety of access to the property in times of flood for ordinary and emergency vehicles;

i. The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and,

j. The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets, and bridges.

5. Upon consideration of the factors of Section 15-6-404A4 and the purposes of this Article, the Drainage Board of City Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of the Article.

6. The Flood Plain Administrator shall maintain the records of all appeal actions and report any variances to FEMA upon request.

B. Conditions for Variances.

1. In acknowledging that the FEMA Administrator, pursuant to 44 CFR §60.6(a), may review a community's findings justifying the granting of variances, and if that review indicates a pattern inconsistent with the objectives of sound flood plain management, the Administrator may suspend the communities' Flood Insurance Program under 44 CFR §59.24(b), the following criteria must be met with respect to whether a variance to the requirements of this Chapter 15, Article 6 may be granted:

a. Variances shall not be issued within any identified regulatory floodway if any increase in flood levels during the base flood discharge would result.

b. Variances in the flood fringe area shall only be issued upon:

B1b) 1. A showing of good and sufficient cause;

2. A determination that failure to grant the variance would result in exceptional hardship to the applicant; and

3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with any other existing local laws or ordinances.

4. That the variance is the minimum necessary alternative, considering the flood hazard, to afford relief.

5. Consideration of the factors set forth in Section 15-6-404A4a—j.

2. a. In the event that a variance is granted, the Flood Plain Administrator shall maintain a record of all variance actions, including justification for their issuance, and report such variances annually to the FEMA Administrator.

b. Any applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with a lowest floor elevation below base flood elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation. (Ord. 86-203)

CHAPTER 15 ANNEXATION, SUBDIVISION AND LAND DEVELOPMENT

ARTICLE 6 FLOOD PLAIN MANAGEMENT

PART 5 PROVISIONS FOR FLOOD HAZARD REDUCTION

SECTION:

15-6-501: General Standards
 15-6-502: Specific Standards
 15-6-503: Floodways
 15-6-504: Flood Fringe Area

15-6-501: **GENERAL STANDARDS:** In all areas of flood hazards the following standards are required:

A. Anchoring.

1. All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.

B. Construction Materials and Methods.

1. All new construction and substantial improvement shall be constructed with materials and utility equipment resistant to flood damage.

2. All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.

3. Electrical, heating, ventilation, plumbing, and air-conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

4. For all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following criteria:

B4) A minimum of two (2) openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot (1') above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

C. Utilities.

1. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system;

2. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharge from the systems into flood waters; and,

3. Onsite waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

D. Subdivision Proposals.

1. All subdivision proposals shall be consistent with the need to minimize flood damage;

2. All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage;

3. All subdivision proposals shall have adequate drainage provided to reduce exposure to flood damage; and,

4. Base flood elevation data shall be provided for subdivision proposals and other proposed development which contain at least fifty (50) lots or five (5) acres (whichever is less). (Ord. 86-203)

15-6-502: SPECIFIC STANDARDS: Except as otherwise provided with respect to identified regulatory floodways, in all areas of flood hazards where base flood elevation data has been provided as set forth in Sections 15-6-302 or 15-6-403B, the following provisions are required:

- A. **Residential Construction.** New construction and substantial improvement of any residential structure shall have the lowest floor, including basement, elevated to one foot (1') or more above the base flood elevation.
- B. **Nonresidential Construction.** New construction and substantial improvement of any commercial, industrial or other nonresidential structure shall either have the lowest floor, including basement, elevated to one foot (1') or more above the level of the base flood elevation; or, together with attendant utility and sanitary facilities, shall:
 - 1. Be floodproofed so that below a point one foot (1') above the base flood level the structure is watertight with walls substantially impermeable to the passage of water;
 - 2. Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and
 - 3. Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certifications shall be provided to the official as set forth in Section 15-6-403C2. (Ord. 86-203)

15-6-503: FLOODWAYS: Located within areas of flood hazard established in Section 15-6-302 are areas identified as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles, and erosion potential, the following provisions apply:

- A. Prohibit development, including fill, new construction, substantial improvements, and other development unless certification by a registered professional engineer is provided demonstrating that the development shall not result in any increase in flood levels during the occurrence of the base flood discharge.
- B. If Section 15-6-503A is satisfied, all new con-

- B) struction and substantial improvements shall comply with all applicable flood hazard reduction provisions of Part 5.
- C. Whenever a registered professional engineer has certified to the Flood Plain Administrator that a development in the identified regulatory floodway will not result in an increase in the base flood level, then said development activities shall be in accordance with the requirements of Section 15-6-504, and any other applicable requirements of this Part 5. (Ord. 86-203)

15-6-504: FLOOD FRINGE AREAS: Located within areas of flood hazard established in Section 15-6-302 are areas identified as flood fringe areas. Since flood fringe areas are important to flood plain management for the reason that they provide natural storage of flood waters, control drainage patterns, and are an integral part of the flood plain system, the following provisions, in addition to any other applicable requirements of this Part 5, shall apply:

- A. Provide that all new construction and substantial improvements are elevated on adequately anchored pilings or columns, and securely anchored to such piles or columns so that the lowest portion of the structural members of the lowest floor (excluding the pilings or columns) is elevated to one foot (1') or more above the base flood level;
- B. That a Colorado registered professional engineer certifies that the structure is securely anchored to adequately anchored pilings or columns in order to withstand velocity of flood waters;
- C. Provide that all new construction and substantial improvements have the space below the lowest floor free of obstructions or to be constructed with "breakway walls" intended to collapse under stress without jeopardizing the structural support of the structure so that the impact on the structure is minimized. Such temporary enclosed space shall not be used for human habitation;
- D. Prohibit the use of fill for structural support of buildings;
- E. Prohibit all new construction and substantial improvements of residential structures unless the lowest floor (including basement) is elevated one

- E. foot (1') or more above the base flood level;
- F. Prohibit all new construction and substantial improvements of nonresidential structures which do not have the lowest floor (including basement) elevated or floodproofed one foot (1') or more above the base flood level. (Ord. 86-203)

CHAPTER 16 BUILDING

ARTICLE 1 ADMINISTRATION

PART 1 GENERAL PROVISIONS

SECTION:

- 16-1-101: Title
- 16-1-102: Purpose
- 16-1-103: Scope
- 16-1-104: Liability of Officers
- 16-1-105: Appeal Procedures
- 16-1-106: Violations
- 16-1-107: Severability

16-1-101: **TITLE:** This Chapter shall be known as the "Regional Building Code" may be cited as such, and may be referred to herein as the Building Code. Said Building Code shall include those codes adopted by reference herein. (Ord. 84-282)

16-1-102: **PURPOSE:** The purpose of this building code is to provide minimum standards to protect the public health and safety by regulating and controlling buildings, structures, and equipment including but not limited to heating, ventilating, comfort cooling, refrigeration systems; signs and sign structures; elevators, dumbwaiters, escalators, boilers and pressure vessels; plumbing and drainage systems, electric conductors and equipment, and the storage and handling of hazardous materials, and adopting uniform codes, consistent with and generally conforming to similar ordinances and regulations throughout the Pikes Peak region, and to affect said purpose by acting with other governmental bodies in the Pikes Peak region in the promulgation of measures and procedures and the establishment of committees and boards as herein provided and establishing procedures for licensing contractors. (Ord. 84-282)

16-1-103: **SCOPE:** The provisions of the Building Code shall apply to the construction, enlargement, alteration, repair, moving, removal, conversion, demolition, occupancy, use, storage, height, area, maintenance, installation, inspection, design, operation, testing, handling, erection and

fabrication of equipment, structures, and buildings within the City, except work located primarily in a public way, public utility towers and poles, mechanical equipment not specifically regulated in this Code, and hydraulic flood control structures and structures other than buildings and structures located on publicly owned land. Where, in any specific case, different sections of this Building Code, the zoning ordinance or zoning resolution, or other ordinance or resolution of the City or another governmental body specify different requirements, the more restrictive shall govern.

Historic Buildings: Repairs, alterations and additions necessary for the preservation, restoration, rehabilitation or continued use of a building, structure, or its building service equipment may be made without conformance to all the requirements of the technical codes when authorized by the Building Official, provided:

1. The building or structure has been designated by official action of the legally constituted authority of this jurisdiction as having special historical or architectural significance.
2. Any unsafe conditions as described in this Code are corrected.
3. The restored building or structure and its building service equipment will be no more hazardous based on life safety, fire safety and sanitation than the existing building. (Ord. 84-282)

16-1-104: **LIABILITY OF OFFICERS:** The Building Official, the Regional Building Commission and any advisory boards appointed pursuant to any agreement in regard to the Pikes Peak Regional Building Department entered into between the City and the County of El Paso, or any employee charged with the enforcement of this Code acting in good faith and without malice for the City or the County of El Paso in the discharge of his duties, shall not thereby render himself liable personally and is hereby relieved

from all personal liability for any damage that may accrue to persons or property as result of any act required by the Building Code or by reason of any act or omission in the discharge of his duties. Any suit brought against the Building Official, the Regional Building Commission, any advisory boards or any employee because of such act or omission performed by him or in the enforcement of any provisions of this code, shall be defended by the City or the County of El Paso according to the location of the property which is the subject of the act or omission which resulted in the suit until final termination of the proceeding. (Ord. 84-282)

16-1-105: APPEAL PROCEDURES: Any person aggrieved by any decision or order of the Building Official may appeal said decision or order in the following manner:

- A. To one of the appropriate Committees under the Board of Review:
- B. If the decision of the Committee is not favorable to said person, a further appeal of the decision of the Committee may be made to the Board of Review.

Appeals from decisions of the Board of Review are not a function of the applicable legislative body. Recourse from any decisions of the Board is through the courts of El Paso County. Every appeal from a decision of the Building Official or a committee must be perfected within thirty days (30) days from the date of the order or decision appealed from. It shall be lodged with the secretary of the Board or Committee, contain appropriate reference to the decision or order repealed from, and specify the grounds of the appeal. An appeal from a decision of the Building Official or an Advisory Committee shall stay all proceedings in connection with decision or order appealed from unless the Building Official certifies that a stay would cause imminent hazard to life or property. No appeal, however, shall stay the effect of a stop order. (Ord. 84-282)

16-1-106: VIOLATIONS: Any person violating the Building Code or any provision of this Chapter shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not more than five hundred dollars (\$500.00), or imprisoned not

more than ninety (90) days in the City Jail or County Jail, or both. A separate offense shall be deemed committed for each and every day during which such illegal erection, construction, reconstruction, alteration, maintenance, or use continues. In case any building or structure is or is proposed to be erected, constructed, reconstructed, altered or remodeled, used or maintained in violation of this Chapter or of any provision of the Building Code, the City Attorney or any owner of real estate within the area, in addition to other remedies provided by law, may institute an appropriate action for injunction, mandamus or abatement to prevent, enjoin, abate or remove such unlawful erection, construction, reconstruction, alteration, remodeling, maintenance or use. (Ord. 84-282)

16-1-107: SEVERABILITY: If any of the provisions of the Building Code or of any code or secondary code adopted in this Chapter or its application to any person or any circumstances are held to be invalid, such invalidity shall not affect other provisions or applications of said Code. The City Council hereby declares in this regard that the provisions of said Building Code and all adopted codes are wholly severable. (Ord. 84-282)

*CHAPTER 16 BUILDING***ARTICLE 1 ADMINISTRATION***PART 2 BUILDING DEPARTMENT*

SECTION:

- 16-1-201: Pikes Peak Regional Building Department
- 16-1-202: Regional Building Commission
- 16-1-203: Finance of Building Department

16-1-201: PIKES PEAK REGIONAL BUILDING

DEPARTMENT: The Pikes Peak Regional Building Department is created pursuant to a resolution of the City, dated April 27, 1976, and pursuant to a resolution adopted by the El Paso County Commissioners on April 22, 1976, which resolutions authorize the execution of an agreement between the City and County of El Paso under the authority of C.R.S. 1973 § 19-302(4), which agreement was entered into effectively on April 17, 1976. Said agreement is incorporated herein by reference, including any amendments thereto and said agreement creates the Pikes Peak Regional Building Department. (Ord. 84-282)

16-1-202: REGIONAL BUILDING COMMISSION:

The Pikes Peak Regional Building Department shall be administered by a governing body of the Department to be known as the Regional Building Commission. The Regional Building Commission has the power and functions set forth in said agreement which include the appointment of the administrator of the Pikes Peak Regional Building Department. (Ord. 84-282)

16-1-203: FINANCE OF BUILDING DEPART-

MENT: The cost of operation of the Pikes Peak Regional Building Department shall be as set forth in the agreement entered into by and between the City and the County of El Paso, State of Colorado, as amended. A budget shall be prepared annually by the Building Official and approved by the Regional Building Commission. At the end of each year a report shall be submitted by the Building Official of all income received. Any deficit in operation of the Department will be made up as provided in said agreement creating the Pikes Peak Regional Building Department. (Ord. 84-282)

CHAPTER 16 BUILDING

ARTICLE 1 ADMINISTRATION

PART 3 BUILDING OFFICIAL

SECTION:

16-1-301: General Powers and Duties
 16-1-302: Act as Deputy Plumbing Inspector
 16-1-303: Appointments
 16-1-304: Reports and Records
 16-1-305: Right of Entry
 16-1-306: Stop Orders
 16-1-307: Occupancy Violations
 16-1-308: Cooperation of Other Officials
 16-1-309: Authority to Disconnect Utilities

16-1-301: GENERAL POWERS AND DUTIES: The administrator of the Pikes Peak Regional Building Department, hereinafter called the Building Official or the Administrative Authority, is hereby authorized and directed to enforce all provisions of the Building Code. (Ord. 84-282)

16-1-302: ACT AS DEPUTY PLUMBING INSPECTOR: The Building Official is hereby confirmed as Deputy Plumbing Inspector for the County Board of Health, and is hereby authorized and directed to enforce all provisions of the Plumbing Code as adopted by the City and El Paso County.

The Building Official shall submit periodic reports as requested concerning the public health aspects of plumbing inspections to the proper official of the County Board of Health. (Ord. 84-282)

16-1-303: APPOINTMENTS: With the approval of the Regional Building Commission, the Building Official may appoint such officers, inspectors and assistants and other employees as shall be authorized from time to time. He may deputize such employees as may be necessary to carry out the functions of the Building Department. (Ord. 84-282)

16-1-304: REPORTS AND RECORDS:

- A. The Building Official shall submit a report to the Regional Building Commission not less than once a year, covering the work of the Department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.
- B. The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.
- C. The Building Official shall cause a permanent record of all meetings of the Board of Review, as established in Section 16-1-401 to be kept, using a skilled stenographer as secretary of the Board. Such record shall constitute the minutes of any official meeting and shall be kept in the office of the Building Department as a public record accessible at all times. (Ord. 84-282)

16-1-305: RIGHT OF ENTRY: Upon presentation of proper credentials, the Building Official or his duly authorized representatives may enter at reasonable times any building, structure or premises in the City, or the zoned area of El Paso County, to perform any duty imposed upon him by this Code. (Ord. 84-282)

16-1-306: STOP ORDERS: Whenever any work is being done contrary to the provisions of this Code, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work. (Ord. 84-282)

16-1-307: OCCUPANCY VIOLATIONS: Whenever any structure is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof vacated by notice served on any person causing such use to be continued. Such persons shall discontinue the use within ten (10) days after receipt of such notice or make the structure, or portion, thereof, comply with requirements of the Code, provided, however, that in the event of an unsafe building Article 5 of this Chapter shall apply. (Ord. 84-282)

16-1-308: COOPERATION OF OTHER OFFICIALS: The Building Official may request, and shall receive so far as may be necessary in the discharge of his duties, the assistance and cooperation of other officials of the City and the County of El Paso. (Ord. 84-282)

16-1-309: AUTHORITY TO DISCONNECT UTILITIES: The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to the building, structure or building service equipment therein regulated by this Code or the technical codes in case of emergency where necessary to eliminate an immediate hazard to life and property. The Building Official shall whenever possible notify the serving utility, the owner and occupant of the building, structure or building service equipment of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupant of the building, structure or building service equipment, in writing, of such disconnection immediately thereafter. (Ord. 84-282)

CHAPTER 16 BUILDING

ARTICLE 1 ADMINISTRATION

PART 4 BOARD OF REVIEW

SECTION:

16-1-401: Board of Review Established
 16-1-402: General Authority and Responsibility
 of Board
 16-1-403: Advisory Committees; Purpose
 16-1-404: Advisory Committees; Composition
 and Functions
 16-1-405: Board and Committees, Appointments,
 Organization and Meetings
 16-1-406: Liability of Members

16-1-401: **BOARD OF REVIEW ESTABLISHED:** In order to carry out and accomplish the provisions and objectives of the Building Code, there is hereby created a board to be known as the Board of Review.

Said Board of Review shall be composed of five (5) members, said members to serve for terms of three (3) years. The membership of the Board shall include the following:

Registered engineer (structural, electrical and mechanical)
 Architect
 Building contractor A or B (commercial work)
 Building contractor A, B or C (home builder)
 Citizen at large experienced in building construction.
 (Ord. 84-282)

16-1-402: GENERAL AUTHORITY AND RESPONSIBILITY OF BOARD:

- A. The Board of Review shall have the authority to propose rules and regulations and standards as may be necessary to accomplish the purposes and objectives of the Building Code. All said rules, regulations and standards as may be proposed for adoption by the Board of Review shall be subject to final approval of the appropriate legislative body of the City and the

- A) County. All rules and regulations, upon adoption shall be reduced to writing and kept available for public inspection in the office of the Regional Building Official and the City Clerk.
- B. The Board of Review shall be the duly authorized authority for granting and for revoking all licenses provided for in the Building Code.
- C. The Board of Review shall be charged with the responsibility of reasonable interpretation of all codes adopted by the City and the County of El Paso which are administered by the Regional Building Department. The Board of Review may make minor variances from the provisions of said codes, so long as said minor variances when granted are consistent with the intent of the said codes and the standards therein specified relating to quality, design of materials and construction. (Ord. 84-282)

16-1-403: ADVISORY COMMITTEES; PURPOSE: Advisory committees shall be established as advisory to the Board of Review. These committees shall review all appeals with power to interpret and grant minor variances from the Building Code and shall examine all applicants and attest as to their fitness and qualifications for licenses. (Ord. 84-282)

16-1-404: ADVISORY COMMITTEES; COMPOSITION AND FUNCTIONS:

- A. Building Committee. The Building Committee shall be primarily responsible for testing and reviewing all applicants for licenses and the performance of work required under the Building Code, the Sign Code, and the Safety Code for Elevators. The Building Committee shall be composed of:

Registered engineer (structural)
 Architect
 Building contractor A or B (commercial work)

- A. Building contractor A, B or C (home builder)
Building contractor D or subcontractor
Citizen at large - experienced in the building industry
Banker

- B. Electrical Committee. The Electrical committee shall be primarily responsible for testing and reviewing all applicants for registration and the performance of work done under the Electrical Code. The Electrical Committee shall be composed of:

Registered engineer (Electrical)
Architect
Electrical contractor with a Colorado State License
Building contractor A or B (commercial work)
Building contractor A, B or C (home builder)
Journeyman electrician with a Colorado State License
Citizen at large - experienced in the electric industry

- C. Mechanical Committee. The Mechanical Committee shall be primarily responsible for any testing for licensing under the Mechanical Codes and review of applicants for registration under the Plumbing Codes and the performance of work under both Codes. The Mechanical Committee shall be composed of:

Registered engineer (mechanical)
Architect
Building contractor A or B (commercial work)
Building contractor A, B or C (home builder)
Licensed heating contractor A
Colorado State licensed master plumber
Citizen at large - experienced in the construction industry
Licensed heating contractor B
Colorado State licensed journeyman plumber.
(Ord. 84-282)

16-1-405: BOARD AND COMMITTEES; APPOINTMENTS, ORGANIZATION AND MEETINGS:

- A. The Board and Advisory Committees shall be appointed by the Board of County Commissioners of the County of El Paso in conjunction with the City Council, acting as individual bodies, but in agreement. Terms of service shall be three (3) years.
- B. The Board, or each Committee, as its first official act in each year, shall elect a chairman and vice chairman.
- C. Minutes will be maintained of all meetings and be made a permanent public record. To constitute a quorum, at least a majority to the entire membership of the Board or Committee shall be present. The Board, or Committee, shall meet as necessary for the conduct of business.
- D. Board or Committee members shall be dropped from the Board or Committee for failure to attend at least sixty percent (60%) of the scheduled meetings in any twelve (12) month period. (Ord. 84-282)

16-1-406: LIABILITY OF MEMBERS: Any members of the Board, and any members of the Committees provided for herein, acting in good faith and without malice for the City or the County of El Paso in the discharge of their duties shall not thereby render themselves personally liable. Said members are hereby relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required, or by reasons of any act or omission related to the discharge of their duties. Any suit brought against a member or members of the Board of Committees, as provided for herein, because of such act or commission performed by them in the discharge of their duties, shall be defended by the City or the County of El Paso according to the location of the property which is the subject of the act or omission which resulted in the suit, until final termination of the proceedings. (Ord. 84-282)

CHAPTER 16 BUILDING
ARTICLE 1 ADMINISTRATION
PART 5 ENUMERATION

SECTION:

- 16-1-501: Declaration of Intent and Purpose
- 16-1-502: Designation
- 16-1-503: Authority
- 16-1-504: General Regulations for Assignment of Numeric Address
- 16-1-505: Regulations for Residential Uses
- 16-1-506: Regulations for Commercial and Industrial Uses
- 16-1-507: Numeric Address Changes
- 16-1-508: Numeric Addresses Required on Final Plat or Replat
- 16-1-509: Temporary Posting of Numeric Address
- 16-1-510: Reporting of Subnumeric and/or Letter Identifiers
- 16-1-511: Regulations for Numbers on Buildings

16-1-501: DECLARATION OF INTENT AND PURPOSE:

The City Council declares that the intent and purpose of this Part is to protect and promote the health, safety and general welfare of the people and their property, to provide for the continuing assignment of property addresses in a logical and orderly manner and to ensure the efficient, timely and convenient delivery of services and goods, public or private, to the people and their property. To this end, therefore, this Part shall be applicable to all property, including structures, which is now in existence or hereinafter constructed and which is subject to the jurisdiction of the Building Official. (Ord. 86-106)

16-1-502: DESIGNATION: The Building Official may designate such employee(s) as may be necessary to carry out the intent and purpose of this Part. (Ord. 86-106)

16-1-503: AUTHORITY: The Building Official shall have the authority to carry out the duties and responsibilities of this Part for all properties subject to the jurisdiction of the Building Official. Such authority shall include, but is not limited to:

A. **Authority to Assign Numeric Address:** The Building Official shall have the authority to assign numeric addresses to property, including structures, in compliance with this Part. In order to duly exercise this authority the Building Official shall have the right to:

1. Enter upon any premises at any reasonable time for the purpose of making inspection of any premises necessary to determine the assignment of any numeric address;

2. Require site plans, building plans, listings of property owners, maps or any other information deemed necessary to determine the assignment of any numeric address;

3. Determine the approval or disapproval of any application requesting an assignment of or change to the assignment of a numeric address;

4. Determine the existence of a significant interest on the part of any person, organization, group, governmental entity or agency that may request a change in the assignment of a numeric address for property not owned by that person, organization, group, governmental entity or agency;

5. Determine the direction of a street pursuant to Section 16-1-504E;

6. Designate numeric addresses on final plats and replats prior to the recording of such plats with the El Paso County Clerk and Recorder's Office.

B. **Authority to Require a Street:** The Building Official shall have the authority to require a street and/or street name when there are no, or not enough, numeric addresses available on an adjacent street such that numeric addresses cannot be assigned as required by this Part.

C. **Authority to Disapprove Building Permit Issuance:** The Building Official shall have the

- C) authority to disapprove the issuance of a building permit until such time that all requirements of this Part are met.

1. Exception: The Building Official may issue a building permit prior to platting of property when waiver of such requirement has been approved in accordance with the Code of the City of Colorado Springs 1980, as amended. The assigned numeric address for such property shall be designated on the final plat or replat.

- D. Authority to Issue Change: The Building Official shall have the authority to issue official notice, including effective date, of a numeric address change.
- E. Authority to Adopt Rules of Procedure: The Building Official shall have the authority to adopt such rules and regulations of procedure that are necessary to implement this Part.
- F. Authority to Act: The Building Official shall have the authority to determine or otherwise act upon the assignment of or a change to a numeric address, or any matter related thereto, which shall be deemed final agency action and not subject to further administrative review or appeal.
- G. Authority to Require Fee: In addition to any fees, the Building Official shall have the authority to require payment in advance of any cost associated with a change to or assignment of a numeric address, including the recording of any necessary documents.
- H. Authority to Enforce: The Building Official shall have the authority to require compliance with the requirements of this Part. It shall be the responsibility of the property owner(s) to meet or cause to be met all applicable requirements. Upon due notification of noncompliance with failing to meet or cause to be met all applicable requirements, the property owner(s) shall be responsible for any and all incurred expenditures on the part of the City of Colorado Springs or any authorized agency in the enforcement of and compliance with applicable requirements. Any person who violates, omits, neglects or refuses to comply with or who resists the enforcement of any of the provisions of this Part shall be punishable as provided in Section 1-2-101 of the Code of the City of Colorado Springs 1980, as amended. (Ord. 86-106)

16-1-504: **GENERAL REGULATIONS FOR ASSIGNMENT OF NUMERIC ADDRESS:**

- A. Reference Point: Except for properties that have been historically distinguished by an independent numeric system prior to the adoption of this Part, unless determined by the Building Official that any duplication of numeric address constitutes a hazard to the public health, safety or welfare, all numeric addresses for property within the City of Colorado Springs shall be determined by the intersection of Pikes Peak Avenue and Cascade Avenue. At this reference point, all numeric addresses are the zero hundred block (00) series. From this reference point, all numeric addresses shall project in an outward direction. There shall be no more than one thousand (1,000) numeric addresses assigned to any one mile.
- B. Frontage Interval of Standard Block: The frontage interval of a standard block, for purposes of addressing, is five hundred fifty feet (550'). This interval shall be used in determining where hundred block (00) series numbers will be changed from one hundred to the next higher or lower one hundred block series. The existence of an intersection shall generally require a new hundred block series for numeric addresses. Variation from the frontage interval of a standard block shall be allowed to standardize the numeric addresses of parallel blocks at the same distance from the reference point.
- C. Numeric Address Interval of Lots: Numeric addressing of property contained in any one hundred block series shall be determined by the number of platted lots within that block, for example, but not by way of limitation, nine (9) lots equal numeric addresses in increments of ten (10), such as 2010, 2020, 2030, etc.; twelve (12) lots equal numeric addresses in increments of eight (8), such as 2008, 2016, 2024, etc; fourteen (14) lots equal numeric addresses in increments of six (6), such as 2006, 2012, 2018, etc.
- D. Determination of Even and Odd Numeric Addresses: Odd numeric addresses shall be assigned to property located on the south or east side of a street. Even numeric addresses shall be assigned to property located on the north or west side of a street. Numeric addresses shall not be changed to opposite sides of the street regardless of the direction the street may take, for example, but not by way of limitation, on a

- D) west-east loop street, the even numeric addresses will be located on the west side of the west half of the loop street and on the east side of the east half of the loop street.
- E. Determination of Direction of a Street: A street shall be determined to be either an east-west street or a north-south street based upon the longest linear distance, in feet, of the major orientation of that street. For example, but not by way of limitation, a north-south street of many blocks in length may have a small portion of the street running in an east-west direction; this street shall be determined to be a north-south street.
- F. Determination of Numeric Address: Numeric addresses shall be assigned consecutively. When a determination of the direction of the street has been made, property shall be assigned a numeric address that is consistent with the hundred block series for all parallel blocks equidistant from the reference point. All property located on the same street shall be addressed in either a north-south block series or in an east-west block series; in no event shall there be a combining of the two block series.
- G. Determination of Exceptional Address: The use of subnumerics, such as one-half (½), or alphabetical suffixes, such as A, B, C, etc., is permitted only when whole numeric addresses are not available.
- H. Determination of Officially Approved Numeric Address: The officially approved numeric address is that which is determined by the Building Official at the time of issuance of a building permit. Any numeric address assigned for any particular premises based upon a preliminary plat or development plan shall not be construed to be the officially approved numeric address and shall be subject to change, without prior notice, by the Building Official. Any numeric address designated for any particular premises based upon a final plat or replat that has been recommended for approval shall be subject to change, with notice to the El Paso County Clerk and Recorder's Office, by the Building Official when such a designated numeric address as it appears on the recorded final plat or replat does not conform to the officially approved numeric address as finally determined by the Building Official at the time of issuance of a building permit for that premises. (Ord. 86-106)

16-1-505: REGULATIONS FOR RESIDENTIAL USES:

- A. Detached Single-Unit Residential Use: Except as hereinafter set forth, numeric addresses shall be assigned to any detached single-unit residential premises from the hundred block series of the street that abuts the premises.
- B. Multi-Unit Residential Use: Numeric addresses shall be assigned to any multi-unit residential premises based upon a review by the Building Official of the following facts:
 - 1. Location of development, especially with regard to proximity and access to public streets;
 - 2. Density of development;
 - 3. Lotting pattern of development;
 - 4. Internal access of development;
 - 5. Layout and type of structures, especially with regard to orientation and the type and number of entrances;
 - 6. Nature of ownership of the units;
 - 7. Availability of numeric addresses that are assignable;
 - 8. Any other factor(s) deemed relevant by the Building Official.
- C. Mobile Home Park or Mobile Home Subdivision: Numeric addresses shall be assigned to properties in a mobile home park or mobile home subdivision as outlined in Section 16-1-505B above.
- D. Through Lots or Corner Lots: Preliminary numeric addresses from both streets may be assigned to a through lot or corner lot. This preliminary assignment of a dual address shall not be construed as approval for access, curb cut(s) or driveway entrance(s) for such a lot. The officially approved numeric address of a through lot or corner lot shall be determined at the time of issuance of a building permit.

This officially approved numeric address shall be determined as follows:

- 1. Detached single-unit residential structure: The

D1) numeric address shall be assigned from the block series of the street that is located parallel to the exterior face of the structure that contains, regardless of angle, the main, or commonly known front door, entrance into the structure.

2. Multi-Unit Residential Structure: The numeric address(es) shall be assigned upon a review of the factors outlined in Section 16-1-505B.

3. Mobile Home Park or Mobile Home Subdivision: The numeric addresses shall be assigned upon a review of the factors outlined in Section 16-1-505C.

4. In the event that there can be no determination of a street that is clearly parallel to the exterior face of the structure that contains, regardless of angle, the main, or commonly known front door, entrance(s) into a structure, a numeric address shall be assigned from the block series of the street that would most reasonably and readily be identified as the street upon which the structure fronts. Factors that may be considered, but not limited to, include: lineal feet of property on each street; points of access into the lot; layout of structures on the lot; design of the structure(s) with regard to entrance(s); lineal feet of principal structure facing each street. (Ord. 86-106)

16-1-506: REGULATIONS FOR COMMERCIAL AND INDUSTRIAL USES:

A. Detached Single-Unit Commercial Use or Industrial Use: Except as hereinafter set forth, numeric addresses shall be assigned to any detached single-unit commercial or industrial premises from the hundred block series of the street that abuts the premises.

B. Multi-Unit Commercial Use or Industrial Use: Numeric addresses shall be assigned to multi-unit commercial or industrial premises in the following order of determination:

1. In the event that only one street abuts the premises, numeric addresses shall be assigned from the block series of that abutting street. This shall pertain to property containing any number of freestanding structures.

2. In the event that two (2) streets abut the

B2) premises, numeric addresses shall be assigned based upon a review by the Building Official of the following facts:

a. Location and lotting pattern of development;

b. Access to development;

c. Lineal feet of frontage of lot(s) on each street;

d. Orientation of structure(s) and lineal feet of structural frontage;

e. Any other factor(s) deemed relevant by the Building Official.

Numeric addresses shall be assigned for the potential maximum usage of the development. Unused numeric addresses shall be retained and reserved for future use.

C. Corner Lots or Through Lots: Preliminary numeric addresses from both streets may be assigned to corner or through lots. This preliminary assignment of a dual address shall not be construed as approval for access, curb cut(s) or driveway entrance(s) for such a lot. The officially approved numeric address of the property shall be determined at the time of issuance of a building permit.

The officially approved numeric address shall be determined as follows:

1. Detached Single-Unit Commercial Structure or Industrial Structure: The numeric address shall be assigned from the block series of the street that is located parallel to the exterior face of the structure that contains, regardless of angle, the main, or commonly known front door, entrance into the structure. Should no street parallel said face, then the numeric address shall be assigned from the block series of the street that most reasonably and readily identifies the location and situation of that structure. Factors that may be considered, but not limited to, include: lineal feet of property on each street; points of access into the lot; design of the structure, including orientation, windows, signage and entrance(s); lineal feet of structure facing each street.

2. Multi-Unit Commercial Use or Industrial Use:

- C2) The numeric address(es) shall be assigned upon a review of the factors outlined in Section 16-1-506B2. (Ord. 86-106)

16-1-507: NUMERIC ADDRESS CHANGE:

- A. Procedure: A request for a change of numeric address shall be submitted in writing to the Building Official. The applicant shall clearly state the specific reason for the change and shall submit any other information deemed necessary by the Building Official. No change of numeric address shall be granted by the Building Official unless or until the requirements of this Part have been met.
- B. Notification: An official notice of assignment of numeric address shall be completed by the Building Official on any approved numeric address changes. This notice shall be sent to the property owner as well as other persons, organizations, groups or governmental agencies that provide public service to the property and that request such notice. The notice of assignment of numeric address shall be mailed or otherwise distributed within seven (7) days of the change of numeric address. It shall be the responsibility of each person, organization, group or governmental agency to alter or modify appropriate records. Any conflict or dispute regarding a numeric address change shall be referred for resolution to the Building Official.
- C. Initiation of Request: A request for a numeric address change may be submitted by a property owner or any other party with a determined significant interest, including, but not limited to, providers of emergency services or utilities, the United States Postal Service or the Building Official under any one of the following conditions:
1. Current numeric address is not proper sequence.
 2. Current numeric address is incorrect, confusing or misleading.
 3. Current numeric address is on the wrong side of the street.
 4. Main, or commonly known front door, entrance does not face that street as named in the address.

- C) 5. Realignment of a street or change in street pattern invalidates current numeric address.
6. New street intersection makes current numeric address incorrect, confusing or misleading.
7. A change in street name or street designation makes current numeric address incorrect.
8. The correct numeric address is not being used.
9. A numeric address has not been assigned.
10. Any other justification in furtherance of the purpose and intent of this Part or any other pertinent ordinance, resolution or rule pertaining to property addressing.
- D. Reassignment of Street Name: A request for a numeric address change may also necessitate a corresponding change in the street name that will be used as part of a premises' address for, but not limited to, corner or through lots. In such cases, the Building Official shall have the authority to concurrently approve a reassigned street name upon determination that a numeric address change is appropriate. When such a numeric address change and street name reassignment is approved, the Building Official shall issue official notice, including effective date, of both the numeric change and street name reassignment. (Ord. 86-106)

16-1-508: NUMERIC ADDRESS REQUIRED ON PLATS: The Building Official shall designate, prior to the recording with the El Paso County Clerk and Recorder's Office, assigned numeric addresses in a legible manner on final plats and replats. All corner lots or through lots shall be designated at the discretion of the Building Official. (Ord. 86-106)

16-1-509: TEMPORARY POSTING OF NUMERIC ADDRESS: In order to ensure the timely and effective delivery of private and public services, including, but not limited to, emergency services and assistance, utilities provision and required inspections, it shall be the responsibility of that person, company, firm, business, agency or corporation in whose name the building permit is issued to ensure the temporary posting of the officially approved numeric address. Such temporary posting of this address shall occur

prior to the making of any required inspection. Such a numeric address posting shall be of any material that is weather resistant, shall be plainly visible and legible from the street, road, fire lane or other right-of-way or easement fronting the structure, and shall be maintained until such time as the officially approved numeric address is permanently displayed. (Ord. 86-106)

16-1-510: REPORTING OF SUBNUMERIC AND/OR LETTER IDENTIFIERS: The reporting of any subnumeric and/or letter identifier is required for any unit, but not by way of limitation, in a multi-unit residential, commercial office or industrial structure, or any combination thereof, or a space of lot in a mobile home park:

- A. Upon any change to any such subnumeric and/or letter identifier in existence at the time of this requirement; or:
- B. Upon the assignment of any such subnumeric and/or letter identifier for any such unit constructed subsequent to this requirement, or:
- C. Upon determination by the Building Official that there exists a hazard to the public health, safety or welfare.

It shall be unlawful to fail meeting this requirement within fifteen (15) days of such change, assignment or determination. Such reporting shall be made to the Department of Public Utilities, Meter Reading Division, in writing and shall include, for any change, the original identifier and the new identifier. The Building Official may require the submittal to the Department of Public Utilities, Meter Reading Division, of a floor plan for each floor of the structure upon which shall be designated a subnumeric and/or letter identifier for each unit of the floor. (Ord. 86-106)

16-1-511: REGULATIONS FOR NUMBERS ON BUILDINGS:

- A. Officially approved numeric addresses shall be placed on all new and existing structures, including single-unit and multi-unit residential structures, in such a location and position as to be plainly visible and legible from the street, road, fire lane or other right-of-way or easement fronting the structure.
- B. Except as hereinafter set forth, such officially

- B) approved numeric addresses shall be represented by numbers that are a minimum of five inches (5'') in height with no less than one-half inch (1/2'') stroke so as to be plainly visible and legible from a distance of at least one hundred feet (100') from the structure.

1. Exception: Nonconforming as to size numeric addresses that were lawfully existing upon a single-unit or multi-unit residential structure at the time this dimensional requirement became effective may be continued in use except:

a. Subsequent to a complaint by a party with a determined significant interest, when a determination is made by the Building Official that the requirements of Section 16-1-511A and B are met, that is, the approved numeric address is not plainly visible and legible from the street, road, fire lane or other right-of-way or easement fronting the structure or is not plainly visible and legible from a distance of at least one hundred feet (100') from the structure; or

b. When a building permit for any purpose whatsoever is issued for a single-unit or multi-unit residential structure with such a nonconforming as to size numeric address; or

c. When a determination is made by any enforcement officer that a change in use, either in whole or in part, has occurred in a single-unit or multi-unit residential structure such that the use of such structure is no longer exclusively residential.

2. Exception: Any area occupied by tenants of a mall or shopping center, the main entrance to which is from the inside of the mall or shopping center, or any area used for other than single-unit or multi-unit residential occupancy which abuts a public courtyard or other public space shall be identified by numbers that are a minimum of four inches (4'') in height with no less than one-half inch (1/2'') stroke so as to be plainly visible and legible from a distance of at least fifty feet (50') from the main entrance to the area.

3. Exception: If access to a premises is provided by a private drive or easement or if a structure or portion of a structure is obscured by another structure or other feature, either natural or man-made, or a premises is located on the interior of a lot or block, then the numeric address shall,

- B3) in addition to meeting the requirements of Section 16-1-511, be posted in a permanent manner and forever maintained at a location in the nearby vicinity of the intersection of the private driveway or easement with a public street or at a location such that the numbers are plainly visible and legible and the existence of the premises or structure is reasonably indicated. The numbers shall be on a sign that is attached to a ground stake that does not exceed thirty inches (30'') in height or shall be on a portion of a permanent structure designed and used to house the mail box. Numbers painted or stenciled on a curb shall not serve to meet this requirement.
- C. Such officially approved numeric addresses shall be represented by numbers that are contrasting in color with their background, face the street named in the address and are plain block numerals.
- D. Such officially approved numeric addresses shall not, in any event, be represented by numbers that are affixed to any tree or obscured by vegetation or any other feature, natural or man-made.
- E. It shall be the responsibility of the property owner(s) to meet or cause to be met all of the requirements of this Section. All numbers shall be forever maintained in such a manner as to comply with the requirements of this Section.
- F. A numeric address change shall be requested and may be approved by the Building Official in accordance with Section 16-1-507. It shall be the responsibility of the property owner(s) to ensure that within fifteen (15) days of the official notice of determination of numeric address as issued by the Building Official, the officially approved numeric address is posted in accordance with the requirements of this Section.
- G. It shall be unlawful for any person to alter, deface or remove any number placed on any premises in accordance with the requirements of this Part, except for repair or replacement of such number. Upon notice, actual or otherwise, repair or replacement of any number shall be completed within a twenty four (24) hour time period. (Ord. 86-106)

CHAPTER 16 BUILDING

ARTICLE 2 BUILDING CODES¹

PART 1 UNIFORM BUILDING CODE

SECTION:

16-2-101: Short Title
 16-2-102: Code and Standards Adopted by Reference
 16-2-103: Additions and Modifications
 16-2-104: Application
 16-2-105: Interpretation
 16-2-106: Sale of Copies

16-2-101: **SHORT TITLE:** This Part 1 may be known and cited as the Uniform Building Code. (Ord. 86-157)

16-2-102: **CODE AND STANDARDS ADOPTED BY REFERENCE:** Pursuant to title 31, article 16, part 2, C.R.S. as amended, there is hereby adopted by reference the Uniform Building Code of the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, 1985 Edition, and the Uniform Building Code Standards of the International Conference of Building Officials, 1985 Edition, a secondary code incorporated by reference in the Uniform Building Code, Three (3) copies of each Code are now filed in the office of the Clerk of the City and may be inspected during regular business hours. The above Codes are being adopted as if set out at length save and except the following sections which are declared to be nonapplicable to the City and are therefore expressly deleted:

- | | |
|--|--|
| <p>A. Sections 101 through 307 inclusive.</p> <p>B. Section 6001.</p> <p>C. Chapter 1, Appendix, Life Safety Requirements for Existing Buildings.</p> <p>D. Chapter 12, Appendix, Requirement for Group R, Division 3 Occupancies.</p> <p>E. Chapter 35, Appendix, Sound Transmission.</p> <p>F. Chapter 38, Appendix, Basement Inlet Pipes.</p> | <p>G. Chapter 53, Appendix, Energy Conservation.</p> <p>H. Chapter 57, Appendix, Fallout Shelters.</p> <p>I. Chapter 70, Appendix, Grading. (Ord. 86-157)</p> <p>16-2-103: ADDITIONS AND MODIFICATIONS:
 The said adopted Codes are subject to the following additions and modifications.</p> <p>A. Section 403. At the end of third paragraph, add:

 "When the main living level is below grade it shall be classified as a story."</p> <p>B. Section 409. Delete the definition of "Height of Building" in its entirety, and insert the following:

 "HEIGHT OF BUILDING: The vertical distance measured from the average elevation of the finished grade adjoining the building to the highest point of the roof surface of a flat roof; to the deck line of a mansard roof; and to the average height between the plate and the ridge of a gable, hipped or gambrel roof, provided that no part of such roofs shall extend more than five feet (5') above the permitted height. The average elevation of the finished grade adjoining the building shall be the average of the exposed exterior elevations of all corners of the building. The height of a stepped or terraced building is the maximum height of any segment of the building."</p> <p>C. Section 503(d). In Exception 3. Delete the words:

 "self closing".</p> <p>D. Section 510(b). In the first sentence change:

 "5 inches" to "4 inches".</p> <p>E. Add a new subsection to Section 511(a) to read:

 "511(a) 6. Toilet facilities in H occupancies and</p> |
|--|--|

¹ Persons using the Codes adopted in this Article should also be aware of the Uniform Fire Code adopted by Article 2 of Chapter 20 of this Code.

- E) toilet facilities in B occupancies with an occupant load of fifty (50) persons or less may comply with the following:
1. In toilet rooms without compartments, a clear and unobstructed access of not less than thirty two inches (32") nominal and a clear space, unobstructed by door swing, grab bars and similar items, of not less than thirty two inches (32") shall be provided in front of the toilet stool. Grab bars shall be provided as required in item 4 above.
 2. Where compartments are provided, at least one shall comply with Section 511(a) 3.
 3. The door shall not swing into the toilet rooms, unless approved by the Building Official."
- F. Section 511(b) 1. Add at the end of the sentence:
- "when more than one lavatory is required."
- G. Table 5A.
- Under B-1 and B-2 occupancies, in the column entitled "fire resistance of exterior walls" change "1 hour less than 20 feet" to read "1 hour less than 10 feet".
- Under B-2 occupancies, in the column entitled "Description of Occupancy" change "Drinking and dining establishment with an occupancy load of less than 50", to "an occupancy load of less than 100".
- H. Section 605. At the end of the second paragraph, add:
- "Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".
- I. Section 701. Change the second paragraph to read:
- "Division 2. Drinking and dining establishments having an occupant load of less than 100..."
- J. Section 705. At the end of the sixth paragraph add:
- J) "Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".
- K. Section 801: Delete Division 3. Substitute the following:
- "Division 3. Any building used for day care purposes for more than six fulltime children."
- Add Footnote 7 to Table 38-A:
- "7. A class 2 standpipe shall be installed in buildings where any floor is more than twenty feet (20') above grade for more than fifty percent (50%) of the perimeter and located in areas where the Fire Department lacks adequate equipment to perform firefighting operations from the exterior."
- L. Section 805. Add:
- "Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".
- M. Section 905. At the end of the fifth paragraph, add:
- "Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".
- N. Section 908. Change the third paragraph to read as follows:
- "In Divisions 1, 2, and 3, there shall be no openings in such occupancy separations except for necessary ducts and piping. In Divisions 4 and 5 there shall be no openings in such occupancy separations below sixty-six inches (66") above the floor."
- Change the fifth paragraph to read:
- "sixty-six inches (66") instead of eighteen inches (18")."
- O. Section 1005. At the end of the Section, add new paragraph:

- O) "Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".

- P. Section 1104. Add:

"In rooms used for garages, or other rooms in which volatile flammable liquids are used or stored, no device generating a glow or flame capable of igniting gasoline vapor shall be installed or used within eighteen inches (18") of the floor. No duct from any direct-fired heating system shall extend below eighteen inches (18") above the floor.

- Q. Section 1204. Add the following exception to the second paragraph:

"Exception: In basements, only one emergency exit complying with the requirements of this Section, or an exterior door, must be provided in addition to the main exit. Where possible such emergency exit shall be located a distance apart of not less than one-half ($\frac{1}{2}$) of the length of the maximum overall diagonal dimensions of the area served. A window well or area way with a minimum dimension of thirty inches (30") shall be provided for such emergency exit."

In the third paragraph delete:

"5.7 square feet" and insert "4.5 square feet".

After the third paragraph add:

"A three foot (3') wide by four foot (4') high nominal window divided in the center with a minimum vertical opening of nineteen inches (19") and a minimum net clear opening of four and one half square feet (4.5 sq. ft.) is approved."

- R. Section 1205(a). Add the following exception to the first paragraph:

"EXCEPTION: Basements may be provided with natural light by means of windows having an area equal to five percent (5%) of the floor area. (Window wells for required windows shall be equal in area to the portion of the window below grade and shall extend out from the wall a minimum of sixteen inches (16"). Overhangs above required windows shall be a minimum of

- R) twenty four inches (24") above grade. Where not over required windows, overhangs shall be a minimum of eighteen inches (18") above grade. In the third paragraph, after the words "connected directly to the outside," add the words "or in Division 3 occupancies to a properly vented attic".

Paragraph 1 and 3. Delete:

"laundry rooms".

At the end of the third paragraph add:

"Where two (2) or more toilet facilities are connected to one venting system, the system shall be installed in such a manner as to prevent cross contamination".

- S. Section 1207(a). Add the following exception to the third paragraph:

"EXCEPTION: The ceiling height in basements may be reduced to six feet eight inches (6'8") over a width of five feet (5') under furred-down beams, pipes and ducts."

- T. Add a new Chapter 16. TEMPORARY BUILDINGS AND MOBILE HOMES:

"Unprotected Type V buildings not more than one story in height or more than one hundred square feet (100 sq. ft.) in area shall be permitted if the exterior walls are ten feet (10') or more from adjacent property lines and twenty feet (20') or more from any other building. The buildings shall be considered as temporary, and shall be placed on skids instead of foundations and permits shall be issued by the Building Official subject to annual review and shall be revocable.

Temporary use of other nonconforming structures may be granted by the Building Committee, provided the Committee determines that such use will not be detrimental to public health, safety or welfare. Such use shall be by special permit issued by the Building Official, subject to annual review and shall be revocable.

Mobile homes, including trailer coaches, subject to zoning regulations, may be granted

- T) special temporary permits for use as dwellings. Said special permit shall be issued by the Building Official, subject to requirements of the Building Code and Zoning which exist at the time of application. Such permit shall be revocable. Said special permit shall apply only to the mobile home or trailer coach for which it was obtained and shall not run with the land as a permitted use.

Prior to the occupation of any mobile home or trailer coach in a mobile home park, a permit shall be obtained. Said mobile home or trailer coach shall be inspected by the Building Department and shall be in conformance with the requirements of this Code. (See Mobile Home Code)¹

No additions shall be made to an approved mobile home system unless the addition either meets the Building Code or is an approved system, also."

- U. Section 1706(a) Exception 3. At the end of the paragraph add:

"R-3 occupancy may have a chute with a cross sectional area of not more than one square foot (1 sq. ft.), through not more than two (2) adjacent floors with a self-closing door at the top of the chute, with a metal lining as specified above."

- V. Section 1709. Add Exception 5:

"5. Existing buildings not less than five feet (5') from property line and not more than two thousand square feet (2,000 sq. ft.) per floor."

- W. Section 1711. Add the following exception:

"7. Window wells located in patios, porches or sidewalks and located in the normal path of walking shall be protected by a grate or guardrail."

- X. Section 1717. Add new Section 1717 after Section 1716 as follows:

"1717. Open sides of Buildings: Where protection of openings is required, walls must be provided. The fire-resistance of such walls shall be in accordance with Section 504 and Table No. 5-A."

- Y. Section 1807(g). In the first sentence delete the words:

"Natural or".

Will now read: "Mechanical ventilation for the removal of products of combustion shall be provided in every story and shall consist of one of the following."

Delete paragraph 1 and the exception.

- Z. Section 2305(d). Delete entire section and add:

"Snow Loads. Every building component shall be provided with strength to resist the most critical effect resulting from the following snow load distributions:

"1. Uniform: For all structures located below seven thousand feet (7,000') elevation, the uniform snow load shall be thirty (30) pounds per square foot and above seven thousand feet (7,000') shall be forty (40) pounds per square foot of horizontal projected area. The uniform snow load may be reduced for slopes according to Appendix Chapter 23, Division I - Section 2315.

"2. Unbalanced and Drifts: See Appendix Chapter 23, Division I, Alternate Snow Load Design. Basic ground snow loads (Pg) shall be twenty (20) and twenty-seven (27) pounds per square foot for structures located below and above seven thousand feet (7,000) elevation, respectively. Section 2318, rain or snow, need not be considered."

- AA. Section 2308(b). Add:

"A building permit shall be required for all retaining walls where there is a four foot (4') or more difference in elevation between grades. Any slopes greater than 2 horizontal to 1 vertical shall be considered as earth surcharge whether a structure is involved or not.

Any retaining wall over nine feet (9') difference in elevation and those four feet (4') or over involving a surcharge from buildings, highways, railroads or other structures require the seal of an engineer or architect registered in the State of Colorado, and must be constructed by a licensed contractor. All retaining walls shall have

1. See Part 8 of this Article.

AA) one and one-half inch (1½") weep holes spaced not more than ten feet (10') apart."

AB. Section 2311(a). Add sentence at the end of the first paragraph:

"No alternate methods of wind load design shall be permitted."

AC. Section 2311(b). Delete the entire section and insert the following:

"BASIC WIND SPEED: The minimum basic wind speed for determining wind pressure shall be 85 mph. The wind stagnation pressure (qs) at a height of thirty feet (30') shall be at 19 psf."

AD. TABLE 23-G. Delete the column entitled:

"EXPOSURE B".

AE. Section 2407(i)6. Add the following:

"The maximum spacing between lateral supports for exterior walls is twenty-four feet (24').

"The units must be manufactured by an approved manufacturer and tested and approved by an approved independent testing laboratory."

Add the following exceptions:

"1. Using the design requirements specified in this Code, adobe block may be used in a two story building and the minimum thickness shall be as follows:

8" in interior bearing walls.

10" in exterior bearing or non-bearing walls below a roof only.

14" in exterior bearing or non-bearing walls below a floor.

"2. Unstabilized units may be used in interior walls."

AF. Section 2517(d)3. Delete the last sentence in the first paragraph and substitute:

"Solid blocking shall be not less than two inches (2") in thickness and not more than one size in depth smaller than the joists. When blocking supports a bearing wall above, blocking shall be the full depth of joist."

AG. Section 2517 (g). Add:

"10. In items 8 and 9 above, good workmanship is required in all cases. Studs having holes or notches larger than required to accommodate the piping shall be replaced or satisfactorily repaired. Where holes larger than indicated above are required to accommodate the piping in nonbearing studs, such studs may be reinforced by the addition of ½" x 1½" steel straps fastened to each side of the stud with four 16d nails. Where holes or notches larger than allowed above are required to accommodate the piping in bearing studs, engineering calculations shall be submitted in all cases to show that the stresses allowed by this Chapter are not exceeded under the design loads."

AH. Section 2717(h) 6. Add to last sentence:

"When depth of member at bearing exceeds eight inches (8")."

AI. Chapter 29. Table 29A.

Change the figures in the last column to read "thirty inches (30")", in each case.

AJ. Section 2907(b). Add the following to the exceptions:

"3. Open sides of existing patios, carports and porches may be enclosed with walls of light nonbearing construction (glass, plastic, wood, screen, metal or other light materials) without providing the required thirty inch (30") deep foundation. If the roof span is more than twelve feet (12'), the foundations at columns and bearing walls must be thirty inches (30") below finish grade. Where such enclosures are provided with a heat source (other than solar heat), they shall be considered as habitable rooms and shall comply with all other provisions of this Code.

4. In existing dwellings, the replacement of garage doors with walls (except masonry) does not require the installation of a thirty inch (30") deep footing across the door opening.

5. A detached wood frame garage, not exceeding three hundred fifty square feet (350 sq. ft.) in area, in connection with an R-3 occupancy may be constructed on a thickened-edge slab with the thickened edge extending twelve inches (12") below finish grade."

AK. Section 2907(d)5. Delete:

Paragraph 5 Foundation Elevation.

Add to Chapter 29.

AL. Section 2910. Add the following Section:

"Sub-surface drains: Where drains are provided for the collection of rain, surface or sub-surface water, such drains shall not be connected to or discharged into the building sewer drain."

AM. Section 3004(c). Add as a second paragraph:

"Metal ties shall be placed as follows:

▶▶Vertical▶Vertical◀
 ▶Horizontal▶(3" brick)▶(Other)
 ▶
 ▶32"oc▶12"oc▶16"oc◀
 ▶24"oc▶16"oc▶20"oc◀
 ▶16"oc▶24"oc▶24"oc
 ▶

"When veneer is attached to wood frame construction, ties shall be secured to studs."

AN. Section 3202(b)1. Delete paragraph 1 and substitute:

"1. Ordinary roof coverings may be used on buildings of Group R, Division 3 or Group M Occupancies, except that when buildings are connected and contain more than one (1) R-3 dwelling unit, roof covering shall conform to the requirements for Group R, Division 1 Occupancies."

AO. Section 3202(d)3B AND 3G.

"(d) Acceptable practice regarding roofing and re-roofing.

1. A maximum of three asphalt or combination of asphalt and wood shingle roof coverings are permitted on any roof. Not more than one (1) layer of wood shingles shall be permitted over existing wood shingles. The design deadload of the roof shall consider the weight of all three roof coverings.

2. The only face nailing permitted is as follows:

AO) a. The rake of the roof on "Tee Lock" shingles only.

b. The ridge cap on all types of shingles with a maximum exposure of five and one half inches (5½") or less, as per manufacturer's specifications.

c. Flashings at clear story: If shakes are used, a soldier course is required over the flashing to nail through. When face nailing the flashing on asphalt shingled roofs, the nail heads must be covered with mastic.

3. Roof jacket must be raised and properly re-installed, or new jacks must be installed.

4. Post permit on outside of building."

AP. Section 3203(d)3 G and (H). Add:

"Only No. 1 grade wood shakes and shingles may be used."

Delete: Footnote No. 1 to Table 32-A in its entirety.

AQ. Section 3304(c). Add the following to the first paragraph:

"Special knowledge or effort means any locking or latching device which requires use of more than one hand or more than one operation of the locking or latching device to unlock or unlatch and open the exit door."

AR. Section 3305(g). Add the following exception:

"7. Office building not exceeding seven thousand, five hundred square feet (7,500 sq. ft.) per floor, not exceeding two floors, and entirely of fire resistive or noncombustible construction."

AS. Section 3306(j) Exception 3. Delete and insert:

"Stairways having less than four risers need not have handrails."

AT. Section 3310(b). Add the following exception:

"3. In buildings more than two (2) stories in height and located in areas where the fire department lacks adequate equipment to per-

AT) form rescue operations from the exterior above the second story, all exits shall be smokeproof enclosures. One of the smokeproof enclosures shall be used to meet the requirements of Section 3306(o)."

AU. Section 3403. Add the following exception after the first paragraph:

"EXCEPTION: Within individual dwelling units of R-1 occupancies and in R-3 occupancies, tempered glass skylights twenty-four inches (24") by seventy-two inches (72") or less may be used without a screen below the skylight.

AV. Section 3701. Add:

"All wood (or coal) burning "stoves" shall conform to the requirements of this Chapter and the Uniform Mechanical Code. A building permit is required for such installation."

AW. Add a footnote Table 38A:

"8) Enclosed malls shall be provided with a Class 1 standpipe. The Class 1 standpipes shall be a minimum of four inch (4") pipe connected to fire department connection outside the mall. Fire department connections shall be spaced so that they are not over one hundred fifty feet (150') apart and each fire department connection shall be equipped with an approved shut-off valve with a two and one-half (2½) outlet connection. Fire department connections and detailed requirements shall be in accordance with the UBC Standards."

AX. Add a footnote to Table 38A:

"7) A Class II standpipe shall be installed where any floor is more than twenty feet (20') above grade for more than fifty percent (50%) of the perimeter and located in areas where the fire department lacks adequate equipment to perform firefighting operations from the exterior."

AY. Section 4405. Add a second paragraph:

"Prior to commencement of any wrecking operations, the applicant shall contact the responsible utility company and obtain permission for such disconnection, and instruction as to the methods for such

disconnection and securing of all utilities in order to obtain final inspection and approval of completion of the wrecking permit. The contractor shall provide the Department with proof that all utilities have been secured in accordance with the requirements of the responsible utility company."

AZ. Section 4409. After the second paragraph, add:

"A wrecking permit shall be obtained prior to commencement of any operation.

Where the wrecking time is so short that walkways and fences are not justified, the applicant may choose to provide 24 hour continuous guard service adequate for the protection of the public. This option must be approved by the Building Official.

Demolition by means of explosives or by burning is not permitted except when specifically approved by the Building Official.

Construction and demolition operations shall be in compliance with fire department regulations."

BA. Add new Section 4410.

"Section 4410. Clean Up. After completion of construction or demolition work, all trash, debris and construction material shall be removed from the site. All holes in the ground, basements or cellars shall be filled with compacted, clean earth and the site shall be left in a clean, smooth condition. Excavations shall not be backfilled with debris or construction material, but, when approved by the Building Official, existing structurally sound walls below grade and basement slabs may be left in place.

When basement slabs are to be left in place, they shall be broken up or drilled in such manner as to allow proper drainage after they are backfilled. Backfilling of or fences around such excavations are not required where the sides of the excavations are cut back to a slope not to exceed 3 horizontal to 1 vertical. Where excavations are to be left open because of future construction the wrecking contractor shall provide a barricade for a period not to exceed three (3) days, after which the owner of the land shall provide a permanent fence.

BA) All debris shall be disposed of only in approved areas designated by the Building Official."

BB. Add a new Section 4411.

"Section 4411. Dust Control. Dust shall be controlled by water in accordance with Health Department Regulations."

BC. Section 4506(b). Exception 2.

"A fixed awning not more than ten feet (10') in length nor more than six feet (6') in width, constructed of metal frame with canvas covering, adequately anchored to a substantial concrete slab need not meet live nor wind load requirements.

BD. Chapter 32 in the Appendix.

Section 3212(2) and (3).

"Only No. 1 grade wood shakes and wood shingles may be used".

Add new Section 3213.

"Section 3213 Acceptable practice regarding roofing and re-roofing.

1. A maximum of three asphalt or combination of asphalt and wood shingle roof coverings are permitted on any roof. Not more than one (1) layer of wood shingles shall be permitted over existing wood shingles. The design deadload of the roof shall consider the weight of all three roof coverings.

2. The only face nailing permitted is as follows:

a. The rake of the roof on "Tee Lock" shingles only.

b. The ridge cap on all types of shingles with a maximum exposure of five and one half inches (5 ½") or less, as per manufacturer's specifications.

c. Flashings at clear story: If shakes are used, a soldier course is required over the flashing to nail through. When face nailing the flashing on asphalt shingled roofs, the nail heads must be covered with mastic.

BD) 3. Roof jackets must be raised and properly re-installed, or new jacks must be installed.

4. Post permit on outside of building." (Ord. 86-157)

16-2-104: **APPLICATION:** This Part 1 shall apply to every building or structure within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-105: **INTERPRETATION:** This Part 1 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulation contained herein. Article and section headings of this Part 1 and adopted Uniform Building Code and the Uniform Building Code Standards shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or extent of provisions of any article or section thereof. (Ord. 86-157)

16-2-106: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

CHAPTER 16 BUILDING
ARTICLE 2 BUILDING CODES
PART 2 UNIFORM MECHANICAL CODE

SECTION:

16-2-201: Short Title
 16-2-202: Code Adopted by Reference
 16-2-203: Additions and Modifications
 16-2-204: Application
 16-2-205: Interpretation
 16-2-206: Sale of Copies

16-2-201: **SHORT TITLE:** This Part 2 may be known and cited as the Uniform Mechanical Code. (Ord. 86-157)

16-2-202: **CODE ADOPTED BY REFERENCE:**

Pursuant to title 31, article 16, part 2, C.R.S., as amended, there is hereby adopted by reference the Uniform Mechanical Code of the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, 1985 Edition. Three (3) copies of such Code are now filed in the office of the Clerk of the City and may be inspected during regular business hours. The above Code is being adopted as if set out at length save and except the following sections which are declared to be inapplicable and are therefore expressly deleted.

A. Sections 201, 203 through 305 inclusive. (Ord. 86-157)

16-2-203: **ADDITIONS AND MODIFICATIONS:**

The said adopted Code is subject to the following additions and modifications:

(DO NOT COUNT EXCEPTION PROVISIONS AS SEPARATE PARAGRAPHS)

A. Section 103. Paragraph 5: Delete and Insert:

"Appendix B shall be considered as part of this Code."

B. Section 503. Paragraph (c): Add Exceptions 5, 6, and 7:

"5. Connector shall be of the shortest suitable length and have no bends or turns in excess of 180 degrees."

"6. When connectors are used to connect a fixed appliance, the piping from the control valve to the outside of the case shall be rigid."

"7. The rigid gas piping supplying the connector shall be solidly supported within two feet (2') of the joint between the piping and the connector."

C. Section 508. Add:

"Gas appliances shall not be installed in a room used or designed to be used as a bedroom, bathroom, closet or in any enclosed space with access through such room or space. EXCEPTION:

1. Direct vented gas appliances may be installed in any location compatible with its listing.

2. Listed gas fireplaces may be installed in a bedroom if additional combustion air is provided from either outside the building or from other freely communicating interior spaces (transfer grill shall be sized at one (1) square inch per one thousand (1,000) BTU/Hr. and located within twelve inches (12") of the ceiling)."

"Access to appliances located in an attic or under floor crawl space may be through a closet."

"Access to gas appliances installed in under floor spaces shall not be through the garage."

D. Section 601. Add:

"c. Relief Air. In addition to the following

- D) combustion air requirements, all R occupancies heated by fuel-burning forced warm air systems shall be provided with a relief air duct admitting outside air to the cold air return of the heating system. Generally, this duct should be connected to the return at the furthest most point of the return air system. This duct shall be a minimum of four inches (4") in diameter when serving an appliance with an input rating of ninety-five thousand (95,000) BTUH or less and shall be a minimum of six inches (6") in diameter when serving an appliance with an input rating of more than ninety-five thousand (95,000) BTUH. When such ducts pass through a heated space, they shall be insulated to prevent condensation. EXCEPTION: Relief air ducts may be omitted when outside combustion air is provided in accordance with Section 607 (c) paragraph 2 or 3."
- E. Section 606. Add:
- "When a clothes dryer is located in the same room with gas appliances, the combustion air requirements shall be increased by two hundred thousand (200,000) BTUH to insure an adequate supply of exhaust and combustion air."
- F. Section 707. Add:
- "(c) Private Garages. Any warm air duct opening installed in a private garage shall be not less than eighteen inches (18") above the floor."
- G. Section 801. Add:
- In the referenced section, add to the listing of appliances cited... "water heaters".
- H. Section 802. Add:
- In the referenced section, add to the listing of appliances cited... "water heater". In paragraph 3, Item (2), add "(excluding water heaters)", and in Item (6), change "eighteen inches (18") to "sixty-six inches (66)".
- I. Section 803. Paragraph 2, Including subparagraphs 1, 2, 3, and 4: Delete and Insert:
- "Gas logs that are not part of a listed gas fireplace are prohibited."
- J. Section 804. Paragraph (a), (b), and (c): Delete and Insert:
- "Floor furnaces are prohibited."
- K. Section 906. Paragraph (d):
- Change vent termination height to "3 feet". Change MINIMUM VERTICAL DISTANCE... line in Figure No. 1 to three feet (3').
- L. Section 906. Paragraph (e):
- Change vent termination height to "3 feet".
- M. Section 1005. Paragraph 1: Delete and Insert:
- "Every supply and return-air duct and plenum of a heating or cooling system shall be thermally insulated as set forth in the current Model Energy Code. Ducts and plenums used exclusively for evaporative cooling systems are exempt."
- N. Section 2003 (a): Delete and Insert:
- "Where required. Hoods shall be installed at or above all residential and commercial type deep fat fryers, broilers, fry grills, steam-jacketed kettles, hot-top ranges, ovens, barbecues, rotisseries, dishwashing machines and similar equipment which produces comparable amounts of steam, smoke, grease or heat in a commercial food-processing establishment. For the purpose of this section a commercial food processing establishment shall include any building or portion thereof used for the processing of food for sale or for institutional consumption. Specifically exempt are dwelling units and other R-3 occupancies using residential-type equipment, such as Family Care Homes of ten occupants or less and lodging houses. Other kitchens with residential-type equipment not considered to be commercial food-processing establishments will also be exempt."
- O. Section 2004. Paragraph (b): Add:
- "Providing along the path of exit from the hood a clearly identifiable and readily accessible means to manually activate the fire extinguishing system."

- O) The operation of the extinguishing system shall automatically shut off all sources of fuel and heat to the equipment protected by the extinguishing system. Automatic valves and cut-off devices shall be readily accessible for resetting or replacement."
- P. APPENDIX B, Section 2106. Add:
 "(f) Backflow Prevention. An approved backflow prevention device shall be installed on any piping between the hydronic system and the potable water source."
- Q. APPENDIX B, Section 2123. Paragraph 2, Including Exception and 3: Delete.
- R. APPENDIX B, Section 2124, 2125, and 2126: Delete.
- S. APPENDIX B, Section 2203. Paragraph 3: Delete.
- T. APPENDIX B, Section 2206. Paragraph (b) and (c): Delete and Insert:
 "(b) Required Inspections. The permit holder shall furnish the necessary apparatus to conduct the required tests for the following inspections.
 "1. New or Altered Gas Piping Inspection. This inspection shall be made after all gas piping authorized by the permit has been installed, and before any such piping has been covered or concealed or any fixture, appliance or shut-off valve has been attached thereto. In some cases, at the discretion of the Building Official, an additional test may be required when all interior finish work has been completed. The gas piping shall be subjected to an air pressure test of fifty (50) psig for a period of twenty-four (24) hours with no perceptible loss of pressure."
 "2. Disconnected Gas Piping Inspection. When existing gas piping is disconnected from the source of supply (gas meter removed, etc.) for more than sixty (60) days, the piping shall be retested in accordance with the requirements of paragraph 1 above.
 "3. Emergency Gas Piping Inspection. When the degree of urgency dictates a test of a shorter duration, the Building Official may approve an air pressure test of one hundred (100) psig for a period of at least fifteen (15) minutes."
- U. APPENDIX B, Section 2212: Change the last sentence of the first paragraph to read:
 "Approved PE pipe and plastic fitting shall be used in exterior buried piping systems."
- V. APPENDIX B, Section 2213. (a): Add:
 "Metallic or plastic bushings shall not be used. Exterior buried joints shall be made with approved plastic fittings."
- W. APPENDIX B, Section 2213. (b): Add:
 "Gas piping installed underground shall have a minimum of eighteen inches (18") of earth cover and shall not be in a ditch with any other utility line."
 "c as piping shall enter and exit the building at a point at least six inches (6") above finish grade. Where exterior buried gas piping passes under a paved area adjacent to the building, the pavement adjacent to the riser will be removed to provide at least two inches (2") of clearance and a vent installed.
 "Gas piping must be welded if any of the following conditions exist: (1) It is concealed within the structure. (2) It is located in an above ceiling air plenum. (3) The design operating pressure exceeds five pounds per square inch gage (5 psig). Welded gas piping shall be marked with the stamp of the certified welder on a filed spot on the building gas piping inlet."
- X. APPENDIX B, Section 2213. (d): Delete.
- Y. APPENDIX B, Section 2213. (j): Delete and Insert:
 (j) "Barbecues or Fireplaces. Gas piping is not permitted on interior barbecues or fireplaces. Gas may be piped to a listed gas fireplace."
- Z. APPENDIX B, Section 2213. (m): Delete and Insert:
 "(m) Directional Changes. Changes in direction of gas pipe may be made by the use of fittings, factory bends or field bends.
 "Metallic Pipe: (1) Bends shall be made only with bending equipment and procedures especially intended for that purpose."

- Z) (2) All bends shall be smooth and free from buckling, cracks or other evidence of mechanical damage.
 (3) The longitudinal weld of the pipe shall be near the neutral axis of the bend.
 (4) Pipe shall not be bent through an arc of more than ninety (90) degrees.
 (5) The inside radius of a bend shall be not less than six (6) times the outside diameter of the pipe.

"Plastic Pipe: (1) Plastic pipe may be bent provided the pipe is not damaged and the internal diameter of the pipe is not effectively reduced.

(2) The radius of the inner curve of such bends shall not be less than twenty (20) times the outside diameter of the pipe.

(3) When the piping manufacturer specifies the use of special bending equipment or procedures, such equipment or procedures shall be used."

AA. APPENDIX B, Section 2213. (o): Add:

"(o) Electrical Bonding and Grounding: Each above-ground portion of a gas piping system upstream from the appliance shutoff shall be electrically continuous and bonded inside the structure to any grounding electrode, as defined by the National Electrical Code, ANSI/NFPA 70. Gas piping shall not be used as a grounding electrode."

AB. APPENDIX B, Section 2214: Add Exceptions 8, 9, and 10:

"8. Connectors shall be of the shortest suitable length and have no bends or turns in excess of one hundred eighty (180) degrees.

"9. When connectors are used to connect a fixed appliance, the piping from the control valve to the outside of the case shall be rigid.

"10. The rigid gas piping supplying the connector shall be solidly supported within two feet (2') of the joint between piping and connector."

AC. APPENDIX B, Section 2215: Add:

"Each liquefied petroleum gas installation shall be limited to gas container(s) not to exceed a total aggregate water capacity of two thousand (2,000) gallons. Small containers under one

- AC) hundred twenty-five (125) gallons total aggregate water capacity shall not be manifolded together except for trailers or campers less than forty feet (40'). In these cases the containers shall be tongue or locker mounted and have a total aggregate water capacity not exceeding forty (40) gallons.

"Containers shall be located with respect to buildings or lines of adjoining property which may be built upon in accordance with the following table:

CONTAINER CAPACITY (U.S. Gallons)	MINIMUM DISTANCE (Feet)
Less than 100.....	5
100 to 500.....	10
501 to 1200.....	25
Over 1200.....	50

"Containers shall be located no closer than 10 feet from the nearest street line or sidewalk."

"Containers located in areas such as alleys, driveways, or other areas where they may be subject to physical damage by vehicles shall be protected." (Ord. 86-157)

16-2-204: **APPLICATION:** This Part 2 shall apply to every building or structure within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-205: **INTERPRETATION:** This Part 2 shall be interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and section headings of this Part 2 and adopted Uniform Mechanical Code, shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or extent of provisions of any article or section thereof. (Ord. 86-157)

16-2-206: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

CHAPTER 16 BUILDING
ARTICLE 2 BUILDING CODES
PART 3 UNIFORM SIGN CODE

SECTION:

16-2-301: Short Title
 16-2-302: Code Adopted by Reference
 16-2-303: Additions and Modifications
 16-2-304: Application
 16-2-305: Interpretation
 16-2-306: Sale of Copies

16-2-301: **SHORT TITLE:** This Part 3 may be known and cited as the Uniform Sign Code. (Ord. 86-157)

16-2-302: CODE ADOPTED BY REFERENCE:

Pursuant to title 31, article 16, part 2, C.R.S., as amended, there is hereby adopted by reference the Uniform Building Code, Volume V, Signs, of the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, 1985 Edition. Three (3) copies are now filed in the office of the Clerk of the City, and may be inspected during regular business hours. The above Code is being adopted as if set out at length. (Ord. 86-157)

16-2-303: ADDITIONS AND MODIFICATIONS:

The said adopted Code is subject to the following additions and modifications:

- A. Section 103(c). Appeals. Delete the first paragraph and substitute the following:

“As provided under Section 16-1-105 of this Code.”

- B. Section 401(a) General. Add a third paragraph:

“Nonconstrained signs having a wind moment at the base of seventy-five thousand (75,000) foot pounds or more shall be designed by or under direct supervision of an engineer registered in the State of Colorado. All plans and drawings submitted for the purpose of obtaining a building permit shall bear the seal of said engineer. (Ord. 86-157)

16-2-304: **APPLICATION:** This Part 3 shall apply to every building or structure within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-305: **INTERPRETATION:** This Part 3 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and section headings of this part 3 and the adopted Uniform Sign Code shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or extent of the provisions of any article or section thereof. (Ord. 86-157)

16-2-306: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 2 BUILDING CODES

PART 4 UNIFORM PLUMBING CODE

SECTION:

16-2-401: Short Title
 16-2-402: Code Adopted by Reference
 16-2-403: Additions and Modifications
 16-2-404: Application
 16-2-405: Interpretation
 16-2-406: Sale of Copies

16-2-401: **SHORT TITLE:** This Part 4 may be known and cited as the Uniform Plumbing Code. (Ord. 86-157)

16-2-402: CODE ADOPTED BY REFERENCE:

Pursuant to title 31, article 16, part 2, C.R.S., as amended, there is hereby adopted by reference the Uniform Plumbing Code of the International Plumbing and Mechanical Officials, 5302 Alhambra Avenue, Los Angeles, California 90032, 1985 Edition. Three (3) copies of each are now filed in the office of the Clerk of the City and may be inspected during regular business hours. The above Code is being adopted as if set out at length, to include the IAPMO Installation Standards, save and except the following:

- A. Part One Administration.
- B. Chapter 12 (Fuel gas piping).
- C. Chapter 13 (Water heaters and vents).
- D. Appendix I (Private sewage disposal systems). (Ord. 86-157)

16-2-403: ADDITIONS AND MODIFICATIONS:

The said adopted Code is subject to the following additions and modifications:

- A. Section 121. Add:

“(d) A trough urinal is a multi-stationed urinal so constructed that its trap is located below the floor.”

- B. Table A-PLUMBING MATERIAL STANDARDS:

“ABS-PVC piping and fittings shall be a minimum of schedule 40.”

- C. Section 310. Add:

“(h) The penetration of supply and return air ducts or plenums by drainage, waste, and vent piping shall be as set forth in the Mechanical Code or as otherwise approved by the Building Official.”

- D. Section 315. Delete (b) and insert:

“(b) All piping in connection with a plumbing system shall be so installed that piping or connections will not be subject to undue strains or stresses and provisions shall be made for expansion, contraction, and structural settlement. No piping shall be directly embedded in concrete, masonry walls, or footings. No structural member shall be seriously weakened or impaired by cutting or notching. Piping passing through concrete, masonry walls, or footings shall be properly sleeved.

“Notches on the ends of joists shall not exceed one-fourth ($\frac{1}{4}$) the joist depth. Holes bored in joists shall not be within two inches (2”) of the top or bottom of the joist and the diameter of any such hole shall not exceed one-third ($\frac{1}{3}$) the depth of the joist. Notches in the top or bottom of joists shall not exceed one-sixth ($\frac{1}{6}$) the depth and shall not be located in the middle one-third ($\frac{1}{3}$) of the span.

“In exterior walls and bearing partitions, any wood stud may be cut or notched to a depth not exceeding twenty-five percent (25%) of its width. Cutting or notching of studs to a depth not greater than forty percent (40%) of the width of the stud is permitted in nonbearing partitions supporting no loads other than the weight of the partition.

“A hole not greater in diameter than forty percent (40%) of the stud width may be bored

- D) in any wood stud. Bore holes not greater than sixty percent (60%) of the width of the stud are permitted in nonbearing partitions or in any wall where each bored stud is doubled provided not more than two such successive doubled studs are so bored.

"In no case shall the edge of the bored hole be nearer than five-eighths ($\frac{5}{8}$) of an inch to the edge of the stud. Bore holes shall not be located at the same section of the stud as a cut or notch.

"Stud partitions containing plumbing pipes shall be so framed and the joists underneath so spaced as to give proper clearance for the piping. Where a partition containing such piping runs parallel to the floor joists underneath such partitions shall be doubled and spaced to permit the passage of such pipes and shall be bridged.

"Where plumbing pipes are placed or partly in a partition, necessitating the cutting of the soles or plates, a metal tie not less than one-eighth ($\frac{1}{8}$) inch thick and one and one-half ($1\frac{1}{2}$) inches wide shall be fastened to the plate across and to each of the openings with not less than four 16d nails.

"Good workmanship is required in all cases. Studs having holes or notches larger than required to accommodate the piping shall be replaced. Where holes larger than indicated above are required to accommodate the piping in nonbearing studs, such studs may be reinforced by the addition of one-eighth inch by one and one-half inch ($\frac{1}{8}$ " x $1\frac{1}{2}$ "') steel straps fastened to each side of the stud with four (4) 16d nails. Where holes or notches larger than allowed above are required to accommodate the piping in bearing studs, engineering calculations shall be submitted in all cases to show that the stresses allowed are not exceeded under the design loads."

- E. Section 315. Add:

"(g) Traps may not be located in any unheated space or cantilevered. Where a fixture is located over a cantilever, the trap for that fixture shall be installed meeting the following requirements:

"1) The trap must be located immediately inside the heated space of the building.

- E) "2) A separate vent for the trap must be installed immediately downstream of the trap.

"3) No fixture may wet vent this trap.

"4) This trap may not be used as a wet vent for another fixture.

"5) The maximum vertical drop shall not take place at the trap inlet."

FIGURE 315-1

- F. Section 318 (b):(3) Change: 10' to 5'.

- G. Section 405 (b): Add to the last sentence:

"applicable to pumped discharge appliances only".

- H. Table 4-3: Correct to read:

"Maximum fixture units on one and one-half ($1\frac{1}{2}$) vertical drain pipe is three (3).

Maximum fixture units on one and one-half ($1\frac{1}{2}$) horizontal drain pipe is two (2)".

Amend footnote four (4) to read:

"Only four (4) water closets or six (6) unit traps allowed on any vertical pipe. No more than two (2) water closets on any three inch (3") building drain or horizontal branch".

- I. Table 4-1: Place a double asterisk by "floor drains" and add as a second footnote (**) the following:

"(**) A backwater valve shall be required on all floor drains located in a concealed space such as a crawl space, for maintaining its water seal. Floor drains shall be accessible."

J. Table 4-1. Amend to read:

“(a) Sinks or dishwashers (residential) (two inch (2'') minimum waste) one (1) one and one-half inch (1½'') trap: two (2) fixture units.

“(b) Sinks and dishwashers (residential) (two inch (2'') minimum waste) one (1) two inch (2'') trap: four (4) fixture units.

K. Section 505. Add:

“(g) The vent for a water closet (wet or dry) may be taken off the vertical stub to the water closet if made through a combo or a Y and a one-eighth (⅛) bend fitting”.

L. Section 613. Delete the word:

“Vertical”.

M. Section 613 (a). Delete and insert:

“(a) Wet venting is allowed in drainage piping receiving the discharge from the trap arm of one (1) and two (2) fixture unit fixtures. All wet vented fixtures shall be on the same floor level: Each wet vented section shall be a minimum of two inches (2'') and not more than four (4) fixture units shall be drained into any two inch (2'') wet vented section. The fixture units draining into a three inch (3'') or larger wet vented section shall be regulated by Table 4-3.”

N. Section 613 (b). Delete the word:

“Vertical”.

O. Section 614. Delete the second paragraph and add:

“Venting for island sinks or similar fixtures shall be done in accordance with either Figure 614-1 or Figure 614-2 A or B.”

P. Section 615. Add:

“(h) One (1) floor drain may be installed in a structure using an approved combination waste and vent system.”

Q. Section 708 (b). Add:

Figure of sand trap or a grease interceptor.”

FIGURE OF A SAND TRAP OR GREASE INTERCEPTOR

Note #1. The lid opening into a sand trap or grease interceptor shall be accessible.

Note #2. Location of sand trap or grease interceptor depends on fire regulations and other considerations.

Note #3. If a gas tight cover is provided, the trap may be installed inside of the structure.

Note #4. Dimension B is a minimum of two feet (2') for sand traps only.

Note #5. Dimension C is a maximum of eighteen inches (18'') for combination oil and sand traps.

Note #6. Outlet must connect to the sanitary sewer or other approved point of disposal.

- Q) Note #7. Inlet and outlet for oil and sand traps must be a minimum of four inches (4").

Note #8. Minimum capacity of oil and sand interceptor shall be six (6) cubic feet, plus one (1) cubic foot for each vehicle washed during a twenty four (24) hour period.

Note #9. This drawing can be typical for a grease interceptor if dimension C is six inches (6"). Capacities of interceptors shall be as specified in Table 7-2 of the 1985 Uniform Plumbing Code, page 59.

Note #10. Vents for sand and grease traps must be sized as per Table 4-3, but in no case less than two inches (2").

Note #11. The inlet to the sand trap must be four inches (4") higher than the outlet.

- R. Section 708 (e). Location: Add to paragraph:

"Where the interceptor is located outside the building, the plumbing between the building waste piping and the interceptor shall comply with the requirements of the applicable sanitation district in which the interceptor is being installed.

- S. Add Section 714. Special Interceptors:

"(a) Laundries. Commercial laundries being those operated as facilities for the general public and as a business for nonresidential use, shall be equipped with an interceptor installed as per figure 714-1 or 714-2.

FIGURE 714-1

FIGURE 714-2

"(b) Privage garages. Private garages (M Occupancy) that have drains shall be required to install an approved interceptor. No drain containing a "P" trap shall be installed in any garage."

- T. Section 907. Add:

"(g) Access to Toilets and Other Facilities.

- T) "Access to water closets. Each water closet stool shall be located in a clear space not less than thirty inches (30") in width and have a clear space in front of the water closet stool of not less than twenty four inches (24").

"Where toilet facilities are provided on any floor where access by the physically handicapped is required by Table 33-A of the UBC, at least one such facility for each sex or a separate facility usable by either sex shall comply with requirement of this section. Except in dwelling units and guest rooms, such facilities must be available to all occupants and both sexes. All doorways leading to such toilet rooms shall have a clear and unobstructed width of not less than thirty two inches (32"). Each such toilet room shall have the following:

"1) A clear space of not less than forty four inches (44") on each side of the doors providing access to the toilet rooms. This distance shall be measured at right angles to the face of the door when in the closed position. Not more than one door may encroach into the forty four inch (44") space.

"2) Except in dwelling units and guest rooms, a clear space within the toilet room of sufficient size to inscribe to a circle with a diameter not less than sixty inches (60"). The door in any position may encroach into this space by not more than twelve inches (12").

"3) A clear space not less than forty two inches (42") wide and forty eight inches (48") long in front of at least one (1) water closet stool for the use of the handicapped. When such water closet stool is within a compartment, entry to the compartment shall have a clear width of thirty two inches (32") when located at the end of the compartment and a clear width of thirty four inches (34") when located at the side of the compartment. A door, if provided, shall not encroach into the required space in front of the water closet. Except for door swing, a clear unobstructed access not less than forty eight inches (48") in width shall be provided to toilet compartments designed for use by the handicapped.

"4) Grab bars near each side or one side and the back of the toilet stool securely attached thirty three inches (33") to thirty six inches (36") above and parallel to the floor. Grab bars at the side shall be forty two inches (42") long

- T) with the front end positioned twenty four inches (24") in front of the water closet stool. Grab bars at the back shall not be less than twenty four inches (24") long for room installations and thirty six inches (36") long where the water closet is installed in a stall. Grab bars shall have an outside diameter of not less than one and one-fourth inches (1 1/4") and shall provide a clearance of one and one-half inches (1 1/2") between the grab bar and adjacent surface. Grab bars need not be provided in Group R Division 1 apartment houses.

"5) When it can be established that the facilities are usable by a person in a wheel chair, dimensions other than those above shall be acceptable.

"6) LIMITED HANDICAP REQUIREMENTS: Toilet facilities in H occupancies and toilet facilities in B occupancies with an occupant load of fifty (50) persons or less may comply with the following: In toilet rooms without compartments a clear and unobstructed access of not less than thirty two inches (32") nominal and clear space, unobstructed by door swing, grab bars and similar items of not less than thirty two inches (32") shall be provided in front of the toilet stool. Grab bars shall be provided as required in item four (4) above."

- U. Section 907: Add:

"(H) Access to Lavatories, Mirrors and Towel Fixtures.

"In other than Group R, Division 3 Group M, Group R Division 1 apartment houses and Group B Division 2 and 4 storage occupancies, toilet room facilities shall be as follows:

"1) Except for the projection of bowls and waste piping, a clear unobstructed space of thirty inches (30") in width, twenty nine inches (29") in height and seventeen inches (17") in depth shall be provided under at least one (1) lavatory.

"2) Where mirrors are provided, at least one shall be installed so that the bottom of the mirror is within forty inches (40") of the floor.

"3) Where towel and disposal fixtures are provided, they shall be accessible to the physically handicapped and at least one shall be within forty inches (40") of the floor."

- V. section 907:

"(i) Water Fountains.

"1) Where water fountains are provided for the physically handicapped at least one shall have a spout within thirty three inches (33") of the floor and shall have up-front, hand-operated controls. When fountains are located in an alcove, the alcove shall be not less than thirty two inches (32") in width."

- W. Section 910. Delete and insert:

"Each building shall be provided with sanitary facilities as prescribed by Appendix C of this Code."

- X. Section 1003. Add to first paragraph:

"All devices installed for the prevention of backflow shall be as required by the serving water supplier and shall be accessible for repair and/or testing."

- Y. Section 1004 (a). Add:

"All plastic cold water distribution piping outside of a building shall be installed with a fourteen (14) gauge tracer wire."

- Z. Section 1007 (e). Delete and insert:

"(e) Relief valves located inside a building shall be provided with a full size drain of approved material and fittings, and shall extend from the valve to an approved location with the end of the pipe not more than eight inches (8") or less than six inches (6") above grade and pointing downward. No part of such drain shall be trapped and the terminal end of the drain pipe shall not be threaded. No part of the drain pipe shall be run to the outside of the structure."

- AA. Section 1008 (a). Change wording in last paragraph to read:

"All water service piping shall be installed at a minimum of five feet (5') below grade."

- AB. Section 1106. Add Exception:

"All plastic piping shall be laid at not less than one-fourth inch (1/4") slope per foot."

AC. APPENDIX C. Add:

"TYPE OF BUILDING OCCUPANCY.

Others (Colleges, Universities, Adult Centers, etc.)

Water closets - Male, 1 per 40; Female, 1 per 40.

Urinals - Male, 1 per 40.

Lavatories - 1 or (19)

Drinking fountains - 1 for each 75 persons

Other fixtures - 1 stop sink per floor"

FOOTNOTES TO APPENDIX C

1) Every building or portion thereof where persons are employed shall be provided with at least one (1) water closet. Separate facilities shall be provided for each sex when the number of employees exceed four (4), and both sexes are employed. (Minimum employee count shall be based on square foot of the space.) Where more than one (1) water closet is installed in a room, they shall be separated by an approved partition wall. Such toilet facilities shall be located either in such building or conveniently in a building adjacent thereto on the same property.

2) Where urinals are provided for the women, the same number shall be provided as for men. Urinals for women may be installed as an auxiliary or supplemental fixture. The fixture shall not be considered as a substitute for water closets: in all, the required minimum number of water closets shall be provided. The urinal for women shall be enclosed with a water closet compartment and a door to insure privacy in use.

3) The figures shown are based upon one fixture being the minimum required for the number of persons indicated or fraction thereof.

4) Twenty four lineal inches (24") of wash sink or eighteen inches (18") of circular basin, when provided with water outlets for such space, shall be considered equivalent to one (1) lavatory. When there is exposure to skin contamination with poisonous, infectious, or irritating materials, provide one (1) lavatory for each five (5) persons.

AC) 5) Drinking fountains or bubblers shall not be installed in toilet rooms.

6) Facilities shall be located convenient to the occupied area being served and in no case more than two hundred feet (200') away on the same level or more than one (1) floor removed from the occupied area.

7) Every toilet room shall have at least fourteen (14) square feet of floor area with a minimum width of three feet (3'), and at least one hundred (100) cubic feet of volume for each water closet and each urinal in addition to adequate space required for other plumbing fixtures or equipment installed within the toilet rooms. A water closet compartment in a toilet room shall not be less than thirty inches (30") in width with a clearance of not less than twenty four inches (24") between the front of the water closet and the front of the compartment.

8) If water closets to individual patient rooms or ward rooms replace centralized facilities, enclosed water closets shall be directly connected to not more than two (2) patient rooms or ward rooms serving not more than a total of four (4) beds.

9) Dwelling unit shall mean any room or group of rooms located within a dwelling and forming a single habitable unit with facilities which are used or intended to be used for living, sleeping, cooking, and eating.

10) Any single retail establishment or group of retail establishments located on the same property or with an occupant load of five hundred (500) or more shall be required to have for the public in addition to the individual shop requirements for the employees, a minimum of two (2) water closets, one (1) urinal, one (1) lavatory for the men, and three (3) water closets and one (1) lavatory for the women for the first one hundred (100) persons of each sex. For each additional five hundred (500) persons or fraction of each five hundred (500), an additional water closet and lavatory shall be added.

11) Service sinks shall not be installed in toilet rooms.

12) This chart shall include the total occupant load of the building which includes both the public and the employees. The employees and

AC) the public may use the same toilet facilities if the facilities are conveniently accessible for both the public and the employees. Conveniently accessible shall mean that the public shall not pass through the employee area and the employees shall not pass through the public area.

13) Urinals may be substituted for water closets on the basis of one (1) to one (1), but the number of urinals may not be greater than one-half ($\frac{1}{2}$) the total fixtures plus one (1) urinal.

14) For retail and wholesale establishments, the occupant load is based only on employees. If the number of employees is not known, the employees are determined by taking the total occupied area and dividing by six hundred (600). Customers shall be permitted to use the facilities provided for the employees.

15) Drive-in restaurants shall mean there are no sitting facilities within the building for consuming food.

16) Construction sites are not required to have permanent toilet facilities.

17) In residences and buildings intended for human occupancy, hot water shall be supplied to all plumbing fixtures and equipment used for bathing, washing, culinary purposes, cleaning laundry, or building maintenance.

18) In assembly occupancies, where peak use of plumbing facilities may occur, the number of plumbing fixtures required shall be doubled.

19) In assembly occupancies, there shall be a minimum of one (1) lavatory for every two (2) water closets and or urinals or fraction thereof.

20) Occupant loads are based on Table C-1.

TABLE C-1

USE	OCCUPANT LOAD FACTOR
1) Aircraft hangers (no repair).....	1000
2) Auction rooms.....	15
3) Assembly areas, concentrated use (without fixed seating).....	15
A) Auditoriums	
B) Bowling alleys (assembly areas)	
C) Churches and chapels	
D) Dance floors	
E) Lodge rooms	

F) Reviewing stands	
G) Stadiums	
4) Assembly areas (less concentrated use)	15
A) Drinking establishments	
B) Dining establishments	
C) Lounges	
D) Conference rooms	
E) Exhibit rooms	
F) Gymnasiums	
5) Children's homes and homes for the aged.....	100
6) Class rooms.....	20
7) Dormitories	100
8) Hospitals, sanitariums, and nursing homes.....	100
9) Hotels and apartments.....	400
10) Commercial kitchens.....	400
11) Library reading rooms.....	100
12) Mechanical equipment rooms.....	600
13) Nurseries for children (day care).....	70
14) Offices.....	200
15) School shops and vocational rooms.....	100

AD. Add Appendix J. Circuit and Loop Vented Systems:

"A horizontal branch, soil, or water pipe to which two (2) or more water closets (except blow-out type), pedestal urinals, shower stalls, or floor drains are connected in a battery, may be vented by a circuit or loop vent.

"When lavatories or similar fixtures discharge above such branches, each vertical branch shall be provided with a continuous vent which may be connected to the circuit or loop vent of the battery.

"The circuit or loop vent of a battery drainage system shall be installed vertically in front of the last upstream fixture. In addition, lower floor branches serving more than three (3) water closets shall be provided with a relief vent taken off vertically in front of the fixture connection.

AD) "No more than eight (8) water closets may be connected to a battery drainage system. The fixture unit valve for all fixtures shall be as listed in Table 4-1 and 4-2. The horizontal branch for its full length to the farthest fixture shall be uniformly sized as listed in Table 4-3, based on the total number of fixtures.

"The vent of a battery drainage system shall be sized for the fixture unit demand of the battery system according to Table 4-3 based on the total number of fixtures. The relief vent may be wet vented with a fixture drained vertically into the battery drainage system. Such vent shall be the same size as the circuit vent it intersects.

"All vents shall rise vertically to six inches (6") above the flood level of the highest fixture on the system before being offset horizontally or tying into another vent."

APPENDIX J

"A horizontal branch, soil or waste pipe, to which two (2) or more water closets (except blow-out type), pedestal urinals, shower stalls, or floor drains are connected in a battery, may be vented by a circuit or loop vent.

"When lavatories or similar fixtures discharge above such branches, each vertical branch shall be provided with a continuous vent which may be connected to the circuit or loop vent of the battery.

"The circuit or loop vent of a battery drainage system shall be installed vertically in front of the last upstream fixture. In addition, lower floor branches serving more than three (3) water closets shall be provided with a relief vent taken off vertically in front of the fixture connection.

"No more than eight (8) water closets may be connected to a battery drainage system. The fixture unit value for all fixtures shall be as listed in Table 4-1 and 4-2. The horizontal branch for its full length to the farthest fixture shall be uniformly sized as listed in Table 4-3, based on the total number of fixtures.

AE) "The vent of a battery drainage system shall be sized for the fixture unit demand of the battery system according to Table 4-3 based on the total number of fixtures. The relief vent may be wet vented with a fixture drained vertically into the battery drainage system, such vent shall be the same size as the circuit vent it intersects.

"All vents shall rise vertically to six inches (6''), (152.4mm), above the flood level of the highest fixture on the system." (Ord. 86-157)

16-2-404: **APPLICATION:** This Part 4 shall apply to every building or structure either within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-405: **INTERPRETATION:** This Part 4 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and Section headings of this Part 4 and adopted Uniform Plumbing Code shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, extent, or the provisions of any article or section thereof. (Ord. 86-157)

16-2-406: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

CHAPTER 16 BUILDING
ARTICLE 2 BUILDING CODES
PART 5 ELECTRICAL CODE

SECTION:

16-2-501: Short Title
 16-2-502: Code Adopted by Reference
 16-2-503: Additions and Modifications
 16-2-504: Application
 16-2-505: Interpretation
 16-2-506: Sale of Copies

16-2-501: **SHORT TITLE:** This Part 5 may be known and cited as the National Electrical Code. (Ord. 84-282)

16-2-502: CODE ADOPTED BY REFERENCE:

Pursuant to Title 31, Article 16, Part 2, C.R.S. 1973, as amended, there is hereby adopted by reference the National Electrical Code of the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts, 02210, and the National Electrical Safety Code of the Institute of Electrical and Electronic Engineers, Inc., 345 East 47th Street, New York, New York 10017, 1984 Edition. Three (3) copies are now filed in the office of the Clerk of the City of Colorado Springs and may be inspected during regular business hours. The above Code is being adopted as if set out at length. (Ord. 84-282)

16-2-503: ADDITIONS AND MODIFICATIONS:

The said Code is subject to the following additions and modifications:

- A. Section 90-7. Add a third paragraph to this subsection: "Range stub of one-inch and a dryer stub of 3/4 inch conduit shall be installed in new or remodeled houses for future use. All stubs should go to the basement if accessible, if not, to attic, and must be left in a position where it can be reached for connection. All free-standing ranges are to be on 50 ampere circuits."
- B. Add a new Section: '90-9. Application to Existing Wiring.'

- B) "(a) When any additions, alterations or renewals of existing installations are made, that portion added, altered or renewed shall be made to conform with all requirements for new building except as provided hereafter in (b) and (c).

"(b) When more than 50 percent of the lineal footage of the wiring in any building is changed, the entire wiring installation in the building shall be made to conform with all the requirements for new buildings.

"(c) When more than 50 percent of the lineal footage of the wiring of any circuit is changed, the entire circuit shall be made to conform with all the requirements for new buildings.

"(d) When any part of a wiring installation has been disconnected due to the wiring having been damaged by fire, flood etc., altered by unauthorized persons, nature, calamity, or otherwise becoming a hazard, such installation may not be reconnected without inspection and approval by the Building Official.'

- C. Section 110-111. Add as last paragraph: "Building must be dried in before work is begun on electric system (ruff-in)."

- D. Section 210-22C. Add a second paragraph:

"A furnace installation shall be made on a separate circuit."

Add an exception: "EXCEPTION: A furnace service light may be on the same circuit."

- E. Section 210-52(a). Insert after the second paragraph:

"In all habitable unfinished areas, raceways will be provided for further finishing of the areas: or spare circuits will run to an accessible area. In all habitable unfinished areas of single family dwellings, where concrete walls exceeding four (4) feet in height are to be built, conduit and

- E) boxes must be installed in such walls prior to pouring of the concrete."
- F. Table 220-2(b). Add on second footnote to Table 220-2(a):

"For dwellings, Lighting Outlets. The number of outlets per circuit shall not exceed 8 on a 15 ampere circuit nor 10 on a 20 ampere circuit."

- G. Section 220-3(b)(1): Add as last paragraph:

"One separate circuit shall be installed for supplying power to a dishwasher and/or disposal.' See 210-22(a) as a basis.

- H. Section 230-28: Change first sentence of second paragraph to read: 'A mast type riser is required if the eave of the house is less than twelve feet (12') above the finished grade. It shall be of such construction and so supported that it will withstand the strain imposed by the service drop."

- I. Section 230-70. Add after first sentence: 'Disconnecting means shall be readily accessible. Readily accessible does not include cupboards, pantries, clothes closets, baths, bedrooms, normally locked rooms or stairways. Basements or cellars without grade access may be used on written approval of the Chief Electrical Inspector only. See readily accessible in Article 100, Definitions."

- J. Section 338-2. On multi-occupancy buildings, the service from meter to panels shall be in an approved raceway.

- K. Section 384-16(a). After paragraph one add:

"A main breaker or set of fuses must be provided in the panel or the building for services regardless of whether or not the serving utility provides the same."

- L. Section 545-1(a). Add:

"Any installations that are made by electrical contractors and/or electricians not licensed by the State of Colorado may require an examination fee as specified in Section 16-3-212B of this Code and be subject to investigation under that Section." (Ord. 84-282)

16-2-504: APPLICATION: This Part 5 shall apply to every building or structure either within or outside the corporate limits of the City, the use of which the City has jurisdiction an authority to regulate. (Ord. 84-282)

16-2-505: INTERPRETATION: This Part 5 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and section headings of this Part 5 and adopted National Electrical Code shall not be deemed to govern, limit, modify or in any manner affect the scope, meaning or extent of the provisions of any article or section thereof. (Ord. 84-282)

16-2-506: SALE OF COPIES: The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 84-282)

ARTICLE 2 BUILDING CODES
PART 6 MODEL ENERGY CODE

SECTION:

16-2-601: Short Title
 16-2-602: Codes Adopted by Reference
 16-2-603: Additions and Modifications
 16-2-604: Application
 16-2-605: Interpretation
 16-2-606: Sale of Copies

16-2-601: **SHORT TITLE:** This Part 6 may be known and cited as the Model Energy Code. (Ord. 86-157)

16-2-602: CODES ADOPTED BY REFERENCE:

Pursuant to Title 31, Article 16, Part 2, C.R.S. 1973, as amended, there is hereby adopted by reference the Model Energy Code of the Council of American Building Officials, 1201 One Skyline Place, 5205 Leesburg Pike, Falls Church, Virginia 22041, 1986 Edition. The subject matter of the adopted standards include comprehensive provisions and standards regulating energy efficiency in design, construction, renovation, erection, enlargement, alteration, repair, conversion, occupancy, equipment and maintenance of certain nonresidential and residential buildings and structures for purpose of protecting the public health, safety and general welfare. Three (3) copies of each publication are now filed in the office of Clerk of the City and may be inspected during regular business hours. The above publications are being adopted as if set out at length. (Ord. 86-157)

16-2-603: ADDITIONS AND MODIFICATIONS:

The said adopted Code is subject to the following additions and modifications:

A. Add new Section 101.3.2.4:

"101.3.2.4 Renovation, alteration or repair to existing buildings.

A) "Any renovation, alteration or repair which results in, or is likely to result in fifty percent (50%) or greater increase in replacement value, as determined by the County Assessor, shall require such building or structure to conform to the following requirements:

"The combined thermal transmittance value (Uo) for the roof/ceiling shall not exceed that specified in Section 502.2.1.2 or 502.3.1.2 of this Code.

"Exterior joints around windows and door frame; openings between walls and foundations; openings at penetrations of utility services through walls, floors and roofs; and all other such openings in the building envelope shall be caulked, gasketed, weatherstripped or otherwise sealed against leakage in an acceptable manner; and

"If in the course of renovation, change of occupancy or use, the equipment identified in Section 503 through 505 of this Code is replaced, replacement equipment shall conform to the requirements specified in those Sections; or

"Computations submitted, stating that the total fossil fuel or electrical energy required in the renovated building through design utilization or nondepletable energy resources or otherwise, equals or is less than the total fossil fuel energy used if the building is renovated according to paragraph (1) above, shall be considered an acceptable alternative for conformance with the standards set forth in paragraph (1) above. Computations shall be considered acceptable when calculated by acceptable engineering procedures. Where state statutes require design by an architect or engineer, the statement of compliance shall be prepared by an architect or engineer."

B. Section 106. Delete.

C. Add new Section 107:

"107 ADMINISTRATIVE AND APPEAL PROCEDURES.

"Administrative and appeal procedures set forth in Section 16-1-105 of the Code of the City of Colorado Springs shall be applicable and followed in the administration of this Code."

D. Section 302.1. Amended by the inclusion of the following temperatures:

"Winter Design Dry-Bulb	2°F.
Summer Design Dry-Bulb	88°F.
Summer Wet-Bulb	57°F.
Degree Days Heating	6423
Degree North Latitude	38°—49'

E. Table No. 5-1: Add the following specific values:

"Walls, Heating or Cooling, TYPE A1 BUILDINGS, Uo-0.18.

"Walls, Heating or Cooling, TYPE A2 BUILDINGS, Uo-0.265.

"Roof/Ceiling, Heating or Cooling, TYPE A1 & A2 BUILDINGS, Uo-0.04.

"Floors over unheated spaces, Heating or Cooling TYPE A1 & A2 BUILDINGS, Uo-0.08.

"Heated slab on grade, Heating TYPE A1 & A2 BUILDINGS, R Value - 7.4.

"Unheated slab on grade, heating, TYPE A1 and A2 BUILDINGS R Value - 5.2."

F. Table No. 5-2: Add the following specific values:

"Walls, 3 stories or less, Heating, Uo 0.265.

"Walls, 3 stories or less, Cooling, OTTVw 33.

"Walls, 3 stories or less, Cooling, SF 126.

"Walls, over 3 stories, Heating Uo 0.32.

"Walls, over 3 stories, Cooling OTTVw 33.

"Walls, over 3 stories, Cooling SF 126.

"Roof/Ceiling, Heating or Cooling, Uo 0.072.

F) "Roof/Ceiling, Cooling OTTVr 8.5.

"Floors over unheated spaces, Heating or Cooling, Uo 0.08.

"Heated slab on grade, Heating or Cooling, R Value 7.4.

"Unheated slab on grade, Heating or Cooling, R Value 5.2'.

G. Delete paragraph 504.5.3.

H. Delete paragraph 504.8.

I. Delete last subparagraph of paragraph 604.1.2.3 starting with "Time clocks shall..."

J. Delete paragraph 604.4. (Ord. 86-157)

16-2-604: **APPLICATION:** This Part 6 shall apply to every building or structure within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-605: **INTERPRETATION:** This Part 6 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and section headings of this Part 6 and adopted publications shall not be deemed to govern, limit, modify or in any manner affect the scope, meaning, or extent of the provisions of any article or section thereof. (Ord. 86-157)

16-2-606: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

CHAPTER 16 BUILDING
ARTICLE 2 BUILDING CODES
PART 7 MOBILE HOME CODE

SECTION:

16-2-701: Short Title
 16-2-702: Permits Required
 16-2-703: Structural Connections
 16-2-704: Heating
 16-2-705: Electrical
 16-2-706: Plumbing
 16-2-707: Additions and Accessory Structures
 16-2-708: Setbacks
 16-2-709: Application
 16-2-710: Interpretation

16-2-701: **SHORT TITLE:** This Part 7 may be known and cited as the Mobile Home Code. (Ord. 86-157)

16-2-702: PERMITS REQUIRED:

- A. Mobile homes as defined in Section 14-1-109 of this Code and manufactured homes as defined in Section 14-1-109 of this Code and certified by the Department of Housing and Urban Development (hereinafter "HUD certified manufactured homes") located in the mobile home park zone as established by Section 14-3-901 of the City Code, shall be issued special permits by the Building Official, subject to requirements of the applicable building codes in effect at the time of the application. Such permits shall be revocable. The special permit shall apply only to the mobile home or HUD certified manufactured home for which it was obtained and shall not run with the land as a permitted use. Prior to the occupation of any mobile home or HUD certified manufactured home in a mobile home park, the mobile home or manufactured home shall be inspected by the Building Department and shall be in conformance with the requirements of this Part 7. Mobile homes and HUD certified manufactured homes located in mobile home parks shall not have permanent foundations, but shall be anchored in accord with Section 16-2-703.

- B. HUD certified manufactured homes and manufactured homes as defined in C.R.S. 31-23-301(5)(a)(1), as amended, certified by the Division of Local Housing of the State of Colorado in accord with C.R.S. 24-32-703(3), as amended and 8 CCR 1302-3 (Factory Built Housing Construction Certification Code of Colorado) shall be permitted in the manufactured home subdivision zone of the City as established in Section 14-3-1001 et seq. of the City Code. Prior to locating these structures in a mobile home subdivision, a building permit for each structure must be obtained and these homes shall be anchored as set forth in Section 16-2-703 below or placed on permanent foundations. If they are to be placed on a permanent foundation, such permanent foundation system shall be designed to comply with all applicable local standards by an engineer licensed to practice in the State of Colorado.

- C. State of Colorado certified manufactured homes as set out in subsection (B) above are allowed in all other residential zones of the City of Colorado Springs as set out in Chapter 14 (Zoning) of the City Code. These homes shall be placed on a permanent foundation designed to comply with all applicable local standards by an engineer licensed to practice in the State of Colorado. Prior to locating state certified manufactured homes in these residential zones, a building permit from the Regional Building Department must first be obtained."

16-2-703: STRUCTURAL CONNECTIONS:

- A. Anchoring and Blocking Systems.
1. Anchoring System: All mobile homes shall be anchored to the pad or ground by an approved anchoring system. The anchoring system shall consist of no less than four (4) approved tie downs for each unit (two [2] pairs) but shall require two (2) additional for each twenty feet (20') or portion thereof over fifty feet (50') in length. Each anchor shall be capable of withstanding a three thousand five hundred (3,500) pound force along its axis.

- A) 2. Blocking System: Blocking for support shall be as follows:

Bottom: 2—4" x 8" x 16" solid concrete blocks.

Intermediate: 8"x 8" x 16" hollow concrete blocks.

Top: 4" x 8" x 16" solid concrete blocks or 2" x 8" x 16" wood (nominal).

Shims (wood) may be used in conjunction with the above units but only to an accumulative depth of two inches (2") (nominal).

3. Axles and Tongues: Axles shall not be removed from mobile homes. Tongues may be removed and stored with the mobile home.

- B. Foundation Systems: Manufactured homes which are in compliance with the Manufactured Housing and Safety Standards Act of 1974, as amended, may be installed on permanent foundation systems in mobile home subdivisions or on privately owned tracts of land on which zoning regulations permit mobile homes. Such permanent foundations systems shall be designed to comply with all applicable local standards by an engineer licensed to practice in the State of Colorado. (Ord. 86-157)

16-2-704: HEATING: All mechanical systems, to include gas appliances and piping shall conform to the requirements of Article 2, Part 2, Uniform Mechanical Code. (Ord. 86-157)

16-2-705: ELECTRICAL: All electrical connections shall be compatible with the services provided. Any modifications shall be performed by properly licensed persons and inspected prior to connections. (Ord. 86-157)

16-2-706: PLUMBING: All plumbing shall conform to the requirements of Article 2, Part 4, Uniform Plumbing Code and the following:

- A. Water Service Connection: Water piping connection to the mobile home shall be not less than three-fourths inch (¾") nominal diameter.

- B. Sewer Connection: A watertight connection between the mobile home drainage system and the mobile home park sewer connection shall be made by means of a readily removable semi-rigid connector with a clean out. (Ord. 86-157)

16-2-707: ADDITIONS AND ACCESSORY STRUCTURES:

- A. No additions shall be made to an approved mobile home system unless the addition either meets the Building Code or is an approved system.
- B. No permit is required for patio covers and carports connected to the mobile home along one entire side and open on at least two (2) sides.
- C. A permit is required for any electrical, plumbing or mechanical work that is installed in a mobile home or any accessory structure over one hundred (100) square feet in size. (Ord. 86-157)

16-2-708: SETBACKS:

- A. 1. General. Mobile homes shall be set up in accordance with the applicable setbacks of the zoning where located.
2. In mobile home parks, mobile homes shall be no closer than:
- a. Five feet (5') from street with no infringement into setback.
 - b. Twelve feet (12') from adjacent home with no infringement into setback (both built after 1976).
 - c. Six feet (6') from property line, built after 1976.
 - d. Ten feet (10') from property line, built before 1976.

Note: No infringement except that open carports or shelters (two [2] open sides) may extend to within two feet (2') of property line.

- B. Accessory Buildings (more than two [2] sides closed). Require a building permit, inspections and plot plan.

B) 1. In mobile home park:

Five feet (5') from property line (side rear).

Twenty feet (20') from property line (front).
(Ord. 86-157)

16-2-709: **APPLICATION:** This Part 7 shall apply to every mobile home within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-710: **INTERPRETATION:** This Part 7 shall be interpreted and construed as to effectuate its general purpose to make uniform the local mobile home regulations contained herein. Article and section headings of this Part 7 shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or extent of provisions of any article or section thereof. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 2 BUILDING CODES

PART 8 UNIFORM SOLAR ENERGY CODE

SECTION:

16-2-801: Short Title
 16-2-802: Code Adopted by Reference
 16-2-803: Application
 16-2-804: Interpretation
 16-2-805: Sale of Copies

16-2-805: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-157)

16-2-801: **SHORT TITLE:** This Part 8 may be known and cited as the Uniform Solar Energy Code. (Ord. 86-157)

16-2-802: **CODE ADOPTED BY REFERENCE:** Pursuant to title 31, article 16, part 2, C.R.S., as amended, there is hereby adopted by reference the Uniform Solar Energy Code of the International Association of Plumbing and Mechanical Officials, 5032 Alhambra Avenue, Los Angeles, California 90032, 1985 Edition. Three (3) copies of such Code are now filed in the office of the Clerk of the City and may be inspected during regular business hours. The above Code is being adopted as if set out at length save and except the following sections which are declared to be inapplicable and are therefore expressly deleted:

A. Part 1. (Ord. 86-157)

16-2-803: **APPLICATION:** This Part 8 shall apply to every building or structure within or outside the corporate limits of the City, over the use of which the City has jurisdiction and authority to regulate. (Ord. 86-157)

16-2-804: **INTERPRETATION:** This Part 8 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local building or structure regulations contained herein. Article and section headings of this Part 8 and adopted Uniform Solar Energy Code shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or extent of provisions of any article or section thereof. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 2 BUILDING CODES

PART 9 APPLICATION OF REGULATIONS

SECTION:

- 16-2-901: Applicability to Buildings and Structures
- 16-2-902: Additions, Alterations or Repairs
- 16-2-903: Nonstructural Alterations or Repairs
- 16-2-904: Repairs to Roof Coverings
- 16-2-905: Existing Occupancies
- 16-2-906: Maintenance of Buildings
- 16-2-907: Alternate Materials and Methods of Construction
- 16-2-908: Modifications
- 16-2-909: Tests

16-2-901: APPLICABILITY TO BUILDINGS AND STRUCTURES:

- A. Existing Buildings. Buildings or structures to which additions, alterations or repairs are made shall comply with all the requirements for new buildings or structures except as specifically provided in this Part. The value or valuation of a building shall be the estimated cost to replace the building in kind, based on current replacement costs as determined by the Building Official.
- B. New Buildings, Structures or Equipment. This Building Code shall apply to all equipment, structures and buildings heretofore erected or installed.
- C. Moved Buildings. Buildings or structures moved into or within the City or the zoned areas of El Paso County shall comply with the provisions of this Code for new buildings or structures. (Ord. 84-282)

16-2-902: ADDITIONS, ALTERATIONS OR REPAIRS: Additions, alterations or repairs may be made to any building or structure without requiring the existing building or structure to comply with all the requirements of this Code, provided the addition, alteration or repair conforms to that required

for a new building or structure. Additions, alterations or repairs shall not cause an existing building or structure to become unsafe or overloaded. Any building so altered, which involves a change in the use of occupancy, shall not exceed the height, number of stories and area permitted for new buildings. Any building plus new additions shall not exceed height, number of stories and area specified for new buildings.

Alterations or repairs to an existing building or structure which are nonstructural and do not adversely affect any structural member or any part of the building or structure having required fire resistance may be made with the same materials of which the building or structure is constructed.

EXCEPTION: The installation or replacement of glass shall be as required for new installations. (Ord. 84-282)

16-2-903: NONSTRUCTURAL ALTERATIONS OR REPAIRS: Alterations or repairs not exceeding twenty five percent (25%) of the value of an existing building or structure which are nonstructural and do not affect any member or part of the building or structure having required fire resistance may be made with the same materials of which the building or structure is constructed.

EXCEPTION: The installation or replacement of glass shall be as required for new installations. (Ord. 84-282)

16-2-904: REPAIRS TO ROOF COVERINGS: Not more than twenty five percent (25%) of the roof covering of any building or structure shall be replaced in any twelve (12) month period unless the new roof covering is made to conform to the requirements of the Building Code for new buildings or structures. (Ord. 84-282)

16-2-905: EXISTING OCCUPANCIES: Buildings in existence at the time of the passage

of the Building Code may have their existing use or occupancy continued if such use or occupancy was legal at the time of the passage of the Building Code, provided such continued use is not dangerous to life. If any change is made in the use or occupancy of any existing building or structure, the provisions of Part 2 of Article 4 of this Chapter must be complied with. (Ord. 84-282)

16-2-906: MAINTENANCE OF BUILDINGS: All buildings or structures both existing and new, and all parts thereof, shall be maintained in a safe and sanitary condition. All devices or safeguards which are required by this Code in a building or structure when erected, altered or repaired, shall be maintained in good working order. The owner or his designated agent shall be responsible for the maintenance of buildings or structures. (Ord. 84-282)

16-2-907: ALTERNATE MATERIALS AND METHODS OF CONSTRUCTION: The provisions of the Building Code are not intended to prevent the use of any material or method of construction and specifically prescribed herein or regulations adopted thereunder, provided any such alternate has been approved by the Building Official. The Building Official may approve any such alternate provided he finds that the proposed design is satisfactory, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in the Building Code in quality, strength, effectiveness, fire resistance, durability and safety. The Building Official shall require that sufficient evidence or proof be submitted to substantiate any claims that may be made regarding its use. (Ord. 84-282)

16-2-908: MODIFICATIONS: Whenever there are practical difficulties involved in carrying out the provisions of the code, the Building Official may grant modifications for individual cases, provided he shall first find that a special individual reason makes the strict letter of this Code impractical and that the modification is in conformity with the intent and purpose of this Code and that such modification does not lessen any fire protection requirements or any degree of structural integrity. The details of any action granting modifications shall be recorded and entered in the files of the code enforcement agency. (Ord. 84-282)

16-2-909: TESTS: Whenever there is insufficient evidence of compliance with the provisions of the Building Code or evidence that any material or any construction does not conform to the requirements of the Building Code, or in order to substantiate claims for alternate materials or methods of construction, the Building Official may require tests as proof of compliance to be made at the expense of the owner or his agent by an approved testing agency.

Tests methods shall be as specified by the Building Code for the material in question. If there are no appropriate test methods specified in said Code, the Building Official shall determine the test methods.

Copies of the results of all such test shall be retained for a period of not less than two (2) years after the acceptance of the structure. (Ord. 84-282)

CHAPTER 16 BUILDING

ARTICLE 3 PERMITS AND FEES

PART 1 BUILDING PERMITS

SECTION:

16-3-101: Permits Required
 16-3-102: Exceptions
 16-3-103: Architect/Engineer Required
 16-3-104: Application for Permits
 16-3-105: Authorized Applicants
 16-3-106: Prerequisites to Permit Issuance
 16-3-107: Issuance of Permits
 16-3-108: Partial Permits
 16-3-109: Expiration of Permits
 16-3-110: Suspension or Revocation of Permit

16-3-101: **PERMITS REQUIRED:** No person nor the Federal, State, County or City government, or any agency, subdivision or department thereof, shall erect, construct, enlarge, remodel, alter, repair, move improve, remove, convert, demolish or change type of occupancy of any building, structure, sign or utility or perform any other work regulated by this Code within the corporate limits of the City or El Paso County, or cause the same to be performed without first having obtained a permit for the specific work to be performed from the Regional Building Department.

All signs hereafter erected shall be erected by a Sign Contractor licensed by the Regional Building Board or Review under Article 6 of this Code.

16-3-102: EXCEPTIONS:

A. No permit is required when the work performed is conducted by the personnel of or for the use of the public telephone and telegraph and messenger call companies operating under regular franchise granted by the City and under bond to the City, or other public or private utilities who desire to install electrical wiring, electrical fixture, appliances or apparatus on:

1. Installations of communication equipment under exclusive control of communication util-

A1) ities, located outdoors or in building spaces used exclusively for such installations.

2. Installations under the exclusive control of electric or natural gas utilities for the purpose of communication, metering or for the generation, control, transformation, transmission and distribution of electric or natural gas energy located in buildings used exclusively by utilities for such purposes or located outdoors on property owned or leased by the utility or on public highways, streets, roads or outdoors by established rights on private property.

B. All work performed on an emergency basis, as determined by the Regional Building Official, to maintain an existing service or to maintain an existing installation, building or structure, where such maintenance is necessary to protect life or property, shall not be subject to the above penalty if application for such permits is made within seventy-two (72) hours after commencement of the emergency work.

C. Plumbing, as defined in the Plumbing Code, may be done in the case of repairing leaks without a permit, provided that those so repairing leaks for compensation are properly licensed.

D. Temporary signs erected under special permits issued by a City Manager, Mayor, or El Paso County Commissioners.

E. Temporary (limited to one year) free-standing signs under seven (7) feet high and thirty-two (32) square feet in sign area.

F. Automatic Fire Extinguishing System or Standpipe System, as defined in Section 88.102 of the Fire Prevention Code and Standards (Uniform Fire Code), Installation or Renovation Within the Corporate Limits of the City provided that a permit is obtained under the provisions of Article 4 and Article 88 of the Fire Prevention Code and Standards (Uniform Fire Code). (Ord. 84-282; Ord. 85-184)

16-3-103: ARCHITECT/ENGINEER REQUIRED:

Drawings and specifications for the work to be performed shall be required prior to the issuance of a permit. Such drawings and specifications shall be reviewed and approved by the Regional Building Department prior to the issuance of a permit for the work performed. All applications for a permit to construct, erect, alter or repair a building or structure shall be accompanied by a minimum of two (2) complete sets of drawings and specifications which shall include architectural, structural, plumbing, mechanical and electrical details.

- A. Information required. Drawings shall be drawn to scale upon substantial paper, plastic, or cloth, and shall be of sufficient clarity to indicate the nature of the work proposed and show in detail that it will conform to the provisions of this Chapter and all relevant laws, ordinances, rules and regulations. The first sheet of each set of drawings and specifications shall give the building and street address of the work and the name and address of the firm or person who prepared them. Drawings shall include a plot plan showing the location of the proposed building and of every existing building on the property.

Calculations indicating the determination of any or all structural, mechanical and electrical design features and other necessary data sufficient to show correctness of the design shall be submitted when requested by the Building Official.

- B. Plans and Specifications. Each application for a permit shall be accompanied by two (2) sets of plans and specifications, except, when authorized by the Building Official, plans and specifications need not be submitted for the following:

1. One story buildings of conventional wood-stud construction with an area not exceeding six hundred (600) square feet;
2. Private garages, sheds and agricultural buildings when not over one thousand (1,000) square feet in area of conventional wood-stud construction; or
3. Small and unimportant work.
4. Plan and specifications requiring preparation by an architect or an engineer as specified herein

- B4) shall be prepared by and bear the stamp and signature of an architect licensed in the State of Colorado or a professional engineer registered in the State of Colorado. The professional preparing said plans shall be responsible for the structural integrity of the entire system; footings, foundations, walls, roof and all similar building systems.

(a) An architect's or an engineer's stamp shall be required for all plans and specifications for new construction, alterations, remodeling, additions to or repair of any buildings within the jurisdiction of the Regional Building Department, except as concerns the following construction:

1. One and two family dwellings, including accessory buildings commonly associated with such dwellings;
2. Garages, industrial buildings, offices, farm buildings and buildings for the marketing, storage or processing of farm products, and warehouses, which do not exceed one story in height, exclusive of a one-story basement, and which under applicable building code, or codes, are not designed for occupancy by more than ten persons.
3. Additions, alterations, or repairs to the foregoing buildings which do not cause the completed buildings to exceed the applicable limitations set forth in this Part 3.
4. Nonstructural alterations of any nature to any building if such alterations do not affect the safety of the building.

- C. Approval of Documents. Drawings complying with the provisions of this Chapter, and approved by the Regional Building Department, shall bear the Regional Building Department stamp of approval on each page thereof and each set of specifications. When corrections are required to be made, the Building Official may require that the drawings and specifications be revised and resubmitted for approval prior to the issuance of a permit. Approval of drawings and specifications shall not be construed to mean approval of any violation of this Chapter if such violation is included in the approved drawing and specifications, and shall not relieve or exonerate any person from the responsibility of complying with the provisions of this Chapter.

- D. Distribution of Documents. One set of approved drawings and specifications shall be returned to the applicant to be kept on the job site at all times during which the authorized work is in progress and one approved set shall remain in the office of the Regional Building Department and shall be retained for a period of not less than ninety (90) days after date of completion of the work.
- E. Return of Documents. Drawings and specifications submitted for checking, for which no permit is issued and on which no action is taken by the applicant for ninety (90) days, may be returned to the last known address of the applicant and a plan checking fee as provided herein shall be assessed. (Ord. 84-282)

16-3-104: APPLICATION FOR PERMITS: Permits are required prior to the commencement of any work governed by this Code, and to obtain a permit the applicant shall first file an application therefor in writing on a form furnished by the Regional Building Department. Every application shall contain the following:

- A. Identify and describe the work to be covered by the permit for which an application is made.
- B. Describe the land on which the proposed work is to be done, by lot, block, tract and house and street address or similar description that will readily identify and definitely locate the proposed building or work.
- C. Show the use or occupancy of all parts of the building.
- D. Be accompanied by complete drawings and specifications as required in Section 16-3-103.
- E. State the valuation of the proposed work.
- F. Be signed by the applicant, or his authorized agent, who may be required to submit evidence to indicate such authority.
- G. Give such other reasonable information as may be required by the Regional Building Official.

When work is started before a permit is issued, with the exception of work performed on an emergency basis pursuant to this Section, the applicant shall be required to pay double the fees listed under Part 2 of this Article. (Ord. 84-282)

16-3-105: AUTHORIZED APPLICANTS: Only persons duly licensed under the terms and provisions of this Code may apply for a permit, and such licensees may apply for and be issued permits to perform only such work as they are entitled to perform under their respective licenses. Any applications for permit filed by a nonlicensed individual, association or corporation where licensing is required pursuant to this Chapter, shall be deemed to have been filed with fraudulent interest, and shall be null and void.

Notwithstanding the foregoing and in addition thereto, the following persons shall be deemed to be authorized applicants:

- A. Any person who owns and resides in or intends to reside in an R-3 occupancy may make application for a permit to enlarge, remodel, alter, repair, improve, convert or demolish such building, upon the issuance of a permit hereunder, all such work authorized shall be performed in accordance with all the requirements of this Chapter.
- B. Any person who owns a property and wishes to construct or erect a single family dwelling on said property for his own occupancy, may make application for a permit for such building or structure.¹ (Ord. 84-282)

16-3-106: PREREQUISITES TO PERMIT ISSUANCE:

- A. Contractor. A building contractor A or B, as defined in Section 16-6-101, is required for all work requiring the supervision of an architect and/or engineer.
- B. Municipal Services. No building permit shall be issued until the applicant has processed an application for water, wastewater and drainage through the Director of Public Works and Director of Utilities of the City or other applicable authorities, and the applicant has paid all fees pursuant to such application. (Ord. 84-282)

16-3-107: ISSUANCE OF PERMITS: The application, drawings and specifications filed by an applicant for a permit shall be checked by the Building Official. Such documents may be reviewed by other departments of the City or County of El Paso to check compliance with the laws and ordinances under their jurisdiction. When the Building Official is satisfied that the work described in the

1. See contractor licensing provisions, Article 6 of this Chapter to determine when owner builder requires license.

application for a permit and the drawings and specifications filed therewith conform to the requirements of this Building Code and other pertinent laws and ordinances, and that the fee specified in Part 2 of this Article has been paid, he shall issue a permit to the applicant. Under normal circumstances the Regional Building Department shall issue the permit within (10) working days of application.

When the Building Official issues the permit, he shall endorse in writing or stamp on all sets of specifications and each page of the drawings "APPROVED" with the date and signature of the official giving approval. Such approved drawings and specifications shall not be changed, modified or altered without authorization from the Building Official, and all work shall be done in accordance with the approved documents. (Ord. 84-282)

16-3-108: PARTIAL PERMITS: The Building Official may issue a permit for the construction of part of a building or structure before the complete drawings and specifications for the whole building or structure have been submitted or approved, provided adequate information and detailed statements have been filed complying with all pertinent requirements of the Building Code. The holder of such permit shall proceed at his own risk without assurance that the permit for the entire building or structure will be granted. (Ord. 84 282)

16-3-109: EXPIRATION OF PERMITS: Every permit issued by the Building Official under the provisions of this Code shall automatically become null and void if the building or work authorized by such permit is not commenced within sixty (60) days from the date of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of sixty (60) days. Before work can be recommenced a new permit shall be first obtained, and the fee therefore shall be one-half ($\frac{1}{2}$) the amount required for a new permit; provided, no changes have been made or will be made in the original drawings and specifications and provided, further, that suspension or abandonment has not exceeded one year. (Ord.75-17)

16-3-110: SUSPENSION OR REVOCATION OF PERMIT: The Building Official may, in writing suspend or revoke a permit issued under provisions of this Code whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any provisions of the Building Code. (Ord. 84-282)

- 16-3-210: Sign Permit Fees
- 16-3-211: Other Fees
- 16-3-212: Fee Refunds
- 16-3-213: Expiration of Plan Review

16-3-201: **NEW CONSTRUCTION; TABLE 3-A-1:** The following table reflects the building permit fees for all new construction except R-3 Occupancies and for all alterations, additions, conversions and repairs where the total valuation of the work exceeds two thousand dollars (\$2,000.00).

<u>TOTAL</u>	<u>PERMIT FEE</u>
\$ 2,000.00 to \$ 25,000.00	\$ 30.00 for the first \$2,000.00 plus \$2.00 for each additional \$1,000.00 or fraction thereof, to and including \$25,000.00.
25,001.00 to 50,000.00	\$ 76.00 for the first \$25,000.00 plus \$2.00 for each additional \$1,000.00 or fraction thereof, to and including \$50,000.00.
50,001.00 to 100,000.00	\$126.00 for the first \$50,000.00 plus \$1.50 for each additional \$1,000.00 or fraction thereof, to and including \$100,000.00.
100,001.00 and more	\$201.00 for the first 100,000.00 plus \$1.00 for each additional \$1,000.00 or fraction thereof.
(Ord. 85-241)	

16-3-202: **NEW R-3 OCCUPANCIES; TABLE 3-A-2:** Mandatory permit for new R-3 occupancies. Fees are for plumbing, electrical, heating and building inspections.

<u>*SQUARE FEET</u>	<u>PERMIT FEE</u>
Up to 800	\$155.00
801 to 1,000	170.00
1,001 to 1,200	190.00
1,201 to 1,400	215.00
1,401 to 1,600	235.00
1,601 to 1,800	250.00
1,801 to 2,000	265.00
Over 2,000	265.00 for the first 2,000 sq. ft. plus \$3.00 for each additional 100 sq. ft. or fraction thereof

* Square footage to be computed in the following manner.

1. The garage, basement or cellar is not included.
2. In single story houses, use one hundred percent (100%) of the main floor.
3. Use one hundred percent (100%) of the upper two (2) levels of a tri-level or four-level house.
4. In multi-story houses, use one hundred percent (100%) of the main level area and fifty percent (50%) of the upper floors. (Ord. 85-241)

16-3-203: ALTERATIONS, ADDITIONS, CONVERSIONS AND REPAIRS; TABLE 3-A-3: This table is to be used for alterations, additions, conversions and repairs that are less than two thousand dollars (\$2,000.00) in valuation:

Minimum Permit.....\$20.00

Each required inspection as designated in Section 16-4-102A
over one inspection.....\$10.00
(Ord. 85-241)

16-3-204: ELECTRICAL PERMIT FEES; TABLE 3-B:

<u>VALUATION</u>	<u>PERMIT FEE</u>
\$ 100.00 to \$ 800.00	\$15.00
801.00 to 2,000.00	\$15.00 for the first \$800.00 plus \$2.00 for each additional \$100.00 or fraction thereof, to and including \$2,000.00
2,001.00 to 25,000.00	\$39.00 for the first \$2,000.00 plus \$4.00 for each additional \$1,000.00 or fraction thereof, up to and including \$25,000.00
25,001.00 to 50,000.00	\$131.00 for the first \$25,000.00 plus \$4.00 for each additional \$1,000.00 or fraction thereof, up to and including \$50,000.00
50,001.00 to 100,000.00	\$231.00 for for the first \$50,000.00 plus \$3.00 for each additional \$1,000.00 or fraction thereof, up to and including \$100,000.00
100,000.00 and up	\$381.00 for the first \$100,000.00 plus \$2.00 for each additional \$1,000.00 or fraction thereof

(Ord. 85-241)

16-3-205: MECHANICAL PERMIT FEES; TABLE 3-C:

<u>VALUATION</u>	<u>PERMIT FEE</u>
\$ 100.00 to \$ 800.00	\$ 15.00
801.00 to 2,000.00	\$ 15.00 for the first \$800.00 plus \$2.50 for each additional \$100.00 or fraction thereof, up to and including \$2,000.00.

Table 3-C (cont.)

\$ 2,001.00 to 25,000.00	\$ 45.00 for the first \$2,000.00 plus \$5.50 for each additional \$1,000.00 or fraction thereof, up to and including \$25,000.00.
25,001.00 to 50,000.00	\$171.50 for the first \$25,000.00 plus \$4.00 for each additional \$1,000.00 or fraction thereof, up to and including \$50,000.00.
50,001.00 to 100,000.00	\$271.50 for the first \$50,000.00 plus \$3.00 for each additional \$1,000.00 or fraction thereof, up to and including \$100,000.00.
100,000.00 and up	\$421.50 for the first \$100,000.00 plus \$1.00 for each additional \$1,000.00 or fraction thereof.
(Ord. 85-241)	

16-3-206: PLUMBING PERMIT FEES; TABLE 3-E:

Base fee.....\$10.00

Add \$2.00 for each fixture, opening or water supplied device to base fee.
(Ord. 85-241)

16-3-207: WRECKING PERMIT FEES:

The fees for a permit to wreck a building shall be.....\$ 20.00
(Ord. 85-241)

16-3-208: MOVING PERMIT FEES:

The fees for a permit to move a building shall be.....\$ 20.00

EXCEPTION: The fee for moving a building without moving on a public thoroughfare shall be covered by an alteration permit. Wrecking and moving permit fees do not include the services of any other City or County Department. (Ord. 85-241)

16-3-209: MOBILE HOME INSPECTION FEES:

Permit fee for each mobile home installation.....\$ 35.00

This permit will be issued to each mobile home owner at the time he/she desires connection to any utility (gas, water, electricity or wastewater) and will provide for the inspection services required to determine compliance with all the applicable codes. (Ord. 85-241)

16-3-210: SIGN PERMIT FEES:

The permit fee for each sign installation shall be.....\$ 20.00
(Ord. 85-241)

16-3-211: OTHER FEES:

- A. Plans Examination Fee: When a plan or other data is required to be submitted by Section 16-3-103B of the Pikes Peak Regional Building Code, a plan review fee shall be paid at the time of submission of such plans and/or data.

All occupancies shall pay one fourth ($\frac{1}{4}$) of the permit fee.

Exception: The fee for master plans for R-3 occupancies shall be fifty dollars (\$50.00) plus ten dollars (\$10.00) handling fee for each use of plan.

- B. Investigation Fee: Work Without a Permit:

1. Investigation: Whenever any work for which a permit is required by the Pikes Peak Regional Building Code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work.

2. Fee: An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be equal to the amount of the permit fee that would be required by the Code if a permit were issued. The payment of such an investigation fee shall not exempt any person from compliance with any provisions of the Pikes Peak Regional Building Code nor from any prescribed by law.

C. Compliance Inspection Fee:

Inspection by Building, Electrical, Heating and Plumbing Inspector. Includes a written report.....	\$100.00
Single inspections, first inspection with report.....	30.00
Each additional inspection.....	25.00

- D. Reinspection Fees: A reinspection fee of twenty dollars (\$20.00) shall be assessed for each inspection or reinspection when such portion of work for which inspection is requested is not complete or when corrections required by a previous inspection have not been made.

This subsection is not to be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of the technical codes, but as controlling the practice of requesting inspections before the job is ready for such an inspection or reinspection.

Reinspection fees may be assessed when the permit card is not properly posted on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which inspection is requested, or for deviating from plans requiring the approval of the Building Official.

In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until such fees have been paid. (Ord. 85-241)

16-3-212: **FEE REFUNDS:** The Building Official may authorize the refunding of any fee paid which was erroneously paid or collected.

The Building Official may authorize the refunding of not more than eighty percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with the Pikes Peak Regional Building Code.

The Building Official may authorize the refunding of not more than eighty percent (80%) of the plans examination fee when an application for a permit for which a plans examination fee has been paid, is withdrawn or cancelled before any plans examination effort has been expended. (Ord. 85-241)

16-3-213: **EXPIRATION OF PLAN REVIEW:** Applications for which no permit is issued within one hundred eighty (180) days following the date of application shall expire and plans and other data submitted for review may thereafter be returned to the applicant or be destroyed by the Building Official. The Building Official may extend the time for action by the applicant for a period not exceeding one hundred eighty (180) days upon request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plans examination fee. (Ord. 85-241)

CHAPTER 16 BUILDING

ARTICLE 4 CERTIFICATES AND INSPECTIONS

PART 1 INSPECTIONS

SECTION:

- 16-4-101: General Requirements, Exceptions
- 16-4-102: Required Inspections
- 16-4-103: Work Covered Before Inspection
- 16-4-104: Special Inspection Requirements
- 16-4-105: Inspection Record Card
- 16-4-106: Approvals Required
- 16-4-107: Reinspections
- 16-4-108: Inspection Priority

16-4-101: GENERAL REQUIREMENTS, EXCEPTIONS: All work performed under the provisions of the Building Code shall be subject to inspections by the Regional Building Department and all inspections shall be requested at least twenty four (24) hours in advance. Certain types of work specified hereinafter shall have continuous special inspection by privately employed qualified inspectors.

Upon satisfactory completion of six (6) comparable building projects, the Building Official may grant approval for the following special inspection procedures for any detached R-3 Occupancy being built under a federal program requiring a compliance inspection. Under these special procedures, a certificate of the approved inspections by the federal inspecting agency submitted to the Regional Building Department may serve in lieu of inspections hereinafter required by the Building Code. Abuse of this special procedure, upon determination by the Building Official, may result in the imposition of full inspection procedures by the Regional Building Department. Abuse may include, but not be limited to, such incidences as failure to submit the certificates of approved inspections and failure to obtain all required inspections by the inspecting agency or agencies chosen by the permit applicant at the time of permit issuance. The purpose of this paragraph is to provide a method of eliminating a duplication of inspections, but in no way eliminates or waives the requirements of this Code. (Ord. 86-157)

16-4-102: REQUIRED INSPECTIONS: Without limitation the Regional Building Department

shall make the following inspections of buildings, structures, utilities or equipment and shall either approve that portion of the work as completed or shall notify the permit holder or his agent wherein the same fails to comply with the requirements of the Building Code.

It shall be the responsibility of the permit holder to request all required inspections at the appropriate times. It shall be the duty of the person requesting inspections regulated by this Code to provide access to and means for proper inspection.

The Building Official shall not be liable for any expenses entailed in the removal or replacement of any material required to allow the inspection.

Connections:

Energy Connections. No person shall make connections from a source of energy to any system or equipment regulated by this Code and for which a permit is required until approved by the Building Official.

Temporary Connections. The Building Official may authorize temporary connection of the equipment to the source of energy for the purpose of testing the equipment, or for use under a temporary certificate of occupancy.

A. Construction Inspections:

1. **Footing.** After excavation is complete, forms erected and braced, steel if any, in place and tied. Before any concrete is poured.

2. **Foundation.** After excavation is complete, forms erected and braced, steel in place and tied. Before any concrete is poured. Foundation inspection required on all walls without footings and other walls when notified by inspector.

3. **Caissons.** Notify Building Department when pouring will start. Department will inspect at random.

4. **Frame.** To be made when framing is complete, after mechanical and electrical inspections

A4) are made. Fireplaces, flues, blocking, bracing insulation and exterior sheathing shall be in place. Exterior finish is optional as required by the inspector. Windows and doors shall be installed and roof in place so the house is dried in. Lathing or wallboard shall not be installed.

5. Lath. After all interior and exterior lathing is installed, but before any plater or stucco has been applied.

6. Final. When all construction and site improvements are complete and prior to occupancy.

B. Plumbing Inspections:

1. Base. This inspection shall be made after all of the underground potable water, waste, and vent piping is in place, under the required test and prior to the piping being covered.

2. Top-Out and Inside Water. This inspection shall be accomplished after all aboveground potable water, waste, and vent piping is in place, under the required test and prior to any of the piping being concealed.

3. Water Out. This inspection shall be made after the water service ditch has been excavated and the service line placed in the ditch, but not yet backfilled.

4. Roof Drain. This inspection shall be made after the roof drainage system piping is in place, but not yet concealed.

5. Final. This inspection is accomplished when all fixtures are set and operating and all work is complete.

C. Electrical Inspections:

1. Rough-In. First inspection which shall consist of all conduit, semi-rigid piping or wiring being in place, prior to covering.

2. Final. Final inspection to be made when the work is completed and operating.

D. Mechanical Inspections:

1. Vent. This inspection is made after the vent is installed and before it is concealed.

D) 2. Gas Piping. This inspection is made after all gas piping has been installed and before it is covered and concealed. See Section 16-2-203S for specific requirements.

3. Duct. This inspection is made on all occupancies except R-3 (single-family, duplexes, and townhouses) after the ductwork is in place and before it is concealed.

4. Construction Meter. This is a special inspection, permitted only during the winter months, which enables the gas meter to be set prior to the final inspection.

5. Final. This inspection is requested after all appliances are installed and are ready to become operational.

There shall be a final inspection and approval on all buildings when completed and ready for occupancy, and in addition to the inspections specified above, the Building Official may, at any time, make other inspections of the work to ascertain compliance with the provisions of this Building Code and other laws which are enforced by the Regional Building Department. (Ord. 86-157)

16-4-103: WORK COVERED BEFORE INSPECTION: Whenever any work is covered or concealed by additional work without first having been inspected as required, the Regional Building Department may order, by written notice, that such work be exposed for examination. (Ord. 86-157)

16-4-104: SPECIAL INSPECTION REQUIREMENT:

A. Special Inspector. In addition to the inspections to be made as specified above, the owner or his agent shall, upon direction of the Building Official, employ a special inspector on special construction or work involving unusual hazards or requiring constant inspection. The special inspector shall be a qualified person approved by the Building Official and shall furnish continuous inspections on the construction work requiring his employment, and said inspector, or the architect or engineer employing the inspector, shall furnish a copy of his reports to the Building Official when so required.

Special inspection required by this Section and

- A) elsewhere in this Code shall not be required where the work is done on the premises of a fabricator, approved by the Building Official, to perform such work without special inspection. The certificate of approval shall be subject to revocation by the Building Official if it is found that any work done pursuant to the approval is in violation of the Building Code.
- B. Observation by Architect, Engineer or Others. Observation of the construction of buildings, structures or utilities to which required drawings and specifications pertain shall be performed by or under observation of the architect or engineer responsible, as indicated in Section 16-3-106A. (Ord. 86-157)

16-4-105: INSPECTION RECORD CARD: Work requiring a permit shall not be commenced until the permit holder or his agent shall have posted an inspection record card in a conspicuous place on the front premises of the property and in such position as to allow the Building Official to conveniently make the required entries thereon regarding inspection of the work. This card shall be maintained in this location by the permit holder until all required inspections have been recorded. (Ord. 86-157)

16-4-106: APPROVALS REQUIRED: No work shall be done on any part of the building or structure beyond the point indicated in each successive inspection without first obtaining the approval of the Building Official. A survey of the lot may be required by the Building Official to verify compliance of the structure with approved documents. (Ord. 86-157)

16-4-107: REINSPECTIONS: The Building Official has the right to reinspect any premises within his jurisdiction. These inspections may be made from time to time during reasonable hours and upon notice to occupants, and are made to determine if the requirements of the Building Code are continually met and that the premises are kept in accordance with the requirements of said Code. (Ord. 86-157)

16-4-108: INSPECTION PRIORITY: Inspection priorities based on time prior to expected response.

- A. Emergencies - gas leaks, collapse or dangerous conditions.
- B. Twenty four (24) hours in advance of time needed.
- C. In the morning, when needed in afternoon.
- D. During same period needed - morning for morning or afternoon for afternoon. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 4 CERTIFICATES AND INSPECTIONS

PART 2 CERTIFICATES OF OCCUPANCY

SECTION:

- 16-4-201: Certificate Required
- 16-4-202: Certificate Issued
- 16-4-203: Compliance Required
- 16-4-204: Temporary Certificates
- 16-4-205: Certificate to be Posted

16-4-201: CERTIFICATE REQUIRED:

- A. Use or Occupancy. No new building or structure in groups A to H, inclusive, shall be used or occupied and no change in the existing occupancy classification of a building or structure or portion thereof shall be made until the Building Official has issued a certificate of occupancy therefor as provided herein.
- B. Changes in Use. No change shall be made in the character of occupancy or use of any building which would place the building in a different group of occupancy, unless such building is made to comply with the requirements of the Building Code for that group. A change in use to a use which causes a large increase in the occupant load shall require compliance with the requirements of the Building Code the same as required by a change to another occupancy group.

The character of the occupancy of existing buildings may be changed subject to the approval of the Building Official, and the building may be occupied for purposes in other groups without conforming to all requirements of the Code for those groups, provided the new or proposed use is less hazardous, based on life and fire risk, than the existing use. (Ord. 84-282)

16-4-202: CERTIFICATE ISSUED: After final inspection, if it is found that the building

or structure complies with the provisions of the Building Code and other applicable requirements including but not limited to zoning, planning, fire, health and engineering, the permittee or owner shall request and the Building Official shall issue a certificate of occupancy, and the building shall not be occupied until the certificate of occupancy is issued. The certificate of occupancy shall contain:

A. The use and occupancy for which the certificate is issued.

B. A statement that the floor load signs have been installed, as follows:

The live loads for which each floor or part thereof of a commercial or industrial building is or has been designed, shall have designed live loads conspicuously posted by the owner in that part of each story in which they apply, using durable metal signs, and it shall be unlawful to remove or deface such notices. The occupant of the building shall be responsible for keeping the actual load below the allowable limits.

C. A statement that the room capacity signs have been installed, as follows:

The maximum room capacity shall be conspicuously posted by the owner of the building by means of durable metal or plastic signs placed in each assembly room, auditorium or room used for a similar purpose where fixed seats are not installed, and it shall be unlawful to remove or deface such notice or to permit more than this legal number of persons within such space.

D. A statement that the building or structure complies with the provisions of the Building Code.

E. A statement to the effect that apartment complexes and small business centers have been identified by numbers of a minimum of five

- E) inches (5'') high with no less than one-half inch ($\frac{1}{2}$ '') stroke so that they are plainly visible and legible from a distance of at least one hundred feet (100') from the street, road, fire lane or other right of way or easement fronting the structure and which meet all other applicable requirements of the Code of the City of Colorado Springs 1980, as amended. (Ord. 84-282; Ord. 86-106)

16-4-203: COMPLIANCE REQUIRED: The Building Official shall not issue a certificate of occupancy to any owner who has not complied with the requirements imposed on the owner by the City whether by ordinance, resolution, contract or otherwise. The site improvements including, but not limited to, landscaping, paving and lighting shall be completed in accordance with the plans submitted and approved before a certificate of occupancy may be issued. However, if the site improvements cannot be completed because of the season or other valid reason, the Building Official, upon obtaining from the owner a letter of credit or other acceptable assurance¹ that improvements will be completed at the earliest possible time, may issue a certificate of occupancy; provided, that all other requirements of this Part 4 have been complied with. (Ord. 84-282)

16-4-204: TEMPORARY CERTIFICATES: A temporary certificate of occupancy may be issued by the Building Official for the use of a portion or portions of a building or structure prior to the completion of the entire building or structure. (Ord. 84-282)

16-4-205: CERTIFICATE TO BE POSTED: The certificate of occupancy or temporary certificate of occupancy shall be posted in a conspicuous place on the premises and shall not be removed except by the Building Official. (Ord. 84-282)

1. For definition, see Section 15-3-108 of this Code.

CHAPTER 16 BUILDING

ARTICLE 5 DANGEROUS BUILDING CODE

PART 1 ADMINISTRATION AND ENFORCEMENT

SECTION:

- 16-5-101: Title
- 16-5-102: Purpose and Scope of Regulations
- 16-5-103: Administration
- 16-5-104: Board of Appeals
- 16-5-105: Inspections
- 16-5-106: Right of Entry for Inspections
- 16-5-107: Definitions

16-5-101: **TITLE:** This Article shall be known as the Dangerous Building Code, and may be cited as such. (Ord. 84-282)

16-5-102: PURPOSE AND SCOPE OF REGULATIONS:

- A. Purpose. It is the purpose of these provisions to provide a just, equitable and practicable method, to be cumulative with and in addition to, any other remedy provided by the Regional Building Code, or the Housing Code,¹ or otherwise available at law, whereby buildings or structures which from any cause endanger the life, limb health, morals, property, safety or welfare of the general public or their occupants, may be required to be repaired, vacated or demolished.
- B. Scope. The provisions of this Article shall apply to all dangerous buildings, as herein defined, which are now in existence or which may hereafter be constructed in the City. (Ord. 84-282)

16-5-103: **ADMINISTRATION:** The Building Official is hereby authorized to enforce the provisions of this Article. (Ord. 84-282)

16-5-104: **BOARD OF APPEALS:** In order to provide for final interpretation of the provisions of

this Code and to hear appeals provided for hereunder, there is hereby established a Board of Appeals of five (5) members who are not employees of the City. The Building Official shall be an ex officio member of and shall act as secretary to said Board. The Board shall be appointed by the City Council and shall serve at its pleasure. The Board may adopt reasonable rules and regulations for conducting its business and shall render all decisions and findings in writing to the appellant with a copy to the Building Official. Appeals to the Board shall be processed in accordance with the provisions contained in Part 3 of this Article. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official, who shall make them freely accessible to the public. (Ord. 84-282)

16-5-105: **INSPECTIONS:** The City Health Officer, the Fire Chief and the Building Official and their authorized representatives are hereby authorized to make such inspections and take such actions as may be required to enforce the provisions of this Article.

All buildings or structures within the scope of this Article and all construction or work for which a permit is required shall be subject to inspection by the Building Official in accordance with and in the manner provided by this Article and Section 16-4-101 of the Regional Building Code. (Ord. 84-282)

16-5-106: RIGHT OF ENTRY FOR INSPECTIONS:

- A. Whenever necessary to make an inspection to enforce any of the provisions of this Article, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition which makes such building or premises dangerous as defined in Section 16-5-107 hereof, the Building Official or his authorized representative may enter such building or premises at all reasonable times to

¹. See Article 2 of Chapter 16 for the Regional Building Code; and Chapter 17 for the Housing Code.

- A) inspect the same or perform any duty imposed upon the Building Official by this Code; provided that
1. If such building or premises be occupied, he shall first present proper credentials and demand entry; and
 2. If such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and demand entry. If such entry is refused the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.
- B. "Authorized representative" shall include the officers named in Section 16-5-105 and their authorized inspection personnel.
- C. No owner or occupant or any other person having charge, care or control of any building or premises shall fail or neglect, after proper demand is made herein provided, to promptly permit entry therein by the Building Official or his authorized representative for purpose of inspection and examination pursuant to this Code. Any person violating this subdivision shall be guilty of a misdemeanor. (Ord. 84-282)

16-5-107: **DEFINITIONS:** The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.¹

DANGEROUS BUILDING: For the purpose of this Article any building or structure which has any or all of the conditions or defects hereinafter described shall be deemed to be a dangerous building, provided that such conditions or defects exist to the extent that the life, health, property or safety of the public or its occupants are endangered:

- A. Whenever any door, aisle, passageway, stairway or other means of exit is not of sufficient width or size, or is not so arranged as to provide safe and adequate means of exit in case of fire or panic.
- B. Whenever the stress in any materials, member or portion thereof, due to all dead and live loads,

is more than one and one-half (1 ½) times the working stress or stresses allowed in the Regional Building Code for new buildings of similar structure, purpose or location.

- C. Whenever any portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the Regional Building Code for new buildings of similar structure, purpose or location.
- D. Whenever any portion or member or appurtenance thereof is likely to fall, or to become detached or dislodged, or to collapse and thereby injure persons or damage property.
- E. Whenever any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or it is not so anchored, attached or fastened in place so as to be capable of resisting a wind pressure of one-half (1/2) of that specified in the Regional Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the Regional Building Code for such buildings.
- F. Whenever any portion thereof has cracked, warped, buckled or settled to such an extent that walls or other structural portions have materially less resistance to winds or earthquakes than is required in the case of similar new construction.
- G. Whenever the building or structure, or any portion thereof, because of
 1. Dilapidation, deterioration or decay;
 2. Faulty construction;
 3. The removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building;
 4. The deterioration, decay or inadequacy of its foundation;
 5. Any other cause, is likely to partially or completely collapse.

1. For definitions of general application, see also Section 1-1-203 of this Code.

- H. Whenever, for any reason, the building or structure, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
- I. Whenever the exterior walls or other vertical structural members list, lean or buckle to such an extent that a plumb line passing through the center of gravity does not fall inside the middle one-third ($\frac{1}{3}$) of the base.
- J. Whenever the building or structure, exclusive of the foundation shows thirty three percent (33%) or more damage or deterioration of its supporting member or members, or fifty percent (50%) damage or deterioration of its nonsupporting members, enclosing or outside walls or coverings.
- K. Whenever the building or structure has been so damaged by fire, wind, earthquake or flood, or has become so dilapidated or deteriorated as to become
1. An attractive nuisance to children;
 2. A harbor for vagrants, criminals or immoral persons, or as to
 3. Enable persons to resort thereto for the purpose of committing unlawful or immoral acts.
- L. Whenever any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the building regulations of this City, as specified in the Regional Building Code, or the Housing Code, or of any law or ordinance of the State or City relating to the condition, location or structure of buildings.
- M. Whenever any building or structure which, whether or not erected in accordance with all applicable laws and ordinances, has in any nonsupporting part, member or portion, less than fifty percent (50%), or in any supporting part, member or portion less than sixty six percent (66%) of the
1. Strength,
 2. Fire-resisting qualities or characteristics, or
 3. Weather-resisting qualities or characteristics required by law in the case of a newly constructed building of like area, height and occupancy in the same location.
- N. Whenever a building or structure, used for dwelling purposes, because of inadequate maintenance, dilapidation, decay damage, faulty construction or arrangement, inadequate light, air or sanitation facilities or otherwise, is determined by the Health Officer to be unsanitary, unfit for human habitation or in such a condition that is likely to cause sickness or disease.
- O. Whenever any building or structure, because of obsolescence, dilapidated condition, deterioration, damage, inadequate exits, lack of sufficient fire-resistive construction, faulty electric wiring, gas connections or heating apparatus, or other cause, is determined by the Fire Chief to be a fire hazard.
- P. Whenever any building or structure is in such a condition as to constitute a public nuisance known to the common law or in equity jurisprudence.
- Q. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six (6) months so as to constitute such a building or portion thereof an attractive nuisance or hazard to the public. (Ord. 84-282)

CHAPTER 16 BUILDING

ARTICLE 5 DANGEROUS BUILDING CODE

PART 2 ABATEMENT OF DANGEROUS BUILDINGS

SECTION:

16-5-201: Public Nuisance Declared
 16-5-202: Comply with Applicable Codes
 16-5-203: Commence Abatement Proceedings
 16-5-204: Notice and Order to Abate
 16-5-205: Service of Notice and Order
 16-5-206: Notice to Vacate
 16-5-207: Record Notice and Order, Certificates
 16-5-208: Standards for Repair, Vacation or Demolition
 16-5-209: Vacant Buildings
 16-5-210: Emergency Orders

16-5-201: PUBLIC NUISANCE DECLARED: All buildings or portions thereof which are determined, after inspection by the Building Official, to be dangerous as defined in Section 16-5-107 are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedures specified in this Chapter. (Ord. 84-282)

16-5-202: COMPLY WITH APPLICABLE CODES: All buildings, or structures which are required to be repaired under the provisions of this Article shall be subject to the provisions of Article 2 of this Chapter, and the applicable codes adopted by reference therein. (Ord. 84-282)

16-5-203: COMMENCE ABATEMENT PROCEEDINGS: Whenever the Building Official has inspected or caused to be inspected any buildings and has found and determined that such building is a dangerous building, he shall commence proceedings to cause the repair, vacation or demolition of the building. (Ord. 84-282)

16-5-204: NOTICE AND ORDER TO ABATE: The Building Official shall issue a notice and order directed to the record owner of the building. The notice and order shall contain:

- A. The street address and a legal description sufficient to identification of the premises upon which the building is located.
- B. A statement that the Building Official has found the building to be dangerous with a brief and concise description of the conditions found to render the building dangerous under the provisions of Section 16-5-107 of this Chapter.
- C. A statement of the action required to be taken, as determined by the Building Official.
 1. If the Building Official has determined that the building or structure must be repaired, the order shall require that all required permits be secured therefor and the work physically commenced within such time (not to exceed 60 days from the date of the order) and completed within such time as the Building Official shall determine is reasonable under all of the circumstances.
 2. If the Building Official has determined that the building or structure must be vacated, the order shall require that the building or structure shall be vacated within a time certain from the date of the order as determined by the Building Official to be reasonable.
 3. If the Building Official has determined that the building or structure must be demolished, the order shall require that the building be vacated within such time as the Building Official shall determine is reasonable (not to exceed 60 days from the date of the order); that all required permits be secured therefore within 60 days from the date of the order, and that the demolition be completed within such time as the Building Official shall determine reasonable.
- D. Statements advising that if any required repair or demolition work (without vacation also being required) is not commenced within the time specified, the Building Official:
 1. Will order the building vacated and posted to prevent further occupancy until the work is completed, and

- D) 2. May proceed to cause the work to be done and charge the costs thereof against the property or its owner.
- E. Statements advising
1. That any person having any record title or legal interest in the building may appeal from the notice and order or any action of the Building Official to the Board of Appeals, provided the appeal is made in writing as provided in the Code, and filed with the Building Official within thirty (30) days from the date of service of such notice and order; and
 2. That failure to appeal will constitute a waiver of all right to an administrative hearing and determination of the matter. (Ord. 84-282)

16-5-205: SERVICE OF NOTICE AND ORDER:

- A. To Whom Made: The notice and order, and any amended or supplemental notice and order, shall be served upon the record owner, and posted on the property; and one copy thereof shall be served on each of the following, if known, to the Building Official or disclosed from official public record;
1. The holder of any mortgage or deed of trust or other lien or encumbrance of record;
 2. The owner or holder of any lease of record; and
 3. The holder of any other estate or legal interest of record in or to the building or the land on which it is located.

The failure of the Building Official to serve any person required herein to be served shall not invalidate any proceedings hereunder as to any other person duly served or relieve any such person from any duty or obligation imposed on him by the provisions of this Section.

- B. Method of Service. Service of the notice and order shall be made upon all persons entitled thereto either personally or by mailing a copy of such notice and order by certified mail, postage prepaid, return receipt requested, to each such person at his address as it appears on the assessment roll of the County or as known to

- B) the Building Official. If no address of any such persons so appears or is known to the Building Official, then a copy of the notice and order shall be so mailed, addressed to such person, at the address of the building involved in the proceedings. The failure of any such person to receive such notice shall not affect the validity of any proceedings taken under this Section. Service by certified mail in the manner herein provided shall be effective on the date of mailing.
- C. Proof of Service. Proof of service of the notice and order shall be certified to at the time of service by a written declaration under penalty of perjury executed by the person effecting service, declaring the time, date, manner in which service was made. The declaration, together with any receipt card returned in acknowledgement of receipt by certified mail shall be affixed to the copy of the notice and order retained by the Building Official. (Ord. 84-282)

16-5-206: **NOTICE TO VACATE:** Every notice to vacate shall, in addition to being served as provided in Section 16-5-205 above, be posted at or upon each exit of the building, and shall be in substantially the following form:

DO NOT ENTER
UNSAFE TO OCCUPY

It is a misdemeanor to occupy the building or to remove or deface this notice.

Building Official
City of Colorado Springs

Whenever such notice is posted, the Building Official shall include a notification thereof in the notice and order issued by him under Section 16-5-204, reciting the emergency and specifying the conditions which necessitate the posting. No person shall remain in or enter any building which has been so posted, except that entry may be made to repair, demolish or remove such building under permit. No person shall remove or deface any such notice after it is posted until the required repairs, demolition or removal have been completed and a certificate of occupancy issued pursuant to the provisions of the Regional Building Code.[1] Any person violating this Section shall be guilty of a misdemeanor. (Ord. 84-282)

16-5-207: RECORD NOTICE AND ORDER,

CERTIFICATES: Upon initiation of service of the notice and order, the Building Official shall file in the office of the County Clerk and Recorder of El Paso County a certificate describing the property and certifying:

- A. That the building is a dangerous building, and
- B. That the owner is being so notified.

Whenever the Building Official's order has been reversed on appeal, or the corrections ordered shall thereafter have been completed or the building demolished so that it no longer exists as a dangerous building on the property described on the certificate, the Building Official shall file a new certificate with the County Clerk and Recorder certifying that the order has been rescinded, the building has been demolished or all required corrections have been made so that the building is no longer dangerous, whichever is appropriate. (Ord. 84-282)

16-5-208: STANDARDS FOR REPAIR, VACATION

OR DEMOLITION: The following standards shall be followed by the Building Official (and by the Board of Appeals if an appeal is taken) in ordering the repair, vacation or demolition of any dangerous building or structure:

- A. Where the Building Official determines that any building declared a dangerous building under this Article may reasonably be repaired in accordance with the current Building Code, he shall order such action. A building owner ordered to effect repairs under this paragraph may, at his option, elect to have the building demolished.
- B. Where the Building Official determines that repair in accordance with the provisions of subparagraph A above cannot reasonably be accomplished, he shall order the building demolished.
- C. If the building or structure is in such condition as to make it immediately dangerous to life, limb, property or the safety of the public or its occupants, it shall be ordered vacated. The Building Official may also take action under Section 16-5-210 of this Article relating to Emergency Orders. (Ord. 84-282)

16-5-209: VACANT BUILDINGS:

- A. The owner or agent of any building in the City shall, whenever the same becomes vacant or unoccupied, remove therefrom and from the lot and exterior premises on which such building shall be situated all paper, trash, rubbish, refuse, garbage or combustible material accumulated thereon, and shall securely close and keep closed all doors, windows or the other openings into such building while the same remains unoccupied.
- B. In the event the owner, operator or other person responsible for the condition of any vacant building fails or refuses to remove all paper, trash, rubbish, refuse, garbage or combustible material accumulated therein, or upon the lot and exterior premises on which such building shall be situated, or shall fail or refuse to securely close and keep closed all doors, windows or other openings of such building, the Building Official shall order the same to be done without delay.
- C. Any order or notice by the Building Official shall be given or served upon the owner, operator or other person responsible for the condition of the vacant building by verbal notification or personal service, and by affixing a copy thereof in a conspicuous place on the door to the entrance of said premises. Where personal service cannot be made, a copy thereof shall be mailed to such person by registered or certified mail to his last known address and the building posted the same day. Where orders are given verbally, they shall be confirmed by service in writing.
- D. Where notification is given verbally or by personal service, ten (10) days shall be given to comply with the order. Where notice is by registered or certified mail, fifteen (15) days from mailing shall be given for compliance.
- E. If compliance with the order has not yet begun, or arrangement made with Building Official by the due date, then the Building Official may order the same to be done without delay.
- F. To assist in the rapid abatement of vacant buildings in violation of this Section,
 - 1. Where there has been no compliance with

F1) Building Official's order, the Director of Public Works may contract to provide the services needed upon demand of the Building Official through the year. The Public Works Department is authorized to perform the abatement at the Building Official's request.

2. Where, upon the order of the Building Official, a vacant building has been cleaned, boarded and sealed, the Official shall then prepare and file with the City Clerk a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the building was located, and the names and addresses of persons entitled to notice under this Section. Upon receipt of the report, the City Clerk shall be governed by the provisions of Part 4 of this Article and Article 1 of Chapter 7 of this Code.

G. This Section shall be construed as an addition to and not inconsistent with applicable sections of the Uniform Fire Code, 1979¹.

D. In the event that the person to whom such emergency order is issued fails or refuses to immediately comply therewith, the Building Official may request, without prior notice to any party, that the Department of Public Works take such action as required by the terms of the emergency order. The provisions of Part 4 of this Article shall apply to such emergency abatement.

E. The Building Official shall, either simultaneously with or as soon after the issuance of an emergency order as possible, institute action in accordance with the provisions of this Article to permanently abate the dangerous building or structure. (Ord. 84-282)

16-5-210: EMERGENCY ORDERS:

A. If any building or structure constituting a dangerous building under this Article is in such condition as to make it immediately dangerous to life, limb, property or the safety of the public or its occupants, the Building Official may, in addition to ordering that the building or structure be vacated pursuant to Section 16-5-208 of this Article, issue an order, without prior notice and hearing, declaring that an emergency exists and requiring that such temporary action, not constituting either repair in accordance with the current Building Code or demolition, be taken as deemed necessary to abate the emergency.

B. The order authorized in subsection A hereof may be issued to the record owner of the property, his agent, or any person entitled to notice under Section 16-5-205 of this Article. Notwithstanding any provision of this Article to the contrary, such order shall be effective immediately.

C. Any person to who such emergency order is issued shall comply therewith immediately, and it shall be unlawful to fail or refuse to so comply.

¹. See Article 2 of Chapter 20 of this Code for Uniform Fire Code provisions.

CHAPTER 16 BUILDING

ARTICLE 5 DANGEROUS BUILDINGS CODE

PART 3 APPEALS AND HEARINGS

SECTION:

16-5-301: Form of Appeal
 16-5-302: Effect of Failure to Appeal
 16-5-303: Staying Order Under Appeal
 16-5-304: Processing Appeal
 16-5-305: Scope of Hearing on Appeal
 16-5-306: Procedure for Hearing Appeals
 16-5-307: Form of Notice of Hearing
 16-5-308: Subpoenas
 16-5-309: Conduct of Hearing
 16-5-310: Method and Form of Decision
 16-5-311: Enforcement of Order
 16-5-312: Failure to Obey Order
 16-5-313: Extension of Time
 16-5-314: Work Performance on Repair or Demolition
 16-5-315: Interference With Repair or Demolition

16-5-301: **FORM OF APPEAL:** Any person entitled to service under Section 16-5-205 may appeal from any notice and order to any action of the Building Official by filing at the office of the Building Official, within thirty (30) days from the date of the service of such order a written appeal containing:

- A. A heading in the words: Before the Board of Appeals of the City of Colorado Springs, Colorado.
- B. A caption reading: Appeal of _____ giving the names of all appellants participating in the appeal.
- C. A brief statement setting forth the legal interest of each of the appellants in the building or the land involved in the notice and order.
- D. A brief statement, in ordinary and concise language, of the specific order or action protested, together with any material facts claimed to support the contentions of the applicant.
- E. A brief statement, in ordinary and concise language, of the relief sought and the reasons

E) why it is claimed the protested order or action should be reversed, modified or otherwise set aside.

F. The signature of all parties named as appellants, and their official mailing addresses.

G. The verification (by declaration under penalty or perjury) of at least one appellant as to the truth of the matters stated in the appeal. (Ord. 84-282)

16-5-302: EFFECT OF FAILURE TO APPEAL:

Failure of any person to file an appeal in accordance with the provisions of Section 16-5-301 shall constitute a waiver of his right to an administrative hearing and adjudication of the notice and order, or any portion thereof. (Ord. 84-282)

16-5-303: STAYING ORDER UNDER APPEAL:

Except for vacation orders made pursuant to Section 16-5-308 OR EMERGENCY ORDERS ISSUED PURSUANT TO SECTION 16-5-210, enforcement of any notice and order of the Building Official issued under this Code shall be stayed during the pendency of an appeal therefrom which is properly and timely filed. (Ord. 84-282)

16-5-304: **PROCESSING APPEAL:** Upon receipt of any appeal filed pursuant to this Section, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.

As soon as practicable, after receiving the written appeal, the Board of Appeals shall fix a date, time and place for the hearing of the appeal by the Board. Such date shall be not less than ten (10) days nor more than sixty (60) days from the date the appeal was filed with the Building Official. Written notice of the time and place of the hearing shall be given at least ten (10) days prior to the date of the hearing to each

appellant by the secretary of the Board either by causing a copy of such notice to be delivered to the appellant personally or by mailing a copy thereof, postage prepaid, addressed to the appellant at his address shown on the appeal. (Ord. 84-282)

16-5-305: SCOPE OF HEARING ON APPEAL: Only those matters or issues specifically raised by the appellant shall be considered in the hearing of the appeal. (Ord. 84-282)

16-5-306: PROCEDURE FOR HEARING APPEALS:

- A. Hearing Examiners. The Board may appoint one or more hearing examiners or designate one or more of its members to serve as hearing examiners to conduct the hearings. The examiner hearing the case shall exercise all powers relating to the conduct of hearings until it is submitted by him to the Board for decision.
- B. Records and Reports. A record of the entire proceedings shall be made by tape recording determined to be appropriate by the Board. The proceedings at the hearing shall also be reported by a phonographic, or other reporting system, if requested by any party thereto. A transcript of the proceedings shall be made available to all parties upon request and upon payment of the fee prescribed therefor. Such fees may be established by the Board, but shall in no event be greater than the cost involved.
- C. Continuances. The Board may grant continuance for good cause shown, however, when a hearing examiner has been assigned to such hearing, no continuances may be granted except by him for good cause shown so long as the matter remains before him.
- D. Oaths; Certification. In any proceedings under this Chapter, the Board, and Board member, or the hearing examiner has the power to administer oaths and affirmations and to certify to official acts.
- E. Reasonable Dispatch. The Board and its representatives shall proceed with reasonable dispatch to conclude any matter before it. Due regard shall be shown for the convenience and necessity of any parties or their representatives. (Ord. 84-282)

16-5-307: FORM OF NOTICE OF HEARING: The notice to appellant shall be substantially in

the following form, but may include other information:

You are hereby notified that a hearing will be held before (the Board or name of hearing examiner) at _____ on the _____ day of _____ 19____, at the hour _____ upon the notice and order served upon you. You may be present at the hearing. You may, but need not be, represented by counsel. You may present any relevant evidence and will be given full opportunity to cross-examine all witnesses testifying against you. You may request the issuance of subpoenas to compel the attendance of witnesses, and the production of books, documents or other things by filing an affidavit therefor with (Board or name of hearing examiner). (Ord. 84-282)

16-5-308: SUBPOENAS:

- A. Filing of Affidavit. The Board or examiner may obtain the issuance and service of a subpoena for the attendance of witnesses or the production of other evidence at a hearing upon the request of a member of the Board or upon the written demand of any party. The issuance and service of such subpoena shall be obtained upon the filing of an affidavit therefor which states the name and address of the proposed witness, specifies the exact things sought to be produced and the materiality thereof in detail to the issues involved; and states that the witness has the desired things in his possession or under his control. A subpoena need not be issued when the affidavit is defective in any particular.
- B. Cases Referred to Examiner. In cases where a hearing is referred to an examiner, all subpoenas shall be obtained through the examiner.
- C. Penalties. Any person who refuses, without lawful excuse, to attend any hearing or to produce material evidence in his possession or under his control as required by any subpoena served upon such person as provided for herein, shall be guilty of a misdemeanor. (Ord. 84-282)

16-5-309: CONDUCT OF HEARING:

- A. Rules. Hearings need not be conducted according to the technical rules relating evidence and witnesses.
- B. Evidence.
 - 1. Oral Evidence. Oral evidence shall be taken only on oath or affirmation.

- B) 2. Hearsay Evidence. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions in courts of competent jurisdiction in this State.

3. Admissibility of Evidence. Any relevant evidence shall be admitted if it is the type of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in courts of competent jurisdiction in this State.

4. Exclusion of Evidence. Irrelevant and unduly repetitious evidence shall be excluded.

- C. Rights of Parties. Each party shall have these rights among others:

1. To call and examine witnesses on any matter relevant to the issues of the hearing;

2. To introduce documentary and physical evidence;

3. To cross-examine opposing witnesses on any matter relevant to the issues of the hearing;

4. To impeach any witness regardless of which party first called him to testify;

5. To rebut the evidence against him;

6. To represent himself or to be represented by anyone of his choice who is lawfully permitted to do so.

- D. Official Notice.

1. What May be Noticed. In reaching a decision, official notice may be taken, either before or after submission of the case for decision, of any fact which may be judicially noticed by the courts of the State or of official records of the Board or Departments and ordinances of the City or rules and regulations of the Board.

2. Parties to be Notified. Parties present at the hearing shall be informed of the matters to be

- D) noticed, and these matters shall be noted in the record, referred to therein, or appended thereto.

3. Opportunity to Refute. Parties present at the hearing shall be given a reasonable opportunity, on request, to refute the officially noticed matters by evidence or by written or oral presentation of authority, the manner of such refutation to be determined by the Board or hearing examiner.

4. Inspection of the Premises. The Board or the hearing examiner may inspect any building or premises involved in the appeal during the course of the hearing provided that

(a) Notice of such inspection shall be given to the parties before the inspection is made.

(b) The parties are given an opportunity to be present during the inspection, and

(c) The Board or the hearing examiner shall state for the record upon completion of the inspection the material facts observed and the conclusions drawn therefrom.

Each party then shall have a right to rebut or explain the matters so stated by the Board or hearing examiner. (Ord. 84-282)

16-5-310: METHOD AND FORM OF DECISION:

- A. Hearing Before Board. Where a contested case is heard before the Board itself, no member thereof who did not hear the evidence or has not read the entire record of the proceedings shall vote on or take part in the decision.
- B. Hearing Before Examiner. If a contested case is heard by a hearing examiner alone, he shall, within a reasonable time (not to exceed 90 days from the date the hearing is closed) submit a written report to the Board. Such report shall contain a brief summary of the evidence considered and state the examiner's findings, conclusions and recommendations. The report also shall contain a proposed decision in such form that it may be adopted by the Board as its decision in the case. All examiner's reports filed with Board shall be matters of public record. A copy of each such report and proposed decision shall be mailed to each party on the date they are filed with the Board.

- C. Consideration of Report by Board; Notice. The Board shall fix a time, date and place to consider the examiner's report and proposed decision. Notice thereof shall be mailed to each interested party not less than five (5) days prior to the date fixed, unless it is otherwise stipulated by all of the parties.
- D. Exceptions to report. Not later than two (2) days before the date set to consider the report, any party may file written exceptions to any part or all of the examiner's report and may attach thereto a proposed decision together with written argument in support of such decision. By leave of the Board, any party may present oral argument to the Board.
- E. Disposition of the Board. The Board may adopt or reject the proposed decision in its entirety or may modify the proposed decision. If the proposed decision is not adopted, the Board may decide the case upon the entire record before it, with or without taking additional evidence, or may refer the case to the same or another hearing examiner to take additional evidence. If the case is reassigned to a hearing examiner, he shall prepare a report and proposed decision as provided in subsection B hereof after any additional evidence is submitted. Consideration of such proposed decision by the Board shall comply with the provisions of this Section.
- F. Form of Decision. The decision shall be in writing and shall contain findings of fact, a determination of the issues presented, and the requirements to be complied with. A copy of the decision shall be delivered to the appellant personally or sent to him at the address set forth in the appeal by certified mail, postage prepaid, return receipt requested.
- G. Effective Date of Decision. The effective date of the decision shall be as stated therein. (Ord. 84-282)

16-5-311: ENFORCEMENT OF ORDER: After any order of the Building Official or the Board of Appeals made pursuant to this Article shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order is guilty of a misdemeanor. (Ord. 84-282)

16-5-312: FAILURE TO OBEY ORDER:

- A. If, after any order of the Building Official or Board of Appeals made pursuant to this Article has become final, the person to whom such order is directed shall fail, neglect or refuse to obey such order, the Building Official may
 - 1. Cause such person to be prosecuted under Section 16-5-311 above, or
 - 2. Institute any appropriate action to abate such building as a public nuisance.
- B. Whenever the required repair or demolition is not commenced within thirty (30) days after any final notice and order issued under the Article becomes effective:
 - 1. The Building Official shall cause the building described in such notice and order to be vacated by posting at each entrance thereto a notice reading:

DANGEROUS BUILDING

DO NOT OCCUPY

It is a misdemeanor to occupy this building or to remove or deface this notice.

Building Official
City of Colorado Springs, Colorado

2. No person shall occupy any building which has been posted as specified in this subsection. No person shall remove or deface any such notice so posted until the repairs, demolition or removal ordered by the Building Official have been completed and a certificate of occupancy issued pursuant to the provisions of the Regional Building Code.¹

3. The Building Official may in addition to any other remedy herein provided, cause the building to be repaired to the extent necessary to correct the conditions which render the building dangerous as set forth in the notice and order, or, if the notice and order required demolition, to cause building to be sold and demolished or demolished and the materials, rubble and debris

¹. See Sections 16-4-201 et. seq. of this Code.

- B3) therefrom removed and the lot cleaned. Any such repair or demolition work shall be accomplished and the cost thereof paid and recovered in the manner hereinafter provided in this Code. Any surplus realized from the sale of any such building, or from the demolition thereof, over and above the cost of demolition and of cleaning the lot shall be paid over to the person or persons lawfully entitled thereto. (Ord. 84-282)

16-5-313: EXTENSION OF TIME: Upon receipt of an application from the person required to conform to the order and an agreement by such person that he will comply with the order if allowed additional time, the Building Official may, in his discretion, grant an extension of time, not to exceed an additional one hundred twenty (120) days within which to complete said repair, rehabilitation or demolition, if the Building Official determines that such an extension of time will not create or perpetuate a situation imminently dangerous to life or property. The Building Official's authority to extend time is limited to the physical repair, rehabilitation or demolition of the premises and will not in any way affect or extend the time to appeal his notice and order. (Ord. 84-282)

16-5-314: WORK PERFORMANCE ON REPAIR OF DEMOLITION:

- A. Procedure. When any work or repair demolition is to be done pursuant to Section 16-5-312 hereof, the Building Official shall issue his order therefor to the Director of Public Works and the work shall be accomplished by City personnel or by private contract under the direction of said Director. Plans and specifications therefor may be prepared by said Director, or he may employ such architectural and engineering assistance on a contract basis as he may deem reasonably necessary. If any part of the work is to be accomplished by private contract, standard public works contractual procedures shall be followed.
- B. Cost. The cost of such work shall be paid from the General Fund, and may be made a special assessment against the property involved, or may be made a personal obligation of the property owner, whichever the City Council shall determine is appropriate. (Ord. 84-282)

16-5-315: INTERFERENCE WITH REPAIR OR DEMOLITION: No persons shall obstruct, impede or interfere with any person who owns or holds any estate or interest in any building which has been ordered repaired, vacated or demolished under the provisions of the this Article, or with any person to whom such building has been lawfully sold pursuant to the provisions hereof whenever such officer, employee, contractor or authorized representative of the City, person having an interest or estate in such building or structure, or purchaser is engaged in the work or repairing, vacating, and repairing, or demolishing and such building, pursuant to the provisions of this Article, or in performing any necessary act preliminary to or incidental to such work or authorized or directed pursuant to this Article. (Ord. 84-282)

CHAPTER 16 BUILDING

ARTICLE 5 DANGEROUS BUILDINGS CODE

PART 4 RECOVERY OF COSTS

SECTION:

- 16-5-401: Report Account of Expenses
- 16-5-402: Protest and Objections
- 16-5-403: Hearing on Report, Protests
- 16-5-404: Personal Obligation or Special Assessment
- 16-5-405: Contest Assessment
- 16-5-406: Lien of Assessment
- 16-5-407: Report to Assessor and Tax Collector
- 16-5-408: Collection of Assessment
- 16-5-409: Repayment of Repair and Demolition Fund

16-5-401: REPORT ACCOUNT OF EXPENSES: The Director of Public Works shall keep an itemized account of the expenses incurred by the City in the repair or demolition of any building done pursuant to the provisions of Section 16-5-312B3 of this Article. Upon the completion of the work of repair or demolition, said Director shall prepare and file with the City Clerk a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the building or structure is or was located, and the names and addresses of the persons entitled to notice pursuant to Section 16-5-205.

Upon receipt of said report, the City Clerk shall fix a time, date and place for hearing said report, and any protest of objections thereto. The City Clerk shall cause notice of said hearing to be posted upon the property involved, published once in a newspaper of general circulation in the City, and served by certified mail, postage prepaid, addressed to the owner of the property as his name and address appears on the assessment roll of the County Assessor, if such so appears or as known to the Clerk. Such notice shall be given at least ten (10) days prior to the date set for hearing, and shall specify the day, hour and place when the Council will hear and pass upon the director's report, together with any objections or protests which may be filed as hereinafter provided by any person interested in or affected by the proposed charge. (Ord. 84-282)

16-5-402: PROTEST AND OBJECTIONS: Any person interested in or affected by the proposed charge must file written protests or objections with the City Clerk within ten (10) days after the mailing of the notice of hearing to the owner of the property. Each such protest or objection must contain a description of the property in which the signer thereof is interested and the grounds of such protest or objection. The City Clerk shall endorse on every such protest or objection the date it was received by him and shall present such protests or objections to the City Council at the time set for the hearing. No other protests or objections shall be considered. (Ord. 84-282; Ord. 86-14)

16-5-403: HEARING ON REPORT, PROTESTS:

Upon the day and hour fixed for the hearing, the City Council shall hear and pass upon the report of the Director together with any such objections or protests. The Council may make such revision, correction or modification in the report or the charge as it may deem just; and when the Council is satisfied with the correctness of the charge, the report (as submitted or as revised, corrected or modified) together with the charge shall be confirmed or rejected. The decision of the City Council on the report and the charge, and on protests or objections, shall be final and conclusive. (Ord. 84-282)

16-5-404: PERSONAL OBLIGATION OR SPECIAL ASSESSMENT:

The City Council may thereupon order that said charge shall be made a personal obligation of the property owner or assess said charge against the property involved.

- A. Personal Obligation. If the City Council orders that the charge shall be a personal obligation of the property owner, it shall direct the City Attorney to collect the same on behalf of the City by use of all appropriate legal remedies.

B. Special Assessment. If the City Council orders that the charge shall be assessed against the property it shall confirm the assessment roll, and thereafter said assessment shall constitute a special assessment against and a lien upon the property, and shall be collected in the same manner as other special assessments of the City.¹

C. Authority for Installment Payments. Eligible persons who are determined to have such a marginal income that they cannot pay as assessment or personal obligation levied under this Article, either against the property on which they reside or against themselves personally, may be afforded relief as herinafter provided.

1. Within thirty (30) days after the assessment or the personal obligation is ordered by the Council, the application for relief shall be filed with the City Clerk.

2. The Hardship Committees established by and in accordance with Section 19-7-801, shall review the application for the relief from the assessment or personal order. In order to determine the applicant's eligibility, the Committee shall use the criteria established in Section 19-7-804, except that ownership of real property need not be required.

3. If it is determined that the applicant is eligible and that any such person would probably default on the assessment, the Committee may authorize the execution with the applicant of an installment note for the payment of the assessment or personal obligation. The note shall be secured by a deed of trust, or if not available, by such other security reasonably available or appropriate. If no security is reasonably available or appropriate, then none shall be required. The installment note shall provide that the property owner shall make monthly payments to the City Treasurer; that such payments shall not be less than five dollars (\$5.00) and shall be sufficient to repay the amount within a period of not more than twenty five (25) years; that interest shall be charged at the rate of three percent (3%) per annum on the unpaid balance; that the entire outstanding balance shall become due and payable upon the death of the obligor or the sale or transfer of the property; that if at any time the City determines that the obligor is financially able to pay the outstanding balance, or that he

B3) has wilfully misrepresented his financial condition on his application, it may upon sixty (60) days' notice declare the entire balance due any payable. (Ord. 84-282)

16-5-405: CONTEST ASSESSMENT: The validity of any assessment made under the provisions of this Article shall not be contested in any action or proceeding unless the same is commenced within thirty (30) days after the assessment is placed upon the assessment roll as provided herein. Any appeal from a final judgment in such action or proceeding must be perfected within thirty (30) days after the entry of such judgment. (Ord. 84-282)

16-5-406: LIEN OF ASSESSMENT:

A. Priority. Immediately upon its being placed on the assessment roll shall be deemed to be complete, the several amounts assessed shall be payable, and the assessments shall be liens against the lots or parcels of land assessed, respectively. The lien shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens except for State, County and Municipal taxes with which it shall be upon a parity. The lien shall continue until the assessment and all interest due and payable thereon are paid.

B. Interest. All such assessments remaining unpaid after thirty (30) days from the date of recording on the assessment roll shall become delinquent and shall bear interest at the rate of one percent (1%) per month from and after said date. (Ord. 84-282)

16-5-407: REPORT TO ASSESSOR AND TAX COLLECTOR: After confirmation of the report, certified copies of the assessment shall be given to the County Treasurer on or before October 15. (Ord. 84-282)

16-5-408: COLLECTION OF ASSESSMENT: The amount of the assessment shall be collected at the same time and in the same manner as general taxes are collected; and shall be subjected to the same penalties and procedure and sale in case of delinquency as provided for general Municipal taxes.

¹ See Chapter 7, Article 1 of this Code.

All laws applicable to the levy, collection and enforcement of general Municipal taxes shall be applicable to such assessment.

If the City Council has determined that the assessment shall be paid in installments, each installment and any interest thereon shall be collected in the same manner as general and Municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for sale as provided for general Municipal taxes. (Ord. 84-282)

16-5-409: REPAYMENT OF REPAIR AND DEMOLITION FUND: All money recovered by payment of the charge or assessment or from the sale of property at foreclosure sale shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund. (Ord. 84-282)

CHAPTER 16 BUILDING
ARTICLE 6 CONTRACTORS
PART 1 GENERAL PROVISIONS

SECTION:

- 16-6-101: Definitions
- 16-6-102: Licenses Required
- 16-6-103: Applications; Qualifications
- 16-6-104: Examination of Applicants; Issuance of Licenses; Registration
- 16-6-105: Insurance Requirements
- 16-6-106: Responsibility of Contractors
- 16-6-107: Continuation of Business, Re-Examination
- 16-6-108: Expiration of License and Registrations; Renewals
- 16-6-109: Revocation or Suspension of Licenses and Registrations

16-6-101: DEFINITIONS:

- A. **CONTRACTOR:** Contractor within the meaning of this Code is any person, firm, partnership, corporation, association or other organization or any combination thereof who builds, constructs, alters, adds to, repairs, moves or wrecks any building or structure either on his own or other property as an occupation, having a qualified examinee or registrant as an employee or principal. All licenses or registrations required under this Code shall be issued in the name of the contractor.
- B. **EXAMINEE:** An examinee is an individual who has passed a test required by the Building Official evidencing satisfactory knowledge of the examinee, and who has been found qualified by the appropriate committee as to training and experience to do the type of work contemplated under the specific Contractor's license applied for. An examinee may be the examinee for only one contractor at any given time.
- C. **PRINCIPAL:** Any officer or director of a corporation, any general partner in a general or limited partnership, or any venture partner in a joint venture shall be deemed to be a principal.

- D. **REGISTRANT:** A registrant is a master plumber or master electrician licensed in the State of Colorado and registered in this jurisdiction as provided in Section 16-6-104A1. (Ord. 86-157)

16-6-102: LICENSES REQUIRED: Licenses shall be required as hereinafter specified in this Section and it shall be a violation of this Code for any person to contract to perform any work covered by the Building Code without a license.

A. Exceptions:

- 1. A homeowner may secure a permit without obtaining a license on only one R-3 occupancy in any twelve (12) month period. Said residence must be for the personal occupancy of the homeowner. The construction of more than one residence by a person in any one twelve (12) month period or the construction of a total of five (5) residences over any period shall be construed to establish that the homeowner must meet the requirements of a contractor, including licensing. The above also includes buildings or structures accessory thereto, intended for the homeowner's own personal use and occupancy.
- 2. Owners or agents may perform ordinary maintenance or repair which does not involve the structure of the building. Owners, other than homeowners, are not allowed to do remodeling, alterations or additions. This work must be done by a licensed contractor. (Ord. 86-157)

16-6-103: APPLICATIONS; QUALIFICATIONS:

Applications for licenses and registrations shall be on forms supplied by the Building Department and shall require such information as the appropriate committee may request, and shall be accompanied by the required fees as set out in Part 7 of Article 6 of this Chapter. Applicants must be at least eighteen (18) years of age. (Ord. 86-157)

16-6-104: EXAMINATION OF APPLICANTS; ISSUANCE OF LICENSES; REGISTRATION:

- A. All applicants for licensing under this Code must have an examinee take the examination required by the Building Official. Examinations shall be given at reasonable intervals. If the examinee fails the first examination, he may take another after thirty (30) days. If he fails the second or any subsequent examination, he may take another after six (6) months. The committees may deviate from this time requirement when they feel there are extenuating circumstances.

1. Exception: Whenever the laws of the State of Colorado require that a particular trade be licensed by the State, examination and licensing by this jurisdiction shall be waived. Instead, such contractors shall register with the Building Official. A current state license shall be a prerequisite for registration, which shall be issued upon payment of the annual fee and evidence of insurance as prescribed in this Code.

- B. 1. The Building Official shall cause to be published in a local newspaper with regional coverage a list of all contractor license applicants and solicit commentary from the public at least two (2) weeks prior to consideration of the licenses by the Board of Review.

2. If, in the opinion of the Board of Review, after recommendation by the appropriate Committee, the applicant for a license is qualified by knowledge, training, and experience to do the type of work envisioned under the specific contractor's license applied for, it shall direct the Building Official to issue the applicant a license upon payment of the annual fee prescribed in Part 7, Article 6 of this Code and upon providing evidence of the required insurance. Each annual fee shall be in addition to the application fee. As concerns evidence of knowledge, the successful passing of examinations required by this jurisdiction shall be deemed prima facie evidence of the requisite knowledge of contractor's examinee. Determination and evaluation of experience and training shall be accomplished by the respective committees under guidelines set forth from time to time by the Building Official.

- C. Special Limited Licenses. Any committee referred to in Section 16-1-404 may recommend, and the Board of Review shall have the

- C. authority to grant to any applicant, a special limited license, for the sole purpose of evaluating the training and experience of an applicant who has otherwise fulfilled all the Code requirements prerequisite to the granting of any contractor's license authorized under Part 2 of Article 6 of this Chapter. Said special limited license shall be issued only for work authorized under the specific contractor's license applied for by the applicant and shall terminate after the completion of work done pursuant to any permits issued for work covered by said special limited license. The committee shall, after completion of the work authorized by any permits, cause said work to be reviewed and shall report their recommendations concerning the applicant's qualifications in the license category applied for to the Board of Review for its consideration of the original application for the specific contractor's license requested.
- D. No permits shall be issued to any contractor who has not first obtained a license or registration as required in this Code or who is delinquent in the payment of the respective annual fee, or whose license or registration has been suspended or revoked by action of the Board of Review.
- E. On any work requiring a licensed contractor, permits shall be issued only to the contractor or to his authorized representative.
- F. No person or entity convicted by a court having competent jurisdiction for a felony, or for civil or criminal fraud, constructive or actual, for work related to any license issued by this jurisdiction or for work related to the building trades in any jurisdiction, shall be granted a license or registration or serve as an examinee for a contractor in this jurisdiction. (Ord. 86-157)

16-6-105: INSURANCE REQUIREMENTS:

- A. Before a license or registration can be issued, the contractor shall file with the Building Official a certificate signed by a licensed agent of an insurance company stating that the worker's compensation and general liability (including premises/operations and products/completed operations) policies required by this Code have been issued to the contractor. Such certification shall include the policy number or numbers, the name of the company, the effective and expiration dates, and the limits of such policies. The following minimum coverages shall be required:

A)

License Category	General Liability Policy		C.S.L. *	Worker's Compensation**	Explosion Collapse & Underground
	Bodily Injury	Property Damage			
Building Contr. A	100,000/300,000	100,000	500,000	Required	--

*Combined Single Limit

**Sole proprietors and partnerships with no employees shall not be required to carry Worker's Compensation Insurance.

Exception: If a wrecking contractor, or a building contractor acting as a wrecking contractor, proposes to demolish a building that is, in the opinion of the Building Official, sufficiently removed from other buildings or structures so as not to become a hazard or cause damage to such other buildings or structures during the course of demolition, the Building Official, at his discretion, may waive the Explosion, Collapse and Underground provisions of this Code.

- B. Each such policy of insurance shall contain an endorsement to the effect that the insurance carrier shall notify the Regional Building Department at least ten (10) days in advance of the effective date of any reduction or cancellation of the policy. The lapse, cancellation or reduction of insurance shall be cause for automatic suspension of the license until the required coverages are reinstated. (Ord. 86-157)

16-6-106: RESPONSIBILITY OF CONTRACTORS:

A contractor shall be responsible for all work included in his contract whether or not such work is done by him directly or by one of his subcontractors. (Ord. 86-157)

16-6-107: CONTINUATION OF BUSINESS; RE-EXAMINATION:

The respective contractor's rights to do business shall be dependent upon the continued retention of the examinee or registrant as an employee or principal. Whenever the examinee's or registrant's employment is terminated, the contractor shall immediately notify the Building Official. Upon termination, there shall be a thirty (30) day grace period in order to acquire a qualified replacement before automatic termination of the license or registration and re-registration or re-examination and approval by the Board of Review are required. (Ord. 86-157)

16-6-108: EXPIRATION OF LICENSES AND REGISTRATIONS; RENEWALS:

- A. All licenses and registrations shall expire on the last day of the twelfth calendar month following the date of issuance unless otherwise provided. Regardless of the actual renewal date, the licensing period shall be as established by the original issue date.
- B. No permits may be obtained, nor work already under permit be continued, after the expiration date until the license or registration has been renewed as provided for herein.
- C. Licenses and registrations may be renewed by the Building Official without re-examination upon the payment of the fees for the current year, providing the license or registration has not been suspended or revoked by action of the Board of Review and providing the renewal is done within forty five (45) days of the expiration date of the license. Failure to renew a license within said forty five (45) day period after expiration date of license will necessitate re-application, examination, evaluation by the respective committee and approval by the Board of Review. Neither license nor registration fees shall be prorated for any portion of a year.
- D. A late renewal will not serve to change the license period. (Ord. 86-157)

16-6-109: REVOCATION OR SUSPENSION OF LICENSES AND REGISTRATIONS:

- A. Definitions:

INCIDENT REPORT: As used in Sections 16-6-109B4 and 16-6-109B5, an "incident report" is a written record of less serious though substantial or repeated code violations by a contractor and/or its examinee or registrant. Incident reports shall be kept in the contractor's and/or examinee's or registrant's permanent file, with a copy to any party cited, for a period of three (3) years at which time they will be discarded. "Incident reports" may be filed by advisory committees, the Board of Review, or the Building Official.

LETTER OF REPRIMAND: As used in Section 16-6-109B4 and Section 16-6-109B5, a "letter

- A) of reprimand" is a written admonishment issued by either the advisory committee or the Board of Review, to be placed and remain in a contractor's and/or examinee's or registrant's permanent file, with a copy provided to any party cited, evidencing a finding of serious code violations or ordinary negligence related to work performed under this Code.

ORDINARY NEGLIGENCE: As used in Section 16-6-109C7, "ordinary negligence" is defined as a failure to do an act which a reasonably careful contractor or other person would do, or the doing of an act which a reasonably careful contractor or other person would not do, under the same or similar circumstances to protect his client or the public from injury or property damage. An act required to be done under this Code shall be presumed to be an act done to protect the public from injury or property damage.

REVOCATION: "Revocation" as used in this Section shall be defined as the removal of a contractor's license or registration or the right of a contractor's principals or examinee or registrant to serve as a contractor or examinee or registrant for another contractor for an unlimited time. Upon revocation of a license or registration, the contractor shall immediately stop all work underway that is covered by this Code. Such work shall not resume until an appropriately licensed or registered contractor obtains a permit for said work.

SUSPENSION: "Suspension" as used in this Section shall be defined as the temporary removal of a contractor's license or registration or the right of a contractor's principals or examinee or registrant to serve as a contractor or examinee or registrant for another contractor for a period of time to be specified by the Board of Review, but not to exceed six (6) months. Upon suspension of a license or registration, the contractor shall immediately stop all work underway that is covered by this Code. Such work shall not resume until an appropriately licensed or registered contractor obtains a permit for said work or until the suspension is lifted, in which case the contractor may resume the work after obtaining a valid permit for said work.

2. WILLFUL AND WANTON NEGLIGENCE: As used in Section 16-6-109C6, "willful and wan-

- A) "negligence" is the doing of an act, or the failure to do an act which creates a substantial degree of risk of harm to another or another's property, and the contractor or other person doing the act, or failing to act, is aware of such risk and thereafter purposefully does the act, or fails to act, without any reasonable justification, in disregard of the consequences or of the rights and safety of the other or his property.

WILLFULLY: As used in Section 16-6-109C1, "willfully" is defined as designed; intentional; not accidental or involuntary; proceeding from a conscious motion of the will. A willful act may be described as one done intentionally, knowingly, and purposefully, without justifiable excuse, as distinguished from an act done carelessly, thoughtlessly, heedlessly, or inadvertently.

B. Complaint Procedures:

1. The Building Official shall, upon receipt of a written complaint, sworn to before a notary public, alleging violations of this Code, require any contractor licensed or registered pursuant to this Code, and/or his examinee or registrant, to appear before any duly appointed advisory committee for hearing said complaint. The Building Official may also, at his own discretion, require any contractor licensed or registered pursuant to this Code, and/or its examinee or registrant, to appear before said advisory committee for hearing of a complaint of the Building Official.

2. The contractor and/or its examinee or registrant shall be given a copy of the complaint and written notice of the time and the place of any contemplated hearing before an advisory committee at least twenty (20) days prior to said hearing. The written notice and complaint shall be served personally or posted by certified mail, return receipt requested, to the contractor's and/or its examinee's or registrant's last known mailing address.

3. At any hearing before an advisory committee, the contractor and/or its examinee or registrant shall be entitled to have the benefit of legal counsel of his or its own choosing and at his or its own expense and shall have the right to present his or its case by oral and documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts.

- B) 4. An advisory committee, after review of the evidence presented, shall have the power by majority vote to have an incident report or letter of reprimand entered in the contractor's and/or its examinee's or registrant's permanent files if he or it is found to have violated provisions of this Code. If the committee finds evidence of any act or omission in Section 16-6-109C, it may recommend a hearing before the Board of Review for its consideration. Any such hearing shall be held pursuant to the provisions of paragraphs 2 and 3 above.

5. If, in the opinion of three (3) of the five (5) members of the Board of Review, the evidence presented at any hearing before it supports a finding that the contractor and/or its examinee or registrant committed one or more of the acts or omissions in Section 16-6-109C, the Board of Review shall have the power to:

a. Suspend or revoke said contractor's license.

b. Suspend or revoke the right of said contractor's principals and/or examinee or registrant to be licensed as a contractor or serve as examinee or registrant for another contractor in the future.

c. Issue a letter of reprimand to the contractor and/or its examinee or registrant.

d. Issue an incident report to the contractor and/or its examinee or registrant.

C. Punishable Acts and Omissions:

1. Willfully violating any provisions of this Code including any codes which are adopted by reference.

2. Failure to comply with any lawful order of the Building Official or of any other authorized representative employed by the Regional Building Department pertaining to the administration of this Code and those codes adopted by reference.

3. Using a contractor's license to obtain permits required under this Code for work that will not be performed by or supervised by the contractor.

4. Misrepresentation by an applicant of a material fact when applying for a contractor's license.

- C) 5. Failure to obtain a proper permit for any work for which a permit is required by virtue of this Code.

6. Commitment of any act of willful and wanton negligence in the conduct of the contractor's or other persons's specific trade or business on work done by the contractor or other person which is regulated by the provisions of this Code.

7. Ordinary negligence of the contractor or other person evidenced by letters of reprimand and/or incident reports received by the contractor within a three (3) year time period, which are, in the judgment of the Board of Review, sufficient in number and severity to warrant revocation or suspension of the contractor's license.

- D. Automatic Revocation or Suspension: A license or registration, or the right of an examinee or principal of the contractor to serve as a contractor or as an examinee of a contractor, shall automatically be suspended or revoked by the Building Official as follows:

1. Registrations within this jurisdiction shall be automatically revoked or suspended upon revocation, suspension or refusal to renew any required Colorado State license.

2. Any license or registration within this jurisdiction shall be automatically suspended upon lapse, cancellation, or reduction of insurance coverages below those required by Section 16-6-105 of this Code. Said suspension shall remain in effect until proof of the reinstatement of the required coverages is presented to the Regional Building Department. Failure to present such proof within twelve (12) months of such lapse, cancellation, or reduction shall result in automatic revocation of the license or registration.

3. Conviction by a court having competent jurisdiction of the contractor and/or its examinee or registrant for a felony, or for civil or criminal fraud, constructive or actual, for work related to any license under this Code, shall result in automatic revocation of the license or registration and revocation of the right of the examinee, registrant, or principals of the contractor to serve as contractor or examinee or registrant for

- D3) another contractor after notification by the Board of Review. Said notification shall be served personally or posted by certified mail, return receipt requested, to the last known mailing address.

E. Voluntary Suspension:

1. The Board of Review may suspend licenses or registrations upon the voluntary written request for such action by the contractor. Such suspensions shall not exceed a period of twelve (12) months unless notarized annual certification from the contractor's employer is furnished indicating that the contractor is engaged in an active capacity in the field of building construction.

2. While under voluntary suspension, the contractor need not carry insurance, but shall be responsible for all license or registration fees normally due.

3. The voluntary suspension shall be automatically lifted at any point during the twelve (12) month period under the following conditions:

a. Written request is made to the Board of Review by the contractor.

b. Proof of insurance is provided in accordance with Section 16-6-105 of this Code.

4. In the event the contractor does not rescind the voluntary suspension within the twelve (12) month period as provided in paragraph 3 above, or furnish proof of active engagement in the construction field, as provided in paragraph 1 above, he must meet all requirements of Section 16-6-104 and 16-6-105 of this Code to obtain a new license or registration.

- F. Appeal: Appeals shall be in accordance with Section 16-1-105 of this Code.

- G. Reinstatement of License or Registration: The Board of Review may reinstate a license or registration or the right to serve as a contractor or as the examinee of a contractor to any contractor or examinee, registrant, or principal whose license or right to serve has been revoked, provided three (3) members of the Board of Review vote in favor of such reinstatement for such reason as the Board may deem sufficient. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 6 CONTRACTORS

PART 2 BUILDING CONTRACTORS

SECTION:

- 16-6-201: Application and Examination
- 16-6-202: Building Contractor A (General)
- 16-6-203: Building Contractor B (General-Limited)
- 16-6-204: Building Contractor C (Home Builder)
- 16-6-205: Building Contractor D (Specialty)
- 16-6-206: Building Contractor E (Maintenance and Remodeling)
- 16-6-207: Building Contractor F (Solar-Energy)

16-6-201: **APPLICATION AND EXAMINATION:** In accordance with Section 16-6-103 and Section 16-6-104 of this Code, the Building Committee shall review applications and examinations, and make appropriate recommendations to the Board of Review for the following classes of contractors' licenses. (Ord. 86-157)

16-6-202: **BUILDING CONTRACTOR A (GENERAL):** This license shall entitle the holder to contract for the construction, alteration or repairing of any type or size of structure permitted by the Uniform Building Code. (Ord. 86-157)

16-6-203: **BUILDING CONTRACTOR B (GENERAL-LIMITED):**

- A. Building Contractor B-1: This license shall entitle the holder to contract for the construction, alteration or repair of any type of occupancy classification allowed by this Code, with the exception of any building that requires Type I or Type II fire resistive construction and also any A, E or I occupancies as specified in the Uniform Building Code.
- B. Building Contractor B-2: This license shall entitle the holder to contract for nonstructural remodeling in all occupancies, with the excep-

- B) tion of any building that requires Type I or Type II fire resistive construction and also any A, E, or I occupancies. Further, this license shall entitle the holder to contract for any work authorized under a Building Contractor C license, the construction of B-2 occupancies of not more than one story in height and not more than seven thousand five hundred (7,500) square feet in area, and R-1 occupancies of not more than two (2) stories in height and not more than twenty one thousand (21,000) square feet in total area. (Ord. 86-157)

16-6-204: **BUILDING CONTRACTOR C (HOME BUILDER):** This license shall entitle the holder to contract for the construction, alteration and repair of R-3 and M occupancies of not more than three (3) stories in height. Further, the holder shall be entitled to construct, alter and repair R-1 occupancies with up to six (6) units and not more than two (2) stories in height. When in the opinion of the Building Official the work to be performed is minor and does not affect the structure of the building, the holder of this license may also contract for nonstructural repair and remodeling of all buildings with the exception of groups A, E, and I occupancies or buildings which are required to be constructed of Types I or II fire resistive construction. (Ord. 86-157)

16-6-205: **BUILDING CONTRACTOR D (SPECIALTY):** This license shall be issued by the Board to those engaged in contracting as other than a Building Contractor A, B, or C as licensed in this Code for labor or for labor and material involving only one trade, such as masonry contractors, plastering contractors, and elevator contractors and also those specifically spelled out under this license in the various categories.

- A. One Trade Only Contractors: This license limits the licensee to contract for work only in the single trade designated on the license.
- B. Wrecking Contractors:

- B) 1. Class A Wrecking Contractor. The examinee must have at least four (4) years' experience in wrecking. This contractor may wreck any building.

2. Class B Wrecking Contractor. The examinee must have at least two (2) years' experience in wrecking. This contractor may wreck any building up to and including two (2) stories.

3. The owner of a one or two (2) family dwelling or an accessory structure thereto may wreck said dwelling or structure without a licensed contractor, provided such owner shall show proof of and maintain for the duration of the work the same property damage, public liability, and explosion, collapse, and underground insurance as required for a Class B Wrecking Contractor.

4. A licensed Building Contractor A, B, or C may wreck minor buildings or remove portions of a building at the discretion of the Building Official when such wrecking is a portion of a program of alteration or remodeling. When performing wrecking, such licensed building contractor shall show proof of inclusion in his liability insurance policy of the same explosion, collapse, and underground provisions as those required of a Class B Wrecking Contractor.

5. Except as specifically permitted above, no wrecking shall be done by other than a licensed wrecking contractor.

- C. Moving Contractors. This license shall entitle the holder to contract for the moving of buildings and structures along the roads and streets in this jurisdiction.

- D. Sign Contractors.

1. Sign Contractor A. This license shall entitle the holder to contract for the erection, enlargement, moving and maintenance or removal of all signs governed under this Code. A Building Contractor A or B may also perform the functions of a Sign Contractor A.

2. Sign Contractor B. This license shall entitle the holder to perform all work of a Sign Contractor A except that it shall not allow the Sign Contractor B to do the following work:

- D2) a. Free standing signs over twenty feet (20') high.

b. Electric signs.

A Sign Contractor B may repaint or maintain any sign. A Building Contractor C may also perform the functions of a Sign Contractor B. (Ord. 86-157)

16-6-206: **BUILDING CONTRACTOR E (MAINTENANCE AND REMODELING):**

This license shall entitle the holder to contract for minor structures such as fences, sheds, patio covers and private detached garages in connection with R-3 and M occupancies and for minor repair or remodeling of R-3 and M occupancies which do not affect the structure of the building. (Ord. 86-157)

16-6-207: **BUILDING CONTRACTOR F (SOLAR ENERGY):**

- A. Building Contractor F-1, Unlimited: This license shall entitle the holder to contract for the installation of all kinds of active solar heating and cooling systems and to make the necessary connections to related equipment. The work done under this license shall be limited to the solar collector installation and its connection to the existing gas, plumbing and heating systems.

- B. Building Contractor F-2, Limited: This license shall entitle the holder to contract for the installation of all kinds of active solar heating and cooling systems but shall require that all connections and equipment related to the system be connected or installed by contractors properly licensed to do so.

- C. A licensed Building Contractor A, B, or C may act as a Solar Energy Contractor F-2, Limited. (Ord. 86-157)

CHAPTER 16 BUILDING
ARTICLE 6 CONTRACTORS
PART 3 CONCRETE CONTRACTORS¹

SECTION:

- 16-6-301: License Required
- 16-6-302: Application for License; Fee, Term
- 16-6-303: Bond, Insurance Requirement
- 16-6-304: Permit, Inspections Required
- 16-6-305: Specifications
- 16-6-306: Responsibility of Licensees
- 16-6-307: Revocation of License

16-6-301: LICENSE REQUIRED: No person shall construct or repair a sidewalk, curb and gutter or driveway, or contract to construct or repair a sidewalk, curb and gutter or driveway within the City right of way without first obtaining a license and a permit to do so, except as otherwise provided in this Section. No license or permit shall be issued except as provided in this Part. (Ord. 84-282)

16-6-302: APPLICATION FOR LICENSE; FEE, TERM: Any person desiring such license shall make application therefor to the City Clerk on form provided by the City Clerk. The written application shall state the name and address and principal place of business of the applicant. Such license shall be issued by the City Clerk upon payment to the City of the fee set out in Section 16-6-807 of this Code. All licenses issued under this Section shall, unless sooner suspended or revoked, expire on June 30 of each year, and such license may be renewed no later than thirty (30) days after the expiration for the same fee as the initial fee. The City Clerk shall keep a record of all licenses issued. (Ord. 84-282)

16-6-303: BOND, INSURANCE REQUIREMENT: Before a license is issued, the applicant shall file with the City Clerk one five thousand dollar (\$5,000.00) surety bond in a form approved by the City Attorney. The bond shall be conditioned for the faithful compliance with all the provisions of this Code and other ordinances of the City relating to the construction and repair of sidewalks, curb and gutter,

or driveways, and that the licensee shall pay to the City any and all damages of every kind caused by the negligence of the licensee in the construction and repair of sidewalks, curb and gutter or driveways within the City right of way or damage from lack of proper protection in the construction and repair of the sidewalks, curb and gutter or driveways, or from the noncompliance with any of the provisions of this Code or other ordinances of the City, and that the licensees shall pay all fees due to the City under this Code under any ordinance or under any rules or regulations made in pursuance thereof

No concrete contractor's license shall be issued until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the licensee with the City also named as insured:

Bodily Injury:	
Each person	\$300,000.00
Each accident	300,000.00
Property Damage:	
Each accident	\$ 50,000.00
Aggregate	100,000.00

Each such policy of insurance shall contain an endorsement to the effect that the insurance carrier shall notify the City at least thirty (30) days in advance of the effective date of any reduction or cancellation of the policy. The cancellation or reduction of insurance shall be cause for automatic suspension of the license until coverage shall be reinstated. All policies shall be kept in force for the period of the license.

Provided, however, that public utilities holding a franchise from the City, City departments and other governmental agencies, may be relieved of the obligation of submitting said bond and certificate of insurance by the Department of Public Works.

16-6-304: PERMIT, INSPECTIONS REQUIRED: No person shall proceed to construct or repair

1. For requirements relating to excavations in streets and public ways, see Chapter 19, Article 5, part 2 of this Code.

any sidewalk, curb and gutter, or driveway, without first obtaining a permit from the City Engineer. The written application for permit shall state the name and address and principal place of business of the applicant, the location and dimensions of the installation or removal, and the approximate time which it will be required to complete such work including removing all obstructions, material and debris. Such application shall be submitted to the City Engineer, and if the City Engineer shall approve it, he may order the issuance of the permit. The City Engineer shall make such inspections as are reasonably necessary in the enforcement of this Section. The Department of Public Works shall keep records of all permits issued for period of one year after issuance. (Ord. 84-282)

16-6-305: **SPECIFICATIONS:** In addition to the provisions of this Section, any construction and repair of sidewalk, curb and gutter or driveways shall be in accordance with the Department of Public Works Standard Specifications, and in accordance with all applicable provisions of Part 2 of Article 5 of Chapter 19 of this Code relating to excavations in the public way. (Ord. 84-282)

16-6-306: **RESPONSIBILITY OF LICENSEES:** Such licensed persons shall be responsible for the acts and negligence of their employees and agents. (Ord. 84-282)

16-6-307: **REVOCATION OF LICENSE:** Any license issued pursuant to this Section may be revoked under the provisions of Part 8 of Article 1 of Chapter 8 of this Code. (Ord. 84-282)

CHAPTER 16 BUILDING
ARTICLE 6 CONTRACTORS
PART 4 ELECTRICAL CONTRACTORS

SECTION:

16-6-401: Colorado License Required

16-6-402: Bond

16-6-401: **COLORADO LICENSE REQUIRED:** No license other than a duly issued Colorado electrical contractor's license shall be required; however, Colorado licensed electrical contractors shall register with the Regional Building Department. An annual fee for registration as set out in Section 16-6-707 of this Code shall be charged to cover costs of administration of the registration and its functions. (Ord. 86-157)

16-6-402: **BOND:** If the contractor elects to be billed for his permit fees, he shall post a bond equal to the limit of his anticipated charges, but in no case less than the face value of one thousand dollars (\$1,000.00), guaranteeing payment of fees owed to the Regional Building Department in accordance with Chapter 16, Article 3, Part 2 of this Code. Expiration of the bond shall automatically suspend the permits which it covers until the bond has been replaced or renewed. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 6 CONTRACTORS

PART 5 HEATING CONTRACTORS

SECTION:

16-6-501: Application and Examination
 16-6-502: Heating Contractor A
 16-6-503: Heating Contractor B
 16-6-504: Heating Contractor C
 16-6-505: Heating Mechanic
 16-6-506: Bond

16-6-501: APPLICATION AND EXAMINATION: In accordance with Section 16-6-103 and Section 16-6-104 of this Code, the Mechanical Committee shall review applications and examinations, and make appropriate recommendations to the Board of Review for the classes of contractors' licenses that follow. (Ord. 86-157)

16-6-502: HEATING CONTRACTOR A: This license shall authorize the contractor to obtain permits for gas piping installations. In addition, the contractor may set and vent new, or replace existing, gas appliances which have no air duct connections. (Ord. 86-157)

16-6-503: HEATING CONTRACTOR B: This license shall authorize the contractor to obtain permits for the installation of heating, ventilating and air conditioning systems, with the exception of gas piping. In addition, the contractor may replace existing gas appliances which do not require removal or alteration of rigid gas piping. (Ord. 86-157)

16-6-504: HEATING CONTRACTOR C: This license is limited to a specific area of heating work not otherwise herein provided for and as specified on the license. (Ord. 86-157)

16-6-505: HEATING MECHANIC: A heating mechanic is a skilled worker qualified to

perform work on fuel gas piping on the downstream side of the meter in accordance with Chapter 16, Article 2, Part 2 of this Code.

A. **Examination:** In accordance with Section 16-6-103 and Section 16-6-104 of this Code, the Mechanical Committee shall review applications and examinations, and make appropriate recommendations to the Board of Review for the grades of licenses that follow. There shall be no application fees for these licenses; however, Heating Mechanic I applicants shall pay a ten dollar (\$10.00) examination fee. License fees shall be as set forth in Section 16-6-706 of this Code.

B. **Grades of Mechanics:** The various grades of heating mechanics and their functions and qualifications shall be as set forth in this Section.

1. **Heating Mechanic I (Fitter).** An applicant for Heating Mechanic I license shall have two (2) years experience as a gas pipe fitter-installer and gas serviceman. References shall be supplied establishing this experience. All work must be performed under the direction of a Heating Contractor A except that a registered plumbing contractor who possesses a Heating Mechanic I license may replace water heaters without the direction of a Heating Contractor A.

2. **Heating Mechanic II (Welder).** This license allows a person to engage in the welding of gas piping. All work must be performed under the direction of a Heating Contractor A. At the time of license issuance or renewal, the Heating Mechanic II will submit the results, dated within the past year, of the welding test per Standard Procedure Specification No. WPS RBD 001 for certification. The mechanic will be certified in either gas or electric welding or both based on the test results submitted. The mechanic may certify in the 6G position or in both the 2G and 5G positions. At the time of license renewal, failure to produce current test results shall constitute grounds for denying license renewal.

C. Licensed Mechanics; General Provisions:

1. Any mechanic licensed pursuant to this Section shall be required to carry on his person his current license at all times while he is working in said mechanical trade.

2. Any mechanic duly licensed under this Section may have a helper or helpers to assist him in his work, pursuant to the applicable State Statutes concerning his specific trade, even though said helper or helpers are unlicensed.

a. Any unlicensed helper must work under the immediate and direct supervision of the mechanic licensed under this Section, which licensed mechanic must be physically on the job site at all times that the unlicensed helper is working.

b. "Job site" shall mean the area covered by the building permit, except that in residential construction, it may include any residential construction immediately adjacent thereto.

c. In the event that there is no State Statute applicable to the specific trade, then the number of helpers must bear a reasonable relationship to said duly licensed mechanic. (Ord. 86-157)

16-6-506: **BOND:** If the contractor elects to be billed for his permit fees, he shall post a bond equal to the limit of his anticipated charges, but in no case less than the face value of one thousand dollars (\$1,000.00), guaranteeing payment of fees owed to the Regional Building Department in accordance with Chapter 16, Article 3, Part 2 of this Code. Expiration of the bond shall automatically suspend the permits which it covers until the bond has been replaced or renewed. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 6 CONTRACTORS

PART 6 PLUMBING CONTRACTORS; WATER CONNECTED APPLIANCE CONTRACTORS

SECTION:

16-6-601: Colorado License Required
 16-6-602: Water Connected Appliance Contractor
 16-6-603: Bond
 16-6-604: Vehicle Identification

16-6-601: COLORADO LICENSE REQUIRED: No license other than a duly issued Colorado State master plumber's license shall be required. The contractor is permitted to do all such work as is set out within Chapter 16, Article 2, Part 5 of this Code. However, venting and gas piping of appliances requires a Heating Contractor A license. (Exception: A registered plumbing contractor who possesses a Heating Mechanic I license may replace water heaters without the supervision of a Heating Contractor A.) To perform plumbing work within this jurisdiction, a Colorado State licensed master plumber shall register with the Regional Building Department. An annual fee for registration as set out in Section 16-6-706 of this Code shall be charged to cover the costs of administration of the registration and its functions. (Ord. 86-157)

16-6-602: WATER CONNECTED APPLIANCE CONTRACTOR:

- A. Application and Examination. In accordance with Section 16-6-103 and Section 16-6-104 of this Code, the Mechanical Committee shall review applications and examinations, and make appropriate recommendations to the Board of Review for the classes of contractors' licenses that follow.
- B. This license shall authorize the contractor to obtain permits and install only ice makers, lawn sprinkler systems, water softeners, and humidifiers.
- C. This license shall enable the contractor to do work only in the installation of equipment directly

C) to the source of water supply. The contractor shall not perform work which requires licensing or registration elsewhere in this Code, to include waste, drain, or vent piping, without holding the applicable license and registration to do that work.

D. A plumbing contractor holding a State master plumber's license and registered in this jurisdiction may obtain permits to install any of the above listed items without a separate license.

16-6-603: BOND: If the contractor elects to be billed for his permit fees, he shall post a bond equal to the limit of his anticipated charges, but in no case less than the face value of one thousand dollars (\$1,000.00), guaranteeing payment of fees owed to the Regional Building Department in accordance with Chapter 16, Article 3, Part 2 of this Code. Expiration of the bond shall automatically suspend the permits which it covers until the bond has been replaced or renewed. (Ord. 86-157)

16-6-604: VEHICLE IDENTIFICATION: Any person, firm, co-partnership, corporation, or combination thereof licensed as a plumbing contractor in this jurisdiction shall identify or cause to be identified all vehicles used in the performance of the business of a plumbing contractor with the exception of personal automobiles. Such identification shall be in letters at least two inches (2") high and include the company name and the contractor's Colorado Master license number. (Ord. 86-157)

*CHAPTER 16 BUILDING***ARTICLE 6 CONTRACTORS***PART 7 LICENSE AND REGISTRATION FEES***SECTION:**

- 16-6-701: Application Fees
- 16-6-702: License or Registration Fees
- 16-6-703: Partial Payment; Lost Licenses
- 16-6-704: Receipts for Payment of Fees
- 16-6-705: Unpaid Fee Constitutes Debt
- 16-6-706: License and Registration Fees Enumerated

16-6-701: APPLICATION FEES: All applications for new licenses or new registrations shall be accompanied by a twenty dollar (\$20.00) application fee. Application fees are charged to defray the expense of processing applications for new licenses and new registrations and shall neither be refundable nor shall they be applied to nor deducted from required license and registration fees. (Ord. 86-157)

16-6-702: LICENSE OR REGISTRATION FEES:
The license or registration fee for every license or registration issued under this Code shall be payable at the time of issuance of the license or registration. Said fee, except fees for concrete contractors' licenses, shall be payable to the Regional Building Department. Application for concrete contractor's licenses shall be paid to the City Clerk as provided in Section 16-6-302 of this Code. There shall be no refund or proration of license or registration fees for any reason. (Ord. 86-157)

16-6-703: PARTIAL PAYMENT; LOST LICENSES:

- A. No partial payment of any application fee or of any license or registration fee shall be accepted.
- B. Whenever a license, registration, or identification card is lost, the Building Official is hereby authorized to replace it upon payment of a two dollar (\$2.00) fee to defray costs of replacement. (Ord. 86-157)

16-6-704: RECEIPTS FOR PAYMENT OF FEES:

The Building Official shall issue a receipt to the applicant for fees paid. Such receipt shall not be construed as constituting approval of the Board of Review for the issuance of a license or registration, nor shall it entitle or authorize the applicant to conduct any business or trade contrary to the provisions of this Code. (Ord. 86-157)

16-6-705: UNPAID FEE CONSTITUTES DEBT:

The amount of any unpaid fee required by this Code shall constitute a debt due the Regional Building Department. The attorney for the Regional Building Department shall, at the direction of the Building Official, institute civil suit in the name of the Regional Building Department to recover any such unpaid fee. Such remedy shall be cumulative and in addition to all other remedies and shall neither bar nor abate a prosecution in Municipal Court for any violation of this Code, nor bar nor abate any action to suspend or revoke a license for nonpayment of the appropriate fee. (Ord. 86-157)

CHAPTER 16 BUILDING

ARTICLE 7 SWIMMING POOLS

SECTION:

- 16-7-101: Definition
- 16-7-102: Applicability of Regulations
- 16-7-103: Enforcement and Adoption of Regulations
- 16-7-104: Safety Equipment
- 16-7-105: Enclosures, Fences Required
- 16-7-106: Variances
- 16-7-107: Public Nuisance Declared

16-7-101: DEFINITION:¹ "Swimming pool" means a body of water, other than a natural swimming area, maintained exclusively for swimming, recreative bathing or wading, having a surface area of more than one hundred (100) square feet, and includes appurtenances used in connection with the swimming pool. (Ord. 84-282)

16-7-102: APPLICABILITY OF REGULATIONS:
The requirements of this Article shall apply to all swimming pools within the City, whether publicly or private owned. (Ord. 84-282)

16-7-103: ENFORCEMENT AND ADOPTION OF REGULATIONS: The Regional Building Department shall have the duty to enforce this Article, and the Building Official or his authorized representative, upon a proper showing of credentials, shall have the right to enter any building or premises in which or upon which a swimming pool is located in order to inspect said swimming pool with regard to these provisions.

In order to carry out the provisions of this Article, the Building Official is authorized to issue to any party responsible for the operation of a swimming pool not in compliance with this Article, an order to abate the nuisance involved. Such order shall be served in writing upon the party responsible for the operation of the swimming pool, and shall require him to abate the nuisance within a reasonable time as specified in the notice. Should the Building Official determine that the operation of the swimming pool is an imminent threat to the welfare and safety of the citizens of the

City, he may order the swimming pool to be drained immediately. Should the person responsible for the operation of the swimming pool not comply with such an order, the Building Official shall cause the nuisance to be abated, and the expense of such abatement shall be collected from the person who created, continued, or suffered such a nuisance to exist. Any party responsible for the operation of a swimming pool not in compliance with this Article, or who fails to obey an order of the Building Official to abate the nuisance involved, or who refuses to permit the Building Official to abate the nuisance involved, or who refuses to permit the Building Official or his authorized representative to inspect the swimming pool, shall be guilty of a misdemeanor.

The Building Official may adopt any rules and regulations necessary for the proper administration and enforcement of this Article. (Ord. 84-282)

16-7-104: SAFETY EQUIPMENT: Except as hereinafter stated, all swimming pools having a depth at any point of more than three feet (3'), whether indoor or outdoor, shall be equipped with not less than one lightweight reaching pole of not less than twelve feet (12') in length, and not less than one life ring fifteen inches (15') in diameter with a line of three-sixteenths inch ($\frac{3}{16}$ ") diameter rope attached of length equal to or exceeding the width of the pool. The reaching pole and the life ring shall be kept in a conspicuous place readily available to persons in the pool area. Every such swimming pool shall also have posted in prominent places the telephone numbers of the Colorado Springs Fire Department and the Colorado Springs Police Department for use in emergencies. (Ord. 84-282)

16-7-105: ENCLOSURES, FENCES REQUIRED:
Except as hereinafter stated, every outdoor swimming pool having a depth at any point of more than one foot (1'), shall be completely enclosed by a fence or a wall not less than five feet (5') in height. Such fences or walls shall contain no openings, holes or gaps, except those equipped with gates or doors, larger than five inches (5") in a horizontal direction. Any openings, holes or gaps larger than five inches

¹ For definitions of general application, see Section 1-1-203 of this Code.

(5'), shall be equipped with doors or gates not less than five feet (5') in height. Such gates and doors shall be equipped with self-closing and self-latching devices designed to keep, and capable of keeping, such doors or gates securely closed at all times when not in actual use, such latching device to be attached to the upper part of said gate or door not less than forty eight inches (48') above the bottom of said gate or door.

The enclosure around single family residential pools may be around the perimeter of the pool or the whole perimeter of the property or any part thereof. Enclosure around any other pool shall be around the pool area which shall include the pool, the pool deck and any appurtenant sunbathing area. The enclosure around one or more of the sides of the pool may include a building or other permanent structure; provided, however, that any access to the pool through such building or structure shall be equipped as hereinabove required.

The enclosure height requirements of this Section shall not apply to any outdoor swimming pool enclosed by a wall or fence not less than four feet (4') in height existing on the date of final approval of this Article.¹ The self-closing and self-latching devices required on doors by this Section shall not apply to any door which is part of the enclosure around the pool, which door is also the entrance to a single dwelling unit or recreational building of an apartment complex or motel. (Ord. 84-282)

16-7-106: VARIANCES: The owner of any swimming pool may request a variance from the requirements of Section 16-7-105 by submitting to the Building Official a written application for such variance, setting forth a description of such pool and an alternate safeguard system by which entry into said swimming pool may be restricted or prevented. The Building Official may approve such alternate safeguard system upon finding that both of the following conditions exist:

- A. That physical conditions of the premises would make the erection of a fence or a wall impractical; and
- B. The proposed alternate safeguard system would accomplish the intent of the requirements of Section 16-7-105. (Ord. 84-282)

16-7-107: PUBLIC NUISANCE DECLARED: Any swimming pool not in compliance with this Article shall be and is hereby declared to be a public nuisance. (Ord. 84-282)

1. The effective date of the ordinance from which this provision derives was May 28, 1974.

numerous dwellings which are substandard in one or more important features of structure, equipment, sanitation, maintenance or occupancy. Such conditions adversely affect the physical and mental health, the control of communicable diseases, the safety and general welfare of the people and therefore require the establishment and enforcement of minimum housing standards. (Ord. 3875; 1968 Code § 16-2)

17-1-101: **TITLE:** This Article shall be known and may be cited as the Housing Code. (Ord. 3875; 1968 Code § 16-3)

17-1-104: **ENFORCING AUTHORITY:** The Director of Community Development or his designated representative is hereby designated as the official enforcement officer of the Housing Code. In exercising all power and authority delegated to him by this Article, the officer shall apply sound principles of public health, consistent with national standards, and said national standards shall also be applied in his making rules, regulations, determinations and orders authorized by this Article. (Ord. 3875; Ord. 82-224; 1968 Code §§ 16-4, 16-32)

17-1-102: **DECLARATION OF POLICY:** The Council declares that the purpose of this Article is to protect, preserve and promote the physical and mental health of the people, to discover, investigate and control communicable diseases, to regulate privately and publicly owned dwellings for the purpose of sanitation and public health, and to protect the safety of the people and promote the general welfare by legislation which shall be applicable to all dwellings now in existence or hereafter constructed and which:

17-1-105: APPLICATION, INTERPRETATION OF PROVISIONS:

- A. Establishes minimum standards for basic equipment and facilities for light, ventilation and heating, for safety from fire, for the use and location and amount of space for human occupancy, and for safe and sanitary maintenance;
- B. Determines the responsibilities of owners, operators and occupants of dwellings; and
- C. Provides for the administration and enforcement thereof. (Ord. 3875; 1968 Code § 16-1)

- A. The provisions of this Article shall apply to all buildings or portions thereof, used, designed or intended to be used for human habitation.
- B. In any case where a provision of this Article is found to be in conflict with a provision of any other provision of this Code, or any secondary code adopted thereby, that provision which establishes the higher or more restrictive standard for the promotion and protection of the health and safety of the people shall prevail. (Ord. 3875; 1968 Code § 16-32)

17-1-103: **LEGISLATIVE FINDINGS:** The City Council finds that there exists in the City

17-1-106: **DEFINITIONS:**¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

¹ For definitions of general application, see Section 1-1-203 of this Code.

APPROVED: Constructed, installed and maintained in accordance with this Article or other pertinent ordinances, rules and regulations of the City.

BASEMENT: That portion of a dwelling so located that the vertical distance from grade to the floor below is less than the vertical distance from grade to ceiling.

CELLAR: That portion of a dwelling so located that the vertical distance from grade to the floor below is more than the vertical distance from grade to ceiling.

DWELLING: Any building which is wholly or partly used or intended to be used for living or sleeping by human occupants.

DWELLING UNIT: Any room or group of rooms located within a dwelling and forming a single habitable unit with facilities which are used or intended to be used for living, sleeping, cooking and eating.

ENFORCEMENT OFFICER: The designated representative of the Director of Community Development who is charged with the enforcement of the provisions of this Article.

EXTERMINATION: The control and elimination of insects, rodents or other pests by eliminating their harborage places; by removing or making inaccessible materials that may serve as their food; by poisoning, spraying, fumigating, trapping; or by any other recognized and legal pest elimination methods approved by the enforcement officer.

