Comments of
Jeff Bingaman
‘UNSUSTAINABLE’ if:

1. The activity causes unacceptable damage to humans or the environment; or

2. The activity uses up or destroys the natural resource; or

3. The activity creates an unacceptable shortage of the resource.
The Keeling Curve of atmospheric CO2 concentrations measured at the Mauna Loa Observatory.
Natural gas production has been rising over the last number of years with continued oil development of the Bakken. Along with the rise in production, the sale of natural gas from North Dakota has also continued to increase (Figure 2).
## 2012 North Dakota Gas Production:
