A Memorial to the Congress of the United States relative to the coining of silver in the Branch Mint at Denver, Colorado territory.

To the Honorable, the Senate and House of Representatives of the United States, in Congress Assembled:

Your memorialists, the legislative assembly of the territory of Colorado, would respectfully represent that, within the last two years, there has been discovered in this territory, a great number of rich silver mines, that soon will be worked extensively, and open a new era in Colorado. These silver ores can be reduced cheaply, and must result in great profit to the operators, and in view of the fact that our national currency will

soon reach a specie standard, we respectfully request your honorable body to authorize and empower the U.S. Branch Mint in the city of Denver, to coin silver bullion, and furnish our miners with money from the precious metals they have contributed to produce.

Approved January 10, A. D. 1868.

A Joint Memorial and resolution relative to additional appropriations for the purpose of building a penitentiary in Colorado territory.

To the Senate and House of Representatives of the United States, in Congress Assembled:

Your memorialists, the council and house of representatives of the territory of Colorado, would respectfully represent that the sum of forty thousand dollars appropriated by the Congress of the United States, by the act approved January 22, 1867, for the purpose of erecting a penitentiary in the territory of Colorado, is inadequate for the erection of any prison required by by the wants of this territory. A large majority of our counties are without a jail or prison of any kind, and in these a conviction amounts to an acquital. Our people have been too often compelled to step beyond the limit of the statute and resort to the first law of nature, and administer summary punishment to offenders. For years past these evils have pressed sorely upon our people, and we appeal to you, as guardians of this people, for such an appropriation as will give us a secure prison; and to this end we would suggest that an additional appropriation, of at least forty thousand dollars, is absolutely necessary for the attainment of the object contemplated. The cost of building materials, which are not manufactured in this territory with the high prices of labor, render the cost of construction twice as great as in the states.

Resolved, That a copy of this memorial and resolution be forwarded to the secretary of the interior, president of the senate, and speaker of the house of representatives of the Congress of the United States, and to our delegate therein.

Approved January 10, A. D. 1868.