FAMILY: Any number of persons living together on the premises in a single dwelling unit, but not including a group of more than five (5) individuals (excluding servants) not related by blood, marriage or adoption.

GARBAGE: The animal and vegetable waste resulting from the handling, preparation, cooking and consumption of food.

HABITABLE ROOM: A room or enclosed floor space used or intended to be used for living, sleeping, cooking or eating purposes, excluding bathrooms, water closet compartments, laundries, pantries, foyers or communicating corridors, closets and storage spaces.

HEALTH DEPARTMENT: The Department of Health of El Paso County or its authorized employees.

INFESTATION: The presence, within or around a dwelling of any insects, rodents or other pests.

MULTIPLE DWELLING: Any dwelling containing two (2) or more dwelling units.

OCCUPANT: Any person, over two (2) years of age, living, sleeping, cooking, eating in or having actual possession of a dwelling, dwelling unit or rooming unit.

OPERATOR: Any person who has charge, care or control of a building or part thereof, in which dwelling units or rooming units are let.

ORDINARY MINIMUM WINTER CONDITIONS: The temperature of plus ten degrees (10°) Fahrenheit.

ORDINARY MAXIMUM SUMMER CONDITIONS: A temperature of ten degrees (10°) Fahrenheit below the highest recorded temperature in the locality for the prior ten (10) year period.

OWNER: Any person who, alone or jointly, or severally with others:

- A. Shall have legal title to any dwelling or dwelling unit, with or without accompanying actual possession thereof; or
- B. Shall have charge, care or control of any dwelling or dwelling unit as owner or agent of the owner, or as executor, administrator, conservator, trustee or guardian of the estate of the owner. Any such person thus representing the actual owner shall be bound to comply with the provisions of this Article, and with rules and regulations adopted pursuant thereto, to the same extent as if he were the owner.

PLUMBING: Includes all of the following supplied facilities and equipment: gas pipes, gas-burning equipment, water pipes, garbage disposal units, waste pipes, water closets, sinks, installed dishwashers, lavatories, bathtubs, shower baths, installed clothes-washing machines, catch basins, drains, vents and any other similar supplied fixtures, together with all connections to water, sewer or gas lines. This definition shall be applicable only to this

Article and shall not be construed to apply elsewhere in this Code.

ROOMING UNIT: Any room or group of rooms forming a single habitable unit used or intended to be used for living and sleeping, but not for cooking or eating purposes.

ROOMING HOUSE: Any dwelling or part of any dwelling containing one or more rooming units in which space is let by the owner or operator to three (3) or more persons who are not husband or wife, son or daughter, mother or father, or sister or brother if the owner or operator, and shall include hotels, motels, lodging-houses, rooming and boarding houses, nursing homes, convalescent homes and all such establishments by whatever name designated.

RUBBISH: Combustible and noncombustible waste materials excluding garbage. Includes the residue from burning of wood, coal, coke and other combustible materials, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery and dust.

SANITARY CONDITION: That an area is free of rubbish, garbage, debris, vermin and rodents, and that all interior and exterior surfaces and premises are clean and capable of being cleaned in order to promote and establish conditions for the betterment of community health.

SUPPLIED: Paid for, furnished, provided by or under the control of, the owner or operator.

TEMPORARY HOUSING: Any tent, trailer or other structure used for human shelter which is designed to be transportable and which is not attached to the ground, to another structure, or to any utility system on the same premises for more than thirty (30) consecutive days.

Whenever the words "dwelling" or "dwelling unit", "rooming house" or "rooming unit", or "premises" are used in this Article, they shall be construed as though they were followed by the words "or any part thereof". (Ord. 3875; Ord. 82-224; 1968 Code § 16-5)

construct, alter, repair, move, improve, convert, demolish, equip, use, occupy or maintain any building or structure in the City, or cause or permit the same to be done, contrary to or in violation of any of the provisions of this Article. (Ord. 3875; 1968 Code § 16-33)

17-1-107: VIOLATIONS: It shall be unlawful for any person to do any act, erect,

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 1 HOUSING CODE

PART 2 INSPECTIONS AND ENFORCEMENT

SECTION:

17-1-201: Adoption of Rules and Regulations
 17-1-202: Inspection of Dwellings and Premises
 17-1-203: Housing Variance Officer
 17-1-204: Notices and Orders
 17-1-205: Hearing on Notice and Orders
 17-1-206: Emergency Conditions, Procedures
 17-1-207: Variance on Appeal
 17-1-208: Enforcement of Orders

17-1-201: **ADOPTION OF RULES AND REGULATIONS:**

A. The Director of Community Development is hereby authorized to adopt such written rules and regulations as may be necessary for the proper enforcement of the provisions of this Article, provided that such rules and regulations shall not be in conflict with the provisions of this Article and shall include only such rules and regulations as will implement the provisions hereof, and not establish new standards of housing. The procedure for the adoption or amendment of such rules and regulations shall be as follows:

1. The Director of Community Development shall hold a public hearing on all proposed rules, regulations and amendments thereto, after at least five (5) days' public notice by publication in the official newspaper.¹ The notice may set forth the rules and/or amendments, or may consist of a brief statement thereof, and shall include the time, date and place of the public hearing.

2. The Director of Community Development shall take under advisement any evidence adduced at such hearing, in establishing said rules and regulations, and all rules and regulations and amendments thereto shall be subject to the approval of the City Manager and the City Attorney.

3. After such approval, the rules and regulations shall be published in one of the following ways:

A,3) a. By publication in full one time in the official publication, or

b. By publication of a notice in the official publication that rules and regulations have been adopted and are on file with the office of the City Clerk.

4. All rules and regulations shall become effective upon such publication and filing.

5. Any rules or regulations so adopted may be repealed by the Director of Community Development with the approval of the City Manager and the City Attorney, by publication through one of the two (2) methods herein provided, and by filing of the repealer with the City Clerk.

B. Whenever communicable diseases or the sanitary condition of the City shall be of such character as to warrant emergency rules and regulations, it shall be the duty of the Director of Community Development to make such rules and regulations as he may deem the public safety and health demand.² Such rules and regulations which are declared to be emergency rules and regulations, though not herein or otherwise authorized, shall be adopted formally by the procedure set forth in this Section as soon as may be after promulgation of the same. (Ord. 3875; Ord. 82-224; 1968 Code § 16-8)

17-1-202: **INSPECTION OF DWELLINGS AND PREMISES:**

A. In order that the enforcement officer may perform the duty of safeguarding the health and safety of the occupants of dwellings and of the general public, he is hereby authorized and directed to make inspections to determine the conditions of dwellings, dwelling units, rooming units, and premises located within the City. For the purpose of making such inspections, the enforcement officer, upon showing proper identification or obtaining a

1. See Section 1-1-601 of this Code.

2. See also, Section 17-1-206 of this Chapter.

- A) warrant for inspection as hereinafter set forth, is hereby authorized to enter, examine and survey at all reasonable times, all dwellings, dwelling units, rooming units and premises. The owner or occupant of every dwelling, dwelling unit and rooming unit, or the person in charge thereof, upon being shown proper identification or upon being shown a warrant for inspection, shall give the enforcement officer access to such dwelling, dwelling unit or rooming unit and premises, at all reasonable times for the purpose of such inspection, examination and survey; provided, however, that no person shall be deemed guilty of a violation of this Section for failure to admit the enforcement officer unless and until the enforcement officer shall first obtain and display a warrant for inspection issued by any court of competent jurisdiction. Every occupant of a dwelling or dwelling unit shall give the owner thereof, or his agent or employee, access to any part of such dwelling or dwelling unit or its premises at all reasonable times for the purpose of making such repairs or alterations as are necessary to effect compliance with the provisions of this Article or with any lawful regulation adopted or any lawful order issued pursuant to the provisions of this Article.
- B. Upon complaint made by the enforcement officer that any person has refused him or his duly authorized representatives entrance into or upon the dwelling or other premises owned or occupied by such person for the purpose of inspecting the same to determine the condition thereof, any judge of the Municipal Court shall have power to issue an inspection warrant commanding such dwelling or premises to be inspected in the daytime upon any day of the week except Sunday. (Ord. 3875; 1968 Code § 16-6)

17-1-203: HOUSING VARIANCE OFFICER:

- A. The Housing Variance Officer is hereby appointed to provide for reasonable interpretations of the provisions of this Article and to pass upon appeals and requests for variances, as applicable. The Housing Variance Officer shall be an advisory position only and

- A) shall make recommendations to the City Council. The Housing Variance Officer shall be the Director of Community Development or his designated representative.
- B. Powers and Duties. The Officer shall have the following powers and duties:
1. To establish his own rules for the conduct of his meetings and to keep an accurate record of his actions;
 2. To advise the City Council in the determination of policy relating to housing in the City, and in the enforcement and execution of such policy; and
 3. To make reports, compile statistics and perform such other duties as the City Council may direct.
- C. Confer with City Manager. The Officer may consult the City Manager at any time upon matters relating to housing or any other matters into which the Officer shall be empowered to inquire. The City Manager shall be privileged to be heard at any meeting of the Officer relating to housing in the City for the enforcement and execution of the provisions of this Article. (Ord. 3875; Ord. 82-224; 1968 Code § 16-7)

17-1-204: NOTICES AND ORDERS: Whenever the enforcement officer determines there are reasonable grounds to believe there has been a violation of any provision of this Article or of any rule or regulation adopted pursuant thereto, he shall give notice of such alleged violation to the person or persons responsible therefor, as hereinafter provided. Such notice shall:

- A. Be in writing;
- B. Include a statement of the reason why it is being issued;
- C. Allow a reasonable time for the performance of any act it requires;
- D. Be served upon the owner, occupant, agent or person in possession, charge or control of the

- D) premises, as the case may require, and if such person cannot be found for personal service, the service shall be deemed to be complete when a copy is sent, by certified mail, to the last known address of the last known owner of the property, such address and such owner being those appearing on the real property assessment rolls for general (ad valorem) taxes of El Paso County. (Ord. 3875; 1968 Code § 16-7)

17-1-205: HEARING ON NOTICE AND ORDERS:

- A. Any person affected by any notice which has been issued in connection with the enforcement of any provision of this Article, or of any rule or regulation adopted pursuant thereto, may request and shall be granted a hearing on the matter before the Housing Variance Officer, provided such person shall file with the Officer a written petition requesting such hearing and setting forth a brief statement of the grounds therefor, within twenty (20) days after the day the notice was served. Upon receipt of such petition, the Officer shall set a time and place for such hearing and shall give the petitioner written notice thereof at least forty eight (48) hours in advance.
- B. A request for hearing shall stay all proceedings in connection with the notice appealed from, unless and until the enforcement officer shall certify to the Housing Variance Officer that a stay would cause hazard to the health or safety of the occupant and/or occupants. In such case, proceedings pursuant to the notice of the enforcement officer shall not be stayed except by order of the Officer or by a restraining order issued by a court of competent jurisdiction.
- C. At such hearing, the petitioner shall be given an opportunity to be heard and to show why such notice should be modified or withdrawn. The hearing shall be commenced not later than twenty (20) days after the day on which the petition was filed; provided that upon application of the petitioner the Officer may postpone the date of the hearing for a reasonable time beyond such twenty (20) day period, if in its judgment the petitioner had submitted a good and sufficient reason for postponement.

- D. After a hearing the Officer shall sustain, modify or withdraw the notice, depending upon its finding as to whether the provisions of this Article and of the rules and regulations adopted pursuant thereto have been complied with. If the Officer sustains or modifies such notice, it shall be deemed to be an order. Any notice served pursuant to Section 17-1-204 of this Part 2 shall automatically become an order if a written petition for a hearing is not filed with the Officer within twenty (20) days after such notice is served.

- E. The proceedings at such a hearing, including the findings and decision of the Officer shall be summarized, reduced to writing, and entered as a matter of public record in the office of the enforcement officer. Such record shall also include a copy of every notice or order issued in connection with the matter. Any person not fully satisfied by the decision of the Officer provided for in subsection D of this Section may petition the District Court for review thereof under Rule 106(d), Colorado Rules of Civil Procedure. Such petition shall be filed within thirty (30) days after the Officer's decision. (Ord. 3875; Ord. 84-159; 1968 Code § 16-7)

17-1-206: EMERGENCY CONDITIONS, PROCEDURES: Whenever the enforcement officer finds an emergency exists which requires immediate action to protect the public health, he may, without notice or hearing, issue an order reciting the existence of such an emergency requiring such action be taken as he deems necessary to meet the emergency. Notwithstanding the other provisions of this Article such order shall be effective immediately. Any person to whom such order is directed shall comply therewith immediately, but upon petition to the Officer shall be afforded a hearing as soon as possible. After such hearing, depending upon its finding as to whether the provisions of this Article and of the rules and regulations adopted pursuant thereto have been complied with,¹ the Officer shall continue, modify or revoke such order. (Ord. 3875; 1968 Code § 16-7)

17-1-207: VARIANCE ON APPEAL:

- A. Upon written application in specific cases or pursuant to an appeal, the Officer may authorize such variance from the terms of this Article or the rules and regulations adopted

1. See also, Section 17-1-201B of this Chapter.

A) pursuant thereto, subject to terms and conditions fixed herein, as will not adversely affect the public health where, owing to exceptional and extraordinary circumstances, literal enforcement of applicable provisions will result in unnecessary hardship. The burden of proof is upon the applicant to show by clear and convincing evidence that:

1. The granting of the requested variance will not adversely affect the public health;

2. There are exceptional and extraordinary circumstances to justify the granting of a variance;

3. Literal enforcement of the applicable provisions will result in specific unnecessary hardship;

4. The variance shall not substantially or permanently injure the appropriate use of the other portions of the dwelling involved, or other property;

5. The variance shall be in harmony with the spirit and purposes of this Article; and

6. The variance shall protect, preserve and promote the physical and mental health of the people of the City.

B. The decision of the Officer may be appealed to the City Council in accordance with the requirements of Section 14-18-101 et. seq. of the Code of the City of Colorado Springs 1980, as amended. (Ord. 3875; Ord. 85-272; 1968 Code § 16-7)

17-1-208: **ENFORCEMENT OF ORDERS:** The enforcement officer shall enforce and execute all decisions and orders of the Housing Variance Officer. (Ord. 3875; 1968 Code § 16-7)

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 1 HOUSING CODE

PART 3 MINIMUM STANDARDS

SECTION:

- 17-1-301: Basic Equipment and Facilities
- 17-1-302: Light, Ventilation and Heating
- 17-1-303: Space, Use and Location
- 17-1-304: Sanitary Conditions Maintained
- 17-1-305: Maintenance
- 17-1-306: Interruption of Service

17-1-301: BASIC EQUIPMENT AND FACILITIES: It shall be unlawful for any person to occupy as owner-occupant or let to another for occupancy any dwelling or dwelling unit, for the purpose of living, sleeping, cooking or eating therein, which does not comply with the following requirements:

- A. Every dwelling or dwelling unit shall contain a kitchen sink in good working condition and properly connected to a water and sewer system approved by the enforcement officer.
- B. Every dwelling or dwelling unit shall contain a room or adjacent rooms that afford privacy to a person within said rooms which are equipped with flushtype water closet and a lavatory basin in good working condition and properly connected to a water and sewer system approved by the enforcement officer, and are so arranged as not to require the occupant of said dwelling or dwelling units to go outdoors to reach said facilities.
- C. Every dwelling or dwelling unit shall contain within a room which affords privacy to a person within said room, a bathtub or shower in good working condition and properly connected to a water and sewer system approved by the enforcement officer. These facilities shall be so arranged as not to require the occupant of said dwelling unit to go outdoors.
- D. Every kitchen sink, lavatory basin and bathtub or shower required under the provisions of subsections A, B and C of this Section shall be properly connected with both hot and cold water lines.
- E. Every dwelling shall be supplied with adequate rubbish storage facilities of a type and location approved by the enforcement officer.
- F. Every dwelling shall have adequate garbage disposal facilities or garbage storage containers of a type and location approved by the enforcement officer.
- G. Every dwelling shall have supplied water-heating facilities which are properly installed, are maintained in safe and good working condition, are properly connected with the hot water lines required under the provisions of subsection D of this Section, and are capable of heating water to a temperature of not less than one hundred twenty degrees (120°) Fahrenheit. Such supplied water-heating facilities shall be capable of meeting the requirements of this subsection when the dwelling or dwelling unit heating facilities required under the provisions of Section 17-1-302E of this Article are not in operation.
- H. Every dwelling unit shall have safe, unobstructed means of egress leading to a safe and open space at ground level, as required by this Article or other pertinent ordinances, rules or regulations of the City, or any secondary codes adopted thereby.
- I. Cabinets and/or shelves for the storage of eating, drinking, cooking equipment and utensils, and of food that does not under ordinary maximum summer conditions require refrigeration for safe keeping, and a counter or table for food preparation. Said cabinets and/or shelves and counter or table shall be adequate for the permissible occupancy of the dwelling unit and shall be of sound construction, furnished with surfaces that are easily cleanable and that will not impart a toxic or deleterious effect to food.

- J. A stove or similar device, for cooking food, and a refrigerator, or similar device, for safe storage of food at temperatures less than fifty degrees (50°) Fahrenheit, but more than thirty two degrees (32°) Fahrenheit, under ordinary maximum summer conditions, which are properly installed with all necessary connections for safe, sanitary and efficient operation; provided, however, that such stove, refrigerator and/or similar device need not be installed when a dwelling unit is not occupied and when the occupant is expected to provide same on occupancy, and sufficient space and adequate connections for the safe and efficient installation and operation of said stove, refrigerator and/or similar devices are provided. (Ord. 3875; 1968 Code § 16-9)

17-1-302: LIGHT, VENTILATION AND HEATING:

It shall be unlawful for any person to occupy as owner-occupant or let to another for occupancy any dwelling or dwelling unit, for the purpose of living therein, which does not comply with the following requirements:

- A. Every habitable room in a dwelling or dwelling unit shall either have at least one window or skylight facing directly to the outside, or shall receive from adjoining rooms an equivalent amount of light, which shall provide a minimum of five (5) foot candles of daylight illumination, measurable at the epicenter of the room, thirty inches (30") above floor level, with a standard light meter facing the light source, with the normal amount of brightness.
- B. Every habitable room shall have at least one window or skylight which can be opened, or such other device as will adequately ventilate the room.
- C. Every bathroom and water closet compartment shall be in compliance with the light and ventilation requirements for habitable rooms contained in subsections A and B of this Section, except that no window or skylight shall be required in adequately ventilated bathrooms and water closet compartments equipped with a ventilation system which is approved by the enforcement officer and capable of four (4) air changes per hour.
- D. Where there is electric service available from power lines which are not more than three hundred feet (300') away from a dwelling, every habitable room of such dwelling shall contain at least two (2) separate wall-type electric receptacle outlets, or one such receptacle outlet and one supplied ceiling-type electric light fixture; and every water closet compartment, bathroom, laundry room, furnace room and public hall shall contain at least one supplied ceiling or wall-type electric light fixture. Every such outlet and fixture shall be properly installed, shall be maintained in good and safe working condition, and shall be connected to the source of electric power in a safe manner in accordance with the National Electrical Code.
- E. Every dwelling shall have heating facilities which are properly installed, are maintained in good and safe working condition, and are capable of safely and adequately heating all habitable rooms, bathrooms and water closet compartments in every dwelling unit located therein to a temperature of at least seventy degrees (70°) Fahrenheit, at a distance three feet (3') above floor level at the approximate center of the room, under ordinary minimum winter conditions.
- F. Every public hall and stairway in every multiple dwelling containing five (5) or more dwelling units shall be adequately lighted at all times. Every public hall and stairway in structures devoted solely to dwelling occupancy and containing not more than four (4) dwelling units may be supplied with conveniently located light switches, controlling an adequate lighting system which may be turned on when needed, instead of full-time lighting.
- G. Each window with openings to outdoor space which is used or intended to be used for ventilation shall be supplied with a screen.

- H. Every basement or cellar window used or intended to be used for ventilation, and every other opening to a basement which might provide an entry for rodents, shall be supplied with a screen or such other devices as will effectively prevent their entrance. (Ord. 3875; Ord. 82-136; Ord. 86-214; 1968 Code § 16-10)

17-1-303: SPACE, USE AND LOCATION: It shall be unlawful for any person to occupy or let to another for occupancy any dwelling or dwelling unit, for the purpose of living therein, which does not comply with the following requirements:

- A. Every dwelling unit shall contain at least:

125 square feet--	1 person
200 square feet--	2 persons
275 square feet--	3 persons
350 square feet--	4 persons
425 square feet--	5 persons
500 square feet--	6 persons
560 square feet--	7 persons
620 square feet--	8 persons
680 square feet--	9 persons
740 square feet--	10 persons

and a minimum of forty (40) square feet for each additional person thereafter. The required floor space shall be calculated on the basis of total habitable room area. In no case shall more than eight hundred fifty (850) square feet be required for one family.

- B. In every dwelling unit of two (2) or more rooms, every room occupied for sleeping purposes by one occupant shall contain at least seventy (70) square feet of floor space, with a minimum of seven feet (7') in all side dimensions and every room occupied for sleeping purposes by more than one occupant shall contain at least forty (40) square feet of floor space for each occupant thereof.
- C. At least one-half (½) of the floor area of every habitable room shall have a ceiling height of at least seven feet (7') and the floor area of that part of any room where the ceiling height is less than five feet (5') shall not be considered as part of the floor area in computing the total floor area of the room for the purpose of determining the

- C) maximum permissible occupancy thereof.

- D. No basement or cellar space shall be let as a habitable room and no basement shall be used or occupied as a dwelling unit or rooming unit unless:

1. The floor and walls are impervious to leakage of underground and surface runoff water and are free from dampness,

2. The total amount of light required in each room is equal to at least the minimum amount of light required in subsection A of Section 17-1-302.

3. The facilities for ventilation in each room are equal to at least the minimum required under subsection B of Section 17-1-302 hereof. (Ord. 3875; 1968 Code § 16-14)

17-1-304: SANITARY CONDITIONS MAINTAINED: It shall be unlawful for any person to occupy or let to any other occupant any vacant dwelling unless it is clean, sanitary and fit for human habitation according to the standards set forth in Section 17-1-601 hereof. (Ord. 3875; 1968 Code § 16-13)

17-1-305: MAINTENANCE: It shall be unlawful for any person to occupy as owner-occupant or let to another for occupancy any dwelling or dwelling unit, for the purpose of living therein, which does not comply with the following requirements:

- A. Every foundation, floor, wall, ceiling and roof shall be reasonably weathertight, watertight and rodent-resistant, and shall be capable of affording privacy; and shall be kept in sound condition and good repair.
- B. Every window, exterior door and basement door or cellar hatchway shall be reasonably weather-tight, watertight and rodent-resistant, and shall be kept in sound working condition and good repair.
- C. Every inside and outside stair, every porch, private sidewalk and every appurtenance thereto shall be so constructed as to be safe to

- C) use and capable of supporting the load normal use may cause to be placed thereon and shall be kept in sound condition and good repair.
- D. Every plumbing fixture and water and waste pipe shall be properly installed and maintained in good sanitary working condition, free from defects, leaks and obstructions.
- E. Every water closet, bathroom and kitchen floor surface shall be constructed and maintained so as to be reasonably impervious to water and to permit such floor to be easily kept in a clean, safe and sanitary condition.
- F. Every supplied facility, piece of equipment or utility shall be so constructed or installed that it will function safely and effectively, and shall be maintained in sound satisfactory working condition and good repair.
- G. Every exterior wall surface shall be constructed and maintained by painting or use of other approved protective devices, so as to be weatherproof. (Ord. 3875; 1968 Code § 16-11)

17-1-306: INTERRUPTION OF SERVICE: No owner, operator or occupant shall cause any service, facility, equipment or utility which is required under this Article to be removed from, shut off or discontinued in any occupied dwelling or dwelling unit let or occupied by him, except for such temporary interruption as may be necessary while actual repairs or alterations are in process, or during temporary emergencies when discontinuance of service is approved by the enforcement officer. Provided, however, this Section shall apply only when the dwelling is occupied. (Ord. 3875; 1968 Code § 16-12)

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 1 HOUSING CODE

PART 4 RESPONSIBILITIES OF OWNERS AND OCCUPANTS

SECTION:

- 17-1-401: Maintenance Requirements
- 17-1-402: Rubbish and Garbage Disposal
- 17-1-403: Screens, Doors and Windows
- 17-1-404: Pest Extermination

- B) facilities or garbage storage containers. It shall be the responsibility of the owner to supply such facilities or containers for all dwelling units in a multiple dwelling. In all other cases, it shall be the responsibility of the occupant to furnish such facilities or containers. (Ord. 3875; 1968 Code §§ 16-18, 16-19)

17-1-401: MAINTENANCE REQUIREMENTS:

- A. Common Areas. Every owner of a dwelling containing two (2) or more dwelling units shall be responsible for maintaining in a clean and sanitary condition, the shared or public areas of the dwelling and premises thereof.
- B. Private Areas. Every occupant of a dwelling or dwelling unit shall keep in a clean and sanitary condition, that part of the dwelling, dwelling unit and premises thereof which he occupies and controls.
- C. Plumbing. Every occupant of a dwelling or dwelling unit shall keep all plumbing fixtures therein in a clean and sanitary condition and shall be responsible for the exercise of reasonable care in the proper use and operation thereof. (Ord. 3875; 1968 Code §§ 16-15, 16-16, 16-17)

17-1-402: RUBBISH AND GARBAGE DISPOSAL:

- A. Rubbish: Every occupant of a dwelling or dwelling unit shall dispose of all his rubbish in a clean and sanitary manner by placing it in the required rubbish containers.
- B. Garbage. Every occupant of a dwelling or dwelling unit shall dispose of his garbage and any organic waste which might provide food for rodents, in a clean and sanitary manner, by placing it in the required garbage disposal

17-1-403: SCREENS, DOORS AND WINDOWS:

Every occupant of a dwelling or dwelling unit shall be responsible for hanging all screens or other doors and windows whenever the same are required under the provisions of this Article or of any rule or regulation adopted pursuant thereto, except where the owner has agreed to supply such service. (Ord. 3875; 1968 Code § 16-20)

17-1-404: PEST EXTERMINATION: Every occupant of a dwelling shall be responsible for the extermination of any insects, rodents or other pests therein or on the premises; and every occupant of a dwelling unit in a dwelling containing more than one dwelling unit shall be responsible for such extermination whenever his dwelling unit is the only one infested.

Notwithstanding the foregoing provisions of this Section, whenever infestation is caused by failure of the owner or occupant to maintain a dwelling in a rat resistant or reasonably insect-resistant condition, extermination shall be the responsibility of the owner. Whenever infestation exists in two (2) or more of the dwelling units in any dwelling, or in the shared or public parts of any dwelling containing two (2) or more dwelling units, extermination shall be the responsibility of the owner. (Ord. 3875; 1968 Code § 16-21)

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 1 HOUSING CODE

PART 5 ROOMING HOUSE STANDARDS

SECTION:

- 17-1-501: Compliance Required
- 17-1-502: Water Closets and Bath Facilities
- 17-1-503: Change of Linen
- 17-1-504: Floor Space Requirements
- 17-1-505: Egress from Buildings
- 17-1-506: Maintenance

17-1-501: COMPLIANCE REQUIRED: It shall be unlawful for any person to operate a rooming house, or to occupy or let to another for occupancy any rooming unit in any rooming house or hotel, except in compliance with all applicable provisions of this Article. (Ord. 3875; 1968 Code § 16-22)

17-1-502: WATER CLOSETS AND BATH FACILITIES: At least one flush water closet, lavatory basin and bathtub or shower, properly connected to an approved water and sewer system and in good working condition, shall be supplied for each ten (10) persons or fraction thereof residing within a rooming house, including members of the operator's family who share the use of said facilities; provided that in a rooming house where rooms are let only to males, flush urinals may be substituted for not more than one-half ($\frac{1}{2}$) the required number of water closets. All such facilities shall be located within the dwelling as to be reasonably accessible from a common hall or passageway to all persons sharing such facilities. Every lavatory basin and bathtub or shower shall be supplied with hot and cold water under pressure at all times. No such facilities shall be located in a basement or cellar unless the basement meets all conditions required by this Article and other City ordinances, rules and regulations or any secondary code adopted thereby. (Ord. 3875; 1968 Code § 16-23)

17-1-503: CHANGE OF LINEN: The operator of every rooming house shall change supplied bed linen and towels therein at least once each week, and prior to the letting of any room to

any occupant. The operator shall be responsible for the maintenance of all supplied bedding in a clean and sanitary manner. (Ord. 3875; 1968 Code § 16-24)

17-1-504: FLOOR SPACE REQUIREMENTS:

Every room occupied for sleeping purposes by one person shall contain at least seventy (70) square feet of floor space, and every room occupied for sleeping purposes by more than one person shall contain at least forty (40) square feet floor space for each occupant thereof. (Ord. 3875; 1968 Code § 16-25)

17-1-505: EGRESS FROM BUILDINGS: Every rooming unit shall have safe, unobstructed means of egress leading to safe and open space at ground level, as required and defined by this Article and other City ordinances, rules and regulations or any secondary code adopted thereby. (Ord. 3875; 1968 Code § 16-26)

17-1-506: MAINTENANCE: The operator of every rooming house shall be responsible for the sanitary maintenance of all walls, floors and ceilings and for maintenance of a sanitary condition in every other part of the rooming house; and he shall be further responsible for the sanitary maintenance of the entire premises where the entire structure or building is leased or occupied by the operator. (Ord. 3875; 1968 Code § 16-27)

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 1 HOUSING CODE

PART 6 UNFIT DWELLINGS

SECTION:

- 17-1-601: Condemnation Procedures
- 17-1-602: Abatement, Vacation of Premises
- 17-1-603: Occupation of Condemned Buildings
- 17-1-604: Removal of Placard Prohibited

17-1-601: **CONDEMNATION PROCEDURES:**¹

Any dwelling or dwelling unit which the enforcement officer finds to have any of the following defects shall be condemned as unfit for human habitation and shall be so designated and placarded by the enforcement officer.

- A. One which is so damaged, decayed, dilapidated, insanitary, unsafe or vermin-infested that it creates a serious hazard to the health or safety of the occupants or of the public.
- B. One which lacks illumination, ventilation or sanitation facilities adequate to protect the health or safety of the occupants or of the public.
- C. One which because of its general condition or location is insanitary or otherwise dangerous to the health or safety of the occupants or of the public. (Ord. 3875; 1968 Code § 16-28)

17-1-602: **ABATEMENT, VACATION OF PREMISES:**

- A. Any dwelling or dwelling unit which shall be found to be in a condition which violates any provision or provisions of this Article to such an extent as to endanger the life, limb, health, safety or welfare of the public or any occupant, shall be deemed and declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal. (Ord. 3875; 1968 Code § 16-28)

- B. Any dwelling or dwelling unit condemned as unfit for human habitation, and so designated and placarded by the enforcement officer, shall be vacated within the time specified by the notice. (Ord. 3875; 1968 Code § 16-29)

17-1-603: **OCCUPATION OF CONDEMNED BUILDINGS:**

It shall be unlawful for any person to use or occupy for human habitation any dwelling or dwelling unit which has been condemned and placarded as unfit for human habitation until written approval is secured from, and such placard is removed by, the enforcement officer. The enforcement officer shall remove such placard whenever the defect or defects upon which the condemnation and placarding action were based have been eliminated. (Ord. 3875; 1968 Code § 16-30)

17-1-604: **REMOVAL OF PLACARD PROHIBITED:**

It shall be unlawful for any person to deface or remove the placard from any dwelling or dwelling unit which has been condemned as unfit for human habitation and placarded as such, except as provided in Section 17-1-603 above. (Ord. 3875; 1968 Code § 16-31)

1. See Dangerous Buildings Code, Chapter 16, Article 5 of this Code.

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 2 RELOCATION POLICY AND PROGRAM

PART 1 DISPLACEMENT DUE TO CODE VIOLATIONS

SECTION:

17-2-101: Definitions
 17-2-102: Administrative Guidelines
 17-2-103: Expenses For Displaced Persons
 17-2-104: Emergency Rehabilitation Assistance
 17-2-105: Appeals
 17-2-106: Assessment of Relocation Expenses

17-2-101: DEFINITIONS: The following terms, as used in this Part, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

DISPLACED PERSON: Any occupant who, through no fault of his own, must move himself and his personal property from real property as a result of that property not being in compliance with applicable building, health and housing codes. (Ord. 85-240; Ord. 86-214)

17-2-102: ADMINISTRATIVE GUIDELINES: The Director of Community Development or his designated representative shall administer the policy set forth in this Article and shall from time to time promulgate guidelines, rules and regulations for the operation of this policy. Any such guidelines, rules or regulations promulgated by the Director of Community Development or his designated representative shall be subject to City Council approval. (Ord. 85-240)

17-2-103: EXPENSES FOR DISPLACED PERSONS:

A. Moving and Related Expenses for Displaced Persons. When displacing occupants from real property, in compliance with applicable building, housing and health codes, the City shall make fair and reasonable relocation payments to such occupants for:

1. A fixed settlement determined according to a schedule pre-established by the City to compensate the displaced person for physical

A1) moving expenses; and

2. Actual reasonable expenses incurred in renting a replacement dwelling; and

3. Actual reasonable costs incurred in moving leased equipment. (Ord. 85-240; Ord. 86-214)

17-2-104: EMERGENCY REHABILITATION

ASSISTANCE: The City may provide financial assistance for rehabilitation of properties in order to assure that imminently hazardous housing conditions are eliminated and to assure that the health, safety and welfare of the occupants are protected. Financial assistance as provided in this Section shall be administered in accordance with such guidelines as shall be established by the Director of Community Development or his designated representative. (Ord. 85-240)

17-2-105: APPEALS:

A. Any person aggrieved by the final administrative determination concerning relocation payments or benefits under this Part 1 may have such determination reviewed by a Hearing Officer, who shall be appointed by the Director of Community Development with the consent of City Council, provided, that a written notice of appeal is filed with the Director of Community Development within ten (10) days after the final administrative decision, and that the notice of appeal briefly specifies the grounds of appeal. The Hearing Officer shall have the power to affirm or modify the action of the administration, or to refer any matter so appealed back to the administration for further consideration.

B. The decision of the Hearing Officer may be appealed to the Colorado Springs City Council in accordance with the requirements of Section 14-18-114 of the Code of the City of Colorado Springs 1980, as amended. (Ord. 85-240; Ord. 86-214)

17-2-106: ASSESSMENT OF RELOCATION EXPENSES:

- A. Whenever persons are displaced from real property pursuant to this Part 1 as a result of that property not being in compliance with applicable building, housing, and health codes due to the owner's failure to maintain said property, and the City is required to make relocation, moving and related expense payments to such person, then the actual amount of those relocation payments incurred by the City shall become the responsibility of the owner of said real property. After determination of the actual relocation expenses incurred by the City in any given case, the Director of Community Development or his designee shall bill the property owner of the real property so affected by the relocation for the actual amount of the City's costs so incurred in the relocation of all persons displaced.
- B. In the event that the owner of the property, which is the subject matter of the relocation proceedings as set forth above, shall fail within thirty (30) days after billing to reimburse the City for its actual costs incurred in the relocation, a lien may be assessed against the property for such reimbursement of relocation expenses in accordance with Chapter 7, Article 1 of this Code. The lien created hereby shall be superior and prior to all other liens excepting liens for general and special taxes. (Ord. 85-240)

- C) usable business space, and must conform to the definition of comparable space. (Ord. 74-8; 1968 Code § 10-167)

17-2-106: ASSURANCE OF ADEQUATE REPLACEMENT SITES: When initiating any activity that will result in displacement of private parties, either from their homes or their place of business, the City shall document that sufficient relocation resources exist and that the proposed activity will be staged in such manner that displaced persons will have maximum opportunities to secure adequate replacement sites. (Ord. 74-8; 1968 Code § 10-170)

17-2-107: DUPLICATE PAYMENTS PROHIBITED: No payment or assistance provided for in this Article shall be required if the displaced person receives a payment required by the laws of eminent domain which is determined by the City Council to have substantially the same purpose and effect as such payment under this policy. (Ord. 74-8; 1968 Code § 10-171)

17-2-108: APPEALS: Any person or business concern aggrieved by the final administrative determination concerning eligibility for relocation payments authorized by this Article, may have such determination reviewed by the City Council by filing with the City Clerk within ten (10) days after the final administrative decision written notice stating and specifying briefly the grounds of appeal. The City Council shall have the power to affirm or modify the action of the administration, or to refer any matter so appealed back to the administration for further consideration. (Ord. 74-8; 1968 Code § 10-172)

17-2-109: RELOCATION EXPENSES:

- A. Whenever persons are displaced from real property under Section 17-2-104 as a result of that property not being in compliance with applicable building, fire and health codes due to the owner's failure to maintain said property, and the City is required to make fair and reasonable relocation payments to such persons, then the actual amount of those relocation expenses incurred by the City shall become the responsi-

- A) bility of the owner of said real property. After determination of the actual relocation expenses incurred by the City in any given case, the City Manager or his designate shall bill the property owner of the real property so effected by the relocation for the actual amount of the City's costs so incurred in the relocation of all persons displaced.
- B. In the event that the owner of the property, which is the subject matter of relocation proceedings as set forth above, shall fail within thirty (30) days after billing to reimburse the City for its actual costs incurred in the relocation, a lien may be assessed the property for such reimbursement of relocation expenses in accordance with Chapter 7, Article 1 of this Code. The lien created hereby shall be superior and prior to all other liens excepting liens for general and special taxes. (Ord. 84-125)

CHAPTER 17 HOUSING AND REDEVELOPMENT

ARTICLE 2 RELOCATION POLICY AND PROGRAM

PART 2 DISPLACEMENT DUE TO CITY PROGRAM OR PROJECT

SECTION:

- 17-2-201: Definitions
- 17-2-202: Administrative Guidelines
- 17-2-203: Relocation Assistance Advisory Programs
- 17-2-204: Expenses for Displaced Persons and
Displaced Businesses
- 17-2-205: Replacement Housing Payments
- 17-2-206: Assistance to Persons or Businesses in
Obtaining an Adequate Replacement Site
- 17-2-207: Duplicate Payments Prohibited
- 17-2-208: Appeals

17-2-201: **DEFINITIONS:** The following terms, as used in this Part, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

BUSINESS: Any activity, excepting a farm operation, conducted primarily for:

- A. The purchase, sale, lease or rental of personal or real property and for the manufacture, processing or marketing of produce, commodities or any other personal property;
- B. The sale of services to the public; or
- C. By a nonprofit organization.

COMPARABLE SPACE: Space which is comparable to the acquired space with respect to:

- A. Square footage;
- B. In an area not generally less desirable than the acquired space with respect to public utilities, public and commercial facilities and reasonable accessibility; and
- C. To the extent practicable and where consistent with the above, functionally equivalent and substantially the same as the space acquired by the City.

DISPLACED BUSINESS: Any entity fitting the definition stated elsewhere as "business", "nonprofit organization" or "farm operation" that was located at an affected property for not less than ninety (90) days prior to the initiation of the public activity.

DISPLACED FARM OPERATION: Land used primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use in sufficient quantity to contribute materially to the operator's support, and that was located at an affected property for not less than ninety (90) days prior to the initiation of the public activity.

DISPLACED PERSON: Any occupant who must move himself, and his personal property from real property as a direct result of the acquisition of real property by the City.

INITIATION OF PUBLIC ACTIVITY: Receipt of written intent to acquire property or formal offer to purchase, whichever occurs first.

LONG-TERM OWNER: A person who owns, by any of several legal definitions, or is purchasing the property in question, and can be determined to be residing in it as his legal residence or utilizing it as his bona fide place of business for a period of not less than one hundred eighty (180) days prior to initiation of the public activity.

NONPROFIT ORGANIZATION: A corporation, partnership or other association no part of the income or profit of which is distributable to its members, directors or officers, except that income on profit may be distributable to a member which is another nonprofit organization, and that was located at an affected property for not less than ninety (90) days prior to the initiation of the public activity.

SHORT-TERM OWNER: A person who owns, by any of several legal definitions, or is purchasing the property in question, and can be determined to be residing in it as his legal residence or utilizing it as his bona fide place of business for a period of less than one hundred eighty (180) days prior to initiation of the public activity.

TENANT: Displaced persons or businesses who rented, leased or otherwise "occupied" real property for not less than ninety (90) days prior to initiation of the public activity. (Ord. 85-240; Ord. 86-214)

17-2-202: ADMINISTRATIVE GUIDELINES: The Director of Community Development or his designated representative shall administer the policy set forth in this Article and shall from time to time promulgate guidelines, rules and regulations for the operation of this policy. Any such guidelines, rules or regulations promulgated by the Director of Community Development or his designated representative shall be subject to City Council approval. (Ord. 85-240)

17-2-203: RELOCATION ASSISTANCE ADVISORY PROGRAMS: Whenever a program or project is to be undertaken by the City that will result in displacement of persons from real property, the City shall assure that a relocation advisory program will be available. Said advisory program will include such staff, measures and facilities as may be necessary or appropriate in order to provide each relocatee with a full range of information, services and options to ensure that displacement will occur without undue hardship. (Ord. 85-240)

17-2-204: EXPENSES FOR DISPLACED PERSONS AND DISPLACED BUSINESSES:

- A. Moving and Related Expenses: When displacing any displaced person or displaced business or tenants from real property due to acquisition of that property for public purpose or use, the City shall make fair and reasonable relocation payments to such persons for:
1. Actual reasonable expenses incurred in moving himself, his family, business, farm operation or other personal property;
 2. Any actual direct personal property loss caused by being displaced;
 3. Actual expenses involved in searching for a replacement relocation; or
 4. A fixed settlement in lieu of paragraphs 1, 2, and 3, determined according to a schedule pre-established by the City; such schedule shall not exceed that amount established in the City Re-

A,4) location Policy for residential units, and for displaced businesses, a payment equal to the average annual net earnings of the business for the two (2) years prior to displacement, but not to exceed that amount established in the City Relocation Policy. If, however, the business has not been in operation for a full two (2) years prior to displacement, then the average annual net earnings will be projected by the City based upon the amount of actual earnings of the business. (Ord. 85-240)

17-2-205: REPLACEMENT HOUSING

PAYMENTS:: When displacing persons for a public use or purpose, the City shall make reasonable payments to insure such persons displaced will be relocated to, at least, comparable quarters, and where possible, improved conditions, but in no case to units not deemed to be safe, sound, decent and sanitary in accordance with applicable building, fire, housing and health codes. These payments shall include:

- A. For Long-Term Owner - Residential. Any payments necessary to reestablish a long-term owner displaced from his dwelling in a suitable replacement site at no more monthly expense than prior to being relocated. Such payments shall be calculated in accordance with the City Relocation Policy.
- B. For Tenants and Short-Term Owners - Residential. For tenants and short-term owners displaced from a dwelling by public action, and owners who choose not to become homeowners after displacement, a payment as follows:
 1. Any rent differential the person incurs or that amount of rent that constitutes a financial hardship, whichever is less, will be paid for a period, not to exceed four (4) years, to permit the person to relocate to suitable quarters. Such payment shall be calculated in accordance with the City Relocation Policy. (Ord. 85-240)

17-2-206: ASSISTANCE TO PERSONS OR BUSINESSES IN OBTAINING AN ADE-

QUATE REPLACEMENT SITE: When initiating any activity that will result in displacement of persons or businesses, the City shall provide technical assistance to assist them in obtaining an adequate replacement site. (Ord. 85-240)

17-2-207: DUPLICATE PAYMENTS PROHIBITED:

ED: No payment or assistance provided for in this Article shall be required if the displaced person receives a payment required by the laws of eminent domain which is determined by the City Council to have substantially the same purpose and effect as such payment under this policy. (Ord. 85-240)

17-2-208: APPEALS:

- A. Any person or business aggrieved by the final administrative determination concerning eligibility for relocation payments or benefits authorized by this Part 2 may have such determination reviewed by a Hearing Officer, who shall be appointed by the Director of Community Development with the consent of City Council, provided, that a written notice of appeal is filed with the Director of Community Development within ten (10) days after the final administrative decision, and that the notice of appeal briefly specifies the grounds of appeal. The Hearing Officer shall have the power to affirm or modify the action of the administration, or to refer any matter so appealed back to the administration for further consideration.
- B. The decision of the Hearing Officer may be appealed to the Colorado Springs City Council in accordance with the requirements of Section 14-18-114 of the Code of the City of Colorado Springs 1980, as amended.
- C. In the event that neither the administrative determination, or the decision of the Hearing Officer, as applicable, is not appealed within ten (10) days from the date of each decision, then each decision shall constitute final agency action for all purposes under this Part 1 and applicable State statutes and rules and regulations. (Ord. 85-240; Ord. 86-214)

ARTICLE 1 ADMINISTRATION

PART 1 DEPARTMENT OF PARKS AND RECREATION

SECTION:

18-1-101: Definitions

18-1-102: Department and Director of
Parks and Recreation

18-1-103: Duties of Marshal

18-1-104: Enforcement of Chapter

belonging to the City. Park property shall include all trees, plants, shrubs and vegetation, all wildlife alive or dead, all natural terrain formations, all rocks, stones and boulders, and all improvements to the park areas such as tables, benches, railings, fountains, canopies, roads, sidewalks, fireplaces, buildings, bridges, stands and equipped play areas.

PARK ROADS: Roads and drives in and upon the parks of the City which are intended for public use only for the purpose of enjoyment of the parks for recreational and open space purposes and are not intended to be used for any public purpose normally and usually associated with and incidental to public streets and thoroughfares. Park roads shall not be used for purely private purposes, such as access to private property adjoining park property, except with express permission of the City Council. (Ord. 4716; 1968 Code § 10-2)

18-1-101: **DEFINITIONS:**¹ The following terms, as used in this Chapter, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision:

ALCOHOLIC LIQUOR: Any beverage defined in Section 9-1-102 of this Code as malt liquor, vinous liquor or spirituous liquor. (Ord. 4716)

DEPARTMENT OF PARKS AND RECREATION or DEPARTMENT: The Department of Parks and Recreation of the City of Colorado Springs.

DIRECTOR: The Director of the Department of Parks and Recreation of the City of Colorado Springs, or his designated representative.

MARSHAL: Any person appointed by the Director of the Department of Parks and Recreation and designated by him as Marshal. (Ord. 79-1)

PARK: Those areas, structures or facilities which are parks, parkways and recreation facilities owned by the City and which are under the control, management and supervision of the Department of Parks and Recreation.

PARK PROPERTY: Any real or personal property, or improvements of or relating to parks thereto

18-1-102: **DEPARTMENT AND DIRECTOR OF PARKS AND RECREATION:** The Department of Parks and Recreation and the Director of Parks and Recreation are established and organized as set out in Chapter 2, Article 3 of this Code. (1980 Code)

18-1-103: **DUTIES OF MARSHAL:** It shall be the duty of a Marshal to enforce the rules and regulations promulgated by the Director concerning the use of parks and behavior of persons within parks, the ordinances of the City, and the laws of the State of Colorado. A Marshal is authorized to issue summons and complaints for violations of the ordinances of the City occurring within the parks and within any other area of the City where they have been assigned patrol jurisdiction by the City Manager. A Marshal shall have the power to arrest all

¹ For definitions of general application, see Section 1-1-203 of this Code.

persons in the parks found in the act of violating any law or ordinance or aiding or abetting any such violations and shall arrest any person found under circumstances which would warrant a reasonable man in believing that such person has committed or is about to commit a violation of law. A Marshal shall have the authority to revoke a temporary park permit if, in his opinion, there is imminent danger to the public health, safety or welfare. (Ord. 79-1; 1968 Code § 10-4)

18-1-104: ENFORCEMENT OF CHAPTER: The Director and personnel of the Department of Parks and Recreation shall, in connection with their duties imposed by law, enforce the provisions of this Chapter, and said Director and personnel of the Department of Parks and Recreation shall have the authority to:

- A. Eject from any park any person acting in violation of this Chapter; and
- B. Seize and confiscate any property, thing or device in any park used in violation of any of the provisions of this Chapter. (Ord. 4716; 1968 Code § 10-38)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 1 ADMINISTRATION

PART 2 PARK AND RECREATION ADVISORY BOARD

SECTION:

- 18-1-201: Board Created, Appointments
 18-1-202: Powers and Duties
 18-1-203: Coordinate With Planning Commission

18-1-201: **BOARD CREATED, APPOINTMENTS:** There is hereby created the Park and Recreation Advisory Board, to be composed of seven (7) members appointed by the City Council from residents of the general area or community who are interested in the development of the park and recreation resources and facilities of the community. Appointments to the Board shall be made in such manner as to achieve staggered three (3) year terms. Vacancies owing to death or resignation shall be filled by appointment for the unexpired term. (Ord. 1757; 1968 Code § 1-157; 1980 Code)

18-1-202: **POWERS AND DUTIES:** The Park and Recreation Board shall adopt rules for its own organization and procedure. Said Board shall act in an advisory capacity to the City Council and the City Manager in all matters pertaining to the planning, development, improvement, beautification, equipping and maintaining of the public parks, playgrounds, recreational facilities and resources and center street parkings of the City, both within and without the corporate limits, excluding, however, the municipal golf courses together with the golf course club houses and appurtenant facilities.¹ Said Board shall have the following duties: (Ord. 1757; Ord. 2130)

- A. Annually, to review the budget prepared for the Department by the Director and to submit to

- A) the City Manager suggestions and recommendations for expenditures for the maintenance and development of the parks and recreational facilities of the City for the ensuing fiscal year. Such review and recommendations shall be submitted in time for inclusion in the City Manager's annual budget, but shall be advisory only.
- B. From time to time to prepare and submit to the City Manager plans and recommendations for the development of the park and recreation facilities of the City, together with its recommendations for the amounts to be expended each year for said purposes.
- C. To prepare and submit to the City Manager a general overall program of park and recreational developments contemplating the progressive maximum development of the recreational facilities, landscaping and beautification of the City, having in mind the enjoyment and use of said facilities by the greatest number of persons and the general benefits to the City and its citizens as a whole rather than the special benefits to particular groups and interests. Such plans shall list said projects in the order of preference or priority of accomplishment.
- D. To recommend to the City Council the adoption of rules, regulations and ordinances for the use of park and recreation facilities of the City, and the names for City parks. (Ord. 1757; Ord. 76-152; 1968 Code § 1-158)

- 18-1-203: **COORDINATE WITH PLANNING COMMISSION:** The Park and Recreation

1. See Part 3 of this Article for Golf Advisory Commission.

Advisory Board shall coordinate its work with that of the Colorado Springs Planning Commission so that both shall be working for the accomplishment of the same general purposes with reference to park and recreation development. Said Board shall hold periodic meetings at which all interest groups and organizations shall have an opportunity to appear and be heard with reference to particular objectives, programs or developments. (Ord. 1757; 1968 Code § 1-159)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 1 ADMINISTRATION

PART 3 GOLF ADVISORY COMMISSION

SECTION:

- 18-1-301: Commission Created; Appointments
 18-1-302: Meetings; Reports
 18-1-303: Powers and Duties

18-1-301: COMMISSION CREATED; APPOINTMENTS: There is hereby created the Golf Advisory Commission to be composed of five (5) members appointed by the City Council. Appointments to the Commission shall be made in such manner as to achieve staggered three (3) year terms.

Vacancies owing to resignations or other reasons shall be filled by appointments for the unexpired term.

No member of the Board of the Patty Jewett Golf Club Association, or Valley Hi Golf Club Association, shall be eligible to serve upon the Advisory Commission. (Ord. 75-162; 1968 Code § 1-155)

18-1-302: MEETINGS; REPORTS: The Commission shall meet at least once a month and within ten (10) days after each meeting shall file with the City Manager a copy of the minutes of said meeting. Any and all recommendations included within the minutes shall be transmitted to the City Council by the Manager. The Commission shall also file with the City Manager on or before January 1 of each year a written annual report of the activities and recommendations of the Commission. (Ord. 75-162; 1968 Code § 1-156)

18-1-303: POWERS AND DUTIES: The Golf Advisory Commission shall select a chairman, vice chairman and secretary from its membership and shall adopt rules and by-laws for its own organization and procedure. Said Commission shall act in an advisory capacity to the City Council and the City Manager in regard to the following:

- A. All fiscal policies, including fees and charges, relating to the municipal golf courses;
- B. The operation, use, maintenance, improvement, expansion and other matters relating to the municipal golf courses with all facilities and appurtenances, including the club houses and facilities.
- C. To recommend to the City Council the adoption of rules, regulations and ordinances for the use of municipal golf courses. (Ord. 75-162; Ord. 81-128; 1968 Code § 1-156)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 1 ADMINISTRATION

PART 4 ARBORIST BOARD

SECTION:

18-1-401: Board Created; Membership

18-1-402: Meetings; Records

18-1-403: Powers and Duties

18-1-401: BOARD CREATED; MEMBERSHIP:

There is hereby created a board to be known as the Arborist Board. Such Board shall be composed of five (5) members who shall be appointed by the City Council. The Board shall include two (2) professional arborists, a nurseryman, a landscape designer and a sprayer. Terms of service shall be three (3) years or until successors are appointed. A chairman and vice chairman shall be elected each year, and vacancies owing to death or resignation shall be filled by appointment for the unexpired term.

The Director of Parks and Recreation or his designated representative shall be the secretary of the Arborist Board. (Ord. 4716; 1968 Code § 1-174)

18-1-402: MEETINGS; RECORDS: The members of the Arborist Board shall meet each month at a regular date, time and place, to be determined by said Board. Minutes shall be maintained of all meetings, and the Board shall adopt rules for its own organization and procedures. (Ord. 4716; 1968 Code § 1-174)

18-1-403: POWERS AND DUTIES:

A. The Arborist Board shall act as a reviewing body for the purposes of determining professional qualifications and competence to engage in the business of cutting, trimming, pruning, spraying or removing trees by giving written, oral and practical license examinations. The Board shall, when necessary, recommend to the City Council adoption of rules and regulations pertaining to the tree service

A) business in the City as well as matters of general forestry practices, and it may hear complaints from any citizen of the City including any of its own members, relating to the tree service business. Upon receipt of a complaint and after informing the licensee of the complaint and giving the licensee a chance to be heard, the Board may suspend a tree service license for up to sixty (60) days or may revoke such license.¹ The hearing procedure will be as follows:

1. Whenever the Director has reasonable cause to believe that a tree service licensee is acting contrary to City ordinances, rules, regulations or good industry practices with regard to tree service activities, or upon complaint of the same by third persons, he shall provide notice to the affected tree service licensee by personal service, and if unfeasible, by certified mail, return receipt requested, of the alleged violations or complaints. The notice shall specify the alleged complaints or violations, the right to an attorney, right to cross-examine and present witnesses, and of the date, time and place of the hearing. The hearing shall occur not less than ten (10) days after receipt of the notice of hearing by the licensee.

2. At the hearing, the licensee and the City may be represented by their attorney, may present evidence, and may cross-examine witnesses. A verbatim transcript of the hearing shall be required. The decision of the Board shall be based upon competent evidence.

3. If the decision of the Arborist Board is not favorable to the licensee, an appeal of the decision of the arborist Board may be made to the courts as provided by the Colorado Rules of Civil Procedure.

B. The Arborist Board shall act as a reviewing body for appeals of the Director's decision in issuing notice and orders relating to infested, diseased, or nuisance trees and shrubs under

1. See Chapter 8, Article 3, Part 3, relating to tree service business licenses.

- B) Part 2 of Article 4 of Chapter 18 of this Code.
- C. The Arborist Board shall act as a reviewing body for appeals of the Directors decision concerning any other matters relating to urban forestry. The appeal must be perfected by a notice of appeal, filed with the secretary of the arborist Board and stating the grounds therefor, within ten (10) days of the decision. The hearing before the Arborist Board shall be held at the next regular meeting of the Board, but not less than ten (10) days from the date of the notice. The hearing shall be held in accordance with subparagraphs 2 and 3 of this Section. (Ord. 4716; Ord. 82-54; 1968 Code § 1-175)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 1 ADMINISTRATION

PART 5 BEHAVIOR INCIDENT REVIEW BOARD

SECTION:

- 18-1-501: Purpose
- 18-1-502: Creation
- 18-1-503: Jurisdiction
- 18-1-504: Definitions
- 18-1-505: Behavior Incident Report
- 18-1-506: Rules and Regulations
- 18-1-507: Party in Interest
- 18-1-508: Notice of Appeal
- 18-1-509: Conduct of the Behavior Incident Review Board
- 18-1-510: Evidence
- 18-1-511: Public Hearing
- 18-1-512: Notice of Hearing
- 18-1-513: Verbatim Transcript
- 18-1-514: Hearing Procedures
- 18-1-515: Findings of Fact and Conclusions of Law
- 18-1-516: Criteria for Suspension
- 18-1-517: Effect of Appeal
- 18-1-518: Severance Clause

18-1-501: **PURPOSE:** It is the purpose of this Part 5 to provide an efficient, timely and fair review process of the decisions of the Director of Parks and Recreation with respect to any decision to suspend a disabled person, as defined herein, from the Department's Therapeutic and Adaptive Recreation Program as a result of emotional and/or behavioral disorders which have created an eminent hazard to the health, safety and welfare of other participants, staff, and the public, or the disabled person himself.

In keeping with well-established principles with respect to the provision of therapeutic and adaptive recreation programs, it is hereby declared that all decisions made pursuant to this Part 5 shall balance the right of a disabled person to be provided the therapeutic and adaptive recreational programs in the least restrictive environment against the need for protection of the public health, safety and welfare. (Ord. 85-4)

18-1-502: **CREATION:** There is hereby created a Behavior Incident Review Board. The Board shall consist of five (5) members: one physician, one special education teacher, one psychologist/psychiatrist, one attorney, and one lay person. The selection and appointment of the Behavior Incident Review Board members shall be made by the City Council. The Board shall hold hearings pursuant to the provisions set forth in this Part 5 and make the decisions as provided herein. (Ord. 85-4)

18-1-503: **JURISDICTION:** The Behavior Incident Review Board's jurisdiction shall be limited to hearing appeals from any decision of the Director of Parks and Recreation as a direct result of the filing of a Behavior Incident Report, or by appeal of any other decision of the Parks and Recreation which is made pursuant to the requirements of this Part 5. (Ord. 85-4)

18-1-504: **DEFINITIONS:** As used in this Part 5, unless the context requires otherwise:

- A. CITY: the City of Colorado Springs.
- B. DIRECTOR: The Director of Parks and Recreation or his designee.
- C. RESPONDENT: Any disabled person who is the subject of a Behavior Incident Report.
- D. DISABLED PERSON: Shall mean the following:
 - 1. A person who is mentally handicapped, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally impaired, orthopedically impaired, or other health impaired person with specific learning disabilities who, by reason thereof, requires special education and related services; or

- D) 2. Persons who have a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations. Such disorders include, but are not limited to, such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia; or

3. Any person whose intellectual functions have been deficient since birth or whose intellectual development has been arrested or impaired by disease or physical injury to such an extent that he lacks sufficient control, judgment, and discretion to manage his property or affairs or who, by reason of this deficiency and for his own welfare or the welfare or safety of others, requires protection, supervision, guidance, training, control, or care; or

4. A person whose disability is attributable to mental disability, cerebral palsy, epilepsy, autism, or neurological impairment, which may have originated during the first eighteen (18) years of life, and which can be reasonably expected to continue indefinitely, and which constitutes a substantial handicap, including but not limited to, a person who has a permanent physical handicap for which substantial supervision and training are required; or

5. Any person suffering from a long-term physical impairment or illness who has significant limited intellectual capacity, or has significant identifiable emotional or behavioral disorder, or identifiable perceptual or communicative disorders, or speech disorders.

- E. BOARD: The Behavior Incident Review Board.

- F. EMINENT HAZARD: Any overt act or omission by a disabled person while participating in any or all of the therapeutic and adaptive recreational programs under the auspices of the City of Colorado Springs' Parks and Recreation Department Program, or pursuant to an agreement between the City of Colorado Springs and any school district required to establish an individualized education program, which results in an immediate, direct and substantial threat to the personal health, safety and welfare of the respondent, any other disabled person, a member of the staff, or members of the public, and including but not limited to:

- F) 1. All forms of aggravated assault as well as for sexual conduct or assault with a deadly weapon;
2. Continued verbal abuse or profanity;
3. Urination, defecation or vomiting on any of the above persons;
4. Pushing or shoving;
5. Any overt behavior which results in tissue damage, including slapping, scratching, biting, picking, head-banging, eye-gouging, or other forms of self-mutilation or mutilation of others. (Ord. 85-4)

18-1-505: BEHAVIOR INCIDENT REPORT: The Director of Parks and Recreation is hereby authorized to initiate and promulgate administrative policies and procedures for the establishment of a Behavior Incident Report system, which will enable the Director to make decisions as to whether or not a disabled person should or should not be suspended from any or all of the therapeutic and adaptive recreational programs provided by the Department. (Ord. 85-4)

18-1-506: RULES AND REGULATIONS: The Director of Parks and Recreation is hereby authorized to promulgate such rules and regulations as are reasonably necessary to effectuate the requirements of this Part 5, including but not limited to, the Behavior Incident Report Policies and Procedures, Standards and Criteria with respect to the completion of Behavior Incident Reports, establishment of informal conference procedures, reevaluation procedures, and such other and further processes as are necessary to insure the fair, equitable and efficient administration of this Part 5. (Ord. 85-4)

18-1-507: PARTY IN INTEREST: The following persons, only if making an appearance of record, are hereby defined as parties and are entitled, either by themselves or through a representative, to participate in a hearing before the Behavior Incident Review Board:

- A. Any disabled person subject to a behavior incident review report, or his parents, guardian ad litem, or legal guardian;
- B. Any disabled person, or his parents, guardian ad litem, or legal guardian, who has been directly affected by any behavior of another disabled

- B) person which is the subject of the Behavior Incident Report;
- C. A member of the Parks and Recreation Department staff; or
- D. Any other person, organization or group or governmental entity who demonstrates to the Behavior Incident Review Board that he has a significant interest in the subject matter of the hearing.

For purposes of this Section, an "appearance of record" shall mean either:

1. An oral statement sufficiently identifying person making the same or by his representative, made at the hearing; or
2. A written statement giving the name and address of the person making the appearance, signed by him or his representative, and filed with the Board either prior to the commencement of the hearing or when otherwise permitted by the Board. (Ord. 85-4)

18-1-508: NOTICE OF APPEAL:

- A. Except as expressly provided herein, any party in interest may appeal any decision of the Director made pursuant to this Part 5, provided such party files with the Director a written notice of appeal within ten (10) days after the date of the decision of the Director. The notice of appeal shall state the grounds of appeal. The failure of any person to file a notice of appeal of any decision of the Director pursuant to 18-5-107 shall be considered to be a waiver of that person's rights, as well as a failure to exhaust administrative remedies, and the decision of the Director shall be deemed to be final agency action with respect to any item not appealed from.
- B. Notwithstanding the requirements of subsection A above, any manifestation by the respondent, physical, written or verbal, which would tend to imply dissatisfaction with any decision of the Director, or of the respondent's parents or legal guardian, regardless of its timing, shall automatically be treated as a notice of appeal, and shall be acted upon pursuant to the requirements of this Part 5 with respect to appeals to the Behavior Incident Review Board. (Ord. 85-4)

18-1-509: CONDUCT OF THE BEHAVIOR INCIDENT REVIEW BOARD:

- A. No member of the Behavior Incident Review Board shall communicate, directly or indirectly, with any party or his representative in connection with any issue involved before the Board pursuant to this Part 5 except upon notice and opportunity for all parties to participate; and
- B. No member of the Behavior Incident Review Board shall use or rely upon any communication, reports, staff memoranda, or other materials prepared in connection with the particular matter before the Board unless made a part of the record in the case; and
- C. No member of the Behavior Incident Review Board shall inspect any site with any party or his representative unless all parties are given an opportunity to be present. (Ord. 85-4)

18-1-510: **EVIDENCE:** With respect to determining findings of fact and conclusions of law, the Behavior Incident Review Board may receive oral testimony, demonstrative or written evidence, as long as said evidence has any tendency to make the existence of any fact that is of consequence to determination of the matter before it more probably or less probable than it would be without the evidence. Hearsay shall be admissible except that the Board shall take into account that such evidence is hearsay with respect to the weight given to it. In any event, the Board shall not admit any evidence which a reasonable and prudent person would not rely upon in the conduct of their everyday affairs. (Ord. 85-4)

18-1-511: **PUBLIC HEARING:** Before entering any decision on any matter subject to the jurisdiction of the Behavior Incident Review Board, the Board shall hold at least one public hearing thereon. Notice of the time and place of the public hearing shall be given to all parties of record as set forth in Section 18-1-512. The public hearing may be continued from time to time as necessary to gather additional information, and no additional notice need be given if the hearing be adjourned to date certain by the Board. Upon reception of all evidence, the hearing of arguments, the Board, upon motion, shall have the discretion to adjourn to a closed meeting in order to make a final determination as to findings of fact and conclusions of law; provided, however, that the final

decision of the Board shall be issued at a public meeting after notice provided in the manner set forth in Section 18-1-512, but in any event, not later than fifteen (15) days after the reception of evidence and arguments by the parties. (Ord. 85-4)

18-1-512: NOTICE OF HEARING:

- A. Notice of a public hearing before the Behavior Incident Review Board shall contain the following information:
 - 1. The date, time and place of hearing;
 - 2. The nature of the appeal;
 - 3. Notice that interested parties may appear and be heard;
 - 4. A statement that the hearing shall be held pursuant to this Part 5, the rules and regulations of the Department, and such other bylaws which have been enacted by the Board;
 - 5. The address and telephone number of the Director of Parks and Recreation or his designee from whom additional information about the subject matter of the hearing may be obtained.
- B. Such notice of hearing shall be given by:
 - 1. Publication in a newspaper of general circulation in the City of Colorado Springs at least ten (10) days prior to the date of hearing; and
 - 2. By mailing copies of such notice at least ten (10) days before the date of the hearing to the appellant respondent and all other persons who have had a direct or indirect role in the Behavior Incident Review process, by certified mail, return receipt requested.
- C. All matters pertaining to the appeal in the custody of the Director of Parks and Recreation shall be open to public inspection during regular office hours. Such files shall not be removed from the Park Department, except that such files may be removed or inspected at other times by any person pursuant to Court order or by permission of the Director. (Ord. 85-4)

18-1-513: VERBATIM TRANSCRIPT: A verbatim record of the proceedings before the Behavior Incident Review Board shall be made by an electronic recording device, or by such other appropriate method which will insure the preservation of an accurate and complete record of the matters before the Board. (Ord. 85-4)

18-1-514: HEARING PROCEDURES: In the event that an appeal is filed pursuant to Section 18-1-508, the matter before the Behavior Incident Review Board shall be given a de novo review, and the record of decision of the Director of Parks and Recreation shall not be considered during the decision-making process. At the hearing, any party in interest shall be given an opportunity to be heard, either individually, or by a representative, and shall be entitled to present evidence, cross-examine witnesses, and to make arguments before the Board. At the hearing, the City Attorney, or one of his assistants, shall act as a legal advisory to the Board, and not as an advocate on behalf of the Department. (Ord. 85-4)

18-1-515: FINDINGS OF FACT AND CONCLUSIONS OF LAW: Subject to the requirements of Section 18-1-516, the Behavior Incident Board shall make a decision on each item which is before it. The decision of the Board shall be made after considering all of the admissible evidence before it and applying that evidence to the requirements of this Part 5. When the Board renders its decision, said decision shall be supported by written findings of fact from the record and conclusions of law thereof, and the findings and conclusions shall set forth and demonstrate the manner in which the decision meets the requirements of this Part 5. The Board may require such conditions in addition to its decision for any matter which it deems reasonable or necessary in order to further the purposes of this Part 5. The decision of the Board shall be final agency action. Nothing in this Section, however, shall preclude the Board from utilizing its own expertise and experience in evaluating the evidence before it. (Ord. 85-4)

18-1-516: CRITERIA FOR SUSPENSION:

- A. Notwithstanding any other provision in this Part

- A) 5 to the contrary, the Behavior Incident Review Board shall make no decision suspending a disabled person from any or all therapeutic and adaptive recreation programs within the Parks and Recreation Department unless it makes an express finding that, based upon clear and convincing evidence, the respondent's behavior constitutes an imminent hazard to the health, safety and welfare of the respondent, other disabled persons, members of the staff, or the general public.
- B. The amount of any suspension, if applicable, shall be the minimum amount of time necessary to correct the behavior that has caused the imminently hazardous condition to exist, but in no case shall the respondent be suspended from therapeutic and adaptive recreational programs for more than sixty (60) days without a further reevaluation by a Program Director, which shall be reviewed by the Director of Parks and Recreation, and which shall be subject to appeal as provided herein. (Ord. 85-4)

18-1-517: EFFECT OF APPEAL: The filing of a notice of appeal by any interested party, or as a result of an automatic appeal pursuant to Section 18-1-508, shall not act as a stay of the Director's decision to suspend a disabled person from any or all of the therapeutic and adaptive recreational programs in the Parks and Recreation Department. (Ord. 85-4)

18-1-518: SEVERANCE CLAUSE: Should any section, clause, provision, sentence or word of this Part 5 be declared by a Court of competent jurisdiction to be invalid, such decision shall not affect the validity of this Part 5 as a whole, or any parts thereof, other than the part so declared to be invalid. For this purpose, this Part 5 is declared to be severable. (Ord. 85-4)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 2 RULES AND REGULATIONS

PART 1 GENERAL REGULATIONS

SECTION:

- 18-2-101: Authority to Promulgate
- 18-2-102: Procedure for Adoption
- 18-2-103: Park Hours
- 18-2-104: Closing of Parks
- 18-2-105: Park Uses for Commercial Purposes
- 18-2-106: Applicability of City Ordinances

official City publication,² or publication of a notice one time in said publication, that such rules and regulations have been adopted, and are on file with the City Clerk and the Director. The date of adoption shall also be stated. All rules and regulations so adopted and filed shall be open to public inspection at all reasonable times. Cancellation by the Director of any current rule or regulation shall become effective upon publication as above. (Ord. 4716; Ord. 81-128; 1968 Code § 10-37)

18-2-101: AUTHORITY TO PROMULGATE: The Director of Parks and Recreation is hereby authorized to adopt reasonable rules and regulations regarding the time, place, limitation and extent of recreational use of any existing recreational facility in any park, including the uses now existing or such as may hereafter become available. In making such rules and regulations, the Director shall consult national standards and authorities on traffic, water safety, and the operational safety of recreational devices, structures and functions, to the end that the welfare and safety of the public using such facilities may be protected and the greatest recreational use made available to the public. Additional rules and regulations as may be necessary shall be adopted to implement applicable Federal and State laws. (Ord. 4716; 1968 Code § 10-36)

18-2-102: PROCEDURE FOR ADOPTION: The Director may propose the adoption or amendment of any reasonable or necessary rules and regulations. Such proposals shall be first reviewed by the Park and Recreation Advisory Board,¹ unless such proposal pertains to the municipal golf courses. Proposals pertaining to municipal golf courses shall be first reviewed by the Golf Advisory Board. The recommendation of said Boards shall be reviewed by the City Attorney. After approval or correction by the City Attorney, the Director shall promulgate such rules as he may adopt by filing three (3) copies with the City Clerk. No rule or regulation shall be in full force and effect until it has been approved by the City Council and until published by one of two (2) methods: either publication in full one time in the

18-2-103: PARK HOURS: The parks shall be open for the use of the public during the hours of five o'clock (5:00) A.M. until nine o'clock (9:00) P.M. during the months of November to April, inclusive, and during the hours of five o'clock (5:00) A.M. until eleven o'clock (11:00) P.M. at all other times. It shall be unlawful for any person, other than the employees of the City in the performance of their official duties, to enter or remain in, the parks at any time outside such hours, except during official City-sponsored activities; provided, however, the Director may extend or limit the time specified above by issuing a temporary park permit in accordance with Section 18-3-101 of this Code. The Director is authorized to promulgate any necessary rules and regulations in accord with Section 18-2-102 closing any park roads, vehicular access areas, or trails beginning at nine o'clock (9:00) P.M. at any time during the year. (Ord. 4716; Ord. 84-89; 1968 Code § 10-5)

18-2-104: CLOSING OF PARKS: The Director is hereby authorized to close any park or portion thereof at any time for any interval of time, whether temporarily or at regular stated intervals as he shall find necessary, for the protection of park property or for the public health, safety or welfare. (Ord. 4716; 1968 Code § 10-6)

18-2-105: PARK USES FOR COMMERCIAL PURPOSES: "Commercial purposes" for the purpose hereof, shall be defined as the use of a park or portion thereof for an activity for which a fee

1. See Article 1, Part 2 of this Chapter.

2. See Section 1-1-601 of this Code.

or admission is charged, a class or course of instruction for which a fee is charged, a franchise or concession granted or given for use of park property, the use of a park or portion thereof for the purpose of commercial movie making, or any other activity from which monetary benefit is to be derived directly or indirectly. Any person desiring to use a park or portion thereof for such commercial purpose shall apply to the City Manager in accordance with Chapter 19, Article 2, Part 2 of this Code and such rules and regulations as the Director may prescribe. The City Manager, before ruling on such application, shall forward the application to the Director for his written comments. The Director may submit such application to the Park and Recreation Advisory Board for their comments unless such application pertains to the use of municipal golf courses. The Director may submit such applications pertaining to the use of municipal golf courses to the Golf Advisory Commission for their comments. (Ord. 4716; Ord. 81-128; 1968 Code § 10-19)

18-2-106: APPLICABILITY OF CITY ORDINANCES: All ordinances of the City, specifically and without limiting the generality of Chapter 21, Public Offenses and Chapter 22, Motor Vehicles, shall be in full force and effect in the City parks. If there is a conflict between the provisions of this Chapter and other ordinances of the City, the more restrictive thereof shall apply.

All provisions specified in Article 5 of this Chapter shall be applicable to all parks within and without the boundaries of the City. (Ord. 4716; 1968 Code §§ 10-20, 10-20.1)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 2 RULES AND REGULATIONS

PART 2 BOAT REGULATIONS

SECTION:

18-2-201: Definitions
 18-2-202: Authority of Director
 18-2-203: Boat Permits Required
 18-2-204: Boat Permits; Application for
 18-2-205: Boat Permits; Terms of; Waiver
 18-2-206: Unattended Boats; Impoundment

18-2-201: **DEFINITIONS:**¹ The following terms, as used in this Part 2, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision:

BOAT: Every description of watercraft used or capable of being used as a means of transportation on water.

HAND PROPELLED BOAT: Any boat that is propelled solely by human muscular effort, which includes, but is not limited to, the use of oars, paddles or other contrivances, and upon which boat no mechanical propulsion device or sail is used in the operation of the boat.

MOTORBOAT: Any boat propelled by machinery whether or not such machinery is the principal source of propulsion.

SAILBOAT: Any boat propelled solely by the effect of wind on a sail. For the purposes of this Part 2, any boat propelled by both sail and machinery of any sort shall be deemed a motorboat, when being so propelled. (Ord. 80-47; 1968 Code § 10-24.18)

18-2-202: **AUTHORITY OF DIRECTOR:** It shall be unlawful for any person to use or permit to be used or operated on any waters in the park any boat except in those cases, at those times and in the manner prescribed by the Director. (Ord. 80-47; 1968 Code § 10-24.18)

18-2-203: **BOAT PERMITS REQUIRED:** It shall be unlawful to use any boat upon any waters in any park unless a permit for such use has been issued as herein provided. (Ord. 80-47; 1968 Code § 10-24.18)

18-2-204: **BOAT PERMITS; APPLICATION FOR:** Each person applying for a boat permit shall present to the City Clerk the following:

- A. Evidence of a current Colorado State boat registration certificate and number, unless exempt by statute because of the type of boat.
- B. Insurance Required. No boat permit shall issue until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the licensee:

1. For all motorboats:

Bodily Injury and Property Damage:

Combined single limit \$300,000.00

2. For all sailboats and hand propelled boats:

Bodily Injury and Property Damage:

Combined single limit \$100,000.00

¹ For definitions of general application, see Section 1-1-203 of this Code.

- B) 3. Each such policy of insurance shall contain an endorsement to the effect that the insurance carrier shall notify the City at least thirty (30) days in advance of the effective date of any reduction or cancellation of the policy. The cancellation or reduction of insurance shall be cause for automatic suspension of the permit.
- C. A statement that the permittee shall be responsible for any and all damage to property or injuries to persons arising out of the exercise of the permit, and the permittee shall indemnify and save harmless the City and all of its officers, agents and employees from all suits, actions or claims of injuries received or sustained by any person or persons or property on account of the use of the permit or of any act or omission of the permittee thereunder, his agents or employees, or on account of the failure of the permittee to observe this Section or the rules and regulations or ordinances pertaining to use of boats by the permittee.
- D. Inspection. A certificate of inspection by one of the following:
 - 1. A recognized boat dealer of the type sought to be inspected, which dealer shall be located in the City and shall possess a current dealer permit;
 - 2. The United States Coast Guard Auxiliary;
 - 3. The United States Navy; or
 - 4. The City, through its authorized agent(s).
- E. Each inspector may be authorized by the Director upon application by letter. Each authorized inspector shall inspect for minimum safety equipment requirements as set forth by the United States Coast Guard, Colorado State Division of Parks and Recreation and City ordinances or regulations, which inspection shall be on a form to be approved by the Director.
- F. Dealer Permit. Marine craft, boat dealers or others engaged in the business of selling boats

- F) may obtain special dealer permits for use on boats they may be testing or demonstrating. By applying for such dealer permits, such dealer acknowledges that the boat as tested or demonstrated carries all safety equipment required by the State of Colorado, United States Coast Guard, and City ordinances and regulations. (Ord. 80-47; Ord. 83-175; 1968 Code § 10-24.20)

18-2-205: **BOAT PERMITS; TERMS OF; WAIVER:**

- A. Upon the issuance of a permit, the plate issued by the City shall be permanently affixed in a conspicuous location on an exterior surface of the boat.
- B. Each permit as issued is a nontransferable, revocable permit which shall continue in full force and effect from the date of issuance through December 31 of the year of issuance of the permit unless sooner terminated, discontinued or revoked by the provisions of this ordinance or rules and regulations applicable thereto or by legal action or operation of law. There shall be no proration of fees for any part of the year.
- C. The Director may, from time to time, close the waters of the City to public use for use by the City in promoting or sponsoring special events, and may waive the permit requirement for such events. (Ord. 80-47; 1968 Code § 10-24.20)

18-2-206: **UNATTENDED BOATS; IMPOUNDMENT:**

It shall be unlawful for any person to leave unattended any boat on any waters of any park. Any boat found loose or unattended shall be impounded and released upon payment of a fee of fifty dollars (\$50.00) to cover the cost of impounding, hauling and storage. (Ord. 80-47; 1968 Code § 10-24.22)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 3 PERMIT REQUIREMENTS

PART 1 TEMPORARY PARK PERMITS

SECTION:

- 18-3-101: Temporary Park Permits Required
- 18-3-102: Application for Permit
- 18-3-103: Issuance of Permit
- 18-3-104: Insurance Requirements
- 18-3-105: Damage Deposit
- 18-3-106: Permit Fees
- 18-3-107: Indemnification of City
- 18-3-108: Appeal Procedures
- 18-3-109: Permit Exhibited
- 18-3-110: Effect and Liability on Permit
- 18-3-111: Revocation of Permit

18-3-101: TEMPORARY PARK PERMITS REQUIRED:

A temporary park permit shall be obtained by persons who desire to use a park or portion thereof to the exclusion of others. The Director of Parks and Recreation may list those parks or areas thereof for which he deems it necessary to issue temporary park permits in order to preserve the public peace and safety, protect the public property from injury or damage and secure to the public its common enjoyment. Use of any park or portion thereof for a public gathering, entertainment, tournament or exhibition or any other activity which can reasonably be expected to have one hundred (100) or more persons involved or in attendance or both, or reasonably can be expected to have a detrimental effect on park property or persons using such park property, or persons and property adjacent to such park, shall require a temporary permit. (Ord. 4716; 1968 Code § 10-7; 1980 Code)

18-3-102: APPLICATION FOR PERMIT: Any person desiring a temporary park permit shall apply to the Director of Parks and Recreation for such permit at least fourteen (14) days prior to the

date of the intended use on forms provided by the Director. The application shall include:

- A. Name and address of the applicant.
- B. Name and address of the person sponsoring the use.
- C. The day and hours for which the permit is desired.
- D. The park or portion thereof for which such permit is desired.
- E. How the park or portion thereof will be used.
- F. An estimate of the anticipated attendance or persons involved in the use or both.
- G. Any other information which the Director may require to make a fair determination as to whether a temporary permit should issue. (Ord. 4716; 1968 Code § 10-8)

18-3-103: ISSUANCE OF PERMIT: The Director shall issue a temporary permit when the applicant shall show and the Director shall determine:

- A. That the proposed use of the park will not unreasonably interfere with or detract from the general public enjoyment of the park.
- B. That the proposed use will not unreasonably interfere or detract from the promotion of the public health, welfare and safety.
- C. That the proposed use is not reasonably anticipated to lead to or incite violence, crime, disorderly conduct or injury or damage to park property.

- D. That the proposed use will not entail extraordinary expense to the Department of Parks and Recreation or to the City.
- E. That the park or portion thereof has not been previously reserved for other use at the same date and time requested in the application. (Ord. 4716; 1968 Code § 10-9)

18-3-104: INSURANCE REQUIRED:

- A. No temporary park permit shall issue until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the licensee with the City also named as insured:

Bodily Injury:	
Each person	\$300,000
Each accident	300,000

Property Damage:	
Each accident	\$ 50,000
Aggregate	100,000

Certificate or copies of the policy of such insurance shall be filed with the City Clerk and shall be subject to the City Attorney's approval as to the adequacy of protection.

- B. As a condition precedent to the issuance of any permit to sell food or wares upon park property, the Director may require products liability insurance and inspection of such food products and facilities by the El Paso County Health Department. (Ord. 4716; 1968 Code § 10-11)

18-3-105: DAMAGE DEPOSIT: As a condition precedent to the issuance of any permit, the Director may require a damage deposit to protect the City against damage to park property. Such deposit shall not exceed the reasonable expectations of the Director as to damage to City property based on the information provided by the applicant and the past experience of the Department of Parks and Recreation. (Ord. 4716; 1968 Code § 10-13)

18-3-106: PERMIT FEES: Each application for a temporary park permit shall be accompanied by the amount of the fee or charge as set forth in the Fees and Charges Schedule for use of parks or portions thereof, as promulgated by the Director and approved by the City Council. If a temporary permit is not granted, the fee shall be returned. The Director may waive this requirement of prepayment if the fee or charge is based on a per hour rate, percentage of receipts or number in attendance or all three (3), and the Director shall collect such fee or charge at a later time. The Director may require a partial payment of the charge or fee at any time. The Director, prior to the issuance of a temporary park permit, may assess additional fees to cover the expense of services that will be provided the permittee by the Department of Parks and Recreation or other agency or department of the City; however, such charges shall not exceed the amount of cost reasonably expected to be incurred by the City. (Ord. 4716; 1968 Code § 10-10)

18-3-107: INDEMNIFICATION OF CITY: The permittee shall be responsible for any and all damages to property or injury to persons arising out of the exercise of the permit, and the permittee shall indemnify and hold harmless the City and all its officers, agents and employees from all suits, actions or claims of any character, name and description brought for or on account of any injuries or damages received or sustained by any person or persons or property on account of the exercise of the permit or of any action or omission of the permittee thereunder, his agents or employees or on account of the failure of the permittee to maintain or to provide necessary safety devices to ensure the safety of the public. The permittee shall defend against any such suit, action or claim and pay any judgment, with costs, which may be obtained against the City, its officers, agents or employees growing out of such injury or damage. (Ord. 4716; 1968 Code § 10-12)

18-3-108: APPEAL PROCEDURES: Any applicant for a temporary park permit or any person protesting such application who is aggrieved by the decision of the Director, may appeal such action or decision in the following manner:

- A. Within ten (10) days of such decision of the Director, the appellant, his agent or attorney shall file an appeal in writing with the office of the City Manager. The appeal shall briefly state the grounds for such appeal and shall be signed by the appellant, his agent or attorney. Within five (5) days after the appeal is received, the City Manager shall approve, modify or disapprove the decision of the Director, or direct that the appeal be forwarded to the City Council.
- B. Any person aggrieved by the decision of the City Manager shall, within ten (10) days of such decision, file in writing with the City Clerk his appeal to City Council. The appeal shall briefly state the grounds upon which such appeal is based and shall be signed by such person, his agent or attorney. The City Clerk shall place such item on the agenda of the next regularly scheduled meeting of City Council occurring not less than seven (7) days after receipt of the appeal. The City Council at the time or at any subsequent meeting, may conduct a hearing de novo in which all facts and circumstances shall be heard and considered. At the conclusion of the hearing, City Council may uphold, modify, or disapprove the decision of the City Manager. (Ord. 4716; 1968 Code § 10-14)

18-3-109: PERMIT EXHIBITED: It shall be unlawful for any person to fail to produce or exhibit any permit he has received from the Director upon the request of any authorized person who shall desire to inspect the same for the purpose of enforcing compliance with any ordinance or rule. (Ord. 4716; 1968 Code § 10-18)

18-3-110: EFFECT AND LIABILITY ON PERMIT:

- A. The permit holder and all persons using the park under such permit shall be bound by all park rules and regulations and all applicable ordinances. (Ord. 4716; 1968 Code § 10-15)

- B. The person to whom a permit is issued shall be liable for any loss, damage or injury sustained by any person or property whatever by reason of the actions of the permittee. The permittee shall also be liable for the actions of any person using the park or portion thereof under the permit that has been issued. (Ord. 4716; 1968 Code § 10-16)

18-3-111: REVOCATION OF PERMIT: The Director shall have the authority to revoke a temporary permit upon finding of a violation of any rule, regulation or ordinance, or upon good cause shown. Any temporary park permit granted shall be revocable by the City Council at its pleasure in accordance with Section 72 of the Charter of the City. (Ord. 4716; 1968 Code § 10-17)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 4 TREES AND SHRUBS

PART 1 PLANTING AND GENERAL REQUIREMENTS

SECTION:

- 18-4-101: Trees in Parkings
- 18-4-102: Trees on Public Ways or Property
- 18-4-103: Planting Requirements (Rep. by Ord. 82-54)
- 18-4-104: Inspection of Trees
- 18-4-105: Planting of Approved Species (Rep. by Ord. 82-54)
- 18-4-106: Duty to Replace Trees
- 18-4-107: Duty to Trim Trees
- 18-4-108: Removal of Dead Trees (Rep. by Ord. 82-54)
- 18-4-109: Maintenance of Street Parkings
- 18-4-110: Tree Pruning for Building Movers
- 18-4-111: Use of Equipment
- 18-4-112: Tree Service License Required

18-4-101: **TREES IN PARKINGS:** The Department of Parks and Recreation is hereby authorized to furnish the necessary personnel and services for the planting of trees or replacing damaged trees in the parkings of the City, provided:

- A. Such plantings shall include at least twenty (20) trees.
- B. The request for such plantings shall be made to the Director at least one month in advance of the planting.
- C. All trees, soil, conditioning materials and protective devices shall be furnished and delivered to the place of planting by the person or persons requesting the same.

As a part of the service in planting of the trees as aforesaid, the Department shall give advice and counsel regarding the tree varieties to be selected, the physical soil conditions involved, fertilizers needed, protective devices suggested

- C) and other information concerning the selection of the tree sizes and varieties and the planting of the same. Such advice and information regarding the selection and care of trees shall be available to any person in the City so requesting the same.
- D. The planting and other services rendered by the Department shall be upon the specific condition that all watering and care, except for spraying and trimming of the trees after the planting, shall be the responsibility of the person or persons requesting the planting and the services of the Department personnel will only be for the purpose of planting the trees. No guarantee or assurance whatsoever shall be made or assumed regarding the growth or survival of the trees so planted.
- E. The planting of trees and services by the Department for such planting shall be available only during the usual working hours from April 15 through May 15; provided, however, that subject to the availability of personnel, plantings may be had at other times of the year upon request therefor. (Ord. 4716; 1968 Code § 10-25)

18-4-102: **TREES ON PUBLIC WAYS OR PROPERTY:**

- A. It shall be unlawful for any person to plant, prune, spray, remove, destroy, cut, deface or in any way injure any tree or shrub upon a public way of the City without the approval of the Director. Such approval shall not be unreasonably withheld. (1968 Code § 10-33.2)
- B. Trees, shrubs, vines and evergreens planted in public ways or parking shall be in conformity

- B) with an official list approved by the Park and Recreation Advisory Board. The Park and Recreation Advisory Board shall consider in preparing an official list the growth habits, mature size, disease resistance or other factors which minimize maintenance costs and nuisances and conform with other provisions of the ordinances of the City. Special consideration shall be given to possible interference with utility lines above such plantings. Plantings not in conformity with the approved list shall be removed by the owner or agent at the request of the Director. (Ord. 4716; Ord. 82-54; 1968 Code § 10-35)
- C. The distance between trees to be planted on public ways or parkings shall be determined by the Director so as to provide for and conform with the mature growth of the species involved. (Ord. 82-54)

18-4-103: PLANTING REQUIREMENTS: (Rep. by Ord. 82-54)

18-4-104: INSPECTION OF TREES:

- A. The Director is hereby authorized to inspect trees, shrubs, plants, vines, logs or branches and every other type of plant material on all private and public property to ascertain the condition of such plant material in relation to disease and insects detrimental to the growth, health and life of such plant material, to discover incidence of disease, and take appropriate action to preserve and restore the growth, health and life of the plant material by spraying, removing, pruning or other remedial action. With regard to such conditions which are found to exist on private property, the owner or agent of the owner of the property shall be given written notice to spray, remove, prune or take any other necessary remedial action with regard to the infested plant material within a specified period of time if in the professional judgment of the Director, such conditions are or will become injurious to other private or public plant material.¹ (Ord. 82-54)

- B. The sale or distribution of trees, vines, shrubs, scions, cuttings or grass within the corporate limits shall be in accordance with the rules, regulations, inspections and licenses of the State Department of Agriculture. (Ord. 4716; 1968 Code §§ 10-26, 10-33.1)

18-4-105: PLANTING OF APPROVED SPECIES: (Rep. by Ord. 82-54)

18-4-106: DUTY TO REPLACE TREES:

- A. In the event that a tree or shrub on City property or in a City right of way is removed, damaged or otherwise destroyed by any person, such person shall be liable to the City for the appraised value of such tree or shrub based upon the International Society of Arboriculture appraisal standards.
- B. All monies received from the above procedures as set forth in subsection A shall be deposited into a special damaged or destroyed tree and shrub fund, and shall be disbursed as set forth in Section 6-3-1001 of this Code. (Ord. 82-54)

18-4-107: DUTY TO TRIM TREES: The owner of any house, building or premises shall not permit the branches of any shade, ornamental or other tree to project over any street, avenue or sidewalk, in front of or alongside of such building or premises, lower than eight feet (8') from the surface of the sidewalk and fourteen feet (14') over the surface of the alley or street. In estimating such heights, personnel of the Department of Parks and Recreation shall take into consideration the variation of height due to normal rain, snow, sleet and foliage conditions. (Ord. 4716; Ord. 77-190; 1968 Code § 10-33.6)

18-4-108: REMOVAL OF DEAD TREES: (Rep. by Ord. 82-54)

¹ See Part 2 of this Article.

18-4-109: MAINTENANCE OF STREET PARKINGS:

- A. Definition. For the purpose of this Section, a street parking is defined as that area between the property line and the curb line.
- B. Duty of Owner to Maintain. It shall be the duty and obligation of every person in the City to keep and care for in the manner provided in this Section the street parking fronting or adjoining the premises owned by such person. Said street parking shall be maintained in an aesthetically pleasing manner in either drought tolerant plant material, grass or other plantings, stone aggregate, decorative rocks, or like materials or combination thereof with or without plantings. Vegetation shall be watered and fertilized to provide optimum growing conditions.
- C. Trees.
 - 1. Any trees planted shall be on the approved list of trees as established by the Park and Recreation Department.
 - 2. Streets designated as tree-lined shall be established and revised annually by the Park and Recreation Department. Streets so designated shall be eligible for tree planting by the City.
 - 3. The City shall provide maintenance (spraying, trimming and removal) of trees only. Prior to any maintenance, the City shall attempt to notify any contiguous property owner but the City shall not be held liable for failure to give notice.
- D. Hard Surfacing. In unusual situations where drainage or traffic problems exist, or in commercial zones or premises where public buildings or uses are involved, hard surfacing such as concrete, terrazzo, brick, flagstone, asphalt or other impervious substances may be authorized by written permit at the discretion of the Park and Recreation Department. In the event hard surfacing materials are authorized in conjunction with tree plantings, proper tree wells as determined by the Park and Recreation Department shall be constructed by the owner. (Ord. 78-142; 1968 Code §§ 10-119, 10-120)

- E. Comply with Other Provisions. Any shrubs or other plantings and the use of other materials shall comply with regulations concerning traffic safety and other provisions of this Code.
- F. Appeal. Any person aggrieved by the decision of the Director of Parks and Recreation may appeal such decision to the Park and Recreation Advisory Board and said Board may affirm, reverse or modify the decision of the Director. (Ord. 3416; 1968 Code §§ 10-121, 10-122)

18-4-110: TREE PRUNING FOR BUILDING MOVERS:

- A. If, in the process of moving any building or other object along the streets, alleys or public ways of the City, it is necessary to trim any trees, the trimming shall be done by direction of the Director and the cost of labor, material and equipment shall be paid by the person requiring the trimming. Branches over three inches (3") in diameter may not be removed unless in the opinion of the Director, removal of the limb will not impair the aesthetic value or well-being of the tree. If, in the process of moving any building, machine or other object, any tree, shrub or other planting is damaged, destroyed or removed, the replacement or repair of such shall be borne by the party moving or causing to be moved said building or other object. In the event that such work has been performed by the City, payment therefor must be made within ten (10) days after billing has been made. The Director may, in his discretion, require a bond, deposit or other security in advance of such moving to indemnify the payment of aforesaid expenses. (Ord. 4716; 1968 Code § 10-34)
- B. If, in the process of moving any building, machinery or other object along the streets, alleys or public ways of the City, the Director determines that it is necessary to remove any branch over three inches (3") in diameter or any major portion of any tree, or such branch or a portion of a tree becomes broken or damaged and must be removed as a result of the moving, the person doing or requesting the moving shall pay to the City such amounts as determined by the Director as compensation for the loss of each such branch removed plus the regular

- B) service charges for all labor and materials used in connection with the removal of the branches. All measurements to determine the size of the branches shall be made by the City. When, in the process of moving any building or other object, it is necessary to remove a tree from the streets, alleys or other public ways of the City, the value of the tree so removed shall be paid for by the person requiring its removal and the moneys received shall be used to replace as nearly as possible a planting of comparable size and value. The determination of the value of the tree shall be made by the Director and he shall consider in arriving at the value current nursery estimates including the age, variety and condition of the tree removed. (Ord. 4716; 1968 Code § 10-34.1)

18-4-111: USE OF EQUIPMENT: It shall be the duty of any person using tools on trees or shrubs to properly disinfect such tools immediately after any work done on any individual tree or shrub. Failure to so disinfect such tools shall be considered to be a misdemeanor and any person convicted of such a violation shall be punished in accordance with Section 1-2-101 of this Code. (Ord. 74-115; 1968 Code § 10-35.1)

18-4-112: TREE SERVICE LICENSE REQUIRED: A license to operate a tree service business in the City shall be obtained in accordance with Chapter 8, Article 3, Part 3, Tree Service Licenses, of this Code. (Ord. 4716; 1968 Code § 10-33)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 4 TREES AND SHRUBS

PART 2 DISEASED, NUISANCE TREES AND SHRUBS

SECTION:

- 18-4-201: Authorization
- 18-4-202: Right of Entry
- 18-4-203: Abatement; Commencement of Proceedings
- 18-4-204: The Control of Diseased, Infested, Dangerous or Nuisance Trees and Shrubs
- 18-4-205: Notice and Order
- 18-4-206: Appeals
- 18-4-207: Failure to Comply with Order to Abate
- 18-4-208: Lien Assessment
- 18-4-209: Abatement; Emergency Order
- 18-4-210: Remedies; Addition

18-4-201: **AUTHORIZATION:** The Director is hereby authorized to enforce, within the City, all provisions of this Part 2. (Ord. 82-54)

18-4-202: **RIGHT OF ENTRY:**

- A. Where the Director has reasonable cause to believe that there may exist on any premises, public or private, located within the City, any infested, diseased, dead or nuisance trees and shrubs, the Director may enter upon any such premises at any reasonable hour for the purpose of inspecting, abating, or removing or otherwise preventing any such condition which is a threat or hazard to other public or private trees and shrubs, or to the public health, safety and welfare.
- B. In the event that the owner or occupant of any premises located within the City refuses entry by the Director when such entry is sought pursuant to subsection A of this Section, the Director may make application to any Judge of the Municipal Court of the City for the issuance of an inspection warrant. Such application shall identify the premises upon which entry is sought and the purpose for which entry is desired, and shall state facts giving rise to the

- B) belief that a condition exists at such premises which is a threat or a hazard to other trees and shrubs within the City, or to the public health, safety and welfare. Any warrant issued pursuant to such application shall command such owner or occupant to permit entry by the Director for the purpose stated therein. (Ord. 82-54)

18-4-203: **ABATEMENT; COMMENCEMENT OF PROCEEDINGS:**

- A. Whenever the Director has reasonable cause to believe that there exists on any premises located within the City any diseased, infested, dangerous or nuisance trees or shrubs which are a threat and hazard to other trees and shrubs in the City, or to the public health, safety and welfare, the Director may commence proceedings to abate such condition in the manner hereinafter provided. (Ord. 82-54)

18-4-204: **THE CONTROL OF DISEASED, INFESTED, DANGEROUS OR NUISANCE TREES AND SHRUBS:**

- A. All diseased, infested, dangerous or nuisance trees and shrubs are declared to be a threat and a hazard to trees and shrubs in the City, and may constitute a safety hazard to the public health and welfare. If such trees, shrubs or parts thereof, are found to exist, the owner of the property shall be served with a notice and order by the Director to take the necessary remedial action including spraying, pruning, and if necessary, the removal of such trees, shrubs or parts thereof, within a specified period of time.
- B. It shall be unlawful to possess or transport into or within the City all or any part of trees or shrubs infected with the *Ceratocystis ulmi* fungus; provided, however, that the wood,

- B) branches and roots of such trees or shrubs may be transported to a safe place for burial under a minimum of two feet (2') of earth within ten (10) days following discovery of such infection, or to such sites and under such conditions as are approved by the Director for processing and subsequent elimination of the disease hazard.
- C. Trees or shrubs or parts thereof of the genus *Ulmus* in a dead or dying condition that may serve as a breeding place for the smaller European elm bark beetle (*Scolytus multistriatus*) are hereby declared to be a threat and hazard to all elm trees in the City. Transportation into or within the City or possession within the City of such trees or shrubs, or parts thereof, except for immediate burial or processing in a manner approved by the Director, shall be unlawful unless the bark has been completely removed.
- D. It shall be unlawful to possess or transport into or within the City all or any part of a tree infested with the mountain pine beetle, *Dendroctonus ponderosae*; provided, however, that the wood of such tree may be transported to a safe place for burial under a minimum of two feet (2') of earth following discovery of such infestation, or to such sites and under such conditions as are approved by the Director for processing and subsequent elimination of the insect hazard.
- E. It shall be the duty of the Director to order the owner or agent of the owner of any premises in the City whereon are situated any dead trees or overhanging boughs dangerous to life, limb or property, to remove the same within a reasonable time. In the event the owner or agent of the owner fails to follow the requirements of the notice and order, then it shall be the duty of the Director to remove or destroy the trees or boughs or otherwise correct the offending condition at the expense of the owner of the affected property. (Ord. 82-54)

18-4-205: NOTICE AND ORDER:

- A. The Director shall commence abatement proceedings pursuant to this Article by issuing a notice and order to the owner or agent of the owner of any premises upon which the Director has reasonable cause to believe that a condition as described in Section 18-4-204 exists.

- B. Such notice and order shall:

1. Be in writing;
2. Be personally served whenever feasible on the owner, or agent of the owner of such premises or, when such personal service is not feasible, either posted conspicuously at the premises, or mailed to such person by certified mail, return receipt requested, to his last known address;
3. Describe with reasonable particularity the condition existing on the premises which gives rise to the issuance of the notice and order;
4. Specify a reasonable period of time within which the condition must be abated or otherwise corrected; and
5. State that an appeal is available to the Arborist Board provided written application therefor is made within five (5) days of service or posting or receipt of such notice and order. (Ord. 82-54)

18-4-206: APPEALS:

- A. Any person aggrieved by any decision or order of the Director regarding the condition of trees, shrubs or plantings on private property may appeal said decision or order to the Arborist Board, provided written application therefor is made within five (5) days of service or posting or receipt of such notice and order. A hearing concerning the propriety of such notice and order shall be granted to the owner or agent of the owner or occupant of the premises. The written application shall be filed with the Secretary of the Arborist Board.
- B. At the hearing, the appellant and the City may be represented by an attorney, may present evidence, and may cross-examine witnesses. A verbatim transcript of the hearing shall be required. The decision of the Board shall be based upon competent evidence.
- C. If the decision of the Arborist Board is not favorable to the appellant, an appeal of the decision of the Arborist Board may be made to the Courts as provided by law. Such appeal shall operate as a stay of the order unless the Director shall certify in writing that a stay would cause imminent hazard to trees and shrubs

- C) within the City, or to the public health, safety and welfare. (Ord. 82-54)

18-4-207: FAILURE TO COMPLY WITH ORDER TO ABATE:

- A. It shall be unlawful for any person to fail or refuse to comply with any order issued to him pursuant to this Article. In the event that any order issued pursuant to this Article is not complied with in such reasonable time as is specified therein, the Director, after notice to the owner or agent of the owner, may request that the condition be corrected by the removal, pruning, spraying, or other approved treatment of the affected shrub or tree. The procedures outlined in Article 1 of Chapter 7 of this Code for the collection of the costs and expenses thereof shall apply independently and in addition to the penalty provided by the Code for violation of any provision of this Chapter. (Ord. 82-54)

18-4-208: LIEN ASSESSMENT: In the event that the owner or agent of the owner shall fail within thirty (30) days after billing to pay the costs and expenses for the removal, spraying, pruning, correction or abatement of the condition giving rise to the issuance of the order to abate, a lien may be assessed against the property for such costs in accordance with Article 1 of Chapter 7, of the Code. The lien created hereby shall be superior and prior to all other liens excepting liens for general and special taxes. (Ord. 82-54)

18-4-209: ABATEMENT; EMERGENCY ORDER:

- A. Whenever the Director deems that an emergency exists which requires immediate action to protect the public health, safety or welfare, or the health of trees and shrubs located within the City, he may, without prior notice or hearing, issue an order stating that such emergency exists and requiring that such action be taken as deemed necessary to meet the emergency. Notwithstanding any portion of this Article to the contrary, such order shall be effective immediately.
- B. The emergency order shall be in writing, state the location of the premises on which the

- B) condition is situated, state with reasonable specificity the condition existing thereon, and be sworn to under oath.

- C. Any person to whom such emergency order is issued shall comply therewith immediately, and it shall be unlawful to fail or refuse to so comply.
- D. In the event that the person to whom such emergency order is issued fails or refuses to immediately comply therewith, the Director may order, without prior notice to the owner, occupant or agent of the owner, that the condition be corrected by removal, spraying, pruning, or other approved treatment of the affected tree or shrub. Except as otherwise provided herein, the provisions of Sections 18-4-207 and 18-4-208 shall apply to such removal, correction or other abatement. (Ord. 82-54)

18-4-210: REMEDIES; ADDITION: The remedies provided in this Article shall be cumulative and in addition to any other remedies which may be available to the Director. Nothing contained herein shall be construed to preclude the Director from seeking such other remedies in addition to, or in lieu of, the remedies herein granted. (Ord. 82-54)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 4 TREES AND SHRUBS

PART 3 STREET TREE FEE, FUND

SECTION:

18-4-301: Fee Established
 18-4-302: Developer's Option
 18-4-303: Collection of Fee
 18-4-304: Planting Requirements

- B. Filing a letter of credit or placing into escrow such amount as to equal the fee otherwise paid; and
- C. Submitting a tree planting plan indicating the intended spacing. (Ord. 76-105; Ord. 82-54; 1968 Code § 10-33.7)

18-4-301: FEE ESTABLISHED: There is hereby established a tree planting fee which shall be set annually by resolution of the City Council. Such fee shall be required in the following zones: R through R-2, R-4, R-5 and PUD zones. The tree planting fee shall provide for the planting of one tree for each public street frontage of each lot in a single-family or two (2) family residential zone and one tree for every forty feet (40') of each public street frontage of the lots in a multi-family residential zone. All fees are to be matched by the City subject to appropriation so as to permit the planting of good quality trees and to cover costs incurred in the planting. Such City match moneys are subject to appropriation by the City Council. Waiver of any fee required may be done at the discretion of the City Forester where the lot or particular lot frontage is sufficiently forested to be in compliance with the purpose of the street tree requirement. (Ord. 80-46; Ord. 86-39; 1968 Code § 10-33.7; 1980 Code)

18-4-303: COLLECTION OF FEE: This fee shall be collected by the City upon the issuance of a building permit for the initial construction of any principal use structure on any lot platted or replatted after the effective date of this Part 3.¹ The fee shall be collected only one time per lot. It shall be placed into an escrow fund to accumulate sufficiently to provide for street tree planting projects by the City under the supervision of the City Forester. (Ord. 76-105; 1968 Code § 10-33.7)

18-4-304: PLANTING REQUIREMENTS:

Corresponding to the amount of the fee paid, one or more trees shall be planted on each lot if possible. The property owner may reject the planting of any tree by the City. No refund of the prior fee paid shall be made. The property owner, at his option may contribute prior to planting an amount in addition to the fee already paid so as to permit the planting of a larger or more expensive quality tree than otherwise intended to be planted by the City Forester.

18-4-302: DEVELOPER'S OPTION: At the option of the developer, payment of the linear foot fee may be waived in R-4, R-5, and PUD zones upon completion of all the following terms.

- A. Developer's signing an agreement to plant the required minimum number of trees of at least one inch (1") caliper, measured one foot (1') from the ground. The type shall be limited to those varieties as approved by the City Forester; and

Where the property abuts an arterial roadway, the trees shall be planted in the right of way, unless safety conditions, planting conditions or maintenance otherwise require. In the discretion of the City Forester, where existing trees, natural and artificial barriers prevent planting within the right of way or front yard setback, the trees may, with the permission of the lot owner, be planted elsewhere on the property. (Ord. 76-105; Ord. 82-54; 1968 Code § 10-33.7)

1. The effective date of this ordinance was September 14, 1976.

CHAPTER 18 PARKS AND RECREATION

ARTICLE 5 OFFENSES

PART 1 OFFENSES RELATING TO PARK PROPERTY

SECTION:

- 18-5-101: Damage to Park Property
- 18-5-102: Use of Restrooms
- 18-5-103: Construction of Buildings or Structures
- 18-5-104: Damage to Trees, Grass
- 18-5-105: Climbing on Property
- 18-5-106: Injure, Destroy Wildlife

18-5-101: DAMAGE TO PARK PROPERTY: It shall be unlawful for any unauthorized person in any manner to injure, deface, destroy, sever or remove any park property. (Ord. 4716; 1968 Code § 10-21)

18-5-102: USE OF RESTROOMS: It shall be unlawful for any person to use any restroom in any park in other than a clean and sanitary manner. No person over the age of eight (8) shall use restrooms designated for the opposite sex. Those persons eight (8) years of age or under who use the restroom of the opposite sex shall be accompanied by an adult of the proper sex. (Ord. 4716; 1968 Code § 10-21.1)

18-5-103: CONSTRUCTION OF BUILDINGS OR STRUCTURES: It shall be unlawful for any person to construct or erect any building or structure of whatever kind, whether permanent or temporary, or run or string any utility into, upon or across any park except upon special written permission issued by the Director.¹ (Ord. 4716; 1968 Code § 10-21.2)

18-5-104: DAMAGE TO TREES, GRASS: It shall be unlawful for any unauthorized person

to attach any rope, wire or other contrivance to any tree or plant in any park. It shall be unlawful to dig or otherwise disturb grass areas, or in any other way injure or impair the natural beauty or usefulness of any area in any park. (Ord. 4716; 1968 Code § 10-21.3)

18-5-105: CLIMBING ON PROPERTY:

A. Tree Climbing. It shall be unlawful for any unauthorized person to climb any tree or walk, stand or sit upon any monument, fountain, railing, fence or upon any other property not designated or customarily used for such purpose in any park. (Ord. 4716; 1968 Code § 10-21.4)

B. Rock Climbing.

1. Definitions.

a. Rock scrambling is defined as climbing on a rock formation more than ten feet (10') above the valley floor or base of the rock formation without using proper equipment.

b. Technical climbing is defined as climbing on a rock formation in parties of two (2) or more, using proper equipment, which equipment shall, as a minimum, consist of:

(1) A perlon or laid rope specifically designed and manufactured for use in climbing or mountaineering and which meet minimum Union International Alpinist Association standards which standards, as they presently exist or may hereafter be amended, are hereby incorporated by reference; and,

(2) Carabiners to clip into the fixed protection (piton previously placed in the rock) or an assortment of artificial chock

1. See Section 12-4-507 for permit to excavate in public places for purposes of taking up any service pipe; Chapter 19, Article 5, Part 2 of this Code regulating Excavations in Public Places; and Chapter 19, Article 2, Part 2 of this Code relating to Revocable Permits. Also, see the City Charter, Article XII, § 72.

B,1) stones or pitons to adequately protect the leader's ascent, and allow the climb to be safely seconded.

2. Rock scrambling is prohibited in Garden of the Gods Park and North Cheyenne Canyon Park.

3. Technical climbing is permitted in Garden of the Gods Park and North Cheyenne Canyon Park except in areas posted by the Director as nontechnical climbing areas. (Ord. 4716; 1968 Code § 10-21.5; Ord. 80-222)

18-5-106: **INJURE, DESTROY WILDLIFE:** It shall be unlawful for any unauthorized person to hunt, molest, harm, frighten, kill, trap, chase, tease, shoot or throw missiles at any animal, reptile or bird in any park. It shall be unlawful for any unauthorized person to remove or have in his possession young of any wild animal, or the eggs or nest, or young of any reptile or bird; nor shall any unauthorized person collect, remove or have in his possession, give away, sell or offer to sell, or buy, or offer to buy, or accept as a gift, a specimen alive or dead of any animal, reptile, insect or bird. (Ord. 4716) 1968 Code § 10-21.6)

*CHAPTER 18 PARKS AND RECREATION***ARTICLE 5 OFFENSES***PART 2 OFFENSES RELATING TO SANITATION***SECTION:**

18-5-201: Pollution of Park Waters

18-5-202: Refuse, Trash

18-5-203: Use of Trash Receptacles

- B. Where trash receptacles are not provided, all refuse and trash shall be carried away from the park by the person responsible for its presence and properly disposed of elsewhere.¹ (Ord. 4716; 1968 Code § 10-22.1; 1980 Code)

18-5-201: POLLUTION OF PARK WATERS: It shall be unlawful for any person to throw, discharge or otherwise place or cause to be placed in the waters of any fountain, pond, lake, stream or other body of water in or adjacent to any park or any tributary, stream, storm sewer or drain flowing into such waters, any substance, matter or thing, liquid or solid, which will or may result in the pollution of said waters in any park. (Ord. 4716; 1968 Code § 10-22)

18-5-202: REFUSE, TRASH: It shall be unlawful for any person to bring in or to dump, deposit or leave any bottles, broken glass, discarded vegetation including but not limited to Christmas trees, ashes, paper, boxes, cans, dirt, rubbish, waste, garbage or refuse, or other trash in any park. No person shall place such refuse or trash in any waters in or contiguous to any park, or leave any refuse or trash anywhere on the grounds of the park. (Ord. 4716; 1968 Code § 10-22.1)

18-5-203: USE OF TRASH RECEPTACLES:

- A. Where trash receptacles are provided in any park, all refuse and trash related to park use shall be placed therein; provided, however, residential trash and construction debris shall in no event be placed in such receptacles.

1. See Chapter 10, Article 6 of this Code.

*CHAPTER 18 PARKS AND RECREATION***ARTICLE 5 OFFENSES***PART 3 OFFENSES RELATING TO ANIMALS***SECTION:**

18-5-301: Animal Defecation

18-5-302: Dogs, Domestic Animals at Large

18-5-303: Hoofed Animals

by the Director. It shall be unlawful for any person to ride or permit to be ridden a hoofed animal in any park without a permit when said permit is required by the Director. (Ord. 78-115; 1968 Code § 10-24.24)

18-5-301: ANIMAL DEFECATION: It shall be unlawful for any person to allow any animal over which he has control to defecate upon any park land without such excrement being removed by the person in control of such animal from the park and properly disposed of elsewhere. The Director may designate areas of the parks where such rule does not apply. (Ord. 4716; 1968 Code § 10-22.2)

18-5-302: DOGS, DOMESTIC ANIMALS AT LARGE: It shall be unlawful for any person to lead or allow to be loose any animal upon park premises; provided, however, that dogs may be led or carried, but not allowed loose. Dogs may be loose but under the control of their masters in those areas which are clearly marked by signs bearing the words, "Dogs permitted without leash if under control". Nothing in this Section shall be construed as permitting the running of dogs at large. All dogs in those areas where such animals are permitted shall be under control at all times. (Ord. 4716; 1968 Code § 10-24.9)

18-5-303: HOOFED ANIMALS:¹ It shall be unlawful for any person to ride or walk any hoofed animal as defined in Section 11-1-101 of this Code in any area in any park except on trails designated as hoofed animal trails by the Director, and except on ceremonial occasions as designated

1. See also Chapter 7, Article 5 of this Code.

CHAPTER 18 PARKS AND RECREATION

ARTICLE 5 OFFENSES

PART 4 OFFENSES RELATING TO PERSONS

SECTION:

18-5-401: Swimming; Skating
 18-5-402: Picnic Areas
 18-5-403: Fires and Fireplaces
 18-5-404: Camping Restrictions
 18-5-405: Fishing; Limitations
 18-5-406: Games, Athletic Activities
 18-5-407: Conducting Business
 18-5-408: Advertising
 18-5-409: Unlawful Entry
 18-5-410: Firearms; Possession and Discharge
 18-5-411: Alcoholic Beverages
 18-5-412: Gambling
 18-5-413: Offensive Language

18-5-401: SWIMMING; SKATING: It shall be unlawful for any person to swim, bathe or wade in any waters or waterways in or adjacent to any park, except in such waters, at such places and at such times as are authorized by the Director. Any person desiring to use such waters for other activities, except boating, shall first secure a temporary park permit from the Director. No person shall frequent any waters or places customarily designated for the purpose of swimming, bathing, skin or scuba diving, or congregate thereat when such activity is prohibited by the Director upon finding that the use of such water would be dangerous to the health, welfare and safety of the public. It shall be unlawful for any person to go out onto the ice of any waters in or adjacent to any park unless such movement is permitted by the Director. (Ord. 4716; 1968 Code § 10-24)

18-5-402: PICNIC AREAS:

- A. **Designation and Use.** It shall be unlawful for any person to picnic in any park in a place that is designated for other uses by signs or by the nature of its construction. The Department of Park and Recreation personnel shall have the authority to regulate the activities in all such areas when necessary to prevent congestion and to secure the maximum use of such facilities for the comfort and convenience of all. (1968 Code § 10-24.1)
- B. **Improper Use.** It shall be unlawful for any person to use that portion of the picnic areas in any park or of any buildings or structures therein for the purpose of holding picnics to the exclusion of other persons, nor shall any person use such area and facilities for an unreasonable time if the facilities are crowded. (1968 Code § 10-24.2)
- C. **Fires, Trash and Refuse.** It shall be unlawful for any person to leave a picnic area before his fire is completely extinguished and before all refuse and trash is placed in the disposal receptacles provided. If no such trash receptacles are available, refuse and trash shall be carried away from the park area by such persons to be properly disposed of elsewhere. (Ord. 4716; 1968 Code § 10-24.5)

18-5-403: FIRES AND FIREPLACES:

- A. **Unlawful Use of Fireplaces.** It shall be unlawful for any person to build a fire in any fireplace in any park except as provided in subsection B of this Section. (Ord. 4716; Ord. 81-157; 1968 Code § 10-24.2)

- B. Fire Prohibited; Exceptions. It shall be unlawful for any person to build or attempt to build a fire in any park except in such areas and in such facilities and under such regulations as may be promulgated by the Director; provided that this prohibition shall not apply to the use of charcoal in charcoal grills for purposes of preparing a meal. No person shall drop, throw or otherwise scatter lighted matches, burning cigarettes or cigars, tobacco, paper or other inflammable material, within any park area or on any highway or road contiguous thereto. (Ord. 4716; Ord. 81-157; 1968 Code § 10-24.3)

18-5-404: CAMPING RESTRICTIONS: It shall be unlawful for any unauthorized person to camp in any park or to set up a tent, shack or any other temporary shelter which could be used for such purpose. No person shall allow any movable structure or special vehicle such as a house trailer or camper trailer under his control to remain in a park after closing. (Ord. 4716; 1968 Code § 10-24.5)

18-5-405: FISHING; LIMITATIONS: It shall be unlawful for any person to fish in any of the waters of the parks except in those areas designated by the Director. In those areas designated by the Director, it shall be unlawful for any person to catch or take more than the number of fish allowed under current State Division of Wildlife limits. The possession of more than the authorized limit by a person at or in the immediate vicinity of such designated areas shall be prima facie evidence that said fish were illegally taken by such person. (Ord. 4716; 1968 Code § 10-24.17)

18-5-406: GAMES, ATHLETIC ACTIVITIES: It shall be unlawful for any unauthorized person to take part in or abet the playing of any games involving the throwing, controlling or otherwise propelling of objects such as stones, arrows, javelins or model airplanes in any park except in areas set apart for such forms of recreation. The playing of organized games such as football, baseball or horseshoes is prohibited except on the fields and courts or areas provided therefor. (Ord. 4716; 1968 Code § 10-24.7)

18-5-407: CONDUCTING BUSINESS:

- A. Soliciting; Begging. It shall be unlawful for any person to solicit alms or contributions, or to solicit patronage for any purpose upon any park premises; provided, however, charitable, educational, nonprofit or eleemosynary institutions, organizations or associations desiring to use parks for such purposes shall first secure a temporary park permit from the Director. (1968 Code § 10-24.10)
- B. Sales; Concessions. It shall be unlawful for any person to expose or offer for sale any article or thing, or for any person to station or place any stand, cart or vehicle for the transportation, sale or display of any such article or thing upon any park premises, except those persons granted a concession by the City Council or a temporary park permit by the Director. (Ord. 4716; 1968 Code § 10-24.11)

18-5-408: ADVERTISING:

- A. By Sound. It shall be unlawful for any person to announce, advertise or call to the public attention in any way any article or service for sale or for hire in any park. (1968 Code § 10-24.12)
- B. By Sign. It shall be unlawful for any person to paste, glue, tack or otherwise post any sign, placard, advertisement or inscription whatsoever upon any park premises. No person shall erect or cause to be erected any sign whatsoever on any park premises or highway or road adjacent thereto without first having obtained a revocable permit in accordance with Chapter 19, Article 2, Part 2 of this Code. The Director is permitted to authorize signs necessary for the operation and maintenance of parks. (Ord. 4716; 1968 Code § 10-24.13)

18-5-409: UNLAWFUL ENTRY:¹ It shall be unlawful for any person to enter or

1. For hours during which the parks are closed to the public; see Section 18-2-103 of this Code; for authority of Director to close parks at any time, see Section 18-2-104 of this Code.

remain in any park area which is barricaded or posted as closed to the public, nor shall any person aid or abet the use of any area in violation of the posted notice. (Ord. 4716; 1968 Code § 10-24.14)

18-5-410: FIREARMS; POSSESSION AND DISCHARGE:

- A. Definition. For purposes of this Section firearms shall include any pistol, revolver, rifle, shotgun, air gun, gas operated gun, spring gun or B-B gun, whether loaded or unloaded.
- B. Unlawful Possession. It shall be unlawful for any person to carry or have in his possession or have under his control any firearm within any park; provided, however, that possession of firearms by members of any military company when on parade or when engaged in an official ceremony and in accordance with the command of the commanding officer, and possession of firearms by any peace officer shall not be deemed a violation hereof.
- C. Discharge of Firearm. It shall be unlawful for any person to fire or discharge any firearm within any park; provided further, that the discharge of firearms using only blank ammunition by members of any military company when on parade, or when engaged in an official ceremony, and in accordance with the command of the commanding officer, or the discharge of any firearms by a peace officer, shall not be deemed a violation hereof. (Ord. 76-74; 1968 Code § 10-24.23)

18-5-411: ALCOHOLIC BEVERAGES: It shall be unlawful for any person to bring into the park, possess or drink in any park alcoholic liquor or 3.2% beer, as those terms are defined in Chapter 9 of this Code, at any time; provided, however, that the Director may permit the importation, possession and imbibing of alcoholic liquors or 3.2% beer under the strict control and regulation of the permittee at listed pre-established locations within the parks. (Ord. 4716; Ord. 81-72; 1968 Code § 10-24.8)

18-5-412: GAMBLING: It shall be unlawful for any person to gamble, to participate or to aid and abet any games of chance in any park. For the purposes of this Section, "gambling" shall be as defined in Section 21-5-101 of this Code. (Ord. 4716; 1968 Code § 10-24.15; 1980 Code)

18-5-413: OFFENSIVE LANGUAGE: It shall be unlawful for any person to engage in loud, boisterous, threatening, abusive, insulting or indecent language which may tend to disturb the peace in any park. (Ord. 4716; 1968 Code § 10-24.16)

CHAPTER 18 PARKS AND RECREATION

ARTICLE 5 OFFENSES

PART 5 OFFENSES RELATING TO VEHICLES AND TRAFFIC

SECTION:

18-5-501: Vehicular Traffic Limited
 18-5-502: Vehicle Weight Limitations
 18-5-503: Parking Vehicles
 18-5-504: Bicycles
 18-5-505: Housemoving
 18-5-506: Funerals

- A) parking shall be in accordance with the posted directions thereof or with the instructions of any attendant who may be present. (1968 Code § 10-23.1)
- B. Improper Parking. It shall be unlawful for any person to park at any time on any road within a park so as to block vehicular traffic in either direction. (Ord. 4716; 1968 Code § 10-23.2)

18-5-501: VEHICULAR TRAFFIC LIMITED: It shall be unlawful for any person to drive any vehicle on any area except nonservice paved park roads or nonservice improved dirt park roads or in park parking areas, or such other areas as may be specifically designated as driving lanes or parking areas by the Director. (Ord. 4716; 1968 Code § 10-23)

18-5-504: BICYCLES: It shall be unlawful for any person to ride a bicycle on other than a paved or improved dirt vehicular road or path specifically designated for bicycle traffic. A bicyclist shall be permitted to walk a bicycle over any grassy area, wooded trail or on any other area reserved for pedestrian use. (Ord. 4716; 1968 Code § 10-23.3)

18-5-502: VEHICLE WEIGHT LIMITATIONS: It shall be unlawful for any person to operate any vehicle, the gross weight of which is six thousand (6,000) pounds or more, in or upon any park or portion thereof; provided, however, that this prohibition shall not be applicable to vehicles engaged in repair, maintenance or construction of the parks or the roads therein and provided further that vehicles transporting passengers are excepted from this provision. The Director may permit movement of vehicles having greater weight upon application to him for such special permission. (Ord. 4716; 1968 Code § 10-23.6)

18-5-505: HOUSEMOVING: It shall be unlawful for any person to move any building along, across or upon any park without having first obtained a permit in accordance with Section 16-3-209 of this Code. Such permit shall be issued only after approval of the Director first had and obtained. (Ord. 4716; 1968 Code § 10-23.4)

18-5-506: FUNERALS: It shall be unlawful for any funeral procession or hearse or vehicle carrying a corpse, other than an emergency vehicle, to proceed upon any park property without first having obtained a temporary park permit. (Ord. 4716; 1968 Code § 10-23.5)

18-5-503: PARKING OF VEHICLES:

- A. Parking Areas. It shall be unlawful for any person to park a vehicle in other than an established or designated parking area. Such

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 1 ADMINISTRATION

PART 1 DEPARTMENT OF PUBLIC WORKS

SECTION:

19-1-101: Definitions

19-1-102: Department Created

19-1-101: **DEFINITIONS:**¹ The following terms, as used in this Chapter, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision:

DEPARTMENT OF PUBLIC WORKS: The Department of Public Works of the City of Colorado Springs.

DIRECTOR: The Director of the Department of Public Works or his designated representative. (1980 Code)

19-1-102: **DEPARTMENT CREATED:** The Department of Public Works is created and organized pursuant to the provisions found in Chapter 2, Article 4 of this Code. (1980 Code)

1. For definitions of general application, see Section 1-1-203 of this Code.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 1 ADMINISTRATION

PART 2 PIKES PEAK HIGHWAY ADVISORY COMMISSION

SECTION:

- 19-1-201: Commission Created; Membership
- 19-1-202: Terms of Membership
- 19-1-203: Meetings; Organization
- 19-1-204: Compensation of Members
- 19-1-205: Duties and Functions

19-1-201: **COMMISSION CREATED; MEMBERSHIP:**

There is hereby created the Pikes Peak Highway Advisory Commission which shall consist of nine (9) members appointed by the City Council. One of the nine (9) members of the Commission shall be the President of the Pikes Peak Regional Clearing Banks Association or his designated representative, and another one of the nine (9) members of the Commission shall be the City Manager or his designated representative. As to the other seven (7) members it shall be the policy of the City Council to appoint such members to the Commission who have indicated or demonstrated an interest in and a willingness to take an active part in advising the City in the operation and maintenance of the Pikes Peak Highway. In order to ensure the most qualified and knowledgeable membership on the Commission, the Council may appoint such members who represent the following Pikes Peak area groups:

Financial institutions,
Manitou and Pikes Peak Railway,
Sightseeing tour companies,
Residents at large from the Pikes Peak area.

The City Council may consider the appointment of members who have previously served in an advisory capacity to the City in regard to the operation and maintenance of the Pikes Peak Highway. (Ord. 75-47; 1968 Code §§ 1-177, 1-178)

19-1-202: **TERMS OF MEMBERSHIP:**

Appointments to the Commission by

Council shall be made in such manner as to achieve staggered three (3) year terms. Any member of the Commission may be appointed to succeed himself. (Ord. 75-47; 1968 Code § 1-180)

19-1-203: **MEETINGS; ORGANIZATION:**

The Commission shall select its own chairman and it shall meet at such time and place as the chairman shall select. (Ord. 74-87; 1968 Code § 1-181)

19-1-204: **COMPENSATION OF MEMBERS:**

Members of the Commission shall serve without compensation, but shall be reimbursed for out-of-pocket expenses incurred in connection with their duties when authorized by resolution. (Ord. 74-87; 1968 Code, § 1-182)

19-1-205: **DUTIES AND FUNCTIONS:**

The Commission shall act in an advisory capacity to the City Council in all matters pertaining to the operation and maintenance of the Pikes Peak Highway and related facilities, and shall from time to time report to the City Council its recommendations as to policies for the operation and maintenance of said Pikes Peak Highway and related facilities. (Ord. 74-87; 1968 Code § 1-179)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 2 CITY PROPERTIES

PART 1 EQUIPMENT POOL

SECTION:

- 19-2-101: Equipment Pool Authorized
- 19-2-102: Title to Equipment
- 19-2-103: Equipment Pool Fund
- 19-2-104: Rental of Equipment

19-2-101: EQUIPMENT POOL AUTHORIZED:

The City Manager is hereby authorized to establish an equipment pool, sometimes herein called "pool", for City construction and automotive equipment, and he is further authorized to transfer and place in said pool from time to time such construction, automotive and other equipment, as he deems proper through budgetary procedures, directives or other appropriate means. Such equipment shall remain in the pool unless withdrawn by the City Manager or his designated representative, sold or otherwise disposed of. (Ord. 2710; 1968 Code § 1-80)

19-2-102: TITLE TO EQUIPMENT: Title to the equipment placed in the equipment pool shall remain in the City; provided, however, the dominion, assignment and control of said equipments, including the use, maintenance and replacement thereof, shall be vested in the City Manager or his designated representative. (Ord. 2710; 1968 Code § 1-82)

19-2-103: EQUIPMENT POOL FUND: All rentals, moneys from the sale of equipment and other revenues received from the operation of the pool shall be placed in a fund hereby authorized, to be known as Equipment Pool Fund. Inasmuch as the moneys in said fund will be derived from the operation of the pool and for the purposes as aforesaid, the said moneys shall be retained in the Fund and carried over from year to year to be used only for expenses in the operation of the pool including replacement of and acquisition of

additional equipment. Provision for the operation of the pool, appropriations and other fiscal procedures relating thereto shall be incorporated in the annual budgets and appropriation ordinances, but moneys from the Equipment Pool Fund shall not be appropriated, taken or used for purposes other than in connection with the equipment pool, nor shall said moneys be transferred to the General Fund of the City. (Ord. 2710; 1968 Code § 1-84)

19-2-104: RENTAL OF EQUIPMENT:

- A. The City Manager or his designated representative, shall be responsible for the repair, maintenance and replacement of the equipment so transferred and placed in the pool and shall have authority to charge for the use of said equipment or any part thereof, or rent the same to any City department on such hourly, monthly or annual basis as may be determined.
- B. The rental rates so established shall be approved by the City Manager or his designated representative and will be of such amount as to provide for the repair and maintenance of the equipment, fuel, administrative costs, storage, amortization and other like expenses. (Ord. 2710; 1968 Code § 1-81)
- C. In renting or authorizing the use of said equipment for the rates and charges as established, the equipment pool will not provide operators for the equipment but will designate or approve the operators from the City departments to which the equipment is rented.
- D. The City Manager or his designated representative may adopt rules and regulations for the general operation of the pool. (Ord. 2710; 1968 Code § 1-83)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 2 CITY PROPERTIES

PART 2 USE AND OCCUPANCY OF PUBLIC PROPERTY

SECTION:

- 19-2-201: Permits Required
- 19-2-202: Application for Permit
- 19-2-203: Insurance Required
- 19-2-204: Permit Fees; Renewals
- 19-2-205: Permit Term; Expiration Date
- 19-2-206: Issuance of Permit; Filing
- 19-2-207: Assignment of Permit
- 19-2-208: Indemnification
- 19-2-209: Additional Provisions or Conditions
- 19-2-210: Compliance With Laws
- 19-2-211: Permit Site
- 19-2-212: Use and Occupancy of Public Property
- 19-2-213: Subsurface Use
- 19-2-214: Surface Uses
- 19-2-215: Spaces Above Surface of Public Property
- 19-2-216: Revocation of Permits
- 19-2-217: Appeal Procedures
- 19-2-218: Obstruction on Public Ways Prohibited;
Removal

19-2-201: **PERMITS REQUIRED:** The space below the surface, upon the surface, and above the surface of public property may be used and occupied for any purpose not inconsistent with the provisions of this Part 2, other provisions of this Code, or other laws or ordinances regulating the use and occupancy of such public property; provided, however, it shall be unlawful for any person to use or occupy such space, whether below, upon or above the surface of public property, or to construct any device or structure thereupon as hereinafter set forth except by and under the authority of a revocable permit in writing first granted by the City Council or City Manager and issued by the City Clerk. (Ord. 4466; 1968 Code, § 10-143)

19-2-202: **APPLICATION FOR PERMIT:** An application for a revocable permit shall be filed with the City Clerk on a form or forms prepared by said City Clerk. (Ord. 4466; 1968 Code § 10-145)

19-2-203: **INSURANCE REQUIRED:**

- A. No revocable permit shall issue until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the licensee with the City also named as insured:

Bodily Injury:	
Each person	\$300,000.00
Each accident	300,000.00

Property Damage	
Each accident	\$ 50,000.00
Aggregate	100,000.00

- B. Each such policy of insurance shall contain an endorsement to the effect that the insurance carrier shall notify the City Clerk at least thirty (30) days in advance of the effective date of any reduction or cancellation of the policy. The cancellation or reduction of insurance coverage shall be cause for automatic suspension of the permit until the coverage shall be reinstated. All policies shall be kept in force for the period of the permit. (Ord. 4765; 1968 Code § 10-146; 1980 Code)

19-2-204: **PERMIT FEES; RENEWALS:** The cost of each permit to cover cost of investigation and filing and not as rental for use of City property shall be ten dollars (\$10.00) for an initial revocable permit and one dollar (\$1.00) for renewal of said permit payable to the City Clerk upon issuance, and such shall not be refundable or prorable in the event of suspension or revocation. (Ord. 4765; 1968 Code § 10-148)

All revocable permits shall be renewable unless expressly declared to be nonrenewable on the face of the permit. Renewal shall be obtained from the City Clerk upon payment of the required fee if the City Clerk has not received any objections in writing concerning the revocable permit. If such objections are received, the City Manager shall review the renewal request to determine whether the public interest will be jeopardized by renewal of the permit.

If he finds that the public interest is jeopardized, he shall refuse to renew the permit, subject to appeal to the City Council hereinafter provided. (Ord. 4466; 1968 Code, § 10-150)

19-2-205: PERMIT TERM; EXPIRATION DATE:

No revocable permit shall be for a term longer than one year. All revocable permits shall expire on the last day of December of each year. Renewal of revocable permits shall be requested prior to the last day of December. If no request is made for renewal, such use, device or structure occupying public property shall be considered to have been discontinued, and if still remaining, will be removed at the expense of the permittee. An additional fee of ten dollars (\$10.00) will be charged for each late renewal. (Ord. 4466; 1968 Code, § 10-149)

19-2-206: ISSUANCE OF PERMIT; FILING:

Upon finding that the application is in proper form and that all other conditions and requirements of this Part 2 have been met, the City Manager shall grant a revocable permit. The City Clerk shall countersign and issue such permit in writing and shall keep a file of all such permits in his office. (Ord. 4466; 1968 Code, § 10-158)

19-2-207: ASSIGNMENT OF PERMIT: There shall be no assignment of any revocable permit, except by express authorization in writing by the City Manager or the City Council. Such authorization shall not be withheld if the assignee complies with all the requirements of this Part 2. (Ord. 4466; 1968 Code, § 10-151)

19-2-208: INDEMNIFICATION: The permittee shall be responsible for any and all damages to property or injury to persons arising out of the exercise of the permit or the construction or installation of any device or structure thereunto appertaining, including the maintenance thereof, and the permittee shall indemnify and save harmless the City and all its officers, agents and employees from all suits, actions or claims of any character, name and description brought for or on account of any injuries or damages received or sustained by any person or persons or property on account of the exercise of the permit or of any act or omission of the permittee thereunder, his agents or employees or on

account of the failure of the permittee to maintain the structure or device or to provide necessary safety devices to ensure the safety of the public; and the permittee shall defend against any such suit, action or claim and pay any judgment, with costs, which may be obtained against the City, its officers, agents or employees growing out of such injury or damage. (Ord. 4466; 1968 Code § 10-147)

19-2-209: ADDITIONAL PROVISIONS OR CONDITIONS:

The City Manager is authorized to impose on the permittee at any time additional conditions or provisions relating to the revocable permit for the use or occupancy of public property that are reasonable and necessary to protect the public health, safety and welfare. Without limiting the generality of the foregoing, the City Manager may consider the requirement of a bond or cash deposit to assure the removal of any device or structure at the expiration or in the event of revocation of the permit, or to assure the completion of the work within the required time or restore the surface of the public space to the former conditions upon completion of installation of the structure or device for which the permit is requested. (Ord. 4466; 1968 Code, § 10-159)

The City Manager is authorized to waive any of the provisions or conditions of this Article in respect to any revocable permit requested by any charitable, educational, nonprofit or eleemosynary institution, organization or association whose request for a revocable permit is for a temporary use, device or structure; provided, however, that the City Manager may not waive the insurance requirements without express approval of the City Council. (Ord. 4466; 1968 Code, § 10-160)

19-2-210: COMPLIANCE WITH LAWS: The permittee shall inform himself, and keep fully informed, and comply with all Federal and State laws, municipal laws and ordinances, the Charter of the City, and all rules and regulations, including but not by way of limitation, the various construction codes of the City as the same may be now or hereafter amended.¹ The permittee shall at all times protect and indemnify the City, its officers, agents and employees against any claim of liability arising from or based on violations of such laws, ordinances or regulations caused by any actions or omissions of the permittee arising out of the exercise of the permit. (Ord. 4466; 1968 Code, § 10-152)

1. For adoption by reference of building and constructions codes, see Chapter 16, Article 2 of this Code.

19-2-211: PERMIT SITE: The site or sites of the permitted use or occupancy or both shall have adequate safeguards to protect the public against damage or injury, and shall be kept in a clean and orderly manner. Failure to maintain a safe, clean and orderly site shall be cause for suspension of the permit pending correction of the cause of suspension or revocation if such fault be continued or of aggravated nature. (Ord. 4466; 1968 Code, § 10-153)

19-2-212: USE AND OCCUPANCY OF PUBLIC PROPERTY CLASSIFIED: The use and occupancy of public property for which revocable permits may be issued is classified in three (3) categories: First, Spaces Below the Surface of Public Property, (Section 19-2-213); second, The Surface of Public Property, (Section 19-2-214), and third, Spaces Above the Surface of Public Property, (Section 19-2-215). (Ord. 4466; 1968 Code, § 10-154)

19-2-213: SUBSURFACE USE:

- A. The space below the surface of public property may be used and occupied in connection with the use of the adjoining private property or for uses in the public interest not inconsistent with the provisions of this Part 2 or other laws and ordinances regulating the use of such property, provided, no use shall be authorized which will interfere with any existing or proposed underground utility line or installation or other lawfully existing underground installation. "Proposed" means scheduled for installation within the following twelve (12) month period.
- B. The person or persons desiring a revocable permit for the use of subsurface space shall submit with the application detailed plans including but not limited to:
 - 1. The exact location, size, dimensions, apertures, ventilation and landscaping of the underground structure or device;
 - 2. The period of excavation and space required for excavation;
 - 3. A description of protective and safety devices to be used during the excavation, including but not limited to barricades, warning lights and directional signs;

- B) 4. The legal description of adjoining land to be served by the permit, if pertinent.

The issuance of a revocable permit shall not relieve the permittee of the obligation to obtain from the department having jurisdiction all required permits and to pay the required fees therefor, all in accordance with applicable City ordinances.

- C. The permittee shall pay for the installation and construction of any structure or device below the surface of public property, and shall pay all costs and expenses attendant to the removal of such structure or device and backfilling of such space in the event the permit is rescinded.
- D. Openings from the spaces below the surface of public property shall be covered so as to prevent damage or injury. The permittee may open access to the space below the surface of public property at any time as long as there are adequate safeguards to protect the public from damage or injury, and the time of opening does not inconvenience the public. It shall be unlawful to leave open any aperture to the space below so as to endanger persons, animals or vehicles.¹ Ventilation shall be by means of grates or other devices so as not to endanger persons or property.
- E. The entire construction or installation shall be subject to the direction and approval of the City Manager.
- F. A revocable permit may be issued for the following:
 - 1. Vaults.
 - 2. Storage Tanks. Fire Department approval is required for storage of flammables.
 - 3. Equipment or material drops.
 - 4. Any other lawful similar uses or occupancies as determined by the City Manager.
- G. All permittees of subsurface uses now existing shall be required to comply with this Article upon renewal of permit; except that plans need not be submitted. (Ord. 4466; 1968 Code § 10-155)

1. See Section 21-2-106 of this Code.

19-2-214: SURFACE USES:¹

- A. The surface of public property may be used and occupied for any purpose not inconsistent with the provisions of this Part 2, Code or other laws and ordinances regulating the use of such property.
- B. The person or persons desiring revocable permits to use the surface of public property shall submit with the application detailed plans and descriptions, including but not limited to the installation, construction, size and location of the structure or device and the purpose thereof.
- C. The permittee shall pay all costs for the installation and construction of any structure on public property, and further, shall pay all costs and expenses attendant to the removal of such device, structure or use in the event the permit is rescinded.
- D. The construction or installation of a device or structure on the surface of public property shall be subject to the direction of the City Manager or his designated representative.
- E. A revocable permit may be issued for the following uses, structures or devices:
 - 1. Bicycle parking racks.
 - 2. Newspaper or other vending machines that serve the public interest in a similar manner.
 - 3. Benches.²
 - 4. Telephone booths.
 - 5. Flagpoles.
 - 6. Trees and shrubbery.
 - 7. Collection booths or kiosks (charitable).
 - 8. Curbside teller or business services.
 - 9. Recessed curbs.
 - 10. Conduct of TV and radio interviews.

E) 11. Canopies.

12. Conduct of promotion, sidewalk, or street sales and similar activities. A single permit may be issued to an association or group sponsoring such activity, provided all addresses or locations represented by the group shall appear on the application and the permit.

13. Any other lawful similar uses or occupancies as determined by the City Manager.

F. The following conditions as well as the other conditions in this Article, shall apply to each of the above-listed uses, structures and devices:

1. No device or structure shall be so located or used so as to:

a. Interrupt the normal flow of vehicular or pedestrian traffic;

b. Interfere with the public's normal use of the public property upon which the structure, device or use is permitted, such as the overhang of diagonally parked automobiles or the door-opening radius of parallel parked automobiles;

c. Interfere with any other device or structure lawfully existing thereon, such as parking meters, water meters, curb cuts, bus stops, etc.

The device, structure or use shall not occupy more than one-fifth ($\frac{1}{5}$) of the width of any paved sidewalk. Whenever possible, devices and structures shall be installed on unpaved or unused areas of sidewalks or in connection with other devices or structures already installed which break the flow of pedestrian traffic.

2. Any device or structure shall be installed in such a manner so as to prevent it from being dislodged by any natural force such as wind or any manmade force such as an act of vandalism.

1. The most recently adopted edition of the Uniform Building Code permits the temporary use of public property during construction or demolition. No revocable permits are required for such activities unless there is a deviation from the Uniform Building Code, as amended and modified.

2. See Section 14-9-207 of this Code for regulations concerning benches at bus stops.

- F) 3. Devices and structures permitted shall be so constructed as to reduce so far as is feasible sharp edges or protrusions that could cause injury to persons or damage to property. Devices and structures shall be easily visible and recognizable with regard to the available light from street lighting and light emanating from adjoining property during periods of darkness.
4. Devices and structures shall be installed so as to eliminate the collection of litter under and upon the same, insofar as possible, and to facilitate cleaning of the adjacent area of litter and snow.
- G. All permittees with uses, devices or structures now existing shall be required to comply with the provisions of this Article; except for the submission of plans. (Ord. 4466; Ord. 81-244; 1968 Code, § 10-156)

19-2-215: SPACES ABOVE SURFACE OF PUBLIC PROPERTY:

- A. The space above the surface of public property may be used and occupied in connection with the use of adjoining private property or for uses in the public interest not inconsistent with the provisions of this Article, this Code or other laws and ordinances regulating the use of such property.¹
- B. The person or persons desiring a revocable permit shall submit with the application detailed plans including but not limited to the exact location, size, dimensions and access to the aboveground device or structure.
- C. The permittee shall pay for the construction and installation of any device or structure above the surface of public property, and further, shall pay all costs attendant on removing the device or structure in the event the permit is rescinded.
- D. The construction or installation of the device or structure above the surface of public property shall be subject to the direction of the City Manager or his designated representative.
- E. A revocable permit may be issued for the following uses, structures or devices:

- E) 1. Any other lawful similar uses or occupancy to those permitted by the Uniform Building Code and Uniform Sign Code as determined by the City Manager, provided no device or structure of a permanent nature shall extend beyond the curb line regardless of the height of the structure, and provided further, no such use, structure or device shall interfere with any existing or proposed overhead utility line or other lawfully existing use or structure. "Proposed" means scheduled for installation within the following twelve (12) month period.
- F. All permittees with devices, structures or uses now existing shall be required to comply with this Article upon renewal of permit; provided, however, that plans need not be submitted. (1968 Code, § 10-157)

19-2-216: REVOCATION OF PERMITS: Any revocable permit may be revoked by the City Council at its pleasure in accordance with Section 72 of the City Charter. The City Manager is hereby authorized to revoke any revocable permit if such action is deemed by him to be necessary to protect the public safety, necessity or convenience in the use of public property. He shall give notice in writing to the permittee at least fourteen (14) days before the effective date of revocation in order to allow permittee to appeal to City Council in accordance with Section 19-2-217 of this Part 2. Such notice requirement shall not limit the power of the City Manager to summarily revoke any revocable permit if there is a present existing or imminent danger to the public health, safety or welfare. (Ord. 4466; 1968 Code, § 10-144)

19-2-217: APPEAL PROCEDURES: Any applicant for a revocable permit or any person protesting such application who is aggrieved by the action or decision of the City Manager may appeal such action or decision to the City Council. The appeal shall be in writing, shall be executed by the appellant, his agent or attorney, in duplicate, shall state and specify briefly the grounds for the appeal, and shall be filed with the City Clerk within ten (10) days after the action or decision appealed. The City Council shall then give public notice of the appeal and hold a public hearing. The hearing shall be de novo and all facts and circumstances shall be heard and considered. At the conclusion of the hearing

1. The Uniform Building Code and the Uniform Sign Code adopted by reference by this Code set forth permitted structures, appendages or signs and regulations thereof that may permanently occupy the space above the surface of public property. No revocable permits are required for such structures, appendages or signs unless there is to be a deviation from the Uniform Building Code or Uniform Sign Code. See Sections 16-2-102 and 16-2-302 of this Code.

the Council may deny or revoke the permit, order changes in the conditions and provisions of the permit, or order the issuance, continuance or renewal of the permit. (Ord. 4466; 1968 Code, § 10-161)

**19-2-218: OBSTRUCTION ON PUBLIC WAYS
PROHIBITED; REMOVAL:**

- A. It shall be unlawful for any person to place upon or construct upon any sidewalk, street, alley or other public way or upon any natural watercourse or improved drainway any encumbrance or obstruction, such as but not limited to, earthfill, building materials, fences, platforms, stairs, signs, signposts, railings or barricades (hereafter "offending object"), except under the terms of a revocable permit as provided in this Article.
- B. The City Manager shall notify in writing the owner, agent or person responsible for the placing or construction of such offending object to remove the same within a reasonable time and restore the public way to its former state. If the offending object has not been removed at the expiration of the time stated in the notice, the City Manager shall cause the same to be removed and stored and all necessary correction work performed to restore the public way or watercourse to its former state, all at the expense of the owner.
- C. If within thirty (30) days the offending object has not been reclaimed and all costs of removal and restoration of the public way paid, the same shall be presumed to have been abandoned and the City Manager may declare the same to be City property. Thereafter, the same may be used or disposed of in the same manner as other City property.¹ (1980 Code)

1. See Section 6-1-205 of this Code for method of disposition of City property.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 1 CEMETERY ADVISORY BOARD

SECTION:

- 19-3-101: Board Created; Membership
- 19-3-102: Terms of Membership
- 19-3-103: Meetings; Organization
- 19-3-104: Duties and Functions

within the minutes shall be transmitted to the City Council by the City Manager. The Board shall also file with the City Manager on or before January 1 of each year a written annual report of the activities and recommendations of the Board for the previous twelve (12) months. (Ord. 75-121; 1968 Code § 1-185)

19-3-101: BOARD CREATED; MEMBERSHIP:

There is hereby created the Cemetery Advisory Board which shall consist of seven (7) members appointed by the City Council. It shall be the policy of the City Council to appoint such members to the Board who have indicated or demonstrated an interest in and a willingness to take an active part in advising the City in the operation and maintenance of the City-owned cemeteries. (Ord. 75-121; 1968 Code §§ 1-183, 1-184)

19-3-102: TERMS OF MEMBERSHIP:

Appointments to the Board shall be made in such manner as to achieve staggered three (3) year terms. Any member of the Board may be appointed to succeed himself. (Ord. 75-121; 1968 Code § 1-186)

19-3-103: MEETINGS; ORGANIZATION:

The Board shall select its own chairman, and it shall meet at such time and place as the chairman shall select. (Ord. 75-121; 1968 Code § 1-187)

19-3-104: DUTIES AND FUNCTIONS:

The Board shall act in an advisory capacity to the City Council and the City Manager in all fiscal policies, including fees and charges, the operation, use, maintenance, improvements, expansion and other matters relating to the City-owned cemeteries. The Board shall file with the City Manager within ten (10) days after each meeting a copy of the minutes of said meeting. Any and all recommendations included

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 2 DEFINITIONS

SECTION:

19-3-201: Definitions

19-3-201: DEFINITIONS:¹ The following terms as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

BLOCK: Portion of a cemetery which is usually defined by roads or other boundaries around its perimeter and which is divided into lots and spaces.

BURIAL: The permanent disposition of human remains by burial, entombment or inurnment.

BURIAL RIGHT; INTERMENT RIGHT: The right to inter in a burial space; this right is not title to the land, but merely a right to be buried in a described space.

BURIAL SPACE: A grave space, crypt space or niche, including, if available, double depth spaces for burial of two (2) or more coffins with one on top of the other, used or intended to be used for the burial of human remains.

CEMETERY; CEMETERIES: A place of burial for earth interments, mausoleum for crypt entombments, a columbarium for cinerary interments, or a combination of more than one thereof.

CERTIFICATE OF OWNERSHIP: A written document issued by the City to a purchaser of a grave space, which document evidences ownership of a right to be buried in a specific grave space.

CITY CEMETERIES: Cemeteries owned and operated by the City; they are Fairview and Evergreen Cemeteries.²

CITY CEMETERIES SUPERINTENDENT; SUPERINTENDENT: That position, regardless of any

other title, which is in effect in control and supervision of the cemeteries.

FAMILY: Those persons residing in one household or descended from a common ancestor.

GRAVE SPACE: A space of ground sufficient in size for burial of the remains of one adult or infant, as specified by cemetery plat. See also, burial space.

HOLIDAYS: New Year's Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving, Christmas.

IMMEDIATE FAMILY: Husband and wife and their children, whether living together or not.

INTERMENT: The permanent disposition of human remains by burial, entombment or inurnment. See also burial.

LOTS: A unit of purchase which may contain either four (4), six (6) or eight (8) burial spaces as specified for the particular block.

MARKER: One-piece stones which are customarily used to mark individual graves.

MAUSOLEUM and SARCOPHAGUS: Structures for aboveground interment.

MEMORIAL: A generic term which includes a marker, monument, mausoleum, crypt, urn, niche plate or other physical object used to identify the occupant of the grave space.

MONOLITH: One-piece memorials of a particular design, usually a tall stone of narrow width and depth.

MONUMENT: Memorials of more than one piece.

NEAREST OF KIN: Relatives of deceased as determined according to the Colorado laws of intestacy. (Ord. 77-110; 1968 Code § 12-135)

1. For definitions of general application, see Section 1-1-203 of this Code.

2. See Section 19-3-301 of this Code.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 3 GENERAL PROVISIONS

SECTION:

- 19-3-301: City Cemeteries Designated
- 19-3-302: Administration and Supervision of Cemetery
- 19-3-303: Rules and Regulations Governing Cemeteries
- 19-3-304: Ownership
- 19-3-305: Control of Work
- 19-3-306: Rights of City Reserved
- 19-3-307: Burial in Unauthorized Place Forbidden

19-3-301: CITY CEMETERIES DESIGNATED: "Evergreen Cemetery" and "Fairview Cemetery" have been and shall continue to be designated City cemeteries. These cemeteries, and all additions that may hereafter be made thereto respectively, are hereby set apart and shall be maintained forever for the burial of the dead. (Ord. 77-110; 1968 Code § 12-136)

19-3-302: ADMINISTRATION AND SUPERVISION OF CEMETERY: The administration and supervision of the City cemeteries shall be by direction of the Director of Public Works¹ through a City Cemeteries Superintendent appointed by him, who will employ such other persons as may be necessary for the care and maintenance of the City-owned cemeteries. (Ord. 77-110; 1968 Code § 12-137)

19-3-303: RULES AND REGULATIONS GOVERNING CEMETERIES: With the advice of the Cemetery Advisory Board,² the City Council shall adopt rules and regulations consistent with the provisions of this Article governing the cemeteries, which rules and regulations shall be on file and available for public examination in the office of the City Clerk. (Ord. 77-110; 1968 Code § 12-138)

19-3-304: OWNERSHIP: The City retains to itself, for the benefit of all burial space owners,

full and complete supervision, control and management of the lands, buildings, improvements, roads, walks, utilities, development, books and records and the full and complete authority, rights and privileges to make, change, administer and enforce all ordinances, rules, regulations and restrictions. Sale by the City of a burial right does not transfer real estate title to the purchaser. (Ord. 77-110; 1968 Code § 12-139)

19-3-305: CONTROL OF WORK: All grading, landscape work and improvements of any kind, and all care of burial spaces shall be done, and all trees, shrubs and herbage of any kind shall be planted, trimmed, cut or removed, and all openings and closings of graves, and all interments, disinterments and removals shall be made only under the supervision of the Superintendent of the Cemeteries. (Ord. 77-110; 1968 Code § 12-140)

19-3-306: RIGHTS OF CITY RESERVED:

A. Right to Replat. The right to enlarge, replat, reduce or change the boundaries or grading of the cemeteries or of any section or sections or any parkways therein from time to time, including the right to modify or change the location of, or remove, or regrade roads, drives, walks, parkways, gardens or any part thereof, is hereby expressly reserved to the City. (Ord. 77-110; 1968 Code § 12-141)

B. Right to Install and Change Drainage. The right to lay, maintain and operate, or to alter or change pipe lines, or gutters for irrigation systems, drainage, lakes or any other water courses in any part of the cemeteries, is expressly reserved to the City. (Ord. 77-110; 1968 Code § 12-142)

19-3-307: BURIAL IN UNAUTHORIZED PLACE FORBIDDEN: It shall be unlawful for any person to bury or cause or permit to be buried within the corporate limits of the City the body of any dead person, except in such cemeteries or burial grounds

1. See Section 2-4-101 of this Code.

2. See Article 3, Part 1 of this Chapter.

as may hereafter be authorized and designated by
the City Council. (Ord. 487; 1968 Code § 11-87)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 4 SALE OF LOTS AND SPACES

SECTION:

- 19-3-401: Sale of Lots, Certificates of Ownership
- 19-3-402: Records
- 19-3-403: Funds, Disposition
- 19-3-404: Installment Purchases
- 19-3-405: Perpetual Care
- 19-3-406: Property Rights of Burial Space Owners
- 19-3-407: Transfer of Ownership
- 19-3-408: Abandoned Burial Spaces

19-3-401: SALE OF LOTS, CERTIFICATES OF OWNERSHIP: The City Clerk shall keep an accurate record of all burial spaces in the cemeteries. The Superintendent of Cemeteries shall sell burial spaces at such price or prices as may be directed by the City Council and contained in the rules and regulations for the City cemeteries. The City Clerk shall issue a certificate of ownership to the purchaser of each burial space, which certificate shall contain a description of the burial space, purchase price and the name and address of the space owner. The certificate shall state that it represents only a right to be buried and in no way conveys a title to the real estate, and shall state:

- A. The ownership of that right is not transferable without the approval of the City Clerk and the reissuance of a new certificate of ownership to the new owner; except that transfer of ownership may be effected by will or intestacy as provided for in Section 19-3-407 hereof.
- B. Any transfer of ownership by will or applicable laws of intestacy shall be reported to the City Clerk.
- C. All changes in address of the owner shall be reported to the City Clerk.
- D. A portion of the purchase price, such portion to be specified, shall be deposited into a trust fund and held as a permanent fund with the income of the fund to be devoted to the perpetual care

- D) and keeping of the burial space so endowed, except for spaces in areas platted for the burial of poor persons.

The certificate shall be signed with a facsimile of the Mayor's signature and attested by the signature of the Clerk under the Seal of the City. (Ord. 77-110; 1968 Code § 12-143)

19-3-402: RECORDS: Records of the Clerk, other than the certificate as provided for in Section 19-3-401 above, shall show the date of purchase, the name of the purchaser, the description designating the burial spaces purchased, and the purchase price. Indexing shall permit determination of location of the burial space by location as well as by owner's name.

- A. Certificates of purchase, as authorized by Ordinance 1284, are evidence of ownership of a right to be buried in spaces listed on the certificate of purchase. After the effective date¹ of this Chapter, certificates of purchase shall not be issued by the City. In lieu thereof, certificates of ownership shall be issued.
- B. Owners permits (aka "Blue Slips") have been given to owners of certificates of purchase for their use in authorizing others to be buried in a particular space. After the effective date of this Chapter, no owners' permits shall be given. In lieu of owners' permits, a consent to bury shall be in accordance with Section 19-3-406C of this Part 4.
- C. Certificates of purchase existing prior to the effective date of this Chapter shall remain valid, and all existing (i.e., dated prior to the effective date of this Chapter) owners' permits (blue slips) shall be deemed to be valid as mere assignments, and not as transfers of title of the grave spaces enumerated thereon. No owners' permits shall be used by the owner of a certificate of ownership (as distinguished from a certificate of purchase) to transfer or assign a burial right.

1. Ordinance 77-110, from which this Section derives, became effective August 9, 1977.

- D. The owner of a certificate of purchase seeking to sell or give outright one or more spaces to another shall apply for and obtain a certificate of ownership from the City Clerk in the name of the other person. Upon submission of an application for a transfer of the burial space, the certificate of purchase along with the endowment contract, if any, shall be returned to the City Clerk. If any spaces enumerated on the certificate of purchase are to be retained by the applicant, then certificates of ownership shall be issued for each retained space in the name of the owner.

1. Upon application for the above exchange of a certificate of purchase for appropriate certificates of ownership, the applicant shall provide the following information:

- a. The grave spaces he owns;
- b. The spaces then used, if any;
- c. The number of owners' permits he has given to others, for which space, and to whom given;
- d. The number of owners' permits which have been returned to him and voided;
- e. Which owners' permits have been returned to him for the Clerk's reissuance in the form of a certificate of ownership for the particular space;
- f. Which owners' permits are still outstanding;
- g. Which spaces are now endowed; and, stating further,
- h. That the owner truthfully believes he owns and fully controls the spaces for which he is applying for certificates of ownership and that he does indemnify the City as to all costs should any person(s) other than the transferee named in the owner's application subsequently present an owners' permit or certificate of purchase for the same space(s).

2. Upon submission of a complete application, the City Clerk shall investigate and determine:

- a. If any spaces for which certificates of ownership are sought are filled;

- D,2) b. If any owners' permits for applicant's spaces are held by persons or firms other than the certificate of purchase holder.

The Clerk shall then issue the certificates of ownership to the persons indicated by the owner; however, any title impairment affecting the ownership of the burial right shall be noted upon the respective certificate of ownership by the Clerk. If any space is unendowed (except in areas platted for burial of poor persons), then the endowment then payable shall be paid prior to the reissuance of the new certificate of ownership. A record containing the application, the investigation results, and a copy of the certificate of ownership along with the notations, if any, thereon shall be retained by the Clerk.

- E. The City may purchase back any unused certificate of purchase or any unused portion thereof. The City Clerk shall purchase only those spaces for which title is reasonably clear. The Clerk shall require an application as provided for in subsection D of this Section. Upon submission of a completed application to the Clerk and upon completion of the Clerk's own investigation, the Clerk shall purchase the certificate of purchase or any number of spaces identified on the certificate, except that the Clerk shall not purchase spaces already filled, nor spaces where an apparently valid owners' permit remains outstanding. The purchase price shall be the original purchase price (exclusive of the endowment fee) of the grave space. Interest at the rate of three percent (3%) per annum, compounded annually since date of purchase shall be added. The buyback price to be paid by the City shall not exceed the City Council established selling price for new spaces, less the amount contributed to endowment.
- F. Existing owners' permits (blue slips) which have been issued by owners of certificates of purchase and which are for burial spaces not used shall remain valid as assignments of the right to burial in the space designated.
- G. Certificate of purchase and ownership holders may consent to the burial of any deceased person. Such consent shall be given in accordance with Section 19-3-406C of this Code. (Ord. 77-110; 1968 Code § 12-143)

19-3-403: FUNDS, DISPOSITION: All moneys except moneys received for perpetual care endowments in accordance with Section 19-3-405B received from the sale of spaces in said cemeteries shall be held by the City Treasurer and expended as shall be directed by the Council for the maintenance, improvement, beautification and enlargement of said cemeteries and for no other purpose. (Ord. 77-110; 1968 Code § 12-144)

19-3-404: INSTALLMENT PURCHASES: The purchase prices herein specified and the endowments for the lot(s) or space(s) purchased thereunder may be paid in installments provided that the purchaser shall enter into a written contract wherein it is agreed that the number of installments shall not exceed four (4) nor extend over a period of more than one year; that no interest shall be added by the City to the purchase price; that at least eight and one-half percent (8½%) of the installment purchase price shall be paid in cash at the time of the execution of said contract, and failure to pay any installment for a period of six (6) months shall terminate said contract, together with any legal interest of the purchaser therein, and invest all payments previously made thereunder absolutely in the City. Notice of termination for failure of payments shall be given by the City to the purchaser's last known address. Until payment is completed in full, no certificate of ownership shall be issued to the lot(s) or space(s) described in said contract, nor shall any burial be allowed on such lot(s) or space(s). (Ord. 77-110; 1968 Code § 12-145)

19-3-405: PERPETUAL CARE:

A. Charge for Perpetual Endowment. All grave spaces in the City cemeteries, except in areas platted for burial of poor persons, conveyed after the passage of this Section shall be perpetually cared for by the City.

1. An amount comprising fifteen percent (15%) of the sales price of any burial space, crypt or niche shall be deposited in an endowment trust fund within thirty (30) days after receipt of the purchase price.

2. Except for areas platted for the burial of poor persons, lot owners holding certificates of purchase and without a certificate of endowment, pursuant to Ordinance 1284, shall

A,2) purchase such perpetual care prior to burial in the particular, unendowed space. The price of such endowment shall be established by regulation. The purchase of such endowment shall be evidenced by a certificate of endowment as provided by regulation.

B. Perpetual Care Funds. The City Treasurer shall place the money derived from perpetual care endowments in distinct irrevocable endowment trust funds with each endowment fund designated for the perpetual care of burial spaces in a particular cemetery. The full faith, credit and resources of the City are hereby irrevocably pledged for the proper, full and faithful preservation and application of said funds. All moneys at any time in said funds shall be invested and kept invested in such securities as the Council may by resolution direct or approve. All moneys and securities at any time in said funds shall be under the joint control and custody of the City Treasurer, the City Manager and the City Controller with the consent of the City Council. The interest derived from the endowment shall be used in caring for the burial spaces thus endowed, and for preserving and keeping the cemetery from becoming unkempt and places of reproach and desolation. Under no circumstances shall the principal be used. (Ord. 77-110; 1968 Code § 12-146)

19-3-406: PROPERTY RIGHTS OF BURIAL SPACE OWNERS:

A. Interment Rights. All lots, grave spaces and burial spaces conveyed heretofore or hereafter shall be considered as a grant of a right by the City to the grantee for the purpose of burial, and shall be presumed to be the sole and separate burial right of the person named as grantee in the instrument of conveyance subject to this Article, and its rules, regulations and restrictions; provided, however, that a husband and wife shall have a vested right of interment of his or her body in any burial plot or interment spaces owned by his or her spouse, which right shall continue as long as he or she shall remain the husband or wife of the plot owner or shall be his or her wife or husband at the time of such plot owner's demise, and no conveyance or other action shall be necessary to confer the right of interment upon the owner's spouse; provided, however, that a final

- A) decree of divorce between them shall terminate such vested right of interment unless it shall be otherwise provided by such decree of divorce.
- B. Joint Tenants. In all conveyances to two (2) or more persons as joint tenants, each shall have a vested right to interment of his or her remains in the space so conveyed. Upon the death of a joint tenant, right and title in and to the burial space so held immediately vests in the surviving joint tenant.
- C. Consent to Burial. Upon the death of a relative or nonrelative, the owner of a certificate of ownership may consent to the burial of that deceased person in the space enumerated on the owner's certificate. The consent shall be evidenced on serialized forms to be known as a "consent to bury", which form shall be dated and available only at the City Clerk's or Cemetery Superintendent's office. A death certificate shall be presented, if practical, at the time such consent is given to the Clerk or Superintendent. The giving of such consent shall not be a transfer of ownership; however, once burial occurs, the permission of a known nearest of kin or legal representative of the deceased shall be required before the body may be disinterred for removal to another location. Upon disinterment of the body, the space shall remain in the ownership of the certificate of ownership holder. The Clerk shall maintain records of all consents to bury. Where no burial takes place within a reasonable time after the date of the consent form, normally fifteen (15) days, the Clerk shall invalidate the form and advise the certificate of ownership owner at his address as shown in the Clerk's cemetery records.
- D. Right of Descent. Upon the death of the owner any unused burial spaces shall pass as provided in the owner's last will and testament to the owner's beneficiaries. Any unused burial spaces not effectively disposed of by the owner's last will and testament or otherwise pass to his heirs as prescribed by the Colorado Probate Code except for the vested right of interment of a spouse as provided in Section 19-3-406A.
- E. Official Records. The official records of burial space owners shall be maintained by the City Clerk's office, and each burial space owner

- E) shall be registered by name and address. Such registration shall be the final governing record in determination of burial space ownership.
- F. No Transfer Without Consent. No burial spaces shall be transferable except with the consent, which shall not be withheld unreasonably, of the City Clerk or as provided by law.
- G. Change of Address. It shall be the duty of each and every burial space owner to keep the City Clerk fully informed as to his or her mailing address, and to notify said City Clerk as to any changes thereof. Notice sent to any burial space owner at the last registered address on file in the office of the City Clerk shall be considered sufficient and proper legal notice.
- H. Right to Ingress and Egress Reserved. The City reserves to itself, and to those lawfully within the cemetery, a perpetual right to enter and to leave over any burial space for passage to and from other spaces.
- I. No Right Granted in Alleyways. No easement or right of interment is granted to any burial space owner in any road, drive, alley or walk within the cemetery, but such road, drive, alley or walk may be used as a means of access to the cemetery grounds or buildings as long as the cemetery devotes same to that purpose. (Ord. 77-110; 1968 Code § 12-147)

19-3-407: **TRANSFER OF OWNERSHIP:**

- A. Method of Transfer. The transfer of ownership or right or any interest in any burial space shall be made only on forms provided by the City Clerk.
- B. Consent and Approval. No transfer of any burial space shall be valid without the consent in writing of the City Clerk first had and endorsed upon such a transfer and thereafter recorded on the books of the City Clerk; however, such consent shall not be unreasonably withheld.
- C. Time of Recognition. A transfer of a certificate of ownership in order to be valid must be proper on its face and it must also be delivered to the grantee or some third person during the lifetime of the grantor with full intent to divest said grantor of his interest and it must be

- C) presented to, approved by, and transferred upon the record of the City Clerk during the lifetime of such grantor; provided, however, that a transfer may also be made in a last will and testament or by the applicable laws of intestacy.
- D. Indebtedness. The City Clerk may at his discretion refuse to consent to a transfer of any burial space so long as there is any indebtedness due thereon by the registered owner thereof.
- E. Care and Maintenance Must be Provided. Except for areas designated for the burial of poor persons, no transfer of any burial space or interment right therein shall be approved and registered upon the books of the City Clerk nor shall interments therein be permitted until provision shall have been made for care and maintenance of such space by payment of the endowment amount specified in the rules and regulations for the City cemeteries. This provision shall not apply to burial spaces conveyed by the City for which perpetual care and endowment has been already provided.
- F. Transfer Charges. All transfers of ownership in any burial space shall be subject to a charge fixed from time to time by the rules and regulations for the City cemeteries, which charge must be paid when the transfer is received for filing by the City Clerk. (Ord. 77-110; 1968 Code § 12-148)

19-3-408: ABANDONED BURIAL SPACES:

- A. Reversion. The ownership or right in or to any unoccupied cemetery burial space shall upon abandonment revert to the City.
- B. Presumption. Failure to inter in any burial spaces after one hundred (100) years from purchase, transfer or interment in adjacent spaces commonly owned, whichever is later in time, shall create and establish a presumption that the same has been abandoned; except that this presumption shall not apply when a letter of intent is filed by the owner or heir in title with the City Clerk stating that he intends to keep specified spaces vacant.
- C. Notice Required. Abandonment shall not be deemed complete unless the registered owners or their heirs or assigns shall be notified in writing, mailed to the last known or registered address, by the City Clerk. In the event that the address of the owner or his heirs cannot be ascertained, then notice of such abandonment shall be published five (5) times in the City's official newspaper at least once a week.
- D. Failure to Reply. If the registered owner or his heirs or assigns fail to inform the City Clerk within sixty (60) days after receipt of notice of abandonment or after final publication of such notice of an intention to retain the burial spaces remaining, then abandonment shall become final and the City may thereafter sell, transfer and convey title thereto. The funds derived from any sale of an abandoned space shall be deposited in, and shall become a part of, the endowment fund. (Ord. 77-110; 1968 Code § 12-149)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 5 INTERMENTS

SECTION:

- 19-3-501: Compliance With Applicable Laws
- 19-3-502: Application for Interment
- 19-3-503: Time and Notice of Interments
- 19-3-504: Conditions for Interment
- 19-3-505: Liability of City
- 19-3-506: Equipment Used
- 19-3-507: Funeral Processions
- 19-3-508: Charges for Graves
- 19-3-509: Grave Vaults or Boxes
- 19-3-510: Caskets Not to be Opened
- 19-3-511: Location of Interment Space
- 19-3-512: Removal of Bodies Prior to Interment

19-3-501: COMPLIANCE WITH APPLICABLE

LAWS: Besides being subject to this Chapter and the rules and regulations for the City cemeteries, all interments, disinterments and removals are subject to the orders and laws of the properly constituted authorities of the City and State. (Ord. 77-110; 1968 Code § 12-150)

19-3-502: APPLICATION FOR INTERMENT:

A. Authorization for Interment.

1. The City reserves the right to refuse burial in any burial space for any purpose unless written authorization pursuant to paragraph 2 of this subsection by the burial space owner of record is made out on blanks provided by the City Clerk. (Ord. 77-110; 1968 Code § 12-152)

2. The City reserves the right to make an interment of any member of the immediate family or of any one of joint burial space owners upon only one written authorization by a member of the immediate family. (Ord. 77-110; 1968 Code § 12-154)

B. Telegram and Telephone Authorization. Telegram authorization for immediate burial may be permitted by the City Clerk.

B) However, the City shall not be held responsible for any order given by telephone or for any mistake occurring from the want of precise and proper telephonic instructions as to the particular space, size and location of a burial space where interment is desired. Any changes, adjustments or corrections necessitated by such mistakes shall be at the expense of the burial space owner or his agent. (Ord. 77-110; 1968 Code §§ 12-152, 12-153)

C. Burial Permits Issued. The Bureau of Vital Statistics¹ shall issue a burial permit addressed to the Cemetery Superintendent who will enter information describing the burial space for the interment. (Ord. 77-110; 1968 Code § 12-152)

19-3-503: TIME AND NOTICE OF INTERMENTS:

The right is reserved by the City to insist upon at least ten (10) working hours' notice prior to any cremation or interment, and at least one week's notice prior to any disinterment or removal. Any exceptions must be approved by the Cemetery Superintendent. (Ord. 77-110; 1968 Code § 12-151)

All interments, disinterments and removals must be made at the time arranged for in advance, but no interments, disinterments, removals, cremation or interment service shall be permitted on the day before Memorial Day. (Ord. 77-110; 1968 Code §§ 12-155, 12-156)

19-3-504: CONDITIONS FOR INTERMENT:

A. No Interment Unless Property Paid For. No interment shall be permitted or memorial placed in or on any property not fully paid for. A promissory note or contract for purchase shall not be considered as payment, and no rights shall be acquired by the burial space purchaser of said interment or interments until such property is fully paid for in cash. The City Clerk at his discretion may accept from the legal

1. See C.R.S. 1973, Chapter 25, Article 2. The "local registrar" for vital statistics appears to be the El Paso County Health Department.

- A) representative of a deceased a bond or other surety or guaranty of payment. (Ord. 77-110; 1968 Code § 12-160)
- B. More Than One Body. Not more than one body, or the remains of more than one body, shall be interred in one grave, vault, crypt or niche unless such grave, vault, crypt or niche is in a portion of the cemetery designated for multiple burial and the burial space has been purchased with the written agreement that more than one body, or the remains of more than one body, may be interred. However, with the consent of the Superintendent, an infant may be buried in the grave space with the parent or cremated remains may be placed in the same grave with regular burial or other cremated remains; provided, proper identification is made of such interment or interments on one crypt, niche, memorial or marker. (Ord. 77-110; 1968 Code § 12-161)

19-3-505: LIABILITY OF CITY:

- A. Delay from Protest. The City shall be in no way liable for any delay in the interment of a body where a protest to the interment has been made or where this ordinance and the rules and regulations for the City cemeteries have not been complied with. The City shall be under no duty to recognize any protests of interments unless they are in writing and filed in the office of the City Clerk. (Ord. 77-110; 1968 Code § 12-158)
- B. Not Responsible for Identity. The City shall not be liable for the truth or correctness of the information contained in the interment permit nor for the identity of the person sought to be interred, cremated or disinterred. (Ord. 77-110; 1968 Code § 12-159)
- C. Errors May be Corrected. The City shall not be liable and reserves and shall have the right to correct any errors that may be made by it, either in making interments, disinterments or removals, or in the description, transfer or conveyance of any interment property, by conveying in lieu thereof other interment property of equal value and similar location insofar as possible. (Ord. 77-110; 1968 Code § 12-157)

19-3-506: EQUIPMENT USED: Only equipment owned or controlled by the City shall be used in opening and closing graves. (Ord. 77-110; 1968 Code § 12-162)

19-3-507: FUNERAL PROCESSIONS: Funeral processions on reaching a cemetery will be under the guidance of the Superintendent or his assistants. Motors must not be kept running in close proximity to any funeral during the services. Funeral parties remaining in the cemetery after four fifteen o'clock (4:15) P.M. weekdays and eleven fifteen o'clock (11:15) A.M. Saturday mornings shall be surcharged in accordance with the schedule in the rules and regulations for the City cemeteries to cover overtime charges. Financial obligations will be the responsibility of the funeral home in charge of the service. (Ord. 77-110; Ord. 86-187; 1968 Code § 12-163)

19-3-508: CHARGES FOR GRAVES: Fees shall be charged for all digging and filling of graves, disinterments and the overtime services of the employees of the cemeteries incidental to burial. All moneys so charged are to be paid to the City Clerk.

- A. A graduated fee shall be charged for the opening and closing of graves in the burial of infants, children, adults and cremated remains; the schedule of graduated fees shall be established in the rules and regulations for the City cemeteries.
- B. For disinterments, a graduated fee shall be charged for an infant, children and adult graves, which fee schedule shall be established in the rules and regulations of the City cemeteries.
- C. The fees for overtime by City personnel shall also be established in the rules and regulations for the City cemeteries. (Ord. 77-110; 1968 Code § 12-164)

19-3-509: GRAVE VAULTS OR BOXES: Concrete grave boxes or vaults (either fiberglass, steel or concrete), for enclosing caskets shall be required in all burials in the irrigated sections of the City cemeteries. However, a grave box or vault shall not be required where the owner or his agent pays the City a fee shown in the rules and regulations for the City cemeteries. Such fee shall be paid at the time and as a part of the grave opening charges.

Furthermore, upon the approval of the City Cemeteries Superintendent, a grave box or vault shall not be required in the burial of indigent persons wherein the expense of burial is borne by public welfare agencies and where the burial is in an area of the cemetery designated for indigents. An applicant may provide and install a box or vault purchased from any source, so long as it complies with the specifications provided by the City. (Ord. 77-110; 1968 Code § 12-165)

19-3-510: CASKETS NOT TO BE OPENED: Once a casket containing a body is within the confines of the cemetery, no funeral director or his embalmer, assistant, employee or agent, nor any cemetery employee shall be permitted to open the casket or to touch the body without the consent of a member of the immediate family or the legal representative of the deceased, or without a court order. (Ord. 77-110; 1968 Code § 12-166)

19-3-511: LOCATION OF INTERMENT SPACE: When the instructions regarding the location of a burial space cannot be obtained, or are indefinite, or when for any reason the interment space cannot be opened where specified, the Superintendent shall contact the funeral home, agent or family to make suitable arrangements. The City shall not be liable in damages for any error made. (Ord. 77-110; 1968 Code § 12-167)

19-3-512: REMOVAL OF BODIES PRIOR TO INTERMENT: Once a casket containing a body is within the confines of the cemetery and has been accepted for interment by the City Cemetery Superintendent, no funeral director or his embalmer, assistant, employee or agent, nor any cemetery employee shall remove or permit the removal of the casket or body contained therein without the written consent of a member of the immediate family, nearest of kin, legal representative of the deceased or without a court order. A casket containing a body cannot be accepted for interment by the City Cemetery Superintendent until the Superintendent receives a properly completed burial order form and burial-transit permit for the deceased. (Ord. 80-98; 1968 Code § 12-167.1)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 6 DISINTERMENTS AND REMOVALS

SECTION:

- 19-3-601: Authorization; Notice
- 19-3-602: Care in Removal
- 19-3-603: Removal for Autopsy
- 19-3-604: Removal for Profit Prohibited

19-3-601: **AUTHORIZATION; NOTICE:** A body may be removed from its burial place only upon written authorization from the known nearest of kin or legal representative of the deceased, or by court order. The City reserves the right to require at least one week's notice prior to any removal or disinterment. (Ord. 77-110; 1968 Code §§ 12-170, 12-172)

19-3-602: **CARE IN REMOVAL:** The City shall exercise the utmost care in making a removal, but it shall assume no liability for damage incurred to any casket or burial case or urn in making the removal. (Ord. 77-110; 1968 Code § 12-168)

19-3-603: **REMOVAL FOR AUTOPSY:** A body may be removed from its burial place for autopsy purposes only upon written consent of the known nearest of kin, or legal representative of the deceased or order of court of competent jurisdiction. (Ord. 77-110; 1968 Code § 12-171)

19-3-604: **REMOVAL FOR PROFIT PROHIBITED:** Removal by the heirs of a body or cremated remains so that the burial space may be sold for profit to themselves, or removal contrary to the expressed or implied wish of the original burial space owner is repugnant to the ordinary sense of decency and is absolutely forbidden. (Ord. 77-110; 1968 Code § 12-169)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 7 MONUMENTS, MARKERS AND MAUSOLEUMS

SECTION:

19-3-701: Permits, Type of Memorials Authorized
 19-3-702: Placement and Size Limitations
 19-3-703: Foundation and Bases
 19-3-704: Installation
 19-3-705: City Liability

19-3-701: PERMITS, TYPE OF MEMORIALS AUTHORIZED:

- A. A permit signed by the Superintendent of Cemeteries shall be required prior to the placement of any monument, marker or other memorial.
- B. Memorial dealers are required to comply with the rules and regulations for placing monuments, markers and other memorials prior to construction of the foundation. A design or sketch with the dimensions for the foundation and placement of the marker or monument or other such memorial must be furnished with the application. No memorial will be allowed on any grave or plot until the plot is fully paid for and the proper fees have been paid. The right is reserved to reject and remove any memorial which, after being erected, does not comply with the standards established by this Chapter or the rules and regulations of the City cemeteries.
- C. No monument or grave marker will hereafter be admitted to the cemetery when made of materials other than granite or bronze, except that upright veterans' markers of marble as supplied by the government are allowed in designated blocks as contained in the rules and regulations for the City cemeteries.
- D. No monument or grave marker will be admitted which is cut in imitation of dogs, cattle or any animal, or any grotesque figure.

- E. No foot markers shall be erected.
- F. No corner markers shall be erected to extend above ground.
- G. No coping or other lot or grave enclosures shall be erected.
- H. Freestanding crosses with a minimum of a six inch (6") granite base, statues on a six inch (6") granite base, as well as monoliths, shafts and columns are permitted, unless specifically prohibited in designated blocks or portions thereof by the rules and regulations for the City cemeteries.
- I. Mausoleums are prohibited unless specifically permitted in designated blocks or portions thereof by the rules and regulations for the City cemeteries. The edge of a mausoleum must be at least six feet (6') from the property line of another owner and no other burial shall be permitted upon the area of ground required by the mausoleum.
- J. Memorial benches, sarcophagi and ledger stones are prohibited. (Ord. 77-110; 1968 Code § 12-173)

19-3-702: PLACEMENT AND SIZE LIMITATIONS:

- A. Unless otherwise provided in the rules and regulations for the City cemeteries by specific provisions for specific blocks, a memorial (customarily a family monument or marker) to be placed on a lot consisting of four (4), six (6) or eight (8) spaces shall be located in the center of the lot and shall not, to the extent possible, encroach upon the individual graves.
 - 1. When the memorial is located in the center of the lot, and if upright individual grave markers on the east side of the center memorial would abut the foundation of the center

A,1) memorial, then the grave markers shall be flush markers.

2. Unless otherwise provided by specific provisions for specific blocks, monuments or markers to be placed on individual grave spaces shall be located on the west end of the grave space.

3. No head markers or monuments shall act as foot markers.

B. Unless otherwise limited or allowed by specific provisions for designated blocks, monuments and markers and other memorials shall not exceed three-fourths ($\frac{3}{4}$) of the width of the space or lot.

1. The depth, front to rear, of a marker or monument on a lot shall not exceed twenty four inches (24'') on the following blocks: 222, 223, 224, 216, 232 and 233.

2. The depth on all other blocks shall not exceed sixteen inches (16'').

C. Monuments, markers and other memorials may be of any height but may be limited by the specific provisions of designated blocks or portions thereof, except that such restrictions shall not apply to markers erected by the Federal government for service personnel.

D. The placing of temporary memorials is prohibited

E. Flush grass markers of granite or standard bronze set flush with the established grade of the plot may be placed on any plots in the cemetery. Flush grass markers are required for any infant or child spaces throughout the cemeteries. Infant graves or cremated remains when placed between two (2) adult graves shall be identified on adjacent adult grave markers. Where the remains of a baby is buried in an occupied adult space, the adult space marker shall identify the double burial.(Ord. 77-110; 1968 Code § 12-174)

19-3-703: FOUNDATION AND BASES:

A. Foundations for memorials must be built of concrete or solid masonry to the satisfaction of

A) the Superintendent. Foundations for above-grade memorials shall be the length and width of the memorial to be placed. The foundation shall be ten inches (10'') deep and shall be supported by auger holes filled with cement. The holes shall be eight inches (8'') wide, thirty one inches (31'') deep and placed every twenty four inches (24'') for the length of the foundation. The top of the foundation shall be flush with the ground.

B. After the effective date¹ of this Chapter, where grave spaces are only eight feet (8') or nine feet (9') long, and where an existing foundation must be removed in order to add a new burial, it shall be the owner's responsibility to replace the foundation and memorial.

C. Bases for monuments, markers or other memorials must be squared sufficiently to allow them to rest firmly on the foundations. No wedging will be permitted. The base must be rock pitch (rough cut) at least four inches (4'') above the ground.

D. Vases or urns may be attached to the granite base, or may be placed into the foundation, but in the latter case, such placement and risk of damage shall be the owner's risk only. (Ord. 77-110; 1968 Code § 12-175)

19-3-704: INSTALLATION:

A. Persons engaged in erecting monuments or other structures, including concrete liners, boxes and vaults, are not permitted to attach ropes to other monuments or trees. They will not be permitted to scatter material or rubbish over adjacent lots, or to leave the same on the ground longer than is absolutely necessary. They are required to set their work as soon as possible after entering the cemetery and to remove their rubbish. They will be held responsible for any damage done by them to other monuments, the grass, trees or any other object whatsoever in the cemetery.

B. Planks must be provided for dumping stone work and for rolling it on the paths, gutters or grass.

C. Workmen within the immediate vicinity of a funeral must suspend their labors until the conclusion of all services.

1. Ordinance 77-110, from which this Section derives, became effective August 9, 1977.

- D. Monument firms and others are prohibited from placing their names on any work.
- E. No memorial work will be permitted to be done in the cemetery on Sundays, holidays or on the day before Memorial Day; provided, however, that floral pieces will be admitted to the cemetery. (Ord. 77-110; 1968 Code § 12-176)

19-3-705: **CITY LIABILITY:** The City shall not be liable for damages for injury from mowing and trimming the lawn about any monument, marker or memorial. (Ord. 77-110; 1968 Code § 12-177)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 3 CEMETERIES

PART 8 GRAVE CARE

SECTION:

19-3-801: Grave Care

19-3-802: Visitor Regulations

19-3-801: GRAVE CARE:

- A. Perpetual Care. Perpetual care as supported by the Endowment Fund shall be held to mean:

1. Cutting of the grass at reasonable intervals,
2. Raking, cleaning and watering at reasonable intervals,
3. Reseeding or resodding, if necessary,
4. Trimming with machine as close as possible around markers, monuments and trellises at reasonable intervals, and
5. Removal of all seedlings and/or saplings from, on and around monuments and markers.

It shall also be held to mean the general preservation of the City-owned roads, walks, fences, buildings, plantings, features of art and the pruning of shrubs and trees that may have been placed by the cemetery, to the end that such cemetery shall remain and be reasonably cared for as a cemetery.

Perpetual care shall not be construed as meaning the maintenance, repair or resetting of any grave marker or memorial placed upon any individually owned lot or grave space. Neither does the term "perpetual care" mean the doing of any special or unusual work on any lot nor the reconstruction of any marble, granite, bronze, concrete or stone work in any section or the repair or rebuilding of any structure, building or utility damaged by the elements, an Act of God, common enemy, thieves, vandals, strikes, malicious mischief, unavoidable

- A) accidents, invasions, insurrections, riots or by order of any military or civil authority, whether the damage be direct or collateral, other than as herein provided.

- B. Planting. The Superintendent shall have charge of the planting of trees and shrubs in accordance with the general plan for the ornamentation of the grounds. Further, no trees, spreading plants or shrubbery shall be planted or grown on the lots or spaces. Roses may be planted in blocks specifically authorizing them, as provided in the rules and regulations for the City cemeteries. Unless provided otherwise in the cemetery rules, bedding plants may be planted around the base of a monument which is in the center of the lot, or if the monument or marker is on the west edge of the space, the bedding plants shall be only on the east side. The bed shall be not more than six inches (6") in width from the base.

- C. Grading of Lots.

1. In order to produce a natural and pleasing effect, and also to ensure proper drainage of the ground, the grade of all lots and graves will be determined by the Superintendent of Cemeteries and, if need be, may be changed as emergencies may require.

2. Grading and digging on the lots by others than employees of the City cemeteries may be done only under the direction of the Superintendent.

3. All graves will be sodded level and no mounding or planting will be allowed on any grave unless specifically permitted by conditions of use of selected cemetery blocks.

- D. Unauthorized Work by Cemetery Employees. The employees of the cemetery are not permitted to perform any extra work for lot owners during working hours except under the direction of the Superintendent.

- E. Ornamental Appurtenances. Except as otherwise provided by this paragraph, no trellises, baskets, boxes, shells, toys, crockery, glassware, potted plants, cans or other objects are permitted on any lot or grave space. All prior ordinances permitting trellises are repealed. Furthermore, no hanging objects, such as pots, artificial flowers or wreaths, etc., are allowed to hang from or be attached to existing trellises. After the effective date of this ordinance, notice shall be given to known owners of spaces containing trellises, as well as by publication, that owners desiring to retain their trellises are to plant roses, where none presently exist, on both sides of the trellis. Any trellises not having live roses by October 1, 1978, shall be deemed to be abandoned. Such abandoned trellises may be removed by the Cemetery Superintendent. Trellises with live roses shall be retained.
- F. American Flags Allowed. Small American flags or memorial flags may be displayed in any part of the entire cemetery when it is customarily displayed.
- G. Expense of Maintenance.
1. No expense for cleaning a monument necessitated by any cause whatsoever will be assumed by the cemeteries.
 2. The cemeteries shall not be responsible for scratching or chipping of any type of monument or marker except due to carelessness of an employee of the City.
- H. Fences, Enclosures. No fences, railings, copings or other enclosures shall be permitted around lots, plats or graves.
- I. Artificial Flowers.
1. Artificial flowers will be permitted in the City cemeteries only when placed in urns or other containers made of some durable material excluding glass, pottery or other such fragile material, which urns or containers shall contain sand to be otherwise weighted or anchored so as to maintain their stability and position. Said urns or containers shall be placed and located so that they will not interfere with or hinder the mowing operations or other like care required in the cemeteries.
 - I) 2. Artificial flowers, when placed in containers and maintained as herein provided, will be allowed in the cemeteries at all times excepting during the three (3) cleanup periods as prescribed in this Section; provided, that the conditions set forth in this Section are complied with at all times, excepting that said artificial flowers may be placed or used on new interment spaces during the three (3) fifteen (15) day cleanup periods provided for in this Section and for an additional period of three (3) days prior to said fifteen (15) day cleanup periods.
- J. Cleanup Periods. Three (3) fifteen (15) day cleanup periods shall be allowed each year for the purpose of removing broken or damaged urns or like containers and likewise removing flowers which have become tarnished, damaged, unsightly or otherwise objectionable. The Superintendent of Cemeteries shall, at City expense, publish or cause to be published in two (2) daily newspapers of general circulation published in the City, a notice informing the public of the time of such cleanup periods and that said periods are provided to allow and encourage the removal and cleanup of said containers and flowers as provided in this Section. If only one daily newspaper of general circulation is published in the City, said notice shall be given only in said paper. This cleanup service may be performed by the persons who have placed this container or flowers on the grave space or spaces or are interested in the care and attention devoted to such areas. These periods shall be from March 1 to March 15, May 1 to May 15 and November 1 to November 15 of each year. If, within such cleanup periods or any of them, or any other time, the persons who placed the containers or flowers or who are interested in the care and maintenance to be given to the same have not cleaned up said areas and removed the tarnished, unsightly or damaged containers or flowers, the Superintendent of Cemeteries or his authorized representative, may remove all such unsightly, tarnished or damaged containers, flowers or other like objects and destroy same; provided, always, the Superintendent of Cemeteries may remove or cause to be removed at any time tarnished, unsightly or damaged containers or flowers which are offensive to the appearance of the cemeteries. The City shall not be liable or

- J) responsible for accidental removal of new or near new looking artificial flowers, nor for damage caused by persons tying or otherwise attaching containers, flowers or other objects to monuments or stones.
- K. Flowers, Grave Blankets; Placement and Removal. Natural flowers, grave blankets and wreaths may be properly placed on cemetery grave spaces at any time, usually during December, January and February; provided, however, that said objects may be removed if they become injurious to the grass on said grave spaces or unsightly or dilapidated.
- L. Removal of Properties Considered Objectionable. The Cemetery Superintendent may prohibit or remove from lots all chairs, settees, vases, artificial flowers, grave covers, toys or any article that may be considered objectionable. Unfilled detached vases will not be allowed to remain on lots or grave spaces. (Ord. 77-110; 1968 Code § 12-178)

- F. No persons with firearms shall enter the cemetery except for military funerals or similar occasions, as well as any peace officer, sheriff or other law enforcement officer.
- G. Pets are strictly prohibited, except for seeing-eye dogs and pets confined to vehicles.
- H. No driving or riding shall be allowed on lots or upon the lawns or walks. All persons driving in the cemetery will be held responsible for any damage done by them. Speed limit in the cemetery is twenty (20) miles per hour.
- I. Visitors are reminded that the cemeteries are devoted to the interment and repose of the dead and it is expected that all persons will show due respect and observe this ordinance and all the rules and regulations for the City cemeteries. (Ord. 77-110; 1968 Code § 12-179)

19-3-802: VISITOR REGULATIONS:

- A. Entrance into the cemetery shall be through the main entrance only.
- B. The Superintendent or his assistants shall be at the cemetery and ready to give information or render assistance to lot owners and visitors from eight o'clock (8:00) A.M. until five o'clock (5:00) P.M. on each weekday. The office will be closed Saturday afternoon, Sundays and on legal holidays with the exception of Memorial Day.
- C. All persons are welcome to visit the cemetery while gates are open. Visitors are expected at all times to be orderly and shall not walk on flower beds or borders. Children shall not run at will over the cemetery.
- D. All persons are forbidden to pick or remove the flowers or plants without permission, to injure trees or shrubs on any lot or grave, or to injure or deface any monument, vault, structure or other property.
- E. Picnicking and lunching in the cemetery is prohibited. Rubbish must be disposed of in litter cans provided.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 4 MUNICIPAL AIRPORT

PART 1 MUNICIPAL AIRPORT ADVISORY COMMISSION

SECTION:

19-4-101: Commission Created
 19-4-102: Membership
 19-4-103: Functions
 19-4-104: Meetings; Chairman

Commissioners of El Paso County in matters pertaining to land use and such other matters affecting the construction, planning or operation of the Airport. The Commission shall render advice concerning the Airport Master Plan, its implementation, updating or changes thereto. The Commission shall review and make recommendations concerning long-range planning for the Airport. (Ord. 3183; Ord. 3748; Ord. 80-140; 1968 Code § 1-154)

19-4-101: **COMMISSION CREATED:** There is hereby created a Municipal Airport Advisory Commission which shall consist of seven (7) members to be appointed by the City Council. Appointments to the Commission shall be made in such manner as to achieve staggered three (3) year terms. (Ord. 78-176; Ord. 80-140; Ord. 85-62; 1968 Code § 1-152)

19-4-104: **MEETINGS; CHAIRMAN:** The Commission shall select its own chairman. The members of the Commission shall meet at such time and place as the chairman shall select. (Ord. 80-140)

19-4-102: **MEMBERSHIP:** Any member of the Commission may be appointed to succeed himself provided that no member shall after serving two (2) successive terms be reappointed until at least one year has elapsed. Council may appoint members who are not residents of the City provided that a majority of the members of the Commission shall always be City residents. In addition to the regular members the Council may appoint one or more liaison members from various agencies and organizations including, but not limited to the following: City Council, Board of County Commissioners of El Paso County, El Paso County Department of Transportation and United States Air Force. These liaison members shall not have the right to vote on any matter before the Commission. They shall serve for such specified term as determined by the Council. Commission members and liaison members shall serve without compensation. (Ord. 3930; Ord. 80-140; 1968 Code § 1-153)

19-4-103: **FUNCTIONS:** Municipal Airport Advisory Commission shall act in an advisory capacity to the City Manager, the City Council and the City Planning Commission, and may act in an advisory capacity to the El Paso County Planning Commission and the Board of County

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 4 MUNICIPAL AIRPORT

PART 2 GENERAL PROVISIONS

SECTION:

19-4-201: Definitions
 19-4-202: Reserved
 19-4-203: Director of Aviation; Powers and Duties
 19-4-204: Rules and Regulations; Procedures
 19-4-205: Use of Airport Facilities; Permit Required
 19-4-206: Commercial Enterprises; Permit and Insurance Requirements
 19-4-207: Assumption of Risks
 19-4-208: Flight Regulations
 19-4-209: Motor Vehicle Traffic Regulations
 19-4-210: Heliports Designated
 19-4-211: Penalty

19-4-201: **DEFINITIONS:**¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

CONCESSION or BUSINESS: The sale, offering for sale or the furnishing of any commodity, article, facility or service.

MUNICIPAL AIRPORT: All properties presently leased or owned as shown on the map attached hereto and by reference made a part hereof, including all of that property commonly known as "Peterson Field", and such as may be hereafter acquired by the City as a Municipal aeronautical facility. It is a terminal facility for development, promotion and accommodation of air commerce, air travel and air transportation, and its operation is hereby declared to be a governmental function of the City, pursuant to C.R.S. 1973 § 41-4-101.

OPERATIONAL AREA: Any place on the Municipal Airport not leased or demised to anyone for exclusive use, and not a public area, highway or public vehicular area; but shall include public runways, public taxiways, public ramp and apron areas, public cargo ramp and apron areas, public aircraft parking and storage areas, and fuel storage areas. (Ord. 3906; 1968 Code, § 10-134)

19-4-202: **Reserved**

19-4-203: **DIRECTOR OF AVIATION; POWERS AND DUTIES:**

- A. There is hereby created the position of Director of Aviation, who shall act under the direction of the Director of Public Works.
- B. The Director of Aviation is hereby empowered and authorized to regulate and act as manager of the Municipal Airport, to supervise the operation and control thereof, to direct the use and occupancy, management, control, operation, care, repair and maintenance of all structures and facilities thereon and all land on which the Municipal Airport is located and operated. The powers hereby conferred upon the Director of Aviation shall extend to the entirety of the Municipal Airport, and aeronautical activities except only to the extent that State and Federal laws and Federal agency regulations may pre-empt such control, and as limited by contracts, leases and other dispositions of the City Council.
- C. Said Director is expressly directed and empowered to enforce all applicable City ordinances and State and Federal laws and regulations, and to cooperate with Federal agencies having jurisdiction in the premises.
- D. The Director of Aviation shall have the power to cause the removal or ejection from the airport premises any person who violates any rule or regulation promulgated under the authority hereby granted, or any reasonable emergency order issued by the said Director, and he may deny the use of the Municipal Airport and its facilities to any such person if said Director determines that such denial is necessary to the safe and orderly operation of the Municipal Airport. He may exercise such powers of ejection and refusal of entry in relation to any object, animal, vehicle or aircraft

1. For definitions of general application, see Section 1-1-203 of the Code of the City.

- D) which is in violation of such rules and regulations.
- E. The Director of Aviation may suspend or restrict any or all aircraft operations on the airport whenever such action is deemed necessary in the interest of safety.
- F. The Director of Aviation may designate a representative to exercise such authority as may be required in the performance of this Part. (Ord. 3906; Ord. 81-222; 1968 Code, § 10-135)

19-4-204: RULES AND REGULATIONS; PROCEDURES:

- A. The City Manager is hereby empowered and authorized to adopt rules, consistent with State and Federal law, to implement the purposes of this Article, and to ensure safety in the operational area and other premises of the Airport.
- B. The procedure for the adoption of rules and regulations authorized by this Section shall be as follows: The City Manager, the Director of Public Works, the Director of Aviation or the Airport Advisory Commission¹ may propose the adoption or amendment of any reasonable or necessary rules or regulations. The City Manager shall promulgate such rules as he may adopt by filing one copy with the City Clerk, and one copy with the Director of Aviation.

No rule or regulation shall be in full force and effect until published by one of two (2) methods: first, publication in full one time in the official City publication, or second, publication of a notice one time, in said publication, that such rules and regulations have been adopted, and are on file with the respective officials. The date of adoption shall also be stated.² All rules and regulations so adopted and filed shall be open to public inspection at all reasonable times. Cancellation by the City Manager of any current rule or regulation shall become effective upon publication as above. (Ord. 3906; 1968 Code, § 10-140)

19-4-205: USE OF AIRPORT FACILITIES; PERMIT REQUIRED:

It shall be unlawful for any person to use the Municipal Airport as a base or terminal for commercial aviation activities, or for any person to conduct any concession or business upon the Municipal Airport or upon any land acquired by the City for use in connection with the said airport or upon or in any of the buildings, structures, land, parking places, walkways, roadways or other facilities used or operated in connection with the said airport, without first obtaining the written permission of the Director of Aviation, as authorized by the City Manager or City Council. (Ord. 3906; 1968 Code, § 10-136)

19-4-206: COMMERCIAL ENTERPRISES; PERMIT AND INSURANCE REQUIREMENTS:

It shall be unlawful for any person to use the facilities of the Municipal Airport as a base of operations for the purpose of giving flight instruction or leasing or renting of aircraft for compensation without securing an annual permit therefor. The permit shall be issued by the Director of Aviation only upon compliance of the applicant with the following requirements:

- A. No such permit shall issue until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the licensee with the City also named as insured:

Bodily Injury	
Each person	\$100,000.00
Each accident	300,000.00

Provided, as to any aircraft operated by permittee, such insurance shall be at least fifty thousand dollars (\$50,000.00) per passenger seat.

Property Damage	
Each accident	\$100,000.00
Aggregate	300,000.00

Each such policy of insurance shall contain an endorsement to the effect that the insurance

1. See Section 19-4-101 of this Chapter.

2. For definition of official City publication, see Section 1-1-601 of this Code.

- A) carrier shall notify the City at least thirty (30) days in advance of the effective date of any reduction or cancellation of the policy. The cancellation or reduction of insurance shall be cause for automatic suspension of the permit until coverage shall be reinstated. All policies shall be kept in force for the period of the Permit.
- B. Operators Covered.
1. Fixed base operators shall file a certificate of insurance covering premises, operations and aircraft, including liability of all employees.
 2. Flight instructors who are not employees of fixed base operators shall present required evidence of insurance and other documentation for each aircraft used for flight instruction and/or student rental.
 3. Flight instructors employed by fixed base operators, when operating as flight instructors, but not as such employees, and so not covered by the employer's insurance shall comply individually with paragraph 2 above.
 4. Those operators who lease or rent aircraft to others for compensation, using the Municipal Airport as a base of operations for such lease or rental shall meet the requirements of this Article.
 5. Flying clubs shall show evidence of insurance as required in subsection A.
- C. Other Documentation Required. Before the permit described above shall be issued, the owner or pilot of the aircraft to be so used for flight instruction or lease or rental shall file with the Director of Aviation a written certificate that the aircraft is licensed and operated in accordance with all Federal Aviation regulations.
- D. Permit Fee. The annual permit fee shall be ten dollars (\$10.00). (Ord. 4332; 1968 Code § 10-136.1)

19-4-207: ASSUMPTION OF RISKS: Every person to whom permission has been granted by the Director of Aviation, under the terms of Section 19-4-205 hereof to use the Municipal Airport and its facilities and premises, shall at all times assume full responsibility for such activities.

Such permission shall be further conditioned that any person shall, as a consideration for the use of the Municipal Airport and its facilities, at all times release, hold harmless, and indemnify the City and all of its officers, agents and employees, from any and all responsibility, liability, loss or damage resulting to any such person, or caused by or incidental to the operation, construction, maintenance, facilities or services of the Municipal Airport.

The use of the Municipal Airport by any person for any such purpose or the payment of any fees or compensation therefor, shall be itself an acknowledgment that the conditions herein set forth are accepted. (Ord. 3906; 1968 Code, § 10-137)

19-4-208: FLIGHT REGULATIONS: It shall be unlawful for any person to operate or fly any airplane, aircraft, dirigible, airship, free balloon, glider, helicopter, autogiro, or any contrivance for flight in the air (hereinafter referred to by the single term "aircraft") in or over the City, except in accordance with the following prescribed regulations:

- A. The operator of any aircraft shall hold a currently valid airman certificate with appropriate airman rating record issued by the Administration of the Federal Aviation Administration or his successor in function.
- B. The aircraft shall carry therein a currently effective aircraft registration certificate issued by the Administrator of the Federal Aviation Administration or his successor in function, and a currently effective aircraft airworthiness certificate and aircraft operation record issued by the Administrator of the Federal Aviation Administration or his successor in function.
- C. No person shall operate any aircraft in a careless or reckless manner so as to endanger life or property, nor shall any person operate any aircraft acrobatically over any area within the City limits. The term "acrobatically" shall include any maneuver not necessary to maintain normal flight.
- D. All takeoffs and landings of aircraft shall be made only at the Municipal Airport or at other airports owned by the City, the State of Colorado or the United States government, or at duly licensed aviation fields or helicopter

- D) landing areas, provided, however, that the City Manager, at the request of and with the consent of the person owning or controlling the property may with due regard for the safety of persons and property involved, grant permission for helicopter landings at other than designated landing areas on an ad hoc basis; provided, further, that air shows over airport property may be permitted by the City Manager where a Federal Aviation Administration waiver has been obtained.
- E. No persons except peace officers, duly authorized post office, airport and air carrier employees or members of the armed forces of the United States on official duty, shall carry any weapons, explosive or inflammable material on the airport except cased sporting guns carried for transshipment.
- F. No person shall drop, distribute or throw from any aircraft any handbill, circular or other printed literature or any other object or substance whatsoever.
- G. No person shall receive or discharge any goods, merchandise or other articles whatsoever, or any fuel while in the air, except in inflight emergencies.
- H. No person shall board or leave any aircraft while in the air except in an emergency, when necessary for the preservation of human life, or when engaging in parachute jumping under Federal Aviation Administration regulations.
- I. No person shall make any unusual, or unnecessarily disturbing noises with any aircraft.
- J. Except in taking off and landing, no person shall operate any single-engine aircraft at an altitude less than six hundred feet (600') above ground level, any multi-engined aircraft at an altitude of less than one thousand feet (1,000') above ground level, or any military jet aircraft at an altitude of less than fifteen hundred feet (1,500') above ground level. Provided, however, that helicopters may be flown less than the minimum altitude set forth herein if the operations of same are conducted without hazard to persons or property on the surface. Provided further, that at no time shall any aircraft be flown below an altitude which will

- J) permit an emergency landing without hazard to persons or property on the surface in the event of the failure of a power unit.
- K. No person shall operate an aircraft in such proximity to other aircraft as to create a collision hazard. No person shall operate an aircraft in formation flight over the City without prior written permission of the Director of Aviation.
- L. No person shall operate in or over the City any fixed or moored balloon without prior written permission of the Director of Aviation.
- M. No person shall fly an aircraft except in accordance with the traffic patterns set forth in the traffic pattern booklet entitled "Aircraft Traffic Patterns, City of Colorado Springs, Peterson Field", as revised and as hereafter amended. (Ord. 3906; 1968 Code, § 10-139)

19-4-209: MOTOR VEHICLE TRAFFIC REGULATIONS: The Director of Aviation, with the concurrence of the City Traffic Engineer, shall have power and authority, and he is hereby empowered and authorized, upon the basis of traffic engineering or other investigations and studies or where necessitated by the peculiar character of the Municipal Airport as an airport, to regulate the operation of automobile and vehicular traffic and parking facilities on the Municipal Airport. By way of example, but not by way of limitation, such rules and regulations may provide for the following:

- A. Establishment of zones for special parking.
- B. Establishment of zones for loading and unloading of passengers and for the deliveries of goods, and time limitations thereon.
- C. Designation of bus stops.
- D. Fixing of speed limits
- E. Establishment of minimum equipment requirements for automobiles and other motor vehicles allowed in the operational area.
- F. Installation of traffic control signs, signals and devices for the regulation of traffic in accordance with national standards.

- G. Establishment of accident reporting procedures.
- H. Establishment of right of way regulations.
- I. Prescribing methods of parking.
- J. Designation of one-way and through traffic roadways, driveways and thoroughfares, access and service roads.

The Director of Aviation shall, upon establishing such traffic regulations, cause to be installed the necessary signs, markings, traffic control signs, signals and devices to give public notice of said traffic regulation. (Ord. 3906; 1968 Code, § 10-140.2)

19-4-210: HELIPORTS DESIGNATED: The Director of Aviation is hereby empowered and authorized to designate heliports within the City after conferring as necessary with interested city officials, the Federal Aviation Administration and other appropriate agencies. (Ord. 4041; 1968 Code § 10-140.3)

19-4-211: PENALTY: It shall be unlawful for any person to violate any provisions of this Article, or any regulation adopted pursuant to its provisions. (Ord. 75-102; 1968 Code, § 10-141)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 5 STREETS AND PUBLIC WAYS

PART 1 CONSTRUCTION, REPAIR AND MAINTENANCE

SECTION:

- 19-5-101: City Engineer; Standards and Specifications
- 19-5-102: Datum Line, Bench Marks for Establishing Grades
- 19-5-103: Setting of Alignment and Grade
- 19-5-104: Construction of Curbs and Gutters
- 19-5-105: Base Requirements Prior to Acceptance as Part of City Street System

19-5-101: CITY ENGINEER; STANDARDS AND SPECIFICATIONS: The City Engineer is authorized to establish standards and specifications for the construction of all public improvements in the City. Such standards shall be designed to assure long life, good performance and minimum maintenance of all public improvements. It shall be unlawful for any person to construct, reconstruct or demolish any public improvement in the City except in compliance with such standards and specifications. Such standards and specifications shall be available to the public at the office of the City Engineer in printed form at cost not to exceed fifteen (15) cents per page.

The City Engineer or his designated representative is empowered to enter upon any project or worksite on public property without notice for the purpose of inspection to assure compliance with such standards and specifications. (1980 Code)

19-5-102: DATUM LINE, BENCH MARKS FOR ESTABLISHING GRADES: The datum line or base of levels for establishing the grades of all streets and alleys within the corporate limits of the City, shall be sea level datum of 1929 used by the National Ocean Survey (N.O.S.). All grades established as provided by this Chapter or that may hereafter be established, shall be calculated from the datum marks established by this Section. (Ord. 776; 1968 Code §§ 12-10,12-11; 1980 Code)

19-5-103: SETTING OF ALIGNMENT AND GRADE:

- A. The City Engineer may at any time at his discretion permit any property owner or contractor to employ a licensed surveyor to set to proper alignment and grade for the installation of curb, gutter and sidewalk placed on the public streets, provided such property owner or contractor shall agree in writing to replace any curb and gutter found to be placed at an improper grade or alignment. All grade and alignment shall be approved by the City Engineer. The City Engineer may further permit at any time at his discretion sidewalks to be set without the required surveyor's stakes where curb and gutter has been previously installed, provided the engineer shall inspect and approve the forms before such sidewalk is laid.
- B. For the purpose of ensuring the proper installation of the curb, gutter, sidewalk or other improvements, the City Engineer shall inspect the installation of the curb, gutter, sidewalk or other improvement and inspection fees shall be established by resolution. (Ord. 2424; 1968 Code § 12-4)

19-5-104: CONSTRUCTION OF CURBS AND GUTTERS:

- A. Ordered by City. The City Council may by resolution, order the construction or reconstruction of curb and gutter other than in districts. In all such cases the City Clerk shall notify the owner of the lot, tract or parcel of land in front of or along which such curb and gutter is to be laid to construct or reconstruct such curb and gutter within forty five (45) days from the date of service of such notice. Said notice shall be in writing and shall be served upon the owner if found within the City, and if not it may be served by registered United States mail, or by publication for ten (10) days

- A) in some daily newspaper published in this City. The insufficient service of such notice shall not affect any owner properly served. Within ten (10) days of the mailing of the first publication of such notice any owner affected thereby may appear before the City Council to show why such curb and gutter should not be constructed or reconstructed, and the notice shall so state. If on or before its first meeting after the expiration of such ten (10) days the City Council has not altered or amended such resolution, all objections to such construction or reconstruction shall be deemed to have been waived, and the owner shall construct or reconstruct the curb and gutter as originally directed.

The owner of the corner lot, tract or parcel of land shall construct or pay for the curb and gutter at the street intersection. Whenever the owner shall be in default, the City Council may cause the required work to be done by contract, and when done issue to the contractor doing the work a certificate therefor, stating the just amount due the contractor and such assessment shall be a lien upon said property until it shall be paid. In case of failure to pay such assessment within thirty (30) days after the issuance of said certificate, the same may be certified by the City Clerk to the County officer having the custody of the tax list at the time such certification is made, to be by him placed upon such tax list for the current year, to be collected in the same manner as other taxes are collected with ten percent (10%) penalty thereon to defray the cost of collection and all the laws of the State for the assessment and collection of general taxes, including the laws for the sale of property for taxes, and their redemption of the same shall apply and have as full effect for the collection of said assessment for curb and gutter as for general taxes. (Ord. 800; 1968 Code § 12-14)

- B. Curb Lines. The City Engineer, at his discretion and for the purpose of protecting trees, may narrow the distance between curb lines as herein prescribed, one foot (1') on either side, provided such change extends through an entire block, or through an approved transition section. (Ord. 739; 1968 Code § 12-16.1)

19-5-105: BASE REQUIREMENTS PRIOR TO ACCEPTANCE AS PART OF CITY STREET SYSTEM: Before any street or alley shall be accepted by the City as a part of its street system such street or alley shall be constructed in accordance with City Standard Specifications. (1980 Code)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 5 STREETS AND PUBLIC WAYS

PART 2 EXCAVATIONS

SECTION:

- 19-5-201: Definitions
- 19-5-202: Excavation License Required
- 19-5-202.1: Excavation Board
- 19-5-203: Application for License; Bond and Insurance Requirements; Revocation
- 19-5-204: Permit Required; Inspections
- 19-5-205: City Responsibilities
- 19-5-206: City Departments to Procure Permits
- 19-5-207: Protection of Adjoining Property
- 19-5-208: Care of Excavated Materials, Clean Up
- 19-5-209: Protection of Watercourses and Vital Structures
- 19-5-210: Breaking Through Pavement
- 19-5-211: Work Procedures and Operations
- 19-5-212: Depth of Structures
- 19-5-213: Backfilling Requirements
- 19-5-214: Restoration of Surface
- 19-5-215: Rerouting of Traffic
- 19-5-216: Relocation and Protection of Utilities
- 19-5-217: Prompt Completion of Work
- 19-5-218: Preservation of Monuments
- 19-5-219: Additional Specifications

19-5-201: **DEFINITIONS:** The following terms, as used in this Part 2, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

EXCAVATOR: One holding a license and permit under this Part 2, and those departments of the City doing excavations under this Part 2, or an agent, employee or contractor working for under one holding a license and/or permit.

EXCAVATION: Any opening in the surface of a public place made in any manner whatsoever, except an opening into a lawful substructure below the surface of a public place, the top of which is flush with the adjoining surface and so constructed as to permit frequent openings without injury or damage to the public place.

FACILITY: Pipe, pipeline, tube, main, service, trap, vent, vault, manhole, meter, gauge, regulator, valve, conduit, wire, tower, pole, poleline, anchor, cable, junction box, transformer or any other material, structure or object of any kind or character, whether enumerated herein or not, which is or may be lawfully constructed, left, placed or maintained in, upon, along, across, under or over any public place or right of way.

PUBLIC PLACE: Any public right of way, utility easement, drainage structure, street way, place, alley, sidewalk, park, square, plaza or any other similar public property owned or controlled by the City and dedicated to public use, including the location of any electric or gas service line whether on public or private property. This shall include dedicated but not improved streets in new subdivisions.

SUBSTRUCTURE: Any pipe, conduit, duct, tunnel, manhole, traffic detector loop, vault, buried cable or wire, or any other similar structure located on or below the surface of any public place.

UTILITY: Any business or service, including Municipal department, engaged in regularly supplying the public with some commodity or service which is of public consequence and need, such as electricity, gas, water, transportation or communication service including telephone, telegraph and cable television. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-108)

19-5-202: EXCAVATION LICENSE REQUIRED:

Except for departments of the City, no person shall make any excavation or fill any excavation in any public place without first obtaining a license and permit therefor except as otherwise provided in this Article. No license or permit to make an excavation or fill an excavation in a public place shall be issued except as provided in this part.

Nothing herein contained shall be construed to prevent the making of such emergency excavations as may be necessary for the preservation of life or property or for the location of a hazardous condition in a facility, or for making emergency repairs; provided, that the

person making such excavation shall apply for a permit on the first day after such work is commenced. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-104)

19-5-202.1: EXCAVATION BOARD:

- A. There is hereby created an Excavation Board, to be composed of nine (9) members to be appointed by the City Council. The Excavation Board shall be responsible for advising the City Council, City Manager and others on matters pertaining to excavations in general and in particular on matters contained in this Part 2 including but not limited to suspensions and revocations.
- B. Membership. Of the nine (9) members, one shall be a main line utility contractor with an excavator's license, one shall be a plumbing services contractor with an excavator's license, one shall be a registered professional engineer in private practice, one shall be a developer, one shall be a representative from the telephone company, one shall be a representative of the Department of Utilities, one shall be a representative of the Department of Public Works, one shall be a representative of the Department of Support Services, and one shall be citizen at large.
- C. Term. Term of membership shall be for three (3) years. Appointments to the Excavation Board shall be made in such manner so as to achieve staggered three (3) year terms so that no more than three (3) of the initial appointee's terms shall expire on the same year.
- D. Organization. The members of the Excavation Board shall meet at such time and place as they may fix. They shall select one of their number as Chairman and one as Vice Chairman, each of whom shall serve one year until their successors have been selected. Meetings may be called at any time by the Chairman, or in his absence, by the Vice Chairman or any other member so designated by the Chairman. A majority of the Excavation Board shall constitute a quorum for the transaction of business. A record of the Board's proceedings shall be kept.
- E. Staff Support. The City Manager or his designee shall provide staff support services to the Excavation Board. (Ord. 85-214)

19-5-203: APPLICATION FOR LICENSE; BOND AND INSURANCE REQUIREMENTS; REVOCATION:

- A. Requirements. Any person desiring such license shall make application therefor to the City Clerk on forms provided by the City Clerk. The written application shall state the name and address and principal place of business of the applicant. Such license shall be issued by the City Clerk upon payment to the City of the sum of twenty five dollars (\$25.00). All licenses issued under this Part shall, unless sooner suspended or revoked, expire on June 30 of each year. Said license may be renewed no later than thirty (30) days after the expiration for a sum of twenty five dollars (\$25.00). The City Clerk shall keep a record of all licenses issued.
- B. Before an excavation license is issued, the applicant shall file with the City Clerk one five thousand dollar (\$5,000.00) surety bond in a form approved by the City Attorney. Said bond shall ensure that the excavator will properly backfill and maintain any excavation made by him for a period of one year and that he shall promptly pay for any charges billed to him by the Department of Public Works for permanent resurfacing of the excavation or replacement of traffic detector loops or pavement markings.
- C. No excavation license shall be issued until the applicant shall furnish evidence of current public liability and property damage insurance policies. The following insurance coverage shall be required in the name of the excavator with the City also named as insured:

Bodily Injury		
Each person		\$500,000.00
Each accident		500,000.00

Property Damage		
Each accident		\$ 50,000.00
Aggregate		100,000.00

Each such policy of insurance shall contain an endorsement to the effect that the insurance carrier shall notify the City at least thirty (30) days in advance of the effective date of any reduction or cancellation of the policy. The cancellation or reduction of insurance shall be cause for automatic suspension of the license until coverage is reinstated in accordance with

- C) this Section. All policies shall be kept in force for the period of the license.

Notwithstanding the requirements of this Section, a public utility holding a franchise from the City, or other governmental agencies may be relieved of the obligation of submitting said bond and certificate of insurance by the Director of Public Works.

- D. Revocation or Suspension of Licenses. Any license issued pursuant to this Part 2 may be revoked in accordance with the procedures outlined below.

1. In addition to any other remedies provided by this Code, if the holder of an excavation license (excavator) fails within forty five (45) days of receipt to pay any claim submitted to the excavator by the City that has been determined by the Safety and Risk Manager to be a valid claim against the excavator for injuries to persons or property caused by excavation without obtaining a location, an intentional cutting, a repeated act of negligent cutting by the excavator, or failure of the excavator to comply with any provisions of this part, or if the excavator had failed to properly place and maintain barriers, warning devices, and routing signs necessary for safety as specified by the Manual on Uniform Traffic Control Devices (MUTCD), then the Safety and Risk Manager may seek license revocation or suspension in accord with City Code Section 8-1-801 et. seq. as modified herein.

2. If the Safety and Risk Manager believes that the conduct of the excavator is so inimicable to the public health, safety and general welfare as to constitute a nuisance or imminent hazard and thus give rise to an emergency, the Safety and Risk Manager may pursue summary suspension of the excavator's license in accord with City Code Section 8-1-807, and unless waived by the licensee in writing the Excavation Board shall within fourteen (14) days after the Licensing Officer has acted conduct a hearing upon the Summary Order.

3. Hearing Procedure.

(a) Upon commencement or suspension or revocation proceedings, the Excavation Board shall set a time and place for the hearing of the matter.

- D3) (b) The Excavation Board shall give the licensee timely notice of the time and place of the hearing and the violations asserted. Such notice shall be served personally or by mailing by first-class mail to the last address furnished to the Licensing Officer by the licensee, at least ten (10) days, including Saturdays, Sundays and legal holidays prior to the hearing. In lieu of such service, or in addition thereto, a copy of such notice may be affixed to the principal entrance of the licensed premises which shall be deemed to be the principal place of business or main office or may be affixed to some prominent structure on such premises. The notice shall state the alleged grounds for suspension or revocation of the license, as applicable.

(c) All evidence shall be recorded stenographically or by electronic recording device.

(d) In all such proceedings, the City Attorney or his designate shall act on behalf of the City during the hearing.

4. The Excavation Board, after hearing all of the evidence, shall make findings of fact and conclusions of law on the issues before it. If it concludes that revocation or suspension is not warranted by law or evidence, it shall dismiss the proceedings against the licensee. If it concludes that suspension or revocation is warranted, it may, in its discretion:

(a) Suspend the license up to ninety (90) days; or

(b) Revoke the license; or

(c) Order that the excavator as a condition of not having his license suspended or revoked deposit the sum of up to five thousand dollars (\$5,000.00) with the City as a condition of keeping the license in effect. The sum of five thousand dollars (\$5,000.00) may be used by the City for reimbursement for injuries to persons or property caused by defective work by the excavator, or failure of the excavator to comply with any provisions of this part, or failure of the excavator to properly place and maintain barriers, warning devices and routing signs necessary for safety; or said sum may be used to reimburse the owner of facilities improperly cut by the excavator; or said sum may be used to reimburse the City for costs incurred by the City for barricade work or for correcting or repairing defective work. The excavation Board may upon finding a second violation increase

- D4) the deposit to ten thousand dollars (\$10,000.00) as a condition of keeping the license in effect. No further increases shall be made.

5. Notice of Suspension or Revocation.

(a) Upon suspension or revocation of any license required by this Part 2, notice of such suspension or revocation shall be given by personally serving the licensee with the order of suspension or revocation or by mailing such order to such person by certified or registered mail at the business address of the licensee as shown on the license or at the address of the designated agent. In lieu of such service, or in addition thereto, a copy of such order may be affixed to the principal entrance of the licensed premises which shall be deemed to be the principal place of business or main office, or may be affixed to some prominent structure on such premises.

(b) The order shall be effective immediately upon service of notice thereof unless the order provides otherwise. Service of such order shall be complete upon mailing or posting.

6. Effect of Suspension or Revocation. Upon the effective date of suspension or revocation of any license required under this Part 2, the licensee of such licensed business or activity shall cease and desist from further operation or activity.

7. Appeals: Any decision of the Excavation Board may be appealed pursuant to Section 8-1-806 of the Code of the City of Colorado Springs 1980. On appeal, the matter shall be subject to the provisions of Section 8-1-808 of the Code. If no appeal is made as provided above, then the decision of the excavation Board shall be final agency action. (Ord. 74-56; Ord. 85-214; 1968 Code §§ 10-105, 10-106)

19-5-204: PERMIT REQUIRED; INSPECTIONS:

- A. In addition to the requirement of obtaining a license, no person shall proceed to make or fill any excavation without first obtaining an excavation permit from the City Engineer. The written application for an excavation permit shall state the name, address, emergency phone number and principal place of business of the applicant, the location and dimensions of the

- A) installation or removal and the approximate size of the excavation to be made, the purpose of the facility, the approximate time which will be required to complete such work including backfilling said excavation and removing all obstructions, material and debris, and such other pertinent information as is deemed necessary by the City Engineer. Such application shall be submitted to the City Engineer and if he shall approve same, he may order the issuance of the excavation permit. The City Engineer shall keep records of all excavation permits issued for a period of at least one year after issuance.

If the excavation is within three hundred fifty feet (350') of a signalized intersection, the application must also be reviewed by the Traffic Engineering Division.

- B. Excavation permits shall not be required for excavations in streets the City has not accepted for maintenance, unless within three hundred fifty feet (350') of a signalized intersection, nor shall an excavation permit be required for a plumber licensed in accordance with this Code when such plumber is installing water, wastewater or gas service lines from a property line of private property to a structure on such property.
- C. The City Engineer shall make such inspections as are reasonably necessary in the enforcement of this Article. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-107)

19-5-205: CITY RESPONSIBILITIES:

- A. The City shall within three (3) business days after a licensed excavator gives notice of intent to excavate advise the excavator of the location and size of underground facilities in the proposed excavation area by marking the location of the facilities by clearly identifiable markings within eighteen inches (18") horizontally from the exterior sides of the facilities together with the depth, if known.
- B. If the information in Subsection A above is not provided within three (3) business days or such other time as agreed upon by the City and excavator or if the information provided fails to identify the facilities in accordance with subsection A above, the excavator may proceed

- B) and shall not be liable for such damage except upon proof of his negligence, and any excavator experiencing loss for damage to property, personal injury, death or other costs shall have a right of action for damages therefor against the City except upon proof of negligence of the excavator.
- C. Whenever possible the City will assist the excavator in exposing underground facilities and locating privately-owned gas, electric, water and wastewater service lines running from the main line to individual structures on private property. (Ord. 85-214)

19-5-206: CITY DEPARTMENTS TO PROCURE

PERMITS: Except as provided herein, all departments of the City, except the Street Division and Traffic Engineering Division, shall procure permits before making any excavation in any street, avenue or alley of the City. When an excavation is begun or made by reason of an emergency by said departments, it shall be the duty of such department, as soon as practicable after beginning such excavation, to report the same to the City Engineer and to procure a permit covering the work done and to be done. The City Engineer shall have the authority, when deemed advisable, to designate some person or persons in the department doing the excavating to act as inspector or inspectors over excavations made by said department. The department shall each account to the Department of Public Works any and all expenses incurred by it for filling excavations and restoring streets, avenues, alleys and traffic control devices to a condition satisfactory to the City Engineer and the departments doing the excavation shall comply with all provisions of this Part 2 relating to excavations and the manner of taking care of and filling the same, unless otherwise provided for in writing by the City Engineer. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-118.3)

19-5-207: PROTECTION OF ADJOINING PROPERTY

: All excavators shall at all times, and at his or its own expense, preserve and protect from injury and adjoining property by providing proper foundations and taking other measures suitable for the purpose. Where in the protection of such property it is necessary to enter upon private property for the purpose of taking appropriate protective measures, the excavator shall obtain written permission from the owner of such private property for such purpose.

The excavator shall, at its own expense, shore up and protect all buildings, walls, fences, utility lines or other property that may be damaged during the progress of the excavation work, and shall be responsible for all damage to public or private property or highways resulting from its failure properly to protect and carry out said work. Whenever it may be necessary for the excavator to trench through any lawn area, said area shall be reseeded or the sod shall be carefully cut and rolled and replaced after ditches have been backfilled as required in this Part 2. All construction and maintenance work shall be done in a manner calculated to leave the lawn area clean of earth and debris and in a condition as nearly as possible to that which existed before such work began.

The excavator shall not remove, even temporarily, any trees or shrubs which exist in parking strip areas without first obtaining the consent of the appropriate City department or City official having control of such property. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-109)

19-5-208: CARE OF EXCAVATED MATERIALS, CLEAN UP:

All material excavated from trenches and piled adjacent to the trench or in any street shall be piled and maintained in such manner as not to endanger pedestrians or users of the streets, and so that as little inconvenience as possible is caused to those using streets and adjoining property. Where the confines of the area being excavated are too narrow to permit the piling of excavated material beside the trench, such as might be the case in a narrow alley, or where a dangerous condition may be created thereby, the City Engineer shall have the authority to require that the excavator haul the excavated material to a storage site and then rehaul it to the trench site at the time of backfilling. It shall be the excavator's responsibility to secure the necessary permission and make all necessary arrangements for all required storage and disposal sites. Proper barricading shall be set up and maintained in accordance with the latest edition of the Manual on Uniform Traffic Control Devices. (MUTCD).

All material excavated shall be laid compactly along the side of the trench and kept trimmed so as to cause as little inconvenience as reasonably possible to vehicular and pedestrian traffic, or as specified by the City Engineer. Whenever necessary, in order to expedite the flow of traffic or to abate the dirt or dust nuisance, tow boards or binds may be required by the City Engineer to prevent the spreading of dirt into traffic lanes.

The maximum length of open trench permissible at any time shall be not more than five hundred (500) lineal feet or no more than one block, but in any case, no greater length shall be open for pavement removal, excavation, construction, backfilling, patching and all other operations without the prior written permission of the City Engineer. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-110)

19-5-209: PROTECTION OF WATERCOURSES AND VITAL STRUCTURES:

- A. The excavator shall maintain all gutters free and unobstructed for the full depth of the adjacent curb and for at least one foot (1') in width from the face of such curb at the gutterline. Whenever a gutter crosses an intersecting street, an adequate waterway shall be provided and at all times maintained.
- B. The excavator shall make provisions to take care of all surplus water, muck, silt, slickings or other run-off pumped from excavations or resulting from slicing or other operations and shall be responsible for any damage resulting from its failure to so provide.
- C. The excavation work shall be performed and conducted so as not to interfere with access to fire hydrants, fire stations, fire escapes, water gates, underground vaults, traffic signal controllers, valve housing structures, and all other vital equipment as designated by the Department of Public Works. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-111)

19-5-210: BREAKING THROUGH PAVEMENT:

- A. Heavy duty pavement breakers may be prohibited by the Department of Public Works when the use endangers existing substructures or other property.
- B. All existing concrete that is within the public right of way such as sidewalks, driveways, curb and gutter and cross pans shall be saw cut if removal is called for and in the case of cross gutters or driveways, dowels may be required by the Department of Public Works.
- C. Approved cutting of bituminous pavement

- C) surface ahead of excavations may be required by the Department of Public Works to confine pavement damage to the limits of the trench.
- D. Sections of sidewalks, curb and gutter shall be removed to the nearest score line or joint.
- E. Unstable pavement shall be removed over caveouts and overbreaks and the subgrade shall be treated as the main trench.
- F. Pavement edges shall be trimmed to a vertical face and neatly aligned with the centerline of the trench by using saw cut method prior to patching. Patching shall conform to current City specifications.
- G. Cutouts outside of the trench lines must be normal or parallel to the trench line for all laterals and services. Valve casings are excluded.
- H. Boring or other methods to prevent cutting of pavement may be required by the Department of Public Works.
- I. The excavator shall not be required to repair pavement damage existing prior to excavation unless his cut results in small floating sections that may be unstable, in which case excavator shall remove and pave the area. Patching shall be in accordance with current City specifications and shall conform to line and grade of existing surface.
- J. Any cuts in a paved or overlaid street that is less than three (3) years old shall require a special application from the licensee to the Department of Public Works. The application shall state why said new street must be cut. If permission is granted, the Department of Public Works will require a six inch (6'') concrete slurry mix to be placed in lieu of base course if the cut is equivalent of one hundred (100) square feet or less.
- K. All laterals from a main trench on a street that is less than three (3) years old or overlaid within three (3) years of date of application for street cut shall be repaired with a six inch (6'') concrete slurry mix in lieu of base course. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-112)

19-5-211: WORK PROCEDURES AND OPERATIONS:

- A. Each excavator shall conduct and carry out excavation work in such manner as to avoid unnecessary inconvenience and annoyance to the general public and occupants of neighboring property. The excavator shall take appropriate measures to reduce to the fullest extent practicable in the performance of the excavation work, noise, dust and unsightly debris. No excavations shall be permitted between the hours of eight o'clock (8:00) P.M. and seven o'clock (7:00) A.M. except with the express written permission of the Department of Public Works or Department of Utilities or in case of an emergency as herein otherwise provided.

- B. Prior to opening an excavation in a public place, it shall be the duty of the excavator to determine whether underground facilities; i.e., sewer, telephone, water, fuel, electric lines, underground traffic signal cables, cable television, etc., will be encountered, and if so, where such underground facilities are located. No excavator, his employee or agent, any subcontractor of the excavator, or any other person shall commence any excavation unless and until information regarding facilities has been requested and obtained detailing the status of the public place in question not more than five (5) working days prior to the excavation.

If emergency conditions make such action impossible, the excavator shall make reasonable efforts to obtain information concerning the existence and location of facilities prior to beginning excavation, by notifying the appropriate City department or other public or private entity of the date on which excavation will commence and requesting that information regarding the existence and location of facilities. Nothing contained herein shall, however, relieve the excavator or any other person from the duty to obtain more current information where circumstances are such that he knew or reasonably should have known that such action was appropriate.

- C. When the excavation approaches the estimated location of such facility, the exact location shall be determined and reasonable precautions, to include hand digging at the estimated location, shall be taken in uncovering the facility and

- C) when it is uncovered, proper support shall be provided for the existing facility. Utility companies, traffic engineering division, telephone company, cable television company and any other company having underground facilities shall be contacted and advised of proposed work five (5) days prior to the start of actual excavation.

- D. It shall be the duty of every person cutting or making an excavation in or upon any public place to place and maintain such barriers, warning devices and routing signs necessary for safety as specified by the Manual on Uniform Traffic Control Devices (MUTCD). (Ord. 74-56; Ord. 85-214; 1968 Code § 10-116)

19-5-212: DEPTH OF STRUCTURES: No person shall, without written permission of the Department of Public Works, install any substructure, except manholes, vaults, valve casings, culverts and catch basins at a vertical distance less than:

- A. Streets. Twenty four inches (24") below the established flow line of the nearest gutter. If said flow line is not established, and a design is not available, then the depth shall be a minimum of twenty four inches (24") below the surface of the nearest outermost edge of the traveled portion of the street.

- B. Parkway.

1. The minimum depth of any substructure shall be sixteen inches (16") below established gutter grade when said substructure parallels the parkway, said depth to mean the top of the structure or minimum cover.

2. The minimum depth of any substructure shall be twelve inches (12") below the top of the established sidewalk or top of curb section when such substructure is at right angles to the parkway, said depth to mean minimum cover.

- C. Other Public Places. The minimum depth of any substructure in any other public place shall be twelve inches (12") below the surface; provided, however, that the Department of Public Works may permit a lesser depth in special cases.

Nothing in this Section shall impose a duty upon

- C) the excavator to maintain said specifications as required herein upon subsequent changes of grade in the surface unless the grade in said substructure interferes with the maintenance of, or travel on, a public street. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-113)

19-5-213: **BACKFILLING REQUIREMENTS:**

Backfilling shall be in accordance with current City Standard Specifications. The Department of Public Works may require soil tests at its discretion to be furnished by a recognized soil testing laboratory or registered professional engineer specializing in soil mechanics. In order for the resurfacing to be permitted, such tests must show that the backfill material meets the minimum requirements as prescribed by the Department of Public Works. All expense of such tests shall be borne by the excavator. In any event, the applicant shall be responsible for any trench failure for a one year period. Testing shall be required on all streets less than three (3) years old or that have been overlayed within three (3) years, and also when called for by the Department of Public Works, and will be so noted on the permit when returned for patching. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-114)

19-5-214: **RESTORATION OF SURFACE:**

Permanent resurfacing of excavations can be made by the Department of Public Works at the expense of the excavator if requested on the application. The excavator shall provide that the top surface of the compacted backfill be covered with two inches (2") of bituminous temporary resurfacing material, before the trench is opened to traffic. Such temporary paving material may be cold mix. All temporary paving material shall conform closely enough to the level of the adjoining paving surface and shall be compacted so that it is hard enough and smooth enough to be safe for pedestrian travel over it as well as for vehicular traffic to pass safely over it at a legal rate of speed. The excavator shall maintain temporary paving for a period not exceeding thirty (30) days after all backfilling is completed.

If it is not possible to maintain the surface of the temporary paving in a safe condition for pedestrian travel or vehicular traffic, then the excavator shall maintain barriers and lights where required herein, in accordance with the current manual on Uniform Traffic Control Devices. The excavator shall notify the Department of Public Works that the trench is ready for permanent resurfacing by returning one copy of the permit form.

In the case of failure or settlement of any repaired or new excavation made by the excavator which in the opinion of the Department of Public Works endangers the safety of the pedestrian or motoring public, the excavator shall cause emergency repairs or barricading to be made within two (2) hours after notification. Should the excavator fail to cause the emergency repairs or barricading to be accomplished within the specified time limit, the City will cause the emergency repairs or barricading to be accomplished and will bill the responsible party for the cost thereof with a minimum charge per trip to be twenty five dollars (\$25.00), with an additional charge for barricades that remain over twenty four (24) hours. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-115)

19-5-215: REROUTING OF TRAFFIC: The excavator shall take appropriate measures to cause as little inconvenience as possible to the general public by proper routing of traffic through or around the construction area. The Department of Public Works may permit the closing of streets and alleys to all traffic for a period of time, if in its opinion it is necessary, and this shall be stated on the application form.

When determined by the Department of Public Works that conditions exist which require the manual direction or control of vehicular or pedestrian traffic, it shall be the responsibility of the excavator to provide such off-duty officer or flagmen as may be necessary for as long as may be necessary to effect such control. The number of officers or flagmen and the duration of their duty shall be determined by the Department of Public Works. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-116)

19-5-216: RELOCATION AND PROTECTION OF UTILITIES: The excavator shall not interfere with any existing facility without presentation of written consent from the owner of the facility to the Department of Public Works. If it becomes necessary to relocate an existing facility, this shall be done by its owner or under the owner's supervision or with the owner's written consent. No facility owned by the City shall be moved to accommodate the excavator unless the cost of such work be borne by the responsible party. The cost of moving privately owned facilities shall be similarly borne by the excavator unless it makes other arrangements with the person owning the facility. The excavator shall support and protect by timers or otherwise all pipes, conduits, poles, wires or other apparatus which may be in any way affected by the excavation work, and do

everything necessary to support, sustain and protect them under, over, along or across said work. The excavator shall secure approval of method of support and protection from the owner of the facility. In case any of said pipes, conduits, poles, wires or apparatus should be damaged, and for this purpose pipe coating or other encasement or devices are to be considered as part of a substructure, the excavator shall promptly notify the owner thereof. All damaged facilities shall be repaired equal to or better than the original condition by the agency or person owning them or under their supervision or with the owner's written consent and the expense of such repairs shall be charged to the excavator. It is the intent of this paragraph that excavator shall assume all liability for damage to facilities and any resulting damage or injury to anyone because of such facility damage, and such assumption of liability is a contractual obligation of the excavator until such time as repairs of damage have been made and accepted by the owner of the facility. The excavator shall inform itself as to the existence and location of all underground facilities and protect the same against damage. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-117)

19-5-217: PROMPT COMPLETION OF WORK:

After an excavation is commenced, the excavator shall proceed with diligence and expedite all excavation work covered by the excavation permit and shall promptly complete such work and restore the street and any traffic control devices to their original condition, or as near as may be, so as not to obstruct the public place or travel thereon more than is reasonably necessary. Adverse weather conditions shall be cause for reasonable delay in prompt completion of work.

When traffic conditions, the safety or convenience of the traveling public or the public interest require that the excavation work be performed as emergency work, the Department of Public Works may include the requirement, at the time the permit is granted, that a crew of men and adequate facilities be employed by the excavator twenty four (24) hours a day to the end that such excavation work may be completed as soon as possible. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-118)

19-5-218: PRESERVATION OF MONUMENTS:

Any monument set for the purpose of lo-

cating or preserving the lines of any street or property or subdivision, or a precise survey reference point, or a permanent survey bench mark within the City, shall not be removed or disturbed without first obtaining permission in writing from the Department of Public Works so to do. Permission to remove or disturb such monuments, reference points or bench marks shall only be granted upon condition that the person applying for such permission shall pay all expenses incident to the proper replacement of the monument by the Department of Public Works. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-118.1)

19-5-219: ADDITIONAL SPECIFICATIONS: In addition to the provisions of this Section, any excavation shall be in accordance with current Department of Public Works Standard Specifications. (Ord. 74-56; Ord. 85-214; 1968 Code § 10-118.2)

*CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS***ARTICLE 5 STREETS AND PUBLIC WAYS***PART 3 MISCELLANEOUS OFFENSES*

SECTION:

19-5-301: Spilling of Salt or Petroleum Products

19-5-301: **SPILLING OF SALT OR PETROLEUM**

PRODUCTS: No unauthorized person shall pour, spill or permit to be poured or spilled or to drip or flow upon, or deposit or place in any receptacle or container upon any asphalt or bituminous macadam or curb, gutter or sidewalk, or about any tree or shrub on any street, avenue, alley or public place in the City, any salt or salt water, or any kerosene, benzene, gasoline, lubricating oil, or other similar oil or oily substance. Provided, however, that the ordinary and natural drip from vehicles and their axels, bearings and equipments, when the same are carefully handled and operated, is allowed. (Ord. 1125; 1968 Code § 10-79)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 6 SIDEWALKS

PART 1 CONSTRUCTION AND MAINTENANCE

SECTION:

- 19-6-101: Definition
- 19-6-102: Sidewalks to Conform to Grade
- 19-6-103: Responsibility of Adjacent Property Owners
- 19-6-104: Notice to Repair; Procedure
- 19-6-105: Irrigation Boxes Crossing Sidewalk
- 19-6-106: Gates Over Sidewalk or Alley

19-6-101: DEFINITION: Within that part of the streets and avenues of the City which lie between the property line and the curb shall be a sidewalk. Any public right of way, between property lines, which provides pedestrian access to adjacent properties, platted as a mid-block walkway, shall be deemed a sidewalk for purposes of this Chapter. Sidewalks shall be constructed in accordance with the City Standard Specifications. (Ord. 3587; 1968 Code § 12-13)

19-6-102: SIDEWALKS TO CONFORM TO GRADE: No sidewalk, curb or gutter shall be constructed until the proper line and grade for the same shall have been approved by the City Engineer, and the same shall be constructed in accordance with the lines and grades approved by said Engineer and subject to his superintendence, direction and control. It shall be unlawful for any person to construct, or cause to be constructed, any sidewalk, curb or gutter in any different manner than is provided for in this Section or upon any line or grade different from that established by the City Engineer. If any sidewalk, curb or gutter shall be constructed at a line or grade other than as established or approved by the City Engineer, the City Engineer shall direct the responsible person to cause such sidewalk, curb or gutter to be taken up and relaid at his own expense within a reasonable time. If the responsible person shall fail or refuse to relay the sidewalk to the proper line and grade, the City Engineer is authorized to do so, using City work forces or by contract, and all costs may be charged

to the responsible party. If the responsible party fails to pay such costs and charges within thirty (30) days after billing is mailed, the same shall be assessed to the abutting property in the manner and with the effect provided in Article 1 of Chapter 7 of this Code. (Ord. 753; 1968 Code § 12-12; 1980 Code)

19-6-103: RESPONSIBILITY OF ADJACENT PROPERTY OWNERS:

- A. **Cleaning and Repairing of Sidewalks.** Every owner of property within the City shall keep and maintain the sidewalks which abut upon their property in a clean, safe condition and in a good state of repair, free from holes, projections and obstructions. The said owner shall be primarily liable and also shall be held primarily responsible to any person who may be injured or damaged in consequence of and by reason of failure to keep and maintain said sidewalks in a clean, safe condition and in a good state of repair free from holes, projections and obstructions as aforesaid. (Ord. 2452; 1968 Code § 10-83)
- B. **Cleaning Sidewalks and Gutters.** The owners or agents of the owners of vacant lots, and the owners or agents or occupants of houses, warehouses, stores or tenements and grounds belonging thereto or occupied by them, shall keep the sidewalks in front of and adjoining such property clean and free of all debris and litter. (Ord. 812; 1968 Code § 10-84)

19-6-104: NOTICE TO REPAIR; PROCEDURE:

No property owner shall be entitled to any notice from the City or its agent of the necessity for repairs to or reconstruction of any sidewalk abutting upon his property as a prerequisite to the duty of making such repairs by such property owner.

The City Engineer may cause notice of the need for repairs or reconstruction of any sidewalk to be served upon the owner of the property upon which said

sidewalk abuts. Such notice shall be in writing and may be addressed to such owner at the address of said property. If said repairs or reconstruction shall not be made within thirty (30) days after the mailing or delivery of said notice, the City may cause said repairs or reconstruction to be made either by its own forces or by private contractor and bill the cost of said repairs or reconstruction to the abutting owner. If the owner fails to pay such costs and charges within thirty (30) days after billing is made the same shall be assessed to the abutting property in the manner and with the effect provided in Article 1 of Chapter 7 of this Code.

Upon determination in writing by the Director of Public Works that said sidewalk dislocation, breakage, projections or obstructions or other cause for repair or reconstruction is caused directly or indirectly by tree or tree roots within the parking area between said sidewalk and the curb or paved or traveled portion of the street, the owner may cause said reconstruction or repairs to be accomplished by private contractor and within the limits of funds available therefor, the City will reimburse him for one-half (½) the cost thereof, provided such cost does not exceed the amount per square foot as determined by the Director of Public Works to reflect the prevailing cost index therefor. (Ord. 2452; 1968 Code § 10-91)

19-6-105: IRRIGATION BOXES CROSSING

SIDEWALK: It shall be the duty of any and all persons owning or in charge of any premises having boxes for irrigation crossing the sidewalk abutting said lot or premises, to keep said boxes securely covered. It shall be unlawful for any owner, agent or person in charge of such premises to fail or refuse to keep such box or boxes securely covered. (Ord. 2452; 1968 Code § 10-88)

19-6-106: GATES OVER SIDEWALK OR

ALLEY: It shall be unlawful for any owner, agent or person in charge of premises to cause or permit any gate, door or similar structure to remain open, over or across any alley or sidewalk of this City, so as to interfere in any manner with the free use of the alley or sidewalk. (Ord. 2452; 1968 Code § 10-89)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 6 SIDEWALKS

PART 2 SNOW REMOVAL

SECTION:

- 19-6-201: Snow Removal Required; Time Limits
- 19-6-202: Assess Cost of Removal
- 19-6-203: Procedure for Assessment and Notice
- 19-6-204: Snow Fund
- 19-6-205: Penalty

19-6-204: **SNOW FUND:** All moneys received by the City Treasurer under the provisions of this Part 2 shall be credited to the fund or funds out of which the expense of such snow removal was paid. (Ord. 935; 1968 Code § 10-95)

19-6-205: **PENALTY:** The remedy provided in this Part 2 is cumulative and the fact that an assessment has been made as herein provided shall not prevent the owner, occupant, agent or lessee from being prosecuted for a violation of the ordinances of the City. In the event of conviction a penalty as provided by Article 2 of Chapter 1 of this Code may be imposed upon any person found guilty of violating the provisions of any other ordinance of the City relating to the removal of snow from sidewalks the same as if said assessment had not been made or paid. (Ord. 935; 1968 Code § 10-96)

19-6-201: **SNOW REMOVAL REQUIRED; TIME LIMITS:** It shall be unlawful for the owner, occupant or agent for any lot, parcel or tract of land to permit snow to remain on the sidewalk upon which such lot, parcel or tract of land abuts for a period exceeding twenty four (24) hours after the termination of the falling snow. The obligation imposed by this Section shall extend to the center line of such walkway in regard to a midblock walkway. (Ord. 3587; 1968 Code § 10-92)

19-6-202: **ASSESS COST OF REMOVAL:** If at the end of such twenty four (24) hour period such snow has not been removed from the sidewalk, the Director of Public Works may cause the same to be removed and bill the entire cost thereof, including the cost of inspection and other incidental costs in connection therewith, upon the lot, parcel or tract of land abutting upon said sidewalk. (Ord. 3587; 1968 Code § 10-93)

19-6-203: **PROCEDURE FOR ASSESSMENT AND NOTICE:** At least once a year the Director of Public Works shall compile all unpaid billings for snow removal and, in compliance with Article 1 of Chapter 7 of this Code, shall institute proceedings thereunder leading to the assessment of the charges against the individual properties benefited by the removal of snow. Several assessments may be included in a single ordinance. (1980 Code)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 6 SIDEWALKS

PART 3 OBSTRUCTIONS

SECTION:

19-6-301: Loading on Sidewalks

19-6-302: Storage on Sidewalks

19-6-301: **LOADING ON SIDEWALKS:**¹ It shall be unlawful for any person, while receiving or delivering goods, wares, merchandise or baggage to permit the same to remain on any sidewalk, or in any alley longer than is necessary to convey such articles to or from the premises abutting on such sidewalk or alley, or to or from which such articles are being delivered or received, and for this purpose to occupy over four feet (4') of the outer edge of the sidewalk. (Ord. 921; 1968 Code § 10-97)

19-6-302: **STORAGE ON SIDEWALKS:**² It shall be unlawful for any person to use any street, alley or sidewalk for the storage of goods, wares or merchandise of any kind or description whatever. (Ord. 921; 1968 Code § 10-98)

1. For regulations relating to the parking of vehicles for loading purposes, see Chapter 22, Article 14 of this Code.
2. For further provisions, see the Building Code, Chapter 16 of this Code.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 1 IMPROVEMENTS NEEDED

SECTION:

- 19-7-101: Purpose
- 19-7-102: Definitions
- 19-7-103: Council Authorized to Make Improvements
- 19-7-104: Procedures
- 19-7-105: Petition, Procedures, Limitations
- 19-7-106: Adopt Plans and Specifications
- 19-7-107: Notice to be Published
- 19-7-108: Failure to Receive Notice
- 19-7-109: Separate Designations Unnecessary
- 19-7-110: Council May Order Utility Connections; Alternative Procedure
- 19-7-111: Commence Actions Against Proceedings
- 19-7-112: Officers Authorized to Take Action
- 19-7-113: Provisions Superseded
- 19-7-114: Liability During Construction of Public Improvements

19-7-101: PURPOSE:

- A. The purpose of this Article is to provide a procedure for special improvement projects for a designated area or district within the City.
- B. This Article being necessary to secure the public health, safety, convenience and welfare, shall be liberally construed to effect its purposes. (Ord. 74-108; 1968 Code § 12-101)

19-7-102: DEFINITIONS:¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

ACQUIRE or ACQUISITION: The establishment, purchase, construction, securing, installation, reconstruction, lease, gift, grant from the State or Federal government, any public body or person, endowment, bequest, devise, condemnation,

transfer, assignment, option to purchase, other contract or other acquirement or any combination thereof of facilities, or any interest therein, herein authorized.

ASSESSABLE PROPERTY or ASSESSABLE TRACT: The tracts of land specially benefited by any project the cost of which is wholly or partly defrayed by the levy of assessments.

ASSESS or ASSESSMENT: A special assessment, or the levy thereof, against any tract specially benefited by any project to defray wholly or in part the cost of the project, which assessment shall be made on a front-foot, zone, subzone, area or other equitable basis as may be determined by the Council. Council may take into account zoning, present or intended use, current assessed and market value and location or proximity to the project.

ASSESSMENT LIEN: A lien on a tract created by ordinance of the City to secure the payment of an assessment levied against that tract.

BOND: A special obligation payable from special assessments and any other special fund authorized by law.

COST or COST OF THE PROJECT: All or any part designated by the Council of the cost of any public improvement, or interest therein, being acquired and of all or any property, rights, easements, privileges, agreements and franchises deemed by the City to be necessary or useful and convenient therefor or in connection therewith, which cost, at the option of the Council, may include all or any part of the incidental costs pertaining only to the project, including, without limiting the generality of the foregoing, preliminary expenses advanced by the City from funds available for use therefor in the making of studies, surveys, preliminary plans, estimates of cost, assessment plats, other preliminaries, the costs of appraising, printing, employing engineers, professional consultants, architects, attorneys at law, clerical help, other

¹ For definitions of general application, see Section 1-1-203 of this Code.

agents or employees, the costs of capitalizing interest or any discount, or both interest and discount, on any bonds, of inspection, of any administrative and other expenses of the City appertaining to the project and becoming due prior to the levy and collection of special assessments, and of replacement expenses or for payment or security of principal or interest on any securities, the costs of making, publishing, posting, mailing and otherwise giving any notice in connection with the project, the taking of options, the issuance of securities, the filing or recordation of instruments, the levy and collection of special assessments and installments thereof, the costs of reimbursements by the City to any public body, the Federal government, or any person of any moneys therefor expended for or in connection with any such facility or project, and all other expenses necessary or desirable and appertaining to any public improvement, as estimated or otherwise ascertained by the Council.

DISTRICT: The geographical area within the City designated and delineated by the City Council as a special improvement district, in which the project is located and in which each tract to be assessed therefor is situated. A district may consist of noncontiguous tracts.

ENGINEER: The City Engineer, or a firm of design, engineering or architectural professional consultants whose surveys, plans and specifications are accepted by the City Council, whether such consultants are employed by the City, another governmental agency or a private person or organization, in connection with any facility, property, project or power herein authorized.

OWNER: In reference to petitions, means only persons in whom the record fee title is vested, although subject to lien or encumbrance.

PAVING: Includes repaving, macadamizing and remacadamizing.

REAL PROPERTY:

A. Land, including land under water and airspace over land;

B. Buildings, structures, fixtures and improvements on land;

C. Any property appurtenant to or used in connection with land; and

D. Every estate, interest, privilege, easement, franchise, and right in land, legal or equitable, including, without limiting the generality of the foregoing, rights of way, terms for years, and liens; charges or encumbrances by way of judgment, mortgage, or otherwise; and the indebtedness secured by such liens.

SECURITIES: Any bonds, temporary bonds, interim warrants, or other obligations of the City appertaining to any project or interest therein, herein authorized.

SPECIAL SURPLUS AND DEFICIENCY FUND: The special account and special fund created and maintained with moneys remaining to the credit of a district when all outstanding bonds of the district have been paid, pursuant to Section 43, Article VII of the City Charter and to Sections 19-7-502, 19-7-510 and 19-7-805 of this Code.

STREET: Includes avenues, boulevards, alleys and other highways.

STORM DRAINS: Includes mains, conduits, pipes, retention reservoirs, open ditches, channels, restricted channels or drainage areas and other appropriate facilities for storm drainage.

TRACT: Any tract, lot or other parcel of land for assessment purposes, whether platted or unplatted, regardless of lot or land lines. Lots, plots, blocks and other subdivisions may be designated in accordance with any recorded plat thereof; and all lands, platted and unplatted, shall be designated by a definite description, as provided herein. (Ord. 74-108; 1968 Code § 12-101)

19-7-103: COUNCIL AUTHORIZED TO MAKE IMPROVEMENTS: The City Council shall have the power to contract for and make local improvements, or by itself to make local improvements, sometimes called public improvements, and to assess the costs thereof, all or in part, against the property especially benefited, as provided in this Chapter. All contracts for public improvements shall be awarded by the City Council in accordance with the specifications adopted by it, and such improvements may be made, all or in part, under independent contract or by the City. (Ord. 2771; 1968 Code §§ 12-17, 12-18)

19-7-104: PROCEDURES:

- A. All proceedings to improve streets, alleys and public highways and parts thereof by construction or reconstruction, replacement, renewal or extension within the City by:

Paving or surfacing with suitable material,

Grading,

Curbing,

Guttering,

Storm drains,

Wastewater sewers,

Water mains and lines,

Sidewalks

Otherwise improving the whole or any part or parts of any street or streets, alley or alleys, or streets and alleys, which need not be connected or contiguous in the City,

Or any combination of said improvements, including necessary grades, crosswalks, curbs, drains, readjusting manholes, catchbasins and such other incidentals, including storm drains, wastewater sewers or water mains and lines or any combination thereof incidental to paving, as the City Council may prescribe,

may be begun by the adoption by the City Council of a resolution, (or by the filing of a petition),¹ which resolution shall state the nature and location of the improvement or improvements to be made without mentioning minor details or incidentals, and describe the local improvement district to be assessed by boundaries or other brief description and direct the engineer to prepare and present to the Council:

1. Preliminary plans and specifications for such improvement or improvements;

- A) 2. An estimate of the probable total cost thereof, including, without limiting the generality of the foregoing, the cost of constructing or otherwise acquiring such improvement or improvements, engineering and clerical service and supplies, cost of inspection, cost of collection assessments, advertising, printing, interest on bonds until interest on assessments is available to defray such fiscal services, legal services for preparing proceedings and advising in regard thereto, and other incidental costs; and
3. A map of the local improvement district to be assessed. (Ord. 2786; 1968 Code § 12-19)
- B. Any estimate of cost required or authorized in this Article shall not constitute a limitation upon such cost nor a limitation upon the rights and powers of the City Council or of any officers, agents or employees of the City, except as herein otherwise specifically stated. (Ord. 2771; 1968 Code § 12-19)
- C. Whenever necessary, rights of way for streets and alleys may be purchased or condemned by the City and the cost charged to the district. (1980 Code)

19-7-105: PETITION, PROCEDURES, LIMITATIONS: A public work or improvement, the costs of which in whole or in part are to be assessed by the City, may be initiated on petition of property owners, as follows:

The owner or owners of a three-fourths ($\frac{3}{4}$) majority of the frontage, of the area or of whatever other measurement constituting the basis for computation of assessments is therein provided of the assessable property, may, by written petition to be submitted no later than October 31 of the year preceding the acquisition of the proposed improvement or public work, initiate the acquisition of any improvement which the City Council is authorized to initiate, subject to the following limitations:

- A. The Council may incorporate such improvement in any improvement district or districts initiated pursuant to Section 19-7-103.
- B. The Council need not proceed with the acquisition of any such improvement or any

1. Petition procedures are set out in Section 19-7-105 of this Article.

- B) part thereof after holding a hearing thereon pursuant to Part 2 of this Article if the Council shall determine that it is not in the public interest that the proposed project or a part thereof be made.
- C. Any particular kind of improvement, or any material therefor, or any part thereof, need not be acquired or located, as provided in the petition, if the Council shall determine that such is not for the public interest.
- D. The Council need not take any proceedings or action upon receiving any such petition if the Council shall thereupon determine by resolution that the acquisition of the designated improvement probably is not feasible for a reason or reasons stated in such resolution. Alternatively, the resolution may require a cash deposit or a pledge of property in at least an amount or value therein designated to be probably sufficient to defray the expenses and costs of the acquisition of the improvement designated in the petition. If such deposit or pledge is not made with the City Treasurer within twenty (20) days after one publication in a newspaper of general circulation in the City of a notice of the resolution's adoption and of its content in summary form, then the acquisition shall not proceed. An additional deposit or pledge may from time to time be similarly so required as a condition precedent to the continuation of action by the City. Whenever such deposit or pledge is so made and thereafter the Council shall determine that such acquisition is not feasible within a reasonable period of time, the Council may require that all or any portion of the costs theretofore incurred in connection therewith by the City after its receipt of the petition shall be defrayed from such deposit or the proceeds of such pledged property. (Ord. 2771; Ord. 81-195; 1968 Code § 12-20)

Upon the filing of such a petition, the City Council shall proceed in the same manner as is provided for by this Chapter where proceedings are initiated by the City Council. (Ord. 2771; 1968 Code § 12-21)

19-7-106: **ADOPT PLANS AND SPECIFICATIONS:**

- A. The City Council shall by resolution adopt the

- A) preliminary plans and specifications and the map of the engineer for the proposed improvement and shall prescribe:

1. The extent of the local improvement district to be assessed (by boundaries or other brief description);
2. The kind of improvement or improvements proposed (without mentioning minor details);
3. The number of installments and the time in which the cost of the improvement or improvements will be payable;
4. The probable cost as shown by the total estimate of the engineer, which estimate shall not constitute a limitation upon the cost of the project nor for any other purpose;
5. The amount or proportion of the total cost to be paid by other than special assessments, if any;
6. The method of levying assessments; and
7. The approximate amount or share of the portion of said total estimate to be assessed against property specially benefited by the acquisition of the improvement or improvements proposed.

- B. In that same resolution the Council shall fix a time and place for hearing within thirty (30) days after the adoption of the resolution. (Ord. 2771; 1968 Code § 12-22)

19-7-107: **NOTICE TO BE PUBLISHED:** The City Clerk shall cause a notice to be published for one day in a daily newspaper of general circulation in the City not less than ten (10) days prior to the hearing. The notice shall be addressed to the owners of assessable property in the local improvement district and to all persons interested, generally, and without naming such owners or persons, of:

- A. The kind of improvements proposed (without mentioning minor details or incidentals);
- B. The number of installments and time in which the cost of the improvements will be payable;
- C. The maximum rate of interest on unpaid installments;

- D. The extent of the district to be assessed (by boundaries or other brief description);
- E. The time when the City Council will consider the ordering of the proposed improvements and hear all complaints, remonstrances and objections that may be made in writing concerning the same, by the owner of any real property to be assessed or any person interested; and
- F. The fact that all proceedings in the premises are on file and can be seen and examined at the office of the City Clerk during business hours, at any time, by any person so interested. (Ord. 2771; 1968 Code § 12-23)

19-7-108: FAILURE TO RECEIVE NOTICE:

- A. Whenever any notice is mailed, as required in this Article, the fact that the person to whom it was addressed does not receive it shall not in any manner invalidate or affect the proceedings herein provided for. (Ord. 2771; 1968 Code § 12-88)
- B. The City Council hereby finds, determines and declares that the giving of notice in accordance with Sections 19-7-107, 19-7-202 and 19-7-702 of this Article is reasonably calculated to inform the owners of property to be assessed of the hearings provided for in this Article, and that the giving of any further notice is impractical and unnecessary to the assurance of due process of law to such property owners. (Ord. 2771; 1968 Code § 12-89)

19-7-109: SEPARATE DESIGNATIONS UNNECESSARY:

In all proceedings and notices authorized by this Article, figures may be used instead of words and it shall not be necessary in an improvement district to designate each piece of real estate in the district separately but general description and quantities may be used except in the assessment rolls, and except in assessments any cost stated may be stated as being a probable amount per front foot, or per square foot, or per lot of a given size and proportionate amounts for other lots, or when a different method of assessment is provided, then as being subject to such method. (Ord. 2771; 1968 Code § 12-90)

19-7-110: COUNCIL MAY ORDER UTILITY CONNECTIONS; ALTERNATIVE PROCEDURE:

If the connection of abutting properties to gas or water mains or wastewater sewers is not included as a part of a public improvement district for the paving of any street or alley, before paving any district in pursuance of this Chapter, the City Council may order the owners of the abutting real estate to connect their several premises with the gas or water mains or wastewater sewers, or with any other utilities in the street or alley adjacent to their several premises. On default of the owners for thirty (30) days after the order to make such connections, the Council may contract for and make the connections in accordance with such specifications as may be prescribed by the Council and the whole cost of each connection shall be assessed against the premises with which the connection is made. Any number of such connections may be included in one contract and notice shall be given to the owner of the property to be assessed as is provided for the giving of notice for the construction of sidewalks as provided for in this Chapter, but the cost shall be paid upon the completion of the work, and in one sum, and shall not be subject to remonstrance. The cost shall be collected in the same manner as is provided in this Chapter for the collection of assessments for sidewalks, and upon default in the payment of any assessment, real estate may be assessed in like manner and with like effect, or suit may be brought for the collection of the cost. (Ord. 2771; 1968 Code § 12-86)

19-7-111: COMMENCE ACTIONS AGAINST PROCEEDINGS:

All actions, legal or equitable, for relief against any proceedings had under this Chapter whether based upon irregularities or jurisdictional defects, shall be commenced within thirty (30) days after the wrongful act complained of, or else be thereafter perpetually barred. (Ord. 2771; 1968 Code § 12-91)

19-7-112: OFFICERS AUTHORIZED TO TAKE ACTION:

The officers of the City be, and they hereby are, authorized and directed to take all action necessary or appropriate to effectuate the provisions of this Chapter. (Ord. 2771; 1968 Code § 12-92)

19-7-113: **PROVISIONS SUPERSEDED:** C.R.S. 1973 § 31-20-106 is superseded. (Ord. 3631; 1968 Code § 12-94)

19-7-114: **LIABILITY DURING CONSTRUCTION OF PUBLIC IMPROVEMENTS:** When any contractor, subdivider or any person other than the departmental forces of the City, commences the construction of any public improvement whatsoever, public liability for the condition and maintenance of such public improvement shall be that of the contractor, subdivider, or such other person undertaking construction thereof until such public improvement, upon completion, shall have been inspected by the Department of Public Works for compliance with City specifications, and accepted by the City; provided, however, that nothing herein shall be construed to limit the liability of the City, its employees or agents, for its or their own acts in regard to any such improvement between commencement of contracts and acceptance by the City. (Ord. 4020; 1968 Code § 12-95)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 2 HEARINGS AND OBJECTIONS

SECTION:

- 19-7-201: Public Hearing, Owners to File Objections
- 19-7-202: City Clerk to Provide Objection Blanks
- 19-7-203: Objections Waived
- 19-7-204: Council May Stop Proceedings
- 19-7-205: Improvements Authorized Over Objections
- 19-7-206: Legality of Objections
- 19-7-207: Proceedings Modified, Limitations
- 19-7-208: Engineer to Prepare and Present Modifications
- 19-7-209: Council to Credit for Existing Improvements
- 19-7-210: Council Finding, Conclusion; Property Owner Appeal
- 19-7-211: File Complaint Against Owner, Service of Process

19-7-201: PUBLIC HEARING, OWNERS TO FILE OBJECTIONS: On the date fixed for the public hearing on proposed local improvements, any and all property owners interested in the improvements may appear in person and be heard. Any property owner who wishes to object to such improvements shall no later than noon of the preceding day of the date fixed for the hearing file with the City Clerk his objections or protests to the proposed improvements upon a blank to be furnished by the City Clerk and to be in the form provided in Section 19-7-202 below. The City Council may adjourn the hearing from time to time. (Ord. 2771; Ord. 83-72; 1968 Code § 12-24)

19-7-202: CITY CLERK TO PROVIDE OBJECTION BLANKS: The blanks on which the property owners interested in any proposed improvements shall designate their objections shall provide a place for the property owner interested to designate his objection and a space in which such property owner may state his reasons or other remarks concerning his objection and a place for the

signature of the property owner. The City Clerk shall address to each property owner to be affected by the proposed improvements one such blank and a written notice containing the same information as the notice required by Section 19-7-105 hereof, at least ten (10) days before the date fixed for the hearing provided for in Section 19-7-201; such addresses and owners being those appearing on the real property assessment rolls for general (ad valorem) taxes of El Paso County, Colorado. Property owners or other persons to be affected by the proposed improvements in the event they do not receive a blank or a written notice addressed to them by the City Clerk may secure either or both by calling in person or by their duly authorized agent at the office of the City Clerk.¹ (Ord. 2771; 1968 Code § 12-25)

19-7-203: OBJECTIONS WAIVED: Any objection to the regularity, validity and correctness of the proceedings prior to the date of said hearing shall be deemed waived unless presented in writing in substantially the same form, at the time, and in the manner herein specified. (Ord. 2771; 1968 Code § 12-26)

19-7-204: COUNCIL MAY STOP PROCEEDINGS: After the hearing, if the City Council shall determine that the local improvement is not for the public interest and that the proposed improvements or any part thereof, should not be made and paid for either out of the General Fund or by any method of assessment, it shall make an order to that effect and thereupon the proceedings for the improvements, or the part thereof determined against by the order, shall stop. (Ord. 2771; 1968 Code § 12-27)

19-7-205: IMPROVEMENTS AUTHORIZED OVER OBJECTIONS: Said improvements, or any part thereof, may be authorized and made over any protest or written remonstrance after the Council shall have found and declared by a vote of at least six (6) of its members that the public

¹. As to effect of an owner's failure to receive such blanks or "ballots", see Section 19-7-108 of this Chapter.

interest requires the making of said improvements or any part thereof. (Ord. 2771; 1968 Code § 12-28)

19-7-206: LEGALITY OF OBJECTIONS:

Whenever an objection or a remonstrance of a property owner or owners against public improvements purported to be executed under the authority of this Chapter is filed with the City Council, the Council shall canvass the same and determine whether or not the remonstrance is legally sufficient under the requirements of this Chapter. Such determination shall be final and conclusive as to the legal sufficiency of the remonstrance. (Ord. 2771; 1968 Code § 12-29)

19-7-207: PROCEEDINGS MODIFIED, LIMITATIONS:

All proceedings may be modified or rescinded wholly or in part by resolution adopted by the City Council at any time prior to the passage of the ordinance adopted pursuant to Section 19-7-208 authorizing the project. No substantial change in the district, details, preliminary plans or specifications or estimates shall be made after the first publication or mailing of notice to property owners, whichever occurs first, except for the deletion of a portion of a project and property from the proposed district. The Engineer, however, shall have the right to make minor changes in time, plans and materials entering into the work at any time before its completion. (Ord. 2771; 1968 Code § 12-30)

19-7-208: ENGINEER TO PREPARE AND PRESENT MODIFICATIONS:

If after the hearing the local improvement district is modified, the City Council shall direct the Engineer to prepare and present to the Council:

- A. A revised and detailed estimate of the total cost, including, without limiting the generality of the foregoing, the cost of constructing and otherwise acquiring each proposed improvement and of each of the incidental costs, which revised estimate shall not constitute a limitation for any purpose;
- B. Full and detailed plans and specifications for each proposed improvement designed to permit and encourage competition among the bidders, if any improvement is to be acquired by contract; and

C. A revised map showing the location of each improvement and the real property to be assessed therefor.

D. Whenever an accurate estimate of cost, full and detailed plans and specifications, and map are prepared, are presented and are satisfactory to the Council, it shall adopt an ordinance prescribing:

1. The extent of the local improvement district to be assessed, if any, by boundaries or other brief description;
2. The kind and location of each improvement proposed (without mentioning minor details);
3. The amount or proportion of the total cost to be defrayed by special assessments, the method of levying assessments, the number of installments and the times in which the costs assessed will be payable. The Engineer may further revise such cost, plans and specifications and map from time to time for all or any part of any project and the ordinance may be appropriately amended prior to letting any contract or any work being done. (Ord. 2771; 1968 Code § 12-31)

19-7-209: COUNCIL TO CREDIT FOR EXISTING IMPROVEMENTS:

If at the time of the passage of the ordinance authorizing the improvements for any district, any piece of real estate in the district has the whole or any part of the proposed improvements conforming or approximately conforming to the general plan, the City Council may adopt them in whole or in part, or make the necessary changes to make them conform to the general plan, and the owner of the real estate shall, when the assessment is made, be credited with the amount which is saved by reason of adopting or adapting the existing improvements. (Ord. 2771; 1968 Code § 12-38)

19-7-210: COUNCIL FINDING, CONCLUSION; PROPERTY OWNER APPEAL:

The finding of the City Council by ordinance that any improvement provided for in this Chapter was duly ordered after notice duly given, or that a petition or objection was or was not filed, or was or was not duly subscribed by the required number of owners shall be conclusive in every court or other tribunal.

Within fifteen (15) days immediately succeeding the publication of said ordinance upon its final passage, any person who has filed a written objection, as hereinabove provided, shall have the right to commence an action or suit in any court of competent jurisdiction to correct or set aside the determination of the City Council to the contrary. Any person concerned who objects to the regularity, validity and correctness of proceedings and instruments taken, adopted or made at or subsequent to said hearing and prior to the final passage of said ordinance shall also have the right so to commence such an action or suit to cure or set aside such purported irregularity, invalidity or incorrectness. Nothing herein shall be construed as not requiring any person to make any objection in writing prior to said hearing in order not to waive such objections, if the purported irregularity, invalidity or incorrectness of any matter first occurred prior to the first publication of the notice of the hearing. After the expiration of said fifteen (15) days, all actions or suits not so commenced attacking the regularity, validity and correctness of that ordinance and of all proceedings, determinations and instruments taken, adopted or made prior to said ordinance's final passage, shall be perpetually barred. Provided, however, that if an action is commenced pursuant to Section 19-7-211 hereof, any party to such action may answer and defend at the time and in the manner provided in said Section. (Ord. 2771; 1968 Code § 12-39)

19-7-211: FILE COMPLAINT AGAINST OWNER, SERVICE OF PROCESS:

At any time after the passage of an ordinance adopted pursuant to Section 19-7-208 hereof, the City may, at its discretion, direct the City Attorney to file a complaint in the District Court in and for El Paso County, Colorado, in the name of the City, against all or any of the respective owners of the tracts or parcels of land assessed or to be assessed for any improvement ordered to be made praying for a declaratory judgment. In its complaint the City shall generally allege all procedures followed in arriving at the assessment made or to be made, and the special benefits which will accrue to the tracts or parcels of land within the district by reason of the construction of said improvements. The prayer of the complaint shall be that the court confirm and validate all proceedings and each and every assessment within said district subject to the action of the Court. (Ord. 2771; 1968 Code § 12-40; 1980 Code)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 3 CONTRACTS AWARDED

SECTION:

- 19-7-301: Award Contracts; Bond
- 19-7-302: Default; Reletting Contract
- 19-7-303: City Council May Reject Bids
- 19-7-304: Conditions of Contract
- 19-7-305: Cooperation with Other Governmental Agencies
- 19-7-306: Contractor to Provide Maintenance Guarantee, Exceptions

19-7-301: AWARD CONTRACTS; BOND: All contracts for local improvements shall be awarded by the City Council to the lowest reliable and responsible bidder, after public advertisement for one day in the official newspaper of the City, the first publication to be not less than ten (10) days before bids are to be opened. The successful bidder shall post bond for the faithful performance of the contract, with good and sufficient surety. (Ord. 2771; 1968 Code § 12-32)

19-7-302: DEFAULT; RELETTING CONTRACT: Upon default in the performance of any contract provided for herein the City Council may advertise and let a contract for the uncompleted work in like manner, without further ordinance, and charge the cost thereof to the defaulting contractor on his contract. When a deficiency in such case shall occur, the City Council may advance the amount thereof out of any available fund of the City, and recover the same by suit on the original contract and bond, if any. (Ord. 2771; 1968 Code § 12-33)

19-7-303: CITY COUNCIL MAY REJECT BIDS: In all advertisements, the City Council shall reserve the right to reject any or all bids, and if all bids are rejected, may again advertise without enacting a new ordinance under Section 19-7-208. (Ord. 2771; 1968 Code § 12-34)

19-7-304: CONDITIONS OF CONTRACT: Every contract shall contain a clause to the effect that it is subject to the provisions of the Charter and of the ordinance authorizing the improvement; that, upon ten (10) days' notice, the work under the contract may, without cost or claim against the City, be suspended by the Council for substantial cause; and, that upon complaint of the owner of any of the real estate to be assessed for the improvements, that the improvement is not being constructed in accordance with the contract, the Council shall consider the complaint and thereupon make such order in the premises as may be just and the decision of the Council shall be final. (Ord. 2771; 1968 Code § 12-35)

19-7-305: COOPERATION WITH OTHER GOVERNMENTAL AGENCIES: Subject to the aforesaid but without intending by this provision to limit any powers of the City, it may enter into and carry out any contract or establish or comply with the rules and regulations concerning labor and materials and other related matters in connection with any project or portion thereof as the City may deem desirable or as may be requested by the United States of America, the State of Colorado, or any Federal or State agency, instrumentality or corporation or other political subdivision that may assist in the financing of any project or any part thereof. Any improvement or improvements any portion of the cost of which may be defrayed by the City by the levy of special assessments hereunder, may be acquired with the cooperation and assistance of, or under a contract or contracts let by, or with labor, or supplies and materials, or all of such furnished by, the United States of America, the State of Colorado, or any Federal or State agency, instrumentality or corporation, or other political subdivision. Advantage may be taken of any offer from any source to complete any improvement or improvements on a division of expense or responsibility. The Engineer on behalf of and in the name of the City is authorized to make any such

improvement or improvements in such a manner.
(Ord. 2771; 1968 Code § 12-36)

**19-7-306: CONTRACTOR TO PROVIDE
MAINTENANCE GUARANTEE,**

EXCEPTIONS: In all cases of paving and of the construction of curb, gutter or sidewalk the specifications and contract may provide that the contractor shall guarantee by good and sufficient corporate surety, that the paving, curb, gutter or sidewalk shall remain in good order and repair for a period up to five (5) years after construction and such assurance shall be conditioned that the contractor shall make all necessary repairs during the period stated in the contract without further charge or expense to the City or to the property owner paying for the paving, curb, gutter or sidewalk; subject, however, to the exception that if any repair shall be made necessary by an act of nature or casualty not occasioned by the act or default of the contractor, then there shall be no liability under the guarantee. (Ord. 2771; 1968 Code § 12-37)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 4 WASTEWATER SEWER AND STORM DRAINAGE IMPROVEMENTS

SECTION:

- 19-7-401: Council May Establish Sewer and Drainage Systems
- 19-7-402: Sewers and Drains Constructed as Ordered by Council
- 19-7-403: Construction of District Sewers, Designate Wastewater Sewer Districts
- 19-7-404: Sub-District Laterals
- 19-7-405: Cost of District Drains and Sewers Assessed
- 19-7-406: Construction of Submain Defined
- 19-7-407: Temporary Connection from Property Without District
- 19-7-408: Private Sewers No Expense to City
- 19-7-409: Procedure for District Sewers
- 19-7-410: City May Extend Existing Sewers
- 19-7-411: Connection to District Sewer
- 19-7-412: Invalid Assessments, Cost of Connection

19-7-401: COUNCIL MAY ESTABLISH SEWER AND DRAINAGE SYSTEMS: The City may establish and maintain wastewater sewer or storm drainage systems, which systems may be divided into districts and subdistricts, and may without creating such districts and subdistricts, include within any public improvement district such incidental water mains, storm drains and wastewater sewers as may be prerequisite to the improvements authorized in such public improvement district in order to avoid interference with street or other improvements in such district by subsequent installation of said incidental mains and sewers. (Ord. 3481; 1968 Code § 12-50)

19-7-402: SEWERS AND DRAINS CONSTRUCTED AS ORDERED BY COUNCIL: The storm drains or wastewater sewers shall be established and constructed at such time, in such locations or to such extent, dimensions and materials, and in accordance with such full details and specifications as may be prescribed by the City Council. Whenever necessary, rights of way for any

storm drains or wastewater sewers ordered by the Council may be purchased or condemned by the City and the cost charged to such district. (Ord. 2771; 1968 Code § 12-51)

19-7-403: CONSTRUCTION OF DISTRICT SEWERS, DESIGNATE WASTE-WATER SEWER DISTRICTS: In addition to any power otherwise exercisable by reason of this Chapter, the City Council may order the construction of district facilities and appurtenances for wastewater sewers for districts to be known as wastewater sewer districts; and, the construction of district facilities and appurtenances for storm drainage for districts to be known as storm drainage districts. Such districts shall be approved by ordinance passed by a vote of six (6) of the members elected to the City Council. The sewers or drains shall be constructed so as to connect, within or without the district, with some other or sufficient sewer or drain or with some natural drainage. The Council may, in its discretion, divide any of said districts into subdistricts, to be specifically named or numbered in the ordinance. If the Council divides any district into subdistricts it shall by ordinance determine which of said district sewers or drains is of special benefit to the tracts or parcels of land in the district as a whole, which sewers or drains shall be known as "district mains" and which sewers or drains are of special benefit to the tracts or parcels of land in each subdistrict, which sewers or drains shall be known as "subdistrict laterals". District mains, except as otherwise provided, shall include all submains necessary to provide outlets for all subdistrict laterals within the district.

Incidental drains and sewers authorized in Section 19-7-401 hereof may be incorporated with other public improvements in the ordinance establishing any public improvement district, and when so incorporated may be approved according to the provisions of Section 19-7-208 without the voting requirements of this Section. (Ord. 3481; 1968 Code § 12-52)

19-7-404: SUBDISTRICT LATERALS: The City Council may at the time of ordering the construction of district mains, or at any time thereafter, order the construction of subdistrict laterals in any such subdistrict, so as to connect the same with the submains or with the district mains, the same to be approved by ordinance as in the case of district mains. (Ord. 2771; 1968 Code § 12-53)

19-7-405: COST OF DISTRICT DRAINS AND SEWERS ASSESSED: The cost of district storm drains or wastewater sewers shall be assessed upon all the real estate in the district, in proportion as the area of each piece of real estate in the district is to the area of all the real estate in the district, exclusive of public highways and streets. If a district has been divided by the Council into subdistricts pursuant to Section 19-7-403 hereof, the cost of district mains shall be assessed upon all the property in the district as aforesaid and the cost of subdistrict laterals shall be assessed in like manner upon all the real estate in the subdistrict. The amount of any assessment against property of a street or other railway company within the district, including but not limited to the amount of assessments against property owned or controlled by said company as a right of way, shall be computed as aforesaid, provided, however, that the assessment shall be enforced in the same manner and to the same effect as provided in Section 19-7-603B hereof. Notwithstanding the provisions of this Section, the cost of incidental mains and sewers authorized by Sections 19-7-401 and 19-7-403 hereof, shall be assessed upon all the lots and lands abutting upon such mains and sewers in the proportion as the frontage or depth of each lot or tract of land is to the frontage or depth of all lots and tracts so abutting. An equitable adjustment in any assessment may be made as provided in Section 19-7-605 hereof. (Ord. 3481; 1968 Code § 12-54)

19-7-406: CONSTRUCTION OF SUBMAIN DEFINED: The construction of any submain may be omitted until such time as it may be required, in which case, subdistricts so left without submains shall not be assessed for any part of the cost of submains constructed along with and as a part of the sewer or drainage district. Whenever submains so omitted are required and constructed, they may be ordered as provided for other sewers, and their cost shall be assessed to the subdistricts

which are supplied with submains. (Ord. 2771; 1968 Code § 12-55)

19-7-407: TEMPORARY CONNECTION FROM PROPERTY WITHOUT DISTRICT:

Temporary connections may be made from any wastewater sewer from property lying without the districts, with the consent of the Council and upon such terms as it may require. (Ord. 2771; 1968 Code § 12-56)

19-7-408: PRIVATE SEWERS NO EXPENSE TO CITY:

Private sewers or drains connected with district sewers or drains may be constructed under such restrictions and subject to such regulations as may be prescribed by the Council, but no expense shall be incurred by the City in constructing or maintaining them. The City shall have the power by ordinance to compel the owners of any premises in any sewer or drainage district or subdistrict to connect the same with the district or subdistrict sewer or drain at their own expense. (Ord. 2771; 1968 Code § 12-57)

19-7-409: PROCEDURE FOR DISTRICT SEWERS:

In ordering the construction of district storm drains or wastewater sewers or in ordering the construction of incidental mains and sewers authorized in Section 19-7-401 hereof, and incorporated in any public improvement district, as authorized in Section 19-7-403 hereof, the Council shall proceed as provided in Section 19-7-103 of this Chapter and in all other provisions of this Chapter thereunto enabling. (Ord. 3481; 1968 Code § 12-58)

19-7-410: CITY MAY EXTEND EXISTING SEWERS:

The City may extend and maintain any existing wastewater sewer or storm drain, wherever constructed, from its outlet to any point within or without the City. Such extensions shall be established and constructed at such times, in locations within or without the City, of such extent, dimensions, material and in accordance with such full details and specifications as may be prescribed by the Council. Necessary rights of way may, upon the order of the Council, be purchased or condemned on behalf of the City, and the whole cost thereof, sewers and rights of way may be paid by the City. (Ord. 2771; 1968 Code § 12-59)

19-7-411: CONNECTION TO DISTRICT SEWER:

No lot, premises or tract in any wastewater sewer district shall be connected with the district wastewater sewer unless, before the completion of the project, a prorata share of the estimated cost shall be paid, or after completion the assessment has been paid, except that in cases where the cost of sewers is to be assessed upon property in a district and the payment therefor has been fixed by the Council to be made in installments, then connections may be made at any time when deemed advisable by the Engineer. (Ord. 2771; 1968 Code § 12-60)

19-7-412: INVALID ASSESSMENTS, COST OF CONSTRUCTION:

If in any wastewater sewer district or storm drainage district any assessment upon the lots therein for the completion of the sewer or drain has in any court of competent jurisdiction been held invalid, the owner of any lot in the district shall only be permitted to connect with such sewer or drain upon payment of such amount as may be fixed by Council. Nothing contained in this Part 4 concerning wastewater sewer districts or storm drainage districts shall be construed as applicable to wastewater sewers or storm drains constructed as an incidental part of a paving program. (Ord. 2771; 1968 Code § 12-61)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 5 PUBLIC IMPROVEMENT BONDS

SECTION:

- 19-7-501: Issuance of Bonds
- 19-7-502: Form, Payment from Assessments
- 19-7-503: Bonds Not Debt of City
- 19-7-504: Bonds Not Invalid Due to Defect
- 19-7-505: Bond Maturities
- 19-7-506: Bonds Negotiable
- 19-7-507: Bonds, Registration, Change of
City Officers
- 19-7-508: Use of Bond Proceeds
- 19-7-509: Call Bonds, Procedure
- 19-7-510: Excess Funds
- 19-7-511: City May Pay Preliminary Expenses,
Repayment from Bond Proceeds

- C) their delivery, in payment of the amounts due under the contract or contracts. The contractor or contractors may be required to accept delivery of all or any part of the remainder of the authorized issue of bonds and to pay therefor the principal amount thereof and accrued interest to the date of delivery, so that money will be available to the City to be expended in the payment of the incidental expenses for the payment of which the bonds were in part authorized. In advertising for construction bids as provided in Section 19-7-301 of this Article, the Council may stipulate that the contractor must accept bonds in payment of the contract price as provided in this subsection. (Ord. 2771; Ord. 82-34; 1968 Code § 12-62)

19-7-501: ISSUANCE OF BONDS:

- A. Public improvement bonds of the City may be issued to pay for local improvements ordered by City Council under the provisions of this Chapter.
- B. Such bonds may be sold in such manner as may be approved by the City Council for the payment of the contractor or contractors, for defraying the reasonable costs for labor, supplies and materials acquired by the City or supplied under agreement with the United States of America, the State of Colorado, or any Federal or State agency, instrumentality or corporation, or other political subdivision and for all proper incidental expenses. Sufficient of said bonds or the proceeds therefrom may be used to pay for engineering and clerical service and supplies, inspection, collecting assessments, advertising, printing, accrued interest on outstanding bonds, fiscal services, legal services and other incidentals.
- C. Such bonds may be delivered to the contractor or contractors in payment for the amounts due such contractor or contractors. Such bonds shall be accepted for the principal amount thereof, plus interest due thereon to the date of

19-7-502: FORM, PAYMENT FROM ASSESSMENTS:

- A. All local improvement bonds shall be of such form and of such date as may be prescribed by the Council, shall be issued in the name of the City and bear the name of the district to be improved, shall be payable to bearer at a designated time in a sufficient period of years to cover the period of construction and payments provided for, but subject to call as hereinafter provided, in convenient denominations. All such bonds shall be issued by the City Treasurer upon estimates of the Engineer approved by the Council; and the City Treasurer shall preserve a record of the same in a suitable book kept for the purpose. The bonds shall be manually subscribed by the City Treasurer and shall bear the engraved, printed, stamped or otherwise reproduced facsimile of the signature of the Mayor, attested by the City Clerk with the Seal of the City affixed thereto.
- B. The bonds, both principal and interest, shall be payable only out of moneys collected on account of the assessments for the improvements in any district, except as hereinafter provided. Such assessments shall be applied to the payment of the bonds issued

- B) for the same district only, until the payment of all the said bonds. The payment of said bonds shall be additionally secured by a pledge of and made from the special surplus and deficiency fund, and whenever four-fifths (4/5) of the bonds of any public improvement district have been paid and cancelled, and for any reason the remaining assessments are not paid in time to take up the final bonds of the district and there is not sufficient money in said special surplus and deficiency fund, then the City shall pay said bonds when due and reimburse itself by collecting the unpaid assessments due said district, all as authorized by Section 43 under Article VII, City Charter. (Ord. 2771; 1968 Code § 12-63)

19-7-503: BONDS NOT DEBT OF CITY: Bonds issued pursuant to this Chapter shall not be a debt of the City, and the City shall not be liable thereon, nor shall it thereby pledge its full faith and credit for their payments, nor shall the bonds be payable out of any funds other than the special assessments and other moneys pledged to the payment thereof, as herein authorized. Each bond issued under this Chapter shall recite in substance that said bond and the interest thereon are payable solely from the special assessments and/or other moneys pledged to the payment thereof. The payment of bonds shall not be secured by an encumbrance, mortgage or other pledge of property of the City except for such special assessments and other moneys pledged for the payment of bonds. No property of the City, subject to said exceptions, shall be liable to be forfeited or taken in payment of the bonds. (Ord. 2771; 1968 Code § 12-64)

19-7-504: BONDS NOT INVALID DUE TO DEFECT: Bonds issued hereunder shall not be invalid for any irregularity or defect in the proceedings for their issuance, sale or delivery and shall be incontestable in the hands of bona fide purchasers or holders for value. (Ord. 2771; 1968 Code § 12-65)

19-7-505: BOND MATURITIES: Special assessment bonds shall bear such date or

dates, shall mature in such denomination or denominations at such time or term, or serially at such times, not exceeding the estimated life of the improvements acquired with the bond proceeds and in any event not more than twenty (20) years from their date, shall bear interest payable annually, or at such lesser interval or intervals as may be prescribed by ordinance, shall be payable in such medium of payment at such place or places within or without the State of Colorado, and at the option of the City Council may be in one or more series, may be made subject to prior redemption in advance of maturity at such time or times without or with the payment of such premium or premiums not exceeding five percent (5%) of the principal amount of each bond so redeemed, except as provided in Section 19-7-509 of this Article, may provide for the payment of interest thereon from the proceeds thereof for a period not to exceed three (3) years from the date thereof, may be issued with privileges for registration for payment as to principal or interest, or both, and generally shall be issued in such manner, in such form, with such recitals, terms, covenants and conditions, and with such other details, as may be provided by the Council in the ordinance or ordinances authorizing the bonds, except as herein otherwise provided. (Ord. 2771; Ord. 82-34; 1968 Code § 12-66)

19-7-506: BONDS NEGOTIABLE: Except for payment provisions herein specifically provided, said bonds and any interest coupons hereto attached shall be fully negotiable within the meaning of and for all the purposes of the Commercial Code - Investment Securities.¹ (Ord. 2771; 1968 Code § 12-66)

19-7-507: BONDS, REGISTRATION, CHANGE OF CITY OFFICERS: Except for such bonds which are registrable for payment of interest, interest coupons shall be payable to bearer; and they shall be attached to the bonds and shall bear the original or facsimile signatures of the officers signing the bonds. The bonds and coupons bearing the signatures of the officers in office at the time of the signing thereof shall be the valid and binding obligations of the City, notwithstanding that before the delivery thereof and payment therefor, any or all

1. See C.R.S. 1973 § 4-3-101. The original draft of this provision referred to the negotiable instruments law.

of the persons whose signatures appear thereon shall have ceased to fill their respective offices. (Ord. 2771; 1968 Code § 12-67)

19-7-508: USE OF BOND PROCEEDS: All moneys received from the issuance of any bonds herein authorized shall be used solely for the purpose or purposes for which issued, including, without limiting the generality of the foregoing if so authorized, the payment of preliminary expenses incurred in connection with said purpose, the payment of interest on such bonds for a period not to exceed three (3) years from the date thereof, and all other incidental expenses; provided, however, that any unexpended balance of such bond proceeds remaining after the completion of the acquisition or improvement of the project or service for which such bonds were issued shall be paid immediately into the fund created for the payment of the principal of said bonds and shall be used therefor. The validity of said bonds shall not be dependent on nor affected by the validity or regularity of any proceedings relating to the acquisition or improvement of the project or service for which the bonds are issued; and the purchaser or purchasers of the bonds shall in no manner be responsible for the application of the proceeds of the bonds by the City or any of its officers, agents and employees. (Ord. 2771; 1968 Code § 12-68)

19-7-509: CALL BONDS, PROCEDURE:

Whenever considered advisable by the City Treasurer he may, and whenever funds may be in his hands to the credit of any local improvement district exceeding the amount of interest on the unpaid principal accruing on the next principal payment date and if maturing serially the principal accruing on the next principal payment date, he shall by publication at least once not less than fifteen (15) days prior to the redemption date, in some newspaper of general circulation in the City, call in a suitable number of bonds of such district for payment for the principal amount thereof and accrued interest to the redemption date. After the redemption date so designated interest on the bonds so called shall cease. Nothing herein contained shall be construed as preventing the City from providing that such bonds shall be redeemed only on interest payment dates. The notice shall specify the bonds so called by number and all such bonds shall be paid in the order designated in the authorizing ordinance. The holder of any bonds may at any time furnish his

post office address to the City Treasurer and in such case a copy of such advertisement shall be mailed by the City Treasurer to the holder of the bonds called, at such address, within three (3) days of the date of such publication. (Ord. 2771; 1968 Code § 12-69)

19-7-510: EXCESS FUNDS: When all outstanding bonds have been paid in a public improvement district and any money remains to the credit of said district, it shall be transferred to the special surplus and deficiency fund; and whenever there is a deficiency in any improvement district to meet payment of outstanding bonds, it shall be paid out of said fund, pursuant to Section 43 under Article VII, City Charter. (Ord. 2771; 1968 Code § 12-70)

19-7-511: CITY MAY PAY PRELIMINARY EXPENSES, REPAYMENT FROM BOND PROCEEDS:

The City may provide for the payment of all necessary preliminary expenses actually incurred in the making of surveys, estimates of costs and revenues, the employment of engineers, architects, fiscal agents, attorneys at law, clerical help, other agents or employees, the making of notices, taking of options, and all other expenses necessary or desirable to be made and paid prior to the authorization for or the issuance of such bonds; provided, no such expenditures shall be made or paid unless an appropriation has been budgeted and made therefor in the manner as is required by law, or unless other moneys are available to defray such expenses. Any funds so expended by the City for preliminary expenses incurred in connection with the same purpose as that for which bonds are issued may be fully reimbursed and repaid to the City out of the proceeds derived from the issuance of such bonds, in which case such expenses shall be included as an incidental cost for assessment purposes. By the ordinance authorizing the issuance of such bonds, the amount so advanced by the City to pay such preliminary expenses may be made a first charge against such bond proceeds. (Ord. 2771; 1968 Code § 12-71)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 6 ASSESSMENT PROCEDURES

SECTION:

- 19-7-601: Council to Determine Assessments
- 19-7-602: Council Assessments Final, Exception
- 19-7-603: Public and Quasi-Public Lands Assessed
- 19-7-604: Intersection Improvements
- 19-7-605: Irregular Shaped Lands
- 19-7-606: Sidewalk Improvements
- 19-7-607: Entire Cost Assessed, Basis

19-7-601: COUNCIL TO DETERMINE ASSESSMENTS: Whenever any improvement authorized to be made by the City pursuant to this Article is so completed or so near completion that the final cost can be computed, the City Council shall determine that all or any part of the total cost thereof, but excepting the share to be assessed against any street or other railway company, shall be assessed against the tracts or parcels of land specially benefited thereby and included within the district, but not including any tract or parcel owned by the United States of America, or any agency, instrumentality or corporation thereof or any streets or public highways. Such special assessments shall be in proportion to the special benefits derived to such property and on a front foot, area, zone or other equitable basis, as may be determined by the City Council, sufficient to cover the portion of the total cost of the improvement to be defrayed by special assessments. (Ord. 76-76; 1968 Code § 12-41)

19-7-602: COUNCIL ASSESSMENTS FINAL, EXCEPTION: The assessments when made and apportioned and adopted by the City Council shall be final, and thereafter no such assessments shall be apportioned or allocated or divided as to different portions or tracts of the property so assessed but the entire tract so assessed shall be liable for the entire assessment on the tract. Provided, however, that where the original assessment has been made upon all or parts of two (2) or more platted lots, the City Council may, after

hearing and determination that no person in interest will be injured and that the collection of the assessment will not thereby be prejudiced, order the assessment allocated or apportioned as between the two (2) platted lots, but no separation or allocation shall be made as to any part or portion of one such lot.¹ (Ord. 2771; 1968 Code § 12-42)

19-7-603: PUBLIC AND QUASI-PUBLIC LANDS ASSESSED:

- A. Public Lands. When the City, County, school district or any other public or quasi-public corporation shall own any tract of land, or hold the title to any land not used as a street, avenue, boulevard, alley or public highway, which if owned by a private person would be liable to assessment for benefits to pay for any public improvement mentioned in this Chapter, an assessment shall be made against the land as though the land were the property of a private person, and the City, County, school district or other public or quasi-public corporation shall pay the amount of the assessment. If the assessment is not paid within thirty (30) days after the final publication of the assessing ordinance, suit may be brought in the district court to enforce the collection of the assessment and the judgment rendered against the City, County, school district or other public or quasi-public corporations, but no such land of the City, County or school district shall be sold under any such judgment. (Ord. 2771; 1968 Code § 12-43)
- B. Railway Companies. In addition to any other powers exercisable pursuant to this Chapter, the Council may include in the area to be improved the portion of any street occupied or repaired by franchise obligation to be paved, or chargeable or assessable to any street, interurban or other railway company whose tracks run through or across any street in the district, and may charge to, assess and collect

¹. See Section 19-7-711 of this Chapter.

- B) the proper proportion as determined by the Council, of the cost of the improvement from said street, interurban or other railway company in the same manner as is provided in this Chapter in the case of other property specially benefited. Provided, however, the assessment levied for the cost of any improvements chargeable to a railway company shall be a first and prior lien against the entire franchise and property of the company within the district, and also without the district, but within the limits of the City, subject to general taxes. All the terms, conditions and provisions in this Chapter contained relative to the collection of the amounts chargeable against tracts or parcels of land assessed shall be applicable in the enforcement and collection of the assessment against the street, interurban or other railway company, and the property of said railway company shall, in case of default in payment of the assessment, be sold as in cases of default in payment of general taxes levied thereon. (Ord. 2771; 1968 Code § 12-44)

19-7-604: INTERSECTION IMPROVEMENTS: In case of the improvement of any street, except as otherwise provided in this Chapter, the cost of the improvements in any and all street intersections, except sidewalks, and further excepting the share, if any, to be paid by street or other railroad companies, shall be included in the total cost of the improvements within the district and assessed upon all other lots and lands in the district in the proportion as the frontage of all lots and tracts in the district; provided, however, that the City Council may provide that the City may pay for the intersection improvements out of its general revenues, if funds therefor are available. (Ord. 2771; 1968 Code § 12-45)

19-7-605: IRREGULAR SHAPED LANDS: When any real estate is "V" shaped or of any irregular form, the City Council may, upon the recommendation of the City Engineer, make such allowance in the assessment thereon as to the Council may seem equitable or just, so that the assessment thereagainst shall be in proportion to the special benefits thereby derived, if such were not the case in the absence of such in adjustment. (Ord. 2771; 1968 Code § 12-46)

19-7-606: SIDEWALK IMPROVEMENTS:¹

- A. Owner May Make Improvements. In districts for the construction and reconstruction of sidewalks alone, or in combination with other improvements, the work shall include the necessary grading from curb line to lot line. The owner shall have the right to construct or reconstruct his own walks, in conformity with the plans and specifications for the district, within thirty (30) days from the publication of the ordinance authorizing the improvement upon obtaining a permit to construct or reconstruct said walks from the Department of Public Works and upon the deposit with the City Treasurer of a surety bond in an amount satisfactory to said City Treasurer. Whenever sidewalks are ordered, in combination with improvements other than grading sidewalk areas, a separate contract may be let for the construction and reconstruction of the sidewalks, exclusive of the necessary grading. (Ord. 2771; 1968 Code § 12-47)
- B. Order Sidewalk Improvements Other Than in Districts, Procedure. The City Council may order the construction or reconstruction of sidewalks, other than in districts, whenever in the opinion of the Council it shall be proper because sufficient sidewalks have been laid in the vicinity to make it reasonable that intervening sidewalk areas should be provided with sidewalks, or existing sidewalks shall be reconstructed; in all such cases the City Council shall notify the owner or his agent to construct or reconstruct such walks within forty five (45) days from the date of the service of such notice. Such notice shall be in writing and served upon the owner by certified or registered United States mail. Whenever the owner shall be in default, the Council may have the required work done by day labor or contract, and when done, issue to the person doing the work a certificate therefor, stating the just amount due him, which certificate shall draw interest at the rate not less than the highest interest rate borne by the bonds of the local improvement district per annum until paid, and the assessment shall be a lien upon the property until it shall be paid; in case of failure to pay such assessment within thirty (30) days after the issuance of the certificate the same may be certified by the City Clerk to the County Treasurer to be collected in the same

¹. See Article 6 of this Chapter for additional procedures relating to construction and maintenance of sidewalks.

- B) manner as other taxes are collected, with ten percent (10%) penalty thereon to defray the cost of collection. All the laws of the State for the assessment and collection of general taxes, including the laws for the sale of property for taxes and their redemption of the same, shall apply and have as full effect for the collection of the assessment for sidewalks as for general taxes. (Ord. 2771; Ord. 83-72; 1968 Code § 12-49)

19-7-607: ENTIRE COST ASSESSED, BASIS: The whole cost of construction and reconstruction of sidewalks, including intersections and necessary grading and removal of obstructions shall be assessed upon the lots or lands in front of which the improvements are made as follows: the grading, removal of obstructions, intersections and all other general expenses, including cost of collection and interest, prorata per front foot; new walks, prorata per front foot where constructed; and reconstructed walks upon each lot or piece of land where reconstructed according to the cost of reconstruction. (Ord. 2771; 1968 Code § 12-48)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 7 ASSESSMENT ROLL, PAYMENTS

SECTION:

- 19-7-701: Prepare Statement, Assessment Roll
- 19-7-702: Hearing on Assessment Roll, Notice, Procedure
- 19-7-703: Assessments a Lien, Exceptions
- 19-7-704: Council May Make New Assessment
- 19-7-705: Engineer Shall Extend Assessment Roll
- 19-7-706: Date Assessments Due, Installments
- 19-7-707: Failure to Pay Installment When Due, Penalties, Reinstatement
- 19-7-708: Annual, Semiannual Installments; Interest
- 19-7-709: Payments Made to Treasurer
- 19-7-710: County Treasurer to Receive Installment Payments
- 19-7-711: Owner May Pay Share
- 19-7-712: County Treasurer to Pay Monthly
- 19-7-713: City May Purchase Tax Sale Property

19-7-701: **PREPARE STATEMENT, ASSESSMENT ROLL:**

- A. Upon the completion of any local improvement in any district or any subdistrict, and upon the acceptance thereof by the City Council, or whenever the total cost of such improvement can be definitely ascertained, the City Engineer shall prepare a statement, showing the total cost of the improvement within the district or subdistrict, including, without limiting the generality of the foregoing, the cost of constructing or otherwise acquiring such improvement or improvements, engineering and clerical service and supplies, cost of inspection, cost of collecting assessments, advertising, printing, interest on bonds until interest on assessments is available to defray same, fiscal services, legal services for preparing proceedings and advising in regard thereto, and other incidental costs.
- B. The City Engineer shall also prepare an assessment roll which shall contain among other things:

- B) 1. The names of the last known owners of the property to be assessed, or if not known that the name is unknown;
- 2. A description of each tract or parcel of land to be assessed and in the case of street or other railway company a general description of the franchise and property thereof assessed; and
- 3. The amount of the assessment thereon.

The City Council shall order the City Engineer to certify, and he shall so certify, the assessment roll to the City Council by filing the same in the office of the City Clerk when the roll is prepared. (Ord. 2771; 1968 Code § 12-73)

19-7-702: **HEARING ON ASSESSMENT ROLL, NOTICE, PROCEDURE:**

- A. When the assessment roll is so certified and filed, the City Council shall fix a time and place when objections or remonstrances thereto by the owners of such real estate to be assessed, street or other railway companies, and all interested persons will be heard.
- B. The City Clerk shall thereupon give notice of the proposed assessments and of the hearing thereon by publication for one day not less than ten (10) days prior to the hearing, in a daily newspaper of general circulation in the City, and by mailing notice, postage prepaid, as first class mail, not less than ten (10) days prior to such hearing, to the last known address of each last known owner of the land within the district whose property will be assessed for the cost of the improvements, such addresses and owners being those appearing on the real property assessment rolls for general (ad valorem) taxes of El Paso County, Colorado. The notice shall state:
 - 1. That such assessment roll is on file in the City Clerk's office;

B) 2. The date of filing the same; and

3. The time and place when and where the City Council will hear and consider objections and remonstrances to the assessment roll and to the proposed assessments by the parties thereby aggrieved. The owner or owners of any property which is assessed in such assessment roll, such street or other railway company, or other interested persons, whether or not named in said roll, may, at any time after the first publication of said notice and prior to the day of the hearing, file with the City Clerk his or their specific objections in writing. Any objection to the regularity, validity and correctness of the proceedings, of said assessment roll, of each assessment contained therein, and of the amount levied on each tract and parcel of land, shall be deemed waived unless presented in writing at the time and in the manner herein specified.¹

C. At the time and place so designated for hearing such objections, the City Council shall hear and determine all written objections or remonstrances which have been so filed by any party interested to the regularity of the proceedings in making such assessment, and the correctness of such assessment, or of the amount levied on any particular tract or parcel of land to be assessed. The City Council may consider any other matter concerning the validity of any assessment and may adjourn such hearing from time to time. After the hearing has been concluded, after all written complaints, remonstrances and objections have been read and duly considered, and after all persons desiring to be heard in person have been heard, the Council shall consider the arguments, if any, and any other relevant material put forth. Thereafter, the Council in its discretion, may revise, correct, confirm or set aside any assessment and may order that such assessment be made do novo.

D. The Council by ordinance, shall, by reference to the assessment roll as so modified, levy the assessments in said roll. Such ordinance shall be a final determination of the regularity, validity and correctness of the proceedings, of said assessment roll, of each assessment contained therein, and of the amount thereof levied on each tract and parcel of land. That determination by the Council shall be

D) conclusive upon the owners of the property assessed. The ordinance also shall state substantially the provisions in the next succeeding paragraph of this Section.

E. Within the fifteen (15) days immediately succeeding the publication after its final passage of any ordinance so levying any special assessments, any person who has filed a written objection or objections, or written remonstrance or remonstrances, as hereinabove provided, may commence action or suit in any court of competent jurisdiction to correct or set aside such determination. Thereafter all actions or suits attacking the regularity, validity and correctness of the proceedings, of said assessment roll, of each assessment contained therein, and of the amount thereof levied on each tract and parcel of land shall be perpetually barred. (Ord. 2771; 1968 Code § 12-74)

19-7-703: ASSESSMENTS A LIEN, EXCEPTIONS:

A. All assessments made in pursuance of this Chapter shall be a lien in the several amounts assessed against each tract or parcel of land from the final publication of the assessing ordinance, and shall have priority over all other liens, claims, encumbrances and titles, whether prior in time or not and shall constitute such a lien until paid, except as follows:

1. Any assessment lien is subordinate and junior to any lien for general (ad valorem) taxes and is subject to extinguishment by the sale of any property on account of the nonpayment of general taxes; and

2. Any assessment lien on any tract or parcel of land is prior and superior to any assessment lien thereon subsequently levied.

B. As to any subdivision of any real estate assessed in pursuance of this Chapter, the assessment shall in each case be a lien upon all the subdivision exclusive of public streets and alleys in proportion to their respective areas.

C. No delays, mistakes, errors, defects or irregularities in any act or proceeding authorized by this Chapter shall prejudice or

1. As to the effect of an owner's failure to receive such notice, see Section 19-7-107 of this Chapter.

- C) invalidate any final assessment, but the same shall be remedied by subsequent or amended acts or proceedings, as the case may require, and when so remedied, the same shall take effect as of the date of the original act or proceeding. (Ord. 2771; 1968 Code § 12-75)

19-7-704: COUNCIL MAY MAKE NEW ASSESSMENT: If in any court of competent jurisdiction any final assessment made in pursuance of this Chapter is set aside for irregularity in the proceedings, the City Council may then, upon notice as required in the making of an original assessment, make a new assessment in accordance with the provisions of this Chapter. (Ord. 2771; 1968 Code § 12-76)

19-7-705: ENGINEER SHALL EXTEND ASSESSMENT ROLL: From the assessing ordinance, the City Engineer shall complete and extend the assessment roll in book form, showing in suitable columns after each piece of real estate, the amounts of each installment of principal and interest, if the same is payable in installments, and the date when such installments will become due, with suitable columns for use in case of payment of the whole amount, or of any installment or penalty, and deliver the same to the City Treasurer for collection. (Ord. 2771; 1968 Code § 12-77)

19-7-706: DATE ASSESSMENTS DUE, INSTALLMENTS: All assessments made in pursuance of this Chapter shall be due and payable without demand within thirty (30) days after final publication of the assessing ordinance. All such assessments may at the election of the owner be paid in installments with interest as hereinafter provided. Failure to pay the whole assessment within said period of thirty (30) days shall be conclusively considered and held an election on the part of all persons interested, whether under disability or otherwise, to pay in installments the amount of the assessment then unpaid. All persons so electing to pay in installments shall be conclusively considered and held as consenting to said improvements, and such election shall be conclusively considered and held as a waiver of any and all rights to question the power or jurisdiction of the City to construct or otherwise acquire the improvements, the quality of the work, the regularity or sufficiency of the of proceedings

or the validity or correctness of the assessment. The owner of any piece of real estate may at any time pay the whole unpaid principal with the interest accrued to the next interest payment date, together with penalties, if any. Subject to the foregoing provisions all installments both of principal and interest, shall be payable at such times as may be determined in and by the assessing ordinance. (Ord. 2771; 1968 Code § 12-78)

19-7-707: FAILURE TO PAY INSTALLMENT WHEN DUE, PENALTIES, REINSTATEMENT: Failure to pay any installment, whether principal or interest, when due shall cause the whole amount of the unpaid principal to become due and payable immediately, and the whole amount of the unpaid principal and accrued interest shall thereafter draw interest at the rate of one percent (1%) per month or fraction of a month until the day of sale as hereafter provided (not exceeding, however, at any time a total interest amount due of thirty percent [30%] of the principal amount of the assessment), plus two percent (2%) additional on unpaid principal and accrued interest as penalties, plus costs of collection. At any time prior to the day of sale, the owner may pay the amount of delinquent installments with accrued interest at one percent (1%) per month, or fraction of a month as aforesaid, and all penalties and costs of collection accrued and shall thereupon be restored to the right thereafter to pay in installments in the same manner as if default had not been made. (Ord. 2771; 1968 Code § 12-79)

19-7-708: ANNUAL, SEMIANNUAL INSTALLMENTS; INTEREST: In case of election to pay in installments, the assessment shall be payable in not less than two (2) or more than fifteen (15) substantially equal annual installments, or not less than four (4) nor more than thirty (30) substantially equal semiannual installments, of principal; with interest in all cases on the unpaid principal, payable annually or semiannually at a rate not less than the highest interest rate borne by the bonds of the local improvement district; as the number of installments, assessments, the period of payment and the rate of interest may be determined by the Council. Nothing herein contained shall be construed as limiting the discretion of the City Council in determining the time the first installment of principal or interest, or both, shall become due. (Ord. 2771; Ord. 83-72; 1968 Code § 12-80)

19-7-709: PAYMENTS MADE TO TREASURER:

- A. Payments may be made to the City Treasurer at any time within thirty (30) days after the final publication of the assessing ordinance, without penalty or the payment of interest. The City Treasurer shall give notice by one publication in a daily newspaper of general circulation in said City at least twenty (20) days before the end of said thirty (30) day period, of the place of payment and the time for it to close. At the expiration of said thirty (30) day period, the Treasurer shall post to the local assessment roll, all payments made to that date with the date of each payment.
- B. Said roll shall be certified by the City Clerk and by him delivered to the County Treasurer with his warrant for the collection of the same. (Ord. 2771; 1968 Code § 12-81)

19-7-710: COUNTY TREASURER TO RECEIVE INSTALLMENT PAYMENTS:

The County Treasurer shall receive payment of all assessments appearing upon the assessment roll with interest and in case of default in the payment of any installment or principal or interest when due, shall advertise and sell any and all property concerning which such default is suffered, for the payment of the whole or the unpaid assessment thereon. The advertisements and sale shall be made at the same time in the same manner, under the same conditions and penalties, and with the same effects as are provided by general law for sale of real estate in default of payment of general taxes.¹ (Ord. 2771; 1968 Code § 12-82)

19-7-711: OWNER MAY PAY SHARE: The owner of any divided or undivided interest may pay his share of any assessment upon producing evidence of the extent of his interest satisfactory to the City Treasurer.² (Ord. 2771; 1968 Code § 12-83)

19-7-712: COUNTY TREASURER TO PAY MONTHLY:

All collections made by the County Treasurer upon the assessment roll in any calendar month shall be accounted for and paid over to the City Treasurer on or before the tenth day of the next succeeding calendar month, with a separate statement for all such collections for each improvement. (Ord. 2771; 1968 Code § 12-84)

19-7-713: CITY MAY PURCHASE TAX SALE PROPERTY:

At any sale by the County Treasurer of any property for the purpose of paying any special assessments for local improvements in the City, the City Treasurer, having written authority from the City Manager, may purchase any such real estate without paying for the same in cash, and shall receive certificates of purchase therefor in the name of the City. The certificates shall be received and credited at their face value with all interest and penalties accrued by the County Treasurer on account of assessments in pursuance of which the sale was made. The certificates may thereafter be sold by the City Treasurer at their face value with all interest and penalties accrued and by him assigned in the name of the City, and the proceeds credited to the fund created by ordinance for the payment of such assessments, respectively. Such assignments shall be without recourse and the sale and assignments shall operate as a lien in favor of the purchasers and assignees as is provided by law in the case of sales of real estate in default of payment for general taxes. (Ord. 2771; 1968 Code § 12-85)

1. See C.R.S. 1973 § 39-11-101 et seq. for tax sale procedures.

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 7 PUBLIC IMPROVEMENTS

PART 8 HARDSHIP

SECTION:

- 19-7-801: Hardship Committee
- 19-7-802: Relief from Hardship, Anticipation of Default
- 19-7-803: Security for Repayment
- 19-7-804: Eligibility Criteria
- 19-7-805: Maintenance of Surplus and Deficiency Fund

19-7-801: HARDSHIP COMMITTEE: There shall be created a Hardship Committee composed of the Mayor, the City Clerk and the City Controller, which shall review applications for relief from assessments imposed under this Article. This Committee shall determine eligibility for relief, the repayment schedule and all other determinations required in the administration of this program. All decisions of this Committee shall be final, except maximum income limits for eligibility, which shall be approved by the City Council. (Ord. 76-54; 1968 Code § 12-98)

19-7-802: RELIEF FROM HARDSHIP, ANTICIPATION OF DEFAULT: Eligible persons who are determined to have such a marginal income that they cannot pay an assessment levied under this Article against the property on which they reside, may be afforded relief as hereinafter provided. If it is determined that any such person will probably default on his payments as determined under the assessing ordinance, his assessment may be paid in full by an advance from the Surplus and Deficiency fund in anticipation of default. Such person shall agree to reimburse said Fund by making monthly payments to the City Treasurer. Such monthly payments shall be not less than five dollars (\$5.00) and shall be sufficient to repay the amount advanced within a period of not more than twenty five (25) years. Interest shall be charged at the rate of three percent (3%) per annum on the unpaid balance. (Ord. 4807; 1968 Code § 12-96)

19-7-803: SECURITY FOR REPAYMENT: No such advance shall be made out of the Surplus and Deficiency Fund unless the property owner executes an installment note for the repayment of the sum advanced with interest secured by a deed of trust to the property. The note and deed of trust shall provide for acceleration so that the entire outstanding balance shall become due and payable upon the death of the obligor or the sale or transfer of the property. It shall be further provided that if at any time the City determines that the obligor is financially able to pay the outstanding balance, or that he has wilfully misrepresented his financial condition on his application, it may, upon sixty (60) days' notice, declare the entire balance due and payable. All principal and interest repaid shall be deposited in the Surplus and Deficiency Fund. (Ord. 4807; 1968 Code § 12-97)

19-7-804: ELIGIBILITY CRITERIA: In order to be eligible for relief from assessment, the applicant must:

- A. Be an individual or family who owns and occupies a one-dwelling unit residential property.
- B. Be unable to secure the necessary funds with which to make the payments required by the ordinance levying the assessment against his property.
- C. Be able to pay the assessment if payments are extended over a period not to exceed twenty five (25) years.
- D. Have a monthly net income from all sources which does not exceed limits to be set by the Hardship Committee subject to City Council approval.
- E. If the deed of trust securing repayment would not have first priority, then the applicant must demonstrate that he has equity in the property greater than the amount of the assessment. (Ord. 4807; 1968 Code § 12-99)

19-7-805: MAINTENANCE OF SURPLUS AND DEFICIENCY FUND: No advance to relieve hardship shall be made from the Surplus and Deficiency Fund if such advance would reduce the balance remaining in the fund to an amount less than five percent (5%) of all outstanding bonds issued under this Article. (Ord. 4807; 1968 Code § 12-100)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WAYS

ARTICLE 8 PUBLIC MALL PROJECTS

PART 1 GENERAL PROVISIONS

SECTION:

- 19-8-101: Purpose, Interpretation of Article
- 19-8-102: Definitions
- 19-8-103: General Powers of the City
- 19-8-104: Initiating Procedure
- 19-8-105: Effect of Estimates
- 19-8-106: Hearing and Notice
- 19-8-107: Appealing Adverse Order
- 19-8-108: Creation of District
- 19-8-109: Methods of Acquisition or Improvement
- 19-8-110: Construction by City
- 19-8-111: Cooperative Construction
- 19-8-112: Interim Warrants

19-8-101: **PURPOSE, INTERPRETATION OF ARTICLE:**

- A. The purpose of this Article is to provide a procedure for public mall projects for a designated area or district within the City.
- B. This Article being necessary to secure the public health, safety, convenience and welfare, shall be liberally construed to effect its purposes. (Ord. 74-108; 1968 Code § 12-101)

19-8-102: DEFINITIONS: The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.¹ The definitions set forth in Section 19-7-102 shall apply to this Article.

PUBLIC MALL PROJECT: One or more public streets, roads, highways, lanes, areas, sidewalks, rights of way, courts, ways or places of any nature open to the use of the public and held by the public for street and road purposes, or portions thereof, on which vehicular traffic is, or is to be, restricted in whole or in part and which is, or is to be, used exclusively or primarily for pedestrian travel,

including other improvements constructed for appearance and utility. (Ord. 74-108; 1968 Code § 12-101)

19-8-103: **GENERAL POWERS OF THE CITY:**

The City Council, on behalf of the City and in its name, without any election, shall have power from time to time to acquire, improve, equip, operate and maintain, within or without the City, or both within and without the City a public mall project. The Council, upon behalf of the City and in its name, for the purpose of defraying all the cost of acquiring or improving, or acquiring and improving, any public mall project or any portion of the cost thereof not to be defrayed with moneys available therefor from the General Fund, any special fund, or otherwise, shall have power hereunder:

- A. To levy assessments against assessable property within the City and to cause the assessments so levied to be collected;
- B. To pledge the proceeds of any assessments levied hereunder to the payment of special assessment bonds and to create liens on such proceeds to secure such payments;
- C. To issue special assessment bonds as provided by Article 7, Part 5 of this Chapter; and
- D. To make all contracts, to execute all instruments, and to do all things necessary or convenient in the exercise of the powers granted herein or in the performance of the City's duties or in order to secure the payment of its bonds; provided, however, no encumbrance, mortgage or other pledge of property, excluding any money, of the City is created thereby; and provided no property, excluding any money of the City is liable to be forfeited or to be taken in payment of the bonds. (Ord. 74-108; 1968 Code § 12-101)

19-8-104: **INITIATING PROCEDURE:**

¹ For definitions of general application, see Section 1-1-203 of this Code.

A. Whenever the Council shall be of the opinion that the interest of the City requires a public mall project, the Council by resolution shall direct the Engineer to prepare:

1. Preliminary plans showing the character and proposed location of the contemplated project;

2. A preliminary estimate of the cost of the public mall project, including incidental costs; and

3. An assessment plat or map showing thereon the area to be assessed, and showing thereon, or on an addendum thereto, the amount of estimated maximum benefits to be assessed against each and every tract in said assessment area including those tracts which are benefited, but due to the limitations of Section 19-8-202, are not to be assessed.

B. The estimate may be made in a lump sum or by unit prices, as to such Engineer may seem most desirable for the public mall facilities complete in place.

C. The resolution shall describe the public mall project in general terms and shall state and describe:

1. What part of the cost is of special benefit and shall be paid by assessments;

2. What part is proposed to be defrayed with moneys derived from other than the levy of assessments;

3. The basis by which the cost will be apportioned and assessments will be levied;

4. The improvement district, including the tracts to be assessed;

5. By definite description the location of the public mall project; and

6. That the assessment is to be made upon all the tracts benefited by the public mall project proportionately to the benefits received, subject to the limitations of Section 19-8-202.

D. It shall not be necessary in any case to describe minutely each particular tract to be assessed

D) but simply to designate the improvement district or the location so that the various parts to be assessed may be ascertained.

E. The Engineer shall forthwith prepare and file with the City Clerk:

1. Said preliminary plat;

2. Said preliminary estimate of cost; and

3. Said assessment plat or map and addendum thereto.

F. Upon the filing of said plans, preliminary estimate of cost, and plat or map, the Council shall examine the same; and if the plans, estimate, and plat or map are found to be satisfactory, the council shall by resolution order that such public mall project shall be acquired or improved, or both acquired and improved. (Ord. 74-108; 1968 Code § 12-102)

19-8-105: EFFECT OF ESTIMATES: Any estimate of cost required herein shall not constitute a limitation upon such cost nor a limitation upon the rights and powers of the Council or of any officers, agents or employees of the City. No assessment, however, shall exceed the amount of the estimate of maximum special benefits to the tract assessed from any public mall project or the limitations set forth in Section 19-8-202. (Ord. 74-108; 1968 Code § 12-103)

19-8-106: HEARING AND NOTICE: After the adoption of the resolution to proceed required by Section 19-8-104F, the hearing shall be held and notice given pursuant to the provisions and in accordance with the procedure set forth in Section 19-7-107 and 19-7-201 through 19-7-208 inclusive, the provisions of which Sections are incorporated herein by reference thereto. (Ord. 74-108; 1968 Code § 12-104)

19-8-107: APPEALING ADVERSE ORDER: Any person filing with the Council a complaint, remonstrance or objection on any one or more specific grounds in writing, shall have the right within fifteen (15) days after the Council has finally passed on such complaint, remonstrance or objection by ordinance creating the district, (i.e., fifteen days after the publication of said ordinance

upon final passage), as provided in Section 19-7-206, to commence any action or suit in any court of competent jurisdiction to correct or to set aside only such determination of the Council on any such specific and written complaint, remonstrance or objection; and thereafter all actions or suits attacking the validity of the preliminary plans, any preliminary estimate of cost, assessment plat or map, other proceedings, and any maximum amount of benefits shall be perpetually barred. (Ord. 74-108; 1968 Code § 12-105)

19-8-108: CREATION OF DISTRICT: When the accurate estimate of cost, full and detailed plans and specifications, and plat or map and addendum are prepared, are presented and are satisfactory to the Council, it shall by the ordinance required by Section 19-7-208 of this Code, create the district and order the proposed public mall project to be acquired or improved, or acquired and improved. Actions concerning the ordinance and the project may be taken in accordance with Section 19-7-211 of this Code. (Ord. 74-108; 1968 Code § 12-106)

19-8-109: METHOD OF ACQUISITION OR IMPROVEMENT:

A. Any construction work for any public mall project shall be done in any one or more of the following three (3) ways:

1. By independent contract pursuant to the procedures and requirements of Sections 19-7-301 through 19-7-304, inclusive, and Section 19-7-306 of this Code;

2. By use of municipally owned or leased equipment and Municipal officers, agents and employees; or

3. By any public body or by the Federal government acquiring or improving a public mall project or any interest therein which is herein authorized which results in general benefits to the City and in special benefits to the assessable property being assessed therefor by the City within its boundaries.

B. Notwithstanding a project herein authorized or any interest therein may not be owned by the City nor be directly acquired or improved, nor the costs thereof directly incurred by the City,

B) and notwithstanding the public mall project herein authorized or any interest therein may be located on land, an easement or other interest therein, or other real property owned by the Federal government or by a public body, the City shall have the power:

1. To acquire or improve, or to cooperate in the acquisition or improvement of, the public mall project or any interest therein with the Federal government or with any public body pursuant to agreement between or among the City and such other bodies corporate and politic so long as the public mall project or the interest therein acquired or improved, results in general benefits to the City and in special benefits to the assessable property being assessed therefor by the City within its boundaries;

2. To levy special assessments on such assessable property to defray all or any part of the costs of the project or any interest therein or to defray all or any part of the City's share of such costs if all costs are not being defrayed by the City; and

3. To issue bonds and to exercise other powers herein granted and appertaining to such acquisition or improvement, or both such acquisition and improvement. (Ord. 74-108; 1968 Code § 12-107)

19-8-110: CONSTRUCTION BY CITY: In the case of construction work done by the use of municipally owned or leased equipment and by Municipal officers, agents and employees for any project or any portion thereof in any improvement district, supplies and materials may be purchased or may be otherwise acquired therefor. All supplies and materials purchased by the City for such improvement district shall be purchased only in accordance with this Code. (Ord. 74-108; 1968 Code § 12-108)

19-8-111: COOPERATIVE CONSTRUCTION:

A. In the case of construction work done by agreement with the City and with one or more public bodies or with the Federal government, or any combination thereof, for any public mall project or any portion thereof in any improvement district, the City may enter into

- A) and may carry out any contract or may establish or may comply with the rules and regulations concerning labor and materials and other related matters in connection with any project or any portion thereof as the City may deem desirable or as may be requested by the Federal government or by any public body which is a party to any such contract with the City that may assist in the financing of any project or any part thereof, regardless of whether the City is a party to any construction contract or to any other contract appertaining to incurring costs of the project.
- B. Any public mall project or any portion of the cost of which may be defrayed by the City by the levy of special assessments hereunder, may be acquired with the cooperation and assistance of, or under a contract or contracts let by, or with labor, or supplies and materials, or all of such furnished by any one or more such public bodies or by the Federal government, or any combination thereof. (Ord. 74-108; 1968 Code § 12-109)
- D) special assessments, any bond proceeds, or both assessments and bond proceeds, and generally shall be issued in such manner, in such form, with such recitals, terms, covenants and conditions, and with such other details as may be provided by the Council by ordinance. (Ord. 74-108; 1968 Code § 12-110)

19-8-112: INTERIM WARRANTS:

- A. For the purpose of paying any contractor or of otherwise defraying any costs of the public mall project as the same become due from time to time until moneys are available therefor from the levy and collection of assessments or from any issuance of bonds, the Council may issue interim warrants.
- B. Any interim warrants issued for any construction work shall be issued only upon estimates of the Engineer.
- C. Any interim warrants shall bear such date or dates, shall mature in such denomination or denominations at such time or times or at any time upon call, shall bear interest at such rate or rates and shall be payable at such place or places including but not limited to the office of the City Treasurer, as the Council may determine.
- D. Any interim warrants may be issued with privileges for registration for payment as to only principal or as to both principal and interest, may be negotiable or non-negotiable, shall be special obligations payable from designated

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 8 PUBLIC MALL PROJECTS

PART 2 ASSESSMENT AND HEARINGS

SECTION:

- 19-8-201: Order of Proposed Assessment Roll, Form
- 19-8-202: Limitations Upon Assessments
- 19-8-203: Preparation of Proposed Roll
- 19-8-204: Notice of Assessment Hearing
- 19-8-205: Assessment Hearing
- 19-8-206: Levy of Assessments
- 19-8-207: Appeal of Adverse Determination
- 19-8-208: Payment Period; Deferred Payments
- 19-8-209: Assessment Liens; Further Procedures

19-8-201: ORDER OF PROPOSED ASSESSMENT ROLL, FORM:

- A. After the making of any construction contract, or after the determination of the net cost of the City, but not necessarily after the completion of the public mall project, the City, by resolution, shall:

1. Determine the cost of the public mall project to be paid by the assessable property in the improvement district and order the Engineer to make out an assessment roll containing, among other things:

a. The name of each last-known owner of each tract to be assessed or, if not known, that the name is "unknown", and

b. A description of each tract to be assessed and the amount of the proposed assessment thereon, apportioned upon the basis for assessments stated in the resolution required by Section 19-8-104 of this Code for the hearing on the public mall project; and

2. Cause a copy of the resolution to be furnished by the City Clerk to the Engineer.

- B. In fixing the amount that may be required to pay the costs of the public mall project, the

B) Council need not necessarily be governed by the estimates of the costs of such project required by Section 19-8-104A2 of this Code, but the Council may fix such other amount as it may deem necessary to cover the cost of the public mall project.

- C. If by mistake or otherwise any person is improperly designated in the assessment roll as the owner of any tract or if the same is assessed without the name of the owner or in the name of a person other than the owner, such assessment shall not for that reason be vitiated, but it shall in all respects be as valid upon and against such tract as though assessed in the name of the owner thereof; and when the assessment roll has been confirmed, such assessment shall become a lien on such tract and shall be collected as provided by law. (Ord. 74-108; 1968 Code § 12-111)

19-8-202: LIMITATIONS UPON ASSESSMENTS:

- A. In determining the amount to be assessed upon each individual tract of assessable property, the Engineer shall consider the zoning on such tract at the time of assessment, the present use of such property, the current assessed and market value of such property, and the location of the property in relation to the public mall project, and the proximity of such property to the public mall project.

- B. No assessment for any one public mall project may exceed the reasonable market value of the tract assessed as determined by the Engineer and by the Council, provided, however, that such tract may be assessed for more than one public mall project.

- C. Regardless of the basis used, in cases of wedge or V or any other irregular shaped tracts, the amount apportioned shall be in proportion to the special benefits thereby derived.

- D. No assessment shall exceed the amount of the estimate of maximum special benefits to the tract assessed, as provided in Section 19-8-104 of this Code.
- E. The amount of any difference between the amount of any assessment levied against any tract and the amount which would have been levied there against except that it would then have exceeded the limitations of this Section shall be defrayed by the City by other than the levy of assessments. (Ord. 74-108; 1968 Code § 12-112)

19-8-203: PREPARATION OF PROPOSED ROLL: Upon receiving the resolution, the Engineer shall make an assessment roll and state a proposed assessment upon each tract. When completed, he shall report the assessment roll to the City Council which roll shall be filed in the office of the City Clerk and numbered. (Ord. 74-108; 1968 Code § 12-113)

19-8-204: NOTICE OF ASSESSMENT HEARING:

- A. Upon receiving the assessment roll, the Council by resolution shall fix a time and a place when and where the Council will hear objections and remonstrances that may be made in writing or may be made verbally concerning the assessments by the owner of any tract or by any person interested and shall order the City Clerk to give notice of said hearing.
- B. The City Clerk shall give notice by publication and by mail as provided in Section 19-7-702 of this Code of the time and the place of such hearing, which notice shall also state:
 1. The assessment roll is on file in his office;
 2. The date of filing the same;
 3. The time and place when and where the Council will hear all objections and remonstrances that may be made in writing or may be made verbally to the assessment roll and to the proposed assessments by the parties thereby aggrieved; and
 4. Any objection or remonstrance to the regularity, validity and correctness of the proceedings, of said assessment roll, of each

- B,4) assessment contained therein, and of the amount thereof levied on each tract shall be deemed waived unless filed in writing on specific grounds. The burden of showing the Council that the benefits to the property assessed and consequently the proposed assessment are less than that shown in the assessment roll shall rest upon the owner of the tract or by any person making such objection. (Ord. 74-108; 1968 Code § 12-114)

19-8-205: ASSESSMENT HEARING: At the time and the place as designated, the Council shall hear and shall determine any written objection or remonstrance filed as hereinabove provided, any verbal views expressed in respect to the proposed assessments, to the assessment roll, or the assessment procedure; and the Council may adjourn the hearing from time to time. The Council by resolution shall have power in its discretion to revise, correct, confirm or set aside any assessment and to order that such assessment be made de novo. (Ord. 74-108; 1968 Code § 12-115)

19-8-206: LEVY OF ASSESSMENTS: After the assessment roll is in final form and is so confirmed by resolution, the Council by ordinance shall levy the assessments in said roll. Such decision, resolution and ordinance shall be a final determination of the regularity, validity and correctness of the proceedings, of the assessment plat, of said assessment roll, of each assessment contained therein, and of the amount thereof levied on each tract. Such determination by the Council shall be conclusive upon the owners of the property assessed. The assessment roll shall be prima facie evidence in all courts and tribunals of the regularity of all proceedings preliminary to the making thereof and the validity of the assessments and the assessment roll. (Ord. 74-108; 1968 Code § 12-116)

19-8-207: APPEAL OF ADVERSE DETERMINATION: Within the fifteen (15) days immediately succeeding the publication of said assessment ordinance, after final passage, any person who has filed an objection or remonstrance on specific grounds in writing, as hereinbefore provided, shall have the right to commence an action or a suit in any court of competent jurisdiction to correct or to set aside such determination. Thereafter all actions or suits attacking the regularity, validity

and correctness of the proceedings, of the assessment plat, of said assessment roll, of each assessment contained therein, and of the amount thereof levied on each tract, including, without limiting the defense of confiscation, shall be particularly barred. (Ord. 74-108; 1968 Code § 12-117)

apply to public mall improvement districts and assessments levied therein and such Sections are incorporated herein by reference thereto. (Ord. 74-108; 1968 Code § 12-119)

19-8-208: PAYMENT PERIOD; DEFERRED PAYMENTS:

- A. All assessments made in pursuance of the assessment ordinance shall be due and payable without demand within thirty (30) days after its publication upon its final passage. Each such assessment of any part thereof may at the election of the owner be paid in installments with interest as provided in Section 19-7-708 of this Code.
- B. Failure to pay the whole assessment within said period of thirty (30) days shall be conclusively considered and held an election on the part of all persons interested, whether under disability or otherwise, to pay in installments the amount of the assessment then unpaid. All persons so electing to pay in installments shall be conclusively considered and held as consenting to the public mall project for which each such assessment was levied, and such election shall be conclusively considered and held as a waiver of any and all rights to question the power or jurisdiction of the City to acquire or to improve the public mall project, the quality of the work, the regularity or sufficiency of the proceedings, or the validity or the correctness of the assessment.
- C. The owner of any tract assessed may at any time pay the whole unpaid principal and the interest accrued to the next interest payment date, together with any prepayment premium and penalties, if any. Subject to the foregoing provisions, all installments, both of principal and interest, shall be payable at such times as may be determined in and by the assessment ordinance. (Ord. 74-108; 1968 Code § 12-118)

19-8-209: ASSESSMENT LIENS; FURTHER PROCEDURES: The provisions of Sections 19-7-108, 19-7-109, 19-7-112, 19-7-703, 19-7-704, 19-7-705, 19-7-707, 19-7-708, 19-7-709, 19-7-710, 19-7-711, 19-7-712, and 19-7-713, shall

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 8 PUBLIC MALL PROJECTS

PART 3 PUBLIC IMPROVEMENT BONDS

SECTION:

- 19-8-301: Bonds Authorized
- 19-8-302: Use of Assessments; Payment of Bonds
- 19-8-303: Remedies
- 19-8-304: Early Hearings
- 19-8-305: Decision of Council Final
- 19-8-306: Correction of Faulty Notices
- 19-8-307: Correction of Errors in Proceedings
- 19-8-308: Commence Actions Against Proceedings
- 19-8-309: Retention of Jurisdiction
- 19-8-310: Delegated Powers
- 19-8-311: Savings Clause

19-8-301: **BONDS AUTHORIZED:** Following the cash payment period set forth in Section 19-8-208 hereof, the City Council shall have the power to issue public improvement bonds in an amount not exceeding the total unpaid assessments levied to pay the cost of any public mall project, however acquired, all as provided in Article 7, Part 5 of this Chapter. (Ord. 74-108; 1968 Code § 12-120)

19-8-302: **USE OF ASSESSMENTS; PAYMENT OF BONDS:** The assessments when levied shall be and shall remain a lien on the respective tracts assessed until paid. Following the close of the cash payment period provided in Section 19-8-208, when assessments are collected, principal, interest and any prepayment premium or penalty, they shall be placed in a special fund and as such shall at all times constitute a sinking fund for and be deemed specially appropriated to the payment of the bonds and the interest thereon and shall not be used for any other purpose until the bonds and the interest thereon are fully paid; or if no bonds be issued, all assessments upon their payment shall be so appropriated and so used to defray the cost of the public mall project. (Ord. 74-108; 1968 Code § 12-121)

19-8-303: **REMEDIES:**

A. Subject to any contractual limitations binding upon the holders of any issue, any holder of bonds or trustee therefor shall have the right and power for the equal benefit and protection of all holders of bonds similarly situated:

1. By mandamus or by other suit, action or proceeding at law or in equity to enforce his rights against the City and against its Council and any of its officers, agents and employees and to require and to compel the City or its Council or any such officers, agents or employees to perform and to carry out its and their duties, obligations or other commitments under this Chapter and under its and their covenants and agreements with the bondholders;

2. By action or by suit in equity to require the City and its Council to account as if they were the trustees of an express trust;

3. By action or by suit in equity to have appointed a receiver, which receiver may take possession of any accounts and may collect, receive and apply all revenues or other moneys pledged for the payment of the bonds in the same manner as the City itself might do;

4. By action or by suit in equity to enjoin any acts or things which might be unlawful or might be in violation of the rights of the bondholders; and

5. To bring suit upon the bonds.

B. No right or remedy conferred by this Chapter upon any holder of bonds or any trustee therefor is intended to be exclusive of any other right or remedy, but each such right or remedy is cumulative and is in addition to every other right or remedy and may be exercised without exhausting and without regard to any other remedy conferred by this Chapter or by any other law. The failure of any bondholder so to proceed as herein provided shall not relieve the

- B) City, its Council, or any of its officers, agents and employees of any liability for failure to perform or to carry out any duty, obligation or other commitment. (Ord. 74-108; 1968 Code § 12-122)

19-8-304: EARLY HEARINGS: All cases in which there may arise a question of validity of any power herein granted or of any other provision hereof shall be advanced as a matter of immediate public interest and concern and shall be heard at the earliest practicable moment. The courts shall be open at all times for the purposes hereof. (Ord. 74-108; 1968 Code § 12-123)

19-8-305: DECISION OF COUNCIL FINAL: The action and decision of the Council proceeding hereunder as to all matters passed upon by the Council in relation to any action, matter or thing provided herein shall be final and conclusive. (Ord. 74-108; 1968 Code § 12-124)

19-8-306: CORRECTION OF FAULTY NOTICES: In any case where a notice is provided for herein, if the Council or the court finds for any reason that due notice was not given, the Council or the court shall not thereby lose jurisdiction, and the proceeding in question shall not thereby be void or abated; but the Council or court shall order due notice to be given and shall continue the hearing until such time as notice shall be properly given and thereupon shall proceed as though notice has been properly given in the first instance. (Ord. 74-108; 1968 Code § 12-125)

19-8-307: CORRECTION OF ERRORS IN PROCEEDINGS: It shall be the duty of the Council, and it shall have the power by any subsequent proceedings, to correct any mistakes, errors or irregularities in any of the proceedings mentioned herein. (Ord. 74-108; 1968 Code § 12-126)

19-8-308: COMMENCE ACTIONS AGAINST PROCEEDINGS: Except as provided by Sections 19-8-107 and 19-8-209, all actions legal or equitable for relief against any other or further proceedings had under this Chapter whether based upon irregularities or jurisdictional defects, shall be commenced within thirty (30) days after the wrongful

act complained of, or else be thereafter perpetually barred. (Ord. 74-108; 1968 Code § 12-127)

19-8-309: RETENTION OF JURISDICTION: The Council may continue the hearing upon any resolution or remonstrance provided for herein and shall retain jurisdiction over the acquiring or improving of any project, the levy of any assessment, or the issuance of any bond or any other matter provided for herein by reason of any adjournment or any delays, errors, mistakes or irregularities on the part of any Councilman or any City officer or any person or persons whatsoever. (Ord. 74-108; 1968 Code § 12-128)

19-8-310: DELEGATED POWERS: The officers of the City be, and they hereby are, authorized and directed to take all action necessary or appropriate to effectuate the provisions of this Chapter. (Ord. 74-108; 1968 Code § 12-129)

19-8-311: SAVINGS CLAUSE: The adoption of this Article shall not be construed to repeal or in any way affect or modify any substantive or vested right, any law authorizing the issuance of any outstanding special assessment local improvement bonds of the City, any law pursuant to which special assessments levied by the City have not been paid in full, principal, interest and any penalties, and the running of any statute of limitation in force at the time this Article becomes effective. (Ord. 74-108; 1968 Code § 12-130)

CHAPTER 19 PUBLIC PROPERTY AND PUBLIC WORKS

ARTICLE 9 SPECIAL IMPROVEMENT DISTRICTS MAINTENANCE AND SECURITY OF PUBLIC IMPROVEMENTS

SECTION:

19-9-101: Purpose
 19-9-102: Organization
 19-9-103: Contents of Petition
 19-9-104: Validity
 19-9-105: City Council Action
 19-9-106: Hearing
 19-9-107: Termination
 19-9-108: Annual Levy
 19-9-109: Boundaries
 19-9-110: Provision for Lien
 19-9-111: Advisory Committee
 19-9-112: Obligation of City

19-9-101: **PURPOSE:** The City Council shall have the power and authority to establish, by ordinance, special improvement districts, for the purpose of maintenance and security of public improvements including, but not limited to, streets, utilities, lighting, sidewalks, drainage, parking and off-street parking systems, and traffic control devices. (Ord. 79-18; 1968 Code § 12-131)

19-9-102: **ORGANIZATION:** The organization of a district shall be initiated only by a petition filed with the City Clerk. The petition shall be signed by not less than a majority of persons who own real property in the district. For purposes of this Section, a corporation or partnership shall be considered one person. After the filing of a petition, no signer shall be permitted to withdraw his name from the petition. (Ord. 79-18; 1968 Code § 12-131.1)

19-9-103: **CONTENTS OF PETITION:** The petition shall set forth:

- A. The name of the proposed district.
- B. A general description of the boundaries of the district with such certainty as to enable a property owner to determine whether or not his property is within the district.

- C. A general description of the improvements to be maintained within the district.
- D. A general description of the measures deemed appropriate for the security of the public improvements
- E. The estimated yearly cost of maintaining and securing the improvements.
- F. The mill levy required by the district to meet the cost of maintaining and securing the improvements.
- G. A request for organization of the district. (Ord. 79-18; 1968 Code § 12-131.2)

19-9-104: **VALIDITY:** Any petition having the requisite signatures shall be valid if in substantial compliance with the requirements of Section 19-9-103. The City Council may, at any time, permit the petition to be amended to correct any errors in the description of the district or in any other particular. (Ord. 79-240; 1968 Code § 12-131.3)

19-9-105: **CITY COUNCIL ACTION:** After the filing of the petition, the City Council shall set a date not less than thirty (30) or more than sixty (60) days after the petition is filed for a hearing thereon. The City Clerk shall cause a notice of the hearing to be published at least ten (10) days prior to the hearing. The City Clerk shall also mail a copy of the notice of the hearing to each owner of record of real property within the proposed district. The notice of hearing shall set forth the boundaries of the proposed district, the fact that all property in the district is subject to the lien of the indebtedness, and shall set forth the amount of the mill levy required to meet the cost of maintaining and securing the improvements as set forth in the petition. (Ord. 79-240; 1968 Code § 12-131.4)

19-9-106: **HEARING:** Upon the hearing, if it appears that the petition has the requisite number of signatures, and that the allegations of the petition are true, the City Council shall, by ordinance,

establish the district. If the City Council shall find that the petition has not been signed by the requisite number or if in the opinion of the City Council the proposed mill levy is excessive in relation to the benefit conferred, it shall dismiss the petition. The finding of the City Council on accepting or dismissing a petition shall be final and conclusive and no appeal shall lie from a determination to accept or dismiss the petition, provided, however, that nothing in this Section shall be construed as preventing the filing of subsequent petitions for similar improvements or a similar district. In establishing a district the City Council shall determine the public improvements to be maintained and secured, the amount of money necessary to be raised by a levy on the taxable real property in the district, and shall fix a rate of levy which, when levied upon every dollar of the valuation for assessment of taxable real property within the district, shall raise the amount required by the district during the ensuing fiscal year to meet the cost of maintaining and securing the public improvements. The mill levy shall not exceed the mill levy requested in the petition. (Ord. 79-240; 1968 Code § 12-131.5)

19-9-107: TERMINATION: The district so created shall continue in effect until a request to terminate the district by a petition signed by not less than a majority of persons who own real property in the district shall be filed with the City Clerk. If the City Clerk shall so certify that the petition contains the requisite number of signatures, the City Council shall set a date not less than thirty (30) nor more than sixty (60) days after the petition is filed for a hearing thereon. The City Clerk shall cause a notice of the hearing to be published at least ten (10) days prior to the hearing. The City Clerk shall also mail a copy of the notice of hearing to each owner of record of real property within the district. Upon the hearing the City Council shall determine whether to dissolve the district or keep the district in effect. If the City Council determines to dissolve the district, it shall by ordinance declare the district dissolved. The finding of the City Council on dissolving the district or keeping the district in effect shall be final and conclusive and no appeal shall lie from such a determination. If the City Council determines to keep the district in existence, no further petition to dissolve the district shall be considered for one year. (Ord. 79-18; 1968 Code § 12-131.6)

19-9-108: ANNUAL LEVY: As long as the district shall remain in effect, the City Council

shall, no later than October 1 of each fiscal year, determine for the ensuing fiscal year the public improvements to be maintained, the appropriate measures for the security of the public improvements, the amount of money necessary to be raised by a levy of taxable real property in the district, and shall fix a rate of levy which, when levied upon every dollar of the valuation for assessment of taxable real property within the district, shall raise the amount required by the district during the ensuing fiscal year to meet the cost of maintaining and securing the public improvements. The mill levy shall not exceed the mill levy set forth in the petition for creation of the district unless a subsequent petition signed by not less than a majority of those persons who own real property in the district requesting a higher mill levy is filed with the City Clerk. Upon the filing of such a petition, the City Council shall set a date not less than thirty (30) nor more than sixty (60) days after the petition is filed for a hearing thereon. The City Clerk shall cause a notice of the hearing to be published at least ten (10) days prior to the hearing. The City Clerk shall also mail a copy of the notice of hearing to each owner of record of real property within the district. Upon the hearing the City Council shall determine whether the petition has the requisite number of signatures and whether a higher mill levy is excessive in relation to the benefit conferred. The finding of the City Council to set a higher mill levy shall be final and conclusive and no appeal shall lie from such a determination. (Ord. 79-240; 1968 Code § 12-131.7)

19-9-109: BOUNDARIES: The boundaries of any district organized under this Article may be changed in the manner prescribed in this Section. The owners of property proposed to be included in the district, or if more than one tract of property, not less than a majority of persons who own the real property sought to be included, may file a petition with the City Clerk requesting that such property be included in the district. The petition shall describe the property owned by the petitioners and shall be verified. The City Clerk shall cause a notice of hearing on said petition to be published at least ten (10) days prior to the hearing on the petition by the City Council, which notice shall state the filing of such petition, names of petitioners, and descriptions of property sought to be included. The City Clerk shall also mail a copy of said notice to each owner of record of real property sought to be included in the district. The City Council, at the time and place mentioned, shall proceed to hear the petition and any

objections thereto. If the petition is granted, the City Council shall adopt an ordinance to that effect, and thereafter, said property shall be included in the district. (Ord. 79-18; 1968 Code § 12-131.8)

19-9-110: **PROVISION FOR LIEN:** All taxes levied under this Article together with interest thereon and penalties for default in payment thereof, and all costs of collecting the same shall constitute a lien, until paid, on and against the property taxed, and such lien shall be a lien as for all other general taxes. (Ord. 79-18; 1968 Code § 12-131.9)

19-9-111: **ADVISORY COMMITTEE:** The City Council may appoint an advisory committee consisting of owners of real property within the district, to advise the City Council on the public improvements within the district to be maintained and secured and any other matters concerned with the operation of the district. (Ord. 79-18; 1968 Code § 12-131.10)

19-9-112: **OBLIGATION OF CITY:** Except as otherwise provided in this Article the City is under no obligation to provide maintenance and service within said district higher than provided elsewhere in the City. (Ord. 79-240; 1968 Code § 12-131.11)

SECTION:

19-10-101: Board Members; Terms

19-10-102: Reserved

19-10-103: Appropriation

19-10-101: **BOARD MEMBERS; TERMS:** The control, operation and management of all property used for the purposes of the Pioneer's Museum and similar uses shall be in a Board consisting of seven (7) members, known as the Pioneers' Museum Board. Said board shall consist of five (5) citizens to be appointed by the City Council one of whom shall be the City Manager, one member to be appointed by the El Paso County Pioneers' Association and one member to be appointed by the Friends of the Pioneers' Museum.

Terms of service shall be for three (3) years or until successors are appointed. Vacancies shall be filled by the appointing bodies of unexpired terms, and new appointments shall be made by the appointing bodies upon expiration of said terms. All members of said Board shall be electors of the City. (Ord. 78-10; Ord. 85-149; 1968 Code § 1-163)

19-10-102: **Reserved.**

19-10-103: **APPROPRIATION:** The City Council, in its annual budget and appropriation ordinance for each year, shall make provision for the maintenance and operation of said property. (Ord. 1534; 1968 Code § 1-165)

PART 1 FIRE PREVENTION CODE

SECTION:

20-2-101: Short Title
 20-2-102: Adoption of Fire Code and Appendices and Fire Code Standards
 20-2-103: Application and Interpretation of Provisions
 20-2-104: Definitions
 20-2-105: Amendments to Uniform Fire Code
 20-2-106: Penalties
 20-2-107: Sale of Copies

20-2-101: **SHORT TITLE:** This Part 1 may be known and cited as the Fire Prevention Code and Standards. (Ord. 86-156)

20-2-102: **ADOPTION OF FIRE CODE AND APPENDICES AND FIRE CODE STANDARDS:** Pursuant to part 2 of article 16 of title 31, C.R.S. (1977 Repl. Vol. 12, as amended) and pursuant to the Charter of the City there is hereby adopted by reference the Uniform Fire Code, 1985 Edition of the International Conference of Building Officials and Western Fire Chiefs Association, 5360 South Workman Mill Road, Whittier, California, 90601, including Appendices I-A, I-C, II-B, III-A, III-C, IV-A, V-A, VI-A, VI-C, VI-D, set forth therein but not adopting any of the appendices set forth therein. Said Appendices are deemed included as a part of any reference to the Uniform Fire Code or this Chapter. There is hereby adopted by reference the Uniform Fire Code Standards, 1985 Edition of the International Conference of Building Officials and the Western Fire Chiefs Association, 5360 South Workman Mill Road, Whittier, California, 90601. Three (3) copies of the Uniform Fire Code and three (3) copies of the Uniform Fire Code Standards are now on file in the office of the City Clerk and may be inspected during regular business hours. The above Codes are being adopted as if set out at length, subject to modifications, additions or deletions as set forth in Section 20-2-105 of this Code. (Ord. 86-156)

20-2-103: **APPLICATION AND INTERPRETATION OF PROVISIONS:**

- A. Application. The Uniform Fire Code and the Uniform Fire Code Standards hereby adopted shall apply to every building or structure either within or outside the corporate limits of the City, the use of which the City has jurisdiction and authority to regulate.
- B. Interpretation. This Part 1 shall be so interpreted and construed as to effectuate its general purpose to make uniform the local fire regulations contained herein. Article and section headings of this Part 1 and of the adopted Uniform Fire Code and Uniform Fire Code Standards shall not be deemed to govern, limit, modify or in any manner affect the scope, meaning or extent of the provisions of any article or section thereof. (Ord. 86-156)

20-2-104: **DEFINITIONS:**

- A. Wherever the word "jurisdiction" is used in the Uniform Fire Code, it shall be held to mean the City.
- B. Wherever the term "corporation counsel" is used in the Uniform Fire Code, it shall be held to mean the attorney for the City.
- C. Wherever the term "Bureau of Fire Prevention" or "Fire Prevention Bureau" is used in the Uniform Fire Code, it will be held to mean Division of Fire Prevention or Fire Prevention Division, respectively. (Ord. 86-156)

20-2-105: **AMENDMENTS TO UNIFORM FIRE CODE:** Said Uniform Fire Code Appendices as adopted are adopted subject to the following modifications, additions, or deletions as hereinafter set forth:

- A. Section 1.101: Addition to Section 1.101 the following:

"Any reference to the Uniform Fire Code, this Code or the Code includes Sections 20-1-101, 20-1-102, 20-1-103, 20-1-104, 20-2-101, 20-2-102, 20-2-103, 20-2-104, 20-2-201, 20-2-202, 20-2-203, 20-2-204, 20-2-205, 20-2-206, and 20-2-207 of this Chapter."

- B. Section 2.102: Delete Section 2.102 and substitute therefor the following:

"Section 2.102. The Chief with the approval of the Administrator, is authorized to make and enforce such rules and regulations for the prevention and control of fire and fire hazards as may be necessary from time to time to carry out the intent of this Code. Before such rules and regulations shall become effective, the same shall be approved by the City Council. Three (3) copies of such rules and regulations shall be filed with the City Clerk and additional copies shall be kept in the office of the Fire Department for distribution to the public. Nothing in this Section shall be construed to apply to the making or enforcement of Civil Service Rules and Regulations pertaining to the Fire Department or other rules and regulations pertaining to the administration of the Fire Department and the development and conduct of fire fighting personnel."

- C. Section 2.104. Delete Section 2.104 and the title to said section and substitute the following:

"Section 2.104. Chief of Fire Prevention.

(a) The Chief may designate a member of the Fire Department to exercise the powers and perform the duties of the Fire Prevention Bureau Chief as set forth in this Code. He may also be known as the Fire Marshal or Fire Prevention Engineer.

(b) The Chief of the Fire Department may detail to the Bureau of Fire Prevention such members of the Fire Department as may from time to time be necessary."

- D. Section 2.105. Add to Section 2.105 the following:

"The Fire Chief may, at his discretion, authorize the Building Official to assist in his enforcement of this Code from time to time."

- E. Section 2.201. Add a subsection (c) to Section 2.201 to read as follows:

(c) Inspection Charge - For inspecting the original installation of any tank to be used for storing flammable or combustible liquids, a charge of fifteen dollars (\$15.00)."

- F. Section 2.202(b). Delete Section 2.202(b) and substitute the following:

Section 2.202(b). The Police Department shall assist the Fire Department in its investigation whenever requested to do so."

- G. Section 2.302. Delete Section 2.302.

- H. Section 4.101. Add after the first sentence of Section 4.101 the following:

"It shall be unlawful for the owner of a covered mall or his agent to use a covered mall for which a permit is required by this Code without first having obtained such permit. The owner of such covered mall or his agent shall apply for such permit. Once a permit has been obtained by the mall owner or his agent the exhibitor in the mall shall not be required to obtain a permit.

Add to Section 4.101 subsection (a) to read as follows:

(a) The following activities set forth in Section 4.101 are hereby deleted from the requirement of a permit from the Bureau of Fire Prevention as set forth in the following titles under Section 4.101:

Aircraft Refueling Vehicles
Aircraft Repair Hangar
Automobile Wrecking Yard
Candles and Open Flames in Assembly Areas
Cellulose Nitrate Storage
Combustible Fiber Storage
Compressed Gases, Flammable
Dry Cleaning Plants
Dust Producing Operations
Excavations Near Flammable or Combustible
Liquid Pipelines
Fruit Ripening
Fumigation or Thermal Insecticidal Fogging
Garages
Highly Toxic Pesticides
High Piled Combustible Stock
Junk Yards

- H) Liquefied Petroleum Gases
Lumber Yards
Magnesium Working
Matches
Nitrate Film
Oil and Natural Gas Wells
Open Flame Devices in Marinas
Organic Coating
Ovens Industrial Baking or Drying
Parade Floats
Places of Assembly
Radioactive Materials
Radium
Refrigeration Equipment
Spraying or Dipping
Tank Vehicles
Tire Recapping
Waste Material Handling Plant
Welding and Cutting Operations"

Subsections A and B of item #18, Flammable or combustible liquids and tanks.

Section 4.101 is hereby amended by adding the following permit to Permits Required under Section 4.101:

"48. Automatic Fire-Extinguishing Systems or Standpipe Systems, as defined in Section 88.102 of the Uniform Fire Code. To enlarge, remodel, alter, repair, move, improve, remove, demolish or change any automatic fire extinguishing systems or standpipe systems as defined in Section 88.102 of the Uniform Fire Code. See Article 88.

49. Fire Detection System. As defined in subsection 10.301(f) of the Uniform Fire Code. To enlarge, remodel, alter, repair, move, improve, remove, demolish, or change any fire detection system as defined in subsection 10.301(f) of the Uniform Fire Code except where such permit is not required pursuant to this subsection. See Section 10.301(f)."

- I. Section 4.102. Add the subsections to Section 4.102 to read as follows:

"(d) No permit shall be issued for a period longer than one year.

(e) If a permit is to be issued, the Fire Prevention Bureau shall direct the applicant to pay to the City Clerk an application fee of five (\$5.00) dollars and a permit fee of ten (\$10.00) dollars

- I) shall be charged for the renewal of all permits eligible for renewal. If application for renewal is not made prior to the expiration of the permit, the application shall be treated as an application for a new permit and a five (\$5.00) dollar application fee and a ten (\$10.00) dollar permit fee shall be paid. The City Clerk is hereby authorized to designate the Fire Department as its agent for collection of fees provided herein.

(f) Subsection 4.102(e) shall not apply to permits issued for automatic fire-extinguishing systems or standpipe systems, as defined in Section 88.102 of the Uniform Fire Code by the Fire Department pursuant to Article 88 of the Uniform Fire Code, or for permits for fire detection systems as defined in Section 10.301(f) of the Uniform Fire Code. The Fire Department is authorized to collect all fees provided for in Article 88 and Section 10.301(f) of the Uniform Fire Code.

(g) The permittee shall indemnify the City, its officers, agents and employees against any claim or liability arising from or based on the violation of this Code or any other applicable law or regulation caused by any actions or omissions of the permittee arising out of the exercise of the activity authorized by the permit."

- J. Section 10.205(a). Delete subsection 10.205(a) and substitute the following:

"Section 10.205(a) General. The chief may install or require to be installed one or more gates, cables or other barricades and securely lock the same to prevent the use by unauthorized persons of any road that is not a public highway and over which the Fire Department has the right to pass, whether by easement, license, municipal ownership or otherwise, for purposes relating to fire prevention or control, provided such action does not preclude the authorized users of such road or trail from using the same.

- K. Section 10.207(h). Delete Subsection 10.207(h) and substitute the following:

"(h) Turnarounds. All dead-end fire apparatus access roads in excess of 200 feet in length shall be provided with approved provisions for the turning around of fire apparatus.

- L. Section 10.208. Delete Section 10.208 and substitute the following:

- L) (a) Officially approved numeric addresses shall be placed on all new and existing structures, including single-unit and multi-unit residential structures, in such a location and position as to be plainly visible and legible from the street, road, fire lane or other right-of-way or easement fronting the structure.

(b) Except as hereinafter set forth, such officially approved numeric addresses shall be represented by numbers that are a minimum of five inches (5'') in height with no less than one-half inch ($\frac{1}{2}$ '') stroke so as to be plainly visible and legible from a distance of at least one hundred feet (100') from the structure.

1. EXCEPTION. Nonconforming as to size numeric addresses that were lawfully existing upon a single-unit or multi-unit residential structure at the time this dimensional requirement became effective may be continued in use except:

(A) Subsequent to a complaint by a party with a determined significant interest, when a determination is made by the Building Official that the requirements of Section 20-2-105L (Section 10.208 a and b) are not met, that is, the approved numeric address is not plainly visible and legible from the street, road, fire lane or other right-of-way or easement fronting the structure or is not plainly visible and legible from a distance of at least one hundred feet (100') from the structure; or

(B) When a building permit for any purpose whatsoever is issued for a single-unit or multi-unit residential structure with such a nonconforming as to size numeric address; or

(C) When a determination is made by any enforcement officer that a change in use, either in whole or in part, has occurred in a single-unit or multi-unit residential structure such that the use of such structure is no longer exclusively residential.

2. Exception. Any area occupied by tenants of a mall or shopping center, the main entrance to which is from the inside of the mall or shopping center, or any area used for other than single-unit or multi-unit residential occupancy which abuts a public courtyard or other public space

- L) shall be identified by numbers that are a minimum of four inches (4'') in height with no less than one-half inch ($\frac{1}{2}$ '') stroke so as to be plainly visible and legible from a distance of at least fifty feet (50') from the main entrance to the area.

3. Exception. If access to a premises is provided by a private or easement or if a structure or portion of a structure is obscured by another structure or other feature, either natural or man-made, or a premises is located on the interior of a lot or block, then the numeric address shall, in addition to meeting the requirements of Section 20-2-105L (Section 10.208), be posted in a permanent manner and forever maintained at a location in the nearby vicinity of the intersections of the private driveway or easement with a public street or at a location such that the numbers are plainly visible and legible and the existence of the premises or structure is reasonably indicated. The numbers shall be on a sign that is attached to a ground stake that does not exceed thirty inches (30'') in height or shall be on a portion of a permanent structure designed and used to house the mail box. Numbers painted or stenciled on a curb shall not serve to meet this requirement.

(c) Such officially approved numeric addresses shall be represented by numbers that are contrasting in color with their background, face the street named in the address and are plain block numerals.

(d) Such officially approved numeric addresses shall not, in any event, be represented by numbers that are affixed to any tree or obscured by vegetation or any other feature, natural or man-made.

(e) It shall be the responsibility of the property owner(s) to meet or cause to be met all of the requirements of this section. All numbers shall be forever maintained in such a manner as to comply with the requirements of this Section.

(f) A numeric address change shall be requested and may be approved by the Building Official in accordance with Section 16-1-507. It shall be the responsibility of the property owner(s) to ensure that within fifteen (15) days of the official notice of determination of numeric address as issued by the Building Official that the officially approved numeric address is posted in accordance with the requirements of this Section.

L) (g) It shall be unlawful for any person to alter, deface or remove any number placed on any premises in accordance with the requirements of this Section, except for repair or replacement of such number. Upon notice, actual or otherwise, repair or replacement of any number shall be completed within a twenty-four (24) hour time period.

M. Section 10.209. Delete Section 10.209 and substitute the following:

"Key Box. When access to or within a structure or an area is unduly difficult because of secured openings or where immediate access is necessary for life-saving or fire-fighting purposes, or where a fire protection system is installed, the Chief may require a key box to be installed in an accessible location. The key box shall be a type approved by the Chief and shall contain keys to gain necessary access as required by the chief.

N. Section 10.301(c). Delete the first two paragraphs of subsection 10.301(c) and substitute the following:

"10.301(c) Water Supply: An approved water supply capable of supplying the required fire flow for fire protection shall be provided to all premises upon which buildings or portions of buildings are hereinafter constructed. Except for a single-family dwelling or a two-family dwelling as these terms are defined in Section 14-1-109 of the Code of the City of Colorado Springs 1980, as amended, when any portion of the building protected in excess of two hundred 200 feet from a water supply of a public street, there shall be provided, or when required by the Chief, on-site fire hydrants and mains capable of supplying the required fire flow. When any portion of the building which constitutes a single-family dwelling or a two-family dwelling as these terms are defined in Section 14-1-109 of the Code of the City of Colorado Springs 1980, as amended, is in excess of two hundred fifty feet (250') from a water supply on a public street, there shall be provided, when required by the Chief, on-site fire hydrants and mains capable of supplying the required fire flow.

Water supply. Water supply may consist of reservoirs, pressure tanks, elevated tanks, water

N) mains or other fixed system capable of supplying the required fire flow. In setting the requirements for fire flow, the Chief may be guided by the City of Colorado Springs Guide for Determination of Required Fire Flow."

O. Section 10.301(f). Fire Detection Systems. Add to Section 10.301 a new subsection (f) to read as follows:

"(f) Fire Detection Systems. The fire prevention division shall be notified of the installation of all fire detection systems. For the purpose of this Section fire detection system shall include heat, smoke, flame, fire-gas, combination and other fire detectors, as defined by the Standard on Automatic Fire Detectors, N.F.P.A. 72E, 1984 Edition, or any combination thereof.

No person nor the Federal, State, County, or City Government or any agency, subdivision or department thereof shall erect, construct, enlarge, remodel, alter, move, improve, remove, convert or change any fire detection system in any building or structure within the corporate limits of the City, or cause the same to be performed without first having obtained a permit for the specified work to be performed from the Colorado Springs Fire Department. All fees shall be paid prior to the issuance of the permit.

Drawings and specifications for the work to be performed shall be required prior to the issuance of a permit. Such drawings and specifications shall be reviewed by the Colorado Springs Fire Department prior to the issuance of a permit for the work to be performed. The installation of wiring and equipment in all fire detection systems shall be in accordance with N.F.P.A. 70, article 760, Fire Protection Signaling Systems, National Electrical Code. Fire detection systems which are not required by code may not be required to comply in their entirety with Uniform Fire Code Standards section 10-2, N.F.P.A. standard 72E or other sections of this Code.

The following reflects the permit fees for all new installations and for all alterations, additions, conversions and repairs. This table shall be used in conjunction with other types of fees as hereinafter designated.

O) TOTAL VALUATION	FEE
\$ 500.00 to \$8,000.00	\$32.00
8,000.00 and up	32.00 for the first \$8,000.00 plus \$1.00 for each additional \$10,000.00 or fraction thereof

A permit fee shall not be required for fire detection systems installed in buildings of 2,500 square feet or less or for systems consisting of five or less detectors where the assessed valuation for either is less than \$500.00.

A plan review fee shall be paid at the time of submitting plans and specifications for review. All installations shall pay one-fourth of the permit fee.

Investigation fee. Work without a permit.

1. Investigation. Whenever any work for which a permit is required by this Code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work.

2. Fee. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be equal to the amount of the permit fee that would be required by this Code if a permit were issued. The payment of such investigation fee shall not exempt any person from compliance with all other provisions of this Code nor from any prescribed by law.

3. Reinspection Fees. A reinspection fee of \$15.00 shall be assessed for each inspection or reinspection when such portion of work for which inspection is called is not complete or when corrections called for are not made. This subsection is not to be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of the Uniform Fire Code, but as controlling the practice of calling for inspections before the job is ready for such inspection or reinspection.

Reinspection fees may be assessed when the permit is not properly posted on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which inspection is requested, or for deviating from plans requiring the approval of the Fire Chief.

O) In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the required fees have been paid.

The contractor is required to obtain a fire detection system permit card from the fire prevention division office and post it at the job site even though a permit fee is not required.

Each fire detection system shall be inspected and tested for initial approval and on a yearly basis thereafter. A record of the yearly test shall be maintained on the premises for verification by the Colorado Springs Fire Department.

EXCEPTION: Systems installed on single- or two-family residential dwellings."

P. Section 10.313(c). Delete Section 10.313.

Q. Division I of Article 11. Add new Section 11.117 to read as follows:

Section 11.117. Ashes, Receptacles Required. It shall be the duty of the owner or other agent having the control of same of every building where ashes are accumulated to furnish a non-combustible storage facility as a receptacle for said ashes; and it shall be the duty of such owner or agent, and also of every tenant and occupant of any building, to remove the ashes from such receptable when the same is filled. No ashes, except for those used in manufacturing, shall be kept or deposited in anything other than such noncombustible storage facility.

R. Section 11.103 through 11.116, inclusive. Delete Sections 11.103 through 11.116, inclusive.

S. Section 11.203(c). Add to Section 11.203(c) the following:

"Exception: In boiler rooms and mechanical rooms storage of combustibles, material or equipment may be allowed if: It is stored a minimum of five feet (5') from any flame-producing device or mechanical equipment, and it is stored in a neat and orderly manner, and it is maintained so as not to obstruct exits (see Article 12 and 81.108) Fire Protection Equipment (see Section 10.302) and Fire Department access as required by the Building Code and the Fire Code (see Section 81.109)."

- T. Sections 11.207 through 11.209, inclusive. Delete Sections 11.207 through 11.209, inclusive.

- U. Section 11.410. Delete Section 11.410.

- V. Section 12.104. Delete Section 12.104 and substitute the following:

“Section 12.104(a) General. Doors provided for egress purposes shall be maintained as provided in this Article.

(b) Type of Lock or Latch. Exit doors shall be openable from the inside without the use of a key or any special knowledge or effort. Special knowledge or effort means any locking or latching device which requires use of more than one hand or more than one operation of the locking or latching device to unlock or unlatch and open the exit door.

EXCEPTION: Exit doors from buildings or rooms having an occupant load of ten (10) or less may be provided with a night latch, dead bolt or security chain, provided such devices are openable from the inside without the use of a key, and mounted at a height not to exceed forty-eight inches (48”) above the finished floor.

(c) Manually operated edge- or surface-mounted flush bolts and surface bolts are prohibited. When exit doors are used in pairs and approved automatic flush bolts are used, the door leaf having the automatic flush bolts shall have no doorknob or surface-mounted hardware. The unlatching of any leaf shall not require more than one operation.

EXCEPTION: 1. The requirements of subsections 12.104(b) and 12.104(c) shall not apply to exterior exit doors in a Group B or Group H Occupancies if there is a readily visible, durable sign on or adjacent to the door stating “These doors to remain unlocked during business hours”. The sign shall be in letters not less than one inch (1”) high on a contrasting background. The use of this exception may be revoked by the Building Official for due cause.

2. The requirements of subsections 12.104(b) and 12.104(c) shall not apply to Group R, Division 3 Occupancies.

(d) Panic Hardware. Panic hardware, when installed, shall comply with the requirements of

- V) U.B.C. Standard No. 33-4, and the activating member shall be mounted at a height of not less than thirty (30) inches nor more than forty-four (44) inches above the floor. The unlatching force shall not exceed 15 pounds when applied in the direction of exit travel.

(e) Door Identification. Exit doors shall be so marked that they are readily distinguishable from adjacent construction.

(f) Blocking of Self-or Automatic-Closing Doors. It shall be unlawful to block, obstruct or otherwise impair the operation of any door required to be self or automatic closing”.

- W. ARTICLE 13. Add to Article 13 a new Section 13.106 to read as follows:

“Section 13.106. No Smoking Elevators. It shall be unlawful for any person to smoke in any elevator in the City of Colorado Springs.”

- X. Section 24.102. Delete Section 24.102.

- Y. Division II of Article 25. Delete Division II of Article 25.

- Z. Division III of Article 25. Delete Division III of Article 25.

- AA. Division IV of Article 25. Delete Division IV of Article 25.

- AB. Section 25.117. Add the following sentence to the end of Section 25.117:

“Whenever the owner or lessee shall employ firemen as required in this Section, the owner or lessee shall pay the salary or other costs attributable to employment of the firemen as provided in this Section. Payment shall be made to the City of Colorado Springs prior to the scheduled activity or performance based upon the Fire Department’s estimate of the anticipated number of firemen required and other costs attributable to such activity or performance.”

- AC. Section 27.102. Delete Section 27.102.

- AD. Section 28.102. Delete Section 28.102.

- AE. Section 29.102. Delete Section 29.102.

- AF. Section 29.103. Delete Section 29.103 and substitute the following:

AF) "Section 29.103(a). Class I flammable liquid shall not be used in or in connection with any garage for washing parts or removing grease or dirt, unless in a special closed machine approved for the purpose or in a separate well-ventilated room constructed in accordance with the provisions of the Building Code for a Group H, Division 2 Occupancy.

(b) Class I flammable liquid shall not be used for cleaning floors or walls.

AG. Section 29.105(b). Amend Section 29.105(b) to read as follows:

"(b) Other devices generating a glow, spark or flame capable of igniting flammable vapors shall not be installed or used within five feet (5') six inches (6'') of the floor or in any H or B-1 occupancy.

EXCEPTION: Electrical heating units designed for class I division I locations may be approved for use at floor level.

AH. Section 30.101. Delete Section 30.101.

AI. Section 31.102. Delete Section 31.102.

AJ. Section 33.102. Delete Section 33.102.

AK. Section 34.102. Delete Section 34.102.

AL. Section 45.102. Delete Section 45.102.

AM. Section 45.104. Delete Section 45.104.

AN. Section 45.202(b). Delete Section 45.202(b) and substitute therefor the following:

"(b) In other occupancies, all spraying operations performed inside of a building shall be conducted in an approved spray booth, spraying area or spraying room approved for such use. Spot spraying shall be allowed outside of an approved spray booth if the following conditions are met:

(1) The area used for spot spraying must be built and maintained in accordance with the Building Code requirements for a Group H, Division 4 Occupancy.

(2) The size of the job to be done in such area shall not exceed nine (9) square feet and shall not be of a continuous nature.

AN) (3) The area used for spot spraying must be located within a building which there is constructed a paint spray booth which meets the requirements of this Code.

(4) The use of this exception may be revoked by the Chief of the Fire Department for good cause."

AO. Section 45.204(e). Delete Section 45.204(e) and substitute the following:

"(e) Space within a spray booth on the downstream and upstream sides of filters shall be protected with approved automatic sprinklers or dry chemical extinguishing system."

AP. Section 45.207. Delete Section 45.207.

AQ. Section 45.208(h). Add to Section 45.208(h) the following:

"EXCEPTIONS: When quantity of liquid is in five gallon or smaller containers, bonding between the two containers shall not be required.

AR. Section 45.209(a). Add Section 45.209(a) the following:

"An approved automatic fire extinguishing system shall consist of either an approved automatic water sprinkling system or an approved automatic dry chemical system."

AS. Section 46.102. Delete Section 46.102.

AT. Section 47.102. Delete Section 47.102.

AU. Section 48.102. Delete Section 48.102.

AV. Section 49.101(c). Delete Section 49.101(c).

AW. Section 50.103. Delete Section 50.103.

AX. Section 61.106(c). Delete Section 61.106(c) and substitute the following:

"(c) Where Permitted. The use of listed portable unvented oil-burning heating appliances shall be limited to supplemental heating in one- and two-family residential dwellings; and M occupancies."

AY. Section 62.102. Delete Section 62.102.

AZ. Section 63.103. Delete Section 63.103.

BA. Section 74.103. Delete Section 74.103.

BB. Section 75.103. Delete Section 75.103.

BC. Section 77.105. Delete Section 77.105 and substitute the following:

"Before a permit is issued, as required by Section (a) 3, of Section 77.104, the applicant shall file with the jurisdiction a certificate of insurance showing public liability for all operations involving explosives and automobile liability for any vehicle used for the transportation and/or storage of explosives with minimum limits of \$500,000 each occurrence bodily injury liability and \$500,000 each occurrence property damage liability or a \$1,000,000 combined single limit for bodily injury liability and/or property damage liability for the purpose of payment of all damages to personal and/or property which arise from, or are caused by the conduct of any act authorized by the permit upon which any legal judgment results. Said insurance policy shall provide protection for underground property damage and property damage resulting from collapse and explosion. The certificate of insurance shall guarantee 30 days' written notice to the Chief of the Fire Department in the event of policy cancellation. The Chief may require a greater amount of insurance when, in his opinion, conditions warrant. Public agencies shall be exempt from this insurance requirement.

BD. Section 77.202(a). Delete Section 77.202(a) and substitute the following:

Section 77.202(a). The Chief may authorize the storage of smokeless powder not to exceed 800 pounds, black sporting powder not to exceed 50 pounds or small arms or primers not to exceed 750,000 primers in approved establishments. Smokeless powder exceeding 400 pounds shall be stored in an approved Class II magazine. Black sporting powder, when authorized, shall be stored in an approved Class II magazine. Small arms primers shall be stored in a manner prescribed by the Chief."

BE. Section 77.202(b). Delete Section 77.202(b) and substitute the following:

"Section 77.202(b). The display or storage of smokeless powder shall be only in original containers and shall not exceed twenty (20) pounds. Storage in excess of twenty (20) pounds of smokeless powder shall be in a Class II magazine.

BF. Section 77.301(f). Delete Subsection 77.301(f) and substitute the following:

"77.301(f). Before blasting, a minimum of 72 hours advanced notice must be given to the fire prevention division of the Colorado Springs Fire Department. All residents within a radius of 500 feet of the blast or such greater distance as the Fire Department may determine based upon information supplied by the permittee to the Fire Department shall be notified and warned of the possible effects of the explosion. Such notification and warning shall be done by the permittee. Notification may be by personal contact, telephone or written notice. Prior to the blast, the permittee shall certify to the Fire Department that notice has been provided in accordance with this Section. In the event that the permittee determines that possible injury or damage could occur beyond the 500-foot radius or such other distance as determined by the Fire Department, the permittee shall notify those persons within such area. In an emergency, this time limit and the requirements of Section 77.308 may be waived by the Chief. In the event the permittee demonstrates to the Chief that the 72-hour time limit imposes an unnecessary hardship upon the permittee, the Chief may reduce or waive this 72-hour time requirement provided that the Chief determines that any reduction or waiver of the 72-hour time limit will allow adequate review of the proposed blasting and will not jeopardize public safety.

BG. Division 3 of Article 77. Add the following section:

"77.308: Blasting Activity Requirements. The use and handling of explosives or blasting agents will meet with the provisions of Section 77.301 of the Uniform Fire Code, 1985 Edition, as amended.

Within the time limits provided in subsection 77.301(f) the Colorado Springs Fire Department Fire Prevention Division will be notified prior to any blasting operations with the City limits of Colorado Springs. At the time of notification, a shot plan will be submitted to the Fire Department. The shot plan will consist of a plot plan of the blast area and will include the following items:

- Name of blaster and name of supervisor.
- Distance to gas, water, electric, telephone, fire alarm, telegraph, or steam utilities.
- Distance to radio and radar transmitters.
- Distance to streets, roads, highways, or other public ways.

- BG) -Distance to buildings and residences in proximity to the blast area.
 -Placement of charges.
 -Type of detonation to be used (fuse, electric blasting caps, delay, etc.).
 -Amount of explosive or blasting agent to be used.
 -Type of explosive or blasting agent to be used.
 -Size of holes (if applicable).
 -Type of blasting operation (blasting for holes, ditches, demolition, etc.).
 -Method for storage of explosives on site in conformity with the requirements of Section 77.201.
 -Mode of transporting explosives to the site.
 -Method of protection for flying debris (blasting mat, etc.).

The Colorado Springs Fire Department shall review the shot plan. The Chief shall disapprove any shot plan which is incomplete or which indicates the likelihood that public safety will be jeopardized.

- BH. Division 3 of Article 77. Add the following section:

77.309. Blasting Permit Requirements:

The following procedures are required to obtain a blasting permit from the City of Colorado Springs.

- A copy of the permit request may be obtained from the Fire Prevention Division of the Colorado Springs Fire Department. The submittal of the permit must include the following:

- The storage site and location of explosive storage must be identified by address and site plan.
- Typical transportation routes in and out of the City must be identified.
- A resume to include name, address, blasting experience, evidence of formal training and copies of certificates or diplomas of blasting education for all personnel either supervising or conducting explosion activities. This resume shall demonstrate that these personnel are qualified through blasting experience,

- BH) formal training, or certificates or diplomas to conduct blasting operations without jeopardizing public safety.

- A copy of the state blasting permit must be submitted.

- A certificate of insurance in compliance with the requirements of Section 77.105.

- Five (5) working days are required for permit review and approval or disapproval.

- BI. Section 79.103. Delete Section 79.103.

- BJ. Section 79.114(d). Delete Section 79.114(d) and substitute the following:

"Above ground tanks out of service for 90 days. Any above ground tank which has been abandoned for a period of 90 days shall be removed from the property in a manner approved by the Chief."

- BK. Section 79.501. Delete Section 79.501 and substitute the following:

"Section 79.501. The storage of Class I, Class II or Class III above-ground tanks outside of buildings is prohibited except as follows:

a. In the PIP-1, PIP-2, M-1 or M-2 zones of the City as provided for in Chapter 14 of the Code of the City of Colorado Springs 1980, as amended, provided that such above-ground storage is prohibited for service stations, retail sellers, and where such tanks are used for fueling or operation of motor vehicles, or

b. Where Class I or Class II liquid constitutes a hazardous waste defined by Federal law or regulation and whose underground storage is subject to Federal law or regulation or where the above-ground storage system is subject to Federal law or regulation."

- BL. Section 79.804. Delete Section 79.804, Item #1, and substitute the following:

"1. An automatic sprinkler system or approved dry chemical system shall be provided and be designed and installed in an approved manner for extrahazardous locations..."

- BM. Section 79.1007(a). Delete Section 79.1007(a) and substitute the following:

"Section 79.1007(a). General. Storage of Class I or Class II liquids in above-ground permanent tanks or 61- to 1100-gallon capacity and temporary tanks not exceed 660 gallon capacity shall be outside of buildings. Tanks shall be of single compartment design constructed in accordance with Section 79.105. Venting shall be in accordance with Sections 79.510(a) and (b)."

- BN. Article 79, Division 10. Add a new Section 79.1007(i) to read as follows:

"Section 79.1007(i). Temporary Permit for Storage. The storage of Class I, Class II or II-A, Flammable or Combustible Liquids in Portable Tanks, is prohibited; provided, however, the Chief is authorized to issue temporary permits for the above-ground storage of such fluids in tanks which shall not exceed 600 gallons in capacity for the purpose of providing fuel for equipment used in building construction, earth moving, earth grading or a similar operation. Such permits may be issued only for sites where such above-ground storage will not be within 50 feet of buildings, combustible materials or other fire hazards. Such a permit shall be issued only for the period of time reasonably necessary for the completion of the individual job for which the storage is necessary."

- BO. Sections 79.1101 through 79.1112, inclusive, Delete Sections 79.1101 through 79.1112, inclusive.

- BP. Section 79.1201. Delete Section 79.1201.

- BQ. Section 79.1206(b). Delete Section 79.1206(b) and substitute the following:

" b. Parking Off Thoroughfare. A tank vehicle shall not be parked at any point for longer than one hour except:

1. Inside a bulk plant and 25 feet from the property line or within a building approved for such use;

2. At other approved locations not less than 50 feet from any building except those approved for the storage or servicing of such vehicle;

- BQ) 3. When, in case of breakdown or other emergency, the operator must leave the vehicle to take necessary action to correct the emergency.

4. The locations specified in Subsection 79.1206(b)(1) and Subsection 79.1206(b)(2) which are not within a building approved for such use shall be enclosed with a fence not less than five (5) feet in height constructed of wire mesh, solid metal sheeting or masonry. Proper entry, parking and departure access shall be maintained for those parking locations. No persons shall load or unload or permit the loading or unloading of a tank vehicle within these parking locations unless such location is within a bulk plant."

- BR. Division XIV of Article 79, Section 79.1400. Add a new Section 79.1400 as follows:

"Section 79.1400. Location of Plants. No new above-ground plants shall be constructed within the City. Existing above-ground tanks shall be ordered removed if, in the opinion of the Fire Chief, they constitute a fire hazard through neglect or disrepair. All new bulk plants shall provide for underground storage facilities."

- BS. Section 79.1406. Delete Section 79.1406.

- BT. Section 79.1601 through 1610, inclusive. Delete Sections 79.1601 through 79-1610, inclusive.

- BU. Section 79.1701. Delete Section 79.1701.

- BV. Section 80.103(b). Add to Section 80.103(b) the following:

"3. Storage of hazardous materials in accordance with table nos. 51.110-A through E.

- BW. Section 81.103. Delete Section 81.103.

- BX. Section 81.105, Table 81.105. Delete under commodity category I-IV, Smoke detection systems column n/r and substitute: yes.

- BY. Article 81. Article 81 is amended by the addition of Section 81.112 as follows:

"Section 81-112(a). In any building as described

BY) in Table No. 81.105 that can accommodate high piled combustible stock but which is not intended to be used for high piled combustible stock at the time such building is constructed, the owner or the agent of the owner shall acknowledge on the plan submitted to the Regional Building Department for the building that in the event the building is used for high piled combustible stock, all requirements of the Uniform Fire Code, Article 81, including the approved installation of a standpipe system, shall be met."

(b) All fire protection systems installed including smoke, heat, rate or rise, and other systems shall be monitored systems.

BZ. Section 82.102. Delete Section 82.102.

CA. Section 83.101. Delete Section 83.101.

CB. Add a new Article 88. AUTOMATIC FIRE-EXTINGUISHING SYSTEMS.

"Article 88. Automatic Fire-Extinguishing Systems.

Section 88.101 Scope. This article shall apply to the installation or renovation of automatic fire-extinguishing systems or standpipe systems.

Section 88.102 Definitions.

(a) AUTOMATIC FIRE-EXTINGUISHING SYSTEMS. For the purposes of this Article include wet-pipe systems, dry-pipe systems, pre-action systems, deluge systems, and combined dry-pipe and pre-action systems as defined in Uniform Building Code Standard 38-1.

(b) STANDPIPE SYSTEMS. Standpipe Systems shall include Class I, Class II, Class III, and combined systems as defined in the Uniform Fire Code.

Section 88.103 PERMITS REQUIRED.

No person nor the Federal, State, county or City government, or any agency, subdivision or department thereof shall erect, construct, enlarge, remodel, alter, repair, move, improve, remove, convert, demolish or change any automatic fire-extinguishing system in any building or structure within the corporate limits of the City, or cause the same to be performed without first having obtained a permit for the specific work to be performed from the Colorado Springs Fire Department.

CB) EXCEPTION: All work performed on an emergency basis, as determined by the Fire Chief, to maintain an existing service or to maintain an existing installation where such maintenance is necessary to protect life or property, shall not be subject to the above provisions provided that application for such permits is made within seventy-two (72) hours after commencement of the emergency work.

Section 88.104 PLANS AND SPECIFICATIONS.

Drawings and specifications for the work to be performed shall be required prior to the issuance of a permit. Such drawings and specifications shall be reviewed and approved by the Colorado Springs Fire Department prior to the issuance of a permit for the work performed. All applications for a permit to construct, erect, alter or repair any automatic fire-extinguishing system or standpipe system shall be accompanied by a minimum of two (2) complete sets of drawings and specifications.

(a) Information required.

1. Drawings shall be drawn to scale upon substantial paper, plastic or cloth, and shall be of sufficient clarity to indicate the nature of the work proposed and show in detail that it will conform to the provisions of this Chapter and all relevant laws, ordinances, rules and regulations. The first sheet of each set of drawings and specifications shall give the building and street address of the work and the name and address of the firm or person who prepared them. Drawings shall include a plot plan showing the locations of proposed building, and fire lanes or access drives, and existing or proposed fire hydrants.

Working plans shall be drawn to an indicated scale, on sheets of uniform size, with plan of each floor, made so that they can be easily duplicated, and shall show the following data:

- (a) Name of owner and occupant.
- (b) Location, including street address.
- (c) Point of compass.
- (d) Ceiling construction.

- CB)
- (e) Full height cross section.
 - (f) Location of fire walls.
 - (g) Location of partitions.
 - (h) Occupancy of each area or room.
 - (i) Location and size of concealed spaces and closets.
 - (j) Any enclosures in which no sprinklers are to be installed.
 - (k) Size of city main in street, pressure and whether deadend, direction and distance to nearest circulating main, the city main test results.
 - (l) Other sources of water supply, with pressure or elevation.
 - (m) Make, type and nominal orifice size of sprinkler.
 - (n) Temperature rating and location of high temperature sprinklers.
 - (o) Total area protected by each system on each floor.
 - (p) Number of sprinklers on each riser per floor.
 - (q) Make, type, model and size of alarm or dry-pipe valve.
 - (r) Make, type, model and size of pre-action or deluge valve.
 - (s) Kind and location of alarm bells.
 - (t) Total number of sprinklers on each dry-pipe system, pre-action system, combined dry-pipe/pre-action system or deluge system.
 - (u) Approximate capacity in gallons of each dry pipe system.
 - (v) Pipe type and schedule of wall thickness.
 - (w) Nominal pipe size and cutting lengths of pipe (or center to center dimensions).

- CB)
- (x) Location and size of riser nipples.
 - (y) Type of fittings and joints and location of all welds and bends.
 - (z) Type and locations of hangers and sleeves.
 - (aa) All control valves, check valves, drain pipes, test pipes, and back flow preventers.
 - (bb) Size and location of hand hose, hose outlets and related equipment.
 - (cc) Underground pipe size, length, location, weight, material, point of connection to city main; the type of valves, meters and valve pits; and the depth top of the pipe is laid below grade.
 - (dd) Provision for flushing.
 - (ee) When the equipment is to be installed as an addition to an existing system enough of the existing system shall be indicated on the plan to make all conditions clear.
 - (ff) For hydraulically designed systems, the material to be included on the hydraulic data nameplate.
 - (gg) Name and address of contractors.
2. When the system is a hydraulically designed system the following information shall be provided:
- (a) All information indicated above.
 - (b) A summary sheet which contains the following information:
 1. Date.
 2. Location.
 3. Name of owner and occupant.
 4. Building number or other identification.
 5. Description of hazard.
 6. Name, address and phone number of contractor or designer.
 7. System design requirements to include design area, density, and area per sprinkler.
 8. Total water requirements as calculated.
 9. Water supply information.

CB) (c) Detailed worksheets or computer printout sheets which contain the following information:

1. Sheet number.
2. Sprinkler description and discharge constant (K).
3. Hydraulic reference points.
4. Flow in gpm.
5. Pipe size.
6. Pipe lengths, center to center of fittings.
7. Equivalent pipe lengths for fittings and devices.
8. Friction loss in psi per foot of pipe.
9. Total friction loss between reference points.
10. In rack sprinkler demand.
11. Elevation head in psi between reference points.
12. Required pressure in psi at each reference points.
13. Velocity pressure and normal pressure.
14. Notes to indicate starting points, reference to other sheets or to clarify data shown.
15. Sketch to accompany gridded system calculations to indicate flow quantities and directions for lines with sprinkler operating in the remote area.

(d) A graph sheet which indicates supply curves and system requirements, plus hose and in rack sprinkler demand when applicable, plotted on semi-logarithmic graph paper (Q 1.85) so as to present a graphic summary of the complete hydraulic calculation.

(b) Approval of Documents. Drawings complying with the provisions of the Uniform Fire Code, and approved by the Colorado Springs Fire Prevention Division, shall bear the Colorado Springs Fire Department stamp of approval on the first page thereof and each set of specifications. When corrections are required to be made, the Fire Chief may require that the drawings and specifications be revised and resubmitted for approval prior to the issuance of the permit. Approval of drawings and specifications shall not be construed to mean approval of any violation of the Uniform Fire Code if such violation is included in the approved drawing and specifications, and shall not relieve or exonerate any person from the responsibility of complying with the provisions of the Uniform Fire Code.

CB) (c) Distribution of Documents. At least one set of approved drawings and specifications shall be returned to the applicant to be kept on the job site at all times during which the authorized work is in progress and one approved set shall remain in the office of the Colorado Springs Fire Department and shall be retained for a period of not less than ninety (90) days after the date of completion of work.

(d) Return of Documents. Drawings and specifications submitted for checking, for which no permit is issued and on which no action is taken by the applicant for ninety (90) days, may be returned to the last known address of the applicant and a plan checking fee as provided here shall be assessed.

Section 88.105. Application for Permits.

Permits are required prior to the commencement of any work governed by this Article, and to obtain a permit the applicant shall first file an application therefor in writing on a form furnished by the Colorado Springs Fire Department. Every application shall contain the following:

1. Identify and describe the work to be covered by the permit for which an application is made.
2. Describe the street on which the proposed work is to be done, by street address or similar description that will readily identify and definitely locate the proposed building or work.
3. Show the use or occupancy of all parts of the building.
4. Be accompanied by complete drawings and specifications as required in this Section.
5. State the valuation of the proposed work.
6. Be signed by the applicant, or his authorized agent, who may be required to submit evidence to indicate such authority.
7. Give such other reasonable information as may be required by the Colorado Springs Fire Department.

When the work is started before a permit is issued, with the exception of work performed on an emergency basis pursuant to Section 88.102, the applicant shall be required to pay double the fees listed under Section 88.109 of this Article.

CB) Section 88.106 Authorized Applicants.

Only persons duly licensed or registered as an automatic fire sprinkler contractor or plumbing contractor under the terms and provisions of Article 6, of Chapter 16 of the Code of the City of Colorado Springs, 1980 as amended, may apply for a permit, and such licensees may apply for and be issued permits to perform only such work as they are entitled to perform under their respective licenses. Any applications for permit filed by a non-licensed individual, association or corporation where licensing is required pursuant to Article 16 of the Code of the City of Colorado Springs 1980, as amended, shall be null and void.

Section 88.107 Issuance of Permits.

(a) The application, drawing and specifications filed by an applicant for a permit shall be reviewed by the Fire Chief. Such documents may be reviewed by other departments of the City to ascertain compliance with the laws and ordinances under their jurisdiction. When the Fire Chief is satisfied that the work described in the application for a permit and the drawings and specifications filed therewith conform to the requirements of the Uniform Fire Code and other pertinent laws and ordinances, and that the fee specified in Section 88.109 of this Article has been paid, he shall issue a permit to the applicant. Under normal circumstances the Colorado Springs Fire Department shall issue the permit within ten (10) working days of application.

(b) When the Fire Chief issues the permit he shall endorse in writing or stamp on all sets of specifications and first page of the drawings "Acceptable" with the date and signature of the official giving approval. Such approved drawings and specifications shall not be changed, modified or altered without authorization from the Fire Chief, and all work shall be done in accordance with the approved document.

Section 88.108 Expiration of Permits.

Every permit issued by the Fire Chief under the provisions of this Code shall automatically become null and void if the installation or work authorized by such permit is not commenced within one hundred twenty (120) days. Before work can be recommenced a new permit shall be first obtained, and the fee therefor shall be one-half ($\frac{1}{2}$) the amount required a new permit;

CB) provided, no changes have been made or will be made in the original drawings and specifications and provided, further, that suspension or abandonment has not exceeded one year.

Section 88.109 Suspension or Revocation of Permit.

The Fire Chief may, in writing, suspend or revoke a permit issued under the provisions of this Code whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any provisions of the Uniform Fire Code.

Section 88.110 Installation Fees.

The following reflects the permit fees for all new installations and for all alterations, additions, conversions and repairs. This table shall be used in conjunction with other types of fees as hereinafter designated.

TOTAL VALUATION	FEE
\$500.00 to \$8,000.00	\$32.00
\$8,000.00 and up	\$32.00 for the first \$8,000.00 plus \$1.00 for each additional \$10,000.00 or fraction thereof.

Section 88.111 Other Fees.

(a) Plans Examination. A plan review fee shall be paid at the time of submitting plans specifications for review. All installations shall pay one-fourth ($\frac{1}{4}$) of the permit fee.

(b) Investigation Fee. Work without a Permit.

1. Investigation. Whenever any work for which a permit is required by this Code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work.

2. Fee. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be equal to the amount of the permit fee that would be required by this Code if a permit were

CB) issued. The payment of such investigation fee shall not exempt any person from compliance with all other provisions of this Code nor from any prescribed by law.

(c) Reinspection Fees.

1. A reinspection fee of \$15.00 shall be assessed for each inspection or reinspection when such portion of work for which inspection is called is not complete or when corrections called for are not made. This subsection is not to be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of the Uniform Fire Code, but as controlling the practice of calling for inspections before the job is ready for such inspection or reinspection.

2. Reinspection fees may be assessed when the permit card is not properly posted on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which inspection is requested, or for deviating from plans requiring the approval of the Fire Chief.

In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the required fees have been paid.

Section 88.112 Fee Refunds.

1. The Fire Chief may authorize the refunding of any fee paid hereunder which was erroneously paid or collected.

2. The Fire Chief may authorize the refunding of not more than eighty percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with this Code.

3. The Fire Chief may authorize the refunding of not more than eighty percent (80%) of the plan review fee paid when an application for a permit for which a plan review has been paid is withdrawn or cancelled before any plan review effort has been expended.

Section 88.113 Expiration of Plan Review.

CB) Applications for which no permit is issued within one hundred eighty (180) days following date of application shall expire and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the Fire Chief. The Fire Chief may extend the time for action by the applicant for a period not exceeding one hundred eighty (180) days upon request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than one. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee.

Section 88.114 Inspection, General Requirements.

All work performed under the provisions of the Uniform Fire Code shall be subject to inspections by the Colorado Springs Fire Department and all inspections shall be requested at least forty-eight (48) hours in advance.

Section 88.115 Required Inspections.

(a) Without limitation, the Colorado Springs Fire Department shall make the following inspections of and shall either approve that portion of the work as completed or shall notify the permit holder or his agent wherein the same fails to comply with the requirements of the Uniform Fire Code.

1. It shall be the duty of the person requesting inspections regulated by this Code to provide access to and means for proper inspection. The Fire Chief shall not be liable for any expenses entailed in the removal or replacement of any material required to allow the inspection.

2. The following tests or inspections shall be made:

(aa) Flushing of underground mains and lead-in connections.

(bb) Hydrostatic tests.

(cc) Fire department connection tests.

(dd) System operation and flow test.

CB) (ee) Fire pump operation test.

(ff) Drainage facilities test.

3. The Fire Chief may allow a certification of compliance signed by an architect, engineer, or the project superintendent in lieu of any physical inspection to be performed by the Colorado Springs Fire Department.

4. There shall be a final inspection and approval on all systems when completed and ready for use and in addition to the inspections specified above, the Fire chief may, at any time, make other inspections of the work to ascertain compliance with the provisions of this Fire Code and other laws which are enforced by the Colorado Springs Fire Department.

Section 88.116 Work Covered Before Inspection.

Whenever any work is covered or concealed by additional work without first having been inspected as required, the Colorado Springs Fire Department may order, by written notice, that such work be exposed for examination.

Section 88.117 Supervision Requirement.

(a) Special Supervision. In addition to the inspections to be made as specified above, the owner or his agent shall, upon direction of the Fire Chief, employ a special inspector on special construction or work involving unusual hazards or requiring constant inspection. The special inspector shall be a qualified person approved by the Fire Chief and shall furnish continuous inspection on the construction work requiring his employment, and said inspector, or the architect or engineer employing the inspector, shall furnish a copy of his reports to the Fire Chief when so required.

1. Special inspection required by this Section and elsewhere in this Code shall not be required where the work is done on the premises of a fabricator, approved by the Fire Chief, to perform such work without special inspection. The certificate of approval shall be subject to revocation by the Fire Chief if it is found that any work done pursuant to the approval is in violation of the Fire Code.

CB) Section 88.118 Inspection Record Card.

Work requiring a permit shall not be commenced until the permit holder or his agent shall have posted an inspection record card in a conspicuous place on the front premises of the property and in such position as to allow the Fire Chief to conveniently make the required entries thereon regarding inspection of the work. This card shall be maintained in this location by the permit holder until all required inspections have been recorded.

Section 88.119 Approvals Required.

No work shall be done on any part of any automatic fire-extinguishing system or standpipe system beyond the point indicated in each successive inspection without first obtaining the approval of the Fire Chief."

CC. Appendix I-A. Delete Appendix I-A and substitute therefor the following:

"Appendix I-A. Life Safety Requirements for Existing Buildings.

1. Purpose. The purpose of this Appendix is to provide a reasonable degree of safety to persons occupying existing buildings that do not conform with the minimum requirements of this Code by providing for alterations to such existing buildings.

2. Smoke Detectors. Every dwelling unit and every guest room in a hotel, motel, apartment hotel, lodging house, motor hotel, guest house, guest ranch or other place that furnishes sleeping accommodations shall be provided with smoke detectors installed in accordance with the Building Code provided that this shall not apply to apartments or other accommodations that are regularly leased for a month-to-month or longer tenancy. Compliance with this requirement shall be met within six (6) months after the effective date of this ordinance."

CD. Appendix III-A. Delete 3. Test Procedure for Standpipe Systems.

CE. Appendix III-C. In Paragraph 4, Definitions, delete subsection (c) and substitute the following:

CE) "Alarm signal is an audible and visual signal indicating the existence of an emergency fire condition. Audible devices shall be a horn. Visual devices shall be a pulsating light, as approved by the Fire Chief."

CF. Article 51. Article 51 is hereby adopted with the following additions, revisions and deletions:

"Section 51-102. Under definitions revise EMERGENCY CONTROL STATION to read as follows:

EMERGENCY CONTROL STATION Is an approved location on the premises of a Group H Division 6 Occupancy where signals from emergency equipment are received and which is continually staffed by trained personnel.

Section 51.102. Add a new definition to read as follows:

HPM FLAMMABLE LIQUID is a HPM liquid that is defined as being either flammable or combustible under the definitions listed in Article 9 of this Code.

Section 51.105(c). Delete Section 51.105(c) except for Table No. 51-105-A and substitute the following:

(c) Maximum Quantities of HPM. The average density of HPM within a single fabrication area shall not exceed the density as specified in Table No. 51.105-B. Nothing in this provision shall limit any single fabrication area from having a total quantity of HPM to an amount less than that specified in Table No. 51.105-A.

TABLE No. 51.105-B
PERMITTED QUANTITIES OF HPM IN A SINGLE GROUP H
DIVISION 6 OCCUPANCY-DENSITY BASIS¹²

State	Units	Flammable	Oxidizer	Corrosive
Solid	lb./sq. ft.	0.001	0.003	0.003
Liquid	gal./sq. ft.	0.04 ³	0.03	0.08
Gas	cf/sq. ft.	1.250	1.250	3.000

¹HPM within piping shall not be included in the calculated quantities.

²The maximum permitted quantities of flammable/toxic gases shall not exceed the quantity specified by Table No. 51.105-A.

³The maximum permitted quantities of flammable and combustible liquids shall not exceed the following quantities:

CF) Class (I-A) + (I-B) + (I-C)

Combination flammable liquids)..... = .025
however Class I-A shall not exceed.. = .0025
Class II..... = .01
Class III-A..... = .02

Section 51.106. Revise Subsections (a) and (b) to read as follows:

(a) Construction. Work stations within fabrication areas shall be constructed of materials compatible with the materials used at the station.

The portion of the work station that serves as a cabinet for hazardous gases and flammable liquids shall be noncombustible and if of metal shall be not less than 0.0478-inch (18 gage) steel. Hazardous gases and liquid containers within the work station shall be protected from seismic forces in an approved manner.

(b) Maximum Quantities of HPM. The HPM materials in use in a work station shall not exceed:

Flammables and Toxics Combined	gases	3 cylinders
	liquid	15 gallons
	solids	5 pounds
Corrosives	gases	3 cylinders
	liquids	25 gallons ¹
	solids	20 pounds
Oxidizers	gases	3 cylinders
	liquids	12 gallons ¹
	solids	20 pounds

¹An equal amount of nonflammable HPM liquid in reservoirs of filtering systems of connected materials in use shall be permitted.

Section 51.106(d). Revise Exception 3 as follows:

3. Exhaust ducts 10 inches or less in diameter from flammable gas storage cabinets that are part of the work station.

Section 51.107(b). Delete the third sentence and the exception.

Section 51.108. Add a subsection as follows:

5. HPM Pass-throughs in Exit Corridors. When pass-throughs are provided, self-closing doors having a fire protection rating of not less than

CF) one hour shall be installed between the pass-through and the existing exit corridor. The pass-through shall be fully enclosed with wall protection as required for the exit corridor. Pass-throughs shall be sprinklered."

CG. Section 9.110. Add a new definition to read as follows:

"HAZARDOUS GASES shall include all gases which meet the definition for HAZARDOUS MATERIALS and are not otherwise covered in this Code."

CH. Section 79.903(a). Add a new paragraph to read as follows:

"Where dispensing of Class I, II or III-A liquids is performed by someone other than a qualified attendant, a listed automatic-closing-type hose nozzle valve shall be used incorporating the following features:

1. The hose nozzle shall be equipped with an integral latch-open device.

2. When the flow of product is normally controlled by devices or equipment other than the hose nozzle valve, the hose nozzle valve shall not be capable of being opened unless the delivery hose is pressurized. If pressure to the hose is lost, the nozzle shall close automatically.

EXCEPTION: Vapor-recovery nozzles incorporating insertion inter-lock devices designed to achieve shutoff upon disconnect with vehicle fill pipe.

3. The hose nozzle shall be designed in such a way that the nozzle is retained in the fill pipe during the filling operation."

CI. Section 79.903(b). Amend exception to read as follows:

EXCEPTION: Supervision by a qualified attendant is not required at locations, provided:

1. The owner or operator provides and is accountable for:

(a) At least daily site visits.

(b) Regular equipment inspections and maintenance.

CI) (c) Conspicuously posting instructions for safe operation of dispensing equipment.

(d) Posting the phone number of the owner or operator.

2. A sign, in addition to that required in Section 79.902(h), is posted in a conspicuous location stating:

IN CASE OF FIRE OR SPILL

1. Use emergency pump shutoff!

2. Report the accident

Fire Department No. _____
Facility Address _____

3. Dispensing equipment complies with one of the following:

(a) The amount of fuel being dispensed is limited in quantity by a preprogrammed card, or;

(b) Dispensing devices shall be programmed or set to limit uninterrupted fuel delivery to 25 gallon and shall require a manual action to resume continued delivery, or;

(c) Product delivery hoses are equipped with a listed emergency breakaway device designed to retain liquid on both sides of the breakaway point. Such devices shall be installed and maintained in accordance with manufacturer's instructions."

CJ. Section 80.108. Delete Section 80.108 and substitute the following:

"HAZARDOUS AND/OR POISONOUS GASES

Section 80.108(a). Storage of hazardous and/or poisonous gases within buildings shall be in rooms of at least one-hour, fire-resistive construction as specified in the Building Code and having natural or mechanical ventilation adequate to remove leaking gas. Such ventilation shall not discharge to a point where the gases may endanger any person, domestic animal or wildlife.

EXCEPTION: Cylinders containing hazardous and/or poisonous gases may be stored in approved cabinets which comply with the requirements set forth in this Section.

CJ) (b) Outside Storage. 1. General. General storage of hazardous and/or poisonous gases outside of buildings shall comply with the separation, construction and fire safety requirements of the Building Code and this Code.

2. Shutoffs in Piping From Outside Storage. All gaseous supply piping from the outside storage shall be provided with excess flow control in accordance with the requirements of (c) 3. D. of this Section.

A manual emergency shutoff valve located outside the building shall be installed on each hazardous and/or poisonous gas supply pipe from outside storage. The valve shall be identified, readily accessible, and its location clearly visible.

3. Special provisions. Outside storage of hazardous and/or poisonous gas shall be safeguarded from public access. See Section 80.103.

(c) Storage and Dispensing of Hazardous and/or Poisonous Gases. 1. General. The storage and dispensing of hazardous and/or poisonous gases shall be within storage cabinets.

EXCEPTION: Additional cabinets may not be required for equipment which uses hazardous and/or poisonous gases as an integral part of its function and which includes in its design provisions for the containment of hazardous and/or poisonous gas cylinders and which meets the other requirements for cabinets in this Section as required by the Chief.

Incompatible materials shall not be stored within the same cabinet. Inert materials may be intermingled with other materials.

2. Cabinet Construction. Storage cabinets shall be on an approved construction and if metal, shall be of not less than 0.0478-inch (18 gage) steel. Doors to cabinets shall be self-closing and latching. There shall be no openings between a cabinet and an exit corridor.

EXCEPTION: Self-closing doors having a fire protection rating of not less than one hour may be installed between a cabinet and an existing exit corridor, provided the cabinet is fully enclosed with wall protection as required for the exit corridor. Such enclosure shall be internally sprinklered.

CJ) Electrical equipment and devices within cabinets used for the storage of hazardous and/or poisonous gases shall be in accordance with the requirements of the Electrical Code.

3. Special Requirements. A. General. In addition to other requirements of this Section, cabinets used for the containment of hazardous and/or poisonous gases shall comply with this subsection. Storage cabinets containing hazardous and/or poisonous gases shall be internally sprinklered or protected by an approved alternative fire protection system.

EXCEPTION: Sprinklers or an approved alternative fire protection system shall not be required in gas cabinets that are located within an approved hazardous and/or poisonous gas storage room other than those used to contain pyrophoric gases.

Self closing limited-access ports shall be installed on gas cabinets to give access to equipment controls.

B. Gas-Detection Systems. When hazardous and/or poisonous gas is used or dispensed and the physiological warning properties for the gas are at a higher level than the accepted permissible exposure limit for the gas, a continuous gas-monitoring system shall be provided to detect the presence of a short-term hazard condition. When dispensing occurs and flammable gases or vapors may be present in quantities in excess of twenty percent (20%) of the lower explosive limit, a continuous gas-monitoring system shall be provided. Activation of the monitoring system shall automatically shut the valves on all gas lines from the cabinets and initiate an alarm system intended to provide the indication and warning of abnormal conditions and summon appropriate aid.

C. Ventilation. Storage cabinets shall be ventilated. When the cabinet contains poisonous gases, the average velocity of ventilation at the face of access ports shall be not less than 200 feet per minute (fpm) with a minimum of 150 fpm at any point of the access port.

Gas storage cabinets shall be operated at a negative pressure in relation to the surrounding area.

CJ) D. Excess Flow Control. Where hazardous and/or poisonous gas is carried in pressurized piping, a fail-safe system shall shut off flow due to a rupture in the piping. Where the piping originates from within the hazardous and/or poisonous gas storage room, this excess flow shutoff valve shall be located within the hazardous and/or poisonous gas storage room. Where the piping originates from outside the building, the valve shall be located outside the building as close to the bulk source as practical.

E. Piping and Tubing Installation. Piping and tubing shall be installed in accordance with approved standards. Supply piping of hazardous and/or poisonous gas having a health hazard ranking of 3 or 4 (as designated by Uniform Fire Code Standard 79-3) shall have welded connections throughout unless an exhausted enclosure is provided.

EXCEPTION: Material which is incompatible with ferrous piping may be installed in nonmetallic piping with approved connections.

(d) LEGIBLE WARNING SIGNS stating the nature of hazard shall be placed at all entrances to locations where hazardous and/or poisonous gases are stored or used." (Ord. 86-156; Ord. 86-215)

20-2-106: **PENALTIES:**

- A. It is unlawful for any person to violate any of the provisions of this Part 1 including any provisions of the Uniform Fire Code, Uniform Fire Code Appendices and Uniform Fire Code Standards as adopted by this Part.
- B. Every person convicted of a violation of any provision set forth in this Part shall be punished in accordance with Article 2 of Chapter 1 of the Code of the City of Colorado Springs 1980, as amended. (Ord. 86-156)

20-2-107: **SALE OF COPIES:** The City Clerk shall delegate his responsibility to maintain a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public at a moderate price to the Regional Building Department. (Ord. 86-156)

CHAPTER 20 PUBLIC SAFETY

ARTICLE 2 FIRE PREVENTION

PART 2 TRANSPORTATION OF FLAMMABLE LIQUIDS

SECTION:

20-2-201: Definitions
 20-2-202: Requirements for Tank Vehicles
 20-2-203: Delivery Hose Requirements
 20-2-204: Use Regulations
 20-2-205: Unloading and Routing Requirements
 20-2-206: Traffic and Operator Requirements
 20-2-207: Inspection of Vehicles

20-2-201: DEFINITIONS:¹ The following terms, as used in this Part 3, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

RAILROAD TANK CAR: A railroad car, having a tank or tanks mounted thereon and used for the transportation of flammable liquids.

TANK VEHICLE: Tank vehicle includes the following vehicles having tanks or tanks mounted thereon and used for the transportation of flammable liquids:

Semi-Trailers

Trailers

Trucks

And any other vehicle with a tank thereon used for the transportation of flammable liquids. (1980 Code)

20-2-202: REQUIREMENTS FOR TANK VEHICLES:

- A. The loading and unloading of flammable liquids from tank vehicles shall be permitted only by hand or by electrically driven motors and control devices of a Department of Transportation approved explosion-proof type. Loading and unloading by the use of pumps driven by inter-

- A) nal combustion engines is prohibited except by a Department of Transportation approved pumping unit.

- B. All draw-off valves or faucets projecting beyond the frame in the rear of the vehicle shall be adequately protected against collision by steel bumpers or other means of equal protection. Ord. 78-147; 1968 Code § 7-110)

- C. Fire Extinguishers.

1. Each tank vehicle shall be provided with at least one portable fire extinguisher having at least a 40-B, C rating or when more than one is provided, each extinguisher shall have at least a 20-B, C rating. Ratings shall be in accordance with the Standard for Portable Fire Extinguishers, National Fire Protection Association No. 10. Fire extinguishers on tank vehicles shall be maintained in serviceable condition.

2. Whenever a tank vehicle is unloading flammable liquids, at least one approved portable fire extinguisher shall be placed at a location approximately twelve feet (12') away from the fill connection of the underground tank being filled and shall be readily available in case of accident. (Ord. 78-147; 1968 Code § 7-111)

20-2-203: DELIVERY HOSE REQUIREMENTS: The delivery hose, when attached to a tank vehicle shall be considered to be a part of the tank vehicle so that both pieces of apparatus are safely grounded and same shall not exceed twenty feet (20') in length. (Ord. 78-147; 1968 Code § 7-113)

20-2-204: USE REGULATIONS:

- A. The unloading of all tank vehicles and railroad tank cars and all operations in connection therewith shall comply with the existing rules

1. For definitions of general application, see Section 1-1-203 of this Code.

- A) and regulations of the United States Department of Transportation pertaining thereto.
- B. No tank vehicles shall be repaired except when completely empty from flammable liquids and after being thoroughly steamed or washed to remove all explosive vapors, and then tested with an explosive meter for a reading that indicates such repair may be undertaken without a fire hazard. (Ord. 78-147; 1968 Code § 7-112)

20-2-205: UNLOADING AND ROUTING REGULATIONS:

- A. When engaged in unloading operations at retail stations, all portions of any tank vehicle shall be entirely on private property so that no part of said vehicle shall extend over or upon a street or other public way.
- B. All tank vehicles shall follow the primary truck route plan streets as approved from time to time by the City Council; provided, however, that the Chief of the Fire Department may exclude or include such of the primary truck route plan streets for use by said vehicles as he deems will promote safe travel thereon. The Fire Chief may, from time to time, prepare or cause to be prepared a map delineating such streets.¹
- C. In making deliveries of flammable liquids within the City, all tank vehicles shall follow said major streets as defined in Section 20-2-205B above to the point of departure thereon nearest to the premises at which the delivery is to be made. After the unloading and delivery of said liquid, the tank vehicle shall return to the same point of departure on the major street unless the second delivery is to be made at premises which are nearer than said point of departure, in which case the tank vehicle may proceed to such premises and after delivery return to the major street at the nearest point of entrance. (Ord. 78-147; 1968 Code § 7-114)
- D. No tank truck or tank semi-trailer having a total capacity in excess of two thousand two hundred (2,200) gallons, including tolerance of ten percent (10%), shall make more than two (2)

- D) entrances or stops upon a filling station or other premises in completely unloading or delivering a load of flammable liquid. (Ord. 3106; 1968 Code § 7-119)

20-2-206: TRAFFIC AND OPERATOR REGULATIONS:

- A. Every owner of a tank vehicle shall be required to have such vehicle operated by an operator duly licensed in the State of Colorado and said operator shall also be duly trained and competent in the loading and unloading of said vehicles, including the proper and safe operation of the hoses, fittings and other equipment used in said loading and unloading operations.
- B. It shall be unlawful for any tank vehicle when entering or departing filling station premises or other private property, to back into or from a street or other public way. (Ord. 78-147; 1968 Code § 7-115)

20-2-207: INSPECTION OF VEHICLES: It shall be the duty of the owner of any tank vehicle used for the transportation of flammable liquid within the City to have a safety inspection for such vehicle every six (6) months, said inspection to be made during the months of January and July of each year by the State Inspector of Oils of the State of Colorado, or the equivalent state inspector of any other state, and the owner shall file with the Chief of the Fire Department a certificate of such inspection. (Ord. 3106; 1968 Code § 7-120)

¹ See Chapter 22, Article 21 of this Code.

CHAPTER 20 PUBLIC SAFETY

ARTICLE 3 POLICE AND FIRE ALARM SYSTEMS

SECTION:

- 20-3-101: Automatic Dialing and Prerecorded Systems Prohibited
- 20-3-102: Permitted Direct Alarm Systems
- 20-3-103: Installation and Maintenance of Equipment
- 20-3-104: Rules and Regulations
- 20-3-105: Acceptance of Conditions
- 20-3-106: City Under No Obligation
- 20-3-107: Notice of Permit Revocation
- 20-3-108: False Alarm Service Charge

20-3-101: **AUTOMATIC DIALING AND PRERECORDED SYSTEMS PROHIBITED:**

It shall be unlawful for any person to use or cause to be used any telephone device or telephone attachment or mechanical device using telephone lines that automatically selects a public primary telephone trunk line of the City, or its Police or Fire Departments, or the 911 emergency response center, and then reproduces any prerecorded message to report any burglary or other emergency. No installation of radio-activated alarm receivers shall be authorized in either the police or fire alarm centers. (Ord. 79-38; 1968 Code, § 7-251)

20-3-102: **PERMITTED DIRECT ALARM SYSTEMS:**

The City Manager is hereby authorized to grant a revocable permit to any person in the City who has established a central office for the purpose of receiving alarms and transmitting them to the Police or Fire Departments for response. Such a permit shall authorize the installation of either a private line or lines or a regular business line to the Police or Fire Departments for the express purpose of providing direct telephone communication between said person and the Police or Fire Departments for use to report intrusion, holdup, burglary, fire or other emergency.

- A. The permit shall be granted if an application therefor is made to the City Manager, in writing at least thirty (30) days prior to the intended

- A) date of connection to the Police and/or Fire Departments, and the City Manager finds that:

1. The connection of such telephone line will constitute no hindrance to regular City activities;

2. No messages will be telephoned on said line except by the applicant or his agent with access to customer files;

3. The applicant seeking the connection maintains adequate equipment and work force to repair, maintain or otherwise service alarms owned, sold or leased by him;

4. The applicant has furnished the City Manager with a resume of his past experience in operating a central office and a financial statement of his firm certified by a certified public accountant, and based upon such statements it appears that the applicant is reasonably qualified to conduct an alarm business;

5. The applicant has filed a certificate from the Mountain States Inspection Bureau stating that the connections and the central office meet the requirements set forth in NBFU and UL codes. When such certification is received as to fire alarms the same shall be deemed sufficient for police alarms also in the absence of other requirements. Ord. 4311A; 1968 Code, § 7-252)

- B. The permits herein granted are so granted upon the express conditions:

1. That permittees shall always hold the City harmless from and on account of any damages arising out of the activities of any client of the permittee in the exercise of such permits and privileges, including but not limited to damages to the City, its agents, employees, invitees, permittees and licensees, while in or on the building in which the alarm cabinet or telephone terminal is located, arising out of any defects in the alarm cabinet or telephone

CHAPTER 20 PUBLIC SAFETY

ARTICLE 4 HAZARDOUS MATERIAL INCIDENTS

SECTION:

- 20-4-101: Purpose
- 20-4-102: Definitions
- 20-4-103: Jurisdiction of Emergency Response Authority
- 20-4-104: Duties and Authority of the Emergency Response Authority
- 20-4-105: Right of Entry
- 20-4-106: Responsibilities of City Departments
- 20-4-107: Hazardous Material Incidents on Private Property
- 20-4-108: Responsibility for Residue Cleanup and Disposal
- 20-4-109: Reimbursement of Costs and Expenses
- 20-4-110: Violations

20-4-101: PURPOSE: The purpose of this Article is to designate an emergency response authority for hazardous material incidents occurring within the corporate limits of the City, and within all areas outside the corporate limits of the City the use of which the City has jurisdiction and authority to regulate, as required by C.R.S. 1973 § 29-22-102(3), as amended, and to establish the duties and authority of the emergency response authority. This Article shall also establish the responsibilities of any person who owns or has control of a hazardous material which is involved in a hazardous material incident, and provide for reimbursement of costs to the City incidental to hazardous material incidents. (Ord. 80-430)

20-4-102: DEFINITIONS: The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise or unless such meaning is excluded by express provision.

HAZARDOUS MATERIAL: Any substance or material designated as a hazardous material by the United States Department of Transportation according to 49 CFR Part 172, as amended; or, any waste material which constitutes a hazardous waste according to 40 CFR Part 261, as amended; or, any other substance or material including but not limited

to petroleum products which, in the judgment of the emergency response authority, poses an imminent danger to the public health and safety when involved in a hazardous material incident.

HAZARDOUS MATERIAL INCIDENT: Any emergency circumstance involving the sudden discharge or imminent discharge of hazardous material which, in the judgment of the emergency response authority, threatens immediate and irreparable harm to the environment or the health and safety of any person other than persons exposed to the risks associated with hazardous materials in the normal course of their employment. "Hazardous material incident" does not include any discharge of a hazardous material authorized pursuant to any Federal, State or local law or regulation.

PRIVATE PROPERTY: Any property under the control, management or operation of any person other than a governmental entity.

EMERGENCY RESPONSE AUTHORITY: The Chief of the Fire Department of the City or his designee(s).

EMERGENCY RESPONSE TO A HAZARDOUS MATERIAL INCIDENT: Taking the initial emergency action necessary to minimize the effects of a hazardous material incident and exercising continuing supervisory authority over all further efforts to eliminate the threat of immediate and irreparable harm to the environment or the public health and safety.

RESIDUE OF THE HAZARDOUS MATERIAL INCIDENT: The hazardous material itself and the soil, pavement, stone, water, debris or any other matter which is contaminated by such hazardous material. (Ord. 80-430)

20-4-103: JURISDICTION OF EMERGENCY RESPONSE AUTHORITY: The emergency response authority shall have jurisdiction for hazardous material incidents occurring within the corporate limits of the City, and within all areas outside the corporate limits of the City over which the City has jurisdiction and authority to regulate, and on any private property for which the owner or

operator thereof has an arrangement with the City for fire protection service, except that such arrangement shall not include a mutual support agreement. (Ord. 80-430)

20-4-104: DUTIES AND AUTHORITY OF THE EMERGENCY RESPONSE

AUTHORITY: The emergency response authority shall have the following duties and authority:

- A. Provide twenty four (24) hour response capability to reported or suspected hazardous waste incidents.
- B. Take initial emergency action necessary to minimize the effects of a hazardous material incident and exercise continuing supervisory authority over all further efforts to eliminate the threat of immediate and irreparable harm to the environment or the public health and safety.
- C. Request assistance of personnel and equipment at the scene and immediate vicinity of a hazardous material incident from any City department including, but not limited to, the Fire Department, the Police Department, the Department of Public Works, the Department of Public Utilities and Office of Safety and Claims, and generally direct, supervise and coordinate the activities of such persons and the use of such equipment.
- D. Request assistance from the nearest available fire department or other public agency possessing such equipment, personnel or expertise which, in the judgment of the emergency response authority, may be necessary to handle a particular hazardous material incident when such equipment, personnel or expertise is not reasonably available on a timely basis from the various City departments.
- E. Contract, as an emergency measure without the necessity of bids, for services and material from any person for the purpose of minimizing the effects of a hazardous material incident and for eliminating the threat of immediate and irreparable harm to the environment or to public health and safety if such services or material is not reasonably available on a timely basis from the various City departments or other fire departments or public agencies.

- F. Notify the Disaster Emergency Service Agency, the United States Coast Guard, the United States Environmental Protection Agency, the Colorado State Department of Health, and any other Federal or State agency of hazardous material incidents as required by any Federal or State law or regulation. The emergency response authority may request the Disaster Emergency Service Agency to assist in making the required notifications and for any other assistance which is deemed appropriate. (Ord. 80-430)

20-4-105: RIGHT OF ENTRY: Whenever the emergency response authority has reasonable cause to believe that a discharge of hazardous material has occurred or that a discharge of a hazardous material is imminent, which discharge or imminent discharge threatens immediate and irreparable harm to the environment or the health and safety of any person other than persons exposed to the risks associated with hazardous materials in the normal course of their employment, and which discharge or imminent discharge is not authorized pursuant to any Federal, State or local law or regulation, the emergency response authority may enter any private property in the interest of public safety at all reasonable times to inspect the same or to perform any duty imposed by this Article. If such private property is occupied, the emergency response authority shall first identify himself by name and position and demand entry; and, if such private property is unoccupied, the emergency response authority shall first make a reasonable effort to locate the owner or other person having charge or control of such private property and demand entry. If entry is refused, the emergency response authority may apply for a search warrant or search warrant for inspection pursuant to the Colorado Municipal Court Rules of Procedure, or as otherwise provided by law. This section shall not be construed to require the issuance of a warrant in any case where warrants are not required by law. (Ord. 80-430)

20-4-106: RESPONSIBILITIES OF CITY DEPARTMENTS:

Upon request of the emergency response authority, all City departments shall provide any personnel, equipment and expertise as may be reasonably available, to assist at the scene or immediate vicinity of a hazardous material incident taking into account the serious and immediate danger posed by hazardous material incidents. All

personnel and equipment from each department at a hazardous material incident scene or vicinity shall be under the direct supervision of the senior person from that department or as otherwise provided by departmental policy, except that the emergency response authority shall provide general supervisory control and authority at a hazardous material incident scene or vicinity and all City departments and personnel shall cooperate with the emergency response authority accordingly. (Ord. 80-430)

20-4-107: HAZARDOUS MATERIAL INCIDENTS ON PRIVATE PROPERTY:

If a hazardous material incident occurs on private property within the corporate limits of the City or on private property for which the owner or operator thereof has an agreement with the City for fire protection service, the owner or operator thereof may undertake the emergency response to such hazardous material incident and shall immediately notify and coordinate such response with the emergency response authority. If the owner or operator does not undertake such emergency response, or if in the judgment of the emergency response authority there exists an imminent danger to the public health and safety beyond such private property and the emergency response by the owner or operator thereof is inadequate or insufficient to alleviate such imminent danger, the emergency response authority shall be responsible for the emergency response to such hazardous material incident as provided in this Article. (Ord. 80-430)

20-4-108: RESPONSIBILITY FOR RESIDUE CLEANUP AND DISPOSAL:

The owner of a hazardous material and the operator of any vehicle or other conveyance by which a hazardous material is moved or transported, in the case where a hazardous material incident occurs during movement or transport, shall be jointly and severally responsible for properly cleaning up, transporting and disposing of the residue of the hazardous material incident. Proper cleanup, transport and disposal shall mean actions in compliance with all Federal and State laws and regulations pertaining to the particular hazardous material or residue thereof, as the case may be. All such owners and operators shall cooperate with the emergency response authority and shall provide all reasonably available means, personnel and equipment to effect the proper cleanup, transport and disposal of the residue of the hazardous material incident. (Ord. 80-430)

20-4-109: REIMBURSEMENT OF COSTS AND EXPENSES:

Each City department shall develop criteria to govern those costs and expenses incurred by such department as a result of assistance at hazardous material incidents which shall be reimbursable. Each City department shall submit an itemized account of all reimbursable costs and expenses incurred as a result of such department's assistance at a hazardous material incident to the Office of Safety, Claims and Insurance within thirty (30) days following such incident. Thereafter, the Office of Safety, Claims and Insurance shall bill the owner of the hazardous material involved in the hazardous material incident, or other person proximately causing the hazardous material incident, for the total costs and expenses incurred by all the City departments as a result thereof, which bill shall be due and payable within thirty (30) days after mailing. Such owner or other person proximately causing a hazardous material incident shall be jointly and severally liable for reimbursement of all City costs and expenses incurred as a result of assistance or emergency response to a hazardous material incident. Upon the failure or refusal of any person to reimburse the City as provided herein, the Office of Safety, Claims and Insurance shall refer the matter to the office of the City Attorney for collection or other disposition as deemed appropriate. (Ord. 80-430)

20-4-110: VIOLATIONS:

- A. The driver of any vehicle involved in an accident resulting in a discharge of any hazardous material upon any public or private property shall immediately stop such vehicle at the scene of the accident, or as close thereto as possible, in which latter case he shall immediately return to the scene of the accident, and in any event he shall remain at the scene of the accident until he has fulfilled the requirements of Section 20-4-110B.
- B. The driver of any vehicle involved in an accident resulting in a discharge of any hazardous material shall immediately notify the emergency response authority or a police officer of the discharge and shall give his name, address and the registration number of the vehicle he is driving to the emergency response authority or police officer. The driver shall also give the emergency response authority the name, address and telephone number of the owner of the hazardous material, if known to him.

- C. It shall be unlawful for the driver of any vehicle involved in the discharge of any hazardous material to leave the scene of a hazardous material incident until such material is cleaned up pursuant to the requirements of Section 20-4-108 of this Article, unless authorized to leave prior thereto by the emergency response authority.
- D. It shall be unlawful for any person to intentionally, knowingly or recklessly discharge any hazardous material into or upon any public or private property, unless such discharge is authorized pursuant to Federal, State or local law or regulation.
- E. It shall be unlawful for any person to intentionally, knowingly or recklessly discharge any hazardous material into the wastewater treatment works of the City, including any collection line thereto, unless authorized by the Manager of the Wastewater Division of the Department of Public Utilities of the City. (Ord. 80-430)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 1 ADMINISTRATION AND ENFORCEMENT

SECTION:

- 21-1-101: Title
- 21-1-102: Application of Chapter
- 21-1-103: Definitions
- 21-1-104: Corporations and Criminal Liability
- 21-1-105: Defenses of Intoxication
- 21-1-106: Accessory
- 21-1-107: Conspiracy
- 21-1-108: Criminal Attempt
- 21-1-109: Custody of Property by Chief of Police;
Disposal
- 21-1-110: Penalties

21-1-101: **TITLE:** This Chapter shall be known and may be cited as the Public Offenses Code of the City (hereinafter this Chapter). (Ord. 4517; 1968 Code § 8-1)

21-1-102: **APPLICATION OF CHAPTER:** Except where specifically limited, this Chapter shall apply to all areas within the corporate limits of the City and to all other areas, the use of which the City has jurisdiction and authority to regulate pursuant to ordinance, statute or agreement. (Ord. 4517; 1968 Code § 8-2)

21-1-103: **DEFINITIONS:**¹ The following terms as used in this Chapter shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

ACT: Includes a bodily movement, words, or possession of property.

AID or ASSIST: Includes knowingly to make possible or available, or to further the activity aided or assisted.

ASSAULT: An unlawful attempt coupled with a present ability to commit a bodily injury on the person of another.

BENEFIT: Any gain or advantage to the beneficiary including any gain or advantage to another person pursuant to the desire or consent of the beneficiary.

BODILY INJURY: Physical pain, illness or any impairment of physical or mental condition, and unlawful touching.

CARELESSLY: A person acts carelessly with respect to a result or to a circumstance which is defined by an ordinance as an offense when he fails to perceive a substantial or unjustifiable risk that the result will occur or that the circumstance exists. The risk must be of such nature and degree that failure to perceive it constitutes deviation from the standard of care that a reasonable and prudent person, having regard to the actual and potential hazards and conditions then existing, would observe in that situation.

CONDUCT: An act or omission and its accompanying state of mind or where relevant, a series of acts or omissions.

DEFACE: To alter the appearance of something by removing, distorting, adding to or covering all or a part of the thing.

DWELLING: A building which is used, intended to be used, or usually used by a person for habitation.

INTENTIONALLY: A person acts intentionally with respect to a result or to conduct described by an ordinance defining a violation, when his conscious object is to cause that result or to engage in that conduct or when his actions are such as to give rise to a substantial certainty that such results will be produced.

KNOWINGLY: A person acts knowingly with respect to conduct or to a circumstance described by an ordinance defining a violation when he is aware, or reasonably should be aware, that his conduct is of that nature or that the circumstance exists.

OMISSION: A failure to perform an act as to which a duty of performance is imposed by law.

1. For definitions of general application, see Section 1-1-203 of this Code.

ON: When used in conjunction with public places such as streets, includes contact with, or within or upon, a vehicle or other thing or structure which is in contact with the public place or street.

PEACE OFFICER: Any sheriff, deputy sheriff, police officer or other law enforcing authority or officer except privately-employed security personnel.

PLACE WITHIN PUBLIC VIEW: Any place where conduct by a person reasonably may be expected to be open to view by members of the public.

PREMISES: Includes vehicles or boats.

PUBLIC PLACE: A place to which the public or a substantial number of the public has access, and includes highways, transportation facilities, schools, places of amusement, parks, playgrounds and the common areas of public and private buildings and facilities.

PUBLIC SERVANT: Any officer or employee of government, whether elected or appointed, and any person participating as an advisor, consultant, process server, or otherwise in performing a governmental function, but the term does not include witnesses.

RECKLESSLY: A person acts recklessly with respect to a result or to a circumstance described by an ordinance defining a violation when he is aware or reasonably should be aware of and consciously disregards a substantial or unjustifiable risk that the result will occur or that the circumstance exists. The risk must be of such nature and degree that disregard thereof constitutes a wilful or wanton deviation from the standard of conduct that a reasonable person would observe in the situation. A person who creates a risk but is unaware thereof solely by reason of self-induced intoxication as defined elsewhere herein acts recklessly with respect thereto. (Ord. 4517; 1968 Code § 8-4)

21-1-104: CORPORATIONS AND CRIMINAL LIABILITY:

A. A corporation is guilty of an offense if:

1. The conduct constituting the offense consists of an omission to discharge a specific

A,1) duty of affirmative performance imposed on corporations by law; or

2. The conduct constituting the offense is engaged in, authorized, solicited, requested, commanded, or knowingly tolerated by the board of directors or by a high managerial agent acting within the scope of his employment or in behalf of the corporation.

3. As used in this Chapter, "agent" means any director, officer or employee of a corporation, or any other person who is authorized to act in behalf of the corporation, and "high managerial agent" means an officer of a corporation or any other agent in a position of comparable authority with respect to the formulation of corporate policy or the supervision in a managerial capacity of subordinate employees.

B. A person is liable criminally for conduct constituting a violation which he performs or causes to occur in the name of or on behalf of a corporation to the same extent as if such conduct were performed or caused by him in his own name or behalf. (Ord. 4517; 1968 Code § 8-5)

21-1-105: DEFENSES OF INTOXICATION:

A. Intoxication of the accused is not a defense to a criminal charge, except as provided in subsection B hereof, but in any prosecution for a violation, evidence of intoxication of the defendant may be offered by the defendant whenever it is relevant to negate the existence of a specific intent if such intent is an element of the crime charged.

B. A person is not responsible criminally for his conduct if, by reason of intoxication that is not self-induced at the time he acts, he lacks capacity to conform his conduct to the requirements of the law.

C. "Intoxication" as used in this Section means a disturbance of mental or physical capacities resulting from the introduction of any substance into the body.

D. "Self-induced intoxication" means intoxication caused by substances which the defendant

- D) knows or ought to know have the tendency to cause intoxication and which he knowingly introduced or allowed to be introduced into his body, unless they were introduced pursuant to medical advice or under circumstances that would afford a defense to a charge of crime.
- E. The issue of intoxication is an affirmative defense. (Ord. 4517; 1968 Code § 8-6)

21-1-106: **ACCESSORY:** It shall be unlawful for any person to be an accessory.

- A. A person is an accessory if, with intent to hinder, delay or prevent the discovery, detection, apprehension, prosecution, conviction or punishment of another for a violation of this Code, he renders assistance to such person.
- B. "Render assistance" means to:
 - 1. Harbor or conceal the other; or
 - 2. Warn such person of impending discovery or apprehension, except that this does not apply to a warning given in an effort to bring such person into compliance with the law; or
 - 3. Provide such person with money, transportation, weapon, disguise or other things to be used in avoiding discovery or apprehension; or
 - 4. Conceal, destroy or alter any physical evidence. (Ord. 4517; 1968 Code § 8-24)

21-1-107: **CONSPIRACY:** It shall be unlawful for any person to conspire with another to commit a violation of this Code.

- A. A person conspires to commit a violation of this Code, if, with the intent to promote or facilitate its commission, he agrees with another person or persons that they, or one or more of them will engage in conduct which constitutes such a violation or an attempt to commit such violation, or he agrees to aid such other person or persons in the planning or commission of

- A) such a violation or of an attempt to commit such a violation.

- B. 1. No person may be convicted of conspiracy, unless an overt act in pursuance of such conspiracy is proved to have been done by him or by a person with whom he conspired.

2. If a person knows that one with whom he conspires to commit a violation has conspired with another person or persons to commit the same violation, he is guilty of conspiring to commit such violation with such other person or persons, whether or not he knows their identity.

3. If a person conspires to commit a number of violations, he is guilty of only one conspiracy so long as such multiple violations are part of a single criminal episode. (Ord. 4517; 1968 Code § 8-25)

21-1-108: **CRIMINAL ATTEMPT:** It shall be unlawful to commit a criminal attempt as set out hereafter:

- A. A person commits criminal attempt if, acting with the kind of culpability otherwise required for commission of an offense, he intentionally engages in conduct constituting a substantial step toward commission of a violation of this Code. A substantial step is any conduct, whether act, omission or possession which strongly corroborates the firmness of the actor's intent to complete the commission of the violation. Factual or legal impossibility of committing the violation is not a defense if the violation could have been committed had the attendant circumstances been as the actor believed them to be, nor is it a defense that the violation attempted was actually perpetrated by the accused.
- B. A person who engages in conduct intending to aid another to commit a violation commits criminal attempt if the conduct would establish his complicity were the violation committed by the other person, even if the other is not guilty of committing or attempting the violation. For purposes of this Section, complicity means that

- B) a person legally is accountable as principal for the behavior of another constituting a violation if, with the intent to promote or facilitate the commission of the violation, he aids, abets or advises such other person in planning or committing the violation.
- C. It is an affirmative defense to a charge under this Section that the defendant abandoned his effort to commit the violation or otherwise prevented its commission, under circumstances manifesting the complete and voluntary renunciation of his criminal intent. (Ord. 4517; 1968 Code § 8-26)

21-1-109: CUSTODY OF PROPERTY BY CHIEF OF POLICE; DISPOSAL:

- A. All firearms, military equipment, books, records, personal effects taken from a prisoner under arrest, and all confiscated articles shall be in the custody of the Chief of Police. (Ord. 856; Ord. 1104; 1968 Code § 7-8)
- B. The Chief of Police shall keep a record of all property which may be seized or otherwise taken possession of by the Police Department; and if such property so seized or taken possession of shall not be claimed by the rightful owner thereof and possession surrendered to such owner within three (3) months from the date of such seizure or taking possession of by the Police Department, he shall publish or cause to be published in the official newspaper of the City¹ a description of such property and shall give notice that if such property be not claimed by the rightful owner or owners thereof within ten (10) days from the date of said publication such property will be sold at public auction at such place and in such manner as the Chief of Police may prescribe. If within ten (10) days from the date of such publication no claim for such property described in such notice shall have been made by the rightful owner thereof, he shall proceed to sell such property at public auction. Alternatively, the Chief of Police may, with the approval of the City Manager, if no claim for the property described in the notice is made, determine that the property be put to City use, in which case said property shall be entered into the City's inventory. The Chief of Police shall pay into the police pension fund the estimated value of the property put to City

- B) use. The proceeds of any sale or sales so made after deducting the cost of storage, advertising and selling, etc. shall be paid into the Police Pension Fund.
- C. Provided, that if any property so seized or taken possession of by the Police Department shall be of a perishable nature as to make it inadvisable to retain possession thereof for the length of time hereinabove specified he may cause such property to be forthwith advertised in the official newspaper of the City. Such property may be sold at public auction at any time after three (3) days have elapsed from the seizure or taking possession thereof. Nothing in this Section contained shall refer to any impounded animal.² (Ord. 1104; Ord. 76-17; Ord. 84-84; 1968 Code § 7-18)

21-1-110: PENALTIES: Whenever in this Chapter any act is prohibited or is made or declared to be unlawful, an offense, violation or misdemeanor, or the doing of any act is required, or the failure to do any act is declared to be unlawful or an offense, violation, or misdemeanor, any person who shall be convicted of the violation of any such provisions of this Chapter shall be punished as provided in Section 1-2-101 of this Code. (1968 Code, § 8-7)

1. See Section 1-1-601 of this Code.

2. See Chapter 11, Article 4 of this Code.

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 2 OFFENSES AFFECTING PUBLIC SAFETY

SECTION:

21-2-101: Fighting
 21-2-102: Loitering
 21-2-103: Failure to Desist or Disperse
 21-2-104: Disturb Lawful Assemblies
 21-2-105: Unlawful Use of Telephone
 21-2-106: Leaving Cellar Doors and Other Openings
 Uncovered or Unsafe
 21-2-107: Storage of Unsafe Icebox and
 Similar Items
 21-2-108: Harassment

21-2-101: **FIGHTING:**

- A. It shall be unlawful for any person to intentionally, knowingly or recklessly fight or brawl with another.
- B. It shall be unlawful for any person to permit any of the above acts in any house or upon any premises under his management or control when it is within his power to prevent such action.
- C. For purposes of this Section, it is not a defense that a person charged with a violation of this Section was not the instigator or the initiator of the fight. (Ord. 86-35)

21-2-102: **LOITERING:**

- A. Definition. The word "loiter" shall mean to be dilatory, to stand idly around, to linger, delay, wander about, to remain, abide or tarry in a public place.
- B. Acts Prohibited:
 - 1. It shall be unlawful for any person to loiter so as to warrant alarm for the safety of persons or property in the vicinity.
 - 2. Loitering on School Grounds: It shall be unlawful to loiter on school grounds. A person loiters on school grounds if:

B,2) a. At a time when the school is in session or when persons under the age of eighteen (18) are otherwise present in the school building or on the grounds;

b. Having been asked to leave by a school administrator or his representative or a peace officer;

c. He loiters in the school building, on the school grounds, or within one hundred feet (100') of the school grounds;

d. Without having any reason related to custody of or responsibility for a pupil attending that school, or any other specific, legitimate reason for his presence;

e. Under circumstances in which his continued presence interferes with or disrupts the school program or interferes with or endangers school children or personnel present in the school building or on its grounds.

C. Reasonable Grounds, Duty of Officer. For purposes of a prosecution under subsection B1, the following applies:

1. Among the circumstances which may be considered in determining whether reasonable grounds for belief have arisen that such person is loitering is the fact that such person;

a. Takes flight upon appearance of a peace officer; or

b. Refuses to identify himself; or

c. Manifestly endeavors to conceal himself or any object; or

d. Systematically checks the means of access to buildings or vehicles; or

e. Maintains a continuous presence in close proximity to a place when his activity manifests a high probability of unlawful activity.

2. Unless flight by the person or other circum-

C,2) stances make it impractical, a peace officer shall, prior to any arrest for an offense under this Section, afford the person an opportunity to dispel any alarm otherwise warranted, or explain any circumstances giving rise to reasonable grounds for belief that such person is loitering by requesting him to:

- a. Identify himself; and
- b. Explain his presence and conduct.

D. Standard for Conviction. No person shall be convicted of an offense under subsection B1, if the peace officer did not comply with subsections C2a and b of this Section, or if at trial, that the explanation of presence and conduct given by the defendant was true and, if believed by the peace officer at the time, would have dispelled any alarm or would have disclosed a lawful purpose. (Ord. 4517; Ord. 84-180; Ord. 86-36; 1968 Code § 8-9)

21-2-103: FAILURE TO DESIST OR DISPERSE: It shall be unlawful for any person to intentionally, knowingly or recklessly fail or refuse to obey an order which:

- A. Is made by a peace officer while in the discharge or apparent discharge of his duties; and
- B. Directs that person or a group of which that person is a member, to desist from conduct or disperse from an area; and
- C. Is given at a time when that person individually or with others is participating in a course of conduct or is present in an area where such conduct or presence creates, maintains or aggravates an immediate substantial danger of damage or injury to persons or property or substantially obstructs the performance of any governmental function. (Ord. 74-118; 1968 Code § 8-10; Ord. 80-299)

21-2-104: DISTURB LAWFUL ASSEMBLIES:

- A. It shall be unlawful for any person, by his conduct in, on or near the premises, property or facilities of the City or any public place, institution, office or buildings or any school, congregation or assembly meeting for religious worship or any other lawful meeting or assembly to intentionally, knowingly or recklessly:

- A) 1. Obstruct a street, highway, sidewalk, railway, waterway, building entrance, elevator, aisle, stairway or hallway to which the public or a substantial group of the public has access, or any other place used for the passage of persons, vehicles or conveyances, whether the obstruction arises from his acts alone or from his acts and the acts of others; or

2. Disobey a reasonable request or order to move issued by a person he knows to be a peace officer, a fireman, or a person with authority to control the use of the premises, to prevent obstruction of a highway, passageway or of the premises or facilities, or to maintain public safety by dispersing those gathered in dangerous proximity to a fire, riot or other hazard.

3. Substantially to disrupt, obstruct or interfere with any lawful meeting, procession or gathering in or on such premises by intentional physical action, verbal utterance or any other means.

4. Deny any public servant, official, employee, invitee or student:

- a. Lawful freedom of movement on the premises;
- b. lawful use of the property, premises or facilities;
- c. The right of lawful ingress and egress to such property.

5. Impede any public servant, official, employee, invitee or student in the lawful performance of his duties or activities through the use of restraint, coercion, or intimidation or when force and violence are present or threatened.

6. Fail or refuse to leave such premises, property or facilities or the immediate vicinity thereof, upon being reasonably requested to do so by a peace officer, chief administrative officer, or his designee, dean of an educational institution, or other individual or public servant with authority to control the use of the premises if such person is committing, threatens to commit, or incites others to commit, any act which would obstruct, disrupt, restrict or impede the lawful missions, processes, procedures or functions in or on such premises, property or facilities.

- B. For the purposes of this Section, "obstruct"

- B) means to render impassable or to render passage unreasonably inconvenient or hazardous.
- C. Nothing in this Section shall be construed to prevent lawful assembly and peaceful and orderly petition for the redress of grievances. (Ord. 4517; 1968 Code §8-12)

21-2-105: UNLAWFUL USE OF TELEPHONE:

- A. It shall be unlawful for any person, by means or use of a telephone, to intentionally, knowingly or recklessly disturb or tend to disturb the peace, quiet or right of privacy of any person or family, or harass any person or family by:
 - 1. Making a telephone call or causing the telephone to ring repeatedly whether or not a conversation ensues, with no purpose of legitimate conversation; or
 - 2. Making a single or repeated communications at inconvenient hours or in offensively coarse, obscene or profane language; or
 - 3. Attempting to extort money or other things of value; or
 - 4. Threatening any physical harm or violence.
- B. As used in Section A2 above, unless the context otherwise requires, "obscene" means a patently offensive description of ultimate sexual acts or solicitation to commit ultimate sexual acts, whether or not said ultimate sexual acts are normal or perverted, actual or simulated, including masturbation, cunnilingus, fellatio, anilingus, or excretory functions.
- C. Any act prohibited by subsection A above may be deemed to have occurred or to have been committed at the place at which the telephone call was either made or received. (Ord. 86-37)

21-2-106: LEAVING CELLAR DOORS AND OTHER OPENINGS UNCOVERED OR

UNSAFE: It shall be unlawful for any person to leave open, uncovered, unguarded or in unsafe condition, any cellar door, hatchway, pit, vault or excavation upon any sidewalk, street, alley or public place or so near thereto as to constitute a hazard. (Ord. 4517; 1968 Code § 8-53)

21-2-107: STORAGE OF UNSAFE ICEBOX AND SIMILAR ITEMS:

- A. It shall be unlawful for any person to store, maintain, abandon, discard or place any icebox, refrigerator or freezer which is not being used for refrigeration purposes in any public or private place accessible to children without first doing one or more of the following to any such icebox, refrigerator or freezer:
 - 1. Removing the door or doors; or
 - 2. Removing the latches and affixing a block or wedge or other device to the inner door surface in such a manner that the door or doors cannot shut to form a tight seal; or
 - 3. Padlocking the door or doors shut; or
 - 4. Securing the door or doors shut with metal strapping.
- B. It shall be unlawful for any person to abandon or discard in any public or private place accessible to children, or for the owner, lessee or manager of any property to knowingly permit to remain abandoned or discarded in any place under his control which is accessible to children, any chest, closet, piece of furniture or other article having a compartment of a capacity of one and one-half cubic feet or more and having a door or lid which, when closed, cannot be opened easily from the inside. (Ord. 77-172; 1968 Code § 8-54)

21-2-108: HARASSMENT: It shall be unlawful for any person to commit harassment. A person commits harassment if, with intent to harass, annoy or alarm another person, he:

- 1. Strikes, shoves, kicks, or otherwise touches a person or subjects him to physical contact; or
- 2. Follows a person in or about a public place; or
- 3. Repeatedly insults, taunts, or challenges another in a manner likely to provoke a violent or disorderly response. (Ord. 86-38)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 3 OFFENSES AGAINST PUBLIC OFFICIALS AND JUSTICE

SECTION:

21-3-101: Resisting, Interference With Public
Official

21-3-102: Duty to Aid Police Officers

21-3-103: Impersonating an Officer

21-3-104: False Information

21-3-101: **RESISTING, INTERFERENCE WITH PUBLIC OFFICIAL:**

A. Resisting, Assaulting an Officer.

1. It shall be unlawful for any person to knowingly, intentionally or recklessly resist any peace officer, any member of the Police Department, or any person duly empowered with police authority, while such official is in the discharge or apparent discharge of his duty.

2. It shall be unlawful for any person to knowingly, intentionally or recklessly assault in any manner any peace officer, any member of the Police Department, or any person duly empowered with police authority, while such official is in the discharge or apparent discharge of his duty. For purposes of this Section, an assault is an unlawful attempt coupled with a present ability to commit a bodily injury on the person of another. (Ord. 4517; Ord. 84-45; 1968 Code § 8-19)

B. Interference With Public Officials.

1. It shall be unlawful for any person to knowingly, intentionally or recklessly interfere with or hinder any peace officer, member of the Police Department, or a person duly empowered with police authority, while such official is in the discharge or apparent discharge of his duty.

2. It shall be unlawful for any person to knowingly, intentionally or recklessly offer or endeavor to assist any person in the custody of a peace officer, member of the Police Department, or a person duly empowered with

B2) police authority to escape or to attempt to escape from such custody.

3. It shall be unlawful for any person to knowingly, intentionally or recklessly rescue or to attempt to rescue any person from the custody of a peace officer, a member of the Police Department, or a person duly empowered with police authority. (Ord. 4517; Ord. 84-45; 1968 Code § 8-20)

C. Defense to Prosecution. In a prosecution under subsections A and B hereof, it is no defense that the peace officer was attempting to make an arrest which in fact was unlawful, if he was acting under color of his official authority, and in attempting to make the arrest he was not resorting to unreasonable or excessive force giving rise to the right of self defense. A peace officer acts "under color of his official authority" when, in the regular course of assigned duties, he is called upon to make, and does make, a judgment in good faith based upon surrounding facts and circumstances that an arrest should be made by him.

D. Definition of Peace Officer. The term "peace officer", as used in this Section, means a police officer in uniform, or if out of uniform, one who properly has identified himself to the person whose arrest is attempted. When reasonable under the circumstances, the "peace officer" shall attempt to apprise any third person of his identity. (Ord. 4517; 1968 Code § 8-21)

21-3-102: **DUTY TO AID POLICE OFFICERS:** It shall be unlawful for any person eighteen (18) years of age or older when called upon by any peace officer or member of the Police Department, unreasonably to fail or refuse to promptly aid and assist any peace officer or member of the Police Department while such official is in the discharge of his duty. (Ord. 4517; 1968 Code § 8-22)

21-3-103: **IMPERSONATING AN OFFICER:**

A. It shall be unlawful for any person other than an official peace officer of the City to wear the uniform, apparel or any other insignia of office

- A) like or similar to, or a colorable imitation of that adopted and worn by the official peace officer, or to use any kind of police whistle like or similar to that adopted by the Police Department. (Ord. 4517; 1968 Code §§ 7-23, 8-23)
- B. It shall be unlawful for any person to counterfeit, imitate, or colorably imitate, or cause to be counterfeited, imitated or colorably imitated, the uniform, apparel or insignia of office used by the Police Department of the City.
- C. It shall be unlawful for any person, without due authority, to exercise or attempt to exercise the authority of any peace officer, sheriff, deputy sheriff, marshal, public officer or investigator, inspector, deputy or clerk in any City department, or any other law enforcement officer for any purpose or for any person to falsely assume, pretend to be or hold himself out to be such officer for any purpose. (Ord. 4517; 1968 Code § 8-23)
- D. It shall be unlawful for any person not a member of the Fire Department to personate a fireman or officer of such Department. (Ord. 1861; 1968 Code § 7-59)

21-3-104: FALSE INFORMATION:

- A. It shall be unlawful for any person to intentionally, knowingly or recklessly give false or misleading information to any peace officer or other employee of the City who is acting in his official capacity and within the scope of his employment.
- B. It shall be unlawful for any person to intentionally, recklessly, knowingly or carelessly make, turn in or give a false alarm or false information concerning fire, the need for police or ambulance, or of injury or disaster which causes aid or other rescue efforts to be needlessly launched. (Ord. 4517; 1968 Code § 8-27)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 4 OFFENSES AGAINST MORALS AND DECENCY¹

SECTION:

- 21-4-101: Adult Business or Uses
 21-4-102: Prostitution
 21-4-103: Public Indecency

21-4-101: **ADULT BUSINESS OR USES:** For the purpose of this Section, "adult business or use" is as defined in Section 14-11-102 of this Code.

- A. **500 Foot Restriction.** It shall be unlawful to operate or maintain any adult use intended to provide adult amusement or entertainment on payment of a fee or admission charge in a residential district, or within five hundred feet (500') of a residential district, a church, or an educational institution, as defined in Section 14-1-109 of this Code, whether within or without the City.
- B. **1,000 Foot Restriction.** It shall be unlawful to operate or maintain any adult use intended to provide adult amusement or entertainment on the payment of a fee or admission charge within one thousand feet (1,000') of any other adult use. (Ord. 77-11; 1968 Code § 8-29.1)

21-4-102: **PROSTITUTION:**

- A. **Prostitution Unlawful.** It shall be unlawful for any person to engage in prostitution.
- B. **Soliciting.** It shall be unlawful for any person to solicit for prostitution. A person solicits for prostitution if he:
1. Asks, proposes or otherwise seeks to engage another for the purpose of prostitution; or
 2. Arranges or offers to arrange a meeting of persons for the purpose of prostitution; or
 3. Directs another to a place knowing such direction is for the purpose of prostitution.

C. **Pandering.** It shall be unlawful for any person to pander. A person panders when, in exchange for money or other thing of value, he knowingly arranges or offers to arrange a situation in which a person may engage in prostitution.

D. **Keeping a Place of Prostitution.** It shall be unlawful for any person to keep a place of prostitution. Any person who has control or exercises control over the use of any premises which offers seclusion or shelter for the practice of prostitution keeps a place of prostitution if he performs any one or more of the following:

1. Knowingly grants or permits the use of such place for the purpose of prostitution; or
2. Permits the continued use of such place for the purpose of prostitution after becoming aware of facts or circumstances from which he should reasonably know that such place is being used for the purposes of prostitution.

E. **Patronizing a Prostitute.** It shall be unlawful for any person to patronize a prostitute. Any person who performs any one or more of the following acts with a person not his spouse patronizes a prostitute:

1. Engages in sexual conduct or activity with a prostitute; or
2. Enters or remains in a place of prostitution with intent to engage in sexual conduct or activity with a prostitute.

F. **Loitering for the Purpose of Prostitution.** It shall be unlawful for any person to loiter for the purpose of prostitution.

1. A person loiters for the purpose of prostitution if he loiters in a manner and under circumstances manifesting the purpose of inducing, enticing, soliciting or procuring another to engage in prostitution. Among the circumstances which may be considered in determining whether the purpose of prostitution is manifested are the following:

¹ Article 7 of Title 18 of the Colorado Revised Statutes 1973 controls offenses relating to morals.

- F,1) a. Such person is a known prostitute or panderer or, if such person is not a known prostitute or panderer, such person maintains a presence in an area which, within the knowledge of the arresting officer, is frequented by known prostitutes or panderers; and,
b. Such person either:
- (1) Repeatedly beckons to, stops or attempts to stop passersby, or engages or attempts to engage passersby in conversation; or
 - (2) Repeatedly stops or attempts to stop motor vehicle operators by hailing, waving of arms or any other gesture or action.
2. Any person suspected of loitering for the purpose of prostitution shall be afforded an opportunity to explain his presence and conduct prior to his arrest.
3. No person shall be convicted of loitering for the purpose of prostitution if it appears at trial that such person was not afforded an opportunity to explain his presence and conduct prior to arrest or if it appears at trial that the explanation given by such person was true and disclosed a lawful purpose.
- G. Definitions. For the purposes of this Section, the following definitions shall apply:
1. PROSTITUTION means engaging, offering to engage or agreeing to engage in sexual conduct or activity with any person except one's spouse where one or more of the parties is to receive money or any other thing of value in exchange for performing such sexual conduct or activity.
 2. PROSTITUTE means any person who engages in prostitution.
 3. SEXUAL CONDUCT OR ACTIVITY means any act involving contact between the genitals of one person and the mouth, hand, anus or genitals of another person, including genital intercourse, fellatio, cunnilingus, masturbation or anal intercourse.
 4. LOITER means to be dilatory, to stand idly around, to linger, delay, remain, abide, tarry or wander about in a public place.

- G) 5. KNOWN PROSTITUTE OR PANDERER means a person who, within one year prior to the date of arrest for violation of subsection F hereof, has been convicted of prostitution, soliciting, pandering or loitering for the purpose of prostitution, and such conviction is within the knowledge or information of the arresting officer. (Ord. 4517; Ord. 81-62; Ord. 82-120; 1968 Code § 8-30)

21-4-103: **PUBLIC INDECENCY:** It shall be unlawful for any person to knowingly perform any of the following acts in a public place or a place within public view:

- A. An act involving sexual conduct or activity. For the purposes of this Section, the term "sexual conduct or activity" shall mean any act involving contact between the genitals of one person and the mouth, hand, anus or genitals of either that person or another person, including genital intercourse, fellatio, cunnilingus, masturbation or anal intercourse.
- B. A Lewd Act. For the purposes of this Section, any of the following shall constitute a lewd act:
 1. Exposure of the breasts of the female or the pubic hair, anus, vulva, genitals or buttocks of either sex, done with intent to arouse or to satisfy the sexual desire of either the person committing the act or any other person.
 2. Exposure of the breasts of the female or the pubic hair, anus, vulva, genitals or buttocks of either sex under circumstances in which such conduct is reasonably likely to cause affront or alarm to another person.
 3. Caressing or fondling of the breasts of the female or the pubic hair, anus, vulva, genitals or buttocks of either sex, either on the person of that person performing the act or on the person of another, whether or not the person being caressed or fondled is clothed. (Ord. 4517; Ord. 81-61; Ord. 83-257; 1968 Code § 8-31)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 5 GAMBLING

SECTION:

21-5-101: Definitions

21-5-102: Gambling Offenses

21-5-103: Seizure of Gambling Devices, Proceeds

21-5-101: DEFINITIONS:¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

GAIN: The direct realization of winnings.

PROFIT: Any other realized or unrealized benefit, direct or indirect, including benefits from proprietorship, management or unequal advantage in a series of transactions.

GAMBLING: Risking any money, credit, deposit or other thing of value for gain contingent in whole or in part upon lot, chance, the operation of a gambling device, or the happening or outcome of an event, including a sporting event over which the person taking a risk has no control, but does not include:

- A. Bona fide contests of skill, speed, strength or endurance in which awards are made only to entrants or the owners of entries;
- B. Bona fide business transactions which are valid under the law of contracts; or
- C. Other acts or transactions now or hereafter expressly authorized by law;
- D. Any game, wager or transaction which is incidental to a bona fide social relationship, is participated in by natural persons only, and in which no person is participating, directly or indirectly, in professional gambling.

PROFESSIONAL GAMBLING:

- A. Aiding or inducing another to engage in gambling, with the intent to derive a profit therefrom; or

- B. Participating in gambling and having, other than by virtue of skill or luck, a lesser chance of losing or a greater chance of winning than one or more of the other participants.

GAMBLING DEVICE: Any device, machine, paraphernalia or equipment that is used or usable in the playing phases of any professional gambling activity, whether that activity consists of gambling between persons or gambling by a person involving the playing of a machine.

GAMBLING PREMISE: Any building, house, room, enclosure, vehicle, vessel or other place, whether open or enclosed, used or intended to be used for professional gambling. In the application of this definition, any place where a gambling device is found shall be presumed to be intended to be used for professional gambling.

GAMBLING PROCEEDS: All money or other things of value at stake or displayed in or in connection with professional gambling. (Ord. 4517; 1968 Code § 8-28)

21-5-102: GAMBLING OFFENSES:

- A. Gambling Prohibited. It shall be unlawful for any person to engage in gambling, or professional gambling, as defined herein.
- B. Possession of a Gambling Device. It shall be unlawful for any person to own, manufacture, sell, transport, possess or engage in any transaction designed to affect the ownership, custody, or use of a gambling device, knowing that it is to be used in professional gambling.
- C. Gambling Premises. It shall be unlawful for any person as owner, lessee, agent, employee, operator or occupant, knowingly to maintain or aid or permit the maintaining of a gambling premise. (Ord. 4517; 1968 Code § 8-28)

21-5-103: SEIZURE OF GAMBLING DEVICES, PROCEEDS: All gambling devices, instruments and things used for the purpose of gambling, as well as gambling proceeds are hereby

¹ For definitions of general application, see Section 1-1-203 of this Code.

declared to be contraband and shall be subject to seizure by any peace officer, and may be confiscated and destroyed by order of any judge of the Municipal Court. All gambling proceeds shall be forfeited to the City and transferred by Court order to the General Fund of the City. (Ord. 4517; 1968 Code § 8-28)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 6 OFFENSES AFFECTING PROPERTY

PART 1 GENERAL OFFENSES

SECTION:

21-6-101: Damage to Property
 21-6-102: Trespass on Private Property
 21-6-103: Parking Motor Vehicles on
 Private Property
 21-6-104: Use of Property of Another
 21-6-105: Urination or Defecation

another or in the lawful possession of another without the permission of the owner or person in possession thereof. (Ord. 4517; 1968 Code § 8-35)

21-6-104: USE OF PROPERTY OF ANOTHER: It shall be unlawful for any person to use or cause to be used, in any manner, the real or personal property of another, or in lawful possession of another, for any purpose, including advertising, storage, grazing or recreation, without the permission of the owner or person in possession thereof. (Ord. 4517; 1968 Code § 8-36)

21-6-101: DAMAGE TO PROPERTY:

- A. Private Property. It shall be unlawful for any person intentionally, knowingly or recklessly to injure, deface, destroy or sever in any manner any real or personal property or improvements thereto of any other person in this City. (1968 Code § 8-32)
- B. City Property. It shall be unlawful for any person intentionally, knowingly or recklessly to injure, deface, destroy or sever in any manner any real or personal property or improvements thereto belonging to the City. (Ord. 4517; 1968 Code § 8-33)

21-6-105: URINATION OR DEFECATION: It shall be unlawful for any person to urinate or defecate upon any public place or place within public view other than in a toilet facility provided for such purpose. (Ord. 82-55)

21-6-102: TRESPASS ON PRIVATE PROPERTY: It shall be unlawful for any person intentionally or knowingly to trespass or enter upon the land of another or in possession of another without the permission of the owner or the person in possession thereof, or, having lawfully entered upon such property, to remain thereon after having been directed by the owner or person in possession thereof to depart. (Ord. 4517; 1968 Code § 8-34; 1980 Code)

21-6-103: PARKING MOTOR VEHICLES ON PRIVATE PROPERTY: It shall be unlawful for any person to park or stand a motor vehicle or other personal property on the premises of

- 21-6-203: Litter Receptacles Required on Public Property
- 21-6-204: Litter Receptacles Required on Private Property
- 21-6-205: Littering From Vehicles: Presumption
- 21-6-206: Sidewalks and Parking Areas to be Kept Free of Litter
- 21-6-207: Bills; Attachment Prohibited
- 21-6-208: Bills; Requirements for Distribution

21-6-201: **DEFINITIONS:**¹ The following terms, as used in this Part 2, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express violation.

LITTER: Any and all rubbish, waste material, refuse, garbage, trash, debris or other foreign substance, solid or liquid, of every form, size, kind and description.

LITTERING: Dumping, dropping, throwing or depositing any litter or otherwise causing or permitting any litter to escape from a vehicle or otherwise. (Ord. 4004; Ord. 4564; Ord. 75-82; 1968 Code § 11-97)

21-6-202: **LITTERING PROHIBITED:** It shall be unlawful for any person to litter on any public or private property in this City or any waters in this City unless:

- A. Such property is an area designated by the State or any of its agencies or political subdivisions, including the City, for the disposal of such material and such person is authorized by the proper public authority to so use such property; or

- B. The litter is placed in a receptacle or container used on such property for such purpose. (Ord. 4004; Ord. 4564; 1968 Code § 11-100.1; 1980 Code)

21-6-203: **LITTER RECEPTACLES REQUIRED ON PUBLIC PROPERTY:** All public officials having supervision of properties of this City shall establish and maintain receptacles for the deposit of litter at locations frequented by the public, shall post signs directing persons to such receptacles, and shall otherwise publicize availability of litter receptacles and the requirements of this Code along City streets and highways in, on or about public places. (Ord. 4004; Ord. 4564; 1968 Code § 11-100.2; 1980 Code)

21-6-204: **LITTER RECEPTACLES REQUIRED ON PRIVATE PROPERTY:**

- A. It shall be unlawful for any owner or occupant of private property, which with his consent is used by the public, to fail or refuse to provide litter receptacles in appropriate locations, to fail to post signs directing persons to such receptacles, or to fail to publicize the availability of litter receptacles on such property.
- B. It shall be unlawful for any person responsible for providing such litter receptacles as determined herein, to fail or refuse to empty such containers as often as is necessary to prevent a nuisance. (Ord. 4564; 1968 Code § 11-100.3; 1980 Code)

21-6-205: **LITTERING FROM VEHICLES; PRESUMPTION:**

- A. Whenever litter is thrown, deposited, dropped or dumped from any motor vehicle, the operator of said vehicle shall be presumed to have caused or permitted such littering. In the event that positive identification cannot be

1. For definitions of general application, see Section 1-1-203 of this Code.

- A) made, it shall be presumed that the registered owner of such vehicle has caused or permitted such littering to occur.
- B. 1. Whenever litter escapes from a vehicle designed or used as a transporter of material of any description, the person operating the vehicle shall be presumed to have caused or permitted such litter to have been thrown, deposited, dropped or dumped from the vehicle. A vehicle bearing a City-issued trash hauler's license¹ is prima facie a vehicle so designed or used. Violation of this subsection shall result in a minimum fine of one hundred dollars (\$100.00) for each offense.
- 2. It shall be presumed that a vehicle used to transport material is subject to the provisions of subsection B1 of this Section. Such presumption may be rebutted by evidence that such use was for personal purposes and not incidental to a business or employment purpose. (Ord. 4564; 1968 Code § 11-100.5; 1980 Code)

21-6-206: SIDEWALKS AND PARKING AREAS TO BE KEPT FREE OF LITTER:

- A. It shall be unlawful for the owner or person in charge of a place of business or shopping area to fail or refuse to maintain in a clean and unlittered condition the sidewalk area adjacent to such shopping area or place of business and any area used by persons for automobile parking.
- B. It shall be unlawful for persons owning or occupying property to fail or refuse to keep the sidewalk and driveways abutting their premises clean and free of litter.
- C. It shall be unlawful for any person to sweep into or deposit in any gutter, street, alley or other public or private place within the City an accumulation of litter from any building or lot, or from any public or private sidewalk or driveway. (Ord. 4564; 1968 Code §§ 11-100.3, 11-100.4, 11-100.6; 1980 Code)

21-6-207: BILLS; ATTACHMENT PROHIBITED:

¹. See Chapter 8, Article 3, Part 5 of this Code.

- A. It shall be unlawful for any person to attach in any manner or cause the attachment of any bill, notice, announcement or advertisement of any type to any property, real or personal, public or private, which is owned by the City or by another person without the consent of the owner thereof, except as may be permitted by this Code.
- B. The attachment to property, real or personal, public or private of any handbill, sign, poster, advertisement or notice of any kind contrary to subsection A of this Section shall be prima facie evidence that it was attached by the person therein or advertised thereby. (Ord. 4564; 1968 Code § 11-101.1, 11-101.2; 1980 Code)

21-6-208: BILLS; REQUIREMENTS FOR DISTRIBUTION: It shall be unlawful for any person to distribute, scatter, deposit or place or cause the same to be done, upon or about any property, public or private, real or personal, any handbill, circular, card, pamphlet, newspaper, picture or similar matter unless such matter and distribution shall conform in all respects to the following requirements:

- A. The name of the printer or publisher and the City in which his business is located shall be clearly set out on each piece of said matter.
- B. The name and address of the author or person causing such matter to be printed and published shall be clearly set out on each piece of said matter.
- C. Each unit or piece of such matter which does not exceed twelve inches by eighteen inches (12" x 18") shall be placed behind or under a screen or other door, or under a mat or in such a way that it will not blow about the yards or streets. Each unit of such matter which is in excess of twelve inches by eighteen inches (12" x 18") must be folded, rolled or banded in such a way that it will not blow about the yards or streets. (Ord. 4564; 1968 Code § 11-101.3; 1980 Code)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 6 OFFENSES AFFECTING PROPERTY

PART 3 WEEDS

SECTION:

21-6-301: Purpose; Exclusion
 21-6-302: Definitions
 21-6-303: Fire Hazards
 21-6-304: Traffic Hazards
 21-6-305: Clogging of Drainage Ways
 21-6-306: Failure of Owner to Comply
 21-6-307: Enforcement of this Part 3
 21-6-308: Notice and Order
 21-6-309: Appeal of Notice and Order; Hearing
 21-6-310: Failure to Comply with Order to Abate
 21-6-311: Lien Assessment
 21-6-312: Abatement; Emergency Order
 21-6-313: Remedies; Additional

21-6-301: PURPOSE; EXCLUSION: The purpose of this Part 3 is to protect the public health, safety and welfare of the people of the City by eliminating and controlling, to the extent possible, the growth and proliferation of weeds within the City, which become a fire hazard, a traffic hazard, and which clog drainage ways.

This Part 3 shall not apply to land within the City in its natural state which is overgrown with native grasses and plants. 'Land in its natural state' means land which has not been disturbed by digging, scraping or plowing so as to disturb the natural growth indigenous to the area. (Ord. 82-71)

21-6-302: DEFINITIONS:¹ The following terms, as used in this Part 3, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

OWNER: Shall include the owner of record, whether person, partnership, firm, corporation, or other association of persons, any authorized agent or representative of the owner of record, and any occupant of the premises.

PREMISES: A lot or portion thereof, parcel of land, building or establishment. For the purposes of any duty or obligation imposed by this Part 3, such term shall also include an area extending to the center line

of any alley adjacent to such lot or portion thereof, parcel of land, building or establishment, or if no such alley exists, that area including all easements of record, to any including the curb and gutter of the street on any side of such lot or portion thereof, parcel of land, building or establishment. Should there exist no adjacent private property, the premises shall be deemed to include the entire width of any adjacent alley.

WEED: Any plant which:

- A. Ordinarily grows without cultivation,
- B. Is not grown for the purpose of landscaping or food production, and
- C. Will attain such a large growth (not less than 9" in height) or grows in such accumulation as to become a fire hazard when mature. (Ord. 82-71; Ord. 86-214)

21-6-303: FIRE HAZARDS:

- A. The growth of weeds or the accumulation of cuttings, mowings or other debris, or the nonremoval of the same from premises located within the City is hereby declared to be a fire hazard when such growth or accumulations are within fifty five feet (55') of any building or structure.
- B. It shall be the duty of each owner of any premises located within the City to at all times cut and mow the weeds, or remove accumulations of cuttings, mowings or other debris, which are within fifty five feet (55') of any building or structure. (Ord. 82-71; Ord. 86-214)

21-6-304: TRAFFIC HAZARDS:

- A. The growth of weeds or the accumulation of cuttings, mowings or other debris, or the nonremoval of the same from premises located within the City is hereby declared to be a traffic hazard if the growth or accumulations have the effect of obstructing the sight or line of sight of any traffic control device or the safe movement of traffic or pedestrians within the City.

¹ For definitions of general application, see Section 1-1-203 of this Code.

- B. It shall be the duty of each owner of any premises within the City to at all times cut and mow the weeds, or remove any accumulations thereof, on the respective property and in the space between the property line and the curb line in front and in the rear and alongside thereof whenever such growth or accumulations are a traffic or pedestrian hazard as stated above. (Ord. 82-71; Ord. 86-214)

21-6-305: CLOGGING OF DRAINAGE WAYS:

- A. The growth of weeds or the accumulation of cuttings, mowings or other debris, or the nonremoval of the same, from premises located within the City is hereby declared to be a nuisance whenever such growth or accumulation causes or results in the clogging of drainage ways or any drainage structure which is used for the purpose of conveying storm water drainage to safe outfall points.
- B. It shall be the duty of each owner of any premises located within the City to at all times cut and mow the weeds on the respective premises, and to remove accumulations thereof, whenever that growth or accumulation clogs drainage ways or other drainage structures which are designed to convey storm water drainage flows to safe outfall points. (Ord. 82-71; Ord. 86-214)

21-6-306: FAILURE OF OWNER TO COMPLY: In the event of the failure of the owner of any premises located within the City to cut and destroy said weeds, or to have the same cut and destroyed or remove said rubbish and other accumulations or debris in compliance with the foregoing provisions of this Part 3, the City Manager is authorized, by and through his designated representatives, to have the weeds cut, removed and destroyed, along with any accumulations thereof, and assess the cost of such cutting and removal or destruction plus a surcharge not to exceed twenty five percent (25%) for administrative costs against the property in the form of a lien if the owner thereof fails to pay within thirty (30) days of billing in accordance with Section 7-1-104 of this Code. (Ord. 82-71; Ord. 86-214)

21-6-307: ENFORCEMENT OF THIS PART 3: For purposes of this Part 3, the City Manager

is charged with the responsibility of its enforcement. To that end, the City Manager may delegate the responsibility of inspection, the serving of any required notice and orders and the follow-up enforcement procedures. (Ord. 82-71)

21-6-308: NOTICE AND ORDER:

- A. The City Manager, or designated representative, shall commence abatement proceedings pursuant to this Part 3 by issuing a notice and order to the owner, or agent of the owner, and occupant of any premises upon which he has reasonable cause to believe that a condition as described in Sections 21-6-303, 21-6-304 and 21-6-305 exists.
- B. Such notice and order shall:
1. Be in writing;
 2. Be personally served whenever feasible on the owner, or agent of the owner and occupant of such premises or, when such personal service is not feasible, either posted conspicuously at the premises or mailed to such person by certified mail, return receipt requested, to his last known address;
 3. Describe with reasonable particularity the condition existing on the premises which gives rise to the issuance of the notice and order;
 4. Specify a reasonable period within which the condition must be abated or otherwise corrected; and
 5. State that an appeal is available to the owner, agent of the owner or occupant provided written application therefor is made within ten (10) days of service or posting or the receipt of such notice and order. (Ord. 82-71; Ord. 86-214)

21-6-309: APPEAL OF NOTICE AND ORDER; HEARING:

- A. Upon written application to the City Manager within ten (10) days of service or posting or the receipt of the notice and order as provided in Section 21-6-308, a hearing concerning the propriety of such notice and order shall be granted

- A) to the owner, occupant or agent of the owner of the premises. The City Manager shall designate the time and place of such hearing. The City Manager may also designate which individual or Board or Commission shall hear the appeal, depending upon whether the basis of the violation is pursuant to Sections 21-6-303, 21-6-304 or 21-6-305.
- B. At any hearing held pursuant to this Section, the person requesting such hearing shall have the burden of establishing the impropriety of the notice and order by proving that the condition described thereon does not exist on the premises or whether such condition is in violation of any provision of this Part 3.
- C. At the hearing the appellant may be represented by an attorney, cross-examine any adverse witnesses, and present testimony as well as any other form of relevant evidence.
- D. Testimony taken at the hearing held pursuant to this Section shall be under oath and recorded verbatim. The transcript as recorded shall be made available to any member of the public or any party to the hearing upon payment of the usual charges therefor.
- E. Upon review of the evidence, the City Manager, or the designated individual or Board or Commission, shall make written findings of fact and conclusions of law in support of their decision. The decision of the City Manager, or his designated individual or Board or Commission, shall be final, and any further appeal thereto shall be to the Courts.
- F. In the event that the notice and order is not appealed within the prescribed time limit, or if the appellant fails to appear at the hearing at the time and place designated by the City manager, the notice and order shall automatically become a final order to abate or otherwise correct the condition described therein. (Ord. 82-71; Ord. 86-214)

21-6-310: FAILURE TO COMPLY WITH ORDER TO ABATE:

- A. It shall be unlawful for any person to fail or refuse to comply with any order issued to him pursuant to this Part 3.
- B. In the event that any order issued pursuant to this Part 3 is not complied with at such reasonable time as is specified therein, the City Manager, after notice to the owner, or agent of the owner and occupant, may direct the Code Enforcement Office or may request the Department of Public Works of the City have removed, corrected or otherwise abated through private contract the condition giving rise to the issuance of the order to abate. The procedures outlined in Article 1 of Chapter 7 of this Code for the collection of the cost and expenses thereof shall apply independently and in addition to the penalty provided by this Code for violation of any provision of this Part 3. (Ord. 82-71; Ord. 86-214)

21-6-311: LIEN ASSESSMENT: In the event that the owner or agent of the owner shall fail within thirty (30) days after billing to pay the costs and expenses for the removal, correction or other abatement of the condition giving rise to the issuance of the order to abate, a lien may be assessed against the property for such cost in accordance with Article 1 of Chapter 7 of this Code. The lien created hereby shall be superior and prior to all other liens excepting liens for general and special taxes. (Ord. 82-71)

21-6-312: ABATEMENT; EMERGENCY ORDER:

- A. Whenever the City Manager deems that an emergency exists which requires immediate action to protect the public health, safety and welfare, he may, without prior notice or hearing, issue an order stating that such emergency exists and requiring that such action be taken as deemed necessary to meet the emergency. Notwithstanding any provision of this Part 3 to the contrary, such order shall be effective immediately.
- B. Any person to whom such emergency order is issued shall comply therewith immediately, and it shall be unlawful to fail or refuse to so comply.

- C. In the event that the person to whom such emergency order is issued fails or refuses to immediately comply therewith, the City Manager may request, without prior notice to the owner, occupant or agent of the owner, that the Department of Public Works have removed, corrected or otherwise abated the condition giving rise to the issuance of the emergency abatement order. (Ord. 82-71)

21-6-313: **REMEDIES; ADDITIONAL:** The remedies provided in this Article shall be cumulative and in addition any other remedies which may be available to the City Manager. Nothing contained herein shall be construed to preclude the City Manager from seeking such other remedies in addition to, or in lieu of, the remedies herein granted. (Ord. 82-71)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 6 OFFENSES AFFECTING PROPERTY

PART 4 SHOPLIFTING

SECTION:

21-6-401: Shoplifting

21-6-402: Concealment of Goods

21-6-403: Questioning of Person Suspected of Shoplifting without Liability

21-6-401: **SHOPLIFTING:** It shall be unlawful for any person to knowingly, without authorization, or by threat or deception, obtain or exercise control over any goods, wares, merchandise or any other thing of value having a value of less than three hundred dollars (\$300.00) which is owned or held by and offered or displayed for sale by any stores or other mercantile establishment, and

- A. That person intends to deprive the store or mercantile establishment permanently of the use or benefit of the thing of value; or
- B. Knowingly uses, conceals or abandons the thing of value in such manner as to deprive the store or mercantile establishment permanently of its use or benefit; or
- C. Uses, conceals, or abandons the thing of value intending that such use, concealment, or abandonment will deprive the store or mercantile establishment permanently of its use or benefit. (Ord. 82-162; Ord. 83-94; Ord. 85-174)

21-6-402: **CONCEALMENT OF GOODS:** If any person wilfully conceals unpurchased goods, wares, merchandise, or any other thing of value owned or held by and offered or intended to be offered or displayed for sale by any store or other mercantile establishment, whether the concealment be on his own person or otherwise and whether such shall take place on or off the premises of said store or mercantile establishment, such concealment shall

constitute prima facie evidence that the person intended to commit the offense of shoplifting. (Ord. 82-162; Ord. 83-94)

21-6-403: QUESTIONING OF PERSON SUSPECTED OF SHOPLIFTING

WITHOUT LIABILITY: If any person conceals upon his person or otherwise carries away any unpurchased goods, wares, merchandise or other thing of value owned or held by and offered or intended to be offered or displayed for sale by any store or other mercantile establishment, the merchant or any employee thereof, or any peace officer, acting in good faith and upon probable cause based upon reasonable grounds therefor, may detain and question such person in a reasonable manner for the purpose of ascertaining whether the person is guilty of shoplifting. Such questioning of a person by a merchant, merchant's employee, or peace or police officer does not render the merchant, merchant's employee, or peace or police officer civilly or criminally liable for slander, false arrest, false imprisonment, malicious prosecution, or unlawful detention. (Ord. 82-162; Ord. 83-94)

(See following page for Article 7)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 7 DANGEROUS WEAPONS AND SUBSTANCES

PART 1 DANGEROUS AND DEADLY WEAPONS

SECTION:

- 21-7-101: Definitions
- 21-7-102: Unlawful Concealment
- 21-7-103: Possession or Display
- 21-7-104: Discharge of Firearms
- 21-7-105: Selling Weapons to Intoxicated Persons or Minors
- 21-7-106: Exceptions and Defenses
- 21-7-107: Forfeiture and Disposition

21-7-101: **DEFINITIONS:**¹ The following terms, as used in this Article, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision:

DANGEROUS or DEADLY WEAPONS: Includes:

- A. Any firearm, whether loaded or unloaded, including, but not limited to, any pistol, revolver, rifle, shotgun, air gun, gas operated gun, spring gun, or B-B gun; or
- B. Any bow made for the purpose of throwing or projecting missiles of any kind by any means whatsoever; or,
- C. Any cross knuckles, or knuckles of lead, brass or other metal; or,
- D. Any bludgeon or blackjack; which latter term shall include any billy, sandclub, sandbag or other hand operated striking weapon consisting, at the striking end, of an encased piece of lead or other heavy substance and, at the handle end, a strap or springy shaft which increases the force of impact; or,
- E. Any knife, dirk, dagger or stiletto or any other dangerous instrument capable of inflicting cutting, stabbing or tearing wounds; or,
- F. Any gravity knife; which term shall mean any knife that has a blade released from the handle

- F) or sheath thereof by the force of gravity or the application of centrifugal force, that when released is locked into place by means of a button, spring, lever or other device; or,
- G. Any switchblade knife; which term shall mean any knife, the blade of which opens automatically by hand pressure applied to a button, spring or other device in its handle; or
- H. Any other weapon, device, instrument, material or substance, whether animate or inanimate, which in the manner used or intended to be used is calculated to produce serious bodily injury. (Ord. 80-13; 1968 Code § 8-14)

FIREARM: Any handgun, automatic, revolver, pistol, rifle, shotgun or other instrument or device capable or intended to be capable of discharging bullets, cartridges or other explosive charges. (Ord. 4517; 1968 Code § 8-4)

21-7-102: **UNLAWFUL CONCEALMENT:** It shall be unlawful for any person to wear under his clothes, or conceal about his person, or conceal in a motor vehicle within his immediate reach, any dangerous or deadly weapon, except as provided in Section 21-7-106 of this Part 1. For purposes of this Section, "conceal" shall mean placement of the dangerous or deadly weapon in question about the person, or within his immediate reach, in such a manner as to be either completely hidden from view or partially hidden to such an extent that another person making normal contact with that person cannot ascertain the true nature of the weapon. (Ord. 80-13; 1968 Code § 8-14)

21-7-103: **POSSESSION OR DISPLAY:**

- A. Possession.

1. It shall be unlawful for any person, as a patron of an establishment where beer or alcoholic beverages are sold for consumption

¹ For definitions of general application, see Section 1-1-203 of this Code.

A,1) on the premises, to possess or carry or display any dangerous or deadly weapon, whether concealed or not, while on the premises of such establishment. Possession of a permit or license for the possession or carrying of the weapon in question is no defense to a violation of this subsection.

2. It shall be unlawful for any person to sell, display, use, possess or carry any switchblade or gravity knife or blackjack. Any such weapon is declared to be contraband and shall be destroyed.

B. Display. No person shall knowingly and unlawfully display a firearm, whether loaded or unloaded, at or about any person; nor shall any person knowingly and unlawfully draw or exhibit any dangerous or deadly weapon, or any object resembling any such weapon, in the presence of another person, in a rude, angry or threatening manner. Possession of a permit or license for the possession or carrying of the weapon in question is no defense to a violation of this subsection. (Ord. 80-13; 1968 Code § 8-14)

21-7-104: DISCHARGE OF FIREARMS: It shall be unlawful for any person to wrongfully fire or discharge any cannon, gun, pistol or other firearm whatsoever within the City; provided however, that the discharge of firearms using only blank ammunition, by the members of any military company when on parade or when engaged in an official ceremony, done in accordance with the command of the commanding officer, shall not be deemed a violation hereof; nor shall the discharge of firearms at shooting galleries as a licensed business, or as part of a business licensed or permitted to operate within the City be deemed a violation hereof. (Ord. 80-13; 1968 Code § 8-14)

21-7-105: SELLING WEAPONS TO INTOXICATED PERSONS OR MINORS: It shall be unlawful for any person to purchase, sell, loan or furnish any dangerous or deadly weapon to any person intoxicated or under the influence of alcohol or any narcotic or dangerous drug or glue, or to any person in a condition of agitation and excitement, or to any minor under the age of eighteen (18) years. (Ord. 80-13; 1968 Code § 8-14)

21-7-106: EXCEPTIONS AND DEFENSES:

A. It shall be an affirmative defense to an allegation of a violation of any Section of this Part 1 that the act was committed by an enforcement officer of the various law enforcement agencies of the United States government or the State of Colorado, by any sheriff or his deputies, or by any regular, special or ex-officio peace officer. (Ord. 80-13; Ord. 80-58; 1968 Code § 8-14)

B. It shall be an affirmative defense to an allegation of a violation of possession of a switchblade or gravity knife or blackjack, in violation of Section 21-7-103A2 hereof, that the person so accused was a member of the armed forces of the United States, or the Colorado National Guard, acting in the lawful discharge of his duties, or that said person has a valid permit and license for possession of such weapon.

C. It shall be an affirmative defense to an allegation of a violation of Section 21-7-102 hereof, prohibiting the carrying of concealed dangerous or deadly weapons, that:

1. The defendant was a person in his own dwelling or place of business or on property owned or under his control at the time of the act of carrying; or,

2. The defendant was a person in a private automobile or other private means of conveyance who carries a weapon for lawful protection of his or another's person or property while traveling; or,

3. The defendant was a person who, prior to the time of carrying a concealed weapon, had been issued a written permit to carry the weapon by the Chief of Police of a city, the mayor of a town or the sheriff of a county; or

4. A person who was a peace officer, as that term is defined in section 18-1-901(3)(I), Colorado Revised Statutes 1973, as that section may now or in the future be amended; or,

5. Where the weapon in question is a knife, other than a switchblade or gravity knife, that

the blade of the knife is three and one-half inches (3 ½") or less in length, or that said knife was a hunting or fishing knife carried for sports use. (Ord. 80-13; 1968 Code § 8-14)

21-7-107: FORFEITURE AND DISPOSITION:

- A. Forfeiture. Any dangerous or deadly weapon, as defined by Section 21-7-101 of this Part 1, used or possessed in violation of Sections 21-7-102 through 21-7-106 hereof, is hereby declared to be contraband and shall be forfeited to the City upon a conviction resulting from such use or possession; provided, however, that, except where the weapon in question is either a "blackjack", as defined in Section 21-7-101, a "switchblade" or "gravity knife", or any other weapon the possession of which is unlawful per se under either State or Federal law, the Municipal Court may, in the exercise of its discretion, upon written motion of the defendant or other party in interest, direct that the weapon not be forfeited but, rather, be returned to the rightful owner thereof.
- B. Disposition. It shall be the duty of every peace officer upon making an arrest and taking such a weapon, thing or substance from the person of the offender to deliver or cause to be delivered the same to the Chief of Police to be held in his custody until the final determination of the prosecution of said offense. The Chief of Police, or his authorized agent, shall dispose of weapons forfeited pursuant to subsection A above by destruction or sale in accordance with procedures and regulations of the Police Department. Any proceeds received from such sale shall, after deducting costs or other expenses of sale, be paid into the Police Department Pension Fund. (Ord. 74-21; Ord. 80-13; 1968 Code § 8-14)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 7 DANGEROUS WEAPONS AND SUBSTANCES

PART 2 OTHER DANGEROUS WEAPONS AND SUBSTANCES

SECTION:

21-7-201: Concealment and Use
 21-7-202: Use of Certain Chemicals Prohibited
 21-7-203: Incendiary or Explosive Devices
 21-7-204: Unlawful to Throw Stones or Missiles
 21-7-205: Reserved
 21-7-206: Firearms Transactions

21-7-201: CONCEALMENT AND USE: It shall be unlawful for any person to wear under his clothes or conceal about his person, or to use or to attempt to use as a weapon, any substance or article containing any substance whatsoever which is required to bear a cautionary label stating that its use in other than the manner prescribed thereby, is dangerous or deadly or injurious to the body of any person or animal, or may be the cause of illness of any person or animal, as such requirements are set forth in the Colorado Hazardous Substances Act,¹ or any other statute of the State of Colorado which may now be or hereafter be enacted to control such injurious substances, or are established by the Federal Hazardous Substances Labeling Act,² or are established by Part 191 of Chapter 1, Title 21 of the Federal Food And Drug Act, as any such statute is now in effect or may hereafter be amended, or are established by any State or Federal regulation promulgated pursuant to any such statutes. (Ord. 4517; 1968 Code § 8-15)

21-7-202: USE OF CERTAIN CHEMICALS PROHIBITED: It shall be unlawful for any person to have in his possession, to sell, to offer for sale, to give away, to lend or to furnish, to use or threaten to use any device for dispensing mace, paralyzing gas, mace or any similar chemicals or combination of chemicals, or other ingredients, designed to injure, maim, paralyze, immobilize or cause the illness of a person or animal, whether or not such substance is packaged in a container under pressure; provided, however, that any such device designed to be carried in a handbag or pocket and

which does not contain more than one and one quarter (1 ¼) ounces of chemical may be possessed by and sold to persons eighteen (18) years of age and older and may be used by such persons in self defense. Nothing in this Section or Section 21-7-201 shall be construed to prohibit the use of such devices by peace officers and mailmen in the discharge of their duties, nor by City employees who have obtained the approval of the Director of Safety to use such devices in the discharge of their duties. (Ord. 79-137; 1968 Code § 8-15)

21-7-203: INCENDIARY OR EXPLOSIVE DEVICES:

- A. It shall be unlawful for any person to throw, place or cause to be placed any incendiary or explosive device for the purpose of causing injury to any person or damage to property.
- B. It shall be unlawful for any person to prepare or to assist in the preparation of an incendiary or an explosive device, to possess, handle, store, transport or sell any such device, knowing the same is to be thrown, placed or caused to be placed for the purpose of causing injury to any person or damage to property.
- C. Except as otherwise permitted by law, it shall be unlawful for any person to possess on his person, in any motor vehicle or in any structure, an incendiary or an explosive device as defined in this Section.
- D. An incendiary or explosive device includes, but not by way of limitation, any device consisting in whole or in part of flammable material or other material having the capability of exploding, igniting or burning. (Ord. 4517; 1968 Code § 8-16)

21-7-204: UNLAWFUL TO THROW STONES OR MISSILES: It shall be unlawful for any person to throw, cast, project or hurl any stone or other missile by any means at or upon any vehicle,

1. C.R.S. 1973 §§ 25-5-501 et seq.

2. Public Law 86-613, Sec. 1-18, 74 Stat. 372-381; 15 USC 1261-2374 dated February 1, 1961.

building, tree or other public or private property, or upon or at any person in any public way or place. (Ord. 4517; 1968 Code § 8-17)

21-7-205: **Reserved.**

21-7-206: **FIREARMS TRANSACTIONS:** Every person required under United States Public Law 90-618, sometimes known as the Omnibus Crime Control and Safe Streets Act of 1968, to prepare and keep firearms transaction records, shall prepare a copy of each record so required and supply such copy daily to the Police Department of the City. (Ord. 3919; 1968 Code § 7-2.1)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 8 OFFENSES AFFECTING THE ENVIRONMENT

PART 1 NOISE POLLUTION (GENERAL)

SECTION:

- 21-8-101: Noise Prohibited
- 21-8-102: Classification, Measurement of Noise
- 21-8-103: Permissible Noise Levels
- 21-8-104: Permissible Increases
- 21-8-105: Periodic, Impulsive Noises
- 21-8-106: Construction Projects
- 21-8-107: Railroad Rights of Way
- 21-8-108: Hardship Permits

21-8-101: NOISE PROHIBITED:

- A. The making and creating of an excessive or unusually loud noise, or a noise which is unreasonable and objectionable because it is impulsive, continuous, rhythmic, periodic or shrill within the City as heard without measurement or heard and measured in the manner prescribed in Section 21-8-102, is hereby declared to be unlawful; except when made under and in compliance with a permit issued pursuant to Section 21-8-108. In proof of a violation of this Part 1 evidence of noise heard and measured in the manner prescribed in Section 21-8-102, which is less than that required for a conviction by use of test or measurement as set out in Section 21-8-102 may be offered to prove a violation of this Part 1 as heard without measurement. The time and location of the noise as well as the abovementioned characteristics of noise shall be considered in reaching a decision under this Article.
- B. It shall be unlawful for any person to operate or to allow to be operated any type of vehicle, machine, motor, airplane or device or carry on any other activity in such a manner as would be a violation of Sections 21-8-103 and 21-8-201 or other applicable sections contained herein. (Ord. 4517; 1968 Code § 8-38)

21-8-102: CLASSIFICATION, MEASUREMENT OF NOISE: For purposes of determining

and classifying any noise as excess or unusually loud as declared to be unlawful and prohibited by this Article, the following test measurements and requirements may be applied; provided, however, a violation of Section 21-8-101 may occur without the following measurements being made:

- A. Noise occurring within the jurisdiction of the City shall be measured at a distance of at least twenty five feet (25') from a noise source located within the public right of way, and if the noise source is located on private property or property other than the public right of way, at least twenty five feet (25') from the property line of the property on which the noise source is located.
- B.
 - 1. The noise shall be measured on the "A" weighing scale on sound level meter of standard design and quality and having characteristics established by the American National Standards Institute.
 - 2. For purposes of this Article, measurements with sound level meters shall be made when the wind velocity at the time and place of such measurement is not more than five (5) miles per hour, or twenty five (25) miles per hour with a wind screen.
 - 3. In all sound level measurements consideration shall be given to the effect of the ambient noise level created by the encompassing noise of the environment from all sources at the time and place of such sound level measurement. (Ord. 4517; 1968 Code, § 8-39)

21-8-103: PERMISSIBLE NOISE LEVELS: A noise measured or registered as provided above from any source other than as provided in Section 21-8-108 at a level which is equal to or in excess of the db(A) established for the time period and zones listed in this Section, is hereby declared to be excessive and unusually loud and is unlawful.

Zone	7:00 A.M. to next 7:00 P.M.	7:00 P.M. to next 7:00 A.M.
Residential	55 db(A)	50 db(A)
Commercial	60 db(A)	55 db(A)
Light Industrial	70 db(A)	65 db(A)
Industrial	80 db(A)	75 db(A)

For purposes of this Part 1, the aforementioned zones shall be defined as follows:

- A. "Residential" means an area of single or multi-family dwellings where businesses may or may not be conducted in such dwellings. The zone includes areas where multiple unit dwellings, high-rise apartment districts, and redevelopment districts are located. A residential zone may include areas containing accommodations for transients such as motels and hotels and residential areas with limited office development, but it may not include retail shopping facilities. "Residential zone" includes educational facilities, hospitals, nursing homes and similar institutions.
- B. "Commercial" means:
1. An area where offices, clinics and the facilities needed to serve them are located;
 2. An area with local shopping and service establishments located within walking distances of the residents served;
 3. A tourist-oriented area where hotels, motels and gasoline stations are located;
 4. A large integrated regional shopping center;
 5. A business strip along a main street containing offices, retail businesses and commercial enterprises;
 6. A central business district; or
 7. A commercially dominated area with multiple unit dwellings.
- C. "Light industrial" means:
1. An area containing clean and quiet research laboratories;
 2. An area containing light industrial activities which are clean and quiet;

- C) 3. An area containing warehousing; or
4. An area in which other activities are conducted where the general environment is free from concentrated industrial activity.
- D. "Industrial" means an area in which noise restrictions on industry are necessary to protect the value of adjacent properties for other economic activity, but shall not include agricultural operations.
- E. Adjacent Zones. When a noise source can be measured from more than one zone, the permissible sound level of the more restrictive zone shall govern. (Ord. 4517; 1968 Code §§ 8-40, 8-41)

21-8-104: PERMISSIBLE INCREASES: Between the hours of seven o'clock (7:00) A.M. and seven o'clock (7:00) P.M., the noise levels permitted in Section 21-8-103 may be increased by ten (10) db(A) for a period of not to exceed fifteen (15) minutes in any one hour period. (Ord. 4517; 1968 Code § 8-42)

21-8-105: PERIODIC, IMPULSIVE NOISES: Periodic, impulsive, or shrill noises are hereby declared unlawful when such noises are at a sound level of five (5) db(A) less than those listed in Section 21-8-103 of this Part 1. (Ord. 4517; 1968 Code § 8-43)

21-8-106: CONSTRUCTION PROJECTS: Construction projects shall be subject to the maximum permissible noise levels specified for industrial zones for the period within which construction is to be completed pursuant to any applicable construction permit issued by proper authority, or if no time limitation is imposed, then for a reasonable period of time for completion of project. (Ord. 4517; 1968 Code § 8-44)

21-8-107: RAILROAD RIGHTS OF WAY: All railroad rights of way shall be considered as industrial zones for the purposes of this Part 1, and the operation of trains shall be subject to the maximum permissible noise levels specified for such zone. (Ord. 4517; 1968 Code § 8-45)

21-8-108: HARDSHIP PERMITS: Applications for a permit, for other than vehicular traffic,

for relief from the noise level designated in this Part 1 on the basis of undue hardship may be made to the City Manager or his duly authorized representative. The noise abatement officer shall make recommendations or comments to the City Manager regarding hardship permits before any permit is granted. Any permit granted by the City Manager or his duly authorized representative hereunder shall contain all conditions upon which said permit has been granted and shall specify a reasonable time for which the permit shall be effective. The City Manager is authorized to designate a fee which reasonably covers administrative costs incurred for the issuance of said permit. The City Manager, or his duly authorized representative, may grant the relief as applied for if he finds:

- A. That additional time is necessary for the applicant to alter or modify his activity or operation to comply with this Part 1; or
- B. The activity, operation or noise source will be of temporary duration, and cannot be done in a manner that would comply with Sections 21-8-103, 21-8-104, 21-8-105 and 21-8-106.
- C. That no other reasonable alternative is available to the applicant; and
- D. The City Manager with the advice of the noise abatement officer, may prescribe any conditions or requirements he deems necessary to minimize adverse effects upon the community or the surrounding neighborhood. (Ord. 4517; 1968 Code § 8-49)

CHAPTER 21 PUBLIC OFFENSES

ARTICLE 8 OFFENSES AFFECTING THE ENVIRONMENT

PART 2 NOISE POLLUTION (VEHICLES)

SECTION:

- 21-8-201: Vehicle Noise Limits
- 21-8-202: Emergency Vehicles Excepted
- 21-8-203: Jacob's Brakes Prohibited
- 21-8-204: Modifications Prohibited
- 21-8-205: Motorcycles and Off-Highway
Motor Vehicles

- C) authorized representative. In determining what streets shall be designated, the City Manager or his duly authorized representative shall attempt to preserve low decibel noise levels within residential zones and give primary consideration to major arterial streets which allow travel to commercial areas requiring evening access. (Ord. 4517; 1968 Code § 8-48)

21-8-201: VEHICLE NOISE LIMITS:

- A. Vehicles Weighing Less than 10,000 Pounds. A noise measured or registered as provided above from any vehicles weighing less than ten thousand (10,000) pounds in excess of eighty (80) decibels in the "A" weighing scale in intensity shall be and is hereby declared to be excessive and unusually loud and unlawful. (Ord. 4517; 1968 Code § 8-46)
- B. Vehicles in Excess of 10,000 Pounds.
 - 1. A noise measured or registered as provided above from any vehicle weighing more than ten thousand (10,000) pounds in excess of eighty eight (88) decibels in intensity on the "A" weighing scale shall be and is hereby declared to be excessive and unusually loud and unlawful.
 - 2. Between the hours of seven o'clock (7:00) A.M. and seven o'clock (7:00) P.M., the above decibel levels shall apply to all streets within the City.
 - 3. Between the hours of seven o'clock (7:00) P.M. and seven o'clock (7:00) A.M., the above decibel levels shall apply only to designated streets within the City. Traffic on other than designated streets during these hours shall be subject to the decibel level as provided in subsection A above. (Ord. 4517; 1968 Code § 8-47)
- C. Designated Streets. Designated streets shall be named by the City Manager or his duly

21-8-202: EMERGENCY VEHICLES

EXCEPTED: The requirements, prohibitions and terms of this Part 2 shall not apply to any authorized emergency vehicle, when responding to an emergency call or acting in time of emergency. The terms of this Section shall not apply to those activities of a temporary duration, permitted by law and for which a license or permit therefor has been granted by the City, including parades and fireworks displays. (Ord. 4517; 1968 Code § 8-50)

21-8-203: JACOB'S BRAKES PROHIBITED: It shall be unlawful for any person to operate in the City what are commonly referred to as Jacob's Brakes. The City Manager or his duly authorized representative is hereby authorized to place signs at locations about the City as he shall deem appropriate; such signs to notify operators of motor vehicles of this Section. (Ord. 4517; 1968 Code § 8-51)

21-8-204: MODIFICATIONS PROHIBITED: It shall be unlawful for any person to sell, lease, rent or install any device or sell, rent, lease or operate any vehicle, engine, motor or mechanical device with a device which when attached to or placed on any vehicle, engine, motor or other mechanical device so as to amplify or increase the noise emitted by it above that emitted by the vehicle, engine, motor or mechanical device in its original factory design. This Section shall not apply to devices sold for racing or pleasure purposes and used outside the City or in areas properly authorized by the City for pleasure or racing. It shall be unlawful for any person to operate such modified vehicle, engine, motor or device within the City and not in a properly authorized area. (Ord. 4517; 1968 Code § 8-52)

21-8-205: MOTORCYCLES AND OFF-HIGHWAY MOTOR VEHICLES:

A. Findings and Purpose.

1. The City Council finds that the driving, riding and use of motorcycles, motor-driven cycles and off-highway motor vehicles on public and private property within the limits of the City is the cause of noise and dust and of the destruction of plants, landscaping and other real and personal property, and such conduct adversely affects the comfort and privacy of the residents of the City. Because the conduct may be intermittent, fleeting, moving or caused by persons who are minors, other provisions of this Code, as well as other legal remedies, are inadequate to control said conduct and its adverse effects. The provisions of this Section relating to the regulation of motorcycles, motor-driven cycles or off-highway motor vehicles are therefore necessary for the public welfare.

2. The City Council declares that the purpose of this Section is to exercise the general police power in order to protect the enjoyment and use of public and private property, to protect the rights of privacy, to preserve property and personal values, to promote peace and quiet, and to provide management for and promote proper recreational use of motorcycles, motor-driven cycles or off-highway motor vehicles within the City.

3. This Section shall not apply to the driving, riding and use of motorcycles, motor-driven cycles or off-highway motor vehicles on streets and highways or in other areas which are specifically governed or preempted by this Code or the motor vehicle laws of the State of Colorado.

B. Definitions.¹ The following terms, as used in this Section, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.

PROPERTY: Any public or private property which is not an improved public street or highway, or an improved private street constructed in accordance with City standards and approved by the City.

B) VEHICLE: A motorcycle, motor-driven cycle or motor vehicle, as such vehicles are defined in the motor vehicle laws of the State of Colorado, including, but not limited to motor scooters, motor bikes and mini-bikes.

C. Use. It shall be unlawful for any person to drive or ride any vehicle upon any property which is within six hundred sixty feet (660') of a residence or other occupied structure or property authorized for motorcycle use as required herein, except that this subsection C shall not apply in the following instances:

1. Where such vehicle is ridden, driven or used upon property by the owner, resident or tenant of such property; and provided that such operation shall not be within six hundred sixty feet (660') of the neighboring residences or occupied structures unless permission has been granted by the neighboring residents or occupants; or

2. Where such vehicle is ridden, driven or used by a visitor when such visitor is accompanied by or has in his possession a copy of a written authorization from the owner or occupant of such property, the original of which has been filed with the City Clerk; and provided that such operation shall not be within six hundred sixty feet (660') of the neighboring residences or occupied structures unless permission has been granted by the neighboring residents or occupants; or

3. Where such use is permitted pursuant to the Zoning Code² of the City.

D. Mufflers. It shall be unlawful for any person to drive, ride or use a vehicle upon any property unless said vehicle is at all times equipped with an adequate muffler in constant operation and properly maintained so as to meet the requirements of the motor vehicle laws of the State of Colorado, as the same now exist or may hereafter be amended,³ and no muffler exhaust system shall be equipped with a cutout, bypass or similar device.

E. Other Regulations. The regulations contained herein do not supersede or preclude the enforcement of zoning regulations or any other regulations contained in this Code which are applicable to any conduct regulated hereby.

1. For definitions of general application, see Section 1-1-203 of this Code.

2. See Chapter 14 of this Code.

3. C.R.S. 1973 § 42-4-222.

- F. Penalty. Every person convicted of a violation of this Section shall be punished by a fine not to exceed five hundred dollars (\$500.00) for each offense, but shall not be subject to imprisonment or jail sentence. (Ord. 79-63; Ord. 82-164; 1968 Code § 8-52.1)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 1 ADMINISTRATION AND ENFORCEMENT
PART 1 GENERAL PROVISIONS

SECTION:

22-1-101: Title
 22-1-102: Applicability of Provisions
 22-1-103: Penalties
 22-1-104: Procedures
 22-1-105: Parties to a Crime
 22-1-106: Offenses by Persons Controlling Vehicles
 22-1-107: Presumption in Reference to
 Illegal Parking
 22-1-108: Authority of Officer at Scene of Accident
 22-1-109: Included Offenses
 22-1-110: Losing Right of Way
 22-1-111: Notice Charging Speed Violation
 22-1-112: Conviction Record Inadmissible in
 Civil Action
 22-1-113: Traffic Violation Not to Affect
 Credibility of Witness
 22-1-114: Illegal Cancellation of Summons or Notice
 22-1-115: Garages to Report
 22-1-116: Towing Companies to Report
 22-1-117: Authority to Move Vehicles
 22-1-118: Traffic Plan

22-1-101: **TITLE:** This Chapter shall be known as the
 "Traffic Code of the City of Colorado
 Springs" and may be so cited. (Ord. 75-86; 1968
 Code § 6-1-1)

22-1-102: **APPLICABILITY OF PROVISIONS:** This
 Chapter shall apply throughout the
 City and to all areas outside the corporate limits of
 the City the use of which this City has jurisdiction and
 authority to regulate. Those sections of this Chapter
 which by their very language or nature cannot and
 could not apply throughout the City shall be limited
 in application in accordance with such language or
 nature. (Ord. 75-86; 1968 Code § 6-1-2)

22-1-103: PENALTIES:

A. It is a misdemeanor for any person to violate any
 of the provisions of this Chapter. (Ord. 75-86;
 1968 Code § 6-1-4)

- B. Every person convicted of the violation of any
 provision stated or adopted in this Chapter shall
 be punished as provided in Section 1-2-101 of
 this Code; except that any person convicted of
 a violation of any provision under Articles 11,
 12, 13, 14 or 15 and Sections 22-16-104,
 22-16-105, and 22-22-107 of this Chapter shall
 be subject only to a fine in accordance with the
 schedule of fines established by the Presiding
 Judge of the Municipal Court pursuant to
 Section 22-1-103C below, or in accordance
 with an appropriate order of a Judge or referee
 of the Municipal Court. (Ord. 77-171; Ord.
 83-306; 1968 Code § 6-1-4)
- C. The Presiding Judge shall designate the specified
 offenses under this Chapter for which payments
 of fines may be accepted by the Violations
 Bureau¹ and those parking violations for which
 penalty assessment notices may be issued, and
 shall specify by suitable schedules the amount
 of such fines for first, second and subsequent
 offenses and shall further specify which and
 what number of offenses shall require
 appearance before the Court. He shall also
 designate costs to be assessed for late payment
 of penalty assessment notices. (Ord. 75-86;
 1968 Code § 6-1-4)

22-1-104: PROCEDURES:

- A. General. The procedures contained in Chapter
 4 of this Code shall be applicable to offenses
 under this Chapter unless otherwise provided in
 this Chapter.
- B. Payment of Designated Fine in Violations
 Bureau. Any person charged with an offense or
 violation of this Chapter included in the schedule
 promulgated in accordance with Section
 22-1-103C for which a fine may be paid in the
 Violations Bureau, shall have the option of
 paying such fine within the time specified upon
 entering a plea of guilty and upon waiving
 appearance in Court. Acceptance of payment of
 the prescribed fine shall be deemed a complete
 satisfaction for the violation, and no defendant
 shall be permitted to withdraw such

¹. See Part 4 of this Article.

- B) a plea after thirty (30) days following such payment.
- C. **Penalty Assessment.** An officer coming upon an unattended vehicle which is in apparent violation of any provision of this Chapter, may place upon the vehicle a penalty assessment notice indicating the offense and directing the owner or operator of the vehicle to remit the penalty assessment provided for in the schedule promulgated by the Presiding Judge in accordance with Section 22-1-203C of this Chapter to the Clerk of the Municipal Court, within seven (7) days. If the penalty assessment is not paid within seven (7) days of the issuance of such notice, the Clerk of the Municipal Court shall mail a notice to the registered owner of the vehicle, setting forth the offense and the time and the place where it occurred and directing the payment of the penalty assessment plus costs designated by the Presiding Judge in accordance with Section 22-1-103C within twenty (20) days from the issuance of the notice. If the penalty assessment is not paid within such twenty (20) days from the date of mailing of such notice, the Clerk of the Municipal Court shall request the police officer who issued the original penalty assessment notice to file a complaint with the Municipal Court and issue and serve upon the registered owner of the vehicle a summons to appear in Court at a time and place specified therein as in the case of other offenses.
- D. **When Person Arrested Must be Taken Before Court.** Whenever a person is arrested for any violation of this Chapter, he shall be taken without unnecessary delay before a Municipal Judge in any of the following cases:
1. When he is charged with an offense which caused or contributed to an accident resulting in serious personal injury or death to any person;
 2. When he does not furnish satisfactory evidence of identity;
 3. When he refuses to sign or promise to appear;
 4. Whenever continued detention or posting of a surety bond by the accused person is

- D,4) necessary to prevent imminent bodily harm to the accused or to another;
5. When he has previously failed to appear for trial for an offense concerning which he had given his written promise to appear;
 6. When there is an outstanding warrant for his arrest;
 7. When the officer has reasonable grounds to believe he will disregard a written promise to appear in Court.
- E. **When Judge is Unavailable.** In the event that no Municipal Judge is available at the time that a person is taken into custody for the purpose of taking him before the Municipal Court for any violation of this Chapter, there shall be established by the Presiding Judge a bail bond schedule and available personnel to accept adequate security for such bail bonds upon satisfaction of which the person charged shall be released from custody pending his required appearance before the Court.
- F. **Compliance with Promise to Appear.** A written promise to appear in Court may be complied with by an appearance of counsel.
- G. **Procedure Prescribed not Exclusive.** The foregoing provisions of this Section shall govern all police officers in making arrests without a warrant for violations of this Chapter committed in their presence, but the procedure prescribed therein shall not otherwise be exclusive of any other method prescribed by law for the arrest and prosecution for an offense of like grade. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-1-5)

22-1-105: **PARTIES TO A CRIME:** Every person who commits, conspires to commit or aids or abets in the commission of any act declared in this Chapter to be a crime, whether individually or in connection with one or more persons or as principal, agent or accessory, shall be guilty of such offense, and every person who falsely, fraudulently, knowingly, forcibly or wilfully induces, causes, coerces, requires, permits or directs another to violate any provisions of this Chapter, is likewise guilty of such offense. (Ord. 75-86; 1968 Code § 6-1-6)

22-1-106: OFFENSES BY PERSONS CONTROLLING VEHICLES:

- A. It is unlawful for the owner or any other person employing or otherwise directing the driver of any vehicle to require or knowingly to permit the operation of such vehicle upon a highway in any manner contrary to law.
- B. It shall be unlawful for any person who owns or who has control, possession or charge of any vehicle to permit the following persons to drive, have charge of, operate or control such vehicle:
 - 1. Anyone whose operator's or chauffeur's license has been denied, cancelled, suspended or revoked by any governmental agency or lawful authority.
 - 2. A person who has never obtained a current valid operator's or chauffeur's license, or who has an expired license.
 - 3. Any person who has a fictitious or fraudulently altered operator's or chauffeur's license.
 - 4. Any person who is under the influence of intoxicating beverages, narcotics or drugs.
 - 5. Any person who has not yet reached the sixteenth anniversary of his or her birth.
 - 6. Any person who is either physically or mentally disabled, injured or incapacitated, either temporarily or permanently, when such incapacity interferes with such person's ability to operate a motor vehicle in a ready and safe manner. (Ord. 75-86; 1968 Code § 6-1-7)

22-1-107: PRESUMPTION IN REFERENCE TO ILLEGAL PARKING: In any prosecution charging a violation of any provision of this Chapter governing the stopping, standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of any such regulation, together with proof that the defendant named in the complaint was at the time of such parking a registered owner of such vehicle, shall constitute in evidence a prima facie presumption that such registered owner of such vehicle was the person who parked or placed such vehicle at the point where, and for the time during which, such violation occurred. (Ord. 75-86; 1968 Code § 6-1-8)

22-1-108: AUTHORITY OF OFFICER AT SCENE OF ACCIDENT: A police officer at the scene of a traffic accident may issue a written summons or notice as provided in this Article to any driver of a vehicle involved in the accident when, based upon personal investigation, the officer has reasonable grounds to believe that the person has committed any offense under the provisions of this Chapter in connection with the accident. (Ord. 75-86; 1968 Code § 6-1-9)

22-1-109: INCLUDED OFFENSES: A defendant may be convicted of an offense included in an offense charged in the summons and complaint. An offense is so included when it is established by proof of the same or less than all the facts required to establish the commission of the offense charged, or when it differs from the offense charged only in the respect that a less serious injury or risk of injury to the same person, property or public interest or a lesser kind of culpability suffices to establish its commission. The Court shall not be obligated to charge the jury with respect to an included offense unless there is a rational basis for a verdict acquitting the defendant of the offense charged and convicting him of the included offense. If the same conduct is prohibited in different sections of this Chapter, the offender may be prosecuted under any one or all of such sections. It shall be immaterial to such prosecution that one of the sections characterizes the crime as of lesser degree than another, or was enacted by the City Council at a later date than another unless the later section specifically repeals the earlier. (Ord. 75-86; 1968 Code § 6-1-10)

22-1-110: LOSING RIGHT OF WAY: Any person who drives a vehicle in such a manner as to constitute a violation of this Chapter, when such violation interferes with the ability of another driver to yield the right of way to such person, shall lose the right of way which he would have had under ordinary circumstances. Any person who commits any violation of the traffic rules and regulations set out in this Chapter, shall not lose his right of way per se, but it shall be the responsibility of the Court hearing such case to determine whether such violation interfered with the ability of the driver to so yield. (Ord. 75-86; 1968 Code § 6-1-11)

22-1-111: NOTICE CHARGING SPEED VIOLATION: In every charge of

violation relating to speed limits, the complaint or summons or notice to appear shall specify the speed at which the defendant is alleged to have driven, and the speed limit applicable within the district or at the location in this City. (Ord. 75-86; 1968 Code § 6-1-12)

22-1-112: CONVICTION RECORD INADMISSIBLE IN CIVIL ACTION: No record of the conviction of any person for any violation of this Chapter shall be admissible as evidence in any Court in any civil action. (Ord. 75-86; 1968 Code § 6-1-13))

22-1-113: TRAFFIC VIOLATION NOT TO AFFECT CREDIBILITY OF WITNESS: The conviction of a person upon a charge of violating any provision of this Chapter or other traffic regulation less than felony, shall not affect or impair the credibility of such person as a witness in any civil or criminal proceedings. (Ord. 75-86; 1968 Code § 75-86)

22-1-114: ILLEGAL CANCELLATION OF SUMMONS OR NOTICE: It shall be unlawful for any person to cancel or solicit the cancellation of any traffic summons or notice in any manner other than process of law. (Ord. 75-86; 1968 Code § 6-1-15)

22-1-115: GARAGES TO REPORT: The person in charge of any garage or repair shop to which any motor vehicle is brought which shows evidence of having been involved in an accident, or of being struck by a bullet, shall report or cause to be reported to the Police Department not later than twenty four (24) hours after such motor vehicle is received, and before any repairs are made to such vehicle, the engine number, the registration number and the name and address of the driver, owner or person in control of the motor vehicle with the description of the location and type of damage to the vehicle or any missing parts. (Ord. 75-86; 1968 Code § 6-1-16)

22-1-116: TOWING COMPANIES TO REPORT: The person in charge of any towing service by which any motor vehicle is towed at the request of any person other than the registered owner or a police officer, shall report within twenty four (24)

hours to the Police Department the engine number, registration number, and the name and address of the person requesting the tow, with a general description of the motor vehicle being towed. (Ord. 75-86; 1968 Code § 6-1-17)

22-1-117: AUTHORITY TO MOVE VEHICLES: Whenever any police officer finds a vehicle standing upon a street, highway or restricted parking area in violation of the provisions of this Chapter prohibiting the standing of such vehicle in such place, such officer is hereby authorized to move such vehicle, require the driver or other person in charge of the vehicle to move the same to a legal standing position, or to have the vehicle removed in accordance with the procedures set forth in Article 25 of this Chapter. (Ord. 75-86; 1968 Code § 6-1-18)

22-1-118: TRAFFIC PLAN: The major traffic thoroughfare plan for the City is hereby amended to conform with a map designated as the principal street systems map for the City, approved by the most current resolution of the City Council, on file in the office of the City Clerk, which map is hereby incorporated in and made a part hereof by reference. (Ord. 2674; Ord. 85-263; 1968 Code § 1-151)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 1 ADMINISTRATION AND ENFORCEMENT
PART 2 DEFINITIONS

SECTION:

22-1-201: Construction of Words
 22-1-202: Definitions

22-1-201: CONSTRUCTIONS OF WORDS:

- A. The following terms, as used in this Chapter, shall have the meanings hereinafter designated, unless the context specifically indicates otherwise, or unless such meaning is excluded by express provision.¹
- B. Whenever any words and phrases used in this Chapter are not defined herein but are defined in the State laws regulating the operations of vehicles,² any such definition therein shall be deemed to apply to such words and phrases used in this Chapter. (Ord. 85-263)

22-1-202: DEFINITIONS:

ACCELERATION LANE: A speed change lane, including tapered areas, for the purpose of enabling a vehicle entering a roadway to increase its speed to a rate at which it can more safely merge with thru traffic.

ACCIDENT: Any event that results in unintended injury, either fatal or nonfatal, or any property damage attributable directly or indirectly to the motion of a motor vehicle or its load.

ALLEY or ALLEYWAY: A narrow minor street, usually without sidewalks, on which the rears of buildings customarily adjoin.

AUTHORIZED EMERGENCY VEHICLE: Such a vehicle of the Fire Department, police vehicles and ambulances as are publicly owned, and such other publicly or privately-owned vehicles as are designated by the State motor vehicle licensing agency as provided under section 42-4-106(5), C.R.S.

BARRICADE: A portable or fixed device, to include cones, vertical panels and drums with appropriate markings, used to control traffic by closing, restricting, or delineating all or a portion of the right of way to traffic.

BICYCLE: Every device propelled by human power upon which any person may ride, having two (2) or more wheels, any of which is more than fourteen inches (14") in diameter.

BUS: Every motor vehicle designed for carrying more than ten (10) passengers and used for the transportation of persons; and every motor vehicle other than a taxicab, designed and used for the transportation of persons for compensation.

BUS STAND or STOP: A designated area adjacent to a curb or edge of the roadway assigned for the use of buses during the loading or unloading of passengers.

BUSINESS DISTRICT: The territory contiguous to a street or highway when fifty percent (50%) or more of the frontage thereon for a distance of three hundred feet (300') or more is occupied by buildings in use for business.

CENTER LINE: A line either marked or unmarked dividing the roadway between traffic moving in opposite directions.

COMMERCIAL VEHICLES: Every vehicle designated, maintained or used primarily for the transportation of property.

CONTROLLED-ACCESS STREET or HIGHWAY: Every highway, street or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street or roadway.

COURT: The Municipal Court of the City.

1. For definitions of general application, see Section 1-1-203 of this Code.

2. C.R.S. 1973, title 42.

CROSSWALK: That portion of a roadway ordinarily included within the prolongation or connection of the lateral lines of sidewalks at intersections or any portion of a roadway distinctly indicated for pedestrian crossing by lines or markings on the surface.

DECELERATION LANE: A speed change lane, including tapered areas, for the purpose of enabling a vehicle that is to make an exit turn from a roadway to slow to the safe speed on the ramp ahead after it has left the mainstream of faster moving traffic.

DESIGNATED TRUCK ROUTE: A street or roadway designated as the official truck route system by the traffic engineer from which thru travel by trucks is permitted.

DIVIDED HIGHWAY: A highway with separated roadways for traffic in opposite directions, such separation being indicated by depressed dividing strips, raised curbs, traffic islands or other physical separations, or indicated by standard pavement markings or other official traffic control devices.

DRIVER: Every person who drives or is in actual physical control of a vehicle.

ELDERLY PERSON: A person who has reached the age of sixty five (65).

EXCLUDED ROUTE: A street or roadway from which the use of a certain class of traffic is not allowed.

FARM TRACTOR: Every motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines and other implements of husbandry.

FREIGHT or PASSENGER LOADING ZONE: A designated space for the exclusive use of vehicles during the loading or unloading of freight or passengers.

HANDICAPPED PERSON: A "handicapped person" means a person so severely handicapped that he is unable to move from place to place without the aid of a mechanical device or who has a physical impairment verified, in writing, by the director of the division of rehabilitation or a physician licensed to practice medicine in this State that such impairment limits substantially his ability to move from place to place.

IMPLEMENT OF HUSBANDRY: Every vehicle which is

designed for agricultural purposes and used by the owner thereof in the conduct of his agricultural operations. Such term shall also include equipment used solely for the application of liquid, gaseous and dry fertilizers. Transportation of fertilizer, in or on the equipment used for its application, shall be deemed a part of application if it is incidental to such application. Such term shall also include hay balers, hay stacking equipment, combines, and other heavy movable farm equipment primarily used on farms and not on the highways.

INTERSECTION:

- A. The area embraced within the prolongation of lateral curb lines or, if none, then the lateral boundary lines of two (2) or more streets or highways which join one another at an angle, whether or not one such street or highway crosses the other.
- B. Where a street or highway includes two (2) roadways thirty feet (30') or more apart, then every crossing of each roadway of such divided street or highway by an intersecting street or highway shall be regarded as a separate intersection.
- C. In the event such intersecting street or highway also includes two (2) roadways thirty feet (30') or more apart, then every crossing of two (2) or more roadways of such streets or highways shall be regarded as a separate intersection.

JUDGE: A judge of the Municipal Court of the City.

LANE: The portion of a roadway for the movement of a single line of vehicles.

LANE-DIRECTION CONTROL SIGNAL: A traffic control signal which is erected to control the direction of vehicular traffic movement in an individual lane.

LANE LINE: A line other than a center line separating two (2) lanes of traffic moving in the same direction.

LANED STREET or HIGHWAY: A street or highway, the roadway of which is divided into two (2) or more clearly marked lanes for vehicular traffic.

LITTER: All rubbish, waste material, refuse, garbage, trash, debris or other foreign substance, solid or liquid, of every form, size, kind and description.

LOADING ZONE: A designated space reserved for the exclusive use of vehicles during the loading or unloading of passengers or property.

MARKINGS: All lines, patterns, words, colors or other devices, except signs, set into the surface of, applied upon or attached to the pavement of curbing or to objects within or adjacent to the roadway, conforming to State standards as required by law and officially placed for the purpose of regulating, warning or guiding traffic.

MEDIAN or CENTRAL DIVIDING STRIP: That portion of a divided street or highway separating the travelled ways for traffic in opposite directions.

MOTORCYCLE: Every motor vehicle designed to travel on not more than three (3) wheels in contact with the ground except any vehicle as may be included within the term "farm tractor" as herein defined.

MOTOR DRIVEN CYCLE: Every motorcycle, including every motor scooter, with a motor which produces not to exceed six (6) brake horsepower, and every bicycle with motor attached, but not trail bikes, minibikes, go-carts, golf carts and similar vehicles which are not designed for, or approved by the Department of Revenue for use on the public roads or highways.

MOTOR VEHICLE: Any self-propelled vehicle which is designed primarily for travel on the public highways and which is generally and commonly used to transport persons and/or property over the public highways.

MUNICIPAL COURT CLERK: The Clerk of the Municipal Court of the City.

OFFICIAL TIME STANDARD: Whenever certain hours are named herein, they shall mean the standard time or daylight-saving time as may be in current use in the City.

OFFICIAL TRAFFIC CONTROL DEVICES: All signs, signals, markings and devices consistent with statute or this Chapter placed or erected by authority of a public body or official having jurisdiction, for the purpose of regulating, warning or guiding traffic.

OWNER: A person who holds the legal title of a vehicle or, in the event a vehicle is the subject of any agreement for the conditional sale or lease thereof, a person with the right of purchase upon performance

of the conditions stated in the agreement and with the immediate right of possession vested in the conditional vendee or lessee, or in the event a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner, or parties otherwise having lawful use of control or the right to use or control a vehicle for a period of thirty (30) days or more.

PARK or PARKING: The standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading merchandise or passengers.

PARKING METER: A mechanical time-measuring device authorized by this City to be used for the purpose of regulating parking.

PEDESTRIAN: Any person afoot.

PEDESTRIAN-CONTROL SIGNAL: A traffic control signal which is erected for the exclusive purpose of directing pedestrian traffic at signalized locations.

PLAY STREET: Any street or part thereof set apart and properly signed or marked for recreation purposes.

POLICE OFFICER: Every officer authorized to direct or regulate traffic or to make arrest for violations of traffic regulations.

PRESIDING JUDGE: The Municipal Judge appointed by the City Council to serve as the executive head of the Municipal Court.

PRIVATE ROAD OR DRIVEWAY: Every road or driveway not open to the use of the public for purposes of vehicular travel.

PROHIBITED ROUTES: A street or roadway that is not a designated truck route.

RAILROAD: A carrier of persons or property upon cars, other than street cars, operated on stationary rails.

RAILROAD SIGN or SIGNAL: Any sign, signal or device erected by authority of a public body or official or by a railroad, and intended to give notice of the presence of railroad tracks or the approach of a railroad train.

RAILROAD TRAIN: A steam engine, electric or other motor, with or without cars coupled thereto, operated upon rails, except street cars.

RAMP: A turning or interconnecting roadway of a traffic interchange.

RESIDENCE DISTRICT: The territory contiguous to a street or highway not comprising a business district when the frontage on such for a distance of three hundred feet (300') or more is mainly occupied by dwellings or by dwellings and buildings in use for business.

RESTRICTED ROUTE: A street or roadway from which travel upon is limited to vehicles or loads of certain weight of size.

RIGHT OF WAY: The privilege of the immediate use of the street or highway, this being the right of one vehicle or pedestrian to proceed in a lawful manner in preference to another vehicle or pedestrian approaching under such circumstances or direction, speed and proximity as to give rise to danger of collision unless one grants precedence to the other.

ROAD MACHINERY AND CONSTRUCTION EQUIPMENT: Those vehicles, self-propelled or otherwise, which are not designed primarily for the transportation of persons or cargo over the public highways, and those motor vehicles which may have originally been designed for the transportation of persons but which have been redesigned or modified by the mounting thereon of special equipment or machinery, and which may be only incidentally operated or moved over the public highways. This definition includes but is not limited to wheeled vehicles commonly used in the construction, maintenance and repair of roadways and the digging of ditches.

ROAD TRACTOR: Every motor vehicle designed and used for drawing other vehicles and not so constructed as to carry any load thereon either independently or any part of the weight of a vehicle or load so drawn.

ROADWAY: That portion of a highway improved, designed or ordinarily used for vehicular travel. In the event a street or highway includes two (2) or more separate roadways, the term "roadway" as used herein shall refer to any such roadway separately but not to all such roadways collectively.

SAFETY ZONE: The area or space officially set aside within a street or highway for the exclusive use of

pedestrians and which is so plainly marked or indicated by proper signs as to be plainly visible at all times while set apart as a safety zone.

SCHOOL BUS: Every motor vehicle owned by a public or governmental agency and operated for the transportation of children to or from school or privately owned and operated for compensation, but not including informal or intermittent arrangements such as sharing of actual gasoline expense, or participation in a car pool, for the transportation of children to or from school.

SCHOOL ZONES: The area or space along a street or highway adjacent to or near a public, elementary or private school, and which is plainly marked to indicate by proper signs that the area is a school zone.

SEMI-TRAILER: Any wheeled vehicle, without motive power, which is designed to be used in conjunction with a truck tractor so that some part of its own weight and that of its cargo load rests upon or is carried by such truck tractor and which is generally and commonly used to carry and transport property over the public highways.

SIDEWALK or SIDEWALK AREA: That portion of a street between the curb lines or the lateral lines of a roadway, and the adjacent property lines, intended for the use of pedestrians.

SNOWMOBILE: A self-propelled vehicle primarily designed for travel on snow or ice, and supported in part by skis, belts or cleats.

STAND or STANDING: The halting of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in receiving or discharging passengers.

STOP: When required, means the complete cessation of movement.

STOP LINE or LIMIT LINE: A line which indicates where drivers shall stop when directed by an official traffic control device or a police officer.

STOP or STOPPING: When prohibited means any halting even momentarily of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic control sign or signal.

STREET or HIGHWAY: The entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel; or the entire width of every way declared to be a public street or highway by any law of this State. The terms "street" and "highway" are synonymous and interchangeable.

TAXI AND TAXICAB: A licensed public motor vehicle for hire, designed and constructed to seat not more than ten (10) persons and operating as a common carrier on call or demand.

TAXI-TAXICAB STAND: A designated area adjacent to the curb set aside and assigned for taxicab to stand or wait for passengers.

THROUGH STREET or HIGHWAY: Every street or highway or portion thereof on which vehicular traffic is given preferential right of way at the entrances to which vehicular traffic from intersecting streets or highways is required by law to yield right of way to vehicles on such through street or highway in obedience to either a stop sign or a yield sign, when such signs are erected as provided in this Chapter.

TRAFFIC: Pedestrians, ridden or herded animals, vehicles and other conveyances, either singly or together while using any street or highway for the purpose of travel.

TRAFFIC CONTROL SIGNAL: Any device, whether manually, electrically or mechanically operated by which traffic is alternately directed to stop and permitted to proceed.

TRAFFIC ENGINEER: The City Traffic Engineer appointed pursuant to Section 22-1-308 of this Chapter. The terms "City Traffic Engineer" and "Traffic Engineer" are synonymous and interchangeable.

TRAILER: Any wheeled vehicle, without motive power, having an empty weight of more than two thousand (2,000) pounds, which is designed to be drawn by a motor vehicle and to carry its cargo load wholly upon its own structure and which is generally and commonly used to carry and transport property over the public highways.

TRAILER COACH or MOBILE HOME: Any wheeled vehicle which is a single, self-contained unit, without motive power, which is designed and generally and commonly used for occupancy by persons for

residential purposes, in either temporary or permanent locations, and which may occasionally be drawn over the public highways by a motor vehicle.

TRUCK: Any motor vehicle equipped with a body designed to carry property and which is generally and commonly used to carry and transport property over the public highways, when the gross vehicle weight rating (G.V.W.R.) is in excess of ten thousand (10,000) pounds. Such term shall also include commercial vehicles, road machinery, construction equipment, road tractors and truck tractors, when the gross vehicle weight rating exceeds ten thousand (10,000) pounds.

TRUCK TRACTOR: Any motor vehicle which is generally and commonly designed to draw a semi-trailer and its cargo load over the public highways.

VEHICLE: Any device which is capable of moving itself, or being moved, from place to place upon wheels or endless tracks; but such term shall not mean or include any farm tractor or any implement of husbandry designed primarily or exclusively for use and used in agricultural operations, or any device moved by muscular power, or moved exclusively over stationary rails or tracks, or designed to move primarily through the air.

YIELD: To take appropriate action to grant the right of way. (Ord. 85-263)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 1 ADMINISTRATION AND ENFORCEMENT
PART 3 ADMINISTRATION

SECTION:

22-1-301: Traffic Duties of the Police Department
 22-1-302: Records of Traffic Violations
 22-1-303: Investigation of Traffic Accidents
 22-1-304: Traffic Accident Studies
 22-1-305: Traffic Accident Reports
 22-1-306: Drivers' Records Maintained and Studied
 22-1-307: Annual Traffic Safety Report
 22-1-308: Office of Traffic Engineer
 22-1-309: Duties and Powers of Traffic Engineer
 22-1-310: Division of Authority Over State Highways
 22-1-311: Uniform Standards For Traffic Control Devices
 22-1-312: Official Traffic Control Records
 22-1-313: Emergency and Experimental Regulations; Revocable Permits
 22-1-314: Prohibited Driveways
 22-1-315: Work Zone Traffic Controls

22-1-301: TRAFFIC DUTIES OF THE POLICE DEPARTMENT: It shall be the duty of the Chief of Police and other members of the Police Department to enforce the provisions of this Chapter and the State Motor Vehicle laws applicable to traffic in this City, to make arrests for traffic violations, to investigate traffic accidents, to cooperate with the Traffic Engineer and/or other officials of this City in the administration of this Chapter and in developing ways and means to improve traffic conditions, and to carry out those duties especially imposed by this Chapter. (Ord. 75-86; 1968 Code § 6-26-1)

22-1-302: RECORDS OF TRAFFIC VIOLATIONS:
 The Police Department or the Traffic Violations Bureau shall keep a record of all violations of the traffic laws of this City or of the State vehicle laws of which any person has been charged, together with a record of the final disposition of all such alleged offenses. Said records shall:

A. Be so maintained as to show all types of viola-

A) tions and the total of each;

B. Accumulate during at least a three (3) year period and from that time on the records shall be maintained complete for at least the most recent three (3) year period;

C. Be public records as defined under applicable City, State and Federal laws. (Ord. 75-86; 1968 Code § 6-26-2)

22-1-303: INVESTIGATION OF TRAFFIC ACCIDENTS: It shall be the duty of the Police Department to investigate traffic accidents occurring within this City, either by investigation at the time of or at the scene of the accident, or thereafter by interviewing participants or witnesses, to issue summonses and complaints for traffic violations in connection with traffic accidents, and to assist in the prosecution of those persons charged with violations of law causing or contributing to accidents. (Ord. 75-86; 1968 Code § 6-26-3)

22-1-304: TRAFFIC ACCIDENT STUDIES:
 Whenever the accidents at any particular location or along any particular street or highway within this City become numerous, the Police Department shall cooperate with the Traffic Engineer or other designated official responsible for traffic operations in conducting studies of such accidents and determining remedial or corrective measures. (Ord. 75-86; 1968 Code § 6-26-4)

22-1-305: TRAFFIC ACCIDENT REPORTS:

A. The Police Department shall obtain from the State Department of Revenue standard forms and accident reports required by State law, and thereon shall report sufficiently detailed information to disclose with reference to a traffic accident which has been investigated by said police or concerning which said police have received notification the contributing circumstances, conditions then existing and the persons and vehicles involved.

- B. Every traffic accident report required to be made in writing shall be made on a form approved and furnished by the said Department of Revenue.
- C. The Police Department may require any driver of a vehicle involved in an accident of which written report must be given as provided by law to give additional information concerning said accident whenever the information originally obtained is insufficient in the opinion of said Department and may require witnesses of accidents to give information concerning the accident.
- D. The Police Department shall maintain a suitable system of filing copies of investigators' traffic accident reports with reference to drivers and accident locations and shall make such reports available to the Traffic Engineer and other officials having use of the records for accident prevention purposes. (Ord. 75-86; 1968 Code § 6-26-5)

22-1-306: DRIVERS' RECORDS MAINTAINED AND STUDIED:

- A. The Police Department or the Traffic Violations Bureau shall maintain a suitable record of all traffic accidents, warnings, arrests, convictions and complaints reported for each driver, which shall be filed alphabetically under the name of the driver concerned.
- B. Said Department shall study the cases of all the drivers charged with frequent or serious violations of the traffic laws or involved in frequent accidents or any serious accident, and shall attempt to discover the reasons therefor, and shall take whatever steps are lawful and reasonable to prevent further violations and accidents including, where desirable, recommendations to the proper authorities for the suspension or revocation of the drivers' licenses of such persons.
- C. Such records shall accumulate during at least a three (3) year period and from that time on, such records shall be maintained complete for at least the most recent three (3) year period. (Ord. 75-86; 1968 Code § 6-26-6)

22-1-307: ANNUAL TRAFFIC SAFETY REPORT: The Police Department shall annually prepare a traffic report which shall be filed with the City Manager and shall contain information on traffic matters in this City as follows:

- A. The finances, personnel, training, facilities and physical plant of the Department;
- B. The number of traffic accidents, the number of persons killed, the number of persons injured, and other pertinent traffic accident data;
- C. The number of traffic accidents investigated and other pertinent data on the safety activities of the police;
- D. The number and types of traffic violations and totals of each type of violation;
- E. The plans and recommendations of the Department for future traffic safety activities. (Ord. 75-86; 1968 Code § 6-26-7)

22-1-308: OFFICE OF TRAFFIC ENGINEER: The office of the Traffic Engineer is hereby created in the Department of Public Works. The Traffic Engineer shall be appointed by the City Manager and he shall exercise the powers granted to him in this Chapter, consistent with the provisions of the Charter of the City.¹ (Ord. 75-86; 1968 Code § 6-26-8)

22-1-309: DUTIES AND POWERS OF TRAFFIC ENGINEER: It shall be the general duty of the Traffic Engineer to determine the installation and proper timing and maintenance of official traffic control devices, to conduct analyses of traffic accidents and to devise remedial or corrective measures, to conduct investigation of traffic conditions, to plan the operation of traffic on the streets and highways of this City, and to cooperate with other City officials in the development of ways and means to improve traffic conditions and to carry out such additional powers and duties as are imposed by this Chapter. By way of example, but not by way of limitation, the Traffic Engineer is hereby authorized, consistent with the provisions of this Chapter, to act as follows:

- A. Install, maintain and remove traffic control devices;

1. See City Charter, Article V, § 26.

- B. Designate and mark medians in traffic islands;
- C. Conduct speed zoning studies and post speed limits;
- D. Designate minimum speed as provided by law;
- E. Regulate speed and traffic movement by traffic signals and provide for the synchronization of such signals wherever practicable;
- F. Designate one-way streets and roadways;
- G. Designate through streets or roadways and control entrances thereto;
- H. Designate stop or yield intersections and erect stop or yield signs thereat or elsewhere;
- I. Establish restrictions, prohibitions and regulations for the parking, standing or stopping of vehicles;
- J. Designate parking zones for taxicabs, press, television, radio cars and the like;
- K. Install parking meters, designate parking meter spaces, and establish time limitations and rates therefor based on an engineering and traffic investigation;
- L. Establish towaway zones;
- M. Designate upon which streets angle parking shall be permitted;
- N. Designate and sign intersections at which drivers shall not make a right or left turn, a U turn or any turn at all times or during certain times;
- O. Designate and sign intersections where multiple turns shall be allowed;
- P. Mark center lines and lane lines and place other pavement markings necessary for the regulation and control of traffic;
- Q. Install and maintain crosswalks at intersections or other places where there is particular danger to pedestrians crossing the roadway;
- R. Establish safety zones at such places where necessary for pedestrian protection;
- S. Install pedestrian control signals and designate those crossings where angle crossing by

- S) pedestrians shall be permitted;
- T. Establish play streets;
- U. Establish truck routes upon the recommendation of the Truck Route Committee; and establish truck loading zones;
- V. Designate and sign those streets and roadways where pedestrians, bicyclists or other nonmotorized traffic, or persons operating a motor-driven cycle shall be excluded as provided by law;
- W. Designate and sign those streets upon which vehicles or loads of a certain weight or size shall be restricted;
- X. Provide for temporary street or alley closures by the erection of barricades;
- Y. Issue special permits for parking, stopping or standing, for curb loading operations, for the movement of vehicles having excess size or weight, for the movement of trucks on restricted routes or prohibited routes. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-26-9)
- Z. Designate school zones. (Ord. 79-32)

22-1-310: DIVISION OF AUTHORITY OVER STATE HIGHWAYS:

- A. All traffic and parking restrictions on streets which are a part of the State Highway System shall be regulated and enforced by this City, except that pursuant to C.R.S. 1973, Chapter 42, Article 4 and Chapter 43, Article 2, such regulations on said streets shall be subject to the approval of the State Department of Highways before becoming effective.
- B. No stop sign or traffic control signal shall be erected or maintained at any location within this City so as to require the traffic on any State highway to stop before entering or crossing any intersecting highway unless approval in writing has first been obtained from the State Department of Highways.
- C. The Traffic Engineer is authorized to accept, upon the basis of engineering and traffic investigations and studies, recommendations

- C) of the State Department of Highways for speed limits upon any State highway within this City, and such speed limit shall be effective when appropriate signs giving notice thereof are erected along said highways or roadways, regardless of whether said signs are placed by the State Department of Highways or by the Traffic Engineer of this City. (Ord. 75-86; 1968 Code § 6-26-10)

22-1-311: UNIFORM STANDARDS FOR TRAFFIC CONTROL DEVICES: It shall be the duty of the Traffic Engineer, or other official charged with responsibility for traffic in this City, to see that all traffic control devices required hereunder are uniform as to type and location as required by State law. (Ord. 75-86; 1968 Code § 6-26-11)

22-1-312: OFFICIAL TRAFFIC CONTROL RECORDS:

- A. The Traffic Engineer shall cause records to be kept of all the streets or parts of streets where traffic regulations have been authorized and sign posted pursuant to the provisions of this Chapter.
- B. Said records shall include records of streets and parts of streets where the following regulations and controls have been authorized and made effective:
1. Speed limits determined pursuant to Section 22-5-103;
 2. Minimum speed limits established pursuant to Section 22-5-106;
 3. One-way streets established pursuant to Section 22-9-101;
 4. Stopping or standing restricted or prohibited pursuant to Section 22-13-102;
 5. Parking prohibited or restricted pursuant to Section 22-13-102;
 6. Parking meter zones installed pursuant to Section 22-15-101;
 7. Right-turn-on-red and left-turn-on-red prohibitions declared pursuant to Sections 22-17-105C1a and 22-17-105C1b;
 8. Weight limitations imposed pursuant to

- B,8) Section 22-20-106;

9. Traffic signals authorized pursuant to Section 22-1-310;

10. Truck routes as designated pursuant to Section 22-21-102.

- C. Said records shall be open to public inspection during business hours and copies thereof made available to courts and other concerned agencies and officials requesting the same. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-26-12)

22-1-313: EMERGENCY AND EXPERIMENTAL REGULATIONS; REVOCABLE PERMITS:

- A. The Traffic Engineer is hereby empowered to make regulations necessary to make effective the provisions of this Chapter, and to make and enforce temporary and experimental regulations to cover emergencies and special conditions; provided, however, that such regulations are promulgated in writing, signed by the Traffic Engineer and maintained in his office as public records, in accordance with the provisions of this Code. No such experimental or temporary regulations shall remain in effect for more than ninety (90) days.
- B. The Traffic Engineer is hereby empowered to grant to adjacent property owners a revocable permit to use street right of ways between such owner's property line and the travelled portion of such adjacent street upon terms and conditions prescribed by the Traffic Engineer, when in his judgment the granting of such permit will not be in conflict with the policies of the Traffic Engineer, or create a traffic hazard; provided, however, that the use of the street right of way between the travelled roadway and the property line of property located in Zone M-1 and Zone M-2 of the City, may be used for parking of motor vehicles and other transportation facilities, except when the Traffic Engineer determines and so notifies the owner of the abutting property that such use is hazardous to traffic. The decision of the Traffic Engineer denying a request for such revocable permit or determination that such use is hazardous to traffic, may be appealed by such owner to the Council within thirty (30) days after notice of such decision to the owner by the Traffic Engineer. (Ord. 75-86; 1968 Code § 6-26-13)

22-1-314: PROHIBITED DRIVEWAYS: After full investigation and consideration of the vehicular traffic and in particular the possibility of traffic hazard incidents, the promotion of proper movement of traffic, pedestrian travel safety and the public welfare and safety generally, the Traffic Engineer may direct or order that an existing driveway or entrance from a public street be closed, relocated or redesigned at the expense of the owner of the premises abutting the street where the driveway is located. The decision of the Traffic Engineer shall be reduced to writing and a copy thereof transmitted by registered mail to the owner of the premises at which the driveway is requested or exists. Within fifteen (15) days after said notice has been mailed, the owner of the affected premises may appeal the decision of the Traffic Engineer to the Council which may affirm, modify or reverse said decision. (Ord. 75-86; 1968 Code § 6-26-14)

- C. All traffic controls instituted under this Section shall conform with the latest edition of the Manual of Uniform Traffic Control Devices. (Ord. 87-1)

22-1-315: WORK ZONE TRAFFIC CONTROLS:

- A. All persons performing any work-related activity, including but not limited to construction, maintenance, and installation or repair of utilities, in any street, highway, or public right-of-way, shall provide adequate work zone traffic control. Except as provided in subsection B of this Section, such work zone traffic control shall not be deemed adequate unless it is in accordance with a traffic control plan approved by the Traffic Engineer prior to commencement of such activity.
- B. Prior approval by the Traffic Engineer of a traffic control plan shall not be required when the work-related activity is commenced by reason of an emergency; provided, however, that the persons performing such activity shall immediately notify the Police Department and shall also notify the Traffic Engineer as soon as practicable; and provided further, that such persons engaging in the activity shall submit to the Traffic Engineer for approval a traffic control plan not later than the first regular business day following commencement of the activity. Should such traffic control plan not be approved by the Traffic Engineer, the provisions of subsection A of this Section shall apply, unless a bona fide emergency still exists.

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 1 ADMINISTRATION AND ENFORCEMENT

PART 4 TRAFFIC VIOLATIONS BUREAU¹

SECTION:

22-1-401: Bureau Established
 22-1-402: General Duties
 22-1-403: Procedures

22-1-401: BUREAU ESTABLISHED:

- A. The Clerk of the Municipal Court may establish a Traffic Violations Bureau to assist the Municipal Court with the clerical work of traffic cases. The Violations Bureau may be separate from or integrated with the overall operations of the office of the Clerk of the Court.
- B. The Clerk of the Municipal Court shall be in charge of the Traffic Violations Bureau and said Bureau shall be open on such days and at such hours as may be established by said Clerk. Ord. 75-86; 1968 Code § 6-27-1)

22-1-402: GENERAL DUTIES: In addition to those duties enumerated in Chapter 4 of this Code, the Clerk of the Municipal Court and the personnel of the Traffic Violations Bureau shall:

- A. On behalf of the Municipal Court, provide summonses and complaints, penalty assessment notices and other forms necessary for the administration of this Chapter. Said summonses and complaints shall be serially numbered and issued to and receipted for by the Chief of Police for use by his officers.
- B. Accept designated fines, issue receipts and maintain written records of the guilty pleas and waivers of appearance of violators who have requested and are permitted to so plead.
- C. Fix the time of trial for persons who must, or wish to be heard in Court, enter the time of their appearance on the Court docket, and notify the City Attorney's office of such trials.

D. Keep an easily accessible record of all violations of which each person has been guilty during the preceding thirty six (36) months, whether such guilt was established in Court or by a plea of guilty in payment of a fine or a penalty assessment at the Traffic Violations Bureau, unless such records are kept by and available from the Police Department pursuant to Section 22-1-302 of this Chapter.

- E. Cooperate with the State Department of Revenue in the development and use of a coding system for traffic citations.
- F. Keep or cause to be kept a full record of every case in which a person is charged with any violation of any of the provisions of this Chapter.
- G. Forward to the State Department of Revenue a record of the conviction of any person in said Court for a violation of any provision of this Chapter after such conviction, provided that report need not be made of any conviction involving illegal parking or standing of a vehicle, pedestrian or bicycle violations. (Ord. 75-86; 1968 Code § 6-27-2)

22-1-403: PROCEDURES: The Traffic Violations Bureau shall follow such procedures and perform such duties as may be prescribed by the ordinances of this City, the City Manager or the Presiding Judge. (Ord. 75-86; 1968 Code, § 6-27-3)

¹ A Municipal Court referee is authorized to hear certain ordinance violations relating to parking or other ordinances designated by the Presiding Judge. See Chapter 4, Article 5 of this Code.

*CHAPTER 22 MOTOR VEHICLES AND TRAFFIC***ARTICLE 2 RIGHT OF WAY**

SECTION:

22-2-101: Vehicle Approaching, Entering
Uncontrolled Intersection

22-2-102: Vehicles Turning Left

**22-2-101: VEHICLE APPROACHING,
ENTERING UNCONTROLLED
INTERSECTION:**

- A. When two (2) or more vehicles approach an uncontrolled intersection from different streets or highways, the driver of the vehicle on the left shall yield the right of way to the vehicle on the right.
- B. The driver of a vehicle shall approach each uncontrolled intersection in a cautious and prudent manner and with the vehicle under such control that the driver of the vehicle can stop such vehicle and yield the right of way at any intersection to any vehicle which is entitled to the right of way. (Ord. 75-86; 1968 Code § 6-2-1)

22-2-102: VEHICLES TURNING LEFT: The driver of a vehicle intending to turn left shall yield the right of way to any vehicle approaching from the opposite direction and shall not make such turn until it can be done with safety and without interference with other traffic. (Ord. 75-86; 1968 Code § 6-2-2)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 3 THROUGH, STOP AND YIELD INTERSECTIONS

SECTION:

22-3-101: Approaching Stop or Yield Intersections

22-3-102: Stop or Yield Signs at Other Than Intersections

22-3-101: APPROACHING STOP OR YIELD INTERSECTIONS:

- A. The driver of a vehicle shall stop in obedience to a "Stop" sign or yield in compliance with a "Yield" sign, as required in subsections B and C of this Section, and shall proceed cautiously yielding to vehicles not so obligated to stop or yield and which are within the intersection or approaching so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection; provided, that if such driver is involved in a collision with the vehicle in the intersection, after driving past a "Stop" or "Yield" sign, such collision shall be deemed prima facie evidence of his failure to yield right of way.
- B. Every driver of a vehicle approaching a "Stop" intersection indicated by a "Stop" sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.
- C. The driver of a vehicle approaching a "Yield" sign if required for safety to stop, shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. (Ord. 75-86; 1968 Code § 6-3-1)

22-3-102: STOP OR YIELD SIGNS AT OTHER THAN INTERSECTIONS:

- A. The driver of a vehicle approaching a stop sign not at an intersection and controlling his direction of travel shall stop at a clearly marked stop line, but if none, at such sign, and shall proceed cautiously yielding to traffic not so obligated to stop.
- B. The driver of a vehicle approaching a yield sign not at an intersection and controlling his direction of travel shall, if required for safety, stop and in any event proceed cautiously yielding to traffic not so obligated to yield. (Ord. 75-86; 1968 Code § 6-3-2)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 4 SPECIAL STOPS AT RAILROAD CROSSINGS, DRIVEWAYS

SECTION:

- 22-4-101: Obedience to Stop Sign at Railroad Crossing
- 22-4-102: Obedience to Railroad Signals
- 22-4-103: Certain Vehicles to Stop at All Grade Crossings
- 22-4-104: Moving Heavy Equipment at Railroad Crossing
- 22-4-105: Driving Upon or Along Railroad Right of Way
- 22-4-106: Emerging From or Entering Alley, Driveway or Building
- 22-4-107: Stop for School Buses
- 22-4-108: Stop When Traffic Obstructed

22-4-101: OBEDIENCE TO STOP SIGN AT RAILROAD CROSSING: Where stop signs are erected at railroad crossings either by authority of the State Department of Highways or by authority of this City, the driver of any vehicle shall stop within fifty feet (50') but not less than fifteen feet (15') from the nearest rail of such grade crossing and shall proceed only upon exercising due care. (Ord. 75-86; 1968 Code § 6-4-1)

22-4-102: OBEDIENCE TO RAILROAD SIGNALS:

- A. Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this Section, the driver of such vehicle shall stop within fifty feet (50') but not less than fifteen feet (15') from the nearest rail of such railroad and shall not proceed until he can do so safely. The foregoing requirement shall apply when:

1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;
2. A crossing gate is lowered or a human flagman gives or continues to give a signal of the approach or passage of a railroad train;

- A) 3. A railroad train approaching within approximately one thousand five hundred feet (1,500') of the highway crossing emits a signal audible from such distance, and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard;
4. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.
- B. No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is closed or down for the purpose of preventing such crossing, or is being opened or closed. (Ord. 75-86; 1968 Code § 6-4-2)

22-4-103: CERTAIN VEHICLES TO STOP AT ALL GRADE CROSSINGS:

- A. The driver of any motor vehicle designed to carry ten (10) or more passengers, or of any school bus carrying any school child, or of any vehicle carrying explosives or hazardous materials as a cargo or part of a cargo, or of any vehicle designed to carry flammable liquids, whether empty or loaded, before crossing any track or tracks of a railroad, shall stop such vehicle within fifty feet (50') but not less than fifteen feet (15') from the nearest rail of such railroad and while so stopped, shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, except as hereinafter provided, and shall not proceed until he can do so safely.
- B. After stopping as required in this Section and upon proceeding when it is safe to do so, the driver of any said vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such crossing and the driver shall not shift gears while crossing the track or tracks.
- C. No stop need be made at any such crossing where a police officer or a traffic control signal directs traffic to proceed.

- D. When stopping as required at such railroad crossing, the driver shall keep as far to the right of the roadway as possible and shall not form two (2) lanes of traffic unless the street or roadway is marked for four (4) or more lanes of traffic.
- E. The stopping requirements set forth in subsections A and B of this Section shall not apply where it has been determined by this City or the State that trains are not operating during certain periods or seasons of the year and an official sign carrying the legend "Exempt Crossing" has been erected giving notice when so posted that such crossing is exempt from the stopping requirement. (Ord. 75-86; 1968 Code § 6-4-3)

22-4-104: MOVING HEAVY EQUIPMENT AT RAILROAD CROSSING:

- A. No person shall operate or move any crawler-type tractor, steam shovel, derrick, roller or any equipment or structure having a normal operating speed of ten (10) or less miles per hour or a vertical body or load clearance of less than nine inches (9") above the level surface of a roadway upon or across any tracks at a railroad grade crossing without first complying with this Section.
- B. Notice of any such intended crossing shall be given to a representative of such railroad and a reasonable time be given to such railroad to provide proper protection at such crossing.
- C. Before making any such crossing, the person operating or moving any such vehicle or equipment shall first stop the same not less than fifteen feet (15') nor more than fifty feet (50') from the nearest rail of such railroad and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, and shall not proceed until the crossing can be made safely.
- D. No such crossing shall be made when warning is given by automatic signal, crossing gates or a flagman or otherwise of the immediate approach of a railroad train or car.
- E. Subsection C of this Section shall not apply where it has been determined by this City or the

- E) State that trains are not operating during certain periods or seasons of the year and an official sign carrying the legend "Exempt Crossing" has been erected giving notice when so posted that such crossing is exempt from the stopping requirement. (Ord. 75-86; 1968 Code § 6-4-4)

22-4-105: DRIVING UPON OR ALONG RAILROAD RIGHT OF WAY:

- A. It shall be unlawful for any person to operate any motor vehicle along or upon any railroad right of way except at the intersections of public thoroughfares in such rights of way.
- B. The provisions of subsection A of this Section shall not apply to Federal, State or City motor vehicles, nor shall those provisions apply to railroad motor vehicles or to persons operating motor vehicles upon such rights of way with the permission of the railroad. (Ord. 75-86; 1968 Code § 6-4-5)

22-4-106: EMERGING FROM OR ENTERING ALLEY, DRIVEWAY OR BUILDING:

- A. The driver of a vehicle emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk or into a sidewalk area extending across any alleyway or driveway, and shall yield the right of way to any pedestrian or vehicle as may be necessary to avoid collision, and prior to entering the roadway shall yield the right of way to all vehicles approaching on or upon said roadway.
- B. The driver of a vehicle about to enter or cross a street or highway from a private road or driveway, when not required by subsection A of this Section to stop, shall yield the right of way to any pedestrian or vehicle as may be necessary to avoid collision, and shall yield the right of way to all vehicles approaching on or upon said street or highway.
- C. The driver of a vehicle entering an alley or driveway shall yield the right of way to any pedestrian within or about to enter the sidewalk area extending across such alley or driveway. (Ord. 75-86; 1968 Code § 6-4-6)

22-4-107: STOP FOR SCHOOL BUSES:

- A. The driver of a vehicle upon any street or highway, upon meeting or overtaking from either direction any school bus which is stopped, shall stop his vehicle before reaching such bus if there is in operation on said school bus visual signal lights as specified in Section 22-22-104 of this Chapter, and said driver shall not proceed until such visual flashing lights are no longer being actuated.
- B. The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway.
- C. The driver of any school bus shall stop as far as possible to the right of the street or highway before discharging or loading passengers and shall not stop at any place where the visibility is obscured for a distance of two hundred feet (200') in either direction. (Ord. 75-86; 1968 Code § 6-4-7)

22-4-108: STOP WHEN TRAFFIC OBSTRUCTED: No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic control indication to proceed. (Ord. 75-86; 1968 Code § 6-4-8)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 5 SPEED REGULATIONS

SECTION:

- 22-5-101: Reasonable and Prudent Speed
- 22-5-102: Unposted Speed Limits
- 22-5-103: Posted Speed Limits
- 22-5-104: Exceeding Posted Speed Limit
- 22-5-105: Special Hazards
- 22-5-106: Minimum Speed Regulations
- 22-5-107: Speed Contests
- 22-5-108: Regulation by Traffic Signals
- 22-5-109: Emergency Vehicles Exempt From Speed Limits

22-5-101: **REASONABLE AND PRUDENT**

SPEED: No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing. (Ord. 75-86; 1968 Code §§ 6-5-1, 6-5-2)

22-5-102: UNPOSTED SPEED LIMITS: Where speed limits are not posted, and where no special hazard exists, the following speed shall be lawful but any speed in excess of said limits shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:

- A. Thirty (30) miles per hour on streets and highways;
- B. Twenty (20) miles per hour on park roadways;
- C. Fifteen (15) miles per hour in alleys. (Ord. 75-86; 1968 Code, §§ 6-5-1, 6-5-2)

22-5-103: **POSTED SPEED LIMITS:**

- A. Whenever the City Traffic Engineer shall determine on the basis of an engineering and traffic investigation that any prima facie speed limit set forth in Section 22-5-102 is greater or less than is reasonable or safe under the conditions found to exist at any intersection or

- A) other place or upon any parts of any street or highway, the Traffic Engineer shall determine and declare a reasonable and safe maximum speed limit not to exceed fifty five (55) miles per hour thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or part of the street or highway. (Ord. 75-86; 1968 Code § 6-5-3)
- B. Appropriate signs giving notice that the prima facie speed limit set forth in Section 22-5-102 is the maximum speed may be posted by the Traffic Engineer. (Ord. 79-32; 1968 Code § 6-5-3)
- C. Whenever speed limits are established in accordance with this Section, such speed limit shall be recorded as provided in Section 22-1-312 of this Chapter. (Ord. 75-86; 1968 Code, § 6-5-2)
- D. It is hereby determined that the speed limits determined, posted and recorded as provided herein are the maximum reasonable or safe speed limits at such locations.
- E. It is hereby determined that the speed of twenty (20) miles per hour is the maximum reasonable and safe speed in school zones, and the Traffic Engineer shall establish such by posting appropriate signs giving notice thereof in lieu of the requirements of this Section. (Ord. 79-32; 1968 Code § 6-5-3)

22-5-104: **EXCEEDING POSTED SPEED LIMIT:**

It shall be unlawful for any person to drive any vehicle in excess of the posted speed limit. (Ord. 79-32; 1968 Code § 6-5-4)

22-5-105: SPECIAL HAZARDS: The fact that the speed of a vehicle is lower than the limits established in this Chapter shall not relieve the driver from the duty to decrease speed when a special hazard exists with respect to pedestrians or

other traffic by reason of weather or roadway conditions. (Ord. 77-69; 1968 Code § 6-5-5)

22-5-106: MINIMUM SPEED REGULATIONS:

- A. No person shall drive a motor vehicle on any street at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed shall be necessary for safe operation of such vehicle or in compliance with law. In any prosecution for a violation of this Section, a speed more than ten (10) miles per hour under the speed limit shall be prima facie evidence of being an impediment to the normal flow of traffic.
- B. It is hereby determined upon the basis of an engineering and traffic investigation that slow speeds on certain streets described in traffic control records as provided in Section 22-1-312 consistently impede the normal and reasonable movement of traffic on such facilities described in said records and it is hereby declared that the minimum speed limit upon those streets or expressways therein designated shall be as therein stated, which speed so declared shall be effective at the time specified therein when signs are erected giving notice thereof. Any speed less than such minimum speed limit shall be prima facie evidence that such lesser speed is unlawful, except when a reduced speed shall be necessary for the safe operation of such vehicle when special hazard exists. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-5-6)

22-5-107: SPEED CONTESTS:

- A. No person shall engage in any motor vehicle speed or acceleration contest or exhibition of speed or acceleration on a street or highway, and no person shall aid or abet in any such motor vehicle speed or acceleration contest or exhibition on any street.
- B. No person shall for the purpose of facilitating or aiding or as an incident to any motor vehicle speed or acceleration contest upon a street or public right of way in any manner obstruct or place any barricade, obstruction, starting or timing device or assist or participate in placing any such barricade, obstruction, starting or timing device upon any street or public right of way. (Ord. 75-86; 1968 Code § 6-5-7)

22-5-108: REGULATION BY TRAFFIC SIGNALS:

Traffic signals may be timed, as authorized in Section 22-1-309 of this Chapter, so as to permit the movement of traffic in an orderly and safe manner at speeds at variance from the speed limit otherwise applicable to the street or area. (Ord. 75-86; 1968 Code § 6-5-8)

22-5-109: EMERGENCY VEHICLES EXEMPT FROM SPEED LIMITS:

- A. The speed limitations set forth in this Article shall not apply to an authorized emergency vehicle when the driver is responding to an emergency call and is making use of visual and audible signals as prescribed by law, nor shall said speed limitations apply to a police vehicle while in actual pursuit of a suspected violator of any provision of this Chapter or any other law so long as such pursuit is being made to obtain verification of or evidence of the guilt of the suspected violator or to apprehend the suspected violator.
- B. The provisions of subsection A shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the street, nor shall such provisions protect the driver of any such vehicle from the consequences of a reckless disregard for the safety of others. (Ord. 75-86; 1968 Code § 6-5-9)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 6 RECKLESS DRIVING AND CARELESS DRIVING

SECTION:

22-6-101: Reckless Driving

22-6-102: Careless Driving

22-6-101: RECKLESS DRIVING: It shall be unlawful for any person to drive any vehicle in this City in wilful or wanton disregard for the safety of persons or property. Any violation of Sections 22-5-102 or 22-5-104 of this Chapter where the rate of speed is fifty five (55) miles per hour or greater in a speed limit zone of thirty five (35) miles per hour or less shall be prima facie evidence of reckless driving. (Ord. 75-86; 1968 Code § 6-6-1)

22-6-102: CARELESS DRIVING: Every person operating a motor vehicle on a highway, street, public way or elsewhere in this City, shall drive the same at a speed and in a manner which is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing; and every driver of a vehicle, in compliance with legal requirements and the duty to use due care, shall use every reasonable means to avoid endangering or colliding with any person, property, vehicle or other conveyance anywhere within the City. (Ord. 75-86; 1968 Code § 6-6-2)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 7 STARTING AND TURNING, SIGNALS ON STOPPING AND TURNING

SECTION:

22-7-101: Starting Parked Vehicle
 22-7-102: Signals Required on Movement of Vehicle
 22-7-103: Position and Method of Turning
 22-7-104: Signals By Hand and Arm or
 Signal Device
 22-7-105: Method of Giving Hand and Arm Signals
 22-7-106: Limitations on Turning Around
 22-7-107: Obedience to Turn Prohibition Signs

22-7-101: STARTING PARKED VEHICLE: No person shall start or move a vehicle which is stopped, standing or parked unless such movement can be made with reasonable safety. (Ord. 75-86; 1968 Code § 6-7-1)

22-7-102: SIGNALS REQUIRED ON MOVEMENT OF VEHICLE:

- A. No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in Section 22-7-103 of this Chapter, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in Section 22-7-104 and 22-7-105 of this Chapter.
- B. A signal of intention to turn right or left when required shall be given continuously during at least the last one hundred feet (100') travelled by the vehicle before turning, except that such signal shall be given continuously for at least two hundred feet (200') on all highways where the speed limit is more than forty (40) miles per hour. Such signals shall be given regardless of existing weather conditions.
- C. No person shall stop or suddenly decrease the speed of a vehicle without first giving a signal in

- C) the manner provided in Sections 22-7-104 and 22-7-105 of this Chapter to the driver of any vehicle immediately to the rear when there is opportunity to give such signal. (Ord. 75-86; 1968 Code § 6-7-2)

22-7-103: POSITION AND METHOD OF TURNING:

- A. Except where official markings or signs direct a different course, the driver of a vehicle intending to turn shall do so as follows:
 - 1. Right Turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.
 - 2. Left Turn. The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection or other location so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.
 - 3. Two-Way Left Turn Lanes. Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into a roadway, driveway or alley, or when preparing for or making a U-turn when otherwise permitted by law.
- B. At any intersection or other location designated by the City Traffic Engineer, and where authorized signs are erected and posted giving notice thereof, turns may be made in the direction indicated by such signs from more than one lane of traffic as indicated by such signs.

- B) When any turn is so made the driver of the vehicle making the turn shall keep sufficient distance between his vehicle and another vehicle turning in the same direction so as to avoid a collision, and shall enter the same lane of traffic on the street turned into as such vehicle was in on the street turned from, and no such turn shall be made regardless of the posted signs permitting the same unless it can be done with safety. The driver making any such turn shall give the appropriate signal as is required in making any other turn as provided for in this Chapter.
- C. Whenever a lane of traffic on any street or highway is designated by an official traffic control device as a right or left turn only lane, it shall be unlawful for the driver of a vehicle in such lane to make any other movement at an intersection. (Ord. 83-317)

22-7-104: SIGNALS BY HAND AND ARM OR SIGNAL DEVICE:

- A. Any stop or turn signal required by Section 22-7-102 of this Chapter shall be given either by means of the hand and arm or by a signal light or signal device of a type approved by the State Department of Revenue, except as otherwise provided in subsection B of this Section.
- B. Any motor vehicle in use on a street in this City shall be equipped with, and required signals shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside of the body, cab or load of such motor vehicles exceeds twenty four inches (24"), or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds fourteen feet (14'). The latter measurement shall apply to any single vehicle, also to any combination of vehicles.
- C. The signals provided for in subsection B of this Section shall be used to indicate an intention to turn, change lanes or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle, or flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear. (Ord. 75-86; 1968 Code § 6-7-4)

22-7-105: METHOD OF GIVING HAND AND ARM SIGNALS: All signals herein required to be given by hand and arms shall be given by the driver from the left side of the vehicle in the following manner and such signals shall indicate as follows:

- A. Left turn - hand and arm fully extended horizontally.
- B. Right turn - hand and arm fully extended upward.
- C. Stop or decrease of speed - hand and arm fully extended downward. (Ord. 75-86; 1968 Code § 6-7-5)

22-7-106: LIMITATIONS ON TURNING AROUND:

- A. The driver of a vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street or highway within this City under any of the following conditions:
 - 1. Upon any curve, or upon the approach to or near the crest of a grade, where such vehicle cannot be entirely seen by the driver of any other vehicle approaching from either direction within seven hundred fifty feet (750').
 - 2. Upon any physically-divided street or highway except as permitted under the provisions of Section 22-10-101 of this Chapter.
 - 3. At any place where official signs are erected prohibiting such movement.
- B. The driver of any vehicle shall not turn a vehicle upon any other street or highway within this City unless such movement can be made in safety and without interfering with other traffic. (Ord. 75-86; 1968 Code § 6-7-6)

22-7-107: OBEDIENCE TO TURN PROHIBITION

SIGNS: Whenever official signs are erected prohibiting or restricting a right or left turn, a U-turn or all turns, as authorized in Section 22-1-309, no driver shall disobey the directions of any such sign. (Ord. 75-86; 1968 Code § 6-7-7)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 8 DRIVING ON RIGHT SIDE OF ROADWAY, OVERTAKING, FOLLOWING

SECTION:

- 22-8-101: Drive on Right Side; Exceptions
- 22-8-102: Passing Oncoming Vehicles
- 22-8-103: Overtaking a Vehicle on the Left
- 22-8-104: When Overtaking on the Right is Permitted
- 22-8-105: Limitations on Overtaking on the Left
- 22-8-106: Following Too Closely

22-8-101: DRIVE ON RIGHT SIDE; EXCEPTIONS:

- A. Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:
 - 1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
 - 2. When an obstruction exists making it necessary to drive to the left of the center of the street or highway; provided, that any person so doing shall yield the right of way to all vehicles travelling in the proper direction upon the unobstructed portion of the street or highway within such distance as to constitute an immediate hazard;
 - 3. Upon a roadway divided into three (3) lanes for traffic under the rules applicable thereon; or
 - 4. Upon a roadway designated and sign-posted for one-way traffic.
- B. Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the righthand lane then available for traffic, or as close as practicable to the righthand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

- C. Upon any roadway having four (4) or more lanes for moving traffic and providing for two (2) way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subsection A2 hereof. (Ord. 75-86; 1968 Code § 6-8-1)

22-8-102: PASSING ONCOMING VEHICLES:

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction, each driver shall give to the other at least one half of the main traveled portion of the roadway as nearly as possible. (Ord. 75-86; 1968 Code, § 6-8-2)

22-8-103: OVERTAKING VEHICLE ON THE LEFT:

- A. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.
- B. Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle. (Ord. 75-86; 1968 Code § 6-8-3)

22-8-104: WHEN OVERTAKING ON THE RIGHT IS PERMITTED:

A driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

- A. When the vehicle overtaken is making or giving indication of making a left turn;
- B. Upon a street with unobstructed pavement not occupied by parked vehicles and marked for two (2) or more lanes of moving vehicles in the direction of travel of the passing vehicle;
- C. Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and marked for two (2) or more lanes of moving vehicles.
- D. Under no condition shall an attempt be made to pass upon the shoulder of any portion of the roadway remaining to the right of the indicated righthand traffic lane. (Ord. 75-86; 1968 Code § 6-8-4)

22-8-105: LIMITATIONS ON OVERTAKING ON THE LEFT:

- A. No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Article, and unless such left side is clearly visible and free of oncoming traffic for sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction of any vehicle overtaken.
- B. In every event said overtaking vehicle must return to an authorized lane of travel as soon as practicable, and in the event the passing movement is made on highways outside a business or residence district and involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet (200') of any approaching vehicle.
- C. Except upon one-way roadways, no vehicle shall at any time be driven to the left side of the roadway under the following conditions:
 - 1. When approaching the crest of a grade or upon a curve where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction.

- C) 2. When approaching within one hundred feet (100') of or traversing any intersection or railroad crossing.
- 3. When the view is obstructed upon approaching within one hundred feet (100') of any bridge, viaduct or tunnel.
- D. Where signs or markings are in place to define a "No Passing" zone, no driver shall at any time drive on the left side of any pavement striping designed to mark such "No Passing" zone throughout its length except to turn left into an alley or driveway where such movement does not interfere with any traffic movement. (Ord. 75-86; 1968 Code § 6-8-5)

22-8-106: FOLLOWING TOO CLOSELY:

- A. The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and condition of the street or highway.
- B. The driver of any motor truck or motor vehicle drawing another vehicle when travelling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another such vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.
- C. Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be operated so as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions, military and/or police escorted processions. (Ord. 75-86; 1968 Code § 6-8-6)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC**ARTICLE 9 ONE-WAY STREETS AND ALLEYS, ROADWAYS LANED FOR TRAFFIC****SECTION:**

22-9-101: One-Way Streets and Alleys
22-9-102: Driving on Roadways Laned for Traffic
22-9-103: Reversible Lane Control

22-9-101: ONE-WAY STREETS AND ALLEYS:

Upon those streets and parts of streets and in those alleys, designated as authorized in Section 22-1-309 and described in Traffic Control Schedules as provided in Section 22-1-312, a vehicle shall be driven only in the indicated direction when official signs indicating the direction of traffic are erected and maintained at every intersection where movement in the opposite direction is prohibited. (Ord. 75-86; 1968 Code § 6-9-1)

22-9-102: DRIVING ON ROADWAYS LANED FOR TRAFFIC:

Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

- A. A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.
- B. Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by the traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.
- C. Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers of vehicles shall obey the directions of every such device. (Ord. 75-86; 1968 Code § 6-9-2)

22-9-103: REVERSIBLE LANE CONTROL:

Official traffic control devices may be erected, as authorized in Section 22-1-309 of this Chapter, designating streets, parts of streets or specific lanes thereon upon which vehicular traffic shall proceed in one direction during one period and the opposite direction during another period of the day, regardless of the center line of the roadway and drivers shall obey the directions of all such devices. (Ord. 75-86; 1968 Code § 6-9-3)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 10 DRIVING ON DIVIDED STREETS, CONTROLLED ACCESS HIGHWAYS

SECTION:

22-10-101: Driving on Divided Streets

22-10-102: Controlled Access Roads

22-10-101: DRIVING ON DIVIDED STREETS:

- A. Whenever any street or highway has been divided into separate roadways by leaving an intervening space or by a physical barrier or clearly-indicated dividing sections so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the righthand roadway, unless directed or permitted by official traffic control devices to use another roadway.
- B. No vehicle shall be driven over, across or within any dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, and then only if such movement is not specifically prohibited by official signs and markings or by the provisions of Section 22-7-106 of this Chapter. (Ord. 75-86; 1968 Code § 6-10-1)

22-10-102: CONTROLLED ACCESS ROADS:

- A. No person shall drive a vehicle onto or from any controlled access roadway except at such entrances and exits as are established by public authority.
- B. Whenever an acceleration lane has been provided in conjunction with a ramp entering a controlled access highway, and the ramp intersection is not designated or signed as a stop or yield intersection as provided in Section 22-7-106 of this Chapter, drivers may use the acceleration lane to attain a safe speed for merging with thru traffic when conditions permit such acceleration with safety; provided, that traffic so merging shall be subject to the rule governing the changing of lanes as set forth in Section 22-9-102A.

- C. Whenever a deceleration lane has been provided in conjunction with a ramp leaving a controlled access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster moving traffic.
- D. Pedestrians, bicyclists or other nonmotorized traffic, or any person operating a motor-driven cycle, shall be excluded from use of any controlled access roadway when official signs are erected on or at entrances to any such roadway, giving notice thereof as authorized in Section 22-1-309 of this Chapter.
- E. The driver of a vehicle shall not back the same upon any shoulder or roadway of any controlled access highway. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-10-2)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 11 METHOD OF PARKING

SECTION:

22-11-101: Parking at Curb or Edge of Roadway
 22-11-102: Obedience to Angle Parking Signs or Markings
 22-11-103: Unattended Motor Vehicle
 22-11-104: Parking Not to Obstruct Traffic or Maintenance
 22-11-105: Parking in Alleys
 22-11-106: Moving Unattended Vehicle
 22-11-107: Clearance Between Vehicles
 22-11-108: Waiting for Parking Space Being Cleared

22-11-101: **PARKING AT CURB OR EDGE OF ROADWAY:**

- A. Except where angle parking is permitted by this Chapter and, in the case of State highways, is approved by the State Department of Highways, and except as otherwise provided by this Chapter, every vehicle stopped or parked upon a two (2) way roadway shall be so stopped or parked with the right hand wheels parallel to and within twelve inches (12") of the right hand curb or edge of the roadway.
- B. Except where angle parking is permitted by this Chapter, every vehicle stopped or parked upon a one way roadway shall be so stopped or parked parallel to the curb or edge of the roadway, in the direction of authorized traffic movement, with its right hand wheels within twelve inches (12") of the right hand curb or edge of the roadway, or its left hand wheels within twelve inches (12") of the left hand curb or edge of the roadway. (Ord. 75-86; 1968 Code § 6-11-1)

22-11-102: **OBEDIENCE TO ANGLE PARKING SIGNS OR MARKINGS:**

On those streets which have been approved and signed or marked for angle parking, no person shall stop, stand or park a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings with the front portion of the vehicle next to the curb. (Ord. 75-86; 1968 Code § 6-11-2)

22-11-103: **UNATTENDED MOTOR VEHICLE:**

No person driving or in charge of a motor vehicle shall permit it to stand unattended without first stopping the engine, locking the ignition and removing the key, or when standing upon any perceptible grade without effectively setting the brake thereon and turning the front wheels to the curb or side of the highway. (Ord. 75-86; 1968 Code, § 6-11-3)

22-11-104: **PARKING NOT TO OBSTRUCT TRAFFIC OR MAINTENANCE:**

- A. No person shall park any vehicle upon a street or highway in such a manner or under such conditions as to interfere with the free movement of vehicular traffic or proper street or highway maintenance.
- B. It shall be unlawful for the driver or person in control of any vehicle being loaded or unloaded, or for the workmen or persons in control of any construction project, or for any other person, to permit or cause any object or objects to protrude or extend into any lane of traffic so as to create a hazard or block the same. (Ord. 75-86; 1968 Code § 6-11-4)

22-11-105: **PARKING IN ALLEYS:**

- A. No person shall park a vehicle within an alley except during the necessary and expeditious loading and unloading of merchandise or freight.
- B. No person shall stop, stand or park a vehicle within an alley in such position as to block the driveway entrance to any abutting property or interfere with the free movement of traffic through the alley. (Ord. 75-86; 1968 Code § 6-11-5)

22-11-106: **MOVING UNATTENDED VEHICLE:**

No person shall move a vehicle not owned by or in charge of such person into any prohibited area or away from a curb such distance as is unlawful. (Ord. 75-86; 1968 Code, § 6-11-6)

22-11-107: CLEARANCE BETWEEN VEHICLES:

No person shall stand or park a vehicle in such a manner as to leave available less than two feet (2') clearance between vehicles when parked except where signs or markings upon the pavement allow less clearance. (Ord. 75-86; 1968 Code § 6-11-7)

22-11-108: WAITING FOR PARKING SPACE

BEING CLEARED: The driver of a vehicle while waiting for a parking space to be cleared by another vehicle which is in the actual process of leaving such parking space, shall stop on the roadway side of and immediately to the rear of such vehicle and shall remain in such position until the parking space has been cleared. (Ord. 75-86; 1968 Code § 6-11-8)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 12 STOPPING, STANDING OR PARKING REGULATIONS¹

SECTION:

22-12-101: Stopping, Standing or Parking in Specified Places

22-12-102: Standing or Parking on One-Way Roadways

22-12-103: Parking for Certain Purposes Prohibited

22-12-104: Stopping, Standing or Parking on Highway

22-12-105: Stopping, Standing or Parking on Private Grounds

22-12-106: Stopping, Standing or Parking in a Fire Lane

22-12-107: Stopping, Standing or Parking in City Parks

22-12-108: All Night Parking-Residential Areas

22-12-101: STOPPING, STANDING OR PARKING IN SPECIFIED PLACES: No

person shall stop, stand or park a vehicle except when necessary to avoid conflict with other traffic or in compliance with directions of a police officer or traffic control device, in any of the following places:

- A. On a sidewalk or pedestrian walking area;
- B. Within five feet (5') of a public or private driveway;
- C. Within an intersection;
- D. Within five feet (5') of a fire hydrant;
- E. On a crosswalk;
- F. Within twenty feet (20') of a crosswalk at an intersection;
- G. Within thirty feet (30') of the approach to any flashing beacon, stop sign, yield sign or traffic control signal located at the side of the roadway;
- H. Between a safety zone and the adjacent curb, or within thirty feet (30') of points on the curb immediately opposite the ends of a safety zone, unless a different length is indicated by official signs and markings;

- I. Within fifty feet (50') of the nearest rail of a railroad at the intersection of a street and a railroad; (Ord. 75-86; 1968 Code § 6-12-1)
- J. Within ten feet (10') of the nearest rail of a railroad at any location other than an intersection; (1980 Code)
- K. Within twenty feet (20') of the driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within seventy five feet (75') of said entrance when properly signposted;
- L. Alongside or opposite any street or roadway excavation or obstruction when such stopping, standing or parking would obstruct traffic;
- M. On the roadway side of any vehicle stopped or parked at the edge or curb of a street.
- N. Between the curb and the sidewalk except where expressly provided by Section 22-1-313 of this Chapter and except where expressly permitted under the terms of a revocable permit issued pursuant to Part 2 of Article 2 of Chapter 19 of this Code;
- O. Upon any bridge or other elevated structure upon a street or highway or within a street or highway tunnel;
- P. At any place where official signs prohibit stopping, standing or parking; (Ord. 75-86; 1968 Code § 6-12-1)
- Q. Adjacent to any curb painted yellow, or "Reserved"; (Ord. 77-69; 1968 Code § 6-12-1)
- R. Within a bus stop or taxicab stand. (Ord. 75-86; 1968 Code § 6-12-1)

22-12-102: STANDING OR PARKING ON ONE-WAY ROADWAYS: In the event a

street or highway includes two (2) or more separate roadways and traffic is restricted to one direction upon any such roadway, no person shall stand or park a vehicle upon the left hand side of such one-

1. No signs required except as noted in Section 22-12-102 of this Article.

way roadway unless official traffic control devices are erected to permit such standing or parking. (Ord. 75-86; 1968 Code § 6-12-2)

22-12-103: PARKING FOR CERTAIN PURPOSES

PROHIBITED: No person shall park a vehicle upon the roadway for the principal purpose of:

- A. Displaying such vehicle for sale;
- B. Washing, greasing, painting or repairing such vehicle except repairs necessitated by an emergency;
- C. Displaying advertising. (Ord. 77-69; 1968 Code § 6-12-3)

22-12-104: STOPPING, STANDING OR PARKING ON HIGHWAY:

No person shall stop, stand or park a vehicle on any highway ramp or on any other portion of the main travelled way of such highway. (Ord. 77-69; 1968 Code § 6-12-4)

22-12-105: STOPPING, STANDING OR PARKING ON PRIVATE GROUNDS:

No person shall stop, stand or park a vehicle upon the property or premises of another or in the lawful possession of another without the permission of the owner or person in the possession thereof. (Ord. 77-69; 1968 Code § 6-12-5)

22-12-106: STOPPING, STANDING OR PARKING IN A FIRE LANE:

Wherever official traffic control devices are placed designating a section of any parking lot, street, alley, driveway or other area anywhere within this City as a fire lane it shall be unlawful for any person to stop, stand or park a vehicle within such a fire lane.¹ (Ord. 77-69; 1968 Code § 6-12-6)

22-12-107: STOPPING, STANDING OR PARKING IN CITY PARKS:

It shall be unlawful for any person to stop, stand or park a vehicle anywhere within a City park between the hours of eleven o'clock (11:00) P.M. and five o'clock (5:00) A.M., or during the time any park is closed pursuant to Section 18-2-104 ; and, no person shall

allow, permit or cause a vehicle to remain stopped, standing or parked anywhere within a City park between the hours of eleven o'clock (11:00) P.M. and five o'clock (5:00) A.M.; except that when a permit is issued pursuant to Section 18-3-101 of this Code, this Section shall not apply.² (Ord. 78-17; 1968 Code § 6-12-7)

22-12-108: ALL NIGHT PARKING - RESIDENTIAL AREAS:

No person shall park any truck on any street in a residential zone use district for a period of time longer than thirty (30) minutes between the hours of eight o'clock (8:00) P.M. and seven o'clock (7:00) A.M. (Ord. 81-216; Ord. 85-263)

1. Fire lanes are established by the Fire Department. See "Access Roads" in most recently adopted edition of Uniform Fire Code, Section 20-2-102 of this Code.

2. See also Section 18-2-104 of this Code.

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 13 STOPPING, STANDING OR PARKING REGULATIONS¹

SECTION:

22-13-101: Regulations Not Exclusive
 22-13-102: Obedience to Stopping, Standing or
 Parking Regulations
 22-13-103: Parking Privilege for the Handicapped
 22-13-104: All Night Parking
 22-13-105: Emergency Stopping or Parking
 22-13-106: Parking Privilege for the Elderly

22-13-101: REGULATIONS NOT EXCLUSIVE:

The provisions of this Article imposing a time limit on parking shall not relieve any person from the duty to observe other and more restrictive provisions prohibiting or limiting the stopping, standing or parking of a vehicle in specified places, at specified times, or in a specified manner. (Ord. 75-86; 1968 Code § 6-13-1)

22-13-102: OBEDIENCE TO STOPPING, STANDING OR PARKING REGULATIONS:

On any street or at any place within this City where official traffic control devices are posted giving notice of stopping, standing or parking restrictions or prohibitions as authorized in Section 22-1-309 of this Chapter, and described in traffic control records as provided in Section 22-1-312, no person shall stop, stand or park a vehicle in any manner in violation of the provisions contained on such sign or signs, except when necessary to avoid conflict with other traffic, or in compliance with the directions of a police officer, or except for the purpose of loading or unloading passengers when such stopping does not obstruct, impede or endanger any traffic. (Ord. 75-86; 1968 Code § 6-13-2)

22-13-103: PARKING PRIVILEGE FOR THE HANDICAPPED:

A. A vehicle with distinguishing license plates or an identifying placard indicating that the occupant of said vehicle is a "Handicapped Person", as defined in Section 22-1-205 of this

A) Chapter, may be parked along public streets regardless of any time limitation imposed by official signs upon parking in such area; except that such privilege shall not apply to zones in which:

1. Stopping, standing or parking of all vehicles is prohibited at all times;

2. Only special vehicles may be parked; or

3. Parking is not allowed during specific periods of the day in order to accommodate heavy traffic.

B. It is unlawful for any person other than a handicapped person to park in a parking space on public or private property which is clearly identified by an official sign as being reserved for use by the handicapped unless such person is parking the vehicle for the benefit of a handicapped person. A placard or license plate issued to a handicapped person shall be displayed on the vehicle while parked in such space. (Ord. 79-154; 1968 Code § 6-13-3)

22-13-104: ALL NIGHT PARKING:

A. No person, except physicians or other persons on emergency calls, shall park a vehicle on any street signed to prohibit all night parking, for a period of time longer than thirty (30) minutes between the hours of two o'clock (2:00) A.M. and five o'clock (5:00) A.M. of any day. (Ord. 75-86; Ord. 81-216; 1968 Code § 6-13-4)

22-13-105: EMERGENCY STOPPING OR PARKING:

When official signs are erected giving notice thereof, no person shall stop, stand or park a vehicle on the shoulder of any expressway, freeway, controlled access highway or any other facility so marked except in case of emergency involving a vehicle or its occupants. (Ord. 75-86; 1968 Code § 6-13-5)

¹ These regulations shall be declared by official signs.

22-13-106: PARKING PRIVILEGE FOR THE ELDERLY:

- A. A vehicle with an identifying placard indicating that the occupant of said vehicle is an "elderly person", as defined in Section 22-1-205 of this Chapter, may be parked along public streets regardless of any time limitation imposed by official signs upon parking in such areas, and at meter spaces regardless of any time limitation imposed by such meter, so long as the meter does not indicate a violation; except that such privilege shall not apply to zones in which:
 - 1. Stopping, standing or parking of all vehicles is prohibited at all times;
 - 2. Only special vehicles may be parked; or
 - 3. Parking is not allowed during specified periods of the day in order to accommodate heavy traffic.
- B. The identifying placard established herein shall be issued to those persons who make application annually to the City Clerk supported by identifying documents indicating the age of the individual. Such placard shall identify the year in which it expires. (Ord. 79-162; 1968 Code § 6-13-6)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 14 STOPPING FOR LOADING OR UNLOADING ONLY

SECTION:

22-14-101: Standing in Passenger Loading Zone
 22-14-102: Standing in Freight Loading Zone
 22-14-103: Permits for Loading Zones
 22-14-104: Bus Stops
 22-14-105: Taxicab Stands
 22-14-106: Standing in Restricted Parking Zone

22-14-101: **STANDING IN PASSENGER LOADING ZONE:**

No person shall stop, stand or park a vehicle for any purpose for a period of time other than for the expeditious loading or unloading of passengers in any place where official traffic control devices are erected designating a passenger loading zone during hours when the regulations applicable to such loading zone are effective, and then only for a period not to exceed the time limit stated on the official traffic control device. (Ord. 77-69; 1968 Code § 6-14-1)

22-14-102: **STANDING IN FREIGHT LOADING ZONE:**

- A. No person shall stop, stand or park a vehicle for any purpose or length of time other than for the expeditious loading and delivery or pickup and loading of materials in any place where official traffic control devices are erected designating a freight loading zone during hours when the provisions applicable to such zones are in effect.
- B. In no case shall the stop for loading and unloading materials exceed the time limit stated on the official traffic control device. (Ord. 77-69; 1968 Code § 6-14-2)

22-14-103: **PERMITS FOR LOADING ZONES:**

Whenever special permits are issued, as authorized in Section 22-1-309, to establish or control the use of loading zones or to allow the backing of a vehicle for the purpose of loading or unloading merchandise or material subject to certain

conditions, no permittee or other person shall violate any of the special terms of any such permit. (Ord. 75-86; 1968 Code § 6-14-3)

22-14-104: BUS STOPS: The operator of a bus shall enter a bus stop on a public street in such a manner that the bus when stopped to load or unload passengers or baggage shall be in a position with the right front wheel of such vehicle not further than twelve inches (12") from the curb and the bus approximately parallel to the curb so as not to unduly impede the movement of other vehicular traffic. (Ord. 75-86; 1968 Code § 6-14-4)

22-14-105: **TAXICAB STANDS:**

- A. Except as provided in subsection B of this Section, the operator of a taxicab shall not stand or park such vehicle upon any street within the parking exempt zones, as defined in Section 14-8-102 of the City Code, at any place other than in a taxicab stand so designated as authorized in Section 22-1-309.
- B. The provisions of subsection A of this Section shall not prevent the operator of a taxicab from temporarily stopping in accordance with other parking or stopping regulations at any place engaged in the expeditious loading or unloading of passengers or while waiting at the direction of a passenger for such passenger to transact business and return to the taxicab, nor shall such provisions be applicable to operators of taxicabs who are off-duty and not engaged in the business of transporting passengers for hire. (Ord. 75-86; Ord. 85-63; 1968 Code § 6-14-5)

22-14-106: **STANDING IN RESTRICTED PARKING ZONE:**

No person shall stop, stand or park a vehicle for any purpose or length of time in any restricted parking zone other than for the purpose specified on official signs marking such restricted zone and during the period of time the restriction is effective, except that the driver of a passenger vehicle may stop momentarily therein for the purpose of and while actually engaged in loading or unloading passengers when such stopping does not interfere with the kind of traffic for which the zone is reserved. (Ord. 75-86; 1968 Code, § 6-14-6)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 15 PARKING METER REGULATIONS

SECTION:

- 22-15-101: Installation of Parking Meters
- 22-15-102: Design of Parking Meters
- 22-15-103: Parking Meter Spaces
- 22-15-104: Deposit of Coins or Tokens; Time Limits
- 22-15-105: Tampering With Meter
- 22-15-106: Permits for Extended Use of
Parking Meters
- 22-15-107: Collection of Moneys

22-15-101: INSTALLATION OF PARKING

METERS: Whenever parking meters have been installed on streets or in parking areas regulated by this City, as authorized in Section 22-1-309, the parking of vehicles at places, streets or parts of streets so designated, shall be controlled by parking meters between the hours and on the days declared on authorized parking meter signs or legends. (Ord. 75-86; 1968 Code § 6-15-1)

22-15-102: DESIGN OF PARKING METERS:

Parking meters installed as provided in this Chapter shall be so designed, constructed, installed and set as to meet the following conditions:

- A. Said meters shall be capable of being operated, either automatically or mechanically, upon the deposit therein of one or more coins of United States currency or authorized tokens, for the full period of time for which parking is lawfully permitted in any such parking meter zone or, in lieu thereof, for an appropriate fractional period of time.
- B. Upon the expiration of the time period registered by the deposit of one or more coins or authorized tokens as provided herein, said meters will indicate by an appropriate signal that the lawful parking meter period has expired, and during said period of time and prior to the expiration thereof, will indicate the interval of time which remains of such period.

- C. Each parking meter shall bear thereon an authorized sign or message clearly legible indicating the days and hours when the requirement to deposit coins or tokens therein shall apply, the value of the coins or tokens to be deposited, and the limited period of time for which parking is lawfully permitted in the parking meter zone in which such meter is located. (Ord. 75-86; 1968 Code § 6-15-2)

22-15-103: PARKING METER SPACES:

- A. Parking meter spaces shall be of appropriate length and width as determined by an engineering and traffic investigation, and may be designated by appropriate markings upon the curb and/or pavement of the street.
- B. Every vehicle shall be parked wholly within a metered space with the front (or rear in the case of double meters) portion of such vehicle immediately opposite the parking meter for such space.
- C. Except where prohibited by other provisions of this Chapter, a vehicle which is of a size too large to be parked within a single parking meter space, shall be permitted to occupy two (2) adjoining parking meter spaces when coins or tokens shall have been deposited in the parking meter for each space so occupied as is required in this Chapter for the parking of other vehicles in such space.
- D. Two (2) motorcycles shall be allowed to park within one angle parking metered space and three (3) within one parallel parking metered space provided all are within the marked space. Any person parking such motorcycle shall be responsible for any parking violations as provided in this Chapter. (Ord. 75-86; 1968 Code § 6-15-3)

22-15-104: DEPOSIT OF COINS OR TOKENS; TIME LIMITS:

- A. No person shall park a vehicle in any parking space upon a street alongside of and next to which a parking meter has been installed during the restricted and regulated time applicable to the parking meter zone in which such meter is located unless a coin or coins of United States currency or authorized tokens of the appropriate denomination as provided in this Chapter, shall have been deposited therein, or shall have been previously deposited therein for an unexpired interval of time, and said meter has been placed in operation.
- B. No person shall deposit or attempt to deposit in any parking meter any slug, button or any other device or substance as substitutes for coins of United States currency or authorized tokens, and no person shall deposit any lawful coin or authorized token that is bent, cut, torn, battered or otherwise misshapen.
- C. No person shall permit a vehicle within his control to be parked in any such parking meter space during the restricted and regulated time applicable to the parking meter zone in which such meter is located while the parking meter for such space indicates by signal that the lawful parking time in such space is expired. This provision shall not apply to the act of parking or the necessary time which is required to deposit immediately thereafter a coin(s) or token(s) in such meter.
- D. No person shall park a vehicle in any such parking meter space for a consecutive period of time longer than that limited period of time for which parking is lawfully permitted in the parking meter zone in which such meter is located, irrespective of the number or amount of the coins or tokens deposited in such meter.
- E. A vehicle may be parked in a parking meter space without operation of the meter on Sundays, on holidays as defined in this Chapter, and during those hours of the day when the requirement to deposit coins or tokens does not apply as determined from the parking meter sign or legend.
- F. The provisions of this Section shall not relieve any person from the duty to observe other and more restrictive provisions of this Chapter prohibiting or limiting the stopping, standing or parking of vehicles in specified places, at specified times, or in a specified manner. (Ord. 75-86; 1968 Code § 6-15-4)

22-15-105: TAMPERING WITH METER:

- A. No person shall deface, injure, tamper with, open or wilfully break, destroy or impair the usefulness of any parking meter.
- B. No person shall place any sack or covering over, upon or around any parking meter head, remove any parking meter head, or otherwise indicate or show that the said meter is inoperative or inapplicable without proper authority to do so. (Ord. 75-86; 1968 Code § 6-15-5)

22-15-106: PERMITS FOR EXTENDED USE OF PARKING METERS:

The Traffic Engineer or his designated representative is hereby authorized to issue permits for the extended use of parking meters, upon payment of such reasonable fees therefor as he may from time to time establish, to allow the reservation of specified metered parking spaces for the use of specified vehicles engaged in repair work, remodeling or new construction, or the furnishing of tools and equipment therefor in the immediate vicinity of the meter or meters to be reserved. Each such permit shall be placed in a specifically designed hood to be placed over the head of the reserved meter. No permittee or other person shall violate any of the terms of any such permit. (Ord. 75-86; 1968 Code § 6-15-6)

22-15-107: COLLECTION OF MONEYS:

The City Manager or his designated representative shall make or cause to be made regular collections of the moneys deposited in parking meters, the receipts thereof to be credited to the Parking System Fund. (Ord. 75-86; 1968 Code § 6-15-7)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 16 MUNICIPAL PARKING LOTS AND STRUCTURES

SECTION:

- 22-16-101: Off-Street Parking Required
- 22-16-102: Power to Acquire and Regulate
- 22-16-103: Signs Identifying Parking Lots
- 22-16-104: Fees
- 22-16-105: Vehicle Size Limits
- 22-16-106: Handbills Forbidden
- 22-16-107: Loading or Unloading of Vehicles
- 22-16-108: Vendors Prohibited
- 22-16-109: Notification of Claims for Damage or Loss
- 22-16-110: Impounding or Immobilization of Improperly Parked Vehicles
- 22-16-111: Disposition of Revenues

except as herein otherwise provided. (Ord. 75-86; 1968 Code § 6-16-2)

22-16-103: **SIGNS IDENTIFYING PARKING**

LOTS: Signs may be erected at the entrance to each City-owned or City-operated parking lot or structure identifying the same and setting forth the rates for parking therein. (Ord. 75-86; 1968 Code § 6-16-3)

22-16-104: FEES: It shall be unlawful to park any vehicle upon any City parking lot or structure without paying the fee provided and posted therefor. The fee shall be set by the Traffic Engineer. (Ord. 75-86; 1968 Code § 6-16-4)

22-16-101: OFF-STREET PARKING REQUIRED: It is hereby found and declared that excessive street parking of motor vehicles in the City and the lack of adequate off-street parking facilities creates congestion, obstructs the free circulation of traffic, diminishes property values and endangers the health, safety and welfare of the citizens of the City. The provision of proper off-street parking facilities are therefore necessary to alleviate such conditions and to promote the public health, safety and welfare, and the same are found and declared to be a public purpose and in the public interest. (Ord. 75-86; 1968 Code § 6-16-1)

22-16-105: VEHICLE SIZE LIMITS: It shall be unlawful to park any vehicle or truck having an excessive height, length or load capacity upon any City parking lot or structure. The allowable limits shall be set by the Traffic Engineer. (Ord. 75-86; 1968 Code § 6-16-5)

22-16-106: HANDBILLS FORBIDDEN: It shall be unlawful for any person to distribute literature or place handbills in or upon any vehicle while parked in any City parking lot or structure. (Ord. 75-86; 1968 Code § 6-16-6)

22-16-102: POWER TO ACQUIRE AND REGULATE: The City is hereby empowered to construct, condemn and purchase, acquire, lease, add to, maintain, conduct and operate off-street parking facilities for the parking of automobiles and other vehicles, in whole or in part consisting of lots, garages or other structures that may be upon, above, or under the surface, and everything required therefor and accessory thereto, for such terms and upon such conditions as the City Council shall deem necessary and proper for the use and benefit of the public, and the same, when constructed and placed in operation, shall be deemed a public street or highway for all purposes and subject to all laws and ordinances relating to the use of same,

22-16-107: LOADING OR UNLOADING OF VEHICLES: It shall be unlawful to block any public sidewalk by stopping on or across same for the purpose of picking up or discharging passengers and it shall be unlawful for any person to receive or deliver vehicles other than within the property line of the City parking lot or structure or to aid or assist in blocking any sidewalk or street. (Ord. 75-86; 1968 Code § 6-16-7)

22-16-108: **VENDORS PROHIBITED:**

- A. It shall be unlawful for any vendor of goods, wares, merchandise or services to use any

- A) Municipal parking lot or structure or portion thereof for the conduct of the vendor's business, to include the stopping, standing or storage of vehicles which are utilized by the vendor in the conduct of his business or which have been accepted by the vendor for repair or the provision of some similar service.
- B. Nothing contained herein shall be construed to prohibit the conduct of a commercial enterprise in any portion of a parking structure designed and set aside for that express purpose; nor shall it be unlawful for a vendor or his agent or employee to utilize a Municipal parking lot or structure to stop, stand or park a vehicle being used in the conduct of the vendor's business while the vendor, agent or employee is making a pickup or delivery, is making a service call, or is otherwise engaged in the vendor's business at some location other than the vendor's principal place of business, provided that all rules and regulations otherwise applicable to the use of the lot or structure are followed. (Ord. 83-319)

- B) parking lot or structure shall be impounded forthwith and removed from such parking lot or structure, and all costs of towing and impoundment shall be paid by the owner or driver thereof before the same shall be released. (Ord. 75-86; Ord. 83-319; 1968 Code § 6-16-10)

22-16-111: DISPOSITION OF REVENUES: All revenues received under this Article shall be placed in the Parking System Gross Income Fund. (Ord. 75-86; 1968 Code § 6-16-11)

22-16-109: NOTIFICATION OF CLAIMS FOR DAMAGE OR LOSS: The City shall not be liable to any person for the negligent operation of any automobile upon a City-owned parking lot or structure, but shall be liable only for its own negligence or the negligence of its employees in the operation and maintenance of such lot or structure and appurtenances thereto. The City shall not be liable for damages or injury sustained on a City-owned parking lot or structure, unless the injured person or the owner of the property so damaged shall notify the Police Department immediately by the quickest means of communication, stating the time, place, circumstances and extent of damage. (Ord. 75-86; 1968 Code § 6-16-9)

22-16-110: IMPOUNDING OR IMMOBILIZATION OF IMPROPERLY PARKED VEHICLES:

- A. In addition to all other penalties provided in this Code, any automobile parked in violation of any provision of this Article may be immobilized or impounded in accordance with the procedures established in Article 25 of this Chapter.
- B. Any vehicle in excess of the allowable height, length or load capacity found parked in any City

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 17 OFFICIAL TRAFFIC CONTROL DEVICES

SECTION:

22-17-101: Uniform Specifications
 22-17-102: Obedience to Official Devices
 22-17-103: Official Devices Required for Enforcement Purposes
 22-17-104: Official Devices, Presumption of Legality
 22-17-105: Traffic Control Signal Legend
 22-17-106: Flashing Signals
 22-17-107: Lane Use Control Signals
 22-17-108: Pedestrian Control Signals
 22-17-109: Inoperative Signs, Devices
 22-17-110: Barricades
 22-17-111: Unauthorized Signs, Signals or Markings
 22-17-112: Interference With Official Devices
 22-17-113: Driving Upon or Across Lines or Warnings Prohibited

22-17-101: UNIFORM SPECIFICATIONS:

- A. Except as otherwise provided in this Chapter, all signs, markings and signals required hereunder for a particular purpose shall so far as practicable, be uniform as to type and location throughout the City as required by the Manual on Uniform Traffic Control Devices and State law. (Ord. 79-32; 1968 Code § 6-17-1)
- B. All traffic control devices so erected and not inconsistent with the provisions of State law or this Chapter, shall be official traffic control devices. (Ord. 75-86; 1968 Code § 6-17-1)

22-17-102: OBEDIENCE TO OFFICIAL DEVICES:

No driver of a vehicle shall disobey the instructions of any official traffic control device, including any official hand signal device placed or displayed in accordance with the provisions of this Article, unless otherwise directed by a police officer or other authorized person, subject to the exceptions in this Chapter granted the driver of an authorized emergency vehicle. (Ord. 75-86; 1968 Code § 6-17-2)

22-17-103: OFFICIAL DEVICES REQUIRED FOR ENFORCEMENT PURPOSES:

- A. No provision of this Chapter for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person.
- B. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place. (Ord. 75-86; 1968 Code § 6-17-3)

22-17-104: OFFICIAL DEVICES, PRESUMPTION OF LEGALITY:

- A. Whenever official traffic control devices are placed in position approximately conforming to the requirements of this Chapter, such devices shall be presumed to have been so placed by the official act or direction of lawful authority, unless the contrary shall be established by competent evidence.
- B. Any official traffic control device placed pursuant to the provisions of this Chapter and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this Chapter, unless the contrary shall be established by competent evidence. (Ord. 75-86; 1968 Code § 6-17-4)

22-17-105: TRAFFIC CONTROL SIGNAL LEGEND: Whenever traffic is controlled by traffic control signals exhibiting different colored lights or colored arrows successively one at a time or in combination, only the colors green, yellow and red shall be used, except for special pedestrian control

signals carrying a word legend as provided in Section 22-17-108. Said lights, arrows and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

A. Green Indication.

1. Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

2. Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

3. Unless otherwise directed by a pedestrian control signal as provided in Section 22-17-108 of this Chapter, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

B. Steady Yellow Indication.

1. Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated, or that a red indication will be exhibited immediately thereafter.

2. Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian control signal as provided in Section 22-17-108 of this Chapter, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

C. Steady Red Indication.

1. Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop

C,1) line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that:

a. Such vehicular traffic, after coming to a stop and yielding the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn unless an official sign has been erected prohibiting such right turn as provided in Section 22-1-309 of this Chapter.

b. Such vehicular traffic, when proceeding on a one-way street, and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right of way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this subparagraph at an intersection where an official sign has been erected prohibiting such left turn as provided in Section 22-1-309 of this Chapter. (Ord. 77-69; 1968 Code § 6-17-5)

2. Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian control signal as provided in Section 22-17-108 of this Chapter.

3. Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line but if none, before entering the crosswalk on the near side of the intersection or if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

4. Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian control signal as provided in Section 22-17-108 of this Chapter.

D. Nonintersection Signal.

1. In the event an official traffic control signal is erected and maintained at a place other than an

D,1) intersection, the provisions of this Section shall be applicable except as to those provisions which by their nature can have no application.

2. Any stop required at a nonintersection signal shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be in advance of the crosswalk or crossing area. (Ord. 75-86; 1968 Code § 6-17-5)

22-17-106: FLASHING SIGNALS:

A. Whenever an illuminated flashing red or yellow signal is used in conjunction with the traffic sign or traffic signal or as a traffic beacon, it shall require obedience by vehicular traffic as follows:

1. When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

2. When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution.

B. This Section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad crossings shall be governed by provisions of Section 22-4-102 through 22-4-104 of this Chapter. (Ord. 75-86; 1968 Code § 6-17-6)

22-17-107: LANE USE CONTROL SIGNALS:

Whenever lane use control signals are placed over the individual lanes of a street or highway, such signals shall indicate and apply to drivers of vehicles as follows:

A. Downward - Pointing Green Arrow (Steady). A driver facing such signal may drive in any lane over which said green arrow signal is located.

B. Yellow "X" (Steady). A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid, if possible, occupying that lane when the steady red "X" signal is exhibited.

C. Yellow "X" (Flashing). A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

D. Red "X" (Steady). A driver facing such signal shall not drive in or to the left of any lane over which said red signal is exhibited. (Ord. 75-86; 1968 Code § 6-17-7)

22-17-108: PEDESTRIAN CONTROL SIGNALS:

Whenever special pedestrian control signals exhibiting the words "walk" or "don't walk", or similar international symbols, are in place, such signals shall indicate as follows:

A. "Walk" (Steady). While the "Walk" indication is steadily illuminated, pedestrians facing such signal may proceed across the roadway in the direction of the signal indication.

B. "Walk" (Flashing). Whenever the "Walk" indication is flashing, pedestrians facing such signal are cautioned that there is possible hazard from turning vehicles, but such pedestrians may proceed across the roadway in the direction of the signal indication and shall be given the right of way by the drivers of all vehicles.

C. "Don't Walk" (Steady). While the "Don't Walk" indication is steadily illuminated, no pedestrian shall enter the roadway in the direction of the signal indication.

D. "Don't Walk" (Flashing). Whenever the "Don't Walk" indication is flashing, no pedestrian shall start to cross the roadway in the direction of the indication, but any pedestrian who has partly completed his crossing during the "Walk" indication, shall proceed to a sidewalk or to a safety island, and all drivers of vehicles shall yield to any such pedestrian.

E. Whenever a signal system provides for the stopping of all vehicular traffic and the

- E) exclusive movement of pedestrians, and "Walk" and "Don't Walk" signal indications control such pedestrian movement, pedestrians may cross in any direction between corners of the intersection offering the shortest route within the boundaries of the intersection while the "Walk" indication is exhibited, if signals or other official devices direct pedestrian movement in such manner consistent with Section 22-18-105D of this Chapter. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-17-8)

22-17-109: INOPERATIVE SIGNS, DEVICES:

- A. Whenever a driver approaches an intersection and faces a traffic control signal which is inoperative or which remains on steady red or steady yellow during several time cycles, the driver shall treat such signal as a "Stop" sign and the rules provided in Section 22-3-101 of this Chapter shall apply until a police officer assumes control of traffic or until normal operation is resumed.
- B. In the event that any traffic control signal at a place other than an intersection should cease to operate or should malfunction as herein set forth, drivers may proceed through the inoperative or malfunctioning signal only with caution, as if the signal were one of flashing yellow.
- C. Whenever a pedestrian faces a pedestrian control signal, as provided in Section 22-17-108, which is inoperative or which remains on "Don't Walk" or "Walk" during several time cycles, such pedestrian shall not enter the roadway unless he can do so safely and without interfering with any vehicular traffic. (Ord. 75-86; 1968 Code § 6-17-9)

22-17-110: BARRICADES: Wherever barricades are erected to close off a part of or all of a street or highway, as authorized in Section 22-1-309 of this Chapter, no person shall drive around, through or between such barricades or into the barricaded area, except as directed or permitted by official signs or in compliance with the directions of a police officer or other authorized person. (Ord. 75-86; 1968 Code § 6-17-11)

22-17-111: UNAUTHORIZED SIGNS, SIGNALS OR MARKINGS:

- A. No person shall place, maintain or display upon or in view of any street or highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or railroad sign or signal.
- B. No person shall place or maintain, nor shall any public authority permit upon any street or highway any traffic sign or signal bearing thereon any commercial advertising.
- C. This Section shall not be deemed to prohibit the use of motorists' services information of a general nature on official highway guide signs, if such signs do not indicate the brand, trademark or name of any private business or commercial enterprise offering the service, nor shall this Section be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.
- D. Every such prohibited sign, signal or marking is hereby declared to be a public nuisance, and the Traffic Engineer is hereby empowered to remove the same or cause it to be removed without notice. (Ord. 75-86; 1968 Code § 6-17-12)

22-17-112: INTERFERENCE WITH OFFICIAL DEVICES:

No person shall without lawful authority attempt to or in fact alter, deface, injure, knock down or remove any official traffic control device, any railroad sign or signal, or any inscription, shield or insignia thereon, or any other part thereof. (1968 Code, § 6-17-13)

22-17-113: DRIVING UPON OR ACROSS LINES OR WARNINGS PROHIBITED:

When any line, marking or message on any pavement is covered or marked by barricades, traffic cones, flags,

blocks, or where official signs are visible, or other warning or obstruction devices, it shall be unlawful for any person to drive a motor vehicle upon or across such line, marking or message. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-17-14)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 18 PEDESTRIANS' RIGHTS AND DUTIES, DRIVERS TO EXERCISE DUE CARE

SECTION:

22-18-101: Obey Traffic Control Devices
 22-18-102: Right of Way in Crosswalks
 22-18-103: Crossings and Crosswalk Restrictions
 22-18-104: Use Right Half of Crosswalks
 22-18-105: Crossing and Yielding at Other Than Crosswalks
 22-18-106: Obedience to Railroad Signals
 22-18-107: Pedestrians on Highways
 22-18-108: Driving Through Safety Zone Prohibited
 22-18-109: Driving On Sidewalk
 22-18-110: Play Streets
 22-18-111: Drivers to Exercise Due Care
 22-18-112: Playing Ball and Sports in Streets; Sitting on Parked Vehicles
 22-18-113: Obstruction or Interference with Traffic

- A) pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.
- B. Subsection A shall not apply under the conditions stated in Section 22-18-105 of this Chapter.
- C. No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield.
- D. Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle. (Ord. 75-86; 1968 Code § 6-18-2)

22-18-101: OBEY TRAFFIC CONTROL DEVICES:

- A. A pedestrian shall obey the instructions of any official traffic control device specifically applicable to him, unless otherwise directed by a police officer.
- B. Pedestrians shall be subject to traffic and pedestrian control signals as provided in Sections 22-17-105, 22-17-108 and 22-17-109 of this Chapter.
- C. At all other places, pedestrians shall be accorded the privileges and shall be subject to the restrictions stated in this Article. (Ord. 75-86; 1968 Code § 6-18-1)

22-18-103: CROSSINGS AND CROSSWALK RESTRICTIONS: No pedestrian shall cross a roadway at any place other than by a route at right angles to the curb or by the shortest route to the opposite curb except in a crosswalk or except where angle crossing is authorized as provided in Section 22-18-105D of this Chapter. (Ord. 75-86; 1968 Code § 6-17-3)

22-18-104: USE RIGHT HALF OF CROSSWALKS: Pedestrians shall move, whenever practicable, upon the right half of crosswalks. (Ord. 75-86; 1968 Code § 6-18-4)

22-18-102: RIGHT OF WAY IN CROSSWALKS:

- A. When traffic control signals are not in place or not in operation, the driver of a vehicle shall yield the right of way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling, or when the

22-18-105: CROSSING AND YIELDING AT OTHER THAN CROSSWALKS:

- A. Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right of way to all vehicles upon the roadway.

- B. Any pedestrian crossing the roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided, shall yield the right of way to all vehicles upon the roadway.
- C. Between adjacent intersections at which traffic control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk.
- D. No pedestrian shall cross a roadway intersection diagonally unless authorized by official traffic control devices; and, when authorized to cross diagonally, pedestrians shall cross only in accordance with the official traffic control devices pertaining to such crossing movements. (Ord. 75-86; 1968 Code § 6-18-5)

22-18-106: OBEDIENCE TO RAILROAD SIGNALS: No pedestrian shall pass through, around, over or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is being opened or closed. 75-86; 1968 Code § 6-18-5)

22-18-107: PEDESTRIANS ON HIGHWAYS:

- A. Pedestrians walking along streets and highways where sidewalks are not provided shall walk on the left side of highways facing approaching traffic, except when soliciting a ride.
- B. No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any private vehicle. For the purposes of this subsection, "roadway" means that portion of the road normally used by moving motor vehicle traffic.
- C. It is unlawful for any person who is under the influence of intoxicating liquors or any narcotic or stupefying drug to walk or be upon that portion of any highway normally used by moving motor vehicle traffic.
- D. This Section applying to pedestrians shall also be applicable to riders of animals.
- E. No person shall stand or walk in or upon a roadway or adjacent parkway for the purpose of soliciting a ride from the driver of any vehicle wherever official signs or devices prohibiting pedestrians or hitchhiking are erected and in place.

- F. Pedestrians shall only be picked up where there is adequate road space for vehicles to pull off and not endanger or impede the flow of traffic.
- G. Pedestrians shall not stand or walk in or upon a street or roadway wherever official signs are erected giving notice pedestrians are excluded as authorized in Section 22-1-309. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-18-7)

22-18-108: DRIVING THROUGH SAFETY ZONE PROHIBITED:

- A. No vehicle shall at any time be driven through or within a pedestrian safety zone.
- B. No vehicle shall at any time be driven through or within a school crosswalk when a school crosswalk guard indicates such prohibition. (Ord. 75-86; Ord. 85-186; 1968 Code § 6-18-9)

22-18-109: DRIVING ON SIDEWALK: The driver of a vehicle shall not drive within any sidewalk area or bicycle path of this City except at a permanent or temporary driveway. (Ord. 75-86; 1968 Code §6-18-9)

22-18-110: PLAY STREETS: Whenever official signs are erected indicating any street or part thereof within the City as a play street, as authorized in Section 22-1-309 of this Chapter, no person shall drive a vehicle upon any such street or portion thereof except drivers of vehicles having business or whose residences are within such closed area, and then any said driver shall exercise the greatest care in driving upon any such street or portion thereof. (Ord. 75-86; 1968 Code § 6-18-10)

22-18-111: DRIVERS TO EXERCISE DUE CARE:

Notwithstanding the provisions of this Article or other articles of this Chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person upon a roadway.

Any pedestrian who is not wholly or partially blind and any driver of a vehicle who approaches or comes in contact with a person who is wholly or partly blind carrying a cane or walking stick, white or metallic in

color, or white tipped with red or who is accompanied by a guide dog, shall immediately come to a full stop and take such precautions before proceeding as may be necessary to avoid an accident or injury to the person wholly or partially blind. (75-86; 1968 Code § 6-18-11)

22-18-112: PLAYING BALL AND SPORTS IN STREETS; SITTING ON PARKED VEHICLES:

- A. No person shall play ball, fly kites or engage in other similar activities upon any street or roadway not designated a play street in accordance with Section 22-1-309 of this Chapter.
- B. No person shall sit upon, or otherwise attach himself to the outside, top, hood or fenders of any vehicle, or to any other portion thereof, other than the specific portion of such vehicle intended for passengers, while such vehicle is stopped, standing or parked upon any public way. (Ord. 75-86; 1968 Code § 6-18-12)

22-18-113: OBSTRUCTION OR INTERFERENCE WITH TRAFFIC: It shall be unlawful for any person or persons to:

- A. Occupy, linger, delay, remain, abide or tarry on any street or highway in this City when such conduct obstructs or interferes with the movement of traffic on such street or highway; or
- B. Solicit for contributions or donations or distribute any handbill, bill, notice, announcement or advertisement on any street or highway when such conduct obstructs or interferes with the movement of traffic on such street or highway. (Ord. 79-247; 1968 Code § 6-18-13)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 19 OPERATION OF BICYCLES

SECTION:

- 22-19-101: Effect of Regulations
- 22-19-102: License Required
- 22-19-103: Application for License
- 22-19-104: Issuance of License
- 22-19-105: Attachment of License Plate
- 22-19-106: Inspection of Bicycles
- 22-19-107: Transfer of Ownership
- 22-19-108: Rental Agencies
- 22-19-109: Bicycle Dealers
- 22-19-110: Traffic Laws Apply to Bicycle Riders
- 22-19-111: Obedience to Traffic Control Devices
- 22-19-112: Riding on Bicycles
- 22-19-113: Riding on Roadways and Bicycle Paths
- 22-19-114: Speed
- 22-19-115: Entering or Emerging From Alley or Driveway
- 22-19-116: Carrying Articles
- 22-19-117: Parking
- 22-19-118: Riding on Sidewalks
- 22-19-119: Equipment on Bicycles
- 22-19-120: Clinging to Vehicles
- 22-19-121: Bicycles Excluded
- 22-19-122: Impounding Bicycles
- 22-19-123: Release of Impounded Bicycles
- 22-19-124: Notice to Owner of Impounded Bicycle
- 22-19-125: Sale of Unclaimed Bicycles
- 22-19-126: Suspension or Revocation of License
- 22-19-127: Rules and Regulations

22-19-101: EFFECT OF REGULATIONS:

- A. It is unlawful for any person to do any act forbidden or fail to perform any act required in this Article.
- B. The parent of any child or guardian of any ward shall not authorize or knowingly permit any child or ward to violate any of the provisions of this Article.
- C. These regulations applicable to bicycles shall apply whenever a bicycle is operated upon any street or highway within this City or upon any path or trail therein set aside for the exclusive

- C) use of bicycles, subject to those exceptions stated herein. (Ord. 75-86; 1968 Code § 6-19-1)

22-19-102: LICENSE REQUIRED: No person shall ride or propel a bicycle on any street or upon any public path set aside for the exclusive use of bicycles, unless such bicycle has been licensed and a license plate is attached thereto as provided herein. A valid license issued by another government entity shall be deemed to meet the requirements of this Article. (Ord. 75-86; 1968 Code, § 6-19-2)

22-19-103: APPLICATION FOR LICENSE:

Application for a bicycle license shall be made upon a form provided by the City Clerk and shall be made to the City Clerk or other authorized official. A license fee as prescribed by the City Council shall be paid to the City before each license is granted. (Ord. 75-86; 1968 Code § 6-19-3)

22-19-104: ISSUANCE OF LICENSE:

- A. The City Clerk or other authorized official, upon receiving proper application therefor, is authorized to issue a bicycle license.
- B. The City Clerk or other authorized official shall not issue a license for any bicycle when he knows or has reasonable grounds to believe that the applicant is not the owner of or entitled to the possession of such bicycle.
- C. The City Clerk or other authorized official shall keep a record of the number of each license, the date issued, the name and address of the person to whom issued, and the number on the frame of the bicycle for which issued, and a record of all bicycle license fees collected by him. (Ord. 75-86; 1968 Code § 6-19-4)

22-19-105: ATTACHMENT OF LICENSE PLATE:

- A. The City Clerk or other authorized official, upon issuing a bicycle license, shall also issue a

- A) license plate bearing the license number assigned to the bicycle and the name of the City.
- B. Such license plate shall be firmly attached to the rear mudguard or frame of the bicycle for which issued in such position as to be plainly visible from the rear.
- C. No person shall remove a license plate from a bicycle during the period for which issued, except upon the transfer of ownership or in the event the bicycle is dismantled and no longer operated upon any street or bicycle path in this City. (Ord. 75-86; 1968 Code § 6-19-5)

22-19-106: INSPECTION OF BICYCLES: The City Clerk or other authorized official shall inspect each bicycle before licensing the same and shall refuse a license for any bicycle which he determines is in an unsafe mechanical condition or fails to meet the requirements of Section 22-19-119 of this Chapter. (Ord. 75-86; 1968 Code § 6-19-6)

22-19-107: TRANSFER OF OWNERSHIP: Upon the sale or other transfer of a licensed bicycle, the licensee shall remove the license plate and shall either surrender the same to the City Clerk or other authorized official or may, upon proper application but without payment of additional fee, have said plate assigned to another bicycle owned by the applicant. (Ord. 75-86; 1968 Code § 6-19-7)

22-19-108: RENTAL AGENCIES: A rental agency shall not rent or offer any bicycle for rent unless the bicycle is licensed and the license plate is attached thereto as provided herein, and such bicycle is equipped with the lamps and other equipment required in this Article. (Ord. 75-86; 1968 Code § 6-19-8)

22-19-109: BICYCLE DEALERS: Every person engaged in the business of buying or selling new or secondhand bicycles shall make a report to the City Clerk of every bicycle purchased or sold by such dealer, giving the name and address of the person from whom purchased or to whom sold, a description of such bicycle by name or make, the frame number thereof, and the number of the license plate, if any, found thereon. (Ord. 75-86; 1968 Code § 6-19-9)

22-19-110: TRAFFIC LAWS APPLY TO BICYCLE

RIDERS: Every person riding a bicycle upon a roadway where bicycle travel is permitted, shall be granted all of the rights and shall be subject to all of the duties and penalties applicable to the driver of a vehicle as set forth in this Chapter, except those provisions of this Chapter which, by their very nature, can have no application. Said bicycle rider shall also comply with special rules set forth in this Article. Whenever the word "vehicle" is used in any of the driving rules set forth in this Chapter that are applicable to bicycle riders, such term shall include bicycles. (Ord. 75-86; 1968 Code § 6-19-10)

22-19-111: OBEDIENCE TO TRAFFIC CONTROL DEVICES:

- A. Any person operating a bicycle shall obey the instructions of official traffic control devices applicable to vehicles, unless otherwise directed by a police officer.
- B. Whenever authorized signs are erected indicating that no right or left or U-turn is permitted, no person operating a bicycle shall disobey the direction of any such sign, except when such person dismounts from the bicycle to make any such turn, in which event such person shall then obey the regulations applicable to pedestrians. (Ord. 75-86; 1968 Code § 6-19-11)

22-19-112: RIDING ON BICYCLES:

- A. A person propelling a bicycle shall not ride other than astride a permanent and regular seat attached thereto.
- B. No bicycle shall be used to carry more persons at one time than the number for which it is designed and equipped. (Ord. 75-86; 1968 Code § 6-19-12)

22-19-113: RIDING ON ROADWAYS AND BICYCLE PATHS:

- A. Every person operating a bicycle upon a roadway shall ride as near to the right side of the roadway as practicable, exercising care when passing a standing vehicle or one proceeding in the same direction.
- B. Persons riding bicycles upon a roadway shall not ride more than two (2) abreast except on

- B) paths or parts of roadways set aside for the exclusive use of bicycles.
- C. Where a usable path or trail for bicycles has been provided adjacent to a roadway, bicycle riders shall use such path and shall not use the roadway. (Ord. 75-86; 1968 Code § 6-19-13)

22-19-114: **SPEED:** No person shall operate a bicycle at a speed greater than is reasonable and prudent under the conditions then existing. (Ord. 75-86; 1968 Code § 6-19-14)

22-19-115: **ENTERING OR EMERGING FROM ALLEY OR DRIVEWAY:** The operator of a bicycle emerging from an alley, driveway or building shall, upon approaching a sidewalk or the sidewalk area extending across any alleyway, yield the right of way to all pedestrians on said sidewalk or sidewalk area, and upon entering the roadway shall yield the right of way to all vehicles on said roadway as may be necessary to avoid collision. (Ord. 75-86; 1968 Code § 6-19-15)

22-19-116: **CARRYING ARTICLES:** No person operating a bicycle shall carry any package, bundle or article which prevents the rider from keeping at least one hand upon the handle bars. (Ord. 75-86; 1968 Code § 6-19-16)

22-19-117: **PARKING:**

- A. No person shall stand or park a bicycle upon any street other than upon the roadway against the curb, or upon the sidewalk in a rack to support the bicycle, against a building, or at the curb.
- B. Every bicycle shall be parked in such a manner as to afford the least obstruction to pedestrian traffic. (Ord. 75-86; 1968 Code § 6-19-17)

22-19-118: **RIDING ON SIDEWALKS:**

- A. When signs are erected giving notice thereof, no person shall operate a bicycle, skateboard, rollerskates, or similar device upon a sidewalk.
- B. Whenever any person is operating a bicycle, skateboard, rollerskates, or similar device upon a sidewalk, such person shall yield the right of way to any pedestrian and shall give audible signal before overtaking and passing such pedestrian.

- C. It shall be unlawful for any person to operate a bicycle, skateboard, rollerskates, or similar device on any sidewalk:

1. Either bordering on or included within the area bordered on the north by Boulder Street, on the south by Vermijo Avenue, on the east by Weber Street and on the west by Cascade Avenue, excepting that portion of Acacia Park designated by the Director of Park and Recreation for wheeled device use, such area to be the concrete patio immediately north and adjacent to the park bandshell. This patio area shall be available for wheeled devices as described above at times so directed and posted by the Director of Park and Recreation, unless such area is reserved through the park permitting process for other suitable use.¹

2. Either bordering on or included within Colorado Avenue bordered on the east by 24th Street and on the west by 27th Street.

- D. Signage as provided in subsection A hereof shall not be required in the areas defined in subsection C hereof. (Ord. 75-86; Ord. 83-228; Ord. 86-103; 1968 Code § 6-19-18)

22-19-119: **EQUIPMENT ON BICYCLES:**

- A. Every bicycle in use on a street or highway between sunset and sunrise and at any other time when, due to insufficient light or unfavorable atmospheric conditions, persons in vehicles on the street or highway are not clearly discernible at a distance of five hundred feet (500') ahead, shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least five hundred feet (500') to the front and with a red reflector on the rear of a type which shall be visible from all distances from fifty feet (50') to three hundred feet (300') to the rear when directly in front of lawful upper beams of headlamps on a motor vehicle. A lamp emitting a red light visible from a distance of five hundred feet (500') to the rear may be used in addition to the red reflector.
- B. No person shall operate a bicycle unless it is equipped with a bell or other device capable of giving a signal audible for a distance of at least one hundred feet (100'), except that a bicycle shall not be equipped with, nor shall any person use upon a bicycle, any siren or whistle.
- C. Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheel skid on dry, level, clean pavement. (Ord. 75-86; 1968 Code § 6-19-19)

1. See City Code Section 18-2-101 et seq.

22-19-120: CLINGING TO VEHICLES: No person riding upon any bicycle shall attach the same or himself to any vehicle upon any street or roadway. (Ord. 75-86; 1968 Code § 6-29-20)

22-19-121: BICYCLES EXCLUDED: Wherever of-ficial signs are erected giving notice that bicycles are excluded, as authorized in Section 22-1-309 of this Chapter, no bicycle rider shall violate any of the instructions contained thereon. (Ord. 75-86; 1968 Code § 6-19-21)

22-19-122: IMPOUNDING BICYCLES: Members of the Police Department are hereby authorized to remove a bicycle from any street, alley, highway, sidewalk, bridge, viaduct, tunnel, path or other public place or way, to the bicycle pound or to any lot or place maintained by the City or said Department for the storage of impounded bicycles, or to any other place of safety under any of the circumstances hereinafter enumerated:

- A. When such bicycle is not licensed according to the provisions of this Chapter, or when the license plate is not attached to the frame of such bicycle as required by Section 22-19-105 of this Chapter.
- B. When such bicycle is not in safe mechanical condition.
- C. When such bicycle is not equipped as required by Section 22-19-119 of this Chapter.
- D. When such bicycle is operated by any person under the age of sixteen (16) years in violation of any ordinance of the City relating to traffic or in violation of any of the provisions of this Chapter. (Ord. 75-86; 1968 Code § 6-19-22)

22-19-123: RELEASE OF IMPOUNDED BICYCLES:

- A. No bicycle so removed or impounded because not licensed or because the license plate is not attached to the frame thereof shall be released until such bicycle is licensed in accordance with the provisions of this Chapter and the required license plate is firmly attached to the frame thereof in such position as to be plainly visible from the rear, and such bicycle shall be released to the owner or person entitled to the possession thereof when the same is licensed and the license plate is so attached.

- B. No bicycle so removed or impounded because not in safe mechanical condition or because not equipped as required by Sections 22-19-106 and 22-19-119 of this Chapter shall be released until:

1. Such unsafe mechanical condition has been corrected or such lacking equipment has been placed on such bicycle; or

2. The City Clerk or his duly authorized agent has been satisfied that such bicycle will not be ridden, propelled or operated upon any street, alley, highway, sidewalk, bridge, viaduct, tunnel, path or other public place or way until such unsafe mechanical condition has been corrected or such lacking equipment has been placed on such bicycle, and such bicycle shall be released to the owner or person entitled to the possession thereof when the same is in safe mechanical condition and when such lacking equipment has been placed thereon or when the City Clerk or his duly authorized agent has been so satisfied.

- C. No bicycle so removed or impounded because operated by any person under the age of sixteen (16) years in alleged violation of any ordinance of the City relating to traffic or in alleged violation of any of the provisions of this Chapter shall be released until the City Clerk shall have had a reasonable period of time in which to investigate or cause to be investigated the facts relative to such alleged violation. If at the conclusion of such investigation the City Clerk finds such alleged violation to have occurred he may order such bicycle to be retained or further impounded for such further period not exceeding thirty (30) days as in his discretion shall seem proper, and at the expiration of such period or upon the conclusion of such investigation if said Clerk shall determine that such alleged violation did not occur, such bicycle shall be released to the owner or person entitled to the possession thereof. (Ord. 75-86; 1968 Code § 6-19-23)

22-19-124: NOTICE TO OWNER OF IMPOUNDED BICYCLE: Whenever a bicycle is removed from any public place or way or impounded as authorized by this Chapter and the identity of the owner or person entitled to the possession thereof is known, such owner or person shall be given notice in writing of the fact of such removal or impounding, the reasons therefor, and the place to which the bicycle has been removed or in which it is impounded. (Ord. 75-86; 1968 Code § 6-19-24)

22-19-125: SALE OF UNCLAIMED BICYCLES:

Whenever a bicycle shall have been impounded for a period of two (2) months and no claim of ownership or the right to the possession thereof shall have been made and established to the satisfaction of the City Clerk, such bicycle shall be considered as lost, unclaimed or stolen goods or property, and shall be subject to sale pursuant to the terms of Section 22-25-106 of this Chapter. (Ord. 75-86; 1968 Code § 6-19-25)

22-19-126: SUSPENSION OR REVOCATION OF LICENSES:

Any bicycle ridden or operated in violation of any of the provisions of this Chapter or of any applicable ordinance of the City of Colorado Springs relating to traffic, shall be deemed and considered an offending instrumentality employed to accomplish a violation of law, and the City Clerk may revoke the license of or for such bicycle or suspend the same for such period of time as in his discretion he shall deem proper. (Ord. 75-86; 1968 Code § 6-19-26)

22-19-127: RULES AND REGULATIONS:

The City Clerk is hereby authorized to adopt rules and regulations governing the procedure to be followed in the removal and impounding of bicycles pursuant to the provisions of this Chapter, and the revocation or suspension of license for bicycles, and such rules shall include provisions affording the owner or person entitled to the possession of any bicycle so removed or impounded a reasonable opportunity to be heard concerning the existence of cause for such removal and impounding and the period for or during which such bicycle should be impounded and concerning the revocation or suspension of the license of any bicycle pursuant to Section 22-19-126 of this Chapter. (Ord. 75-86; 1968 Code § 6-19-27)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 20 REGULATING THE KINDS AND CLASSES OF TRAFFIC

SECTION:

- 22-20-101: Excluded, Restricted, Prohibited Use of Streets
- 22-20-102: Size and Weight Restrictions; Applicability
- 22-20-103: Projecting Loads on Vehicles
- 22-20-104: Spilling Loads on Streets or Highways
- 22-20-105: Trailers and Towed Vehicles
- 22-20-106: Weight Limits on Certain Streets or Parts Thereof (Rep. by Ord. 85-263)
- 22-20-107: Vehicles Weighed, Excess Removed
- 22-20-108: Permits for Excess Size and Weight
- 22-20-109: Liability for Damage to Street or Structure

22-20-101: EXCLUDED, RESTRICTED, PROHIBITED USE OF STREETS:

- A. The use of certain streets and roadways by pedestrians, motor driven cycles, bicycles and horse-drawn vehicles or other nonmotorized traffic, shall be excluded when official signs giving notice thereof are erected as authorized in Section 22-1-309 and 22-19-121 of this Chapter. The use of certain street and roadways by vehicles or loads of certain weight or size shall be restricted when official signs giving notice thereof are erected as authorized in Section 22-1-309. The use of certain streets and roadways by trucks other than those streets and roadways officially designated as truck routes shall be prohibited as authorized in Section 22-21-102.
- B. For the purpose of road construction and maintenance, any street or portion thereof may, by action of this City or by agreement with other concerned road agencies, be temporarily closed to thru traffic or to all vehicular traffic during the work project, and the traffic affected shall be guided along appropriate detours or alternative routes by official traffic control devices.
- C. When signs are so erected giving notice of exclusions or restrictions upon the use of streets no person shall disobey the directions or instructions stated on such signs.

- D. The provisions of subsection A shall not be construed to prohibit the drivers of any prohibited vehicles from travelling over such prohibited streets, other than controlled access roadways, for the purpose of delivering or picking up materials or merchandise or reaching their destinations which occur on these particular streets, provided such prohibited vehicles enter such streets at the intersection nearest the destination of the vehicle and proceed thereon no farther than the nearest intersection thereafter. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-20-1)

22-20-102: SIZE AND WEIGHT RESTRICTIONS; APPLICABILITY:

- A. It is unlawful for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any street or highway within this City any vehicle or vehicles of a size, weight and load exceeding the limitations described in this Article and in C.R.S. 1973 §§ 42-4-401 through 42-4-411.
- B. The provisions of this Article governing size, weight and load shall not apply to authorized emergency vehicles, public transportation vehicles operated by municipalities or other political subdivisions of the State or road construction equipment . operated by municipalities or other political subdivisions of the State temporarily moved upon the street or roadway, or to implements of husbandry temporarily moved upon a highway, or to a vehicle under the terms of a special permit issued as provided in this Section. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-20-2)

22-20-103: PROJECTING LOADS ON VEHICLES:

- A. No passenger type vehicle shall be operated on any highway with any load carried thereon extending beyond the line of the fenders on the left side of such vehicle, nor extending more than six inches (6") beyond the line of the fenders on the right side thereof.
- B. The load upon any vehicle operated alone, or the load upon the front vehicle of a combination of

- B) vehicles, shall not extend beyond the front wheels of such vehicles or vehicle, or the headlamp lenses of such vehicle; provided, that a load may project not more than four feet (4') beyond the front headlamp lenses of such a vehicle at a point above the cab of the driver's compartment so long as that part of any load projecting ahead of the rear of the cab or the driver's compartment shall be so loaded as not to obscure the vision of the driver to the front or to either side, except as otherwise provided in Section 22-20-102 of this Chapter.
- C. It shall be unlawful for any person to operate a vehicle to which is attached in any manner any chain, rope, wire or other equipment which drags, swings or projects in any manner so as to endanger the person or property of another. (Ord. 75-86; 1968 Code § 6-20-3)

22-20-104: SPILLING LOADS ON STREETS OR HIGHWAYS: No vehicle shall be driven or moved on any highway unless such vehicle is constructed or loaded or the load thereon securely covered to prevent any of its load from dropping, sifting, leaking or otherwise escaping therefrom, except that sand may be dropped for the purpose of securing traction, or water or other substance may be sprinkled on a roadway in cleaning or maintaining such a roadway. (Ord. 75-86; 1968 Code § 6-20-4)

22-20-105: TRAILERS AND TOWED VEHICLES:

- A. When one vehicle is towing another, the drawbar or other connection shall be of sufficient strength to pull all weight towed thereby and said drawbar or other connection shall not exceed fifteen feet (15') from one vehicle to the other, except the connection between any two (2) vehicles transporting poles, pipe, machinery or other objects of structural nature which cannot readily be dismembered.
- B. When one vehicle is towing another and the connection consists of a chain, rope or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches (12") square.
- C. Whenever one vehicle is towing another, in

- C) addition to the drawbar or other connection, except a fifth wheel connection meeting the requirements of the Interstate Commerce Commission, safety chains or cables arranged in such a way that it will be impossible for the vehicle being towed to break loose from the vehicle towing in the event the drawbar or other connection were to be broken, loosened or otherwise damaged shall be used. This shall apply to all motor vehicles, all trailers, except semi-trailers connected by a proper fifth wheel, and to any dolly used to convert a semi-trailer to a full trailer. (Ord. 75-86; 1968 Code § 6-20-5)

22-20-106: WEIGHT LIMITS ON CERTAIN STREETS OR PARKS THEREOF:
(Rep. by Ord. 85-263)

22-20-107: VEHICLES WEIGHED, EXCESS REMOVED:

- A. Any police officer having reason to believe that the weight of a vehicle and load is unlawful, is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales and shall require that such vehicles be driven to the nearest public scales in the event such scales are within five (5) miles.
- B. Whenever an officer upon weighing a vehicle and load as above provided determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under this Article.
- C. It shall be unlawful for any driver of a vehicle when directed by a police officer to fail or refuse to stop and submit the vehicle and load to a weighing, or to fail or refuse when directed by an officer to allow the unloading of the vehicle to the gross weight of such vehicle permitted in this Article, or otherwise to fail or refuse to comply with the provisions of this Section. (Ord. 75-86; 1968 Code § 6-20-7)

22-20-108: PERMITS FOR EXCESS SIZE AND WEIGHT:

- A. Upon receiving application in writing and good cause being shown therefor, the Traffic Engineer may, in his discretion, issue a special permit authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Article or otherwise not in conformity with the provisions of this Article; provided, that no permit issued shall allow a total gross weight in excess of that permitted by the formula prescribed in C.R.S. 1973 § 42-4-407(1)(b).
- B. The application for any such permit shall specifically describe the vehicle or vehicles and load to be operated or moved and the particular streets or highways for which the permit to operate is requested, and whether such permit is for a single trip or for continuous operation and the time of such movement.
- C. In granting such permit, the City Traffic Engineer may limit the number of trips or establish seasonal or other time limitations within which the vehicles described may be operated on the streets and highways indicated, or otherwise limit or prescribe conditions of operation of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces or structures, and may require such undertaking or other security as may be deemed necessary to compensate for any damage to any roadway or road structure.
- D. Permits issued by the Colorado Department of Highways authorizing the movement of vehicles under this Section on any of the connecting links of the State highway system within the City, shall be construed to have the joint approval of the City Traffic Engineer.
- E. Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit, and no person shall violate any of the terms or conditions of such special permit. (Ord. 75-86; 1968 Code § 6-20-8)

22-20-109: LIABILITY FOR DAMAGE TO STREET OR STRUCTURE:

- A. Any person driving, operating or moving any vehicle, object or contrivance upon any street or highway or upon or under any street or highway structure, shall be liable for all damage which said highway or highway structure, including any street or highway fixture, official traffic control device, or bridge sign within or suspended over the public right of way, may sustain as a result of any illegal operation, driving or moving of such vehicle, object or contrivance, or a result of operating, driving or moving any vehicle, object or contrivance weighing in excess of the maximum weight or size allowable in this Article but authorized by special permit issued as provided in this Article.
- B. Whenever such driver is not the owner of such vehicle, object or contrivance, but is so operating, driving or moving the same with the express or implied permission of said owner, then said owner and driver shall be jointly and severally liable for any such damage.
- C. Such damage may be recovered in a civil action brought by the authorities in control of such street or highway, or such street or highway structure or fixture. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-20-9)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 21 TRUCK ROUTES

SECTION:

22-21-101: Definitions
 22-21-102: Scope and Effect
 22-21-103: Truck Route Committee
 22-21-104: Operation of Trucks

22-21-101: DEFINITIONS:¹

DESIGNATED TRUCK ROUTE: A street or roadway designated by the Traffic Engineer from which thru travel by trucks is permitted.

IMMEDIATE AREA OF OPERATION: A location where picking up or delivery of a load occurs.

PROHIBITED ROUTE: A street or roadway that is not a designated truck route.

RESTRICTED ROUTE: A street or roadway from which travel is limited to vehicles or loads of certain weight or size. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-21-1)

22-21-102: SCOPE AND EFFECT:

A. The Traffic Engineer, upon the recommendation of the Truck Route Committee, shall have the authority to designate those streets, highways, public ways, roadways, or portions thereof upon which trucks shall operate. He shall in addition have the authority to restrict the operations thereof. Such designation and restrictions shall be based upon traffic engineering investigations and studies, environmental considerations, economic factors affecting trucking and the trucking industry, desires of the inhabitants and neighborhood characteristics of affected areas.

B. The Traffic Engineer shall maintain in his office maps designating truck routes. Copies of such maps shall be made available to trucking interests and the public through the office of the City Clerk.

C. The Traffic Engineer shall post with appropriate signs those routes that are restricted. He may also post designated truck routes with appropriate signs. Truck route maps shall be made available to all persons desiring same, and the truck route map shall be published in the official City newspaper. Upon such publishing it shall be unlawful for thru truck traffic upon any prohibited route. The posting of signs shall not be required for enforcement. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-21-2)

22-21-103: TRUCK ROUTE COMMITTEE:

A. Composition and Appointment. There is hereby created a Truck Route Committee for the City, to be composed of seven (7) regular members and two (2) liaison members. The City Council shall appoint the regular members which shall include three (3) representatives of the local truck industry, three (3) homeowner representatives, and one person engaged in the land development business in the City. The homeowner members shall be residents of the City. The two (2) liaison members shall be selected by the City Manager from the Traffic Engineering Division and the Planning Department. The liaison members shall not have the right to vote on any matter before the Truck Route Committee, but shall have the right to be heard and to make recommendations to the Committee. Appointments to the Committee shall be made in such manner as to achieve staggered three (3) year terms. Vacancies shall be filled by appointment for the unexpired term only.

¹ For definitions of general application, see Section 1-1-203 of this Code. For definitions of general application in this Chapter, see Part 2 of Article 1 of this Chapter.

A) Regular members of the Committee shall serve without compensation for their service.

B. Meetings. The Truck Route Committee shall meet at such times and places as it may fix. The regular members shall select one of their members as chairperson. Special meetings may be called at any time by the chairperson or in his absence any member designated acting chairperson by him. A majority of the regular members shall constitute a quorum for the transaction of business. The City Traffic Engineer shall provide needed clerical support for such meetings and maintain records of such meetings in his office.

C. Duties and Authority.

1. The Truck Route Committee shall monitor, review and recommend actions concerning truck operations and related traffic flow within the City. The primary objective of the Committee shall be to develop short and long range recommendations to the City Traffic Engineer for achieving the best possible balance among economical and efficient movement of truck traffic, environmental protection against noise and air pollution relating thereto, and preservation of neighborhood values and characteristics.

2. The Committee shall function in an advisory capacity to the City Planning Commission regarding present and future needs for truck route networks, the problems associated with streets and highways designated as truck routes, the location and effectiveness of existing truck routes, and any other matters associated with truck routes in order to ensure that truck and related traffic control is a major consideration in the functions of the Commission.

3. The Truck Route Committee shall also have the duty and authority to:

a. Review and respond to citizen requests as compiled by the Traffic Engineer for restriction of truck traffic on certain routes.

b. Act as a reviewing agency for citizen complaints concerning truck traffic violations. Such complaints shall be referred to the

C,3) Traffic Engineer prior to Committee consideration.

c. Transmit valid citizen complaints to the local trucking industry for corrective action and valid trucking industry complaints to citizens' groups or appropriate agencies for corrective action.

The Truck Route Committee may, from time to time, recommend legislation to the City Council concerning trucks and truck routes. (Ord. 75-86; 1968 Code § 6-21-3)

22-21-104: OPERATION OF TRUCKS:

A. Thru truck travel shall be unlawful upon prohibited routes. It shall be unlawful for any person to operate or cause to be operated a truck upon a prohibited route without an origin or destination in the immediate area of operation.

B. Upon the designation of truck routes, it shall be unlawful for any person to operate or cause to be operated a truck upon any other street, highway or other public way; provided, however, trucks may deviate from truck routes while traveling to or from a truck terminal, garage, place of repair, place of performing a service or place of loading or unloading, and may proceed from a destination not located upon a truck route to another such destination without returning to a truck route if to so return would unreasonably increase the distance to be traveled between such destinations.

C. Any person operating a truck upon a street, highway, public way, roadways, or portion thereof that is not a truck route, upon a prohibited route, shall have in his possession a log book, delivery slip or other evidence of his point of origin and destination to justify the presence of the vehicle upon such route. Failure to produce such evidence upon request of a police officer shall be unlawful. (Ord. 75-86; Ord. 85-263; 1968 Code § 6-21-4)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 22 VEHICLE EQUIPMENT AND INSPECTION

SECTION:

22-22-101: Unsafe Vehicles Prohibited
 22-22-102: Lights, Brakes and Other Required Equipment
 22-22-103: Unauthorized Insignia
 22-22-104: School Bus Lights and Markings
 22-22-105: Inspection of Vehicles
 22-22-106: Exhaust Systems
 22-22-107: Vehicle Emissions Control Certificate

22-22-101: UNSAFE VEHICLES PROHIBITED: It is unlawful for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any street or highway within this City, any vehicle or combination of vehicles which is in such unsafe condition as to endanger any person or property. (Ord. 75-86; 1968 Code § 6-22-1)

22-22-102: LIGHTS, BRAKES AND OTHER REQUIRED EQUIPMENT:

- A. It is unlawful for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any street or highway within this City, any vehicle or combination of vehicles which does not contain those parts or is not at all times equipped with such lamps, reflectors, brakes, horn and other warning and signalling devices, mirrors, safety glass, mufflers, fenders, tires and other equipment, kept in proper condition and adjustment as required in C.R.S. 1973 §§ 42-4-202 through 42-4-233, as amended, or which is equipped in any manner in violation of said sections, or for any person to do any act forbidden or fail to perform any act required by and under said sections.
- B. The provisions of C.R.S. 1973 §§ 42-4-202 through 42-4-233, as amended, with respect to equipment on vehicles, shall not apply to implements of husbandry or farm tractors,

B) except as therein made applicable or to certain road machinery exempted by the Colorado Department of Revenue as provided by the laws of the State of Colorado.

C. Nothing contained in this Article shall be construed to prohibit the use of additional parts and accessories on any vehicle not inconsistent with the provisions herein, except that no person shall have for sale, sell or offer for sale for use upon or as a part of the equipment of a motor vehicle, trailer or semi-trailer or use upon any such vehicle any headlamp, auxiliary or foglamp, rear lamp, signal lamp, reflector or parts of any of the foregoing which tend to change the original design or performance, unless of a type which has been approved by the State Department of Revenue.

D. Nothing in this Article shall be construed as abridging or in conflict with the laws of the State of Colorado regarding the equipment that shall be required on motor vehicles. (Ord. 75-86; 1968 Code § 6-22-2)

22-22-103: UNAUTHORIZED INSIGNIA: No owner shall display upon any part of his vehicle any official designation, sign or insignia of any public or quasi-public corporation, municipal, state or national department or government subdivision without authority of such agency. (Ord. 75-86; 1968 Code § 6-22-3)

22-22-104: SCHOOL BUS LIGHTS AND MARKINGS:

- A. Every school bus, other than a small passenger-type vehicle having a seating capacity of not more than nine (9), used primarily for the transportation of school children, shall bear upon the front and rear thereof plainly visible and legible signs containing the words "School Bus" in letters not less than eight inches (8") in height, shall display four (4) visual signal lights,

- A) which shall be two (2) alternating flashing red lights visible to the drivers of vehicles approaching from the front of said bus and two (2) alternating flashing red lights visible to the drivers of vehicles approaching from the rear of said bus, and may also display four (4) additional visual signal lights, which shall be yellow signal lights mounted near each of the four (4) red lights and at the same level but closer to the vertical center line of the bus and which shall be alternately flashing with two (2) visible to the front and two (2) visible to the rear. Said visual signal lights shall be mounted as high as practicable, shall be as widely spaced laterally as practicable, and shall be located on the same level. Said lights shall have sufficient intensity to be visible at five hundred feet (500') in normal sunlight.
- B. When a school bus is equipped only with red visual signal lights, they shall be actuated by the driver of said school bus whenever such vehicle is stopped for the purpose of receiving or discharging school children and at no other time; but such lights need not be actuated when a school bus is stopped at locations where the City Traffic Engineer shall have, by prior written designation, declared such actuation unnecessary.
- C. When a school bus is equipped with alternating flashing yellow lights in addition to the red lights, and when the use of a signal light system is required, the yellow lights shall be actuated at least two hundred feet (200') prior to the point at which such bus is to be stopped for the purpose of receiving or discharging school children, and the red lights shall be actuated only at the time the bus is actually stopped. All school buses required to be equipped shall be equipped with such visual signal light systems as provided in this Section.
- D. In the case of small passenger-type vehicles operated as school buses having a seating capacity of not more than nine (9), no such visual signal lights need be displayed or actuated.
- E. Every school bus used for the transportation of school children, except those small passenger-type vehicles described in subsection D of this Section, shall be equipped with a stop signal arm mounted outside the bus on the left, alongside the driver and below the window. Such stop

- E) signal arm shall be a flat octagon with the word "Stop" printed on both sides in such a manner as to be easily visible to persons approaching from either direction. The stop signal arm shall contain two (2) alternately flashing red lamps which are connected to the alternating flashing light system described in subsection A of this Section, and the stop signal arm shall be extended only when the red visual lights are in operation. (Ord. 75-86; 1968 Code § 6-22-4)

22-22-105: INSPECTION OF VEHICLES: It is unlawful for any person to drive, stop, park or for the owner or person in charge of any vehicle to cause or knowingly permit to be driven, stopped or parked on any street or highway within this City, any vehicle which is required under the laws of the State of Colorado to be inspected unless such vehicle has been inspected at an authorized inspection station, and has attached thereto in proper position a valid and unexpired certificate of inspection as required by the laws of the State of Colorado. (Ord. 75-86; 1968 Code § 6-22-5)

22-22-106: EXHAUST SYSTEMS: Every motor vehicle shall at all times be equipped with an adequate exhaust system in constant operation and properly maintained to prevent any excessive or unusual noise, smoke or flame, and no person shall operate a motor vehicle within the City which is not so equipped, or is equipped with a muffler cutoff, bypass or similar device. It shall be unlawful for any person to operate a motor vehicle with an exhaust system that has been modified in a manner which amplifies or increases the noise emitted above that emitted by the exhaust system originally installed on the vehicle, and such original exhaust system shall comply with all the requirements of this Section. (Ord. 77-68; 1968 Code § 6-22-6)

22-22-107: VEHICLE EMISSIONS CONTROL CERTIFICATE:

- A. It shall be unlawful for any person to drive, stop, park, or for the owner or person in charge of any vehicle to cause or knowingly permit to be driven, stopped, or parked in any public place within this City any vehicle which is required under the laws of the State of Colorado to be inspected pursuant to the Automobile Inspection and Readjustment Program established pursuant

- A) to C.R.S. sections 42-4-306.5 to 42-4-316, unless such vehicle has been inspected at an authorized inspection station and has attached thereto in proper position a valid and unexpired certificate of emissions control, as required by the laws of the State of Colorado.
- B. An officer coming upon an unattended vehicle which is in apparent violation of this Section may place upon the vehicle a penalty assessment notice in accordance with the provisions of Section 22-1-104C of this Chapter.
- C. An officer coming upon an attended vehicle which is in apparent violation of this Section, may issue to the driver a summons and complaint in accordance with the Colorado Municipal Court Rules of Procedure or, at the officer's discretion, a penalty assessment notice in accordance with the provisions of Section 22-1-104C of this Chapter. If a penalty assessment notice is issued to a driver, further action regarding the penalty assessment notice shall be in accordance with Section 22-1-104C of this Chapter, except that all such further action shall be directed to the driver named in the penalty assessment notice, and not to the registered owner of the vehicle unless the driver and the owner are the same person.
- D. In any prosecution charging a violation of this Section wherein said prosecution was initiated under the provisions of subsection B hereof, proof that the particular vehicle described in the complaint was found in a public place within this City in violation of this Section, together with proof that the defendant named in the complaint was, at the time that the vehicle was so found, a registered owner of such vehicle, shall constitute in evidence a prima facie presumption that such registered owner of such vehicle was the person who parked or placed such vehicle at the location where such vehicle was found. (Ord. 83-306; Ord. 85-285)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 23 MISCELLANEOUS RULES OF THE ROAD

SECTION:

- 22-23-101: Obstruction of View or Driving Mechanism
- 22-23-102: Unlawful Riding
- 22-23-103: Boarding or Alighting From Vehicles
- 22-23-104: Riding in Trailers
- 22-23-105: Opening and Closing Vehicle Doors
- 22-23-106: Limitations on Backing
- 22-23-107: Coasting Prohibited
- 22-23-108: Following Fire Apparatus
- 22-23-109: Crossing Fire Hose
- 22-23-110: Foreign Matter on Streets or Highways
- 22-23-111: Parades or Processions; Permits
- 22-23-112: Funeral Processions
- 22-23-113: Motorcycle Rules
- 22-23-114: Railroad Trains not to Block Streets, Intersections
- 22-23-115: Interfere With Motor Vehicle of Another

22-23-101: OBSTRUCTION OF VIEW OR DRIVING MECHANISM:

- A. No person shall drive a vehicle when it is so loaded, or when there are in the front seat such number of persons, exceeding three (3), as to obstruct the view of the driver to the front or sides of the vehicle, or as to interfere with the driver's control over the driving mechanism of the vehicle.
- B. No person shall knowingly drive a vehicle while any passenger therein is riding in any manner which endangers the safety of such passenger or others.
- C. No person shall drive any motor vehicle equipped with any television viewer, screen or other means of visually receiving a television broadcast which is located in the motor vehicle at any point forward of the back of the driver's seat, or which is visible to the driver while operating the motor vehicle.
- D. No vehicle shall be operated upon any highway unless the driver's vision through any required glass equipment is normal and unobstructed.

- E. No passenger in a vehicle shall ride in such position as to create a hazard for himself or others, or to interfere with the driver's view ahead or to the sides, or to interfere with the driver's control over the driving mechanism of the vehicle; nor shall the driver of a vehicle permit any passenger therein to ride in such manner. (Ord. 75-86; 1968 Code § 6-23-1)

22-23-102: UNLAWFUL RIDING: No person shall hang on or otherwise attach himself to the outside, top, hood, or fenders of any vehicle, or to any other portion thereof, other than the specific enclosed portion of such vehicle intended for passengers or while in a sitting position in the cargo area of a vehicle if such area is fully or partially enclosed on all four (4) sides, while the same is in motion; nor shall the operator knowingly permit any person to hang on, or otherwise attach himself to the outside, top, hood, or fenders of any vehicle, or any other portion thereof, other than the specific enclosed portion of such vehicle intended for passengers or while in a sitting position in the cargo area of a vehicle if such area is fully or partially enclosed on all four (4) sides, while the same is in motion. This subsection shall not apply to parades, caravans or exhibitions which are officially authorized or otherwise permitted by law.

The above provisions shall not apply to a vehicle owned by the United States government or any agency or instrumentality thereof, or to a vehicle owned by the State of Colorado or any of its political subdivisions, or to a privately-owned vehicle when operating in a governmental capacity under contract with or permit from any governmental subdivision or under permit issued by the Public Utilities Commission of the State of Colorado when, in the performance of their duties, persons are required to stand or sit on the exterior of the vehicle and said vehicle is equipped with adequate handrails and safeguards. (Ord. 75-86; 1968 Code § 6-23-2)

22-23-103: BOARDING OR ALIGHTING FROM VEHICLES: No person shall board or alight from any vehicle while such vehicle is in motion. (Ord. 75-86; 1968 Code § 6-23-3)

22-23-104: RIDING IN TRAILERS: No person or persons shall occupy a trailer while it is being moved upon a street or highway. (Ord. 75-86; 1968 Code § 6-23-4)

22-23-105: OPENING AND CLOSING VEHICLE DOORS: No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so, and can be done without interfering with the movement of other traffic, nor shall any person leave a door open on the right side of a vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers. (Ord. 75-86; 1968 Code § 6-23-5)

22-23-106: LIMITATIONS ON BACKING: The driver of a vehicle may back the same on any street or highway or elsewhere in the City, other than a controlled access roadway, only when such movement is made with safety and without interfering with other traffic. Evidence that a backing vehicle collided with any person or object shall create a rebuttable presumption that such backing movement was unsafe. (Ord. 75-86; 1968 Code § 6-23-6)

22-23-107: COASTING PROHIBITED:

- A. The driver of any motor vehicle when travelling upon a downgrade of a street or highway shall not coast with the gears of such vehicle in neutral.
- B. The driver of a commercial motor vehicle when travelling upon a downgrade of a street or highway shall not coast with the clutch disengaged. (Ord. 75-86; 1968 Code § 6-23-7)

22-23-108: FOLLOWING FIRE APPARATUS: The driver of any vehicle other than one on official business shall not follow any fire apparatus travelling in response to a fire alarm closer than five hundred feet (500'), or drive into or park such vehicle within the block where the fire apparatus has stopped in answer to a fire alarm. (Ord. 75-86; 1968 Code § 6-23-8)

22-23-109: CROSSING FIRE HOSE: No vehicle shall be driven over any unprotected

hose of a fire department used at any fire, alarm of fire or practice run laid down on any street, private driveway or highway except at the direction of a fireman or a police officer. (Ord. 75-86; 1968 Code § 6-23-9)

22-23-110: FOREIGN MATTER ON STREETS OR HIGHWAYS:

- A. No person shall throw or deposit upon any street or highway within this City any glass bottle, glass, stones, nails, tacks, wire, cans, or any other substance likely to injure any person, animal or vehicle; nor shall any person dump, deposit, throw or leave any litter on any public or private property in this City, except in a receptacle or container provided for such purpose.
- B. Any person who drops or permits to be dropped or thrown, upon any street or highway or structure within this City any destructive or injurious material or lighted or burning substance, shall immediately remove the same or cause it to be removed.
- C. Any person removing a wrecked or damaged vehicle from a street or highway within this City shall remove any glass or injurious substance dropped upon the street or highway from such vehicle. (Ord. 75-86; 1968 Code § 6-23-10)

22-23-111: PARADES OR PROCESSIONS; PERMITS: No funeral procession or parade, except the forces of the United States Armed Services, the military forces of this State, and the forces of the Police and Fire Departments, shall occupy, march or proceed along any street in this City except in accordance with a permit issued by the Chief of Police and in compliance with such other regulations as are set forth in this Code. (Ord. 75-86; 1968 Code § 6-23-11)

22-23-112: FUNERAL PROCESSIONS:

- A. A funeral procession shall be identified by such method as may be required by the Colorado Springs Police Department.
- B. Each driver in a funeral procession shall drive as near to the right hand edge of the roadway as practicable and shall follow the vehicle ahead as closely as is practicable and safe.

- C. No driver of a vehicle shall drive between or join the vehicles comprising a funeral procession while said vehicles are in motion and when said vehicles are conspicuously designated as required in this Section. This provision shall not apply at intersections where traffic is controlled by signals or police officers. (Ord. 75-86; 1968 Code § 6-23-12)

22-23-113: MOTORCYCLE RULES:

- A. No person shall operate any motorcycle or motor driven cycle on any street or highway within this City unless such person and any passenger thereon is wearing eye goggles or eyeglasses made of safety glass or plastic lens. (Ord. 77-111; 1968 Code § 6-23-13)
- B. Any motorcycle carrying a passenger, other than in a side car or enclosed cab, shall be equipped with foot rests for such passengers.
- C. Every person operating a motorcycle shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of any other vehicle under this Chapter, except as to special regulations herein and except as to those provisions of this Chapter which by their nature can have no application.
- D. A person operating a motorcycle shall ride only upon the permanent and regular seat attached thereto, and such operator shall not carry any other person, nor shall any other person ride on a motorcycle unless such motorcycle is designed to carry more than one person, in which event a passenger may ride upon the permanent seat if designed for two (2) persons, or upon another seat firmly attached to the motorcycle at the rear or side of the operator.
- E. A person shall ride upon a motorcycle only while sitting astride the seat, facing forward, with one leg on either side of the motorcycle.
- F. No person shall operate a motorcycle while carrying packages, bundles or other articles which prevent him from keeping both hands on the handlebars.
- G. No person shall carry any person, nor shall any person ride, in a position that will interfere with the operation or control of the motorcycle or the view of the operator.
- H. All motorcycles are entitled to full use of a traffic lane and no motor vehicle shall be driven in such a manner as to deprive any motorcycle of the full use of a traffic lane. This subsection shall not apply to motorcycles operated two (2) abreast in a single lane.
- I. The operator of a motorcycle shall not overtake or pass in the same lane occupied by the vehicle being overtaken.
- J. No person shall operate a motorcycle between lanes of traffic or between adjacent lines or rows of vehicles.
- K. Motorcycles shall not be operated more than two (2) abreast in a single lane.
- L. Subsections I and J of this Section shall not apply to police officers in the performance of their official duties.
- M. No person riding upon a motorcycle shall attach himself or the motorcycle to any other vehicle on the roadway. (Ord. 75-86; 1968 Code § 6-23-13)

22-23-114: RAILROAD TRAINS NOT TO BLOCK STREETS, INTERSECTIONS:

It shall be unlawful for any person to direct, order or permit the operation or operate any railroad train in such a manner as to prevent the use of the street or roadway for purposes of vehicular or foot travel by blocking or otherwise preventing the movement of such traffic thereon for any period of time longer than five (5) consecutive minutes in duration, and if a street or roadway is so blocked for a period of five (5) minutes, it shall be left clear for a period of at least five (5) minutes before it is again blocked; provided, that the provisions of this Section shall not apply to trains traveling continuously in the same direction through such intersection or crossing. (Ord. 75-86; 1968 Code § 6-23-14)

22-23-115: INTERFERE WITH MOTOR VEHICLE OF ANOTHER:

It shall be unlawful for any person who is not the owner or operator thereof to tamper, meddle or interfere with any motor vehicle or to start the machinery thereof while the same is standing still, or to puncture or otherwise mutilate the tires or to scratch, mark or otherwise deface the body or apparatus thereof, or to take or remove from such motor vehicle any part or portion of the

machinery, equipment or other portion thereof, or to throw, cast or hurl any stones, rock, glass or other missile at any automobile or motorcycle or the occupant or occupants thereof. (Ord. 75-86; 1968 Code § 6-23-15)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 24 OBEDIENCE TO TRAFFIC REGULATIONS

SECTION:

- 22-24-101: Authority of Police and Fire Department Officials
- 22-24-102: Required Obedience to Traffic Laws
- 22-24-103: Obedience to Police and Fire Department Officials
- 22-24-104: Applicability to Persons Riding or Leading Animals or Driving Animal-Drawn Vehicles
- 22-24-105: Restricted Use of Recreational Equipment
- 22-24-106: Public Employees to Obey Traffic Regulations
- 22-24-107: Authorized Emergency Vehicles
- 22-24-108: Actions on Approach of Authorized Emergency Vehicles
- 22-24-109: Eluding or Attempting to Elude Police Officer

22-24-101: AUTHORITY OF POLICE AND FIRE DEPARTMENT OFFICIALS: It shall be the duty of the officers of the Police Department, or such officers as are assigned by the Chief of Police, to enforce all street and traffic regulations of this City and all of the State laws applicable to street and highway traffic in this City.

- A. Police. Officers of the Police Department, or such special officers as are assigned by the Chief of Police, are hereby authorized to direct all traffic by voice, hand or signal in conformance with State traffic laws and this Chapter; provided, that, in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the Police Department and other special officers as are assigned by the Chief of Police, may direct traffic as conditions may require, notwithstanding the provisions of State traffic laws or the provisions of this Chapter.
- B. Fire Department Members. Members of the Fire Department, when at the scene of a fire, may direct or assist the police in directing traffic there at or in the immediate vicinity.
- C. School Crosswalk Guards. Employees or agents of the school districts within the City of Colorado Springs are hereby authorized to direct traffic by voice, hand or signal in conformance with State

- C) traffic laws and this Chapter at school crosswalks as established by the school district and approved by the City Traffic Engineer and Chief of Police. It shall be the responsibility of the school districts who initiate school crosswalk guard programs to insure the training of school crosswalk guards. Further, it shall be the responsibility of the school districts who engage in a school crosswalk guard program to insure that school crosswalk guards are on duty in accord with the school district's program. The school districts understand and agree that the City of Colorado Springs assumes no liability by authorizing the school districts to enter into a school crosswalk guard program. (Ord. 75-86; Ord. 85-186; 1968 Code § 6-24-1)

22-24-102: REQUIRED OBEDIENCE TO TRAFFIC LAWS: It is a violation of this Chapter for any person to do any act forbidden or to fail to perform any act required in this Chapter. (Ord. 75-86; 1968 Code § 6-24-2)

22-24-103: OBEDIENCE TO POLICE AND FIRE DEPARTMENT OFFICIALS: No person shall wilfully fail or refuse to comply with any lawful order or direction of any police officer or member of the Fire Department at the scene of a fire, who is invested by the law or ordinance with authority to direct, control or regulate traffic. (Ord. 75-86; 1968 Code § 6-24-3)

22-24-104: APPLICABILITY TO PERSONS RIDING OR LEADING ANIMALS OR DRIVING ANIMAL-DRAWN VEHICLES:

- A. Every person riding or leading an animal or driving any animal-drawn conveyance upon a street or roadway of this City, shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle, except those provisions of this Chapter which by their nature can have no application.
- B. Persons riding or leading animals on or along any street or highway within this City shall ride or lead such animals on the left side of said street or highway facing approaching traffic. This shall

- B) not apply to persons driving herds of animals along a street or highway where such movement is permitted. (Ord. 75-86; 1968 Code § 6-24-4)

22-24-105: RESTRICTED USE OF RECREATIONAL EQUIPMENT:

- A. No person shall use any street or highway within this City for traveling on skis, toboggans, coasting sleds, skates or similar devices, except as otherwise provided in subsections C and D of this Section, and it shall be unlawful for any person to use any roadway within this City as a sled or ski course for the purpose of coasting on sleds, skis or similar devices.
- B. No person upon roller skates or riding in or by means of any coaster, toy vehicle or similar device shall go upon any roadway in this City except while crossing a street in a crosswalk, and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians.
- C. A snowmobile may be operated on streets and highways under the jurisdiction of this City only when such operation is authorized by special ordinance or addition to this Chapter and appropriate notice is given thereof, and then only in the manner and on such streets prescribed by such ordinance consistent with the provisions of State law.
- D. This Section shall not apply upon any street or portion thereof set aside as a play street and adequately roped off or otherwise marked for such purpose. (Ord. 75-86; 1968 Code § 6-24-5)

22-24-106: PUBLIC EMPLOYEES TO OBEY TRAFFIC REGULATIONS:

- A. The provisions of this Chapter applicable to the drivers of vehicles upon the streets and highways in this City shall apply to the drivers of all vehicles owned or operated by the United States, this State, or any county, city, town, district or any other political subdivision of the State, except as otherwise provided in this Chapter.
- B. The operator of City motor vehicles or other equipment actually engaged in cleaning, washing, repairing or otherwise working upon the surface or structure of the highways or the

- B) adjacent curbs, sidewalks or parkways, or upon street lights, traffic control devices and signals, or on other wires and devices suspended immediately above the surface of the highway, may deviate from the duties and prohibitions of this Chapter, provided adequate warning devices are in place to alert traffic of such deviation, and provided further that such deviation can be made without endangering other motor vehicles or persons. (Ord. 75-86; 1968 Code § 6-24-6)

22-24-107: AUTHORIZED EMERGENCY VEHICLES:

The driver of an authorized emergency vehicle, when responding to an emergency call or when in pursuit of an actual or suspected violator of the law, or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this Section but subject to the conditions herein stated.

- A. The driver of an authorized emergency vehicle may:
1. Park or stand a vehicle, irrespective of the provisions of this Chapter;
 2. Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;
 3. Exceed the maximum speed limit so long as he does not endanger life or property.
 4. Disregard regulations governing direction of movement or turning in specified directions.
- B. The exemptions herein granted to an authorized emergency vehicle shall apply only when such vehicle is making use of audible and visual signals meeting the requirements of State law, except that an authorized emergency vehicle being operated as a police vehicle while in actual pursuit of a suspected violator of any provision of this Chapter or any provision of State law applicable to drivers and vehicles in this City, need not display or make use of audible and visual signals so long as such pursuit is being made to obtain verification of or evidence of the guilt of the suspected violator.
- C. The provisions of this Section shall not relieve the driver of an authorized emergency vehicle from the duty to drive when due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of his reckless disregard for the safety of others.

- D. The driver of an authorized emergency vehicle shall carry in the vehicle at all times the designation required by State law attesting to the fact that such vehicle has been designated by the State Motor Vehicle Agency as an authorized emergency vehicle by virtue of its use for the preservation of life or property, or for the execution of emergency governmental functions, but failure to carry the written designation shall not affect the status of the vehicle as an authorized emergency vehicle. (Ord. 75-86; 1968 Code § 6-24-7)

22-24-108: ACTIONS ON APPROACH OF AUTHORIZED EMERGENCY VEHICLES: Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of State law, or of a police vehicle properly and lawfully making use of an audible or visible signal or both:

- A. The driver of every other vehicle shall yield the right of way and shall immediately drive to a position parallel to, and as close as possible to, the righthand edge or curb of a street or highway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.
- B. Every pedestrian shall yield the right of way and shall immediately leave the roadway and remain off the same until said vehicle has passed, except when otherwise directed by a police officer. (Ord. 75-86; 1968 Code § 6-24-8)

22-24-109: ELUDING OR ATTEMPTING TO ELUDE POLICE OFFICER: It shall be unlawful for any operator of a motor vehicle who a police officer has reasonable grounds to believe has violated a State law or ordinance of this City, and who has received a visual or audible signal such as a red light or siren from such police officer driving a marked vehicle showing the same to be an official police vehicle directing the said operator to bring his vehicle to a stop, to wilfully increase his speed or extinguish his lights in an attempt to elude such police officer, or to wilfully attempt to or in fact to elude such police officer in any other manner. (Ord. 75-86; Ord. 81-204; 1968 Code § 6-24-9)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC

ARTICLE 25 REMOVAL AND IMPOUNDMENT OF VEHICLES

SECTION:

22-25-101: Authority to Impound Vehicles
 22-25-102: Illegal Parking
 22-25-103: Storage and Towing Charges

22-25-101: **AUTHORITY TO IMPOUND VEHICLES:**

Members of the Police Department are hereby authorized to remove, or have removed at their direction, any vehicle from any public or private way or place, under any of the circumstances hereinafter enumerated, the City Council hereby finding and determining that such vehicles under such circumstances are public nuisances. Any vehicle removed under the provisions of this Section may be taken to the City garage, to any lot maintained by the City, to the Police Department for the storage of impounded vehicles, or to any other place designated by the Police Department, or under contract with the City, for the storage and maintenance of such impounded vehicles.

No action for the recovery of compensation for damages to or loss from any motor vehicle impounded under the provisions of this Code shall be maintained against the City when:

- A. Any vehicle is left unattended upon any bridge, viaduct, subway or tunnel, or where such vehicle constitutes an obstruction to traffic.
- B. A vehicle upon a public way is so disabled as to constitute an obstruction to traffic and the person in charge of the vehicle is by reason of physical injury or other physical condition incapacitated to such an extent as to be unable to provide for its custody or removal.
- C. Any vehicle is left unattended upon a street or parked illegally so as to constitute a definite hazard or obstruction to the normal movement of traffic, or when left on any public street with engine running, or with key in the ignition, or both, or when parked in any area designated by the Traffic Engineer as a "tow-away" area; or when any vehicle is left unattended or parked so as to block ingress or egress from driveways so as to obstruct sidewalk pedestrian traffic.
- D. A vehicle is left parked in the same place upon a public way continuously for a period of seventy two (72) hours, or when any vehicle is left parked upon a street fronting on a business zone area continuously for a period of twenty four (24) hours or more.
- E. The driver of such vehicle is taken into custody by the Police Department and the vehicle would thereby be left unattended.
- F. A vehicle is found being driven upon the street or other public way of the City and the same is not equipped with all the necessary parts and equipment as required by this Chapter, or does not meet the standards of the parts or equipment required therein.
- G. The driver of a vehicle is reasonably suspected of using license plates or a license permit unlawfully, misusing the license plates or license permit issued to him, or a vehicle is driven or parked upon a public way without proper license plates or license permit, or driven or parked with an invalid or expired license permit.
- H. The driver of a vehicle is driving without an operator's license or chauffeur's license which is current and valid, or does not have such license in his immediate possession, or who drives a vehicle contrary to restrictions imposed upon his license, or who drives a vehicle while his operator's license or chauffeur's license has been denied, suspended, cancelled or revoked by the State.
- I. A vehicle is found on or so near to any railroad track as to block the same in any manner.
- J. Any truck-trailer is found to be parked in any parking-metered space.

- K. Any semi-trailer is found to be parked in any parking-metered space.
- L. The driver of any vehicle, or the vehicle which he is driving, is reasonably believed to have been involved in an accident and to have left the scene without reporting the accident to proper authorities.
- M. Any vehicle is reasonably suspected of being a stolen vehicle, or parts thereof to be stolen parts.
- N. The driver of any vehicle is taken into custody for a suspected felony or misdemeanor, or when the vehicle is suspected of containing stolen goods or other contraband.
- O. Except as to vehicles parked in a City-owned parking lot or structure in violation of Article 16 of this Chapter, which vehicles may be immediately impounded pursuant to Section 22-16-110A of this Chapter, any automobile or other motor vehicle is left parked on any roadway, employee parking area, public parking lot, or other place at the Municipal Airport, for a period of thirty (30) days or more. Any vehicle left parked at the Municipal Airport for a period of thirty (30) days or more shall be presumed to have been abandoned by the owner, and is declared to be a public nuisance.
- P. A driver, owner or person in charge of such vehicle has received a notice to respond to a charge against him for a violation of this Chapter and such driver, owner or person in charge of such vehicle has failed to respond and answer to such charge as hereinabove provided, provided also that under the circumstances in this subsection set forth, employees of the City acting in their official capacity and officers of the Police Department, may and they are thereby authorized to temporarily and for a period of seventy two (72) hours immobilize such vehicle by installing on or attaching to such vehicle, a device designed to restrict the normal movement of such vehicle, and if such vehicle is so immobilized the employee of the City or police officer so installing or attaching such device shall conspicuously affix to such vehicle a notice in writing, on a form to be provided by the Chief of Police, advising the owner, driver or person in charge of such vehicle that such vehicle has been immobilized by the City for violation of one or more of the provisions of this Chapter and that release from such immobilization may be obtained at a designated place; that unless arrangements are made for the release of such vehicle (within 72 hours) the vehicle will be removed from the streets at the direction of the employees of the City acting in their official capacity, or by a police officer, and that removing the device before a release is obtained is unlawful; and containing such other information as the Chief of Police shall deem necessary. It shall be unlawful for any person to remove any such device before a release is obtained as herein provided, or to move any such vehicle before the same is released by the Police Department or the Clerk of the Municipal Court; and where such vehicle has been properly immobilized in such manner a fee set by the Municipal Judge shall be charged by the Police Department or Clerk of the Municipal Court before releasing such vehicle, and the parking restrictions, if any, otherwise applicable shall not apply when such vehicle is so immobilized. If the vehicle has remained immobilized for a period of seventy two (72) hours and release has not been obtained, the police officer or employee of the City causing such immobilization shall have such vehicle impounded.
- Q. Except as to vehicles parked in a City-owned parking lot or structure in violation of Article 16 of this Chapter, which vehicles may be immediately impounded pursuant to Section 22-16-110A of this Chapter, any vehicle is left parked at any City-owned or City-operated parking lot or structure, other than at the Municipal Airport, for a period of thirty (30) days or more. Such vehicle shall be presumed to have been abandoned by the owner and is declared to be a public nuisance.
- R. Any vehicle is parked, stopped or allowed to stand in a City-owned parking lot or structure in violation of Article 16 of this Chapter.
- S. An unlicensed and/or inoperable vehicle, within the meaning of Section 14-15-113 of this Code, is being maintained on property within this City in violation of Chapter 14 of this Code. Such vehicles shall be removed by private contractor retained by the Police Department or other City agency, upon the request of the Planning Department or its authorized representatives, made after compliance with the procedures established in Section 14-17-108 of this Code, to the lawful place designated for storage of vehicles seized pursuant to this Article, and thereupon surrendered to the custody of the Chief of Police for storage and/or disposal pursuant to the procedures established in this Article. (Ord. 75-86; Ord. 83-319; Ord. 84-169; 1968 Code §6-25-1)

22-25-102: ILLEGAL PARKING:

- A. It shall be unlawful for any person to park or leave unattended a vehicle in the manner described in subsections A, C, D, I, J or K of Section 22-25-101 above.
- B. The registered owner of such vehicle shall be presumed to have left such vehicle parked or unattended as described in subsection A of this Section. (Ord. 75-86; 1968 Code § 6-25-2)

22-25-103: STORAGE AND TOWING CHARGES:

No vehicle removed to and stored and impounded in the City garage or in a lot maintained for the storage of impounded vehicles, as provided in Section 22-25-106 of this Chapter, shall be released therefrom until the charge for towing or otherwise removing such vehicle thereto, and the charge for storing the same shall have been paid. A charge for the towing or other removal of any such vehicle shall be based upon a computation of all actual expenses the City incurred in accomplishing such towing or removal, and a schedule of such charge or charges shall be posted for public inspection in the offices of the Police Department, the Traffic Violations Bureau and the Impoundment Lot. The charge for storing each vehicle so removed to and stored or impounded in the City garage or a lot maintained for that purpose, shall be fixed by the City Manager or his designated representative based upon a computation of the actual expenses incurred by the City in maintaining such lot or garage. The City Manager, or his designated representative, in his discretion, may waive the imposition and collection of all or any part of the storage charges specified herein, whenever in his judgment the imposition thereof would be an injustice. (Ord. 75-86; 1968 Code § 6-25-3)

22-25-104: NOTICE OF IMPOUNDMENT, OWNER KNOWN:

Whenever an officer, or other employee of the City so authorized, removes a vehicle from the streets as authorized in Section 22-25-101 of this Chapter, the Police Department as soon as practicable thereafter, shall attempt to ascertain from the registration or other records in the vehicle, the name and address of the owner thereof, and if such name and address can be obtained, the Police Department shall, as soon as possible thereafter, cause notice in writing to be delivered by certified mail to the registered owner at the address shown on the registration. Such notice shall contain the following:

- A. The date of such removal.
- B. The reason for removal.
- C. The place to where such vehicle has been removed.
- D. Notice that no claim of ownership or the right to possession thereof has been made and

- D) provided no claim of ownership or the right to possession is made and established to the satisfaction of the City Manager, and no suit or action to determine the same has been instituted, upon the expiration of thirty (30) days from the date of the impoundment the vehicle will be sold at a time and place specified by the City Manager or his designated representative in accordance with the provisions of this Chapter. A copy of said notice shall be sent certified mail to all lien holders of record at their address shown on the registration. (Ord. 75-86; 1968 Code § 6-25-4)

22-25-105: UNKNOWN OWNER OR UNCLAIMED VEHICLE, DUTY OF CHIEF OF POLICE:

Whenever an officer or employee of the City removes a vehicle from a public way, under the provisions and authority of Section 22-25-101 of this Chapter, and does not know or is not able to ascertain the name of the owner thereof, or for any other reason is unable to give the notice to the owner as provided in Section 22-25-104 of this Chapter, and in the event the vehicle is not returned to the owner within a period of three (3) days, then in that event the Chief of Police may consider that such motor vehicle has been stolen and shall immediately send or cause to be sent, a written report of such removal, by mail, to the State Department whose duty it is to register motor vehicles. Such notice shall include a complete description of the vehicle, the date, time and place of removal, the reasons for such removal, and the name of the garage or other place where the vehicle is stored, with the request that the owner of the vehicle be notified immediately. (Ord. 75-86; 1968 Code § 6-25-5)

22-25-106: SALE OF UNCLAIMED VEHICLES, PROCEEDS:

Whenever, pursuant to the terms of this Chapter, a vehicle has been stored in the City garage or any other lot so maintained for the storage of impounded vehicles for a period of thirty (30) days and no claim of ownership or the right to possession thereof has been made, and whenever such claim has been made but not established to the satisfaction of the City Manager within such thirty (30) days, and no suit or action to determine the same has been instituted and is pending, the City Manager or his designated representative may sell such vehicle in the following manner:

- A. In accordance with the terms of a notice given as provided in Section 22-25-104, or without giving notice if no person claiming an interest in the vehicle is known to the City Manager or his designated representative, a sale of the vehicle by auction may be had to satisfy any valid claims of the City for the storage and removal of the vehicle and to discharge the City from further responsibility in connection with the vehicle, and from any duty to further retain or store the same. The sale shall be held in the place where the vehicle is stored and impounded, or if such place is manifestly

- A) unsuitable for the purpose, at the nearest suitable place.
- B. At any time after thirty (30) days from the date of impoundment, the City Manager or his designated representative shall cause to be published an advertisement of sale describing the vehicle to be sold, and stating the names of all persons known by the City Manager to claim an interest in the vehicle, if there are any such persons, and the time and place of the sale. Such advertisement shall be published at least once in the official newspaper of the City.¹ The sale shall be had not less than ten (10) days from the date of the first publication.
- C. From the proceeds of such sales, the City Manager or his designated representative shall satisfy the claim of the City for such charges of removal, storage and advertisement that he shall deem reasonable. The balance, if any, of the proceeds shall be paid into the Police Pension Fund. Within thirty (30) days from the date of any sale resulting in the payment of any such balance of proceeds into the Police Pension Fund, any person claiming to be entitled to any portion of such proceeds may request the City Manager or his designated representative to initiate the refund to him, whereupon the City Manager or his designated representative shall make, or cause to be made, a thorough examination into the merits of such refund, determine whether it is justified, and approve or disapprove the same. Failure of any person to so request the initiation of a refund to him within thirty (30) days from the date of the sale, shall be conclusive of the fact that he has no meritorious claim for such refund, and he shall not thereafter be entitled to such refund.
- D. When any vehicle is offered for sale or auction pursuant to the terms of this Section, and there is no bid or offered bid for the same, the City Manager or his designated representative shall declare the same to be sold to the City for the amount of the charges for the removal and storage of such vehicle, and the charges or expense of notice, advertisement and sale, and shall place the same in custody of the City Manager or his designated representative for the sole benefit and use of the City.
- E. There shall be no right to redemption from any sale made pursuant to the terms of this

- E) Section, and after a vehicle has been sold pursuant to such terms, neither the City nor any officer, agent or employee thereof shall be liable for failure to deliver such vehicle to anyone other than the purchaser or purchasers at such sale. (Ord. 75-86; 1968 Code § 6-25-6)

**22-25-107: REMOVAL, DISPOSAL OF
AUTOMOBILE HULKS AND
JUNKERS:**

- A. Members of the Police Department are hereby authorized to remove, or have removed at their direction an automobile hulk from any public or private way or place. For purposes of this Section "automobile hulk" means any motor vehicle meeting all the following:
 - 1. Left unattended for seventy two (72) hours or more;
 - 2. Three (3) years old or older;
 - 3. Extensively damaged, such damage including but not limited to any of the following: A broken window, windshield or both, missing wheels, tires, motor or transmission;
 - 4. Apparently inoperable; and
 - 5. Having an apparent value of fifty five dollars (\$55.00) or less.
- B. The officer shall record the make of motor vehicle, the serial number, when available, and shall also detail the damage or missing equipment to substantiate the value of fifty five dollars (\$55.00) or less.
- C. No person shall wilfully leave an automobile hulk on a public or private way or place for a period greater than seventy two (72) hours, and such vehicle so left shall be posted by a Police Department employee or representative with seventy two (72) hour notification of summary disposal as a nuisance. If such nuisance is then not abated, the Police Department may then arrange for summary disposal of the automobile hulk. (Ord. 75-86; 1968 Code § 6-25-7)
- D. For vehicles of an apparent value of more than fifty five dollars (\$55.00) but less than one

1. See Section 1-1-601 of the Code of the City.

- D) hundred dollars (\$100.00), a class of "junkers" is hereby established. A junker will be towed to the pound if left for a period of seventy two (72) hours after notice is posted on the windshield that it will be impounded, and held for a minimum of fifteen (15) days. The notification procedure hereinafter provided will be followed. If a claim to a junker is not established to the satisfaction of the City Manager or his designated representative it will be sold to the highest bidder who shall be a bona fide auto salvage dealer with properly zoned property by contracts to remove all junkers in quantity lots within a specified time period. (Ord. 77-12; 1968 Code § 6-25-7)
- E. Whenever as authorized in this Section, an officer or employee of the City removes a vehicle other than an automobile hulk from the place where it was left, and the officer or employee knows, or is able to ascertain from the registration or other records in the vehicle or by other means the name and address of the owner thereof, and if the vehicle is not reclaimed within two (2) days of impoundment, such officer or employee shall give, or cause to be given, on the first business day subsequent to first two (2) days of impoundment a notice in writing to such owner of the fact of such removal, the reason therefor and the place to which such vehicle has been removed.
- F. Whenever an officer or employee of the City removes vehicles from the place where left under the provisions and authority of this Section, and does not know or is not able to ascertain the name of the owners thereof, or for any other reason is unable to give notice to the owners as hereinbefore provided, and the vehicles are subsequently disposed of as provided hereafter, a report of dispositions and identifying description will be given to the State Department whose duty is to register motor vehicles.
- G. Whenever, pursuant to the terms of this Section, a vehicle has been impounded other than as an automobile hulk, and no claim of ownership or the right to possession thereof has been made, or when such claim has been made, but not established to the satisfaction of the City Manager or his designated representative and no suit or action to determine such claim has been instituted and is

- G) pending, the City Manager may dispose of such vehicle in the following manner:

1. The City Manager or his designated representative shall cause written notice to be given to all persons known by him to claim an interest in the vehicle within a reasonable time after impoundment. Such notice shall be given by delivery in person or by registered or certified mail, addressed to the last known address of the business or abode of the person to be notified. The notice shall contain:

a. An itemized statement of the amount due to the City for removal and storage of the vehicle, showing the amount due at the time of notice,

b. A description of the vehicle,

c. A demand that the amount due to the City as stated in the notice and such further claims as shall accrue, shall be paid and the right to the possession of the vehicle shall be established to the satisfaction of the City Manager or his designated representative on or before a date mentioned, not less than thirty (30) days from the date of impoundment or fifteen (15) days if the vehicle is determined to be a junker; and

d. A statement that unless the amount so due the City is paid and the right to possession of the vehicle is established to the satisfaction of the Manager within the time specified, the vehicle, subsequent to advertisement of specific time and place of proposed sale, can be sold by auction, and that if determined to be a junker by auctioned sale as junk together with other such vehicles.

2. The City Manager or his designated representative, in accordance with the terms of a notice so given, or without the giving of such notice if no person claiming an interest in the vehicle is known to the Manager, or his designated representative, shall conduct a sale of the vehicle by auction to satisfy any valid claims of the City in accordance with Section 22-25-106 of this Chapter. (Ord. 75-86; 1968 Code § 6-25-7)

CHAPTER 22 MOTOR VEHICLES AND TRAFFIC
ARTICLE 26 EXISTING TRAFFIC CONTROLS

SECTION:

22-26-101: Existing Traffic Controls

22-26-101: EXISTING TRAFFIC CONTROLS:

Barricades, center lines, freight or passenger loading zones, lane-direction control signals, lane lines, lane streets or highways, loading zones, markings, official traffic control devices, parking meters, pedestrian-control signals, railroad signs or signals, safety zones, stop lines, traffic control signals, posted speed limits, play streets, acceleration lanes, alleys, business districts, controlled-access streets or highways, crosswalks, deceleration lanes, divided highways, intersections, lanes, medians in central dividing strips, play streets, ramps, roadways, sidewalks or sidewalk areas, streets or highways, through streets or highways, bus stops, taxicab stands, authorized emergency vehicles which are effective and/or established as presently required at the time of the passage of this Chapter into law shall be effective pursuant to the authority granted by the provisions of this Chapter as if established and/or posted under this Chapter until such time as they may be changed under the provisions of this Chapter.¹ (Ord. 75-86; 1968 Code § 6-29)

1. The ordinance from which this provision derives became effective September 4, 1975.
